**BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION**

In Re: Purchased Gas Adjustment                     )  
(PGA) True-up   )  
\_\_\_\_\_)

Docket No. 20250003-GU

Filed: August 22, 2025

**FLORIDA PUBLIC UTILITIES COMPANY’S AND FLORIDA CITY GAS’S JOINT  
PRELIMINARY STATEMENT OF ISSUES AND POSITIONS**

Florida Public Utilities Company (“FPUC”) and Florida City Gas (“FCG”) (herein, jointly, “Companies”) hereby submit this preliminary statement of issues and positions:

Issue 1:                     What are the final purchased gas adjustment true-up amounts for the period January 2024 through December 2024?

Companies:             For the period January 2024 through December 2024, the Companies had an under-recovery of \$729,664 inclusive of interest.

Issue 2:                     What are the actual/estimated purchased gas adjustment true-up amounts for the period January 2025 through December 2025?

Companies:             The actual/estimated true up amount for 2025 is an expected over-recovery of \$1,318,472 inclusive of interest.

Issue 3:                     What are the total purchased gas adjustment true-up amounts to be collected (refunded) during the period January 2026 through December 2026?

Companies:             In total, the Companies have calculated an over-recovery of \$588,808, to be refunded during the projected period.

Issue 4:                     What are the levelized purchased gas adjustment cost recovery (cap) factors (\$0.00000 per therm) for the period January 2026 through December 2026?

Companies: The appropriate PGA factor is 127.69¢ per therm.

Issue 5: What should be the effective date of the new purchased gas adjustment charge for billing purposes?

Companies: The factor should be effective beginning with the specified cost recovery cycle and thereafter for the period January 2026 through December 2026. Billing cycles may start before January 1, 2026 and the last cycle may be read after December 31, 2026, so that each customer is billed for twelve months regardless of when the adjustment factor became effective.

Issue 6: Should the Commission approve revised tariffs reflecting the new purchased gas adjustment cost recovery factors (\$0.00000 per therm) determined to be appropriate in this proceeding?

Companies: Yes. The Commission should approve revised tariffs reflecting the new purchased gas adjustment charges determined to be appropriate in this proceeding. The Commission should direct staff to verify that the revised tariffs are consistent with the Commission's decision.

Issue 7: Should this docket be closed?

Companies: This is a continuing cost recovery docket and should remain an active and ongoing proceeding. As such, a new docket number should be established annually to reflect the new calendar year.

RESPECTFULLY SUBMITTED this 22<sup>nd</sup> day of August, 2025.
