SCHEDULE B-6 | ACQUISITION ADJUSTMENT | PAGE 1 OF 1

FLORIDA PUBLIC SERVICE COMMISSION

COMPANY: PEOPLES GAS SYSTEM, INC.

DOCKET NO.: 20250029-GU

EXPLANATION: PROVIDE THE FOLLOWING INFORMATION RELATING TO EACH ACQUISITION ADJUSTMENT INCLUDED IN THE RATE CASE.

TYPE OF DATA SHOWN:
HISTORIC BASE YEAR DATA: 12/31/24
WITNESS: A. NICHOLS

1. Describe the property acquired which resulted in the acquisition adjustment.

A. Natural gas distribution property acquired from Southern Gas Company

B. Natural gas distribution property acquired from Palm Beach County Utilities

C. Natural gas distribution property acquired in merger with West Florida Natural Gas

2. Date of acquisition.

A. 1990

B. 1991

C. 1996

3. Amount of acquisition adjustment.

A. $2,332,472 Fully amortized and removed from books and records.

B. ($247,453) Fully amortized and removed from books and records.

C. $2,946,879 Fully amortized and removed from books and records.

4. Was the property purchased from a related party?

A. No

B. No

C. No

5. Has the acquisition adjustment been approved by the Commission?

A. Yes

B. Yes

C. No

6. Provide the Docket No. and Order No. approving the acquisition adjustment.

- The acquisition adjustments listed above (A and B) have been reviewed and approved during the course of numerous rate cases, the most recent of which was Docket No. 20200051-GU, Order No. PSC-03-0038-FOF-GU.

- The acquisition adjustment acquired in the merger with West Florida Natural Gas (C) was not approved by the Commission and, as such, was removed from rate base before being fully amortized.

DESCRIPTION OF COMPANY'S POLICY OF CHARGING A.F.U.D.C.: The Commission authorized Peoples to accrue AFUDC in Order No. PSC-2019-0291-PAA-GU issued July 22, 2019 with an effective date of January 1, 2019. The Commission updated the AFUDC rule In Order No. PSC-2021-0020-FOF-PU issue January 6, 2021. The Company policy is to accrue AFUDC if: 1. Projects that involve gross additions to plant exceeds $25,000, a. Are expected to be completed in excess of one year after commencement of construction, or b. Were originally expected to be completed in one year or less and are suspended for six months or more, or are not ready for service after one year. 2. A utility may bundle related projects that achieve a specific outcome if it demonstrates that the total cost of the bundled projects excluding AFUDC is less than the total cost of the unbundled projects. This is consistent with the gas Rule 25-7.0141 1.a.b and 2.

CALCULATION OF HISTORIC BASE YEAR A.F.U.D.C. RATE: The calculation of the AFUDC rate was approved in Order No. PSC-2024-0168-PAA-GU. The approved rate of 7.08 percent was based on a 13-month average capital structure for the period ending December 31, 2022. Peoples used the same formula approach as the electric industry to determine the appropriate AFUDC rate. The approved monthly compounding rate is 0.005717 percent. The total AFUDC accrued in 2024 was $3,403,760 (AFUDC Equity - $2,312,437 and AFUDC Debt - $1,091,323).

* LIST BY ADDRESS OR CONSTRUCTION CATEGORY IF DETAIL IS NOT AVAILABLE

** Projects accruing AFUDC in 2024 include the following:
Distribution Plant - Dade-Broward, Tampa, Orlando, Jacksonville, Lakeland, Palm Beach, Ocala, SW Florida, Corporate
General Plant - Corporate

SCHEDULE B-17	INVESTMENT TAX CREDITS - COMPANY POLICIES	PAGE 3 OF 4
FLORIDA PUBLIC SERVICE COMMISSION COMPANY: PEOPLES GAS SYSTEM, INC. DOCKET NO.: 20250029-GU	EXPLANATION: EXPLAIN ACCOUNTING POLICY AS TO THE METHOD OF AMORTIZATION FOR BOTH PROGRESS PAYMENT AND OTHER ITC. EXPLANATION SHOULD INCLUDE AT LEAST A DESCRIPTION OF HOW THE TIME PERIOD FOR AMORTIZATION IS DETERMINED, WHEN IT BEGINS, UNDER WHAT CIRCUMSTANCES IT CHANGES, ETC. IF THERE ARE UNUSED ITC, SUPPLY A SCHEDULE SHOWING YEAR GENERATED, AMOUNT GENERATED, TOTAL AMOUNT USED AND REMAINING PORTION.	TYPE OF DATA SHOWN: HISTORIC BASE YEAR DATA: 12/31/24 WITNESS: A. NICHOLS

THE COMPANY ELECTED TO ACCOUNT FOR THE AMORTIZATION OF INVESTMENT TAX CREDITS UNDER SECTION 46(f)(2) OF THE U. S. INTERNAL REVENUE CODE AND F.P.S.C. MEMORANDUM DATED FEBRUARY 11, 1972 AS A CREDIT TO OTHER INCOME IN THE YEAR REALIZED. FOR REGULATORY PURPOSES, COST OF CAPITAL IS ADJUSTED FOR THE NET UNAMORTIZED INVESTMENT TAX CREDITS. IN DETERMINING THE ADJUSTMENT TO COST OF CAPITAL, THE INVESTMENT TAX CREDIT IS AMORTIZED OVER THE REMAINING LIFE OF THE APPLICABLE PROPERTY.

THE COMPANY HAS HAD NO PROGRESS PAYMENTS ON WHICH INVESTMENT TAX CREDIT WAS GENERATED.

THERE ARE NO UNUSED INVESTMENT TAX CREDITS.

SCHEDULE C-4 | UNBILLED REVENUES | PAGE 3 OF 4

FLORIDA PUBLIC SERVICE COMMISSION

COMPANY: PEOPLES GAS SYSTEM, INC.

DOCKET NO.: 20250029-GU

EXPLANATION: PROVIDE (1) THE DETAILED CALCULATION OF THE 13-MONTH AVERAGE BALANCE OF UNBILLED REVENUES INCLUDED IN THE HISTORIC BASE YEAR RATE BASE AND (2) THE DETAILED CALCULATION OF UNBILLED REVENUES INCLUDED IN THE HISTORIC BASE YEAR NET OPERATING INCOME. THE CALCULATIONS SHOULD BE SHOWN ON A MONTHLY BASIS. ALL SUPPORTING SCHEDULES SHOULD BE INSERTED IMMEDIATELY FOLLOWING THIS SCHEDULE.

TYPE OF DATA SHOWN:
HISTORIC BASE YEAR DATA: 12/31/24

Narrative Description: Unbilled revenue (var.charge) equals the number of therms sold @ 50% (with some exceptions) multiplied by the variable cost per therm for each rate class.
Customer charge equals the number of bills multiplied by the fixed customer charge @ 50% for each rate class.

SCHEDULE C-29	CONSOLIDATED RETURN	PAGE 1 OF 1
FLORIDA PUBLIC SERVICE COMMISSION COMPANY: PEOPLES GAS SYSTEM, INC. DOCKET NO.: 20250029-GU	EXPLANATION: PROVIDE A SUMMARY OF THE SPECIFIC TAX EFFECT (IN DOLLARS) OF FILING A CONSOLIDATED RETURN FOR THE HISTORIC BASE YEAR. IDENTIFY THE NATURE AND AMOUNTS OF BENEFITS TO THE COMPANY AND THE RATEPAYERS. PROVIDE A COPY OF ANY EXISTING TAX-SHARING AGREEMENTS WITH AFFILIATED COMPANY.	TYPE OF DATA SHOWN: HISTORIC BASE YEAR DATA: 12/31/24 WITNESS: A. NICHOLS

Peoples Gas System, Inc. (PGS) is a member of a consolidated U.S. federal income tax group with Emera US Holdings, Inc. and its subsidiaries.

Pursuant to a tax sharing agreement among the members of the consolidated group, the company's income tax expense is based on a standalone return method, modified for the benefits-for-loss method.

It is not anticipated that there will be any significant benefit or detriment to either PGS or its ratepayers as a result of being included in a consolidated income tax return for the test year.

SCHEDULE G-1 | CALCULATION OF THE PROJECTED TEST YEAR RATE BASE | PAGE 10 OF 28

FLORIDA PUBLIC SERVICE COMMISSION

COMPANY: PEOPLES GAS SYSTEM, INC.

DOCKET NO.: 20250029-GU

EXPLANATION: PROVIDE A SCHEDULE CALCULATING A 13-MONTH AVERAGE UTILITY PLANT FOR THE PROJECTED TEST YEAR.

TYPE OF DATA SHOWN
PROJECTED TEST YEAR: 12/31/26
WITNESS:A. NICHOLS

ESTIMATED PLANT BALANCES FOR THE YEAR ENDING 12/31/26

SCHEDULE G-1 | DEPRECIATION RESERVE BALANCES | PAGE 11 OF 28

FLORIDA PUBLIC SERVICE COMMISSION

COMPANY: PEOPLES GAS SYSTEM, INC.

DOCKET NO.: 20250029-GU

EXPLANATION: PROVIDE THE DEPRECIATION RESERVE BALANCES FOR EACH ACCOUNT OR SUB-ACCOUNT TO WHICH AN INDIVIDUAL DEPRECIATION RATE IS APPLIED FOR THE HISTORIC BASE YEAR + 1.

TYPE OF DATA SHOWN
HISTORIC BASE YR + 1: 12/31/25
WITNESS: A. NICHOLS

SCHEDULE G-1 | DEPRECIATION RESERVE BALANCES | PAGE 12 OF 28

FLORIDA PUBLIC SERVICE COMMISSION

COMPANY: PEOPLES GAS SYSTEM, INC.

DOCKET NO.: 20250029-GU

EXPLANATION: PROVIDE THE DEPRECIATION RESERVE BALANCES FOR EACH ACCOUNT OR SUB-ACCOUNT TO WHICH AN INDIVIDUAL DEPRECIATION RATE IS APPLIED FOR THE PROJECTED TEST YEAR.

TYPE OF DATA SHOWN
PROJECTED TEST YEAR: 12/31/26
WITNESS: A. NICHOLS

SCHEDULE G-2 | CALCULATION OF THE PROJECTED TEST YEAR - REVENUES & COST OF GAS | PAGE 6b OF 31

FLORIDA PUBLIC SERVICE COMMISSION

COMPANY: PEOPLES GAS SYSTEM, INC.

DOCKET NO.: 20250029-GU

EXPLANATION: PROVIDE THE CALCULATION FOR REVENUE AND COST OF GAS FOR THE HISTORIC BASE YEAR + 1.

FOR THE YEAR ENDED 12/31/2025

TYPE OF DATA SHOWN:
HISTORIC BASE YEAR + 1: 12/31/2025
WITNESS: L. BUZARD / E. FOX / A. NICHOLS

SCHEDULE G-2 | CALCULATION OF THE PROJECTED TEST YEAR - REVENUES & COST OF GAS | PAGE 9b OF 31

FLORIDA PUBLIC SERVICE COMMISSION

COMPANY: PEOPLES GAS SYSTEM, INC.

DOCKET NO.: 20250029-GU

Explanation: Provide the calculation for revenue and cost of gas for the test year (current rates-proposed rate classes).

FOR THE YEAR ENDED 12/31/2026

TYPE OF DATA SHOWN:
PROJECTED TEST YEAR 12/31/26
WITNESS: L. BUZARD / A. NICHOLS / J. TAYLOR

SCHEDULE G-2 | CALCULATION OF THE PROJECTED TEST YEAR - REVENUES & COST OF GAS | PAGE 9c OF 31

FLORIDA PUBLIC SERVICE COMMISSION

COMPANY: PEOPLES GAS SYSTEM, INC.

DOCKET NO.: 20250029-GU

Explanation: Provide the calculation for revenue and cost of gas for the test year (current rates-proposed rate classes).

FOR THE YEAR ENDED 12/31/2026

TYPE OF DATA SHOWN:
PROJECTED TEST YEAR 12/31/26
WITNESS: L. BUZARD / A. NICHOLS / J. TAYLOR

FLORIDA PUBLIC SERVICE COMMISSION

COMPANY: PEOPLES GAS SYSTEM, INC.

DOCKET NO.: 20250029-GU

EXPLANATION: PROVIDE THE MAJOR ASSUMPTIONS USED TO DEVELOP THE PROJECTED TEST YEAR ENDING 12/31/26

TYPE OF DATA SHOWN:
PROJECTED TEST YEAR: 12/31/26
WITNESS: D. BLUESTONE / L. BUZARD / J. CHRONISTER / E. FOX / A. NICHOLS / T. O'CONNOR / C. RICHARD / R. WASHINGTON

1 PLANT IN SERVICE:

A. Additions:	Each month recurring blanket capital expenditures are assumed to be closed to Plant in Service. Specific projects are added based on their expected in-service date.
B. Retirements:	Retirements were projected based on actual historical trends, adjusted for known or reasonably foreseeable events.
C. CWIP:	CWIP is projected monthly based on the monthly capital expenditures and the additions moving to plant-in-service.
D. Plant Allocations:	Based on historic base year plant allocations, adjusted to reflect anticipated changes in asset balances.
E. Plant Acquis. Adjust.:	Plant acquisition costs was fully amortized in 2021 and balances have been removed from balance sheet.

WITNESS: D. BLUESTONE / L. BUZARD / J. CHRONISTER / E. FOX / A. NICHOLS / T. O'CONNOR / C. RICHARD / R. WASHINGTON

2	CURRENT AND ACCRUED ASSETS:	
	A. Cash:	Projected as a constant level during the test year.
	B. Special Deposits:	Projected at a constant level during the test year.
	C. Working Funds:	Projected at a constant level during the test year.
	D. Accounts Receivable - Gas Customers:	Projected based on current sales and historical relationship between Sales and A/R
	E. Prov. For Uncollectible Accounts - Gas:	Projected based on historical base year balances.
	F. Receivable from Associated Companies:	Projected at a constant level during the test year.
	G. Plant & Oper. Materials & Supplies:	Projected at a constant level during the test year.
	H. Prepayments:	Projected increases and decreases based on historical experience for this account. 2.3% increase in prepaid expenses.
	I. Unbilled Revenues:	Projected based on current sales and historical relationship between Sales and unbillled
3	DEFERRED CHARGES:	
	A. Unamortized D.D. & E.:	Assumed Current schedule of amortization of D.D & E with additions in June 2025 $510K issuance and assume June 2026 of $372K and November 2026 of $510K for test year.
	B. Misc. Deferred Debits:	Environmental portion based on estimated expenditures for testing and/or remediation at old gas plant sites, less currently authorized amortization. FAS 158 asset portion projected at a constant level during the test year. Remainder based on expected activity.
	C. Unamortized Rate Case Expense:	Projected rate case expense being amortized over 2 years.
	D. Unrecovered Gas Costs:	Projected increases and decreases based on historical experience for this account. Projection reflects Company's intention to have neither significant over or under-recovery in the test year.
4	COMMON EQUITY:	
	A. Common Stocks:	No anticipated change during the test year.
	B. Additional Capital:	Projection includes equity from parent of $159 million during the test year to support the Company's ongoing expansion.
	C. Unappropriated Retained Earnings:	Based on projected net income for the test year less dividends paid to parent.
	D. Appropriate Cost of Equity is 11.10% (see testimony of Dylan D'Ascendis.)

WITNESS: D. BLUESTONE / L. BUZARD / J. CHRONISTER / E. FOX / A. NICHOLS / T. O'CONNOR / C. RICHARD / R. WASHINGTON

5 LONG-TERM DEBT

A. Projected based on financing needs. $925 million long-term debt refinanced in 2023. Assume in June 2025 $125M is issued and assume in June 2026 $75M and November 2026 $125M is issued for test year. See testimony of Kenneth McOnie.

6 CURRENT AND ACCRUED LIABILITIES:

A. Notes Payable:	Notes payable represents short-term borrowings under People's Gas's credit facilities which include a $250 million credit facility.
B. Accounts Payable:	Projected based on current month spend applied with historical payment %s.
C. Accounts Payable to Associated Co's:	Projected at a constant level during the test year.
D. Tax Accrued - General:	Projected based on prior year escalated.
E. Tax Accrued - Income:	Projected based on projected taxable income less scheduled Federal and State income tax payments.
F. Interest Accrued:	Projected based on scheduled interest expense accruals and scheduled payments.
G. Tax Collections Payable:	Projected based on historical relationship between Tax Collections Payable and Operating Revenues and upon analysis of past escalated 2 years' trends.
H. Misc. Current Liabilities:	Projected based on 2 years' average by month. Projected based on historical trends and projections available for certain items such as pension liability (accrual and funding), Long Term incentive and AP related to employee expenses. I&D balance projected at a constant level during the year.

7 DEFERRED CREDITS:

A. Pension and postretirement benefits reserves are based on actuarial estimates; all other deferred credits were projected based on historical trends.

8 REVENUES:

A. General:

There were an average of 500,199 customers during our base year, and we estimate there will be 538,102 by the end of 2026. This is a net increase of 37,903 customers over two years.

For rate schedules in B through F below, the monthly per-customer consumption is developed using regression models for each of 14 service areas. The monthly number of customers are also developed using regression models for each service area. The models' resulting forecasts for number of customers and per-customer therm consumption are multipled to get total projected therm consumption for each service area. The 2025 and 2026 average number of customers and annual therms is the result of the 14 service area models.
In addition, customers and therm projections for known or expected projects are layered in the forecasts.
Under section B below, the exceptions are Residential Heat Pump. There were a limited number of Residential Heat Pump customers at the time the forecasts were developed, limited growth is projected through 2026.

For rate schedules G, H, N-Q below, the projections of customers and therms are based on individual customer level analysis of recent trends and input from customers when necessary. In addition, customer and therm projections for known or expected projects are layered in the forecast.

For rate schedules I - M below, the projections of customers and therms are based on historical trends and known or expected changes.

Rate Classificiation	Minimum Annual Therms	Maximum Annual Therms

FPSC EXH NO. 8
ADMITTED

FLORIDA PUBLIC SERVICE COMMISSION
COMPANY: PEOPLES GAS SYSTEM, INC.
DOCKET NO.: 20250029-GU

EXPLANATION: PROVIDE THE MAJOR ASSUMPTIONS USED TO DEVELOP THE PROJECTED TEST YEAR ENDING 12/31/26

TYPE OF DATA SHOWN:
PROJECTED TEST YEAR: 12/31/26
WITNESS: D. BLUESTONE / L. BUZARD / J. CHRONISTER / E. FOX / A. NICHOLS / T. O'CONNOR / C. RICHARD / R. WASHINGTON

9 COST OF GAS

A. Projected at $0.7081 per therm for residential and commercial gas service classes. For ratemaking purposes, all gas-related revenues and expenses are eliminated from the calculation of Net Operating Income.

10 OFF SYSTEM SALES

A. The $2.6 million amount reflects the Company's 25% share of the Off System Sales ("OSS") net revenues that is netted against the 2026 revenue requirement. See testimony of A. Nichols.

11 OPERATION AND MAINTENANCE EXPENSE:

A. Operation and maintenance expenses were projected in accordance with the methodology prescribed by the Commission for MFR Schedule G-2. On MFR Schedule G-2, pages 12-19, each FERC account is broken down into categories as appropriate: payroll trended, other trended, payroll not trended and other not trended. Trending factors used were payroll only, customer growth plus inflation (CPI) and inflation only. The 2025 and 2026 Payroll is trended at 4.00%. The 2025 and 2026 Other not trended assumes a 2.50% and 2.33% inflation rates respectively. Additionally, a detailed 2026 budget was prepared by resource type, and total O&M expense using this approach was reconciled to total O&M expense using Commission's trending methodology for MFR Schedule G-2, pages 12-19.

