**SECTION 63.71 APPLICATION OF AT&T**

AT&T<sup>1</sup> applies for authority under Section 214(a) of the Communications Act, as amended, 47 U.S.C. § 214, and Section 63.71 of the Federal Communications Commission's ("Commission") rules, 47 C.F.R. § 63.71, to grandfather special access DS3 services provided by its ILEC affiliates in certain wire centers located in 21 states.

---

<sup>1</sup> AT&T Services, Inc. files this application on behalf of its affiliates set out in the caption.

## INTRODUCTION

Through this application, AT&T seeks to grandfather special access DS3 services (the “Affected Services”) wherever they are still offered to new customers throughout AT&T’s 21-state ILEC footprint (the “Affected Area”). AT&T has previously applied for and received authority to grandfather the Affected Services in certain wire centers within its footprint.<sup>2</sup> As with AT&T’s earlier applications, grandfathering these outdated services will benefit the public and serve as an important step toward meeting both AT&T’s and the Commission’s goals of advancing toward next-generation technologies that customers are requesting.<sup>3</sup>

Demand for the Affected Services is very low, and businesses in the Affected Service Area have many cost-effective alternative options to choose from. Existing and prospective DS3 customers in the Affected Service Area, including wholesale customers, can secure cost effective alternatives through AT&T Switched Ethernet, AT&T Wavelength Metro<sup>SM</sup> service (formerly called AT&T Dedicated Ethernet) and other AT&T products that are superior in quality to the Affected Services. In addition, there is an array of competitive offers available in the Affected Service Area, which many businesses have already selected in lieu of the Affected Services.

---

<sup>2</sup> See Section 63.71 Application of AT&T, WC Docket No. 23-397 (filed Nov. 16, 2023) (“2023 Grandfathering Application”); *id.*, WC Docket No. 24-229 (filed July 18, 2024) (“2024 Grandfathering Application”); *id.*, WC Docket No. 25-45 (filed Jan. 31, 2025) (“2025 Grandfathering Application”). AT&T also currently has pending an application to discontinue the Affected Services in certain wire centers within 11 states, as well as an application to grandfather and discontinue the Affected Services in two wire centers within Oklahoma. See Section 63.71 Application of AT&T, WC Docket No. 25-227 (filed July 15, 2025); *id.*, WC Docket No. 25- 231 (filed July 15, 2025).

July 25, 2025) (“We are looking to unleash the private sector to build the modern networks of the future and ensure that providers are no longer forced to invest billions of dollars in aging technology.”).

These available alternatives include services offered over cable, fiber, fixed wireless, mobile wireless, and satellite technologies.

### **APPLICATION**

As required by Section 63.71 of the Commission's rules, AT&T provides the following information:

**Name and Address of Carrier:**

BellSouth Telecommunications, LLC, d/b/a AT&T Alabama, AT&T Florida, AT&T Georgia, AT&T Kentucky, AT&T Louisiana, AT&T Mississippi, AT&T North Carolina, AT&T South Carolina and AT&T Tennessee;

Illinois Bell Telephone, LLC, d/b/a AT&T Illinois;

Indiana Bell Telephone Company, LLC, d/b/a AT&T Indiana;

Michigan Bell Telephone Company, LLC, d/b/a AT&T Michigan;

Nevada Bell Telephone Company, LLC, d/b/a AT&T Nevada

The Ohio Bell Telephone Company, LLC, d/b/a AT&T Ohio;

Pacific Bell Telephone Company, d/b/a AT&T California

Southwestern Bell Telephone Company, LLC, d/b/a AT&T Arkansas, AT&T Kansas, AT&T Missouri, AT&T Oklahoma, and AT&T Texas.

Wisconsin Bell, LLC, d/b/a AT&T Wisconsin;

The address for purposes of this application is:

208 South Akard Street  
Dallas, TX 75202

**Date of Planned Service Grandfathering:**

Effective on or after November 1, 2025, pending regulatory approval, AT&T's Affected Services will be grandfathered.

**Points of Geographic Areas of Service Affected:**

AT&T plans to grandfather the Affected Services in the Affected Service Area in sections of 21 states: Alabama, Arkansas, California, Florida, Georgia, Illinois, Indiana, Kansas, Kentucky, Louisiana, Michigan, Mississippi, Missouri, Nevada, North Carolina, Ohio, Oklahoma, South Carolina, Tennessee, Texas, and Wisconsin.

**Brief Description of Type of Service Affected:**

AT&T plans to grandfather special access DS3 services provided by its ILEC affiliates in the Affected Service Area.<sup>4</sup> The Affected Services are offered only to businesses; thus AT&T does not have any residential customers using these services.

Special Access DS3 services provide a point-to-point channel for the transmission of isochronous serial digital data at rates of 44.736 Mbps.

**Brief Description of the Dates and Method of Notice to All Affected Customers:**

Customer notices were sent via U.S. Mail on July 23, 2025 for Affected Customers of the Affected Services.<sup>5</sup> Copies of this Application are being sent via first-class U.S. Mail to the governors, public utility commissions, and federally recognized tribes (if any) in the Affected

---

<sup>4</sup> Depending on the location, DS3 service may be sold under different names.

