Subject: Keep FPL Rates Down Docket #20250011

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commissioners,

When FPL bought Gulf Power, they promised to lower our rates. Instead, customers in Northwest Florida have continued to pay higher rates than the rest of FPL's service territory, and that rate decrease has never happened. In addition, their customer service is terrible and their concern for the local community is nonexistent. With stock markets plummeting daily and many retirees savings going with it, there couldn't be a worse time to increase utility costs. Why should FPL be guaranteed an exorbitant rate of return while their customers are suffering?

Sincerely,

Mary Story
