Subject: Public Comment — FPL Rate Case (Docket No. 20250011-EI)

Dear Commissioners,

I am submitting this letter as a formal public comment on **Docket No. 20250011-EI** regarding Florida Power & Light's proposed rate increase.

My family and I live in Pensacola. We are a **disabled veteran family on a fixed income**, and our electricity bills are already difficult to manage. Any additional rate hike would impose severe hardship on us and on many others in our community.

I am especially concerned about the **lack of direct notice** to customers about the June 5, 2025, hearing in Pensacola. Notices were not mailed, and only those who already follow FPL or PSC websites knew it was happening. This process is not accessible to the average citizen.

Please ensure:

- Future hearings are **properly** noticed to all customers via mail or bill insert.
- The PSC takes into account the financial strain on vulnerable populations.
- FPL's rate-increase history is made publicly clear in plain language.

I urge the Commission to reject or significantly reduce this proposed increase and to hold FPL accountable for fair, transparent communication with its customers. The Governor's office has also received this letter.

Respectfully submitted,
A.P. Rodriguez
