DOCUMENT NO. 14034-2025  
FPSC - COMMISSION CLERK

September 29, 2025

Adam J. Teitzman, Commission Clerk  
Florida Public Service Commission  
2540 Shumard Oak Boulevard  
Tallahassee, Florida 32399-0850

**Re: Docket No. 20250011-EI - Petition for rate increase by Florida Power & Light Company**

Dear Mr. Teitzman:

This filing is being made via the Florida Public Service Commission's web-based electronic filing portal in six separate filings due to the voluminous size of Exhibit S filed with Citizens' Third Motion and Notice of Intent to Seek Official Recognition.

This filing is Exhibit S, No. 3 of 6.

Please note **Exhibit S** has been divided into six (6) parts due to electronic filing requirements.

If you have any questions or concerns, please do not hesitate to contact me. Thank you for your assistance in this matter.

Sincerely,

/s/ Walt Trierweiler

Walt Trierweiler

**Subject:** Keep FPL Rates Down Docket #20250011

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commissioners,

As a Florida Power & Light (FPL) customer, I strongly oppose the largest rate increase in U.S. History. This excessive hike would place an unfair burden on customers, especially low-income customers or older adults on fixed incomes who simply cannot afford to pay more.

With costs for housing, healthcare, and everyday essentials already high, the last thing I need is a higher electric utility bill. FPL is already a highly profitable company—asking customers to pay more just to boost corporate profits is completely unacceptable.

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable.

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and consideration.

Sincerely,

**CAUTION:** This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commissioners,

Please put yourself in our shoes -- those of us who have worked hard all our lives who are now in a position where we have to choose between electricity and food. Now we see Florida Power & Light (FPL) asking for the largest rate increase in U.S. History. This excessive hike places and increased unfair burden on us who simply cannot afford to pay more.

Please, think of your parents being stuck in this dilemma. How would you want your parents to be treated? Please, realize that FPL is already a highly profitable company—asking customers to pay more just to boost corporate profits is completely unacceptable.

We implore you to just say NO to FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates are fair and affordable. The rates, fees, etc. that add up to our total bill is already

too high.

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and consideration.

Dear Florida Public Service Commissioners,

As a Florida Power & Light (FPL) customer, I strongly oppose the largest rate increase in U.S. History. This excessive hike would place an unfair burden on customers, especially low-income customers or older adults on fixed incomes, of which I am one, who simply cannot afford to pay more.

With costs for housing, healthcare, and everyday essentials already high, the last thing I need is a higher electric utility bill. FPL is already a highly profitable company—asking customers to pay more just to boost corporate profits is completely unacceptable.

As I drive thru our city, there are far too many tree's that are hanging over power lines, with no activity on FPL's part to trim away. In addition, we have multiple power outages on just Thunderstorms, let alone all the Hurricanes that we now get, along with the week long

outages that come with them. How about they put the profit towards reliability! Now they are trying to get you to sign up for protection plans on services they used to cover at no cost. That shows that the profit margin is the narrative.

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable.

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and consideration.

**CAUTION:** This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commissioners,

As a Florida Power & Light (FPL) customer, I am strongly opposed the enormous rate hike requested by FPL.

FPL has a monopoly on power in South Florida. They spend money on advertising! The only reason to do that is to make their customers think highly of them, when in fact they are wasting our money. FPL is already a highly profitable company—asking customers to pay more just to boost corporate profits to an even higher level is completely unacceptable.

I urge you to reject FPL's request for a higher monthly base rate and power rate. The PSC is charged with looking out for customers and to make sure that utility rates remain fair.

Please stand up for Floridians and say NO to this massive rate hike.

Sincerely,  
Gregory Conner

Dear Commissioners,

I am writing to express my support for Florida Power & Light Company's (FPL) rate request under Docket No. 20250011-EI.

As a residential customer, I've seen firsthand the value of FPL's continued investment in reliable infrastructure and quality service. I understand that rate adjustments are necessary to ensure that the company can continue to deliver safe, resilient, and forward-thinking energy solutions for Florida's growing needs.

I appreciate the opportunity to provide input and respectfully ask that you give FPL's request your full consideration.

**To:** Ellen Plendl  
**Subject:** Re: Consumer Inquiry - Florida Power & Light Company

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Thank you! Florida Power and Light company does not provide any email addresses or a way for anyone to contact the upper echelon of executives. Speaking of, those executives make 10 to 20 million dollars a year while the people, like us, are struggling to pay electric bills that are continuing to increase 48%. There are no plans to lower that rate in Lee county. The initial reason of the huge price hikes was due to hurricanes. We lived in the south for years. Tornadoes hit multiple times a year, multiple towns, causing millions of dollars of damage. Never once did the electric company raise the rates because of said damage. It's price gouging to do that to Lee county residents and it's unconscionable. Hurricane survivors have already dealt with property loss, higher insurance rates, rebuilding of their lives, some from scratch, and the FPL decides to add such a tremendous price hike on top of that. I guess there's nothing like a big corporation kicking people when they are down. For those executives, a price increase if you're making 10 million plus a year is not a hardship, but that's not the average citizen.

Thank you for forwarding my previous email and possibly this one to FPL. I don't have any illusions that my email will make a difference. FPL is a corporation that puts the corporation first, as do many, no matter the detriment it causes to it's customers. Unfortunately, money seems to ALWAYS be what matters in so many ways. Integrity and fairness doesn't play a part in the grand scheme, but I am rose colored glasses kind of person. I believe that MAYBE someone somewhere will see some validity in my point and possibly move to make things better. Someone, somewhere must have a conscious and to stand up and tell FPL what they are doing isn't right. Period.

Thank you to the Governor and his whole staff. Each of you make a difference by being in the position you are in. People like me count on people like you all to be our voice.

Warmest Regards,

Lisa Bielawski

RE: FPSC Inquiry

Dear Mrs. Bielawski:

The Governor's office forwarded a copy of your email regarding Florida Power & Light Company (FPL) to the Florida Public Service Commission (FPSC). The FPSC regulates investor-owned electric, and natural gas utilities throughout the state, and investor-owned water and wastewater utilities in those counties which have opted to transfer jurisdiction to the FPSC. The FPSC has authority in the telephone industry which is limited to the Lifeline Assistance Program, Florida Relay Service, and pay telephone service. We appreciate the

opportunity to respond directly to you.

You expressed concern about FPL's petition for a rate increase. We will add your comments to Docket 20250011 regarding the petition.

You may review all the information filed for Commission consideration in docket 20250011 by accessing the FPSC website at [floridapsc.com](http://floridapsc.com). Under the Clerk's Office tab at the top of the page, click on Dockets. Type in the docket number 20250011. Click the Search button. Then select Document Filings Index for a list of all filings in the docket. This procedure allows you to view all of the information filed by the utility and other parties in the docket.

If you have any questions, please contact me at 1-800-342-3552 or by fax at 1-800-511-0809.

Sincerely,

Electric rates uo 48%

### Message

Hello. My husband and I are residents of Lee county. FL. We purchased a home in 2021 in anticipation of my husband retiring from 30 years of law enforcement. (He was a Marine for 6 years as well) since purchasing our home, the FPL sent out a letter that our electric bill is INCREASING by 48% over 5 years! We keep our home at 75 degrees to save electricity. Our bill runs 250 a month and we haven't reached the full 48% increase yet. To some, 250 isn't alot. To us, it's staggering. Help!!

To Whom it may concern:

I'm writing to express my satisfaction with the amazing improvement on service from FPL. I have been a Florida resident for almost three decades, lived through many hurricanes, some back to back and I'm very grateful for the service we had always received during those hard times. Preparing for a hurricane is stressful, but seeing the FPL trucks ready for the aftermath is a sign of relief. Not to mention trusting the qualified crew and staff who reassure us things will be ok.

Unfortunately just like other utility services for the basic survival, it is understandable rates increases are necessary for the technical improvements of dependable services and of course costs of labor. Gladly in this case, we as customers, can see our money is going where it needs to be.

Thank you for the service. Should you have any questions please feel free to contact me.

Sincerely,

Marjorie Condon

**CAUTION:** This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commissioners,

As a Florida Power & Light (FPL) customer, I strongly oppose the largest rate increase in U.S. History. This excessive hike would place an unfair burden on customers, especially low-income customers or older adults on fixed incomes who simply cannot afford to pay more.

With costs for housing, healthcare, and everyday essentials already high, the last thing I need is a higher electric utility bill. FPL is already a highly profitable company—asking customers to pay more just to boost corporate profits is completely unacceptable.

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable.

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and consideration.

Sincerely,

Pamela Carson

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

My name is Rosanna Molinari Weber. I live at 1132 Placetas Avenue, Coral Gables, Florida 33146. I am writing in my individual capacity and not on behalf of my law firm. I wanted to express that my husband and I have been very pleased with the reliability of the electrical service we receive from FPL at our house. In our neighborhood the FLP lines are still above ground and the times we have lost power are typically when branches from my backyard neighbor touch the lines or when there is a storm and the lines are affected. Even with that, our power is typically back up pretty quickly. The only time I remember being out of power for an extended period of time was in 2005 after 2 storms brought down a significant amount of trees (and lines) in our neighborhood. I am proponent of burying the lines as it will benefit us directly and everyone in our neighborhood.

Thank you for your attention.

TO: Florida Public Service Commission

RE: FPL Rate Hearing -Docket No. 20250011-EI

I understand that FPL has requested a rate increase and there will be a hearing. I just want to share with you my perspective of FPL's contribution to the areas in Florida that it serves including my home.

As a Director, Past Chair, of the Northeast Florida Economic Development Corporation (NEFEDC), I have had the opportunity to see some of the Impacts that FPL has on the communities it serves. FPL has not only made great strides in improving the viability of the power network in Florida but has also made immediate and future impacts on improving the communities they serve.

I have had the opportunity to work with FPL on their Florida First Sites program. This is a program to identify and prepare sites for large power users such as Data Centers and attract them to the state of Florida. As a Director of NEFEDC, I attended an excellent conference in Jupiter in February with many other EDC members and community leaders to learn about this program. It was very informative and helpful in training us on the need for these sites. After returning from this conference, I prepared the submittal of a site located in Bradford County. Our EDC focuses on Bradford and Union counties to increase jobs, housing, and quality of life. This 700+ acre site made it through the first phase of review. During the second phase, FPL hired an environmental group to do a Phase 1 environmental analysis. They did a site visit in June where we discussed the areas that need to be addressed to prepare this site for development in the future. NEFEDC with the owners and FPL are currently working on moving this site forward to be selected for development in the future to bring jobs into the area. We hope to identify a site in Union County in the future.

