Subject: Docket 202500

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

We are just shocked that the FPL is going to burden Florida residents with the highest raise in electricity costs at a time when air conditioning can be life or death for us and food and health care and everything else is rising in costs

There is so much more FPL can do with solar power and other alternative ways to innovatively save customers money instead of raising prices

It is terrible please help us now