B. Certain items of expense were "not trended" where specific information was available as to future costs.
These items include:

- Impact of each employee addition in 2025 and 2026 by FERC account (payroll not-trended)
- Deferred tax reform O&M (Acct. 407.3)
- CNG station leased O&M (Acct. 413)
- Engineering contractor costs (Acct. 870)
- Gas Operations contractor costs for mains and services expense (Acct. 874)
- Gas Operations contractor costs for meter expense (Acct. 878)
- TIMP - pipeline reassessments and risk analysis (Acct. 887)
- DIMP risk analysis and planning (Acct. 892)
- Gas Operations contractor costs for meter reading expense (Acct. 902)
- CRMB asset usage fee and Customer Experience distribution increase (from 33% to 37% and 30% to 37%, respectively) based on customer count (Acct. 903)
- Bad debt expense (Acct. 904)
- TECO Partners Marketing Services Agreement (Acct. 912)
- Short-term employee incentive compensation and non-recurring legal expenses (2024) (Acct. 920)
- Pipeline Safety team member safety specialized training on PPE items and AED replacement parts (Acct. 921)
- Capitalized A&G and intercompany allocation to Seacoast and TECO Partners (Acct. 922)
- Non-recurring legal expenses (2024), leadership development programs, consulting for environmental disclosure and compliance requirements, Pipeline Safety compliance and safety management system expertise, and audit fees (Acct. 923)
- Storm costs annual accrual expense (Acct. 924)
- Insurance premiums and fees, I&D reserve balance adjustments and non-recurring legal expenses (2024) (Acct. 925)
- Total employee pension and benefits (Acct. 926)
- Rate case expense (Acct. 928)
- Non-CRMB portion of asset usage fee, non-recurring legal expenses (2024), software implementation regulatory asset amortization, IT contractor costs, IT Deloitte AMS renewal, IT security related application license fees moving to cloud base, facilities O&M expense, TEC allocated and assessed charges for shared services, Emera direct and assessed charges for support services (Acct. 930.2)

12 CUSTOMER GROWTH

A. See "REVENUES"

13 DEPRECIATION AND AMORTIZATION

A. Depreciation was computed based on projected plant balances for the test year and using depreciation rates approved by the Commission in Order No. 2023-0388-FOF-GU.

B. Amortizations are based on rates approved by the Commission in Order No. 2023-0388-FOF-GU and projected plant balances.

C. None as Acquisition adjustments were fully amortized in 2021.

D. Environmental costs are based on the Company's proposal to maintain the Manufactured Gas Plant regulatory asset amortization of $1 million annually. See testimony of Company witness A. Nichols for further details.

SUPPORTING SCHEDULES: E-1, G-2 p. 6

PROJECTED TEST YEAR: 12/31/26
WITNESS: D. BLUESTONE / L. BUZARD / J. CHRONISTER / E. FOX / A. NICHOLS / T. O'CONNOR / C. RICHARD / R. WASHINGTON

14 TAXES OTHER THAN INCOME:

A. Ad Valorem tax based on specific estimates by county using recent information. FPSC Assessment estimated based on revenue-related growth.
FICA, Unemployment taxes increased based on payroll trend factors and employee additions.
Gross Receipts / Franchise Fee taxes flat to historic base year + 1 (pass-through items eliminated for rate-making purposes).

15 INCOME TAXES:

A. Income taxes were calculated at the combined Federal and State statutory rate of 25.345%.

16 INTEREST EXPENSE:

A. Long-Term Debt: Assumed $200M of issuances in test year (June 2026 $75M at 5.2% & November 2026 $125M at 5.1%), Issuance of $125M in June of 2025 at interest rate of 5.3% and $925 million of issuances completed in 2023 ($350M at 5.42%, $350M at 5.63%, $225M at 5.94%).
(See testimony of Andrew Nichols)

B. Short-Term Debt: Interest on Notes Payable is assumed to be 4.24% on average

C. DD&E Amortization: Assumed addition of $883K of DD&E in test year (June 2026 $372K at $3K monthly amortization & November 2026 $510K at $4.2K monthly amortization), DD&E of $510K in June of 2025 at amortization and $2.8 million of DD&E added in 2023 at monthly amortization of $28K.

D. Customer Deposits: Interest on customer deposits were calculated at 2.0% for residential deposits.
Interest on customer deposits were calculated at 2.0% for commercial deposits up to the twenty-third (23) month and 3.0% after the twenty-third (23) month.
Interest on customer deposits were calculated at 0.0% for pool manager deposits.

Tallahassee, Florida 32399-0850

Re: Docket 20250029-GU, Petition for Rate Increase by Peoples Gas System, Inc.

Dear Mr. Teitzman:

It has come to the company's attention that the PDF version of MFR Schedule H-1, pages 1 to 11 (Bates pages 438 to 447) does not match the Microsoft Excel Format version that was filed with the Commission on April 4, 2025. Accordingly, the company submits the attached revised PDF pages 1 to 11 (Bates pages 438 – 447) of Schedule H-1.

Thank you for your assistance with this matter.

Sincerely,

Virginia Ponder

SCHEDULE I-1 | CUSTOMER SERVICE - INTERRUPTIONS | PAGE 1 OF 1

FLORIDA PUBLIC SERVICE COMMISSION

COMPANY: PEOPLES GAS SYSTEM, INC.

DOCKET NO.: 20250029-GU

EXPLANATION: PROVIDE A LIST OF ANY INTERRUPTIONS IN SERVICES AFFECTING THE LESSER OF TEN PERCENT OR 500 OR MORE OF DIVISION METERS.

TYPE OF DATA SHOWN:
HISTORIC BASE YEAR DATA: 12/31/24
WITNESS: T. O'CONNOR

DESCRIPTION	CAUSE	DATE	DURATION
PGS was notified by the public of a gas odor at 3264 Longleaf Pine Parkway, St. Johns County Florida. Responding crews were dispatched and upon arrival, confirmed there was an active leak. The pipeline was excavated and squeezed off, stopping the escaping gas. As a result, 1,534 customers were out of service.	PGS crews identified the source of the leak as a plastic fusion of the 6-inch main. The fusion was cut out and sent to a Testing and Analysis lab to identify the cause. The testing facility identified the plastic fusion as a failed weld.	December 18, 2023	December 19, 2023: Gas flow restored December 20, 2023: Most customers restored December 22, 2023: All customers restored

***The company had no interruptions in service affecting the lesser of 10% or 500 or more of a division's meters in 2024.

RULES AND REGULATIONS

I

INITIATION OF SERVICE

A. REQUEST FOR GAS SERVICE

Gas Service may be requested by a prospective Customer by:

1. Verbal, telephonic or electronic request to a business office of the Company (in the case of residential Gas Service), or

2. By submission to Company of a completed Gas Service Agreement (in the case of Gas Service other than residential Gas Service).

B. ACCEPTANCE OF REQUEST FOR GAS SERVICE

A Gas Service Agreement shall be deemed to be accepted by the Company when Gas Service pursuant thereto is initiated.

C. OBLIGATION OF CUSTOMER AND COMPANY

The terms and conditions of the Customer's Gas Service Agreement, these Rules and Regulations, and the applicable rate schedules shall become binding upon the Customer and Company upon acceptance by the Company of the Customer's Gas Service Agreement.

D. MISCELLANEOUS SERVICE CHARGES

Whenever Gas Service is established or re-established at any location, the charges set forth below will be made:

	RESIDENTIAL	OTHER
ACCOUNT OPENING CHARGE (applies only where a change of Customer occurs and Gas Service is not shut off at the premises)	**$3~~3~~1.00**	**$3~~3~~1.00**
METER TURN ON / SERVICE INITIATION CHARGE (applies where service is inactive)	**$~~78~~94.00 for initial unit or meter $~~34~~36.00 for each additional unit or meter**	**$~~107~~121.00 for initial unit or meter $~~46~~54.00 for each additional unit or meter**

RULES AND REGULATIONS (Continued)

	RESIDENTIAL	OTHER
METER RECONNECTION/ SERVICE RESTORATION CHARGE (applies where service has been turned off for cause and includes cost of turn-off)	**$~~104~~100.00 for initial unit or meter $33.00 for each additional unit or meter**	**$1145.00 for initial unit or meter $~~4~~23.00 for each additional unit or meter**
TRIP CHARGE/COLLECTION AT CUSTOMER PREMISES (applies when Company's employee, agent, or representative makes a trip to Customer's premises for the purpose of terminating Gas Service or providing final notice of termination for nonpayment of bills)	**$2~~9~~5.00**	**$2~~9~~5.00**
FAILED TRIP CHARGE AT CUSTOMER PREMISES (applies when the Customer fails to keep a scheduled appointment with the Company's employee, agent or representative)	**$~~25~~31.00**	**$~~25~~31.00**
TEMPORARY METER TURN-OFF CHARGE (applies when Company's employee, agent or representative, turns off Customers' meter temporarily at Customer's request)	**$33.00 per meter**	**$33.00 per meter**

Where Gas Service is established outside of normal business hours, by special appointment, or same day service the charges set forth above multiplied by 1.5. Same day service is offered on an as-available basis.

RULES AND REGULATIONS (Continued)

E. WITHHOLDING OF GAS SERVICE

Company will refuse to establish Gas Service to any location where it finds that establishment of Gas Service will create an unsafe or hazardous condition on the Customer's premises or affecting the general public.

Company may discontinue Gas Service to an existing Customer or refuse to serve a prospective Customer where such Customer's use of Gas is or will be detrimental or hazardous to the Gas Service supplied to other Customers.

Company may discontinue service to an existing Customer or refuse to establish Gas Service for actions or threats made by a Customer, or anyone on the Customer's premises, which are reasonably perceived by a Company employee as violent or unsafe, after affording the Customer reasonable opportunity to cease from any further act of violence or unsafe condition.

Company will not establish Gas Service to any Customer where that Customer is in arrears for Gas Service at that location or another location in the Company's service area.

If a prospective Customer requests connection for Gas Service but denies the Company's employees and representatives access to the Customer's Installation for the purpose of inspecting the appliances prior to establishing Gas Service, the Company may refuse to provide Gas Service to the prospective Customer.

Fraudulent Use of Gas:
Company will discontinue Gas Service without notice:

a. In the event of tampering with regulators, valves, Meters or other facilities furnished and owned by Company, or

b. In the event of other fraudulent use of Gas Service.

Whenever Gas Service is discontinued for unauthorized or fraudulent use thereof, the Company, before restoring Gas Service, may require Customer to make, at Customer's expense, all changes in piping or equipment necessary to eliminate the fraudulent use and to pay an amount reasonably estimated as the deficiency (if any) in Company's revenue and all costs incurred by Company resulting from such unauthorized or fraudulent use.

In the event, Gas Service has been discontinued to particular premises and a prior, existing, new or prospective Customer wishes to restore such service, said Customer shall be responsible for any expenses required for the Company to restore service.

As used herein, "costs incurred by Company" shall include the Company's cost to cut and cap the Customer's service line at the Main, together with the cost incurred by the Company to restore service to the Customer, in the event the Company, in order to discontinue service to the Customer pursuant to this section, has been required (after final notice to the Customer requesting payment, and the Customer's denial of access by Company to its meter for the purpose of discontinuing service) to cut and cap the Customer's service line at the Main. If a Customer whose service line has been cut and capped as aforesaid thereafter requests restoration of Gas Service, Company may require such Customer to pay (in addition to any other charges payable pursuant to these Rules and Regulations) all costs incurred by Company to effect the previous discontinuance of Gas Service to such Customer, as well as all costs incurred by Company to restore Gas Service to such Customer.

FPSC EXH NO 12

II

CUSTOMER'S INSTALLATION

A. GENERAL

Customer's Installation shall be constructed, installed and maintained in accordance with standard practice as determined by local codes and ordinances applicable thereto, these Rules and Regulations and other applicable governmental requirements; provided, however, that Company shall have no responsibility whatsoever for determining whether any local code or ordinance or any other governmental requirement is applicable to Customer's Installation, or for enforcing or determining whether Customer's Installation is in compliance with any local code or ordinance or any other governmental requirement. A Customer installing a Gas fired electric generator shall also ensure that the installation and operation of such equipment complies with the Tariff and the requirements of the Customer's electric provider. Customer shall be responsible for the installation and maintenance of carbon monoxide or methane gas detectors within the Customer's premises.

The Customer's piping, appliances, equipment and apparatus shall be installed and maintained in accordance with standard practice, and in full compliance with all applicable laws, codes and governmental and Company regulations. The Customer expressly agrees to utilize no apparatus or device which is not properly constructed, controlled, and protected, or which may adversely affect service to others, and the Company reserves the right to discontinue or withhold service for such apparatus or device.

Customer shall give immediate notice to the Company when any leakage of Gas is detected, discovered, or suspected. Whenever a leakage of Gas is suspected, detected, or discovered, Customer agrees not to use any potential source of ignition, such as flame, electrical source, or other igniting medium in the proximity of escaping Gas, which could ignite such Gas.

B. INSPECTION OF CUSTOMER'S INSTALLATION

Where governmental inspection of a Customer's Installation is required, Company will not supply Gas Service to such installation until the necessary inspections have been made and Company has been authorized to provide Gas Service.

Company may also inspect Customer's Installation prior to rendering Gas Service, and from time to time thereafter, but assumes no responsibility whatsoever as a result of having made such inspection. -Company will not render (and may discontinue) Gas Service to any Customer Installation which Company finds to be hazardous. Customer has sole responsibility to insure that the hazardous condition has been corrected prior to initiation of Gas Service.

III

DEPOSITS (Continued)

2. a. tampered with the Gas Meter; or

b. used service in a fraudulent or unauthorized manner.

G. REFUND OF DEPOSIT WHEN GAS SERVICE IS DISCONNECTED

Upon termination of Gas Service, a cash deposit and accrued interest may be credited against the final account and the balance, if any, shall be returned promptly (in no event later than fifteen (15) days after Gas Service is discontinued) to the Customer or agency.

H. RETURNED CHECKS

If the Customer's check for Gas Service is returned to the Company and not paid by the drawer's bank, the Company will follow the procedures set forth in Section 832.07, Florida Statutes. Termination of Gas Service shall not be made for failure to pay such returned check charge.

IV

BILLING

A. BILLING PERIODS

Bills for Gas Service will be rendered each month. Bills shall be considered received by Customer when mailed to the most recent billing address supplied by Customer to Company or by other delivery method used by the Company to reach the Customer.

It is the Customer's (both sales service and transportation service Customers) obligation to make payments to the Company (or to an Authorized Payment Agent of the Company) of all bills rendered. Payment by a Customer to a third party (including a Third Party Gas Supplier) which has not been designated by Company as an Authorized Payment Agent will not satisfy the Customer's obligation to make payment of Company's bill for Gas Service.

B. INITIAL OR FINAL BILLS

When the period of Gas Service for which an initial or final bill is rendered is less than fifty (50) percent of the normal billing period, the Customer charge or minimum bill shall be one-half (1/2) of the charge per applicable rate schedule. When the period of Gas Service is fifty (50) percent or more of the normal Billing Period, there shall be no reduction in the Customer charge or minimum bill. The distribution charge for Gas consumed shall be at the applicable billing rate.

C. NON-RECEIPT OF BILLS

Failure of Customer to receive a bill shall not relieve Customer of its obligation to pay the bill.

D. METER READINGS NOT COMBINED

If a Customer takes Gas Service under more than one rate schedule at a single delivery point, the bill shall be calculated separately for the Gas Service provided under each such rate schedule.

If a Customer takes Gas Service under one or more rate schedules at two or more Points of Delivery, a bill shall be calculated separately for Gas Service provided under each rate schedule at each Point of Delivery.

If Company must, for reasons of its convenience, establish more than one Point of Delivery at a single premise, the readings of the Meters for like classes of service will be combined.

E. DELINQUENT BILLS

A bill shall be considered delinquent if payment thereof has not been received by Company (or an Authorized Payment Agent of the Company) upon the expiration of twenty (20) days from the date of Company's mailing or other delivery of such bill. Charges for services due and rendered which are unpaid as of the past due date may be subject to a Late Payment Charge of 1.5 percent, except the accounts of federal, state, and local governmental entities, agencies, and instrumentalities. A Late Payment Charge may be applied to the accounts of federal, state, and local governmental entities, agencies, and instrumentalities at a rate no greater than allowed, and in a matter permitted by applicable law.

BILLING (Continued)

Essential Service Customer of the scheduled disconnect date. The Company may thereafter discontinue Gas Service to the Medically Essential Service Customer on the scheduled disconnect date if payment is not made on or before such date.

During the period that Gas Service is continued under the provisions of this section, the Customer shall continue to be responsible for the cost of the residential Gas Service.

H. ADJUSTMENT OF BILLS FOR METER ERROR

Whenever a Meter is found to have an average error as defined in Commission Rule 25-7.062, FAC, of more than two percent (2%) fast, Company will refund to Customer the amount billed in error for one-half the period since the last Meter test. This one-half period will not exceed twelve (12) months unless it can be shown that the error was due to some cause, the date of which can be fixed, in which case the overcharge will be computed back to, but not beyond, such date, based upon available records. If the Meter has not been tested in accordance with Commission Rule 25-7.064, FAC, the period for which it has been in service beyond the regular test period will be added to the twelve (12) months in computing the refund. The refund will not include any part of any minimum or Customer charge.

Except as provided by this subsection, Company may back bill Customer in the event that ~~if~~ a Meter is found to be slow, non-registering or partially registering. Company may not ~~backbill~~back bill for any period greater than twelve (12) months from the date it removes the Meter of a Customer, which Meter is later found by Company to be slow, non-registering or partially registering. If it can be ascertained that the Meter was slow, non-registering or partially registering for less than twelve (12) months prior to removal, then Company may ~~backbill~~back bill only for the lesser period of time. In any event, Customer may extend the payments of the back bill over the same amount of time for which Company issued the back bill.

1. Whenever a Meter tested is found to have an average error of more than two percent (2%) slow, Company may bill Customer an amount equal to the unbilled error in accordance with this subsection. If Company has required a Meter test deposit as permitted under Commission Rule 25-7.065(2), FAC, Customer may be billed only for the portion of the unbilled error which is in excess of the deposit retained by Company.

2. In the event of a non-registering or a partially registering Meter, unless the provisions of subsection (3) of this rule apply, Customer may be billed on an estimate based on previous bills for similar usage.

3. It shall be understood that w~~W~~hen a Meter is found to be in error in excess of the prescribed limits of two percent (2%) fast or slow, the figure to be used for calculating the amount of refund or charge shall be that percentage of error as determined by the test.

4. In the event of unauthorized use, Customer may be billed on a reasonable estimate of the Gas consumed.

BILLING (Continued)

I. BUDGET BILLING PLAN (optional)

Residential Customers (RS) and non-Residential Small Commercial Customers (SGS) served under Rate Schedules SGS, CS-GHP, GS-1, GS-2, and GS-3 may elect to make budgeted monthly payments of amounts due the Company to help stabilize their monthly payments. To qualify for the Budget Billing Plan, a customer must be in good financial standing. In determining whether a Customer is in good financial standing, the Company will have consider such factors as whether the Customer has noan overdue balance, whether the Customer has a or pending service disconnection for non-payment, whether the Customer has a history of late payment or returned payments for insufficient funds, or other similar factors. when beginning the plan. The Company shall have 30 days following a Customer's request to participate in the Budget Billing Plan to deny or implement such participation in the program. The Company retains the option to remove customers from the program if customers do not remain in good financial standing.

If a Customer requests to participate in the programmake budgeted payments, the initial budgeted payment amount will be is based on an average of the previous twelve (12) months consumptionbills due the Company, including all applicable fees and taxes. If the Customer has not received Gas Service from the Company at the requesting location for the preceding twelve (12) months, the Company may deny enrollmentwill use the best information available to calculate the initial monthly payment amount. After the Customer's budgeted monthly payment amount has been initially established, the Company may recalculate the payment from time to time, and the Company may begin charging the recalculated amount on the Customer's next successive bill. If the recalculated budgeted payment amount varies by fifteen (15) percent or more from the budgeted payment amount then in effect, the Company may begin charging the recalculated amount on Customer's next successive bill.The Company will perform periodic reviews.

Any current and total deferred balance will be shown on the Customer's bill. When a The Customer's budgeted payment amount is will be recalculated, on each anniversary of the Customer's initial participation in the plan. On such recalculation, any deferred credit deferred balance will be credited refunded to the Customer's account only during an annual true-up period;, and one-twelfth (1/12) of any deferred debit deferred balance will be embedded into the Customer's added to the following year's recalculated budgeted monthly payment amount.

An electing Customer's participation in the Budget Billing Plan will be continuous unless the customer requests that participation in the plan be terminated, Gas Service is terminated, or the Company elects to terminate the customer from participating in the program. Customer has had more than one arrears per year initiating field collection procedures. At that time of termination, the Customer's participation in the plan will be terminated and the Customer shall settle theirhis account with the Company in full;. If a Customer requests to terminate participation in the plan, customers who but remains a Customer of the Company, the Customer shall pay any deferred debit balance with their his next regular monthly bill, and any deferred credit balance shall be used to reduce the amount due for the next regular monthly bill. An electing customer may request that participation be terminated at any time. Any Customer who is disqualified terminated from the program by the Company because of collection action or any Customer who voluntarily terminates participation in the program may not rejoin the program for at least twelve (12) months.