FPL also supports the NEFEDC with sponsorship funds for events and other activities. They are doing this in all areas that they serve in Florida. FPL is very active with the local Chambers of Commerce and Educational organizations as well. They have employee groups that are dedicated to enhancing the quality of life in the communities they serve. FPL is one of the best employers in the state. The salaries, benefits and other support they provide their employees is outstanding. They do this while providing power at a reasonable price and constantly improving the reliability of the power network in the state.

Please take these contributions into consideration as you analyze the need for a rate increase. At one time, I managed the BellSouth capital budget for the state. I recall our rate hearings and know that you will be evaluating any rate increases with goals of protecting the consumers and ensuring a reliable network to provide the services needed.

Sincerely,

A handwritten signature in dark ink, appearing to read "Sandra Kahle", written over a horizontal line.

How the hell do you justify allowing FPL to charge for ridiculous, nonsense fees on top of outrageous “non fuel” charges. Why are we as consumers, who are forced to have electricity via FPL, paying for their taxes and their employees? Explain this.

Hello my name is Vinod Sagrani and I am a current client of Florida Power and Light (FPL). I have been with FPL for my residential home power for many years. The power is always been reliable with minimal interruptions. I enjoy using the APP to get updates when power is down and also to see my usage. Generally not in favor of any rate increases but understand sometimes it is needed for updates and upgrading equipment. Would like to see any increases be used solely for strengthening power lines and reliability. Also I'm a supporter for seeking alternative energy to ensure minimal power outages.

Sincerely  
Vinod Sagrani

To the Florida Public Service Commission

Hello,

As a longtime FPL customer, I want to highlight Florida Power & Light's exceptional performance across the key areas that matter most to Floridians.

FPL delivers electricity rates well below the national average, making power affordable for families and businesses throughout our state. Their reliability record is equally impressive, with industry-leading performance that keeps the lights on even during severe weather events. When storms do cause outages, FPL's restoration teams work around the clock to restore service quickly and safely.

FPL is also driving Florida's clean energy future through major solar investments and smart grid innovations that benefit customers while protecting our environment. This balanced approach of keeping rates low, maintaining excellent reliability, and leading on innovation makes FPL a model utility.

I encourage the Commission to recognize FPL's continued commitment to serving Florida with excellence.

Respectfully,

Andrew Illa

**Subject:** DOCKET 20250011-EI Florida Power & Light Company's (FPL) petition for base rate increase

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commission,

The purpose of this letter is to express support for Florida Power & Light's (FPL) proposed rate increase. FPL has requested an \$8.961 billion increase over 2026–2029.

The company's justification for the increase includes accommodating a growing customer base and rising labor and material costs. According to FPL, residential growth and the need for diversified energy generation methods are key reasons for the increase.

The increase is considered necessary to ensure FPL can continue providing reliable service and invest in the infrastructure required to meet Florida's growing electricity demand. While no one likes to see rates increase, as a customer of FPL I understand providing reliable services comes at a cost.

I appreciate PSC's role in reviewing FPL's request and ensuring a justified and fair rate increase for all customers.

Sincerely,

Angela Gill-Dietz

Estimados Comisionados de la Comisión de Servicios Públicos de Florida,

Como cliente de Florida Power & Light (FPL) [y miembro de AARP en Florida], me opongo firmemente al aumento de tarifas más grande en la historia de los EE.UU. Este aumento excesivo impondría una carga injusta a los clientes, especialmente a los de bajos ingresos o a los adultos mayores con ingresos fijos que simplemente no pueden pagar más.

Con los costos de vivienda, atención médica y productos esenciales ya altos, lo último que necesito es una factura eléctrica más alta. FPL ya es una compañía de altas ganancias; pedirle a los clientes que paguen más solo para aumentar las ganancias corporativas es completamente inaceptable.

Insto a que rechacen la solicitud de FPL para un mayor retorno sobre el capital y el aumento de la tarifa base mensual. La Comisión de Servicios Públicos debe priorizar a los clientes por encima de la codicia corporativa y asegurar que las tarifas de servicios públicos sigan siendo justas y asequibles.

Por favor, defiendan a los floridianos y digan NO a este aumento masivo de tarifas.

Gracias por su tiempo y consideración.

Atentamente,

Francisco Plaza

Public Service Commission,

Thank you for the work that you do for the citizens of Florida. I am writing on behalf of your hearings regarding FPL's request to increase their rates. As a utility user in the State of Florida I appreciate the work of the Public Service Commission. Please accept this email as my support and testimony as I was unable to make comments during the online meetings.

I write in support of FPL's rate increase. With the many challenges that the state has in particular during hurricane season it is imperative that FPL is at the ready to support our community. The rate increase helps to ensure that we recover when we find ourselves in the throws of storms that ravage our state.

As the state grows and the demands are placed on our power grid it is imperative that FPL is given the tools to operate at its highest level.

Thank you for taking the time to listen to a Floridian born in Fort Pierce and living in Miami Dade County.

Respectfully,

Gordon Eric Knowles

Dear PSC,

As a satisfied FPL customer, I felt compelled to share my positive experience with the electrical service in our area. The reliability of power to my residence has been exemplary, providing the consistent energy supply essential for my Home's daily activities and comfort. Equally important is the affordability factor – my electric bills remain reasonable and predictable, allowing us to budget effectively while enjoying reliable service. As a young professional and recent homeowner, this predictability helps me and my wife balance our household expenses. FPL's performance in balancing cost-effectiveness with service quality truly benefits our community.

Respectfully,

Henry V. Brimo

**CAUTION:** This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commissioners,

As a Florida Power & Light (FPL) customer, I strongly oppose the largest rate increase in U.S. History. This excessive hike would place an unfair burden on customers, especially low-income customers or older adults on fixed incomes who simply cannot afford to pay more.

With costs for housing, healthcare, and everyday essentials already high, the last thing I need is a higher electric utility bill. FPL is already a highly profitable company—asking customers to pay more just to boost corporate profits is completely unacceptable.

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable.

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and consideration.

Sincerely,

Jeffrey Wilkinson

Miami, Florida 33173  
docket #2025-0011

To whom it may concern,

I am writing to express my satisfaction with the electrical service provided by Florida Power & Light in Miami-Dade County. As a long-time resident, I have consistently experienced exceptional reliability with minimal outages, and when service interruptions do occur, restoration is remarkably swift. My two interactions with FPL, one regarding tree trimming and the other raising a low hanging cable were treated with respect, professionalism, and expediency. The affordability of my monthly electric bills has allowed my family to maintain comfortable living standards without financial strain, making FPL's service both accessible and dependable. I believe this level of quality service deserves recognition and continued support from our regulatory bodies.

I'm writing regarding the FPL proposed \$10 billion rate request. FPL's rates are astronomical already and my last power bill was over \$400 for a 3 br house. This proposed rate increase is would unnecessarily put Florida families at risk only to line the pockets of executives.

Sincerely,

Justin Petty

### To the Florida Public Service Commission:

I am writing as an FPL customer to commend Florida Power & Light's outstanding service to our state. FPL consistently provides some of the most affordable electricity rates in the nation while maintaining exceptional reliability that outperforms national standards. Their rapid storm restoration, proactive maintenance, and industry-leading uptime keep Florida's families and businesses powered when it matters most.

Additionally, FPL's innovation leadership through substantial solar investments and smart grid technology positions Florida at the forefront of clean energy while delivering real benefits to customers today. This combination of affordability, reliability, and forward-thinking innovation demonstrates FPL's commitment to serving Florida's best interests.

As you continue evaluating utility performance, I encourage recognition of FPL's proven track record of excellence across these critical areas.

Thank you for your consideration!

**From:** Nick Mazorra <nick@transportationamerica.com>  
**Sent:** Thursday, July 10, 2025 3:01 PM  
**To:** Consumer Contact  
**Subject:** Docket# 2025-0011

**CAUTION:** This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

To Whom It May Concern:

I am the Chief Operating Officer of Transportation America & Related Entities – one of the largest transportation companies in the State of Florida, which specializes in providing a myriad of ground transportation services in a variety of public and private sector business relationships, including experience in all types of passenger-based services such as: Para-transit Services, Trolley Services, Shuttle Services, Executive Transportation Services, Taxi Transportation Services, Non-Emergency Transportation Services, Urgent and Non-Urgent Ambulance Services, and Call Center Services.

With Corporate Offices in Miami-Dade County, Transportation America currently operates 8 Facilities in the major metropolitan areas of Florida, currently operating non-emergency services non-emergency services in all 67 counties, ambulance services in 29 counties, as well as paratransit and fixed route services throughout dozens of municipalities in Miami-Dade and Broward counties.

Transportation America provides millions of trips annually, with a combined staff of over 4,000 employees, and maintains a fleet of thousands of vehicles that are maintained in-house in our full mechanical maintenance garages.

To effectively conduct these operations and properly maintain these facilities and assets, Transportation America recognizes the importance of the valued essential services provided by Florida Power & Light (FPL).

Indeed, it is axiomatic to state that but for the reliability of steady utilities and power, Transportation America would be unable to provide the important transportation services that Florida residents and patrons are dependent upon.

In this regard, Transportation America was aware of the Florida Public Service Commission's recent hearings to gather public input on FPL's request for a rate increase, but unfortunately, scheduling conflicts frustrated our ability to participate to articulate our support of the proposed adjustment.

Transportation America respectfully submits this communication to state that, as a major employer and service provider in the State of Florida, we understand that the delivery of major services is a costly proposition.

While certainly no one is enthusiastic about increases in any rates, Transportation America is mindful of the fact that pecuniary variables in the marketplace impact an entity's ability to continue to properly provide services.

To this end, Transportation America understands that rate increases, like the one proposed by FPL, are necessary to continue the delivery of essential services.

FPL's reliability – especially, its rapid responses to the major weather events we are accustomed to in Florida – does not go unnoticed.

Therefore, Transportation America respectfully offers this communication as an endorsement of the reference rate increase.

Sincerely,

Nick Mazorra, Chief Operating Officer  
Transportation America & Related Entities  
2766 NW 62 Street  
Miami, FL 33147

Dear Commissioner Gabriella Passidomo,

Adam Teitzman, Commission Clerk  
Division of Commission Clerk and Administrative Services Florida Public Service Commission  
2540 Shumard Oak Boulevard  
Tallahassee, FL 32399-0850

Re: Docket No.20250011 -EI

Petition by Florida Power & Light Company for Base Rate Increase

I am writing to formally request that The Commission hold in-district hearings regarding Docket No. 20250011 (Petition for Rate Increase by Florida Power & Light Company) to ensure that the public has a fair opportunity to weigh in on this critical decision.

