PEOPLES GAS SYSTEM, INC.
DOCKET NO. 20250029-GU
OPC'S FIRST SET OF INTERROGATORIES
INTERROGATORY NO. 46
BATES PAGE(S): 17404
APRIL 30, 2025

46. Outside Services Expense. Please quantify amounts of outside services expense included in the test year and subsequent year.

ANSWER:

Please see the table below for Peoples' 2026 test year O&M expense of outside services by department. Peoples does not specifically budget capital expenses for outside services.

PEOPLES GAS SYSTEM, INC.
OUTSIDE SERVICES

	2026 Test Year
Gas Operations	$ 3,421,583
Engineering and Construction	1,559,255
Pipeline Safety	1,622,902
Strategy Marketing & Communication	1,012,643
Commercial Development & Fuels	28,800
Customer Experience	3,178,013
IT	4,810,864
Legal	1,243,252
Executive	1,626,838
Finance	254,665
Human Resources	583,586
Other	599,673
Total	**$ 19,942,075**

The revenue requirements included in the proposed 2027 Subsequent Year Adjustment ("SYA") include incremental costs associated with the annualization of depreciation and amortization expense, property tax expense and return requirements related to capital investments made during the 2026 test year. The proposed 2027 SYA is not based on a full projected test year for 2027. As a result, the company does not have a response to the "subsequent year" for the data requested by this interrogatory.

73. NOL Carry-forward. Does PGS have net operating loss carry-forwards as of December 31, 2024? If so, identify the amount and show the impact on ADIT.

ANSWER:

Peoples is answering this interrogatory in part by producing records as allowed under Florida Rule of Civil Procedure 1.340(c); the records reflecting the net operating loss carry-forwards and impact on ADIT will be be posted on the Consumer Party SharePoint Site in the folder entitled "ROG_1_73" or provided via USB.

As of December 31, 2024, Peoples has a federal net operating loss ("NOL") carry-forward of $8,377,125 and a State of Florida net operating loss carry-forward of $431,382. The total ADIT impact for these NOL carry-forward balances is $1,777,942.

Confirmed there is no change in the NOL balance from 2025 and there is no NOL utilization and no NOL addition added to the balance. There is a 2026 tax loss but nothing was added to the NOL as the 2026 MFRs treat the current year loss as flowing through as a current tax recovery.

76. Uncertain Tax Positions. Does PGS have or anticipate having any uncertain tax positions in 2022, 2023, 2024, 2025 or 2026? If so, identify, quantify and explain each uncertain tax position, as of each date.

ANSWER:

Yes. Peoples' uncertain tax position balances, actual or anticipated, as of December 31st of each year are as follows:

2022: $433,109
2023: $879,664
2024: $740,926
2025: $740,926
2026: $740,926

Each of these balances relate to federal research credits based on Peoples' qualified research expenditures incurred from 2022 through 2024.

Peoples does not anticipate having new uncertain tax positions in 2025 or 2026.

OPC'S FIRST SET OF INTERROGATORIES
INTERROGATORY NO. 77
BATES PAGE(S): 17483
APRIL 30, 2025

77. Tax Accounting Method. Has PGS changed any tax accounting methods in any year, 2022, 2023, 2024, or 2025 year to date? Does it project to change any tax accounting methods through the end of the test year and subsequent year? If so, please identify each such change and quantify and explain the impact on income tax expense and on PGS's ADIT balances for the calendar year end for 2023 and 2024, actual/projected for 2025 and projected for the test year and subsequent year. As part of this response, please describe in detail how such impacts were determined.

ANSWER:

Yes. Peoples changed tax accounting methods in 2022 and 2023; however, Peoples does not anticipate any tax accounting method changes in 2024, 2025, or through the end of the test year and subsequent year.

Peoples filed a statement with the Emera US Holdings, Inc. 2022 consolidated federal tax return pursuant to section 7.02 of Revenue Procedure 2022-14, as modified by Internal Revenue Service ("IRS") Revenue Procedure 2023-11 (automatic change to required section 174 method). This change allows the company to amortize research and experimental expenditures over a five or 15-year period as opposed to capitalizing these costs. The 2022 deductions were $1,078,020, resulting in the following accounting entries:

Dr deferred tax expense	$ 273,224	
Cr current tax expense		$ 273,224
Dr taxes payable	$ 273,224	
Cr deferred tax liability		$ 273,224

Additionally, Peoples filed a change of accounting method in 2023 to comply with IRS Revenue Procedure 2023-15, which provides a safe harbor that taxpayers may use to determine whether they must capitalize or immediately deduct expenses to maintain, repair, replace, or improve natural gas transmission and distribution property. Peoples concluded that its existing method to account for capitalization and deduction of these types of expenses is compliant with the Revenue Procedure, requiring no additional journal entries.

79. ADIT. Please provide a detailed itemization of each historical item of Accumulated Deferred Income Taxes ("ADIT") for the balances as of December 31, 2021, 2022, 2023, 2024, actual/projected for 2025 and projected as of the end of the test year and subsequent year. For each item, identify the book/tax-timing difference that causes the ADIT, explain when that temporary timing difference first arose, identify the amount of the timing difference as of each date, and describe in detail whether and how that particular timing difference relates to an item of utility rate base, utility revenue and/or utility expense, and how the related item has been reflected in the Company's filing for ratemaking purposes.

