Subject: FPL Hearing tonight

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

To whom it may concern,

Fpl having a hearing about the biggest rate increase in their history is a joke. Hopefully this isn't just a show with smoke and mirrors. The perception is the government officials in Florida are already bought and paid for by FPL.

The one question that should be asked tonight is what is a justification for the rate increase after they made 4.5 BILLION last year after expenses, all "take home" profit.

When they first came here they had us pay for the solar farms up front and then turned around and are charging us to use the solar program for the farms we have already paid for.

They said that the few increases up front will lead to lower bills on the back end. There have been way more increases than cuts. Now they want the biggest increase ever.

I urge you to consider all of this information and say no to their request. How much profit is enough?

Thanks,

Jason Moser