Some FPL customers have already seen their bills increase by 60% in the last five years, and now the company is asking to increase rates by almost \$9 billion over the next five years, all while Floridians struggle to afford basic necessities. FPL is ranked 52 out of 53 by the American Council for an Energy Efficient Economy of utilities nationwide in terms of helping customers reduce power bills with efficiency and conservation programs. Approving this rate hike would only reward corporate greed at the expense of millions of hard-working Floridians.

I urge you to reject this request to ensure that consumers, not corporate profits, remain your priority. Holding in-district hearings will allow impacted residents to voice their concerns and hold FPL accountable. I appreciate your attention to this matter and look forward to your response.

Sincerely,  
Ms. Olivia Benson

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Commissioners:

I am writing to express my strong support for Florida Power & Light Company's continued efforts to invest in clean, reliable, and resilient energy infrastructure that serves communities across our state. FPL has consistently demonstrated leadership in modernizing Florida's energy grid while expanding access to affordable, sustainable power. Their commitment to innovation—including investments in solar and wind energy, storm-hardened infrastructure, and technology-driven customer service—positions Florida as a national model in energy stewardship.

As a south Florida native and life-long resident, I can say that FPL contributes not only to the economic vitality of our region but also to the well-being of residents, businesses, and nonprofits alike. Their support for conservation, education, and environmental responsibility—including local projects—illustrates a deep-rooted commitment to Florida's future.

I encourage the Commission to continue working collaboratively with FPL to ensure that Floridians have access to the most reliable, forward-thinking energy services available. Their vision aligns with the priorities of families like mine and organizations throughout the state: cleaner energy, stronger infrastructure, and a more resilient Florida.

Thank you for your attention and thoughtful consideration.

Sincerely,

Ronald Stayton

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commission,

My name is Rick Amaro, and I reside at 14708 Balgowan Rd, Miami Lakes, FL 33016. I am writing to voice my support for Florida Power & Light's (FPL) proposed rate adjustment, as outlined in Docket #2025-0011.

As a long-time FPL customer, I have consistently experienced exceptional service reliability, outstanding customer support, and rapid restoration efforts during and after major weather events. Living in South Florida, where hurricanes and severe storms are a regular part of life, I've seen firsthand how well FPL has prepared its infrastructure to handle extreme conditions. Power restoration after storms has been remarkably efficient, and I attribute this success to the company's strategic investment in modernizing and strengthening the grid.

Beyond storm response, FPL provides excellent day-to-day service. Communication is clear and proactive, billing is transparent, and any issues I've encountered have been resolved promptly and professionally. It's evident that FPL is focused not only on reliability but also on customer satisfaction and innovation.

I understand that rate increases are carefully evaluated, and I believe this one is reasonable given the consistent improvements and the long-term benefits for all customers. Continued investment in infrastructure and clean energy is essential for ensuring our electric system remains strong, sustainable, and future-ready.

Thank you for your time and attention.

Sincerely,  
Rick Amaro

**Subject:** Keep FPL Rates Down Docket #20250011

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commissioners,

As a Florida Power & Light (FPL) customer, I strongly oppose the largest rate increase in U.S. History. This excessive hike would place an unfair burden on customers, especially low-income customers or older adults on fixed incomes who simply cannot afford to pay more.

With costs for housing, healthcare, and everyday essentials already high, the last thing I need is a higher electric utility bill. FPL is already a highly profitable company—asking customers to pay more just to boost corporate profits is completely unacceptable.

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable.

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and consideration.

Sincerely,

Luke Brock

Florida Power & Light Company  
P.O. Box 14000  
Juno Beach, FL 33408-0420

**Subject: Opposition to Anticipated Rate Hike**

Dear Florida Power & Light Company,

I am writing to express my strong opposition to the proposed rate increase. This increase comes at a time when many Floridians are already struggling with the rising cost of living. It is especially troubling when there have been no improvements in service, no industry changes, and no justifiable reason for higher rates.

In my own city, half of the neighborhoods remain without functioning streetlights. This creates unsafe conditions for families, children, and the elderly. The lack of reliable lighting compromises public safety and has not been addressed, even as FPL seeks to increase costs.

It is unfair to ask residents to pay more while receiving less. I urge FPL to withdraw the proposed rate hike and instead focus on restoring services and ensuring every community is safe and properly served.

Sincerely,

**Angela D. Burns**

**CAUTION:** This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Commissioners,

I am writing to share my support for Florida Power & Light Company's current rate case.

As a Florida resident for the last 22 years, I've seen firsthand the investments FPL has made to their grid over the years and the improvements to our service reliability due to those investments.

I also would like to recognize FPL for their commitment to the communities they serve. Their involvement in education and youth sports is truly remarkable. My wife is a public school teacher and has seen the support FPL provides to schools throughout the state with their STEM initiatives. We also have a son who plays various sports and we appreciate FPL's support of youth sports and giving back to the community.

I support FPL's rate case as a reasonable and forward-looking request that enables continued improvements to our energy system. I recognize that maintaining a reliable electric grid requires ongoing investment. The increase proposed to my bill is very reasonable in order to continue to receive the high level of service we have come to expect.

Thank you for your consideration of FPL's request.

Sincerely,

Terry

**RE: Docket #20250011-E1**  
**Florida Power and Light**

Dear Commissioner,

I am proud to be a resident of Florida for over 35 years, a Veteran, and Owner of Triple T Electrical Contractor. I am also a previous Line man for Florida Power light company prior to starting my own business.

Every day, I work hard for my family, and the commercial and National chain customers knowing that providing new electric power, repairing or upgrading a customer's existing service is essential for their businesses and their success.

While working at FPL, I also worked hard for my family but also spent many long hours and sometimes months with Hurricane Andrew working to help the community get back to normal. It is with great pride that I worked to restore power or built new services for customers in order to rebuild or grow the community.

FPL continues to do a remarkable job with storm restoration, and they have come a long way from Hurricane Andrew. The overall restoration times for all areas of Florida have been amazing, despite the fact that there were many issues as flooding to slow down the restoration process.

I remember all of the Storm Dry Run activities and processes that we would work through yearly and know that this great planning has worked well and to the benefit of all FPL customers. I also believe that the investments in the Hardening Program and Underground programs, are continuing to help decrease outages, and help the community recover from storms and the many tree issues we have in Florida a lot sooner.

I am hopeful to have a year without Hurricanes, but know that FPL is there for us, and prepared no matter what may occur.

  
Anthony Castrenze

Owner Triple T Electrical Contractors

**Subject:** FPL Rate Proposal Review

**CAUTION:** This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

I am writing to express my support for Florida Power & Light's (FPL) proposal for rate adjustments. As a consumer and someone involved in the community, I believe it is important to consider the long-term benefits and positive impact that these proposed adjustments will bring to both consumers and the infrastructure that supports our daily lives.

I know that FPL's charge for electricity remains below the national average. This competitive pricing has provided a significant advantage for residents and businesses in their service areas in Florida, which enhances opportunities for economic growth and stability. The proposed rate increase is a modest adjustment that will ensure FPL continues to provide affordable energy while maintaining high service standards.

Moreover, FPL has demonstrated a solid commitment to enhancing the reliability and resilience of our power grid. The company has invested billions of dollars into hardening the grid, a proactive measure that protects against severe weather events and reduces the likelihood of prolonged outages.. These investments are essential for safeguarding our communities and ensuring that we have a robust infrastructure capable of withstanding future challenges.

In addition to these investments, FPL has consistently shown responsiveness in repairing power outages. I know from personal experience that they are very prompt to address power outages 24 hours a day Their efficient and timely response to disruptions has minimized inconvenience and economic loss for residents and businesses alike. This level of service is a testament to FPL's dedication to customer satisfaction and operational excellence.

In conclusion, the proposed rate increases by FPL are a necessary step to continue providing reliable, affordable, and sustainable energy to our community. I urge the PSC to approve FPLs request which will recognize its past good performance and confirm its commitment to continue to provide excellent service at competitive rates.

Thank you for your consideration.

**Subject:** Quality of Service (FPL)

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

I'm writing to express my positive experience with Florida Power & Light Company (FPL)—exceptional, reliable service. As a resident and Customer, I have constantly found FPL to be a dependable source of electricity, ensuring that my family and household needs are met efficiently. Over the years, FPL has demonstrated preparedness to handle various challenges, including our problem in Loxahatchee Grove, the Acreage, Loxahatchee, and adverse weather conditions and unexpected outages. FPL took notice of our concerns and, a year and a half ago, implemented a plan to remove overhead lines in our area and transfer them underground. This has tremendously improved the outages we were experiencing regularly during storms in our area. FPL's dedication to high standards is evident in its investments in renewable energy and sustainable efforts. As a customer, this commitment and confidence in their ability to serve the community not only today but also in contributing to a cleaner and more sustainable future. I wholeheartedly commend FPL for its hard work and efforts in providing reliable electricity services to its customers. It is associated with a utility company prioritizing customer satisfaction and investing in long-term quality.

Thank you for considering my positive experience with FPL. I trust you will continue supporting their endeavors to ensure reliable and sustainable energy for all residents.

Warmest regards,  
Michael L. Hughlett, Sr.  
15744 60th Pl. N.,  
Loxahatchee, FL 33470

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commissioners,

As a Florida Power & Light (FPL) customer, I strongly oppose the largest rate increase in U.S. History. This excessive hike would place an unfair burden on customers, especially low-income customers or older adults on fixed incomes who simply cannot afford to pay more.

With costs for housing, healthcare, and everyday essentials already high, the last thing I need is a higher electric utility bill. FPL is already a highly profitable company—asking customers to pay more just to boost corporate profits is completely unacceptable.

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable.

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and consideration.

Sincerely,

Frank Jaeger

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commissioners,

As a Florida Power & Light (FPL) customer, I strongly oppose the largest rate increase in U.S. History. This excessive hike would place an unfair burden on customers, especially low-income customers or older adults on fixed incomes who simply cannot afford to pay more.

I am a retired senior. My electric bill this month was \$299. Property taxes and insurance go up every year. Even with a house that is paid off, I have to rent out a room to make ends meet. I only buy essential items: groceries, gas, and toiletries. I no longer buy clothes. I can barely exist here in Florida. Tell FPL to stop paying for TV advertising telling us how great they are!

With costs for housing, healthcare, and everyday essentials already high, the last thing I need is a higher electric utility bill. FPL is already a highly profitable company—asking customers to pay more just to boost corporate profits is completely unacceptable.

