Dear commissioners –

As a landowner, soon to be homeowner and possible future full-time residents of Don Pedro Island we are writing to once again express our strong opposition to the proposed sewer. There is no environmental need for this, and in fact the sewer construction will cause a great deal of damage to our pristine island and its protected wildlife like the tortoises. In addition the cost to us and other homeowners is excessive, and the project will cause years of disruption and traffic headaches at a time when the island cannot handle it due to the recent hurricane. We ask that you reject EU's proposal and close this matter for good.

Sincerely,

Chris and Laura Luke
