teco out of control trying to ruin christmas

**Message**  
Ive been seeing many local families raising concerns about teco and their price hikes . We are looking at \$600 electric bills for families and individuals like myself for October. Usually the bill is \$125-150 max . I feel this is intentional to strain our community ahead of Holiday and please requesting your attention onto TAMPA TECO

I'm calling BS.  
Look at my usage year over year. When I moved back in, my new property had double pained hurricane windows. My block work had spray foam... See more

TECO was granted a huge price increase by the state. We are also paying for all the underground wiring and their beautiful new building in Midtown. They are not taking those expenses out of their profits; they're passing them on to us! TECO is a monster!

It's showing that your usage was less than last year ... that would make sense given the insulation.

[Amanda Baker](#) yes but I'm thinking it should be closer to 1/2.

Get rid of your smart meter.

Then they can't tamper with the results from a far. Costs a little bit more but at least it's an more honest and accurate reading.