BILLING (Continued)

J. SUMMARY BILLING PLAN (optional)

A Customer with ten (10) or more Company accounts and no bill in arrears may request a single statement for the billing and payment of those accounts under this Summary Billing Plan. With Summary Billing, the Customer designates which accounts are to be included in the plan. Those accounts may be separated into groups each of which will be billed once a month on cycle billing days as designated by the Company.

The Company will read each meter and calculate a billing amount for each account separately. The billing amount for each of the designated accounts will be totaled on a Summary Billing statement, with each of the individual account bills attached as backup, and a single totaled bill will be included for remittance. Summary bills are due when rendered. If the summary bill is not paid in full within ten (10) days after ~~from the~~ mailing or other delivery method used by the Company to reach the Customer~~date~~, the Customer may be removed from the Summary Billing Plan.

V

MEASUREMENT

A. METERS

Company will own, operate and maintain the Meters and regulating equipment needed to accurately measure Gas Service provided to Customer.

Customer will provide a convenient, accessible, and safe location, satisfactory to Company, for installation of necessary Meters, regulators, and ancillary equipment.

Customer will safeguard Company's facilities on Customer's property and will not permit unauthorized persons to tamper with such facilities or otherwise operate or alter them in any manner.

If changes in conditions on Customer's premises adversely affect the convenience, accessibility, or safety of the Meter location, the Customer shall be responsible for the cost of relocating the Meter, its appurtenances, and related piping.

All Gas delivered to Customers shall be measured by commercially acceptable measuring devices owned and maintained by the Company, except where it is impractical to Meter loads, such as street lighting, and temporary or special installations, in which case the consumption may be calculated~~,~~ or billed on a rate or as provided in the Company's filed Tariff.

B. TYPE OF METERING PROVIDED

1. Except as provided in paragraph (2) below, each separate occupancy unit (as defined in Commission Rule 25-7.071, FAC) for which construction commenced after January 1, 1987, shall be individually metered.

2. Individual Meters shall not be required, and master metering is permitted, for separate occupancy units where dimensions or physical configurations of the units are subject to alteration; where Gas is used in central heating, water heating, ventilating and air conditioning systems, or Gas back up service to storage heating and cooling systems; in specialized-use housing accommodations such as hospitals and other health care facilities specified in Commission Rule 25-7.071, FAC, college dormitories, convents, sorority or fraternity houses, motels, hotels and similar facilities; in specially designated areas for overnight occupancy at trailer, mobile home and recreational vehicle parks where permanent residency is not established; in marinas where living aboard is prohibited by permanent means; or where individual Gas Service would otherwise be required above the second story, in accordance with Commission Rule 25-7.071, FAC.

3. When individual metering is not required and master metering is used, submeters may be purchased and installed at Customer's request and expense, for use in allocating solely the cost of Gas billed by Company for Gas Service at the master Meter.

C. METER ACCURACY AT INSTALLATION

All Meters, when installed, shall be not more than 1 percent fast or 1 percent slow and will have been tested not more than twelve (12) months prior to being installed.

MEASUREMENT (Continued)

D. METER TESTS

Company will periodically test Meters to ensure they properly and accurately measure the Gas Service provided to Customer.

E. METER TEST BY REQUEST

1. Upon written request of a Customer, the Company shall, without charge, make a test of the accuracy of the Meter in use at the Customer's premises; provided, first, that the Meter has not been tested by Company or by the Commission within twelve (12) months previous to such request and, second, that Customer agrees to accept the results of such test as the basis for the adjustment of disputed charges.

2. Should the Customer request a Meter test more frequently than once a year, the Company may require a deposit to defray the cost of testing in accordance with Commission Rule 25-7.065(2), FAC, and such deposit not to exceed the following for each test: (a) Meters with a capacity rating of 250 cfh or less - $34.00 dollars; (b) Meters with a capacity rating of over 250 cfh through 2500 cfh - $85.00 dollars; (c) Meters with a capacity rating over 2500 cfh - $129.00 dollars. If the Meter is found to be more than two percent fast, the deposit shall be refunded, but if below this accuracy limit, the deposit may be retained by Company as a service charge for conducting the test.

3. If Customer so desires, he or his authorized representative may witness the test. A written report, giving the results of the test, shall be furnished to Customer upon request.

4. At the request of the Customer, the Company shall make arrangements for a meter test to be conducted by an independent meter testing facility of the Customer's choosing. Where appropriate, the meter may be field tested. The Customer shall be responsible for all the costs to the Company associated with a meter test by an independent meter testing facility. The Company shall provide a detailed estimate of such costs and may require payment of such costs prior to the actual meter test. If the meter is found to be running fast in excess of the limits established by these rules, such costs shall be refunded, but if within the allowable limits, the Company may retain the costs.

F. METER TEST - REFEREE

1. Upon written application to the Commission by a Customer, a test of the Customer's Meter will be made or supervised as soon as practicable by a representative of the Commission.

2. A Meter shall not be disturbed after Company has received notice that application has been made for such referee test unless a representative of the Commission is present or unless authority to do so is first given in writing by the Commission or by Customer.

3. A written report of the results of the test will be made by the Commission to Customer.

VII

LIMITS OF COMPANY'S RESPONSIBILITIES

The Company shall not be liable for any property damage, fatality, or personal injury sustained on the Customer's premises resulting from the Customer's Installation or ~~the gas pipe,~~ fittings, appliances and apparatus of any other type ~~of others~~ on Customer's premises, including, but not limited to, defects or failure of Customer to maintain Customer's premises which allow Gas leakage. The Company will not be responsible for the use, care or handling of Gas once the Gas passes the Point of Delivery. The Company shall not be liable to the Customer for naturally occurring or other impurities, regardless of the source, such as water, sand, black powder, sulfur, butane, or other chemicals or compounds in the Gas delivered to Customer. The Company shall not be liable for any loss or damage caused by variation in Gas pressure, defects in pipes, connections and appliances, escape or leakage of Gas, sticking of valves or regulators, or for any other loss or damage not caused by the Company's negligence arising out of or incident to the furnishing of Gas to any Customer.

Whenever Company deems an emergency or system operating condition warrants interruption, curtailment or other limitation of the Gas Service being rendered, such interruption, curtailment or other limitation shall not constitute a breach of contract and shall not render Company liable for damages suffered as a result of such interruption, curtailment or other limitation of Gas Service, or excuse Customer from continuing to fulfill its obligations to Company.

VIII

CONTINUITY OF SERVICE

The Company will use reasonable diligence at all times to provide regular, uninterrupted Gas Service, and shall not be liable to the Customer for any fatality, injury to person, or loss of or damage to property arising from causes beyond its control or from the ordinary negligence of the Company, its employees, servants or agents, including, but not limited to, damages for Gas leakage, complete or partial failure or interruption of service, for initiation of or re-connection of service, for shutdown for repairs or adjustments, for fluctuations in Gas flow, for delay in providing or restoring Gas Service, for termination of Gas Service, or for failure, as the result of an emergency or a Force Majeure event, to warn of interruption of Gas Service.

IX

LIMITATION ON CONSEQUENTIAL DAMAGES

To the fullest extent permitted by law, neither the Company, nor their respective officers, directors, agents, employees, members, parents, subsidiaries or affiliates, successors or assigns, or their respective officers, directors, agents, employees, members, parents, subsidiaries or affiliates, successors or assigns, shall be liable to the Customer or any other party or their respective officers, directors, agents, employees, members, parents, subsidiaries or affiliates, successors or assigns, for (i) claims, suits, actions or causes of action for incidental, indirect, special, punitive, unforeseen, multiple or consequential damages connected with or resulting from Company's performance or non-performance (such as loss of use of any property or equipment, loss of profits or income, loss of production, rental expenses for replacement property or equipment, costs to repair or demolish property, governmental fines, penalties or charges, diminution in value of real property, or expenses to restore operations, or loss of goods or products), or (ii) any actions undertaken in connection with or related to service under this Tariff, including without limitation, actions which are based upon causes of action for breach of contract, tort (including negligence and

misrepresentation), breach of warranty, strict liability, statute, operation of law, under any indemnity provision or any other theory of recovery.

X

INDEMNITY TO COMPANY

A. General. The Customer shall indemnify, hold harmless, and defend the Company from and against any and all liability, proceedings, suits, cost or expense for loss or damage or injury to person or property or for fatality, in any manner directly or indirectly connected with or arising out of the transmission, distribution or use of Gas by the Customer at or on the Customer's side of the Point of Delivery, including the contributory or concurrent negligence of the Company or in any manner directly or indirectly connected with or arising out of the Customer's acts or omissions.

B. Governmental. Notwithstanding anything to the contrary in the Company's Tariff, including these Rules and Regulations, the Rate Schedules, and Standard Forms, any obligation of indemnification therein required of a Customer that is a governmental entity of the State of Florida or political subdivision thereof ("governmental entity"), shall be read to include the condition "to the extent permitted by applicable law."

XI

APPEALS TO THE COMMISSION

Whenever the application of these rules and regulations appear to be unjust or impractical either the Company or the Customer may request permission from the Commission for an exception.

RESIDENTIAL SERVICE
Rate Schedule RS

Availability:

Throughout the service areas of the Company.

Applicability:

Gas Service for residential purposes in individually metered residences and separately metered apartments. Also, for Gas used in commonly owned facilities of condominium associations, cooperative apartments, and homeowners associations, (excluding any premise at which the only Gas-consuming appliance or equipment is a standby electric generator), subject to the following criteria:

1. 100% of the Gas is used exclusively for the co-owner's benefit.

2. None of the Gas is used in any endeavor which sells or rents a commodity or provides service for a fee.

3. Each Point of Delivery will be separately metered and billed.

4. A responsible legal entity is established as the Customer to whom the Company can render its bills for said services.

5. RS-GHP refers to any Residential Customer utilizing a gas heat pump ("GHP") for heating and cooling.

Customers receiving service under this schedule will be classified for billing purposes according to annual usage as follows:

Billing Class	Annual Consumption
RS-1	0 – 99 Therms
RS-2	100 – ~~249~~1,999 Therms
~~RS-3~~	~~250 – 1,999 Therms~~
RS-GHP	All Therms

Monthly Rate:

Billing Class	Customer Charge
RS-1	$~~19.10~~26.50 per month
RS-2	$~~35.50~~24.41 per month
~~RS-3~~	~~$31.54 per month~~
RS-GHP	$~~31.54~~56.00 per month

Distribution Charge: $0.~~3516~~46319 per Therm for RS-1~~,~~ and RS-2~~, and RS-3~~
$0.12~~617395~~ per Therm for RS-GHP

Minimum Bill: The Customer charge.

RESIDENTIAL SERVICE (Continued)

Note 1 – Company's Budget Billing Plan plan is available to eligible Customers receiving Gas Service pursuant to this rate schedule (See Sheet No. 5.401-3).

The bill for the Therms billed under this schedule shall be increased in accordance with the provisions of the Company's Purchased Gas Adjustment Clause set forth on Sheet No. 7.101-1.

Special Conditions:

1. The rates set forth under this schedule shall be subject to the operation of the Energy Conservation Cost Recovery Adjustment Clause set forth on Sheet No. 7.101-2.

2. Service under this schedule shall be subject to the Rules and Regulations set forth in this Tariff.

3. Service under this schedule for the RS-1 Billing Class is subject to an annual volume review by the Company and one additional review each year at the Customer's request. If reclassification to another billing class is appropriate such classification will be prospective.

   a) Each year, the Company will review active residential Gas Service consumption for Billing Class RS-1 to determine whether the prior 12 months of consumption was within the consumption band for that class's consumption bandthe Billing Class.

   b) If consumption is 10 percent or more over or below the consumption parameters for the RS-1 assigned Billing Class ("10 percent band"), the Company will re-assign the Customer to the RS-2 Billing Classapplicable level of consumption.

   c) If the Customer's consumption exceedsis over or below the consumption parameters for the RS-1Customer's Billing Class but is not more or less than the 10 percent band for the RS-1 assigned Billing Class for the most recent 12 months of consumption, the Customer will remain on the assigned RS-1 Billing Class. If the same result occurs in the same direction (over or below) for two consecutive annual volume review cycles, the Company will re-assign the Customer to the RS-2 appropriate Billing Class for the level of consumption.

   d) Once a Customer is classified or reclassified to the RS-2 Billing Class, no further annual reclassification will occur, and the Customer shall remain in the RS-2 Billing Class regardless of annual consumption.

   e) All new customers, or customers without 12 months of usage, will automatically be placed in the RS-2 Billing Class.

4. The rates set forth under this schedule shall be subject to the operation of the Company's Tax and Fee Adjustment Clause set forth on Sheet No. 7.101-5.

4.5. The rates set forth under this schedule shall be subject to the operation of the Company's Competitive Rate Adjustment Clause set forth on Sheet No. 7.101-5.

5.6. The rates set forth under this schedule shall be subject to the operation of the Cast Iron Bare Steel Replacement Rider Surcharge set forth on Sheet Nos. 7.806 through 7.806-3.

~~6. A RS-GHP Customer with an annual consumption in excess of 1,999 Therms shall be eligible for transportation service under Rider NCTS.~~

~~7. When the Customer receives service under the Company's Natural Choice Transportation Service Rider (Rider NCTS), the rates set forth above shall be subject to the operation of the Company's Swing Service Charge set forth on Sheet No. 7.101-3.~~

7. A RS-GHP Customer with an annual consumption in excess of 1,999 Therms shall be eligible for transportation service under Rider NCTS.

8. When the Customer receives service under the Company's Natural Choice Transportation Service Rider (Rider NCTS), the rates set forth above shall be subject to the operation of the Company's Swing Service Charge set forth on Sheet No. 7.101-3.

SMALL INTERRUPTIBLE SERVICE
Rate Schedule SIS

Availability:

Throughout the service areas of the Company.

Applicability:

Interruptible Service for non-residential commercial or industrial service under this schedule is subject to interruption or curtailment at the sole discretion of the Company at any time and is available to Customers using 1,000,000 through 3,999,999 Therms per year. A Customer eligible for service pursuant to this rate schedule is eligible for transportation service under Rider ITS.

Service will be provided by the Company based on available pipeline capacity and the Customer delivering suitable Gas into the Company's distribution system.

Monthly Rate:

Customer Charge:	$~~2,440.80~~3,259.00 -per month
Distribution Charge:	$0.~~10074~~ 13451 per Therm

The bill for the Therms billed at the above rates shall be increased in accordance with the provisions of the Company's Purchased Gas Adjustment Clause set forth on Sheet No. 7.101-1, unless Customer receives transportation service under the Company's Rider ITS.

Minimum Bill: The Customer charge.

Special Conditions:

1. A service agreement accepted by the Company is a condition precedent for service under this schedule. The term of the agreement shall be set forth therein but shall not be less than one year.

2. If the Customer's requirements for Gas change, the Customer shall notify the Company so that the daily and annual quantities in the service agreement may be changed. If the Customer's usage indicates that the amounts set forth in the then existing agreement are not applicable, the Company may require that the daily and annual estimates be changed to reflect the existing conditions.

3. The rates set forth above shall be subject to the operation of the Company's Competitive Rate Adjustment Clause set forth on Sheet No. 7.101-5.

INTERRUPTIBLE SERVICE
Rate Schedule IS

Availability:

Throughout the service areas of the Company.

Applicability:

Interruptible Gas for non-residential commercial or industrial use. Service under this schedule is subject to interruption or curtailment at the sole discretion of the Company at any time and is available to Customers using 4,000,000 through 49,999,999 Therms per year (see Special Condition 7). A Customer eligible for service pursuant to this rate schedule is also eligible for transportation service under Rider ITS.

Service will be provided by the Company based on available pipeline capacity and the Customer delivering suitable Gas into the Company's distribution system.

Monthly Rate:

Customer Charge:	$~~2,823.66~~3,652.00 per month
Distribution Charge:	$0.~~0521~~06751 per Therm

The bill for the Therms billed at the above rates shall be increased in accordance with the provisions of the Company's Purchased Gas Adjustment Clause set forth on Sheet No. 7.101-1, unless Customer receives transportation service under the Company's Rider ITS.

Minimum Bill: The Customer charge.

Special Conditions:

1. A service agreement accepted by the Company is a condition precedent for service under this schedule. The term of the agreement shall be set forth therein but shall not be less than one year.

2. If the Customer's requirements for Gas change, the Customer shall notify the Company so that the daily and annual quantities in the service agreement may be changed. If the Customer's usage indicates that the amounts set forth in the then existing agreement are not applicable, the Company may require that the daily and annual estimates be changed to reflect the existing conditions.

CONTRACT INTERRUPTIBLE SERVICE
Rate Schedule CIS

Availability:

Throughout the Service Areas of the Company.

Applicability:

Interruptible Gas for non-residential commercial or industrial use. Service under this schedule is subject to interruption or curtailment at the sole discretion of the Company at any time and is available to Customers using 100,000 Therms per year or more. A Customer eligible for service pursuant to this rate schedule is also eligible for transportation service under Rider ITS.

Service will be provided by the Company based on available pipeline capacity and the Customer delivering suitable Gas into the Company's distribution system.

Monthly Rate:

Customer Charge: Equal to the otherwise applicable Customer Charge based on annual consumption.

Distribution Charge:

An amount not less than $.01 per Therm nor greater than 90 percent of the currently applicable firm rate; provided however, that at any time during which the cumulative surpluses determined for all prior determination periods under the Competitive Rate Adjustment Clause (Non-West Florida Region) (see Sheet No. 7.101-5) equal or exceed the cumulative shortfalls determined for all prior determination periods under such clause, the distribution charge shall not exceed the distribution charge established for service under Rate Schedule IS in Company's last base rate proceeding. Unless changed by Company pursuant to this Rate Schedule, the distribution charge shall be equal to the applicable interruptible rate.

The "currently applicable firm rate" as used herein means the distribution charge prescribed in the otherwise applicable rate schedule, adjusted pursuant to the Competitive Rate Adjustment Clause (Non-West Florida Region) set forth on Sheet No. 7.101-5.

The distribution charge to Customer shall be determined by Company based upon Company's evaluation of competitive conditions. Such conditions may include, but are not necessarily limited to: the cost of Gas which is available to serve Customer; the delivered price and availability of Customer's designated alternate fuel; bypass opportunities; economic development; and the nature of Customer's operations (such as load factor, fuel efficiency, alternate fuel capacity, etc.). Company may from time to time increase or reduce the distribution charge as it deems necessary or appropriate to meet competition

FPSC EXH NO 12

CONTRACT INTERRUPTIBLE SERVICE (Continued)

5. Service under this schedule shall be subject to the Rules and Regulations set forth in this Tariff.

6. In instances where the Customer is able to demonstrate the ability and intent to bypass the Company's distribution system and purchase Gas or another source of energy from an alternate supplier~~,~~ or for economic development purposes, the distribution charge shall, in the discretion of the Company, be the rate per Therm necessary to retain the Customer on the Company's distribution system, provided that such rate is demonstrated to be in the long-term best interests of both the Company and its ratepayers.

7. The rates set forth in this schedule shall be subject to the operation of the Company's Tax and Fee Adjustment Clause set forth on Sheet No. 7.101-5.

FPSC EXH NO 12

OFF-SYSTEM SERVICE
Rate Schedule OSS

Availability:

Throughout the service areas of Company, and of any interstate or intrastate natural gas pipeline serving the Company (collectively, the "Pipelines").

Applicability:

Interruptible Gas delivered by Company through the facilities of a Pipeline, using Company's transportation capacity rights on such Pipeline, to any person not connected to Company's distribution system.

This Tariff is applicable to both bundled and unbundled gas service, i.e. interstate or intrastate Pipeline capacity only that is released by Company pursuant to Transporter's FERC gas tariff as well as interstate or intrastate Pipeline capacity that is bundled with natural gas supply and subsequently delivered by the Company to the Customer.

Monthly Rate:

Customer Charge: None

Transaction Charge: $100.00 per transaction

Distribution Charge:

For all Scheduled Quantities (as such term is defined in Special Condition 5 below), an amount not less than $.000 per Therm ~~nor greater than 90 percent of the currently applicable firm rate,~~ which Distribution Charge shall be established by agreement between Company and Customer prior to each transaction pursuant to this rate schedule.