ANSWER:

Peoples is answering this interrogatory in full by producing records as allowed under Florida Rule of Civil Procedure 1.340(c). These detailed itemization of each historical item of ADIT will be posted to the Consumers SharePoint site entitled "ROG_1_79" or provided via USB.

The period from January to March 2025 represents actual balances and the period from April 2025 onwards represents budgeted balances.

INTERROGATORY NO. 80
BATES PAGE(S): 17498 - 17502
APRIL 30, 2025

80. EDIT. Please provide the balance of unprotected deficient and/or Excess Accumulated Deferred Income Taxes ("EDIT") in accounts 182.3, 254, and/or other accounts by originating temporary difference for each month from December 2022 through the latest month with available information, separated between federal and state deficient and/or EDIT. Notate any true-ups in the balances related to actual tax returns and explain the derivation of the amortization amounts for each of the months that the amortization amounts changed for both federal EDIT and state EDIT.

ANSWER:

Please see the following tables.

As noted in Peoples' response to OPC's First Set Interrogatory No. 90, there is a regulatory tax asset for the State of Florida deficient tax balance with amortization that was included in the company's revenue requirements approved by the Commission in Docket No. 20230023-GU and Order PSC-2023-0388-FOF-GU, the details of which are provided in the notes to the PDF file noted above.

Unprotected Balance	3,960,836 Note 1	3,960,836	3,960,836	3,960,836	3,960,836	3,960,836	4,272,199	4,272,199	4,272,199	4,272,199	4,272,199	4,272,199	4,272,199	4,583,561

Note 1: The state unprotected balance of $3,960,836 relates to the following
1) Docket 20200051-GU – PGS proposed to return approximately $940,000 of excess state ADIT ($1,245,450 with gross-up) over the term of the Settlement Agreement. This amount is being flowed back over the 2022 and 2023 periods. As at December 31, 2022 the unamortized balance is $622,724 with gross-up.
2) There is a deficiency of $4,583,560 (including gross-up) related to the remeasurement of the FL ADIT at 5.5% which is being amortized over 5 years (commencing in 2024). Section 8, paragraph (e) of the 2020 Agreement provides that "if the cumulative net regulatory asset or liability is less than $10M, the flow-back period will be five years." The revenue requirement associated with the 5-year amortization was included in PGS rate case Docket 20230023-GU and Commission Order PSC-023-0388-FOF-GU issued December 27, 2023. As at December 31, 2022 the unamortized balance is $4,583,560 with gross-up.

Note 2: Incremental increase in monthly amortization driven by adjustment to account for 12/31/2017 ADIT balance changes from the final 2017 tax return not contemplated in Docket 20180044-GU.

Note 3: Unprotected EDIT is being amortized by originating temporary difference consistent with the schedules previously presented as part of and approved by the Commission in Docket 20180044-GU.

85. Cost-Saving Programs. Please list and describe in detail any cost-saving programs implemented during the past five years. For each program listed in response to this request, show the anticipated and achieved savings. Include calculations of savings amounts and explain any assumptions used in such calculations. For each cost-saving program listed, provide the cost-benefit analysis for each program and show the impact of each such cost-saving program on the test year and subsequent year.

ANSWER:

As part of its ongoing effort to manage its business in the most cost-effective and prudent manner possible, the company continuously strives to improve its operations. The company does many things for the purpose of reducing expenses and improving efficiency where it is feasible to do so, but few could be described as specific "programs".

The following is a list of major items or initiatives where the company made efforts to reduce costs or improve operations and customer satisfaction. The savings in costs directly or indirectly attributable to these items may be difficult to quantify. In many cases, Peoples identified these efforts as necessary to streamline operations and result in efficiencies that may still be in the process of being implemented. Some of these efforts may increase costs in the short term to yield long-term efficiencies and improvements.

Design & Construction Performance Improvement

Peoples expects to save approximately $6.5 million annually through the Design & Construction Performance Improvement ("DCPI") project. This project is a combination of optimizing the inspection schedules, reducing the inspector workforce, and implementing process improvements in the design function, offset by internal positions to support the improvements.

APRIL 30, 2025

DCPI Cost Saving Components	Positions Reduction	Cost Savings
Optimizing Inspection Activities	-	[redacted]
Contractor Inspector Reductions	18	
Peoples Inspector Attrition	1	
Design MSA Surcharge Removal	-	
Annualized Reduction in Contracted Designs	-	$1,428,527
Internal Positions Supporting Savings	5	[redacted]
Totals	14	$6,567,789

Reducing the size of People's inspector workforce was made possible by partnering with a vendor to optimize inspection activities and reset inspection to crew ratios. For this collaboration, we adjusted our inspection schedules to begin at 8:00 AM rather than 7:00 AM to coincide with the hours worked by construction crews where safety sensitive tasks are performed. This resulted in approximately [redacted] in annual cost savings based on the reduction of inspector hours at current contractor hourly rates.