<sup>5</sup> An example notice is attached at Exhibit 1. Although the notice includes references to grandfathering DS1 services, AT&T meets the criteria under the Commission's recent waiver order to grandfather DS1 services without filing an application. *Accelerating Wireline Broadband Deployment by Removing Barriers to Infrastructure Investment*, Order, WC Dkt No. 17-84 (rel. Mar. 20, 2025) (waiving the requirement to file section 214 applications to grandfather data services with speeds below 25 Mbps/3 Mbps, so long as the applying carrier provides fixed replacement data services at speeds of at least 25 Mbps/3 Mbps throughout the affected service area and notifies customers of the grandfathering). Consequently, this application only requests authority to grandfather DS3 services.

Service Area, as well as the Special Assistant for Telecommunications to the Secretary of Defense, as required by 63.71(a) of the Commission's rules.<sup>6</sup>

**Regulatory Classification of Carrier:**

AT&T offers the Affected Services pursuant to both dominant and non-dominant carrier regulation, depending on the location.<sup>7</sup> For administrative ease, AT&T submits this application and issued customer notices as if it is subject to the dominant carrier provisions of Sections 63.71(a)(5)(ii) and (f)(1) of the Commission's rules.

Questions about this application may be addressed to Meredith Williams, AT&T Services, Inc., AVP – Federal Relations, 601 New Jersey Ave NW, Suite 400, Washington, DC, (202) 227-9725.

**Public Convenience and Necessity:**

The public convenience and necessity will not be impaired by the grandfathering of these services. The Commission recognized close to a decade ago that DS3 technologies would soon become “obsolete” in the face of significant advancement in competing services and changes in customer demand.<sup>8</sup> That prediction has come to fruition, as demand for DS3 services is very low. As a result, it is economically inefficient for AT&T to continue to provide the Affected Services.

---

<sup>6</sup> Section 63.71(a) directs applicants to submit a copy of the application to the Secretary of Defense, Special Assistant for Telecommunications. However, due to restructuring within the Department of Defense, that position no longer exists. Commission staff has advised that a copy of the application be sent instead to the Department of Defense Chief Information Officer.

<sup>7</sup> Depending on the location, DS3 services may still be tariffed. *See generally Business Data Services in an Internet Protocol Environment et al.*, Report and Order, 32 FCC Rcd 3459 (2017) (“Business Data Services Order”).

<sup>8</sup> *Id.* ¶ 3 (2017).

Current customers in the Affected Service Area have many options to choose from in lieu of the Affected Services. Most importantly, in the Affected Service Area, existing and prospective DS3 customers, including wholesale customers, can secure cost-effective alternatives through AT&T Switched Ethernet and AT&T Wavelength Metro<sup>SM</sup> service (formerly called AT&T Dedicated Ethernet Service). AT&T Business Fiber is also available in portions of the Affected Service Area. The Commission has long recognized the substitutability and superiority of Ethernet services over DS3 services.<sup>9</sup>

There are other broadly available alternatives in the Affected Service Area, which many businesses have already selected in lieu of the Affected Services, including services from cable or fiber providers, such as Charter or Xfinity, among many others.<sup>10</sup> Other customers in the Affected Service area may be instead purchasing services through fixed wireless providers, such as T-Mobile and/or Verizon. Still others may have switched to other wireless options in lieu of wired services, such as AT&T Wireless Broadband; mobile wireless service (voice and broadband) from providers including T-Mobile, Verizon, and/or AT&T; or service from satellite providers such as Viasat, HughesNet, or Starlink.<sup>11</sup> Notably, the Commission has previously

<sup>9</sup> *Id.* ¶¶ 23-24; *see also* Section 214 Application of Farmers Telecommunications Cooperative, Inc. for Authority to Discontinue Certain Services (Mar. 6, 2023), WC Docket No. 23-95 (discontinuing T1/DS1 service where Ethernet was available as a replacement service).

<sup>10</sup> More than seven years ago, the Commission identified “[t]he entry of cable into business data services provisioning” as “the most dramatic change in the market over the past decade,” noting “the fact that every increment of additional investment in cable networks brings fiber facilities closer to nearby business data services demand and lowers the cost of building to meet that demand.” *Business Data Services Order* ¶¶ 55-56. The Commission recognized that carriers — including AT&T — were losing business customers to broadband services from cable companies and noted the expected continued growth of cable business service offerings. *Id.* ¶¶ 30-31, 55-62.

<sup>11</sup> *See Id.* at ¶ 38 (predicting that “given the very high capacity of 5G networks, they have the potential to represent a significant additional source of competition for the provision of business data services.”); *see also id.* at ¶ 36. (“[s]atellite providers also offer business data

approved multiple AT&T applications to grandfather the Affected Services in smaller areas within AT&T's footprint with the same services cited as alternatives.<sup>12</sup>

Because there are numerous cost-effective, superior alternatives for prospective customers in the Affected Service Area to choose from, and because most customers have already left for such alternatives, grandfathering the Affected Services in this area will not impair the public convenience or necessity.

### **CONCLUSION**

For the reasons identified above, the public convenience and necessity will not be adversely affected by the grandfather of the Affected Services. AT&T respectfully requests the Commission approve its Section 63.71 Application to grandfather services.