The "currently applicable firm rate", as used herein, means the distribution charge prescribed in the firm rate schedule which would apply if the daily sales represented by a transaction under this rate schedule were annualized.

The Distribution Charge for service pursuant to this rate schedule shall be determined by Company based upon Company's evaluation of competitive conditions. Such conditions may include, but are not necessarily limited to: the cost of gas which is available to serve Customer; the delivered price and availability of Customer's designated alternate fuel; and the nature of Customer's operations (such as load factor, fuel efficiency, alternate fuel capacity, etc.). Company may from time to time increase or reduce the Distribution Charge as it deems necessary or appropriate to meet competition or remain competitive, but shall have no obligation to do so; provided, however, that the Distribution Charge shall at all times remain within the limits set forth above.

The bill for Therms billed at the above rates shall be increased by the cost per Therm of any Gas delivered to Customer pursuant to this rate schedule, including all variable costs incurred by Company for (or in connection with) Pipeline transportation.

NATURAL CHOICE TRANSPORTATION SERVICE (Continued)

9. Except as modified by the provisions set forth above, service under this Rider shall be subject to the Rules and Regulations set forth in this Tariff.

10. If a Customer receiving service pursuant to this Rider has annual consumption greater than or equal to 500,000 therms annually, then the Company will install and maintain facilities for remote monitoring of the Customer's hourly gas flow. The Customer will reimburse the Company for the expense incurred for the investment in and installation of these facilities.

11. A Pool Manager may terminate Gas supply to a Customer pursuant to this Rider electronically via Company's website prior to the sixteenth day of the month as of which such termination will commence on the first day of the Customer's billing period of the next calendar month following receipt by the Company of the aforesaid electronic termination. In the event of non-payment by Customer for charges due, a Pool Manager may terminate Gas supply to a Customer by giving five business days written notice to Company prior to the first day of the month as of which such termination is to be effective. Any such notice shall be accompanied by (a) documentary evidence of the Customer's failure to make payment for a period of at least 60 days, (b) Pool Manager's affidavit that it has made commercially reasonable and good faith efforts to collect the amount due, and (c) a non-refundable termination fee of $~~59~~62.00 per account number. A Customer whose Gas supply is terminated by a Pool Manager pursuant to this special condition will automatically return to sales service provided by Company until such time as the Customer elects, subject to the conditions of this Rider, to receive service hereunder through a different Pool Manager. Additional deposit may be required from the Customer to return to sales service.

12. It is the Customer's obligation to make payments to the Company (or to an Authorized Payment Agent of the Company) of all bills rendered. Payment by a Customer to a third party (including a Third-Party Gas Supplier or Customer's Pool Manager) which has not been designated by Company as an Authorized Payment Agent will not satisfy the Customer's obligation to make payment of Company's bill for Gas Service.

INDIVIDUAL TRANSPORTATION SERVICE RIDER
RIDER ITS

Availability:

Throughout the service areas of the Company, subject to the Special Conditions set forth herein.

Applicability:

To firm or interruptible individual transportation service for any non-residential Customer who uses 500,000 therms per year or more and owns Gas that is made available for individual transportation service on the Company's system under Rate Schedules GS-5, WHS, SIS, IS, ISLV, and CIS.

Monthly Rate:

The Monthly Rate set forth in the applicable rate schedule, based on the annual Therm usage of, and character of service elected by, the Customer, plus an Individual Transportation Administration Fee of $~~216.00~~313.80 per month per meter.

Special Conditions:

1. Definitions: As used in this Rider or in a Gas Transportation Agreement, the following terms have the meanings set forth below:

   "Actual Takes" means, for a specified period of time, the quantity of Gas passing through the meter(s) at the PGS Delivery Point(s) of Customer (as defined in the Customer's Gas Transportation Agreement).

   "Customer" means the person or entity which executes a Gas Transportation Agreement providing for individual transportation service hereunder.

   "Daily Imbalance Amount" means, for a Day, the positive or negative whole number determined by subtracting the Actual Takes for the Day from the Scheduled Quantities for the Day.

   "Day" means a period of 24 consecutive hours beginning and ending at 9:00 a.m. Central Clock Time.

   "FGT" means Florida Gas Transmission Company, a Delaware corporation, and its successors and assigns.

   "Gas Transportation Agreement" means an agreement between Company and an individual transportation Customer, the basic form of which is set forth on Sheets Nos. 8.114 through 8.114-8, which specifies the term for which it is effective and contains such reasonable provisions for termination as to which Company and Customer may agree.

Gas Service Agreement No. Page 2

NATURAL GAS SERVICE TERMS AND CONDITIONS:

The applicant named on the first page hereof ("Customer") makes application to Peoples Gas System, Inc. ("Company") for natural gas service under the rate classification indicated on the first page hereof according to the following terms and conditions in consideration of the Company's agreement to deliver natural gas to Customer pursuant to the applicable provisions of Company's Tariff approved by the Florida Public Service Commission. In the event of a conflict between this application and the Tariff, the Tariff shall control.

Gas is to be delivered to Customer at the outlet side of the Company's gas meter serving the premises indicated on the first page hereof, such meter and service line there to be installed and operated by the Company, and, if located on Customer's property, the site therefor to be furnished free of charge by Customer.

The Company and its representatives are hereby authorized to enter upon and install on Customer's property any required gas meter or meters and gas pipe for furnishing gas to said address, and to ditch, lay, or otherwise install pipe as is required outside the building(s). The gas pipe from the Company's gas system to and including said meter or meters shall be owned, operated, and maintained by the Company with a perpetual right of ingress and egress thereto, hereby granted to the Company for such purposes. Installation of Company's facilities may require that Company be granted an easement. All gas pipe, from the outlet side of said meter or meters, shall be owned, operated, and maintained by Customer at its sole cost and risk.

Customer shall receive and pay for all gas delivered to Customer according to the applicable provisions of Company's Tariff and the applicable rules and regulations of the Florida Public Service Commission. Any gas delivered to Customer at any other delivery point is also subject to the terms and conditions hereof. No oral statement shall change any term- or obligation set forth herein.

A customer receiving gas service under the residential or commercial standby generator Tariff rate shall be obligated to remain on that schedule for a minimum of 12 months. This 12-month requirement shall be renewed at the end of each 12-month period unless Customer terminates gas service at the end of any 12-month period.

If Customer fails or refuses to take gas service from the Company, Customer shall pay to the Company the actual cost incurred by the Company in constructing the facilities to have been used in providing service to the Customer. Any deposits currently held by the Company shall be forfeited by Customer in payment or partial payment of these costs.

UNDERGROUND FACILITIES:

Prior to construction of gas pipeline, it is extremely important that the Company be made aware of existing underground obstacles, sprinkler systems, septic tanks, sewer lines, or structures, etc., located on Customer's property which may be damaged as a result of installation of the gas pipeline. Customer shall be responsible for marking and/or locating any underground facilities that may be on Customer's property that do not belong to local utilities (Power, Telephone, Water, Cable TV companies, etc.), and agrees to indemnify and hold Company harmless for any damages arising out of Customer's failure to do so.

GENERAL TERMS AND CONDITIONS APPLICABLE TO NATURAL GAS SERVICE:

To the extent that the Customer identified in this agreement is the State of Florida, one of its agencies, or one of its subdivisions, nothing herein shall be construed or interpreted as a waiver of sovereign immunity beyond the waiver provided in Section 768.28 Florida Statutes, or any successor statute.

This agreement is not assignable or transferable by Customer without prior written consent by the Company.

IN NO EVENT SHALL THE COMPANY OR ITS AFFILIATED COMPANIES, OFFICERS, DIRECTORS, EMPLOYEES, AGENTS OR REPRESENTATIVES BE LIABLE FOR ANY INCIDENTAL, INDIRECT, SPECIAL, CONSEQUENTIAL, EXEMPLARY OR PUNITIVE DAMAGES, INCLUDING, BUT NOT LIMITED TO, LOSS OF USE OF ANY PROPERTY OR EQUIPMENT, LOSS OF PROFITS OR INCOME, LOSS OF PRODUCTION, RENTAL EXPENSES FOR REPLACEMENT PROPERTY OR EQUIPMENT, DIMINUTION IN VALUE OF REAL PROPERTY, EXPENSES TO RESTORE OPERATIONS, OR LOSS OF GOODS OR PRODUCTIONS, EVEN IF THE COMPANY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

~~Customer understands and acknowledges that the dealer (if any) identified on the first page of this document ("Dealer") is not affiliated in any way with the Company and has not been engaged by the Company as a contractor or subcontractor. The Company assumes no responsibility whatsoever for any acts or omissions of, or any services or goods provided by, such Dealer.~~

This agreement may not be amended or modified except by an instrument in writing signed by the Company and Customer.

This agreement shall be governed by the laws of the State of Florida without regard to principles of conflicts of laws.

This agreement contains the entire understanding between the parties hereto and supersedes any written or oral, prior or contemporaneous agreement or understanding between the parties.

NOTE: I acknowledge installation of the gas line will not be scheduled until the required easement, if needed, is signed by the landowner and received by Peoples Gas System, Inc. _____ (customer initials)

PEOPLES GAS SYSTEM, INC.

By: _____

_____
(Title)

"Supplier(s)" means person(s) (other than PGS) from which Shipper purchases Gas transported hereunder.

"Transporter" means any upstream intrastate or interstate transport service provider.

ARTICLE II - TERM

This Agreement is effective on the date first written above. The term shall commence at the beginning of the Day commencing on _____ and continue until the beginning of the Day commencing on (the "Termination Date") (the "Initial Term"). [PROVISIONS AGREEABLE TO PGS AND SHIPPER WITH RESPECT TO ANY EXTENDED OR "SECONDARY" TERM]

ARTICLE III - SALES AND TRANSPORTATION SERVICE

Section 3.1 Services. PGS desires to sell and Shipper desires to purchase from PGS, from time to time, for use in the Facility (but not for resale), Gas in quantities which, at Shipper's request, PGS may, in its sole discretion exercised in a not unduly discriminatory manner, agree to sell to Shipper. Shipper also engages PGS, and PGS accepts such engagement, to receive Gas for Shipper's account, up to the MTQ, at the PGS Receipt Point(s), and to cause an equivalent quantity, less the Retainage, to be redelivered to Shipper. Such sales and transportation shall be governed by PGS's FPSC Tariff and this Agreement. If there is a conflict between the Tariff and this Agreement, the Tariff shall control. Sales and transportation hereunder are provided ~~interruptible~~ in accordance with PGS's FPSC Tariff and curtailment plan. If Shipper's service is interruptible, Shipper may select one or more of the options described in Appendix D, which may enable Shipper to continue receiving delivery of Gas during periods of curtailment or interruption. PGS shall have no obligation to make sales to Shipper in lieu of the transportation of Gas contemplated by this Agreement.

Section 3.2 ~~Telemetry and Other~~ Required Equipment. ~~Telemetry and other e~~Equipment ~~which~~ that PGS must install to provide natural gas transportation service hereunder (the "Equipment"), if any, shall be determined solely by PGS~~and the anticipated cost thereof, are listed in Appendix C. Shipper shall reimburse PGS for all costs incurred for the Equipment on receipt of PGS's invoice therefor~~. Unless the parties agree otherwise, all facilities used to provide service to Shipper hereunder (including without limitation the Equipment) shall be installed, owned, operated and maintained by PGS.

Section 3.3 Telemetry Equipment. Equipment which PGS must install to provide transmission of measurement data hereunder (the "Telemetry Equipment"), if any, and the anticipated cost thereof, are listed in Appendix C. Shipper shall reimburse PGS for all costs incurred for the Telemetry Equipment on receipt of PGS's invoice therefor. Shipper shall be responsible for securing access to the gas measurement data transmission network as required by PGS for the proper functioning of Telemetry Equipment.

ARTICLE IV - NOMINATIONS

Section 4.1 General. For each Day Shipper desires service hereunder, Shipper shall provide a Nomination to PGS pursuant to Sections 4.2 and/or 4.3 for each meter at the Facility. The total quantity for the Facility may be Nominated to a single meter, with "zero" Nominations being made for any additional meters located at the Facility. All Nominations shall be made to PGS at its web site (https://custactivitiespeoplesgas.com provided that, in an emergency, a Nomination may be delivered via facsimile using the form set forth in PGS's FPSC Tariff. Quantities confirmed by PGS for delivery shall be Scheduled Quantities. If requested by Shipper, PGS will allow increases or decreases in Scheduled Quantities after the Nomination deadlines set forth in this article, if the same can be confirmed by PGS, Transporters and Suppliers, and can be accomplished without detriment to services then scheduled on such Day for PGS and other shippers. The maximum quantity PGS shall be obligated to make available for delivery to Shipper on any Day (which shall not exceed the MDQ) is the sum of (a) the Transportation Quantity and (b) the Sales Quantity established pursuant to this article.

Section 4.4 Other Responsibilities. Shipper shall promptly notify PGS in writing of any change in the Sales Quantity or Transportation Quantity for any Day, and PGS will use commercially reasonable efforts to accept any such requested change as soon as practicable.

Section 4.5 Confirmation. If Transporter asks PGS to verify a nomination for Shipper's account, PGS shall confirm the lesser of such nomination, the Transportation Quantity or, in the case of non- or partial operation of the Facility, that quantity which in PGS's reasonable judgment (after consultation with Shipper) is likely to be consumed at the Facility. PGS has no obligation with respect to verification or rejection of quantities not requested by Shipper.

Section 4.6 Mutually Beneficial Transactions. Shipper recognizes that PGS maintains the operation and system integrity of the PGS distribution system on a daily basis, and that PGS, as the delivery point operator for its points of interconnection with interstate pipelines, is subject to the rules and regulations of such pipelines with regard to operational flow rates, pressures and penalties. As such, PGS may from time to time need Shipper to vary its Nominated quantities of Gas to be delivered at the PGS Receipt Point(s). On such occasions, PGS may in its sole discretion request, and Shipper may agree to, a change in the quantity of Gas to be delivered for the account of Shipper at the PGS Receipt Point(s). No such change in the quantity of Gas to be delivered shall be made pursuant to this section without the consent of Shipper. Terms and conditions of any such transaction will be agreed upon between the parties at the time of the transaction and will be recorded and confirmed in writing within two Business Days of the transaction.

ARTICLE V - TRANSPORTATION AND OTHER CHARGES

Section 5.1 Transportation Charges~~; Purchase Price~~. Shipper shall pay PGS each Month for transportation service rendered by PGS, and, if applicable, for Gas purchased from PGS, in accordance with the then-applicable rate schedule in PGS's FPSC Tariff. At the time of execution of this Agreement, Rate Schedule ___ is applicable. In the event Rate Schedule, CIS or a fixed rate schedule is applicable, this Agreement will automatically renew following the Initial Term at the then applicable rate schedule~~,~~ unless Shipper and PGS have agreed at least 30 days prior to the expiration of the then current term that Rate Schedule CIS or another rate schedule shall apply.

Section 5.2 Changes in Tariff. If the applicable rates or rate schedules change or are amended or superseded, the newly applicable rates or rate schedules shall be applicable to service hereunder. Nothing contained herein shall prevent PGS from filing with the FPSC (or Shipper from opposing) changes to the rates and other provisions in PGS's FPSC Tariff. ~~PGS agrees to give Shipper reasonable notice of (a) all filings (except filings in FPSC Docket No. 000003-GU, In Re: Purchased Gas Adjustment (PGA) True-Up, and successor dockets) which PGS makes with the FPSC and (b) all other FPSC proceedings of which PGS becomes aware, which PGS (in the exercise of reasonable judgment) determines would affect PGS's rates or the services to be performed by PGS under this Agreement.~~

ARTICLE VI - BILLING AND PAYMENT

Section 6.1 Billing. PGS will bill Shipper each Month for all Actual Takes during the preceding Month, and for any other amounts due hereunder. If, during the preceding Month, PGS has purchased Gas from Shipper pursuant to an interruption or curtailment order, such bill shall show a credit for the estimated amount due Shipper for such purchase(s). If the estimated amount owed by PGS to Shipper exceeds the amount Shipper owes PGS, PGS shall pay Shipper the net amount estimated to be due Shipper at the time PGS bills Shipper.

Section 8.2 Governing Law. This Agreement and any dispute arising hereunder shall be governed by and interpreted in accordance with the laws of Florida and shall be subject to all applicable laws, rules and orders of any Federal, state or local governmental authority having jurisdiction over the parties, their facilities or the transactions contemplated. Venue for any action, at law or in equity, commenced by either party against the other and arising out of or in connection with this Agreement shall be in a court, located within the State of Florida, having jurisdiction.

Section 8.3 Severability. If any provision hereof becomes or is declared by a court of competent jurisdiction to be illegal, unenforceable or void, this Agreement shall continue in full force and effect without said provision.

Section 8.4 Entire Agreement; Appendices. This Agreement sets forth the complete understanding of the parties as of the date first written above, and supersedes any and all prior negotiations, agreements and understandings with respect to the subject matter hereof. The appendices attached hereto are an integral part hereof. All capitalized terms used and not otherwise defined in the appendices shall have the meanings given to such terms herein.

Section 8.5 Waiver. No waiver of any of the provisions hereof shall be deemed to be a waiver of any other provision whether similar or not. No waiver shall constitute a continuing waiver. No waiver shall be binding on a party unless executed in writing by that party.

Section 8.6 Notices. (a) All notices and other communications hereunder shall be in writing and be deemed duly given on the date of delivery if delivered personally or by a recognized overnight delivery service or on the fifth day after mailing if mailed by first class United States mail, registered or certified, return receipt requested, postage prepaid, and properly addressed to the party as set forth below.

APPENDIX A - GAS TRANSPORTATION AGREEMENT

PGS RECEIPT POINT(S)

Maximum Transportation Quantity: _____ MMBtu per Day plus the Retainage

PGS will accept Gas from Shipper, or for its account, for transportation pursuant to this Agreement at the following point(s):

The above point(s) may be changed by PGS from time to time on written notice to Shipper.

APPENDIX B - GAS TRANSPORTATION AGREEMENT

PGS DELIVERY POINT(S)

Gas transported or sold pursuant to this Agreement shall be delivered by PGS to Shipper at the following point(s):

NAME	PGS METER#	MAXIMUM DELIVERY QUANTITY
Meter at the Facility		_____ MMBtu per Day

_____

APPENDIX C - GAS TRANSPORTATION AGREEMENT

EQUIPMENT

_____

APPENDIX D - GAS TRANSPORTATION AGREEMENT (APPLICABLE TO INTERRUPTIBLE CUSTOMERS)

ALTERNATIVES DURING PERIODS OF INTERRUPTION OR CURTAILMENT

If Shipper is an interruptible Customer, it may select one or more of the "~~O~~options" ~~hereinafter described~~set forth below ~~–~~prior to or during a period of interruption or curtailment ~~or interruption~~. ~~–~~These ~~O~~options ~~set forth below~~ describe ~~means through which~~how PGS ~~will~~would attempt to continue deliveries ~~to Shipper~~ during such a period ~~if PGS can do so in a manner that is consistent with the order of priorities of service set forth in its curtailment plan and that will not prevent service to customers in higher priorities of service than Shipper~~.

If PGS is entitled ~~under this Agreement or PGS's FPSC Tariff~~ to interrupt or curtail deliveries to Shipper for reasons other than Force Majeure, PGS will notify Shipper ~~to that effect,~~ about such interruption or curtailment. The notice will ~~to~~ include the estimated duration of the interruption or curtailment and the estimated cost of gas required for PGS to continue deliveries to Shipper ~~during the period of interruption~~. Shipper shall notify PGS in writing within two (2) hours after receipt of PGS's notice of interruption or curtailment of the option (from Options A through C below) Shipper elects ~~during the period of interruption~~.

If Shipper fails to respond to PGS's notice within the aforesaid two-hour period, it shall be conclusively presumed that Shipper has elected the Option(s) (if any) previously selected by Shipper in writing. If Shipper has failsed to make *any* election in a timely manner, either prior to PGS's notice or during the two-hour period, it shall be conclusively presumed that Shipper has elected Option D below. The Options are as follows:

The Options are as follows:

Option A: (PGS Receipt Point/Shipper's Own Arrangement): ——Shipper desires PGS to continue deliveries during the period of interruption or curtailment and Shipper agrees to make available for its account (*i.e.*, to make all arrangements necessary to cause the delivery of) at the PGS Receipt Point(s)(1) additional quantities of Gas equal to those quantities which PGS is entitled to interrupt or curtail (2) at the PGS Receipt Point(s).

