Good afternoon,

Please place the attached emails in CORRESPONDENCE – Consumers & Representatives in docket 20250011.

Thank you.

Subject: No more raises for FPL – Docket #20250011

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

As a Florida resident and consumer, I know the value of my hard-earned money. I also know that the power and light I pay for every month is a lifesaver, especially during these extreme heat waves that are becoming all too common.

Florida Power & Light (FPL) wants to raise my rates by hundreds a year and make working residents like me foot the bill for their profits and executive bonuses. Reporting has shown that 50 cents of every dollar is going to profit, not keeping the power on. Additionally, from March 2024 to February 2025, FPL shut off 1.216 M residential customers for non-payment — about a fifth of all their residential customers.

The Office of Public Counsel—the watchdog for consumers—submitted expert testimony showing FPL is inflating the numbers and should cut rates by \$620 million, not raise them.

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable.

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and consideration.

To: Office of Chairman La Rosa
Subject: Reject the FPL rate hike!

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear PSC Commissioners:

I urge you to reject what would be the largest utility rate increase in U.S. history.

Over the past five years, FPL customers have seen their annual bills increase by more than \$400. These ongoing rate hikes hit hardest for low-income families and seniors living on fixed incomes—Floridians who are already struggling to keep up with the rising cost of essentials like gas, housing, and healthcare. Adding another unaffordable rate hike on top of these burdens is unacceptable.

It is especially egregious to ask customers to pay more when FPL has reported more than \$10 billion in profits over the last five years. This proposal does not reflect the needs of everyday Floridians—it reflects the priorities of corporate shareholders and executives looking to maximize returns at the expense of the public.

The Public Service Commission has a duty to ensure that utility rates are just, reasonable, and in the public interest. I respectfully urge you to reject FPL's request to increase the monthly base rate and raise its return on equity. Floridians deserve fair and affordable energy—not price hikes that fuel corporate profits.

Please stand up for Florida's working families, retirees, and vulnerable communities, and say NO to this rate hike.

Thank you,

Sincerely,

Ashley Cook

Hello -

Just want to express my concern regarding Florida Power & Light's rate hikes, which are having a tremendously negative impact on the average Floridian, especially families that are struggling financially and the elderly population. Even compared to last year's rates, this year is just unbearable. Hope the right decisions will be made in favor of the consumer who supports the state and not FPL investors and big pockets who would not think twice about moving to another state compared to those of us who wish to remain here and not have to make such a crucial decision because we can not afford to live here anymore. Enough with the lobbyists already.

ps: and by the way, FPL does a horrible job of providing any type of relief or explanation of the current rate hike situation. They always blame it on external factors and not poor management and Wall Street greed.

Hope to hear back from at least 1 of you.

Thank you,

CC.
