We are your neighbors, coworkers, coaches, teachers, nurses, grocery clerks, members of your community. We are all trying to recover from the Devastation of 3 Major Hurricanes and you want to put the additional burden of a sewer when we all have good working septic systems. Why do you want to put additional financial burdens on us when there has been NO Evidence that a sewer is needed?

EU wants to put in a low pressure system that has the highest maintenance cost. Charlotte County stopped using low pressure because of spills and high maintenance. Why do you want to put it on the islands???

Many Families will not be able to afford the cost of installation and monthly fees and will have to sell. Is that what you want? Do you want the families to move out and you only have renters in the area?? Please, Please vote NO to sewer!

Laura