Option B (Pipeline Release Point/Capacity Release): ——Shipper desires PGS to continue deliveries during the period of interruption and agrees to make available for its account (*i.e.*, to make all arrangements necessary to cause the delivery of) (1) additional quantities of Gas (including the Retainage) equal to those quantities PGS is entitled to interrupt to curtail (2) at the applicable point(s) of receipt into [_____] pipeline system. additional quantities of Gas (including the Retainage) equal to those quantities which PGS is entitled to interrupt, In addition Shipper and desires PGS to release to Shipper (or to a Supplier designated by Shipper), for the duration of the period of interruption or curtailment and at the maximum rate applicable to the capacity released, primary firm capacity on [_____] sufficient to transport such additional quantities of Gas to the PGS Receipt Point(s). By election of this Option B, Shipper agrees to be responsible for the payment of all charges imposed by [_____] with respect to the capacity so released by PGS to Shipper (or Shipper's Supplier), or the use of such capacity, for the period during which such release is effective. If Shipper elects to continue deliveries during the period of interruption pursuant to this Option B, PGS agrees to release the capacity requested by Shipper if PGS determines in its sole discretion that (i) such capacity is available for release to Shipper during the period of interruption or curtailment, (ii) such release can be accomplished readily and without detriment to PGS's system operations, and (iii) such release is practicable within the time constraints and requirements of [_____] FERC Tariff and the ready availability of PGS staff and resources.

Option C PGS as Temporary Agent) : ——Shipper desires PGS to continue deliveries during the period of interruption or curtailment, appoints PGS as its agent to acquire (at the PGS Receipt Point(s)) additional quantities of Gas at market-based price, equal to those quantities which PGS is entitled to interrupt or curtail, to be used by Shipper during the period of interruption or curtailment, and agrees to reimburse PGS, in addition to all amounts otherwise payable for Gas pursuant to this Agreement, for the incremental additional per-Therm costs incurred by PGS (as Shipper's agent) to acquire for the account of Shipper, at the PGS Receipt Point(s), Gas to be used by Shipper during the period of interruption or curtailment. As used in this Option C, "incremental additional costs" shall mean the weighted average per-Therm costs incurred by PGS to acquire, for the accounts of Shipper and other interruptible customers of PGS who have elected this Option C during a particular period of interruption, the additional quantities of Gas mentioned above to be used by Shipper and such other interruptible customers of PGS during such period of interruption or curtailment, including but not limited to commodity, transportation, storage and other charges incurred by PGS.

Option D (No Action by Shipper): ——Shipper agrees to cease taking Gas pursuant to PGS's notice during the period of interruption.

If Shipper has elected to continue deliveries pursuant to one of Options A, Option B or Option C, PGS will, in implementing its interruption or curtailment notice, take and pay for Shipper's Gas as provided in PGS's FPSC Tariff, but will not discontinue deliveries to Shipper unless (i) if Shipper has elected Option A,

FPSC EXH NO 12
ADMITTED

Shipper fails to make additional Gas available at the PGS Receipt Point(s), or (ii) if Shipper has elected Option B, either (a) PGS has no primary firm capacity on [_____] available for

release to Shipper (or Shipper's Supplier) during the period of interruption or curtailment without detriment to service required by PGS's customers in a curtailment category having a higher priority than Shipper's curtailment category under PGS's curtailment plan, or (b) PGS determines either that the release of capacity contemplated by Option B would not result in Shipper's (or Shipper's Supplier's) being able to make the additional quantities of Gas available at the PGS Receipt Point(s) for delivery to Shipper during the period of interruption or curtailment or that the release of capacity cannot be made pursuant to Option B, or (iii) if Shipper has elected Option C, PGS, having exercised commercially reasonable efforts, is unable to acquire for Shipper's account, at the PGS Receipt Point(s), additional Gas for delivery to Shipper during the period of interruption or curtailment. In the event of the occurrence of any of the circumstances described in items (i) through (iii), PGS will provide Shipper with not less than two (2) hours' notice to cease taking Gas during the period of interruption or curtailment, and Shipper shall not have the benefit of Options A through C above.

THE NEXT SHEET IS NO. 8.115

"Transporter Agreement" means, for purposes of this Agreement and the Capacity Release Agreement, the applicable Service Agreements for Firm Transportation Service (however named or titled) between Transporter and PGS in effect from time to time, including (a) Transporter's currently effective applicable rate schedule(s) and (b) General Terms and Conditions filed with the FERC or the FPSC (and incorporated in each said agreement by reference), as such agreements, rate schedules and general terms and conditions may be amended from time to time, and any successor firm agreement(s), firm rate schedule(s) or general terms and conditions applicable thereto.

"Transporter's Tariff" means, for purposes of this Agreement and the Capacity Release Agreement, Transporter's effective FERC or FPSC gas tariff applicable to firm transportation service under the Transporter Agreement, as such tariff may be amended from time to time.

ARTICLE II - TERM; PROGRAM CHANGES

Section 2.1 Term. This Agreement shall be effective on the date first written above. The term of this Agreement shall commence on the first Day of the Month for which PGS first delivers to Pool Manager a list of Customer Accounts as required by Section 4.1(a) (the "Effective Date") and shall continue, unless earlier terminated pursuant to this Agreement, until the first anniversary of the Effective Date (the "Initial Term"). Thereafter, the term of this Agreement shall be extended for additional periods of one year unless either party gives written notice, not less than 90 days prior to the expiration of the Initial Term (or any subsequent period for which this Agreement has been extended) to the other party, of termination.

Section 2.2 Program Changes. Pool Manager understands that PGS is entering into this Agreement as part of a program approved by the FPSC. PGS reserves the right to file with the FPSC modifications to such program (including the terms and conditions of this Agreement). PGS shall give Pool Manager reasonable notice of any such filing. In the event the FPSC approves modifications to such program (including any terms or conditions set forth in this agreement), such modifications shall become binding on the parties hereto as of the date on which approval thereof by the FPSC becomes effective. Notwithstanding any other provision of this Agreement, PGS's obligations hereunder shall at all times be subject to the lawful orders, rules and regulations of the FPSC, and to the terms and conditions of PGS's FPSC Tariff.

ARTICLE III - NON-PAYMENT BY CUSTOMER

Pool Manager may terminate its obligation to deliver Gas hereunder for a Customer Account for non-payment of charges due Pool Manager by giving five days' written notice to PGS prior to the first Day of the Month as of which such termination is to be effective. Any such notice shall be accompanied by (i) documentary evidence of the Customer's failure to make payment for a period of at least 60 days, (ii) Pool Manager's affidavit that it has made commercially reasonable and good faith efforts to collect the amount due and (iii) a non-refundable termination fee of $~~59~~62.00.

Performance of this Agreement and the interpretation thereof shall be in accordance with the laws of the State of Florida.

Venue for any action between the parties hereto arising out of this Agreement shall be in a court, located in the State of Florida, having jurisdiction. In any such action, the reasonable attorneys' fees and costs of the party prevailing in such action shall be recovered by such party from the other party. Neither PGS nor Pool Manager shall be liable to the other or to any person claiming through the other for special, indirect, punitive or consequential damages, lost profits or lost opportunity costs relating to any matter covered by this Agreement.

Any notice concerning this Agreement, except for those specifically required or permitted to be provided by facsimile, shall be given in writing and mailed by first-class mail to the party being notified at the address for such party stated below:

If to PGS:

Peoples Gas System, Inc.
~~702 N. Franklin Street, 7th Floor~~3600 Midtown Drive
Tampa, FL 33607

P. O. Box 2562
Tampa, Florida 33601-2562
Attention: NCTS Administrator

If to Pool Manager:

_____

_____

_____

_____

_____

_____

Pool Manager shall keep confidential and will not use, or disclose to any person not a party hereto, the information received from PGS or any Customer during the performance of this Agreement, except to the extent such disclosure is necessary for the Pool Manager's performance hereunder or is required by law. In the case of any disclosure required by law to be made, Pool Manager shall, prior to making such disclosure, provide written notice to PGS of the disclosure to be made in order that PGS may seek a protective order or other means of protecting the confidentiality of the information to be disclosed. The parties' obligations under this paragraph shall expire two (2) years from the date of termination of this Agreement.

ITS AGENT AGREEMENT

The undersigned Shipper hereby designates the undersigned Agent as its Agent to perform the following identified (*i.e.*, marked with an "X") obligations of Shipper under Shipper's Gas Transportation Agreement(s) with Peoples Gas System, Inc. ("PGS"):

☐ Invoicing/Payment
☐ Nominations
☐ Monthly Imbalance Resolution
☐ Alert Day Volume Aggregation and Alert Day Penalty Responsibility

Shipper, Agent and PGS hereby agree, for all purposes relating to the functions identified above, that:

1. The designation by Shipper of Agent as Shipper's Agent shall be effective as of the beginning of the Day commencing on _____←insert date.

2. Shipper agrees that it may designate only one agent however, that agent may perform one or several of the functions listed above.

3. PGS has the right to rely on any written or verbal communication from Agent, and any communications by PGS to Agent shall be deemed notice to Shipper.

4. Agent shall perform the functions identified above in a manner consistent with PGS's Natural Gas Tariff on file with the Florida Public Service Commission, as the same may be amended from time to time.

5. Alert Day penalties imposed on the ITS Customer Pool of which Shipper is a part shall be paid by Agent; provided, however, that if Agent fails to pay such penalties within sixty (60) days after the date on which they are imposed by PGS, Shipper shall be responsible for, and pay to PGS, such Alert Day penalties (if any) as would have been payable by Shipper for such Alert Day in the absence of this Agreement.

6. Shipper shall remain liable to PGS (a) with respect to any act or omission of Agent in the performance of the functions identified above and, (b) to the extent not paid by Agent for the ITS Customer Pool of which Shipper is a part, all charges arising under the Gas Transportation Agreement(s) between PGS and Shipper. Shipper shall indemnify, hold harmless and defend PGS from and against any and all acts or omissions of Agent. To the extent that Shipper is the State of Florida, one of its agencies, or one of its subdivisions, nothing herein shall be construed or interpreted as a waiver of sovereign immunity beyond the waiver provided in Section 768.28, Florida Statutes, or any successor statute.

PGS is installing the Devices at the Facilities as a convenience to Subscriber. **PGS MAKES NO WARRANTY AS TO THE OPERATION OF, OR ACCURACY OF THE DATA PROVIDED THROUGH, THE PORTS, AND TAKES NO RESPONSIBILITY FOR SUBSCRIBER'S USE OF THE PORT AND DATA SUPPLIED THEREFROM, SINCE THEY ARE BEING SUPPLIED FOR INFORMATIONAL PURPOSES ONLY, AT NO PROFIT AND AS AN ACCOMMODATION TO SUBSCRIBER. PGS DISCLAIMS ANY AND ALL WARRANTIES, EXPRESS OR IMPLIED, INCLUDING WARRANTIES OF FITNESS FOR A PARTICULAR PURPOSE AND MERCHANTABILITY.**

PGS IS NOT LIABLE FOR, AND SUBSCRIBER HEREBY WAIVES ANY RIGHT TO, ANY AND ALL INDIRECT, INCIDENTAL AND CONSEQUENTIAL DAMAGES, INCLUDING, BUT NOT LIMITED TO, LOSS OF PROFITS, LOSS OF CAPITAL, LOSS OF DATA, COMPUTER DOWNTIME, AND COST OF SUBSTITUTE SERVICES. THE PARTIES AGREE THAT PGS SHALL NOT BE LIABLE FOR ANY COMPUTER PROBLEMS RESULTING FROM SUBSCRIBER'S ATTEMPTS TO RECEIVE OR PROCESS THE DATA, INCLUDING PROBLEMS RESULTING FROM THE USE OF ANY THIRD PARTY SOFTWARE OR FROM COMPUTER VIRUSES.

Subscriber shall not attempt, and shall not permit any third party to attempt, to adjust, modify or remove the Devices without the prior written approval of PGS.

Subscriber agrees to protect, indemnify and hold PGS harmless from and against any and all liability, costs, damages and expenses in any way attributable to Subscriber's failure to comply with this Agreement or Subscriber's negligence or fault. This indemnification shall include, but is not limited to, (1) PGS's attorney's fee and court costs, and (2) any liability, costs, damages and expenses resulting from the use of the data signal from the Port. This indemnification provision is in addition to (and does not replace) similar provisions relating to the same subject matter in the Gas Transportation Agreement, if applicable. To the extent that the Subscriber is the State of Florida, one of its agencies, or one of its subdivisions, nothing herein shall be construed or interpreted as a waiver of sovereign immunity beyond the waiver provided in Section 768.28, Florida Statutes, or any successor statute.

Notwithstanding any provision of this Agreement to the contrary, measurement of gas delivered to or consumed by Subscriber shall be governed by the applicable provisions of PGS's natural gas Tariff on file with the Florida Public Service Commission (or its successor) and in effect from time to time.

IN WITNESS WHEREOF, this Agreement is executed as of the day and year first hereinabove written.

MINIMUM VOLUME COMMITMENT
GAS TRANSPORTATION AGREEMENT

This Minimum Volume Commitment Gas Transportation Agreement (the "Agreement") is made and entered into as of the _____ day of _____, 20__, by and between Peoples Gas System, Inc., a Florida corporation ("PGS"), and _____, a _____ ("Shipper"), who hereby agree as follows:

ARTICLE I - DEFINITIONS

As used herein, the following terms shall have the meanings set forth below.

Capitalized terms used herein, but not defined below, have the meanings given for such terms in PGS's FPSC Tariff.

"Actual Takes" means, for a specified period, the quantity of Gas passing through the meter(s) of the Customer Accounts during that period.

"Business Day" means the Days Monday through Friday (excluding any federal banking holiday falling on any such Day).

"Day" means the period of 24 consecutive hours beginning and ending at 9:00 a.m. Central Clock Time.

"Facility" means Shipper's _____ facility located in _____, Florida.

"FPSC" means the Florida Public Service Commission or any successor agency.

"Gas" shall have the same meaning as given for such term in PGS's FPSC Tariff.

"Gas Service" shall have the same meaning as given for such term in PGS's FPSC Tariff.

"MAT Deficiency Charge" means the difference between the applicable MAT set forth in Article VI and the actual quantity of Gas delivered during the twelve-month delivery period, multiplied by the applicable rate schedule in effect at the end of the twelve-month delivery period.

"Maximum Delivery Quantity" or "MDQ" means the maximum amount of Gas that PGS is obligated to cause to be delivered for Shipper's account pursuant to this Agreement on any Day at the PGS Delivery Point(s) and is stated in Appendix B.

"Maximum Transportation Quantity" or "MTQ" means the maximum amount of Gas that PGS shall be obligated to receive pursuant to this Agreement on any Day at the PGS Receipt Point(s), and is stated in Appendix A.

"Minimum Annual Take" or "MAT" means the quantity of minimum annual delivery of natural gas at the facility agreed to by Shipper and set forth in Article VI.

"Minimum Delivery Obligation" means the sum of Shipper's total Gas requirements over the Term of this agreement as set forth in Article VI.

"Nomination" means a notice delivered by Shipper to PGS in the form specified in PGS's FPSC Tariff, specifying (in MMBtu) the quantity of Gas the Shipper desires to purchase, or to have PGS receive, transport, and deliver, at the PGS Delivery Point(s).

"Nominate" means to deliver a completed Nomination.

"PGS Delivery Point(s)" means the point(s) listed in Appendix B.

"PGS Receipt Point(s)" means the point(s) of physical interconnection between Transporter and PGS, or between Shipper and PGS listed in Appendix A.

"Retainage" means 0.35% of Gas received by PGS for the account of the Customer at the Primary Delivery Point(s) to account for lost and unaccounted Gas between such point(s) and the meters of the Customer Accounts.

"Supplier(s)" means person(s) (other than PGS) from which Shipper purchases Gas transported hereunder.

"Transporter" means any upstream intrastate or interstate transport service provider.

"Twelve-Month Delivery Period" means each twelve-month period commencing on the date of Gas Service is available to the Facility and continues on an annual basis throughout the Term of this Agreement.

ARTICLE II – TERM

This Agreement is effective on the date first written above. The term shall commence upon the initiation of Gas Service and continue until the last day of the Twelve-Month Delivery Period or when the Minimum Delivery Obligation is satisfied. (the "Termination Date") (the "Term"). The Term shall reflect the recovery period for the extension of Gas Service. In no instance will the Term exceed (10) years. At the end of the Term, the Customer will be placed in the applicable rate schedule.

ARTICLE III – SALES AND TRANSPORTATION SERVICE

Section 3.1 Services. PGS desires to sell and Shipper desires to purchase from PGS, from time to time, for use in the Facility (but not for resale), Gas in quantities which, at Shipper's request, PGS may, in its sole discretion exercised in a not unduly discriminatory manner, agree to sell to Shipper. Shipper also engages PGS, and PGS accepts such engagement, to receive Gas for Shipper's account, up to the MTQ, at the PGS Receipt Point(s), and to cause an equivalent quantity, less the Retainage, to be redelivered to Shipper. Such sales and transportation shall be governed by PGS's FPSC Tariff and this Agreement. If there is a conflict between the Tariff and this Agreement, the Tariff shall control. Sales and transportation hereunder are provided interruptible in accordance with PGS's FPSC Tariff and PGS's curtailment plan. If Shipper's service is interruptible, Shipper may select one or more of the options described in Appendix D, which may enable Shipper to continue receiving delivery of Gas during periods of curtailment or interruption.

PGS shall have no obligation to make sales to Shipper in lieu of the transportation of Gas contemplated by this Agreement.

Section 3.2 ~~Telemetry and Other~~ Required Equipment. ~~Telemetry and other equipment~~ All items ~~which~~ that PGS must install to provide natural gas transportation service hereunder (the "Equipment"), if any, shall be determined solely by PGS. ~~and the anticipated cost thereof, are listed in Appendix C. Shipper shall reimburse PGS for all costs incurred for the Equipment on receipt of PGS's invoice therefor.~~ Unless the parties agree otherwise, all facilities used to provide service to Shipper hereunder (including without limitation the Equipment) shall be installed, owned, operated and maintained by PGS.

Section 3.3 Telemetry Equipment. Equipment which PGS must install to provide transmission of measurement data hereunder (the "Telemetry Equipment"), if any, and the anticipated cost thereof, are listed in Appendix C. Shipper shall reimburse PGS for all costs incurred for the Telemetry Equipment on receipt of PGS's invoice therefor. Shipper shall be responsible for securing access to the gas measurement data transmission network as required by PGS for the proper functioning of Telemetry Equipment.

ARTICLE IV – NOMINATIONS

Section 4.1 General. For each Day Shipper desires service hereunder, Shipper shall provide a Nomination to PGS pursuant to Sections 4.2 and/or 4.3 for each meter at the Facility. The total quantity for the Facility may be Nominated to a single meter, with "zero" Nominations being made for any additional meters located at the Facility. All Nominations shall be made to PGS at its website (https://custactivitiespeoplesgas.com) provided that, in an emergency, a Nomination may be delivered via facsimile using the form set forth in PGS's FPSC Tariff. Quantities confirmed by PGS for delivery shall be Scheduled Quantities. If requested by Shipper, PGS will allow increases or decreases in Scheduled Quantities after the Nomination deadlines set forth in this article, if the same can be confirmed by PGS, Transporters and Suppliers, and can be accomplished without detriment to services then scheduled on such Day for PGS and other shippers. The maximum quantity PGS shall be obligated to make available for delivery to Shipper on any Day (which shall not exceed the MDQ) is the sum of (a) the Transportation Quantity and (b) the Sales Quantity established pursuant to this article.

Section 4.2 Nomination for Purchase. Unless otherwise agreed, Shipper shall Nominate Gas for purchase hereunder not less than seven (7) Business Days prior to the first Day of any Month in which Shipper desires to purchase Gas. Daily notices shall be given to PGS at least two (2) Business Days (but not less than forty-eight (48) hours) prior to the commencement of the Day on which Shipper desires delivery of the Gas. If Shipper has timely Nominated a quantity for a particular Month, PGS shall confirm to Shipper the quantity PGS will tender for purchase by Shipper (the "Sales Quantity," which shall also be a "Scheduled Quantity") no later than 5:00 p.m. Eastern Time on the Business Day immediately preceding each Day during such Month.

