Subject: RE: RE. Docket #20240032-SU

Good morning,

We will be placing your comments below in consumer correspondence in Docket No. 20240032, and forwarding them to the Office of Consumer Assistance and Outreach.

Sincerely,

Brian Schultz

Commission Deputy Clerk II
Florida Public Service Commission
2540 Shumard Oak Boulevard
Tallahassee, Florida 32399

PLEASE NOTE: Florida has a very broad public records law. Most written communications to or from state officials regarding state business are considered to be public records and will be made available to the public and the media upon request. Therefore, your e-mail message may be subject to public disclosure.

Subject: RE. Docket #20240032-SU

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

I strongly oppose the proposed septic system. I own property on Matecumbe Key in the Florida Keys. A similar system was forced upon the property owners however the county owned the project. The install took forever, the cost was way more than proposed, and ongoing fees have been more than proposed.

Since the September hurricanes, getting on and off the island during the morning and evening hours is a nightmare. More than an hour + wait. I'm sure this would be our life for many months for this project to get done. I'm also very concerned about the environmental impact to the island. I've yet to see where this project will provide any benefits to the island or its residents. The only benefit is to Environmental Utilities. Please represent the desires of the residents and stop this project.

Please do not let this project go through.