Peoples saw a reduction of 18 contractor inspectors and one internal inspector through the optimization portion of this project. Contractor inspector savings totaled [redacted] based on the average annual spend per outsourced inspector by territory multiplied by the number of positions. Internal inspector savings through internal inspector attrition totaled [redacted]. The company's optimization efforts enabled it to avoid replacing the internal position.

Peoples has taken significant steps to improve its design processes and reduce its reliance on external design firms. This includes hiring a Design Supervisor in the Peoples' Southern territory and entering into a master service agreement with an engineering design firm rather than utilizing the vendor as a subcontractor. This agreement resulted in the avoidance of a surcharge totaling [redacted] annually.

To calculate the remaining savings from the reduction in contracted designs, Peoples compared the first quarter of 2023 with the first quarter of 2024 and extrapolated the difference in savings over a year to estimate annualized savings

FPSC EXH NO. 92
ADMITTED

of approximately $1.4 million. The DCPI net savings were subtracted from the 2025 Capital Budget and are reflected in the cost data used for forecasting 2026.

Gas Operations In-sourcing

In 2023, Gas Operations initiated a multi-year strategic insourcing initiative to reduce outside service costs and mitigate future price increases from contractors performing routine operational services such as leak surveys, meter atmospheric inspection, customer meter services, and meter reading.

Peoples performed an analysis to examine how to reduce meter-related outside services through insourcing in 2023. The study identified an estimated O&M savings of between $1.3 million and $1.9 million for the years 2024 through 2026 for all meter-related activities and meter reading.

The company decided to implement this strategy using a phased approach over multiple years due to planning and resource constraints. Peoples insourced two leak survey technicians and eleven meter technicians during the first phase of the project in the spring of 2024. The company began to realize lower contractor services expense by the middle of 2024.

Peoples plans to complete the second phase of this project in 2025 with the insourcing of all meter reading activities in the north territory. Peoples plans to insource nine additional meter technicians in 2025 to offset additional outside services. The reduction in the test year revenue requirement from these insourced outside service activities totals $1.6M and can be seen as non-trended non-labor adjustments in FERC accounts 874, 878, and 902 of MFR Schedule G-2 page 19b. This reduction is offset somewhat by the non-trended labor impact from the additional meter technician positions and other trend non-labor costs.

Gas Operations also initiated a separate insourcing effort in 2023 to limit outside service costs associated with line locating. Peoples spent almost $3 million on outside services associated with line locating in 2022. To sustainably reduce this cost, Peoples worked to develop and expand its job description for a pipeline locator and insourced 18 positions. Peoples reduced outside service costs by $1.3

million in 2023 and further reduced these costs by almost another $1 million in 2024.

Work and Asset Management

The Work Asset Management ("WAM") platform went live in 2023 and has become the backbone of our efforts to stabilize operations and keep pace with customer and system growth. WAM's infrastructure has streamlined the assigning, scheduling, and deployment of team members across our system, while also collecting data on a scale that was previously not possible.

Following the initial launch of WAM, our Operations team has consistently stayed below its benchmark O&M metrics by team member, miles of pipeline installed, work orders, customers, and rate base, despite the pressures of a growing system. This achievement is highlighted on pages 37 to 42 of Witness O'Connor's Direct Testimony and is indicative of the impact WAM has had throughout Peoples' day-to-day operations.

With the implementation now complete, Peoples can begin evaluating and planning around the data being collected by WAM. This platform can provide insights into performance across our organization, such as work order performance at the team member level, travel time associated with work orders, and time spent completing various types of tasks. With the data within reach, Peoples is poised to identify opportunities to continually optimize our operations and execute data-driven solutions regarding efficiency, optimizing resource use, managing our O&M, reducing travel time between job sites, and future resource planning.

Supply Chain Team

The Peoples' Supply Chain team delivered value by securing "hard savings" and "soft savings" totaling $4.0 million in 2023 and 2024. For additional details and calculations, please see page 17 of Witness Richard's Direct Testimony and POD-7 attachment *PGS Supply Chain Value Add 2023_2024.xlsx.*

Near Paperless Initiative

To support the move to the new corporate headquarters, Peoples launched the Near Paperless Initiative ("NPI") to transition to digital records wherever possible. This shift streamlines records retention across the organization. Additionally, NPI has led to indirect cost savings by reducing expenses related to supporting and transporting physical records to the new headquarters and minimizing the need for physical storage.

Customer Experience

As discussed on pages 34 to 35 of Witness Washington's testimony, Peoples implemented numerous customer process improvements, which have been offset by an increase in other operating expenses, including outsourcing staffing for the Customer Experience Center, process re-engineering, and adoption of technology and automation.

Peoples is answering this interrogatory in part by producing records as allowed under Florida Rule of Civil Procedure 1.340(c) and by posting these documents to the confidential section of the discovery SharePoint site for this case subject to a Motion for Protective Order or Request for Confidential Classification filed contemporaneously with this response. A portion of the company's answer contains proprietary confidential business information and the confidential answer will be posted in the Confidential Section of the Consumer Party SharePoint Site in the folder entitled "CONF_ROG_1_85" or provided via USB.