Section 4.3 Nomination for Transportation. Unless otherwise agreed, Shipper shall, for each Month, and each Day during such Month that Shipper seeks to change any aspect of any prior Nomination, notify PGS by providing a completed Nomination. Shipper's Nomination for Gas to be to be made available for delivery on the first Day of any Month shall be given by 10 a.m. on the second Business Day prior to the Day on which a nomination must be delivered to Transporter for receipt of deliveries at the PGS Receipt Point(s) on such Day. Daily Nominations for Gas to be made available for delivery other than on the first Day of a Month shall be given to PGS by 10 a.m. on the Business Day prior to the Day on which a nomination must be delivered to Transporter for the receipt of deliveries at the PGS Receipt Point(s) on such Day. The following nomination information is required for a valid nomination:

a. The Shipper's account number under which service is being nominated;
~~b. The receipt point location including applicable DRN and upstream pipeline name, upstream pipeline package ID, including Shipper's PGS account number, and quantity in Therms of Gas to be tendered at each PGS receipt poin~~

b. The receipt point location including applicable DRN and upstream pipeline name, upstream pipeline package ID, including Shipper's PGS account number, and quantity in Therms of Gas to be tendered at each PGS receipt point;
c. The downstream delivery facility name, and quantity in Therms of Gas to be delivered for each PGS Shipper account;
d. A beginning and ending date for each nomination;
e. The upstream contract identifier.

Only nominations with clearly matching upstream Transporter identifiers (including Shipper's package ID and PGS account number) and downstream (PGS) identifiers will be scheduled. If Shipper or Shipper's Agent fails to comply with provisions (a) through (e) of this section, PGS may not schedule commencement of service or change a prior nomination.

Shipper understands that PGS is subject to FERC regulations that may require PGS to post certain Shipper information on a publicly accessible website. The submission by Shipper or Shipper's Agent of a required nomination shall constitute Shipper's authorization to PGS to publicly disclose any information (including but not limited to the information provided in such nomination) required by applicable law or regulation to be disclosed by PGS.

PGS shall confirm to Shipper the quantity PGS will make available for redelivery on such Day (the "Transportation Quantity," which shall also be a "Scheduled Quantity") no later than 5:00 p.m. Eastern Time on the Business Day immediately preceding such Day. PGS has no obligation to confirm a quantity Nominated by Shipper pursuant to this section greater than the quantity which, in PGS's reasonable judgment, equals the Facility's likely consumption for a Day plus Retainage, less any Sales Quantities confirmed for delivery on such Day.

Section 4.4 Mutually Beneficial Transactions. Shipper recognizes that PGS maintains the operation and system integrity of the PGS distribution system on a daily basis, and that PGS, as the delivery point operator for its points of interconnection with interstate pipelines, is subject to the rules and regulations of such pipelines with regard to operational flow rates, pressures and penalties. As such, PGS may from time to time need Shipper to vary its Nominated quantities of Gas to be delivered at the PGS Receipt Point(s). On such occasions, PGS may in its sole discretion request, and Shipper may agree to, a change in the quantity of Gas to be delivered for the account of Shipper at the PGS Receipt Point(s). No such change in the quantity of Gas to be delivered shall be made pursuant to this section without the consent of Shipper. Terms and conditions of any such transaction will be agreed upon between the parties at the time of the transaction and will be recorded and confirmed in writing within two Business Days of the transaction.

ARTICLE–V - TRANSPORTATION AND OTHER CHARGES

Section 5.1 Transportation Charges~~; Purchase Price~~. Shipper shall pay PGS each Month for transportation service rendered by PGS, and, if applicable, for Gas purchased from PGS, in accordance with the then-applicable rate schedule in PGS's FPSC Tariff. At the time of execution of this Agreement, Rate Schedule ___ is applicable. In the event rate schedule, CIS or a fixed rate schedule is applicable, this Agreement will automatically renew following the Initial Term at the then applicable rate schedule unless Shipper and PGS have agreed at least thirty (30) days prior to the expiration of the then current term that Rate Schedule CIS or another rate schedule shall apply.

During the Term of this Agreement, Buyer agrees to a MAT of natural gas at the Facility which will follow the schedule outlined in Section 6.2.

Section 5.2 Changes in Tariff. If the applicable rates or rate schedules change or are amended or superseded, the newly applicable rates or rate schedules shall be applicable to service hereunder. Nothing contained herein shall prevent PGS from filing with the FPSC (or Shipper from opposing) changes to the rates and other provisions in PGS's FPSC Tariff. ~~PGS agrees to give Shipper reasonable notice of (a) all filings (except filings in FPSC Docket No. 000003-GU, In Re: Purchased Gas Adjustment (PGA) True-Up, and successor dockets) which PGS makes with the FPSC and (b) all other FPSC proceedings of which PGS becomes aware, which PGS determines would affect PGS's rates or the services to be performed by PGS under this Agreement.~~

ARTICLE VI - REQUIREMENTS

Section 6.1 Minimum Delivery Obligation. The sum of Shipper's total Gas requirements over the Term of this Agreement are estimated to be _____ Therms.

Section 6.2 Minimum Annual Take. PGS requires the following MAT for each Twelve-Month Delivery Period, or such Delivery Period as agreed upon by the Parties as applicable:

Period	Therms
1	
2	
3	
4	
5	
6	
7	
8	
9	
10	

Section 6.3 Shortfall and MAT Deficiency Charge. If the Shipper fails to take delivery of the MAT in any Twelve-Month Delivery Period, the Shipper shall pay PGS a MAT Deficiency Charge calculated as follows: the difference between the applicable MAT and the actual quantity of Gas delivered during the Twelve-Month Delivery Period, multiplied by the rate schedule in effect at the end of the Twelve-Month Delivery Period. If, during any Twelve-Month Delivery Period, the actual quantity of Gas delivered to the Facility exceeds the applicable MAT, said excess shall be carried forward to the next Twelve-Month Delivery Period for purposes of offsetting any MAT Deficiency Charge hereunder.

Section 6.4 Financial Guarantee. Shipper shall furnish to PGS an irrevocable standby letter of credit issued by a bank acceptable to PGS or such other form of guarantee acceptable to PGS (the "Financial Guarantee") in an amount equal to [_____]. PGS may adjust the amount required in the Financial Guarantee at the end of each Twelve-Month Delivery Period.

Shipper's failure to maintain the Financial Guarantee, which for the avoidance of doubt includes notice of termination of security without acceptable alternative Financial Guarantee being provided, shall constitute a default of this Agreement.

ARTICLE VII - BILLING AND PAYMENT

Section 7.1 Billing. PGS will bill Shipper each Month for all Actual Takes during the preceding Month, and for any other amounts due hereunder. If, during the preceding Month, PGS has purchased Gas from Shipper pursuant to an interruption or curtailment order, such bill shall show a credit for the estimated amount due Shipper for such purchase(s). If the estimated amount owed by PGS to Shipper exceeds the amount Shipper owes PGS, PGS shall pay Shipper the net amount estimated to be due Shipper at the time PGS bills Shipper.

Section 7.1.1 Billing of MAT Deficiency Charge(s). PGS will bill Shipper for the MAT Deficiency Charge ~~within~~no later than thirty (30) days after the end of each Twelve-Month Delivery Period.

Section 7.2 Payment. Shipper shall pay all such bills, minus any disputed amounts, at the address specified in the invoice by the 20th Day following the date of PGS's mailing (as signified by the postmark) or other delivery of the bill. All sums not so paid by Shipper (or credited or paid by PGS) shall be considered delinquent and subject to later payment schedules as set forth below.

Section 7.3 Termination Payment. If the Shipper terminates Gas Service hereunder after execution of this Agreement, Shipper shall pay PGS any MAT Deficiency Charge(s) applicable at the time of termination and any future MAT Deficiency Charge(s) pursuant to the schedule in Section 6.2. resulting from such termination (the "Termination Payment"). Shipper agrees that it will make any such Termination Payment to PGS within twenty (20) days after receipt of PGS' invoice.

Section 7.4 Billing Disputes. In the event of a bona fide billing dispute, Shipper or PGS, as the case may be, shall pay (or credit) to the other party all amounts not in dispute, and the parties shall negotiate in good faith to resolve the amount in dispute as soon as reasonably practicable. If a party has withheld payment (or credit) of a disputed amount, and the dispute is resolved, the non-prevailing party shall pay to the other party the amount determined to be due such other party, plus interest thereon at an annual rate equal to the prime interest rate of Citibank, N.A., New York, New York, plus one percent (1%), calculated on a daily basis from the date due until paid (or credited).

Section 7.5 Errors or Estimates. If an estimate is used to determine the amount due Shipper for purchases by PGS pursuant to an interruption or curtailment order, PGS shall make any adjustment necessary to reflect the actual amount due Shipper on account of such purchases in the next bill rendered to Shipper after determination of the actual amount due. An error in any bill, credit or payment shall be corrected in the next bill rendered after the error is confirmed by PGS.

Each party's performance obligation hereunder shall abate proportionately during a Force Majeure event and during any period that a party is unable to perform its obligations due to the other party's performance failure. The term of this Agreement shall be extended for a period equal to the length of any such abatement(s).

ARTICLE VIII - FAILURE TO MAKE PAYMENT

Section 8.1 Late Payment Charge. Charges for services due and rendered which are unpaid as of the past due date are subject to a Late Payment Charge of 1.5%, except the accounts of

mail, registered or certified, return receipt requested, postage prepaid, and properly addressed to the party as set forth below.

APPENDIX A - GAS TRANSPORTATION AGREEMENT

PGS RECEIPT POINT(S)

Maximum Transportation Quantity: _____ MMBtu per Day plus the Retainage

PGS will accept Gas from Shipper, or for its account, for transportation pursuant to this Agreement at the following point(s):

The above point(s) may be changed by PGS from time to time on written notice to Shipper.

APPENDIX B - GAS TRANSPORTATION AGREEMENT

PGS DELIVERY POINT(S)

Gas transported or sold pursuant to this Agreement shall be delivered by PGS to Shipper at the following point(s):

NAME	PGS METER#	MAXIMUM DELIVERY QUANTITY
Meter at the Facility		_____ MMBtu per Day

APPENDIX C - GAS TRANSPORTATION AGREEMENT

TELEMETRY EQUIPMENT

APPENDIX D - GAS TRANSPORTATION AGREEMENT (APPLICABLE TO INTERRUPTIBLE CUSTOMERS)

ALTERNATIVES DURING PERIODS OF INTERRUPTION OR CURTAILMENT

If Shipper is an interruptible Customer, it may select one or more of the "~~O~~options" ~~hereinafter described~~ set forth below prior to or during a period of interruption or curtailment ~~or interruption~~. ~~T~~These ~~O~~options ~~set forth below~~ describe ~~means through which~~ how PGS ~~will~~would attempt to continue deliveries ~~to Shipper~~ during such a period ~~if PGS can do so in a manner that is consistent with the order of priorities of service set forth in its curtailment plan and that will not prevent service to customers in higher priorities of service than Shipper~~.

If PGS is entitled ~~under this Agreement or PGS's FPSC Tariff~~ to interrupt or curtail deliveries to Shipper for reasons other than Force Majeure, PGS will notify Shipper ~~to that effect,~~ about such interruption or curtailment. The notice ~~to~~ will include the estimated duration of the interruption or curtailment and the estimated cost of gas required for PGS to continue deliveries to Shipper ~~during the period of interruption~~. Shipper shall notify PGS in writing within two (2) hours after receipt of PGS's

notice of interruption or curtailment of the option (from Options A through C below) Shipper elects during the period of interruption.

Shipper has elected the Option(s) (if any) previously selected by Shipper in writing. If Shipper has failed fails to make *any* election in a timely manner, , either prior to PGS's notice or during the two-hour period, it shall be conclusively presumed that Shipper has elected Option D below.

The Options are as follows:

Option A (PGS Receipt Point/Shipper's Own Arrangement): Shipper desires PGS to continue deliveries during the period of interruption or curtailment and Shipper agrees to make available for its account (*i.e.*, to make all arrangements necessary to cause the delivery of) at the PGS Receipt Point(s) (1) additional quantities of Gas equal to those quantities which PGS is entitled to interrupt or curtail (2) at the PGS Receipt Point(s).

Option B (Pipeline Release Point/Capacity Release): Shipper desires PGS to continue deliveries during the period of interruption and agrees to make available for its account (*i.e.*, to make all arrangements necessary to cause the delivery of) (1) additional quantities of Gas (including the Retainage) equal to those quantities which PGS is entitled to interrupt or curtail (2) at the applicable point(s) of receipt into [_____] pipeline system additional quantities of Gas (including the Retainage) equal to those quantities which PGS is entitled to interrupt. In addition, Shipper, and desires PGS to release to Shipper (or to a Supplier designated by Shipper), for the duration of the period of interruption or curtailment and at the maximum rate applicable to the capacity released, primary firm capacity on [_____] sufficient to transport such additional quantities of Gas to the PGS Receipt Point(s). By election of this Option B, Shipper agrees to be responsible for the payment of all charges imposed by [_____] with respect to the capacity so released by PGS to Shipper (or Shipper's Supplier), or the use of such capacity, for the period during which such release is effective. If Shipper elects to continue deliveries during the period of interruption pursuant to this Option B, PGS agrees to release the capacity requested by Shipper if PGS determines in its sole discretion that (i) such capacity is available for release to Shipper during the period of interruption or curtailment, (ii) such release can be accomplished readily and without detriment to PGS's system operations, and (iii) such release is practicable within the time constraints and requirements of [_____] FERC Tariff and the ready availability of PGS staff and resources.

Option C (PGS as Temporary Agent): Shipper desires PGS to continue deliveries during the period of interruption or curtailment, appoints PGS as its agent to acquire (at the PGS Receipt Point(s)) additional quantities of Gas at market-based price, equal to those quantities which PGS is entitled to interrupt or curtail, to be used by Shipper during the period of interruption or curtailment, and agrees to reimburse PGS, in addition to all amounts otherwise payable for Gas pursuant to this Agreement, for the incremental additional per-Therm costs incurred by PGS (as Shipper's agent) to acquire for the account of Shipper, at the PGS Receipt Point(s), Gas to be used by Shipper during the period of interruption or curtailment. As used in this Option C, "incremental additional costs" shall mean the weighted average per-Therm costs incurred by PGS to acquire, for the accounts of Shipper and other interruptible customers of PGS who have elected this Option C during a particular period of interruption, the additional quantities of Gas mentioned above to be used by Shipper and such other interruptible customers of PGS during such period of interruption or curtailment, including but not limited to commodity, transportation, storage and other charges incurred by PGS.

Option D (No Action by Shipper): Shipper agrees to cease taking Gas pursuant to PGS's notice during the period of interruption.

If Shipper has elected to continue deliveries pursuant to one of Options A, Option B, or Option C, PGS will, in implementing its interruption or curtailment notice, take and pay for Shipper's Gas as

provided in PGS's FPSC Tariff, but will not discontinue deliveries to Shipper unless (i) if Shipper has elected Option A, Shipper fails to make additional Gas available at the PGS Receipt Point(s), or (ii) if Shipper has elected Option B, either (a) PGS has no primary firm capacity on [_____] available for release to Shipper (or Shipper's Supplier) during the period of interruption or curtailment without

detriment to service required by PGS's customers in a curtailment category having a higher priority than Shipper's curtailment category under PGS's curtailment plan, or (b) PGS determines either that the release of capacity contemplated by Option B would not result in Shipper's (or Shipper's Supplier's) being able to make the additional quantities of Gas available at the PGS Receipt Point(s) for delivery to Shipper during the period of interruption or curtailment or that the release of capacity cannot be made pursuant to Option B, or (iii) if Shipper has elected Option C, PGS, having exercised commercially reasonable efforts, is unable to acquire for Shipper's account, at the PGS Receipt Point(s), additional Gas for delivery to Shipper during the period of interruption or curtailment. –In the event of the occurrence of any of the circumstances described in items (i) through (iii), PGS will provide Shipper with not less than two (2) ~~hours' notice~~hours' notice to cease taking Gas during the period of interruption or curtailment, and Shipper shall not have the benefit of Options A through C above.

RULES AND REGULATIONS

I

INITIATION OF SERVICE

A. REQUEST FOR GAS SERVICE

Gas Service may be requested by a prospective Customer by:

1. Verbal, telephonic or electronic request to a business office of the Company (in the case of residential Gas Service), or

2. By submission to Company of a completed Gas Service Agreement (in the case of Gas Service other than residential Gas Service).

B. ACCEPTANCE OF REQUEST FOR GAS SERVICE

A Gas Service Agreement shall be deemed to be accepted by the Company when Gas Service pursuant thereto is initiated.

C. OBLIGATION OF CUSTOMER AND COMPANY

The terms and conditions of the Customer's Gas Service Agreement, these Rules and Regulations, and the applicable rate schedules shall become binding upon the Customer and Company upon acceptance by the Company of the Customer's Gas Service Agreement.

D. MISCELLANEOUS SERVICE CHARGES

Whenever Gas Service is established or re-established at any location, the charges set forth below will be made:

	RESIDENTIAL	OTHER
ACCOUNT OPENING CHARGE (applies only where a change of Customer occurs and Gas Service is not shut off at the premises)	**$31.00**	**$31.00**
METER TURN ON / SERVICE INITIATION CHARGE (applies where service is inactive)	**$94.00 for initial unit or meter $36.00 for each additional unit or meter**	**$121.00 for initial unit or meter $54.00 for each additional unit or meter**

RULES AND REGULATIONS (Continued)

	RESIDENTIAL	OTHER
METER RECONNECTION/ SERVICE RESTORATION CHARGE (applies where service has been turned off for cause and includes cost of turn-off)	**$100.00 for initial unit or meter $33.00 for each additional unit or meter**	**$115.00 for initial unit or meter $43.00 for each additional unit or meter**
TRIP CHARGE/COLLECTION AT CUSTOMER PREMISES (applies when Company's employee, agent, or representative makes a trip to Customer's premises for the purpose of terminating Gas Service or providing final notice of termination for nonpayment of bills)	**$25.00**	**$25.00**
FAILED TRIP CHARGE AT CUSTOMER PREMISES (applies when the Customer fails to keep a scheduled appointment with the Company's employee, agent or representative)	**$31.00**	**$31.00**
TEMPORARY METER TURN-OFF CHARGE (applies when Company's employee, agent or representative, turns off Customers' meter temporarily at Customer's request)	**$33.00 per meter**	**$33.00 per meter**

Where Gas Service is established outside of normal business hours, by special appointment, or same day service the charges set forth above multiplied by 1.5. Same day service is offered on an as-available basis.

RULES AND REGULATIONS (Continued)

E. WITHHOLDING OF GAS SERVICE

Company will refuse to establish Gas Service to any location where it finds that establishment of Gas Service will create an unsafe or hazardous condition on the Customer's premises or affecting the general public.

Company may discontinue Gas Service to an existing Customer or refuse to serve a prospective Customer where such Customer's use of Gas is or will be detrimental or hazardous to the Gas Service supplied to other Customers.

Company may discontinue service to an existing Customer or refuse to establish Gas Service for actions or threats made by a Customer, or anyone on the Customer's premises, which are reasonably perceived by a Company employee as violent or unsafe, after affording the Customer reasonable opportunity to cease from any further act of violence or unsafe condition.

Company will not establish Gas Service to any Customer where that Customer is in arrears for Gas Service at that location or another location in the Company's service area.

If a prospective Customer requests connection for Gas Service but denies the Company's employees and representatives access to the Customer's Installation for the purpose of inspecting the appliances prior to establishing Gas Service, the Company may refuse to provide Gas Service to the prospective Customer.

Fraudulent Use of Gas:
Company will discontinue Gas Service without notice:

a. In the event of tampering with regulators, valves, Meters or other facilities furnished and owned by Company, or

b. In the event of other fraudulent use of Gas Service.

Whenever Gas Service is discontinued for unauthorized or fraudulent use thereof, the Company, before restoring Gas Service, may require Customer to make, at Customer's expense, all changes in piping or equipment necessary to eliminate the fraudulent use and to pay an amount reasonably estimated as the deficiency (if any) in Company's revenue and all costs incurred by Company resulting from such unauthorized or fraudulent use.

In the event, Gas Service has been discontinued to particular premises and a prior, existing, new or prospective Customer wishes to restore such service, said Customer shall be responsible for any expenses required for the Company to restore service.

