CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Could you cut the customers a little slack. Everytime we turn around your jacking up rates and I still lose power when we get a rain storm. You have raised rates 3 times to run lines under ground lines and we still don't have underground lines. How does that work....its all a rip off because you know we need power. Shame on all of you