I urge you to reject FPL's request for a higher return on equity and increase to the monthly

Florida Power Lights Rate Increase

### Message

We obviously have a monopoly going on here, that never should have been aloud. As expected, this has become a huge issue for the residents in this state. Electricity is a commodity that is a necessity if you reside in a house. FPL talks about preparing for increase of newcomers to Florida, staying ahead of infrastructure, etc., so they need us to keep paying for their profits through rate increases. So, the people can see the power bills kept low, or decrease? Does this make sense to you?

**Details:**

it is absolutely insane that I pay for electricity than water. Every time I open my email I see another increase from Duke energy. This company is not customer focused and if they are wanting to increase their infrastructure, they need to foot the bill themselves and stop putting it on the consumer. I live in a 1300 square-foot apartment on the bottom floor and keep my thermostat at 75 at all times. I live alone and my electricity bill was \$100 this month. When is the PSC going to step in and stop it?

Pompano Beach, FL 33064

Public Service Commission:

I just wanted to write to say how I appreciate your team for accepting public input on FPL's proposed rate adjustment. During the duration of my 14 years in South Florida I have consistently relied on FPL for electricity. Having electricity that I depend on is crucial, particularly during tropical storms and the peak of summer. I've noticed how FPL is always swift to action during power interruptions, and I want to see that same responsiveness in the future. This increase would allow the company to continue upgrading systems and adopting new technologies to better serve communities in the long run.

I appreciate your attention and the chance to share my perspective.

Thank you,

> Hello,

>

> Our family has been longtime residents in Sarasota, Florida for over 50yrs. Over the years, our west coast has seen its fair share of storms and hurricanes. I am always amazed to see how well Florida Power & Light prepares and works so hard to get our communities back to normal.

>

> With any power event whether it be a hurricane or just afternoon storm, the communication from Florida Power & Light speaks volumes on the company they are. I am a believer that Florida Power & Light cares about their customers. Although they do not have walk in offices for someone to speak to someone, their customer service team whether in the field or on the phone are truly hands down best in the business. As a society, we need communication and not in the form of a robot or AI as they call it.

>

> I've come across a few of their field reps and cannot say enough about their knowledge and willingness to truly help the 'customer'. A Big Thank You to Florida Power & Light for caring.

>

> In order for them to provide this exceptional service (reliability and customer support) this company deserves to have their rate case approved.

>

>

> Sincerely,  
>

Hello,

My name is Carol Miley and I am a retired senior citizen with a secondary residence served by FPL at 1454 Poinciana Ave., Ft. Myers. FPL's reliability and response time is excellent, as is their customer service. FPL's rates are significantly less than what I pay to the utility which provides power to my primary home at St. George Island, FL. I appreciate FPL's customer focus, their hardened infrastructure, their commitment to generation diversification and I fully support their rate request #2025-0011.

Sincerely,  
Carol Miley

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Estimados Comisionados de la Comisión de Servicios Públicos de Florida,

Como cliente de Florida Power & Light (FPL) [y miembro de AARP en Florida], me opongo firmemente al aumento de tarifas más grande en la historia de los EE.UU. Este aumento excesivo impondría una carga injusta a los clientes, especialmente a los de bajos ingresos o a los adultos mayores con ingresos fijos que simplemente no pueden pagar más.

Con los costos de vivienda, atención médica y productos esenciales ya altos, lo último que necesito es una factura eléctrica más alta. FPL ya es una compañía de altas ganancias; pedirle a los clientes que paguen más solo para aumentar las ganancias corporativas es completamente inaceptable.

Insto a que rechacen la solicitud de FPL para un mayor retorno sobre el capital y el aumento de la tarifa base mensual. La Comisión de Servicios Públicos debe priorizar a los clientes por encima de la codicia corporativa y asegurar que las tarifas de servicios públicos sigan siendo justas y asequibles.

Por favor, defiendan a los floridanos y digan NO a este aumento masivo de tarifas.

Gracias por su tiempo y consideración.

Atentamente,

Marlene Miranda

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commissioners,

As a Florida Power & Light (FPL) customer, I strongly oppose the largest rate increase in U.S. History. This excessive hike would place an unfair burden on customers, especially low-income customers or older adults on fixed incomes who simply cannot afford to pay more.

With costs for housing, healthcare, and everyday essentials already high, the last thing I need is a higher electric utility bill. FPL is already a highly profitable company—asking customers to pay more just to boost corporate profits is completely unacceptable.

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable.

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and consideration.

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commissioners,

As a Florida Power & Light (FPL) customer, I strongly oppose the largest rate increase in U.S. History. This excessive hike would place an unfair burden on myself and my 86yr old Mother as we are currently living on \$1300 a month. I cannot work as I am her fulltime caregiver.

With costs for housing, healthcare, and everyday essentials already high, the last thing we need is a higher electric utility bill. Our last bill for electric was \$236 dollars. FPL is already a highly profitable company and asking customers to pay more just to boost corporate profits is completely unacceptable.

I reject FPL's request for a higher return on equity and increase to the monthly base rate as should you. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable.

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and consideration.

Sincerely,

Shelley Murphy

Dear Florida Public Service Commissioners,

As a Florida Power & Light (FPL) customer, I strongly oppose the largest rate increase in U.S. History. This excessive hike would place an unfair burden on customers, especially low-income customers or older adults on fixed incomes who simply cannot afford to pay more.

With costs for housing, healthcare, and everyday essentials already high, the last thing I need is a higher electric utility bill. FPL is already a highly profitable company—asking customers to pay more just to boost corporate profits is completely unacceptable.

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable.

Good morning PSC Board,

My name is Maria Augusta Pimentel and I am a retired Miami-Dade County Librarian now living at 8609 Mangrove Cay in West Palm Beach, FL. I am an active member of St. Rita Catholic Church community and writing to you today in support of Florida Power & Light request for new rates.

I am very happy a satisfied with the investments and work FPL has done in Florida over the past 15 years and can attest to the improved service we all enjoy as Floridians. Climate Change is a reality and Floridians have seen the impacts of stronger and more devastating storms in the past 15 years. FPL continues to deliver excellent reliability before, during, and after storms. I see the news nationwide and we are lucky to have them as our electric utility.

I personally support a rate increase to allow FPL to continue to invest in better and smarter infrastructure that will benefit all Floridians.

Thank you for the opportunity to allow me to share my opinion on this matter.

Yours truly,

Maria A. Pimentel

**Docket #2025-0011**

As a resident of Miami for over 50 years and an FPL customer, I am writing to express my support for FPL's request for a rate adjustment.

I have always seen the partnership between FPLC and FPL as a positive one for the citizens.

During this time, we have seen how FPL has invested to deliver, usually responding under tragic events, in a very positive way.

We have seen how they handle a power outage in your area by creating a customer service number that will give the customer: acknowledging the power outage, and the planned timing as to when power would be restored to you. Just knowing where the outage is and its impact has to go back to their investment in technology. In our area FPL has a plan to bring the power lines underground to minimize the outage- that is huge.

Where we have seen the biggest gain, is the response they have provided during major storms. I see how they have developed a plan to mobilized a very large “respond team” to the area the weather team predicts the storm will hit. This will ensure a quick response to address a very large tragedy. Their investment that entails in organization, technology, staff, equipment, staff must be monumental.

FPL has kept our monthly bill very consistent over the years and competitive in comparison. Also you see how other states have responded to storms, I feel we are way ahead of them.

Lastly, I would like to see FPL to continues to invest in new technologies and ways to continue to deliver the highest level of service. FPLC should work with FPL in considering their desire rate adjustment.

Thank you.

Aventura, FL 33180  
Docket #2025-0011

To The Florida Public Service Commission,

I am a residential customer residing at 20456 NE 34 Court, Aventura, FL. This writing is to express my support for Florida Power & Light Company's continued investments outlined in Docket # 2025-0011.

As a customer, I've been consistently pleased with FPL's customer service—always professional, prompt, and responsive. Over the years, I've also noticed meaningful improvements in service reliability, especially during hurricane season, which in my opinion is the direct result of the company's investments in grid modernization and storm hardening.

Given Florida's frequent exposure to extreme weather, I believe these efforts are essential. FPL's proactive approach to strengthening its infrastructure helps minimize outages, enhances public safety, and supports quicker recovery after storms. These upgrades benefit not just individual customers like me but entire communities across the state.

I respectfully urge the Commission to continue supporting FPL's long-term infrastructure and resiliency plans. These investments are vital to maintaining safe, reliable, and forward-looking electric service for Floridians.

Thank you for your consideration.

Aletha Player  
20456 NE 34 Court

**Subject:** We Can't Afford Higher Rates

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Art Graham,

I am writing as a concerned Florida resident and customer of Florida Power & Light (FPL). I received notification that FPL intends to increase rates for their customers across the state, hurting the most vulnerable in our communities the most. We urge you to rethink this decision and not increase our bills.

This past year has been challenging and unrelenting, and folks have spent it worrying; worrying about the health and safety of their families and friends; worrying about finding work or being safe at work; worrying about the future of the business they built from the ground up; and worrying about making sure that they could keep the lights and heat on at home. For many of us, the pandemic has changed all of our lives in ways we'll still likely be grappling with long after the pandemic comes to an end.

Nevertheless, for some reason, corporate greed seems to be more important than the sustainability of our communities and our livelihood. This was evident when FPL, among several other power companies resumed closing customer accounts due to non-payment during the second wave of the pandemic. Now, they want to increase rates for their most vulnerable customers. We can't allow companies to continue taking advantage of working-class families, and luckily, you have the power NOW to stop this.

Our families need relief, real solutions to the climate crisis and fair and affordable utility rates. By raising prices, FPL is treating energy as a commodity when it's a necessity. We are demanding that Florida Power & Light halt this unfair plan and that Florida's Public Service Commission require FPL to maintain fair rates for their consumers, and prioritize the communities they serve.

Sincerely,  
Mrs. Dianne Ryden

**Details:**

FPL raising base minimum charge again? I went from 8.43 per month to 9.11 per month to 27.20 per month and now you are allowing 30 per month? This is ridiculous. You have also improved your infrastructure so you don't have to pay meter readers, don't have to fix lines as often. And also got legislation passed so I can't go off grid. This should be called a tax not a service. It will end up in court if the greed continues!

Dear Florida Public Service Commissioners,

As a Florida Power & Light (FPL) customer, I strongly oppose the largest rate increase in U.S. History. This excessive hike would place an unfair burden on customers, especially low-income customers or older adults on fixed incomes who simply cannot afford to pay more.

With costs for housing, healthcare, and everyday essentials already high, the last thing I need is a higher electric utility bill. FPL is already a highly profitable company—asking customers to pay more just to boost corporate profits is completely unacceptable.