As used herein, "costs incurred by Company" shall include the Company's cost to cut and cap the Customer's service line at the Main, together with the cost incurred by the Company to restore service to the Customer, in the event the Company, in order to discontinue service to the Customer pursuant to this section, has been required (after final notice to the Customer requesting payment, and the Customer's denial of access by Company to its meter for the purpose of discontinuing service) to cut and cap the Customer's service line at the Main. If a Customer whose service line has been cut and capped as aforesaid thereafter requests restoration of Gas Service, Company may require such Customer to pay (in addition to any other charges payable pursuant to these Rules and Regulations) all costs incurred by Company to effect the previous discontinuance of Gas Service to such Customer, as well as all costs incurred by Company to restore Gas Service to such Customer.

II

CUSTOMER'S INSTALLATION

A. GENERAL

Customer's Installation shall be constructed, installed and maintained in accordance with standard practice as determined by local codes and ordinances applicable thereto, these Rules and Regulations and other applicable governmental requirements; provided, however, that Company shall have no responsibility whatsoever for determining whether any local code or ordinance or any other governmental requirement is applicable to Customer's Installation, or for enforcing or determining whether Customer's Installation is in compliance with any local code or ordinance or any other governmental requirement. A Customer installing a Gas fired electric generator shall also ensure that the installation and operation of such equipment complies with the Tariff and the requirements of the Customer's electric provider. Customer shall be responsible for the installation and maintenance of carbon monoxide or methane gas detectors within the Customer's premises.

The Customer's piping, appliances, equipment and apparatus shall be installed and maintained in accordance with standard practice, and in full compliance with all applicable laws, codes and governmental and Company regulations. The Customer expressly agrees to utilize no apparatus or device which is not properly constructed, controlled, and protected, or which may adversely affect service to others, and the Company reserves the right to discontinue or withhold service for such apparatus or device.

Customer shall give immediate notice to the Company when any leakage of Gas is detected, discovered, or suspected. Whenever a leakage of Gas is suspected, detected, or discovered, Customer agrees not to use any potential source of ignition, such as flame, electrical source, or other igniting medium in the proximity of escaping Gas, which could ignite such Gas.

B. INSPECTION OF CUSTOMER'S INSTALLATION

Where governmental inspection of a Customer's Installation is required, Company will not supply Gas Service to such installation until the necessary inspections have been made and Company has been authorized to provide Gas Service.

Company may also inspect Customer's Installation prior to rendering Gas Service, and from time to time thereafter, but assumes no responsibility whatsoever as a result of having made such inspection. Company will not render (and may discontinue) Gas Service to any Customer Installation which Company finds to be hazardous. Customer has sole responsibility to insure that the hazardous condition has been corrected prior to initiation of Gas Service.

III

DEPOSITS (Continued)

2. a. tampered with the Gas Meter; or

b. used service in a fraudulent or unauthorized manner.

G. REFUND OF DEPOSIT WHEN GAS SERVICE IS DISCONNECTED

Upon termination of Gas Service, a cash deposit and accrued interest may be credited against the final account and the balance, if any, shall be returned promptly (in no event later than fifteen (15) days after Gas Service is discontinued) to the Customer or agency.

H. RETURNED CHECKS

If the Customer's check for Gas Service is returned to the Company and not paid by the drawer's bank, the Company will follow the procedures set forth in Section 832.07, Florida Statutes. Termination of Gas Service shall not be made for failure to pay such returned check charge.

FPSC EXH NO. 12
ADMITTED

IV

BILLING

A. BILLING PERIODS

Bills for Gas Service will be rendered each month. Bills shall be considered received by Customer when mailed to the most recent billing address supplied by Customer to Company or by other delivery method used by the Company to reach the Customer.

It is the Customer's (both sales service and transportation service Customers) obligation to make payments to the Company (or to an Authorized Payment Agent of the Company) of all bills rendered. Payment by a Customer to a third party (including a Third Party Gas Supplier) which has not been designated by Company as an Authorized Payment Agent will not satisfy the Customer's obligation to make payment of Company's bill for Gas Service.

B. INITIAL OR FINAL BILLS

When the period of Gas Service for which an initial or final bill is rendered is less than fifty (50) percent of the normal billing period, the Customer charge or minimum bill shall be one-half (1/2) of the charge per applicable rate schedule. When the period of Gas Service is fifty (50) percent or more of the normal Billing Period, there shall be no reduction in the Customer charge or minimum bill. The distribution charge for Gas consumed shall be at the applicable billing rate.

C. NON-RECEIPT OF BILLS

Failure of Customer to receive a bill shall not relieve Customer of its obligation to pay the bill.

D. METER READINGS NOT COMBINED

If a Customer takes Gas Service under more than one rate schedule at a single delivery point, the bill shall be calculated separately for the Gas Service provided under each such rate schedule.

If a Customer takes Gas Service under one or more rate schedules at two or more Points of Delivery, a bill shall be calculated separately for Gas Service provided under each rate schedule at each Point of Delivery.

If Company must, for reasons of its convenience, establish more than one Point of Delivery at a single premise, the readings of the Meters for like classes of service will be combined.

E. DELINQUENT BILLS

A bill shall be considered delinquent if payment thereof has not been received by Company (or an Authorized Payment Agent of the Company) upon the expiration of twenty (20) days from the date of Company's mailing or other delivery of such bill. Charges for services due and rendered which are unpaid as of the past due date may be subject to a Late Payment Charge of 1.5 percent, except the accounts of federal, state, and local governmental entities, agencies, and instrumentalities. A Late Payment Charge may be applied to the accounts of federal, state, and local governmental entities, agencies, and instrumentalities at a rate no greater than allowed, and in a matter permitted by applicable law.

BILLING (Continued)

Essential Service Customer of the scheduled disconnect date. The Company may thereafter discontinue Gas Service to the Medically Essential Service Customer on the scheduled disconnect date if payment is not made on or before such date.

During the period that Gas Service is continued under the provisions of this section, the Customer shall continue to be responsible for the cost of the residential Gas Service.

H. ADJUSTMENT OF BILLS FOR METER ERROR

Whenever a Meter is found to have an average error as defined in Commission Rule 25-7.062, FAC, of more than two percent (2%) fast, Company will refund to Customer the amount billed in error for one-half the period since the last Meter test. This one-half period will not exceed twelve (12) months unless it can be shown that the error was due to some cause, the date of which can be fixed, in which case the overcharge will be computed back to, but not beyond, such date, based upon available records. If the Meter has not been tested in accordance with Commission Rule 25-7.064, FAC, the period for which it has been in service beyond the regular test period will be added to the twelve (12) months in computing the refund. The refund will not include any part of any minimum or Customer charge.

Except as provided by this subsection, Company may back bill Customer in the event that a Meter is found to be slow, non-registering or partially registering. Company may not back bill for any period greater than twelve (12) months from the date it removes the Meter of a Customer, which Meter is later found by Company to be slow, non-registering or partially registering. If it can be ascertained that the Meter was slow, non-registering or partially registering for less than twelve (12) months prior to removal, then Company may back bill only for the lesser period of time. In any event, Customer may extend the payments of the back bill over the same amount of time for which Company issued the back bill.

1. Whenever a Meter tested is found to have an average error of more than two percent (2%) slow, Company may bill Customer an amount equal to the unbilled error in accordance with this subsection. If Company has required a Meter test deposit as permitted under Commission Rule 25-7.065(2), FAC, Customer may be billed only for the portion of the unbilled error which is in excess of the deposit retained by Company.

2. In the event of a non-registering or a partially registering Meter, unless the provisions of subsection (3) of this rule apply, Customer may be billed on an estimate based on previous bills for similar usage.

3. It shall be understood that when a Meter is found to be in error in excess of the prescribed limits of two percent (2%) fast or slow, the figure to be used for calculating the amount of refund or charge shall be that percentage of error as determined by the test.

4. In the event of unauthorized use, Customer may be billed on a reasonable estimate of the Gas consumed.

BILLING (Continued)

I. BUDGET BILLING PLAN (optional)

Residential Customers (RS) and non-Residential Customers served under Rate Schedules SGS, CS-GHP, GS-1, GS-2, and GS-3 may elect to make budgeted monthly payments of amounts due the Company to help stabilize their monthly payments. To qualify for the Budget Billing Plan, a customer must be in good financial standing. In determining whether a Customer is in good financial standing, the Company will consider such factors as whether the Customer has an overdue balance, whether the Customer has a pending service disconnection for non-payment, whether the Customer has a history of late payment or returned payments for insufficient funds, or other similar factors. The Company shall have 30 days following a Customer's request to participate in the Budget Billing Plan to deny or implement participation in the program. The Company retains the option to remove customers from the program if customers do not remain in good financial standing.

If a Customer requests to participate in the program, the initial budgeted payment amount will be based on an average of the previous twelve (12) months consumption. If the Customer has not received Gas Service from the Company at the requesting location for the preceding twelve (12) months, the Company may deny enrollment. After the Customer's budgeted monthly payment amount has been initially established, the Company may recalculate the payment from time to time, and the Company may begin charging the recalculated amount on the Customer's next successive bill. The Company will perform periodic reviews.

Any current and total deferred balance will be shown on the Customer's bill. When a Customer's budgeted payment amount is recalculated, any deferred credit balance will be credited to the Customer's account only during an annual true-up period; any deferred debit balance will be embedded into the Customer's budgeted monthly payment amount.

An electing Customer's participation in the Budget Billing Plan will be continuous unless the customer requests that participation in the plan be terminated, Gas Service is terminated, or the Company elects to terminate the customer from participating in the program. At that time of termination, the Customer shall settle their account with the Company in full; customers who remain a Customer of the Company shall pay any deferred debit balance with their next regular monthly bill, and any deferred credit balance shall be used to reduce the amount due for the next regular monthly bill. An electing customer may request that participation be terminated at any time. Any Customer terminated from the program by the Company or any Customer who voluntarily terminates participation in the program may not rejoin the program for at least twelve (12) months.

FPSC EXH NO 12
ADMITTED

BILLING (Continued)

J. SUMMARY BILLING PLAN (optional)

A Customer with ten (10) or more Company accounts and no bill in arrears may request a single statement for the billing and payment of those accounts under this Summary Billing Plan. With Summary Billing, the Customer designates which accounts are to be included in the plan. Those accounts may be separated into groups each of which will be billed once a month on cycle billing days as designated by the Company.

The Company will read each meter and calculate a billing amount for each account separately. The billing amount for each of the designated accounts will be totaled on a Summary Billing statement, with each of the individual account bills attached as backup, and a single totaled bill will be included for remittance. Summary bills are due when rendered. If the summary bill is not paid in full within ten (10) days after mailing or other delivery method used by the Company to reach the Customer, the Customer may be removed from the Summary Billing Plan.

FPSC EXH NO. 12
ADMITTED

V

MEASUREMENT

A. METERS

Company will own, operate and maintain the Meters and regulating equipment needed to accurately measure Gas Service provided to Customer.

Customer will provide a convenient, accessible, and safe location, satisfactory to Company, for installation of necessary Meters, regulators, and ancillary equipment.

Customer will safeguard Company's facilities on Customer's property and will not permit unauthorized persons to tamper with such facilities or otherwise operate or alter them in any manner.

If changes in conditions on Customer's premises adversely affect the convenience, accessibility, or safety of the Meter location, the Customer shall be responsible for the cost of relocating the Meter, its appurtenances, and related piping.

All Gas delivered to Customers shall be measured by commercially acceptable measuring devices owned and maintained by the Company, except where it is impractical to Meter loads, such as street lighting, and temporary or special installations, in which case the consumption may be calculated or billed on a rate or as provided in the Company's filed Tariff.

B. TYPE OF METERING PROVIDED

1. Except as provided in paragraph (2) below, each separate occupancy unit (as defined in Commission Rule 25-7.071, FAC) for which construction commenced after January 1, 1987, shall be individually metered.

2. Individual Meters shall not be required, and master metering is permitted, for separate occupancy units where dimensions or physical configurations of the units are subject to alteration; where Gas is used in central heating, water heating, ventilating and air conditioning systems, or Gas back up service to storage heating and cooling systems; in specialized-use housing accommodations such as hospitals and other health care facilities specified in Commission Rule 25-7.071, FAC, college dormitories, convents, sorority or fraternity houses, motels, hotels and similar facilities; in specially designated areas for overnight occupancy at trailer, mobile home and recreational vehicle parks where permanent residency is not established; in marinas where living aboard is prohibited by permanent means; or where individual Gas Service would otherwise be required above the second story, in accordance with Commission Rule 25-7.071, FAC.

3. When individual metering is not required and master metering is used, submeters may be purchased and installed at Customer's request and expense, for use in allocating solely the cost of Gas billed by Company for Gas Service at the master Meter.

C. METER ACCURACY AT INSTALLATION

All Meters, when installed, shall be not more than 1 percent fast or 1 percent slow and will have been tested not more than twelve (12) months prior to being installed.

MEASUREMENT (Continued)

D. METER TESTS

Company will periodically test Meters to ensure they properly and accurately measure the Gas Service provided to Customer.

E. METER TEST BY REQUEST

1. Upon written request of a Customer, the Company shall, without charge, make a test of the accuracy of the Meter in use at the Customer's premises; provided, first, that the Meter has not been tested by Company or by the Commission within twelve (12) months previous to such request and, second, that Customer agrees to accept the results of such test as the basis for the adjustment of disputed charges.

2. Should the Customer request a Meter test more frequently than once a year, the Company may require a deposit to defray the cost of testing in accordance with Commission Rule 25-7.065(2), FAC, and such deposit not to exceed the following for each test: (a) Meters with a capacity rating of 250 cfh or less - $34.00 dollars; (b) Meters with a capacity rating of over 250 cfh through 2500 cfh - $85.00 dollars; (c) Meters with a capacity rating over 2500 cfh - $129.00 dollars. If the Meter is found to be more than two percent fast, the deposit shall be refunded, but if below this accuracy limit, the deposit may be retained by Company as a service charge for conducting the test.

3. If Customer so desires, he or his authorized representative may witness the test. A written report, giving the results of the test, shall be furnished to Customer upon request.

4. At the request of the Customer, the Company shall make arrangements for a meter test to be conducted by an independent meter testing facility of the Customer's choosing. Where appropriate, the meter may be field tested. The Customer shall be responsible for all the costs to the Company associated with a meter test by an independent meter testing facility. The Company shall provide a detailed estimate of such costs and may require payment of such costs prior to the actual meter test. If the meter is found to be running fast in excess of the limits established by these rules, such costs shall be refunded, but if within the allowable limits, the Company may retain the costs.

F. METER TEST - REFEREE

1. Upon written application to the Commission by a Customer, a test of the Customer's Meter will be made or supervised as soon as practicable by a representative of the Commission.

2. A Meter shall not be disturbed after Company has received notice that application has been made for such referee test unless a representative of the Commission is present or unless authority to do so is first given in writing by the Commission or by Customer.

3. A written report of the results of the test will be made by the Commission to Customer.

VII

LIMITS OF COMPANY'S RESPONSIBILITIES

The Company shall not be liable for any property damage, fatality, or personal injury sustained on the Customer's premises resulting from the Customer's Installation or fittings, appliances and apparatus of any other type on Customer's premises, including, but not limited to, defects or failure of Customer to maintain Customer's premises which allow Gas leakage. The Company will not be responsible for the use, care or handling of Gas once the Gas passes the Point of Delivery. The Company shall not be liable to the Customer for naturally occurring or other impurities, regardless of the source, such as water, sand, black powder, sulfur, butane, or other chemicals or compounds in the Gas delivered to Customer. The Company shall not be liable for any loss or damage caused by variation in Gas pressure, defects in pipes, connections and appliances, escape or leakage of Gas, sticking of valves or regulators, or for any other loss or damage not caused by the Company's negligence arising out of or incident to the furnishing of Gas to any Customer.

Whenever Company deems an emergency or system operating condition warrants interruption, curtailment or other limitation of the Gas Service being rendered, such interruption, curtailment or other limitation shall not constitute a breach of contract and shall not render Company liable for damages suffered as a result of such interruption, curtailment or other limitation of Gas Service, or excuse Customer from continuing to fulfill its obligations to Company.

VIII

CONTINUITY OF SERVICE

The Company will use reasonable diligence at all times to provide regular, uninterrupted Gas Service, and shall not be liable to the Customer for any fatality, injury to person, or loss of or damage to property arising from causes beyond its control or from the ordinary negligence of the Company, its employees, servants or agents, including, but not limited to, damages for Gas leakage, complete or partial failure or interruption of service, for initiation of or re-connection of service, for shutdown for repairs or adjustments, for fluctuations in Gas flow, for delay in providing or restoring Gas Service, for termination of Gas Service, or for failure, as the result of an emergency or a Force Majeure event, to warn of interruption of Gas Service.

IX

LIMITATION ON CONSEQUENTIAL DAMAGES

To the fullest extent permitted by law, neither the Company, nor their respective officers, directors, agents, employees, members, parents, subsidiaries or affiliates, successors or assigns, or their respective officers, directors, agents, employees, members, parents, subsidiaries or affiliates, successors or assigns, shall be liable to the Customer or any other party or their respective officers, directors, agents, employees, members, parents, subsidiaries or affiliates, successors or assigns, for (i) claims, suits, actions or causes of action for incidental, indirect, special, punitive, unforeseen, multiple or consequential damages connected with or resulting from Company's performance or non-performance (such as loss of use of any property or equipment, loss of profits or income, loss of production, rental expenses for replacement property or equipment, costs to repair or demolish property, governmental fines, penalties or charges, diminution in value of real property, or expenses to restore operations, or loss of goods or products), or (ii) any actions undertaken in connection with or related to service under this Tariff, including without limitation, actions which are based upon causes of action for breach of contract, tort (including negligence and misrepresentation), breach of warranty, strict liability, statute, operation of law, under any indemnity provision or any other theory of recovery.

FPSC EXH NO. 12
ADMITTED

X

INDEMNITY TO COMPANY

A. General. The Customer shall indemnify, hold harmless, and defend the Company from and against any and all liability, proceedings, suits, cost or expense for loss or damage or injury to person or property or for fatality, in any manner directly or indirectly connected with or arising out of the transmission, distribution or use of Gas by the Customer at or on the Customer's side of the Point of Delivery, including the contributory or concurrent negligence of the Company or in any manner directly or indirectly connected with or arising out of the Customer's acts or omissions.

B. Governmental. Notwithstanding anything to the contrary in the Company's Tariff, including these Rules and Regulations, the Rate Schedules, and Standard Forms, any obligation of indemnification therein required of a Customer that is a governmental entity of the State of Florida or political subdivision thereof ("governmental entity"), shall be read to include the condition "to the extent permitted by applicable law."

XI

APPEALS TO THE COMMISSION

Whenever the application of these rules and regulations appear to be unjust or impractical either the Company or the Customer may request permission from the Commission for an exception.

RESIDENTIAL SERVICE
Rate Schedule RS

Availability:

Throughout the service areas of the Company.

Applicability:

Gas Service for residential purposes in individually metered residences and separately metered apartments. Also, for Gas used in commonly owned facilities of condominium associations, cooperative apartments, and homeowners associations, (excluding any premise at which the only Gas-consuming appliance or equipment is a standby electric generator), subject to the following criteria:

1. 100% of the Gas is used exclusively for the co-owner's benefit.

2. None of the Gas is used in any endeavor which sells or rents a commodity or provides service for a fee.

3. Each Point of Delivery will be separately metered and billed.

4. A responsible legal entity is established as the Customer to whom the Company can render its bills for said services.

5. RS-GHP refers to any Residential Customer utilizing a gas heat pump ("GHP") for heating and cooling.

Customers receiving service under this schedule will be classified for billing purposes according to annual usage as follows:

Billing Class	Annual Consumption
RS-1	0 – 99 Therms
RS-2	100 – 1,999 Therms
RS-GHP	All Therms

Monthly Rate:

Billing Class	Customer Charge
RS-1	$26.50 per month
RS-2	$35.50 per month
RS-GHP	$56.00 per month

Distribution Charge: $0.46319 per Therm for RS-1 and RS-2
$0.12617 per Therm for RS-GHP

Minimum Bill: The Customer charge.

RESIDENTIAL SERVICE (Continued)

Note 1 – Company's Budget Billing Plan is available to eligible Customers receiving Gas Service pursuant to this rate schedule (See Sheet No. 5.401-3).

