DOCUMENT NO. 01301-2025
FPSC - COMMISSION CLERK

Item 9

Docket No. 20240169-EG – Petition for approval of proposed demand-side management plan and demand-side management program standards, by Duke Energy Florida, LLC.

Issue 1: Should the Commission approve Duke Energy Florida, LLC's proposed DSM Plan and program standards?

Recommendation: Yes. DEF's DSM Plan is consistent with the proposed programs used to establish its DSM goals and is projected to meet the annual numeric conservation goals approved by the Commission in the 2024 Goalsetting Order. The programs included in DEF's proposed DSM Plan are also cost-effective based upon the Participants, Rate Impact Measure (RIM), and Total Resource Cost (TRC) tests. In addition, staff has reviewed DEF's program participation standards and they appear to be consistent with DEF's DSM Plan. Therefore, staff recommends that the Commission should allow DEF to file for cost recovery of the programs included in its proposed DSM Plan in the Energy Conservation Cost Recovery (ECCR) clause proceeding. However, DEF must demonstrate that the expenditures to implement its DSM programs are reasonable and prudent in order to recover those expenditures.