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable.

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and consideration.

Sincerely,

Leonard Vasile

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida PSC Commissioners,

As a Florida Power & Light (FPL) customer, I urge you the Florida PSC to reject the largest rate increase in U.S. History. In the past five years, FPL customers have seen bills rise by over \$400 annually. These increases disproportionately burden low income customers and older customers living on fixed income who can barely afford their utility bills as is.

It's already difficult to stay on top of the rising costs of gas, housing, and healthcare bills due to inflation—how am I supposed to afford a rate hike too? Why do I need to suffer when FPL raked in over \$10 billion in profits in the last five years? It is unconscionable to force customers to endure financial hardship so wealthy utility executives and shareholders can line their pockets.

Please stand up for Florida ratepayers and reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize the needs of customers over corporate greed and ensure utility rates remain fair and affordable.

Please say NO to this massive rate hike.

I appreciate your consideration of my feedback on this historic rate proposal.

Sincerely,  
Mrs. Rebecca Villar  
960 SW Arbor Ln Lake City, FL 32024-3508 docbecky7@hotmail.com

**Subject:** Docket #2025-0011

**CAUTION:** This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Hello,

My name is Courtney Bagans. I was a resident at 6001 SW 7th AVE #342, South Miami, FL 33143 for two years. During that time, I had electric service provided by FPL. I'm writing to relay how wonderful their customer service was. From the first time I applied for electricity through the disconnect process when I moved to attend graduate school, the process was easy and efficient. I paid my bill on their mobile phone application, which was easy to use and accurately credited my account each month. In fact, in the time that I had service with FPL, I never had to contact them for any issues, making my customer experience enjoyable -- which is not the case with other utilities that I have had service with.

I understand FPL is applying for a rate increase, and if that is what it takes to continue to provide the outstanding service that I experienced, I am in full support of the increase.

Sincerely,  
Courtney Bagans

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

To Whom It May Concern:

I am writing to voice my concern (and frankly outrage) that FPL, once again, is "asking" for higher rates from its customers. It seems to be the same old reasoning that they ask for it...and always get their increases: Inflation/Infrastructure. When it all this going to be put under control.

I am affected by inflation (and I guarantee it is much higher for me on a fixed income than it will ever be for FPL). I can't go asking the SSA for an increase to fix my issues with inflation. I usually just get a whomping 2%....and that doesn't even come close to every single necessary bill I get that has gone up by far more than 2%.

I would love to see how much the management is getting from all these increases.

Anyway....I hope that someone at PSC can see the absurdity in asking for MORE increases by FPL.

Thank you,

Lisa Bennett

**Subject:** Keep FPL Rates Down Docket #20250011

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commissioners,

As a Florida Power & Light (FPL) customer, I strongly oppose the largest rate increase in U.S. History. This excessive hike would place an unfair burden on customers, especially low-income customers or older adults on fixed incomes who simply cannot afford to pay more.

With costs for housing, healthcare, and everyday essentials already high, the last thing I need is a higher electric utility bill. FPL is already a highly profitable company—asking customers to pay more just to boost corporate profits is completely unacceptable.

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable.

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and consideration.

Sincerely,

Stephen Embry

Dear PSC commission

I am sending this email to show appreciation for FPL. They are undergrounding the overhead lines in my neighborhood to improve reliability and I couldn't be happier. They have been so professional during the construction.

Even though no one wants to see prices go up, I understand that good service comes with a price.

Thank you to FPL

Sincerely,

Anneliese Friedrich

As a long time Florida resident and Florida Power and light customer, I have great appreciation for the outstanding customer service and service reliability that Florida Power and light provides its customers.

I own a few businesses in the City of Okeechobee, having steady power is crucial for me and my employees. Of course, others and I are not happy with costs going up including electric bills however, when you see what and where your money is going it makes you stop and appreciate the work being done.

Florida Power & Light has made major improvements to their electrical grid and thankfully they still have customer service and allows customers to 'speak' to a human being.

I support Florida Power and light in this docket.

Thank you for your time.

Haley Gordon Karl  
13921 SW 73rd Ct  
Palmetto Bay, FL 33158  
Docket #2025-0011

To the Public Service Commission:

Thank you for the opportunity to share my thoughts on FPL's request for a rate increase. As a Miami native, I am deeply appreciative of FPL's service to the community. I have been a Palmetto Bay resident for almost 9 years and during this time, FPL has provided incredible customer care, especially during storms.

For example, we recently had FPL on our property burying our power lines. We were informed about this process well in advance via mail, email and phone calls and while the service was underway, we were constantly updated on the status. We know that burying the lines will help protect our power during a storm and are grateful for FPL's proactiveness to improve infrastructure and reduce outages.

Palmetto Bay is a growing village which values sustainability and resilience. FPL has demonstrated consistent investment in renewable energy which we deeply value as do other residents of the Village. While no one wants a higher utility bill, I support FPL's rate increase request and believe this will benefit myself and my neighbors by providing long-term, reliable and clean energy for our community.

Thank you for your consideration.

Haley Gordon Karl  
Palmetto Bay Florida resident

Thank you for your time and consideration.

I have been on fixed billing at \$295 a month, we had natural gas installed and now have gas hot water, range and drier, the usage chart on my bill shows we are using half of what we did last year and our monthly bill has gone from \$295 to \$405 and nobody at FPL can explain why! Please dont let them increase any more!

Sincerely,

To Whom It May Concern,

I am writing as an FPL customer to commend the work that Florida Power & Light does each and every day to provide us with reliable and affordable electricity. Also, as the state of Florida continues to grow in population, I trust FPL to do what is necessary to expand the electric grid to meet the needs of more and more new residents and businesses. Consistently throughout the years I have seen FPL crews and their contractors working on the electric lines and trimming trees close to the lines to get us ready for hurricane season. Through all the hurricanes that we have experienced FPL brought in an army of electrical workers to get the lights back on. No other company has the experience necessary to restore power like FPL does and I very happy to be their customer.

I believe FPL should be approved with the rates necessary to continue to maintain reliable power to our growing state. We can't live without electricity, and FPL is a well-run company that we depend on to deliver reliable, affordable power.

Thank you

**Subject:** Reject the FPL rate hike!

**CAUTION:** This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear PSC Commissioners:

I urge you to reject what would be the largest utility rate increase in U.S. history.

Over the past five years, FPL customers have seen their annual bills increase by more than \$400. These ongoing rate hikes hit hardest for low-income families and seniors living on fixed incomes—Floridians who are already struggling to keep up with the rising cost of essentials like gas, housing, and healthcare. Adding another unaffordable rate hike on top of these burdens is unacceptable.

It is especially egregious to ask customers to pay more when FPL has reported more than \$10 billion in profits over the last five years. This proposal does not reflect the needs of everyday Floridians—it reflects the priorities of corporate shareholders and executives looking to maximize returns at the expense of the public.

The Public Service Commission has a duty to ensure that utility rates are just, reasonable, and in the public interest. I respectfully urge you to reject FPL's request to increase the monthly base rate and raise its return on equity. Floridians deserve fair and affordable energy—not price hikes that fuel corporate profits.

Please stand up for Florida's working families, retirees, and vulnerable communities, and say NO to this rate hike.

Thank you,

Sincerely,

Dear Florida Public Service Commission,

I have been a client of FPL since 1984. The recent request by FPL for a rate adjustment is warranted and needed. Our state population continues to grow aggressively. Weather related damage is increasing yearly. Our need to have a vibrant, innovative and fiscally sound utility company is crucial. Florida Power and Light's request for a rate adjustment is within reason and acceptable in order to maintain the high standard of service provided to its clients in a weather challenged State of Florida. Please approve it so we can maintain our high standard and quality of life in Florida.

Thank you for your attention to this matter.

Subject: Docket# 2025-0011

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

My name is David White and I own two homes one in Sunrise FL and one in Islamorada FL. The home in Sunrise is served by FPL and the home in Islamorada is served by FKEC. On July 1 I was billed \$372 for the Islamorada house. I have never paid anywhere close to this amount to FPL and the house in Sunrise is double the square footage of the Islamorada house. In addition the A/C unit in Islamorada is a new high efficiency unit. I have noticed these very big differences in electric rates for the past 15 years that I have owned a home in the keys.

No one likes rate increases however FPL from my experience in owning these two properties has done a good job keeping the rates low. I can also say that FPL's reliability improvements have paid off - whether it's restoration after a hurricane or the elimination of flickers. When it comes to money and value, I would choose FPL as my service provider.

Thank you, David White  
13772 NW 22 St Sunrise FL  
138 Sea Ln Islamorada FL

**CAUTION:** This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commissioners,

As a Florida Power & Light (FPL) customer, I strongly oppose the largest rate increase in U.S. History. This excessive hike would place an unfair burden on customers, especially low-income customers and people like me trying to get by on a fixed income. My bills are already significantly more because of higher temperatures.

With the high cost of homeowners & auto insurance due to the insurance crisis in Florida, rising healthcare costs, and everyday essentials seemingly increasing every week, the last thing I need is a higher electric utility bill. FPL is already a highly profitable company—asking customers to pay more just to boost corporate profits is completely unacceptable.

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable.

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and favorable consideration.

Sincerely,

Lynne Antonucci

As a homeowner already grappling with high inflation and other increases from Florida Power&Light, I would greatly appreciate more information on this matter.

I am concerned because we have already been burdened with rate increases from all the previous hurricanes. It feels increasingly challenging to make ends meet in Florida. Do you believe there are any additional measures that can be taken to support homeowners? Perhaps an option to opt out ?

Is it possible that Brevard County could have other energy providers available?

Kind Regards,  
Erika Danas

Subject: Docket No. 20250011 - Reject FPL's Rate Hike

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commission,

I'm writing to urge you to reject Florida Power & Light Company's proposed rate increase (Docket No. 20250011).

FPL is requesting nearly \$10 billion in new charges over the next four years — costs that will fall on the backs of the very people who rely on FPL to keep the lights on. Half of every dollar in this proposal would go straight to shareholder profits, not essential services. That's unacceptable.

In the last five years alone, FPL customers have seen their bills jump by more than \$400 a year. This latest plan would add another \$360 in just two years — all while Floridians are still recovering from devastating storms and battling the rising cost of living.

FPL claims the hike is needed to meet demand, but the Office of Public Counsel has made it clear that this is misleading. According to OPC, FPL's numbers are inflated — and rather than raise rates, the company should actually cut them by \$620.5 million in 2026.

The Public Service Commission is charged with protecting the public — not maximizing utility profits. I strongly urge you to reject this rate hike and send a clear message that Floridians come first.

