Good Morning Ms. Johnson and Mr. Aulenti

We will be placing your comments below in consumer correspondence in Docket No. 20240032, and forwarding them to the Office of Consumer Assistance and Outreach.

Thank you

Nick Holmes
Commission Deputy Clerk II
Office of Commission Clerk
Florida Public Service Commission
850-413-6770

Subject: RE: Docket #20240032-SU

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

My husband and I live on Don Pedro Island. We have suffered thru 3 major hurricanes. These storms have caused significant damage. BUT. The one part of our life that was NOT affected, was our septic. All of our neighbors up and down our street had no problem with their septic. They were all working. Jack Boyer is out to make money off of this project. PERIOD. He is banking on having you turn over a gold mine to him. It's not needed! It would be truly terrifying if you grant approval to someone with no experience on a project of this size.

We are all suffering financially from the hurricanes. Having our roads jack hammered, landscaping ripped up, the COST of placing these units on our property, is horrifying and unnecessary.

In addition, at certain times, it now takes 1 to 3 hours to get on and off island due to the immense number of cars and workers coming over. Each barge takes 8 cars at a time. BUT, with large equipment it can reduce it to 2 cars per barge. To load vehicles, cross the intercoastal, and unload takes 15 to 20 minutes. See photo taken March 20th- taken 1/2 mile from the ferry. They waited many hours to get off the island. The expense, the intrusion on our lives, EU's proposed terrible system, and the fact that this is a horribly inept person who is asking for your approval, has us begging to have it be denied.

PLEASE give our reasons, and the overwhelming number of residents who are against EU, the consideration they deserve- and PLEASE deny this sewer application. The second picture I've enclosed was taken during the hearings in January. This picture shows only one quarter of the room. Over the course of 2 days, hundreds of people were present to speak against EU; standing room only. PLEASE deny this application.
