COMPLAINT INFORMATION

Complaint: Other Complaints against Tampa Electric Company
Details:

The approval of the increase in Utility by FL Public Service Commission has greatly affected Florida residents especially in a high inflation economy and those provided services by TECO. The reason for TECO increase was for solar capability which is now funded by the FL residents even those who do not have solar nor choose to support. The affects of excessively high electric bills this summer is due to many variables but to compound the higher temps, energy increase due to inflation with three increases is irresponsible and not serving the FL resident . The commission has acted in poor judgment in passing the proposed TECO requested. It shows that Electric companies have a strong arm with FL Public

Service Commission and politicians. The FL resident is no longer considered nor represented when it comes to utilities in our State. There should be an Emergency meeting on the Public Utilities.

Respectfully,

LTC (Ret) Mark and Mrs. Heidi Donahue