Sincerely,  
Amanda B  
127 County Highway 5  
Otego, NY

Reference Docket #20250011-El

I moved to Florida in January 2005 . At this time, so much movement was going on all over the United States and especially if you were affiliated with the Federal Government as I was in the midst of a Mass Migration away from the City to places like Florida, Georgia, Texas.. The Retirees from NYC were leaving after their 20 or so years of service with the New York Police Department., Port Authority Police Department of New York/New Jersey, and New York State Police were collectively leaving the cold for a new climate somewhere. This was a workforce that worked tireless hours of service for the better half of their 20 plus years of service looking for a place where they did not have to brave the cold or shovel snow or warm the house with their stoves during bad winter weather.

While everyone wanted to go to the Carolinas, Georgia, Texas, Arizona and New Mexico, and I had a choice of going to California or Pennsylvania, I chose Florida to continue my work with the Drug Enforcement Administration. Because of my demand, I can remember not being in the State of Florida for too long upon arriving. . At that Point my title was Operation Supervisor for the Miami Field Division. I worked as a Subject Matter Expert (SME) for the Asset Forfeiture Support Program (AFS) and I was still a part of the Training Team with the AF. Again, I arrived in January and I had not really been to the office as much as 2 weeks at a time. The one consistent theme about my time when I got down here was the regiment of the term "Hurricane Preparedness" . I had been through many catastrophic moments where we were training in Raleigh, North Carolina during the Oklahoma City bombing. Or, Training in Dallas during a Managers Conference and hearing the news of the Columbine mass shooting, And the event that changed the landscape of this country, 911. The one day I did not drive into NYC because My Daughter, Brianna had her 6 Month pediatric appointment that day. But this new term, Hurricane Preparedness, was foreign to me, but a part of the everyday protocol of the Floridian, because Tis the Season.

Fast Forward to getting back to the office to get everything setup for work in July 2005 and the alerts and lists for Hurricane Preparedness became a part of our every day regiment. The storms had names and everyone spoke of how Hurricane IVAN from a year prior was able to torment and ravish South Florida. Well I thought surely, they have never met 3 to 4 feet of snow. Well I would soon find out it would be the other way around. . In New York City and New Jersey, we got power two different ways, Gas and or Electric and in

many instances, both. But each was very unique.. In NY they went underground a lot for their electricity. And in New Jersey, the Power Lines were above Ground. Each posed its own challenge when compromised. The Northeast only had one Colonel and that was Winter. and it did what it wanted to the Northeast, because he owned the ground he landed on. Where the Colonel said he was going to bring it all to a halt and shut everything down, there was no reversing course. We took what little reprieve he gave us and considered ourselves lucky to not get anymore. Her name was KATRINA. History would never have thought there was not a better name for a foreign spy looking to infiltrate your confines than this name. History would never see the amount of Power, damage and Human destruction she would cause in the Northern Gulf.. But she would take a deep dive through South Florida first. On August 25, 2005, South Florida, to include Doral, Florida was the first place in the United States for hurricane KATRINA to make her presence known as a Category 1 Hurricane.. The familiar sound of a train coming through a station at max speed is the only thing I could liken it to. The only difference is that it was the longest train I had ever heard. And you knew that she was moving things around outside and eventually she made the Power succumb to her force as it went out around 11pm. I have never seen Glass Breathe the way my Terrace thermal pane glass door did . But with No Power and her majesty being able to move anything she wanted to around me and I had no communication outside of me anymore, I could only go in the bathroom and sleep in the tub and hope the winds would surpass.

It was 6AM and KATRINA had blown through us and made her way out to a more attractive companion for her weakening strength, The Gulf of Mexico. where she would pick up the Strength that would change life for many across the I 10 corridor. The silence was as deafening as the storm and the devastation was undeniable as pieces of clay everywhere off the roofs. Leaves and vegetation all over my condo community. I could see the window of my vehicle from my second story apartment smashed from flying roof clay debris. Nothing was working and no phone and cellular power was available and the Sun was next. I was laying down and it was around Twelve when I heard some air brakes that appeared to have come from a Truck. And I hear the voice of people talking about cutting away the tree from the area so they can get to the main area to assess the damage. It was two trucks, one bigger than the other with a teal and blue stripe going across it. I was amazed by the efficient way they were trying to carve through what I saw was a mess. I had already conceived to throw out some food that was still relatively cold because of the freezer still maintaining its cold air. I then began to hear chainsaws and more voices. I went to my terrace and walked onto the patio to see all the residents looking with concern and distress at the gentlemen in white hard hats and work gear. and were having

conversation amongst themselves.. It was now almost 2pm and I was starting to gather some garbage bags for cleaning up what I thought would be an inevitable waste of food when I felt a rush of energy go through the walls. I then heard people rejoicing on their patios and yelling "Thank You" as I approached the Patio and gpt to the window and saw my patio light come on and went to the edge of my railing to join the celebration and praise. I guess you can call it the Miracle on 114th Avenue. I know in NYC we would have been waiting 5 and 7 days to get some energy from Con Ed and in New Jersey, they would have to wait for the thaw before they can get anyone out there on the pole with PSE&G

We are approaching the 20th anniversary of Hurricane KATRINA. And so many named Storms have come through the area. Notably Wilma, Matthew and Irma and all have had their effect on me one way or another and came with a level of devastation different from the last one.. But, they were consistent, vigilant and relentless and did not stop until the problem was solved.. They are the Men and Women in the White or Blue hard hats riding around in their Blue and Teal wrapped trucks who work tirelessly to make sure we have restored power. From the Bucket truck to a big machinery transporter, they are firing on all cylinders when it's Go time. Personally speaking and working with First responders, I know the sacrifice they face and we are all here because of those sacrifices.

They are Florida Power and Light (FPL), The reason why I stayed in the State of Florida.

I thank you for taking the time to allow me to share some words that are probably long overdue

Continued success in being the Model and providing quality Service.

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commissioners,

As a Florida Power & Light (FPL) customer, I strongly oppose the largest rate increase in U.S. History. This excessive hike would place an unfair burden on customers, especially low-income customers or older adults on fixed incomes who simply cannot afford to pay more.

With costs for housing, healthcare, and everyday essentials already high, the last thing I need is a higher electric utility bill. FPL is already a highly profitable company—asking customers to pay more just to boost corporate profits is completely unacceptable.

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable.

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and consideration.

Sincerely,

Barbara Leech

**FLORIDA PUBLIC  
SERVICE COMMISSION**

**From:** Jyoti Parmar (commissioner.clark@psc.state.fl.us) Sent You a Personal Message  
<kwautomail@advocatesmessage.com>  
**Sent:** Thursday, July 31, 2025 1:05 PM  
**To:** Office of Commissioner Clark <Commissioner.Clark@psc.state.fl.us>  
**Subject:** Reject the FPL rate hike!

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear PSC Commissioners:

I urge you to reject what would be the largest utility rate increase in U.S. history.

Over the past five years, FPL customers have seen their annual bills increase by more than \$400. These ongoing rate hikes hit hardest for low-income families and seniors living on fixed incomes—Floridians who are already struggling to keep up with the rising cost of essentials like gas, housing, and healthcare. Adding another unaffordable rate hike on top of these burdens is unacceptable.

It is especially egregious to ask customers to pay more when FPL has reported more than \$10 billion in profits over the last five years. This proposal does not reflect the needs of everyday Floridians—it reflects the priorities of corporate shareholders and executives looking to maximize returns at the expense of the public.

The Public Service Commission has a duty to ensure that utility rates are just, reasonable, and in the public interest. I respectfully urge you to reject FPL's request to increase the monthly base rate and raise its return on equity. Floridians deserve fair and affordable energy—not price hikes that fuel corporate profits.

Please stand up for Florida's working families, retirees, and vulnerable communities, and say NO to this rate hike.

Thank you,

Sincerely,

Jyoti Parmar

Subject: Docket No. 20250011 - Reject FPL's Rate Hike

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commission,

I'm writing to urge you to reject Florida Power & Light Company's proposed rate increase (Docket No. 20250011).

FPL is requesting nearly \$10 billion in new charges over the next four years — costs that will fall on the backs of the very people who rely on FPL to keep the lights on. Half of every dollar in this proposal would go straight to shareholder profits, not essential services. That's unacceptable.

In the last five years alone, FPL customers have seen their bills jump by more than \$400 a year. This latest plan would add another \$360 in just two years — all while Floridians are still recovering from devastating storms and battling the rising cost of living.

FPL claims the hike is needed to meet demand, but the Office of Public Counsel has made it clear that this is misleading. According to OPC, FPL's numbers are inflated — and rather than raise rates, the company should actually cut them by \$620.5 million in 2026.

The Public Service Commission is charged with protecting the public — not maximizing utility profits. I strongly urge you to reject this rate hike and send a clear message that Floridians come first.

Sincerely,  
Brooke Ward

Subject: Docket No. 20250011 - Reject FPL's Rate Hike

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commission,

I'm writing to urge you to reject Florida Power & Light Company's proposed rate increase (Docket No. 20250011).

FPL is requesting nearly \$10 billion in new charges over the next four years — costs that will fall on the backs of the very people who rely on FPL to keep the lights on. Half of every dollar in this proposal would go straight to shareholder profits, not essential services. That's unacceptable.

In the last five years alone, FPL customers have seen their bills jump by more than \$400 a year. This latest plan would add another \$360 in just two years — all while Floridians are still recovering from devastating storms and battling the rising cost of living.

FPL claims the hike is needed to meet demand, but the Office of Public Counsel has made it clear that this is misleading. According to OPC, FPL's numbers are inflated — and rather than raise rates, the company should actually cut them by \$620.5 million in 2026.

The Public Service Commission is charged with protecting the public — not maximizing utility profits. I strongly urge you to reject this rate hike and send a clear message that Floridians come first.

Sincerely,  
Judith Basch  
15041 S Waterford Dr  
Davie, FL

Dear Commissioner Gabriella Passidomo,

Adam Teitzman, Commission Clerk  
Division of Commission Clerk and Administrative Services Florida Public Service Commission  
2540 Shumard Oak Boulevard  
Tallahassee, FL 32399-0850

Re: Docket No.20250011 -EI

Petition by Florida Power & Light Company for Base Rate Increase

I am writing to formally request that The Commission hold in-district hearings regarding Docket No. 20250011 (Petition for Rate Increase by Florida Power & Light Company) to ensure that the public has a fair opportunity to weigh in on this critical decision.

