Dear Governor, we need to do something about FPL & the electrical rates in Bay Co. It is astronomical the fees we pay for power & is Mike LaRosa who is over the Florida Public Service Commission doing anything about FPL & their Rising rates to citizens of FL? Look into the rising rates of FPL to the citizens of FL & let's stop this. We thought these solar fields all around the state was supposed to help reduce fees so why are we being charged more & more & more every month? Thanks, Rebecca Acton

dear governor, today the utility commission looks at FPL's so called agreement to reduce their request by 30 percent. they made in 2024 4.6 billion dollars in NET PROFIT. they have had a windfall reduction in the cost of fuel in 2025. now they want 3.5 billion rate increase over the next 3 years. NO. nextera wants to buy more companies in other states instead of hardening florida. absolutely not. if this passes I would investigate in kind gifts to people I tell you that.
