COMPLAINT INFORMATION

Complaint: Delay in Service against Florida Power & Light Company
Details:

The Public Service Commission, under no circumstances, should even consider and rate hikes for FPL. The cost of electricity has never been higher. Our investments in renewables, has produced less power, at a higher cost. While FPL has been buying panels, and batteries from China, the Chinese, are building coal plants. Even the A.I. Centers are ordering Gas Turbines, to self-power their centers, since the cost of renewables is prohibitive. The Chinese are not dumb, if solar was the way, they would be spending their capital dollars on renewables, in lieu of power plants. Halt the insanity, let's get back to natural gas, nuclear, and other fuels.