Some FPL customers have already seen their bills increase by 60% in the last five years, and now the company is asking to increase rates by almost \$9 billion over the next five years, all while Floridians struggle to afford basic necessities. FPL is ranked 52 out of 53 by the American Council for an Energy Efficient Economy of utilities nationwide in terms of helping customers reduce power bills with efficiency and conservation programs. Approving this rate hike would only reward corporate greed at the expense of millions of hard-working Floridians.

I urge you to reject this request to ensure that consumers, not corporate profits, remain your priority. Holding in-district hearings will allow impacted residents to voice their concerns and hold FPL accountable. I appreciate your attention to this matter and look forward to your response.

Sincerely,  
Miss Baylee Bessingpas  
6602 Excelsior Rd Baxter, MN 56425-8489 bbessingpas@gmail.com

Subject: Docket No. 20250011 - Reject FPL's Rate Hike

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commission,

I'm writing to urge you to reject Florida Power & Light Company's proposed rate increase (Docket No. 20250011).

FPL is requesting nearly \$10 billion in new charges over the next four years — costs that will fall on the backs of the very people who rely on FPL to keep the lights on. Half of every dollar in this proposal would go straight to shareholder profits, not essential services. That's unacceptable.

In the last five years alone, FPL customers have seen their bills jump by more than \$400 a year. This latest plan would add another \$360 in just two years — all while Floridians are still recovering from devastating storms and battling the rising cost of living.

FPL claims the hike is needed to meet demand, but the Office of Public Counsel has made it clear that this is misleading. According to OPC, FPL's numbers are inflated — and rather than raise rates, the company should actually cut them by \$620.5 million in 2026.

The Public Service Commission is charged with protecting the public — not maximizing utility profits. I strongly urge you to reject this rate hike and send a clear message that Floridians come first.

Sincerely,  
Felicia Bruce  
106 Mariner Bay Blvd  
Fort Pierce, FL

**Subject:** Docket No. 20250011 - Reject FPL's Rate Hike

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commission,

I'm writing to urge you to reject Florida Power & Light Company's proposed rate increase (Docket No. 20250011).

FPL is requesting nearly \$10 billion in new charges over the next four years — costs that will fall on the backs of the very people who rely on FPL to keep the lights on. Half of every dollar in this proposal would go straight to shareholder profits, not essential services. That's unacceptable.

In the last five years alone, FPL customers have seen their bills jump by more than \$400 a year. This latest plan would add another \$360 in just two years — all while Floridians are still recovering from devastating storms and battling the rising cost of living.

FPL claims the hike is needed to meet demand, but the Office of Public Counsel has made it clear that this is misleading. According to OPC, FPL's numbers are inflated — and rather than raise rates, the company should actually cut them by \$620.5 million in 2026.

The Public Service Commission is charged with protecting the public — not maximizing utility profits. I strongly urge you to reject this rate hike and send a clear message that Floridians come first.

Sincerely,  
Andrea Andrea Chisari

Subject: Reject FPL's Unprecedented \$10 Billion Rate Hike – Protect Florida Families

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commissioner Art Graham,

I am writing to strongly urge you to reject Florida Power and Light's (FPL) proposed \$10 billion rate hike—the largest in U.S. history. Approving this increase would be a devastating blow to Florida families, many of whom are already struggling with rising living costs. This past year, this Commission has already failed residents by allowing TECO's rate hikes, and we cannot afford another reckless decision that prioritizes corporate profits over public well-being. Electricity is not a luxury—it is a life-saving necessity in Florida. With extreme heat, hurricanes, and severe weather events, access to affordable power is essential for survival. A rate increase of this magnitude would force seniors, low-income families, and working-class residents to choose between paying their electric bills and affording food, rent, or medical care. No one should have to make such impossible choices just to keep the lights on. Beyond the financial hardship, this increase also carries serious environmental consequences. Instead of investing in clean, affordable renewable energy, FPL continues to expand its reliance on fossil fuels, worsening extreme weather patterns and increasing pollution. These impacts disproportionately harm low-income communities and communities of color, who already experience higher energy burdens and environmental health risks. If FPL truly needed more funding, it should focus on sustainable energy solutions, not passing costs onto struggling residents. The Florida Public Service Commission has a responsibility to serve the public, not corporate monopolies. FPL is a monopoly, meaning Floridians have no choice but to pay whatever rates are approved. If this rate hike is allowed, it will set a dangerous precedent, opening the door for further unchecked increases that will push even more families into a financial crisis. I urge you to reject this historic \$10 billion rate hike and stand with the people of Florida. The residents of this state deserve fair and affordable electricity—not price gouging from utility giants.

Sincerely,  
Ms. Elna Dancy  
401 Maynard Ter Apt 203 Melbourne, FL 32901-7600 Pasteherenow@gmail.com

Dear Florida Public Service Commission,

I'm writing to urge you to reject Florida Power & Light Company's proposed rate increase (Docket No. 20250011).

By installing solar panels, FPL is already saving significant money in its cost of operations. Sure, they require maintenance. But it's FREE ENERGY. And still they want to charge more. This is flagrant greed, the way of more and more big corporations, and it needs to be nipped in the bud. No more letting these companies get away with such theft. It's an insult to you, an insult to the People, and a mark against themselves.

FPL is requesting nearly \$10 billion in new charges over the next four years — costs that will fall on the backs of the very people who rely on FPL to keep the lights on. Half of every dollar in this proposal would go straight to shareholder profits, not essential services. That's unacceptable.

**Subject:** Docket No. 20250011 - Reject FPL's Rate Hike

**CAUTION:** This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commission,

I'm writing to urge you to reject Florida Power & Light Company's proposed rate increase (Docket No. 20250011).

FPL is requesting nearly \$10 billion in new charges over the next four years — costs that will fall on the backs of the very people who rely on FPL to keep the lights on. Half of every dollar in this proposal would go straight to shareholder profits, not essential services. That's unacceptable.

In the last five years alone, FPL customers have seen their bills jump by more than \$400 a year. This latest plan would add another \$360 in just two years — all while Floridians are still recovering from devastating storms and battling the rising cost of living.

FPL claims the hike is needed to meet demand, but the Office of Public Counsel has made it clear that this is misleading. According to OPC, FPL's numbers are inflated — and rather than raise rates, the company should actually cut them by \$620.5 million in 2026.

The Public Service Commission is charged with protecting the public — not maximizing utility profits. I strongly urge you to reject this rate hike and send a clear message that Floridians come first.

Sincerely,  
Trinity Davis  
455 NW 210th St

**CAUTION:** This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commissioners,

As a Florida Power & Light (FPL) customer, I strongly oppose the largest rate increase in U.S. History. This excessive hike would place an unfair burden on customers, especially low-income customers or older adults on fixed incomes who simply cannot afford to pay more.

With costs for housing, healthcare, and everyday essentials already high, the last thing I need is a higher electric utility bill. FPL is already a highly profitable company—asking customers to pay more just to boost corporate profits is completely unacceptable.

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable.

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and consideration.

Sincerely,

Diana Demarest

Dear PSC PSC,

Adam Teitzman, Commission Clerk  
Division of Commission Clerk and Administrative Services Florida Public Service Commission  
2540 Shumard Oak Boulevard  
Tallahassee, FL 32399-0850

Re: Docket No.20250011 -EI

Petition by Florida Power & Light Company for Base Rate Increase

I am writing to formally request that The Commission hold in-district hearings regarding Docket No. 20250011 (Petition for Rate Increase by Florida Power & Light Company) to ensure that the public has a fair opportunity to weigh in on this critical decision.

Some FPL customers have already seen their bills increase by 60% in the last five years, and now the company is asking to increase rates by almost \$9 billion over the next five years, all while Floridians struggle to afford basic necessities. FPL is ranked 52 out of 53 by the American Council for an Energy Efficient Economy of utilities nationwide in terms of helping customers reduce power bills with efficiency and conservation programs. Approving this rate hike would only reward corporate greed at the expense of millions of hard-working Floridians.

I urge you to reject this request to ensure that consumers, not corporate profits, remain your priority. Holding in-district hearings will allow impacted residents to voice their concerns and hold FPL accountable. I appreciate your attention to this matter and look forward to your response.

Sincerely,

Miss Liv Doura

Subject: Docket No. 20250011 - Reject FPL's Rate Hike

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commission,

I'm writing to urge you to reject Florida Power & Light Company's proposed rate increase (Docket No. 20250011).

FPL is requesting nearly \$10 billion in new charges over the next four years — costs that will fall on the backs of the very people who rely on FPL to keep the lights on. Half of every dollar in this proposal would go straight to shareholder profits, not essential services. That's unacceptable.

In the last five years alone, FPL customers have seen their bills jump by more than \$400 a year. This latest plan would add another \$360 in just two years — all while Floridians are still recovering from devastating storms and battling the rising cost of living.

FPL claims the hike is needed to meet demand, but the Office of Public Counsel has made it clear that this is misleading. According to OPC, FPL's numbers are inflated — and rather than raise rates, the company should actually cut them by \$620.5 million in 2026. Save us!

The Public Service Commission is charged with protecting the public — not maximizing utility profits. I strongly urge you to reject this rate hike and send a clear message that Floridians come first.

Sincerely,  
MATTHEW EVERETT  
161 N Johns St  
Mount Dora, FL

FPL is requesting nearly \$10 billion in new charges over the next four years — costs that will fall on the backs of the very people who rely on FPL to keep the lights on. Half of every dollar in this proposal would go straight to shareholder profits, not essential services. That's unacceptable.

In the last five years alone, FPL customers have seen their bills jump by more than \$400 a year. This latest plan would add another \$360 in just two years — all while Floridians are still recovering from devastating storms and battling the rising cost of living.

FPL claims the hike is needed to meet demand, but the Office of Public Counsel has made it clear that this is misleading. According to OPC, FPL's numbers are inflated — and rather than raise rates, the company should actually cut them by \$620.5 million in 2026.

The Public Service Commission is charged with protecting the public — not maximizing utility profits. I strongly urge you to reject this rate hike and send a clear message that Floridians come first.

Sincerely,  
Joan Giambanco  
2451 Brickell Ave.

FPL claims the hike is needed to meet demand, but the Office of Public Counsel has made it clear that this is misleading. According to OPC, FPL's numbers are inflated — and rather than raise rates, the company should actually cut them by \$620.5 million in 2026.

One cannot, in all good conscience, force new charges upon people who Are Already u see siege by the tax bill that results in lower coverage through Medicaid- cut of SNAP benefits - as well as increased costs for Health coverage which will Force people to drop off their healthcare.

It's is up To YOU to stand up for these people.

Do that now!

