Just say NO to FPL's rate hike request. We cannot handle any more increases. They seem to have plenty of money to advertise, even though they have no competition. Should they not have been setting aside profits to pay for infrastructure updates, just like we, the customers, have to save for home maintenance? I do not get an increase in my retirement every time I need to do upgrades or repairs. I have to be responsible and plan for the future. Florida is a state made up of many many retirees and service industry workers who cannot keep up with increases at every turn. Thank you for your time and service.