The Public Service Commission is charged with protecting the public — not maximizing utility profits. I strongly urge you to reject this rate hike and send a clear message that Floridians come first.

Sincerely,  
Melanie Gilbertson

Subject: Docket No. 20250011 - Reject FPL's Rate Hike

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commission,

I'm writing to urge you to reject Florida Power & Light Company's proposed rate increase (Docket No. 20250011).

FPL is requesting nearly \$10 billion in new charges over the next four years — costs that will fall on the backs of the very people who rely on FPL to keep the lights on. Half of every dollar in this proposal would go straight to shareholder profits, not essential services. That's unacceptable.

In the last five years alone, FPL customers have seen their bills jump by more than \$400 a year. This latest plan would add another \$360 in just two years — all while Floridians are still recovering from devastating storms and battling the rising cost of living.

FPL claims the hike is needed to meet demand, but the Office of Public Counsel has made it clear that this is misleading. According to OPC, FPL's numbers are inflated — and rather than raise rates, the company should actually cut them by \$620.5 million in 2026.

The Public Service Commission is charged with protecting the public — not maximizing utility profits. I strongly urge you to reject this rate hike and send a clear message that Floridians come first.

Sincerely,  
Peter Happenny  
1949 Taylor St APT 11  
Hollywood, FL

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commission,

I'm writing to urge you to reject Florida Power & Light Company's proposed rate increase (Docket No. 20250011).

As a 73 year old widow who just lost my part-time employment through a decision of the Trump administration, I am facing a significant loss of income at a time when grocery prices are high and tariffs are going to cause other prices to escalate. I am also looking at a cancer diagnosis and cannot fathom how I can afford to live without working during a time of sickness. Sorry if I couldn't save up enough while employed as a social services worker. I was living paycheck to paycheck then and nothing has changed except now I don't know how to stretch my SS any further. My thermostat is set at 75, my hurricane shutters are kept half closed and I use thermal curtains to keep out the sun's rays. I guess I could switch to fans instead of a/c.

FPL is requesting nearly \$10 billion in new charges over the next four years — costs that will fall on the backs of the very people who rely on FPL to keep the lights on. Half of every dollar in this proposal would go straight to shareholder profits, not essential services. That's unacceptable.

In the last five years alone, FPL customers have seen their bills jump by more than \$400 a year. This latest plan would add another \$360 in just two years – all while Floridians are still recovering from devastating storms and battling the rising cost of living.

FPL claims the hike is needed to meet demand, but the Office of Public Counsel has made it clear that this is misleading. According to OPC, FPL's numbers are inflated — and rather than raise rates, the company should actually cut them by \$620.5 million in 2026.

Please think of the consumers- not just the shareholders- when decisions are made for rate hikes.

Thank you.

The Public Service Commission is charged with protecting the public — not maximizing utility profits. I strongly urge you to reject this rate hike and send a clear message that Floridians come first.

Sincerely,  
Ruth Hubing

Subject: Docket No. 20250011 - Reject FPL's Rate Hike

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commission,

I'm writing to urge you to reject Florida Power & Light Company's proposed rate increase (Docket No. 20250011).

FPL is requesting nearly \$10 billion in new charges over the next four years — costs that will fall on the backs of the very people who rely on FPL to keep the lights on. Half of every dollar in this proposal would go straight to shareholder profits, not essential services. That's unacceptable.

In the last five years alone, FPL customers have seen their bills jump by more than \$400 a year. This latest plan would add another \$360 in just two years — all while Floridians are still recovering from devastating storms and battling the rising cost of living.

FPL claims the hike is needed to meet demand, but the Office of Public Counsel has made it clear that this is misleading. According to OPC, FPL's numbers are inflated — and rather than raise rates, the company should actually cut them by \$620.5 million in 2026.

The Public Service Commission is charged with protecting the public — not maximizing utility profits. I strongly urge you to reject this rate hike and send a clear message that Floridians come first.

Sincerely,  
Maureen Hung  
874 Carnival Rd SE  
Palm Bay, FL

There is a lot of solar panels in north Florida. I am assuming that FPL is using them to produce electric power free from the sun. So why does FPL need a raise in rates?

The Public Service Commission is charged with protecting the public — not maximizing utility profits. I strongly urge you to reject this rate hike and send a clear message that Floridians come first.

Dear Florida Public Service Commission,

I'm writing to urge you to reject Florida Power & Light Company's proposed rate increase (Docket No. 20250011).

Extra charges on our bill for changes in the system and supply, if done responsibly, are understandable. Increases in our power charges that provide profits for global share holders are not OK.

FPL is requesting nearly \$10 billion in new charges over the next four years — costs that will fall on the backs of the very people who rely on FPL to keep the lights on. Half of every dollar in this proposal would go straight to shareholder profits, not essential services. That's unacceptable.

FPL is requesting nearly \$10 billion in new charges over the next four years — costs that will fall on the backs of the very people who rely on FPL to keep the lights on. Half of every dollar in this proposal would go straight to shareholder profits, not essential services. That's unacceptable.

In the last five years alone, FPL customers have seen their bills jump by more than \$400 a year. This latest plan would add another \$360 in just two years — all while Floridians are still recovering from devastating storms and battling the rising cost of living.

FPL claims the hike is needed to meet demand, but the Office of Public Counsel has made it clear that this is misleading. According to OPC, FPL's numbers are inflated — and rather than raise rates, the company should actually cut them by \$620.5 million in 2026.

The Public Service Commission is charged with protecting the public — not maximizing utility profits. I strongly urge you to reject this rate hike and send a clear message that Floridians come first.

Sincerely,  
Juanita Kerrigan  
1278 SW 19th Ter

**Subject:** Docket No. 20250011 - Reject FPL's Rate Hike

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commission,

I'm writing to urge you to reject Florida Power & Light Company's proposed rate increase (Docket No. 20250011).

FPL is requesting nearly \$10 billion in new charges over the next four years — costs that will fall on the backs of the very people who rely on FPL to keep the lights on. Half of every dollar in this proposal would go straight to shareholder profits, not essential services. That's unacceptable.

In the last five years alone, FPL customers have seen their bills jump by more than \$400 a year. This latest plan would add another \$360 in just two years — all while Floridians are still recovering from devastating storms and battling the rising cost of living.

FPL claims the hike is needed to meet demand, but the Office of Public Counsel has made it clear that this is misleading. According to OPC, FPL's numbers are inflated — and rather than raise rates, the company should actually cut them by \$620.5 million in 2026.

The Public Service Commission is charged with protecting the public — not maximizing utility profits. I strongly urge you to reject this rate hike and send a clear message that Floridians come first.

Sincerely,  
Donald Lilly  
220 Mississippi Woods Ln  
Orlando, FL

Dear Florida Public Service Commission,

I'm writing to urge you to reject Florida Power & Light Company's proposed rate increase (Docket No. 20250011).

Developers should pay the cost...if they want to rape and pillage the land and make obscene amounts of money off our shared resources...the least they can do is cover the cost of all the stress they are putting on the system. Florida is a finite resource...at what point do we say enough?

FPL is requesting nearly \$10 billion in new charges over the next four years — costs that will fall on the backs of the very people who rely on FPL to keep the lights on. Half of every dollar in this proposal would go straight to shareholder profits, not essential services. That's unacceptable.

Subject: Docket No. 20250011 - Reject FPL's Rate Hike

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commission,

I'm writing to urge you to reject Florida Power & Light Company's proposed rate increase (Docket No. 20250011).

FPL is requesting nearly \$10 billion in new charges over the next four years — costs that will fall on the backs of the very people who rely on FPL to keep the lights on. Half of every dollar in this proposal would go straight to shareholder profits, not essential services. That's unacceptable.

In the last five years alone, FPL customers have seen their bills jump by more than \$400 a year. This latest plan would add another \$360 in just two years — all while Floridians are still recovering from devastating storms and battling the rising cost of living.

FPL claims the hike is needed to meet demand, but the Office of Public Counsel has made it clear that this is misleading. According to OPC, FPL's numbers are inflated — and rather than raise rates, the company should actually cut them by \$620.5 million in 2026.

The Public Service Commission is charged with protecting the public — not maximizing utility profits. I strongly urge you to reject this rate hike and send a clear message that Floridians come first.

Sincerely,  
Gwen Mehring  
7701 Beechwood Dr  
Pensacola, FL

**Subject:** Docket No. 20250011 - Reject FPL's Rate Hike

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commission,

I'm writing to urge you to reject Florida Power & Light Company's proposed rate increase (Docket No. 20250011).

FPL is requesting nearly \$10 billion in new charges over the next four years — costs that will fall on the backs of the very people who rely on FPL to keep the lights on. Half of every dollar in this proposal would go straight to shareholder profits, not essential services. That's unacceptable.

In the last five years alone, FPL customers have seen their bills jump by more than \$400 a year. This latest plan would add another \$360 in just two years — all while Floridians are still recovering from devastating storms and battling the rising cost of living.

FPL claims the hike is needed to meet demand, but the Office of Public Counsel has made it clear that this is misleading. According to OPC, FPL's numbers are inflated — and rather than raise rates, the company should actually cut them by \$620.5 million in 2026.

The Public Service Commission is charged with protecting the public — not maximizing utility profits. I strongly urge you to reject this rate hike and send a clear message that Floridians come first.

Sincerely,  
Pam Nolan  
1901 N Andrews Ave  
Wilton Manors, FL

Dear Florida Public Service Commission,

I'm writing to urge you to reject Florida Power & Light Company's proposed rate increase (Docket No. 20250011).

FPL is requesting nearly \$10 billion in new charges over the next four years — costs that will fall on the backs of the very people who rely on FPL to keep the lights on. Half of every dollar in this proposal would go straight to shareholder profits, not essential services. That's unacceptable and just plain wrong.

In the last five years alone, FPL customers have seen their bills jump by more than \$400 a year. How much is enough? This latest plan would add another \$360 in just two years — all while Floridians are still recovering from devastating storms and battling the rising cost of living. We know the hurricanes have been costly but that's true for all of us.

FPL claims the hike is needed to meet demand, but the Office of Public Counsel has made it clear that this is misleading. According to OPC, FPL's numbers are inflated — and rather than raise rates, the company should actually cut them by \$620.5 million in 2026. How dare you ask us to pay more when you should be giving us refunds?

The Public Service Commission is charged with protecting the public — not maximizing utility profits. I strongly urge you to reject this rate hike and send a clear message that Floridians come first.

The Public Service Commission is charged with protecting the public — not maximizing utility profits. I strongly urge you to reject this rate hike and send a clear message that Floridians come first.

Sincerely,  
Elizabeth Parker