The bill for the Therms billed under this schedule shall be increased in accordance with the provisions of the Company's Purchased Gas Adjustment Clause set forth on Sheet No. 7.101-1.

Special Conditions:

1. The rates set forth under this schedule shall be subject to the operation of the Energy Conservation Cost Recovery Adjustment Clause set forth on Sheet No. 7.101-2.

2. Service under this schedule shall be subject to the Rules and Regulations set forth in this Tariff.

3. Service under this schedule for the RS-1 Billing Class is subject to an annual volume review by the Company. If reclassification to another billing class is appropriate such classification will be prospective.

   a) Each year, the Company will review active residential Gas Service consumption for Billing Class RS-1 to determine whether the prior 12 months of consumption was within that class's consumption band.

   b) If consumption is 10 percent or more over the consumption parameters for the RS-1 Billing Class ("10 percent band"), the Company will re-assign the Customer to the RS-2 Billing Class.

   c) If the Customer's consumption exceeds the consumption parameters for the RS-1 Billing Class but is less than the 10 percent band for the RS-1 Billing Class for the most recent 12 months of consumption, the Customer will remain on the assigned RS-1 Billing Class. If the same result occurs for two consecutive annual volume review cycles, the Company will re-assign the Customer to the RS-2 Billing Class.

   d) Once a Customer is classified or reclassified to the RS-2 Billing Class, no further annual reclassification will occur, and the Customer shall remain in the RS-2 Billing Class regardless of annual consumption.

   e) All new customers, or customers without 12 months of usage, will automatically be placed in the RS-2 Billing Class.

4. The rates set forth under this schedule shall be subject to the operation of the Company's Tax and Fee Adjustment Clause set forth on Sheet No. 7.101-5.

5. The rates set forth under this schedule shall be subject to the operation of the Company's Competitive Rate Adjustment Clause set forth on Sheet No. 7.101-5.

6. The rates set forth under this schedule shall be subject to the operation of the Cast Iron Bare Steel Replacement Rider Surcharge set forth on Sheet Nos. 7.806 through 7.806-3.

7. A RS-GHP Customer with an annual consumption in excess of 1,999 Therms shall be eligible for transportation service under Rider NCTS.

8. When the Customer receives service under the Company's Natural Choice Transportation Service Rider (Rider NCTS), the rates set forth above shall be subject to the operation of the Company's Swing Service Charge set forth on Sheet No. 7.101-3.

4. When the Customer receives service under the Company's Natural Choice Transportation Service Rider (Rider NCTS), the rates set forth above shall be subject to the operation of the Company's Swing Service Charge set forth on Sheet No. 7.101-3.

5. The rates set forth under this schedule shall be subject to the operation of the Company's Tax and Fee Adjustment Clause set forth on Sheet No. 7.101-5.

6. A contract for an initial term of one year may be required as a condition precedent to service under this schedule, unless an extension of facilities is involved, in which case the term of the contract shall be the term required under the agreement for the facilities extension.

7. The rates set forth in this schedule shall be subject to the operation of the Company's Competitive Rate Adjustment Clause set forth on Sheet No. 7.101-5.

CONTRACT INTERRUPTIBLE SERVICE
Rate Schedule CIS

Availability:

Throughout the Service Areas of the Company.

Applicability:

Interruptible Gas for non-residential commercial or industrial use. Service under this schedule is subject to interruption or curtailment at the sole discretion of the Company at any time and is available to Customers using 100,000 Therms per year or more. A Customer eligible for service pursuant to this rate schedule is also eligible for transportation service under Rider ITS.

Service will be provided by the Company based on available pipeline capacity and the Customer delivering suitable Gas into the Company's distribution system.

Monthly Rate:

Customer Charge: Equal to the otherwise applicable Customer Charge based on annual consumption.

Distribution Charge:

An amount not less than $.01 per Therm nor greater than 90 percent of the currently applicable firm rate; provided however, that at any time during which the cumulative surpluses determined for all prior determination periods under the Competitive Rate Adjustment Clause (Non-West Florida Region) (see Sheet No. 7.101-5) equal or exceed the cumulative shortfalls determined for all prior determination periods under such clause, the distribution charge shall not exceed the distribution charge established for service under Rate Schedule IS in Company's last base rate proceeding. Unless changed by Company pursuant to this Rate Schedule, the distribution charge shall be equal to the applicable interruptible rate.

The "currently applicable firm rate" as used herein means the distribution charge prescribed in the otherwise applicable rate schedule, adjusted pursuant to the Competitive Rate Adjustment Clause (Non-West Florida Region) set forth on Sheet No. 7.101-5.

The distribution charge to Customer shall be determined by Company based upon Company's evaluation of competitive conditions. Such conditions may include, but are not necessarily limited to: the cost of Gas which is available to serve Customer; the delivered price and availability of Customer's designated alternate fuel; bypass opportunities; economic development; and the nature of Customer's operations (such as load factor, fuel efficiency, alternate fuel capacity, etc.). Company may from time to time increase or reduce the distribution charge as it deems necessary or appropriate to meet competition

OFF-SYSTEM SERVICE
Rate Schedule OSS

Availability:

Throughout the service areas of Company, and of any interstate or intrastate natural gas pipeline serving the Company (collectively, the "Pipelines").

Applicability:

Interruptible Gas delivered by Company through the facilities of a Pipeline, using Company's transportation capacity rights on such Pipeline, to any person not connected to Company's distribution system.

This Tariff is applicable to both bundled and unbundled gas service, i.e. interstate or intrastate Pipeline capacity only that is released by Company pursuant to Transporter's FERC gas tariff as well as interstate or intrastate Pipeline capacity that is bundled with natural gas supply and subsequently delivered by the Company to the Customer.

Monthly Rate:

Customer Charge: None

Transaction Charge: $100.00 per transaction

Distribution Charge:

For all Scheduled Quantities (as such term is defined in Special Condition 5 below), an amount not less than $.000 per Therm which Distribution Charge shall be established by agreement between Company and Customer prior to each transaction pursuant to this rate schedule.

The "currently applicable firm rate", as used herein, means the distribution charge prescribed in the firm rate schedule which would apply if the daily sales represented by a transaction under this rate schedule were annualized.

The Distribution Charge for service pursuant to this rate schedule shall be determined by Company based upon Company's evaluation of competitive conditions. Such conditions may include, but are not necessarily limited to: the cost of gas which is available to serve Customer; the delivered price and availability of Customer's designated alternate fuel; and the nature of Customer's operations (such as load factor, fuel efficiency, alternate fuel capacity, etc.). Company may from time to time increase or reduce the Distribution Charge as it deems necessary or appropriate to meet competition or remain competitive, but shall have no obligation to do so; provided, however, that the Distribution Charge shall at all times remain within the limits set forth above.

The bill for Therms billed at the above rates shall be increased by the cost per Therm of any Gas delivered to Customer pursuant to this rate schedule, including all variable costs incurred by Company for (or in connection with) Pipeline transportation.

FPSC EXH NO. 12
ADMITTED

NATURAL CHOICE TRANSPORTATION SERVICE (Continued)

9. Except as modified by the provisions set forth above, service under this Rider shall be subject to the Rules and Regulations set forth in this Tariff.

10. If a Customer receiving service pursuant to this Rider has annual consumption greater than or equal to 500,000 therms annually, then the Company will install and maintain facilities for remote monitoring of the Customer's hourly gas flow. The Customer will reimburse the Company for the expense incurred for the investment in and installation of these facilities.

11. A Pool Manager may terminate Gas supply to a Customer pursuant to this Rider electronically via Company's website prior to the sixteenth day of the month as of which such termination will commence on the first day of the Customer's billing period of the next calendar month following receipt by the Company of the aforesaid electronic termination. In the event of non-payment by Customer for charges due, a Pool Manager may terminate Gas supply to a Customer by giving five business days written notice to Company prior to the first day of the month as of which such termination is to be effective. Any such notice shall be accompanied by (a) documentary evidence of the Customer's failure to make payment for a period of at least 60 days, (b) Pool Manager's affidavit that it has made commercially reasonable and good faith efforts to collect the amount due, and (c) a non-refundable termination fee of $62.00 per account number. A Customer whose Gas supply is terminated by a Pool Manager pursuant to this special condition will automatically return to sales service provided by Company until such time as the Customer elects, subject to the conditions of this Rider, to receive service hereunder through a different Pool Manager. Additional deposit may be required from the Customer to return to sales service.

12. It is the Customer's obligation to make payments to the Company (or to an Authorized Payment Agent of the Company) of all bills rendered. Payment by a Customer to a third party (including a Third-Party Gas Supplier or Customer's Pool Manager) which has not been designated by Company as an Authorized Payment Agent will not satisfy the Customer's obligation to make payment of Company's bill for Gas Service.

INDIVIDUAL TRANSPORTATION SERVICE RIDER
RIDER ITS

Availability:

Throughout the service areas of the Company, subject to the Special Conditions set forth herein.

Applicability:

To firm or interruptible individual transportation service for any non-residential Customer who uses 500,000 therms per year or more and owns Gas that is made available for individual transportation service on the Company's system under Rate Schedules GS-5, WHS, SIS, IS, ISLV, and CIS.

Monthly Rate:

The Monthly Rate set forth in the applicable rate schedule, based on the annual Therm usage of, and character of service elected by, the Customer, plus an Individual Transportation Administration Fee of $313.80 per month per meter.

Special Conditions:

1. Definitions: As used in this Rider or in a Gas Transportation Agreement, the following terms have the meanings set forth below:

   "Actual Takes" means, for a specified period of time, the quantity of Gas passing through the meter(s) at the PGS Delivery Point(s) of Customer (as defined in the Customer's Gas Transportation Agreement).

   "Customer" means the person or entity which executes a Gas Transportation Agreement providing for individual transportation service hereunder.

   "Daily Imbalance Amount" means, for a Day, the positive or negative whole number determined by subtracting the Actual Takes for the Day from the Scheduled Quantities for the Day.

   "Day" means a period of 24 consecutive hours beginning and ending at 9:00 a.m. Central Clock Time.

   "FGT" means Florida Gas Transmission Company, a Delaware corporation, and its successors and assigns.

   "Gas Transportation Agreement" means an agreement between Company and an individual transportation Customer, the basic form of which is set forth on Sheets Nos. 8.114 through 8.114-8, which specifies the term for which it is effective and contains such reasonable provisions for termination as to which Company and Customer may agree.

Gas Service Agreement No. Page 2

NATURAL GAS SERVICE TERMS AND CONDITIONS:

The applicant named on the first page hereof ("Customer") makes application to Peoples Gas System, Inc. ("Company") for natural gas service under the rate classification indicated on the first page hereof according to the following terms and conditions in consideration of the Company's agreement to deliver natural gas to Customer pursuant to the applicable provisions of Company's Tariff approved by the Florida Public Service Commission. In the event of a conflict between this application and the Tariff, the Tariff shall control.

Gas is to be delivered to Customer at the outlet side of the Company's gas meter serving the premises indicated on the first page hereof, such meter and service line there to be installed and operated by the Company, and, if located on Customer's property, the site therefor to be furnished free of charge by Customer.

The Company and its representatives are hereby authorized to enter upon and install on Customer's property any required gas meter or meters and gas pipe for furnishing gas to said address, and to ditch, lay, or otherwise install pipe as is required outside the building(s). The gas pipe from the Company's gas system to and including said meter or meters shall be owned, operated, and maintained by the Company with a perpetual right of ingress and egress thereto, hereby granted to the Company for such purposes. Installation of Company's facilities may require that Company be granted an easement. All gas pipe, from the outlet side of said meter or meters, shall be owned, operated, and maintained by Customer at its sole cost and risk.

Customer shall receive and pay for all gas delivered to Customer according to the applicable provisions of Company's Tariff and the applicable rules and regulations of the Florida Public Service Commission. Any gas delivered to Customer at any other delivery point is also subject to the terms and conditions hereof. No oral statement shall change any term or obligation set forth herein.

A customer receiving gas service under the residential or commercial standby generator Tariff rate shall be obligated to remain on that schedule for a minimum of 12 months. This 12-month requirement shall be renewed at the end of each 12-month period unless Customer terminates gas service at the end of any 12-month period.

If Customer fails or refuses to take gas service from the Company, Customer shall pay to the Company the actual cost incurred by the Company in constructing the facilities to have been used in providing service to the Customer. Any deposits currently held by the Company shall be forfeited by Customer in payment or partial payment of these costs.

UNDERGROUND FACILITIES:

Prior to construction of gas pipeline, it is extremely important that the Company be made aware of existing underground obstacles, sprinkler systems, septic tanks, sewer lines, or structures, etc., located on Customer's property which may be damaged as a result of installation of the gas pipeline. Customer shall be responsible for marking and/or locating any underground facilities that may be on Customer's property that do not belong to local utilities (Power, Telephone, Water, Cable TV companies, etc.), and agrees to indemnify and hold Company harmless for any damages arising out of Customer's failure to do so.

GENERAL TERMS AND CONDITIONS APPLICABLE TO NATURAL GAS SERVICE:

To the extent that the Customer identified in this agreement is the State of Florida, one of its agencies, or one of its subdivisions, nothing herein shall be construed or interpreted as a waiver of sovereign immunity beyond the waiver provided in Section 768.28 Florida Statutes, or any successor statute.

This agreement is not assignable or transferable by Customer without prior written consent by the Company.

IN NO EVENT SHALL THE COMPANY OR ITS AFFILIATED COMPANIES, OFFICERS, DIRECTORS, EMPLOYEES, AGENTS OR REPRESENTATIVES BE LIABLE FOR ANY INCIDENTAL, INDIRECT, SPECIAL, CONSEQUENTIAL, EXEMPLARY OR PUNITIVE DAMAGES, INCLUDING, BUT NOT LIMITED TO, LOSS OF USE OF ANY PROPERTY OR EQUIPMENT, LOSS OF PROFITS OR INCOME, LOSS OF PRODUCTION, RENTAL EXPENSES FOR REPLACEMENT PROPERTY OR EQUIPMENT, DIMINUTION IN VALUE OF REAL PROPERTY, EXPENSES TO RESTORE OPERATIONS, OR LOSS OF GOODS OR PRODUCTIONS, EVEN IF THE COMPANY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

This agreement may not be amended or modified except by an instrument in writing signed by the Company and Customer.

This agreement shall be governed by the laws of the State of Florida without regard to principles of conflicts of laws.

This agreement contains the entire understanding between the parties hereto and supersedes any written or oral, prior or contemporaneous agreement or understanding between the parties.

NOTE: I acknowledge installation of the gas line will not be scheduled until the required easement, if needed, is signed by the landowner and received by Peoples Gas System, Inc. _____ (customer initials)

PEOPLES GAS SYSTEM, INC.

By: _____

_____
(Title)

"Supplier(s)" means person(s) (other than PGS) from which Shipper purchases Gas transported hereunder.

"Transporter" means any upstream intrastate or interstate transport service provider.

ARTICLE II - TERM

This Agreement is effective on the date first written above. The term shall commence at the beginning of the Day commencing on _____ and continue until the beginning of the Day commencing on (the "Termination Date") (the "Initial Term"). [PROVISIONS AGREEABLE TO PGS AND SHIPPER WITH RESPECT TO ANY EXTENDED OR "SECONDARY" TERM]

ARTICLE III - SALES AND TRANSPORTATION SERVICE

Section 3.1 Services. PGS desires to sell and Shipper desires to purchase from PGS, from time to time, for use in the Facility (but not for resale), Gas in quantities which, at Shipper's request, PGS may, in its sole discretion exercised in a not unduly discriminatory manner, agree to sell to Shipper. Shipper also engages PGS, and PGS accepts such engagement, to receive Gas for Shipper's account, up to the MTQ, at the PGS Receipt Point(s), and to cause an equivalent quantity, less the Retainage, to be redelivered to Shipper. Such sales and transportation shall be governed by PGS's FPSC Tariff and this Agreement. If there is a conflict between the Tariff and this Agreement, the Tariff shall control. Sales and transportation hereunder are provided in accordance with PGS's FPSC Tariff and curtailment plan. If Shipper's service is interruptible, Shipper may select one or more of the options described in Appendix D, which may enable Shipper to continue receiving delivery of Gas during periods of curtailment or interruption. PGS shall have no obligation to make sales to Shipper in lieu of the transportation of Gas contemplated by this Agreement.

Section 3.2 Required Equipment. Equipment that PGS must install to provide natural gas transportation service hereunder (the "Equipment"), if any, shall be determined solely by PGS. Unless the parties agree otherwise, all facilities used to provide service to Shipper hereunder (including without limitation the Equipment) shall be installed, owned, operated and maintained by PGS.

Section 3.3 Telemetry Equipment. Equipment which PGS must install to provide transmission of measurement data hereunder (the "Telemetry Equipment"), if any, and the anticipated cost thereof, are listed in Appendix C. Shipper shall reimburse PGS for all costs incurred for the Telemetry Equipment on receipt of PGS's invoice therefor. Shipper shall be responsible for securing access to the gas measurement data transmission network as required by PGS for the proper functioning of Telemetry Equipment.

ARTICLE IV - NOMINATIONS

Section 4.1 General. For each Day Shipper desires service hereunder, Shipper shall provide a Nomination to PGS pursuant to Sections 4.2 and/or 4.3 for each meter at the Facility. The total quantity for the Facility may be Nominated to a single meter, with "zero" Nominations being made for any additional meters located at the Facility. All Nominations shall be made to PGS at its web site (https://custactivitiespeoplesgas.com provided that, in an emergency, a Nomination may be delivered via facsimile using the form set forth in PGS's FPSC Tariff. Quantities confirmed by PGS for delivery shall be Scheduled Quantities. If requested by Shipper, PGS will allow increases or decreases in Scheduled Quantities after the Nomination deadlines set forth in this article, if the same can be confirmed by PGS, Transporters and Suppliers, and can be accomplished without detriment to services then scheduled on such Day for PGS and other shippers. The maximum quantity PGS shall be obligated to make available for delivery to Shipper on any Day (which shall not exceed the MDQ) is the sum of (a) the Transportation Quantity and (b) the Sales Quantity established pursuant to this article.

Section 4.4 Other Responsibilities. Shipper shall promptly notify PGS in writing of any change in the Sales Quantity or Transportation Quantity for any Day, and PGS will use commercially reasonable efforts to accept any such requested change as soon as practicable.

Section 4.5 Confirmation. If Transporter asks PGS to verify a nomination for Shipper's account, PGS shall confirm the lesser of such nomination, the Transportation Quantity or, in the case of non- or partial operation of the Facility, that quantity which in PGS's reasonable judgment (after consultation with Shipper) is likely to be consumed at the Facility. PGS has no obligation with respect to verification or rejection of quantities not requested by Shipper.

Section 4.6 Mutually Beneficial Transactions. Shipper recognizes that PGS maintains the operation and system integrity of the PGS distribution system on a daily basis, and that PGS, as the delivery point operator for its points of interconnection with interstate pipelines, is subject to the rules and regulations of such pipelines with regard to operational flow rates, pressures and penalties. As such, PGS may from time to time need Shipper to vary its Nominated quantities of Gas to be delivered at the PGS Receipt Point(s). On such occasions, PGS may in its sole discretion request, and Shipper may agree to, a change in the quantity of Gas to be delivered for the account of Shipper at the PGS Receipt Point(s). No such change in the quantity of Gas to be delivered shall be made pursuant to this section without the consent of Shipper. Terms and conditions of any such transaction will be agreed upon between the parties at the time of the transaction and will be recorded and confirmed in writing within two Business Days of the transaction.

ARTICLE V - TRANSPORTATION AND OTHER CHARGES

Section 5.1 Transportation Charges. Shipper shall pay PGS each Month for transportation service rendered by PGS, and, if applicable, for Gas purchased from PGS, in accordance with the then-applicable rate schedule in PGS's FPSC Tariff. At the time of execution of this Agreement, Rate Schedule ___ is applicable. In the event Rate Schedule, CIS or a fixed rate schedule is applicable, this Agreement will automatically renew following the Initial Term at the then applicable rate schedule unless Shipper and PGS have agreed at least 30 days prior to the expiration of the then current term that Rate Schedule CIS or another rate schedule shall apply.

Section 5.2 Changes in Tariff. If the applicable rates or rate schedules change or are amended or superseded, the newly applicable rates or rate schedules shall be applicable to service hereunder. Nothing contained herein shall prevent PGS from filing with the FPSC (or Shipper from opposing) changes to the rates and other provisions in PGS's FPSC Tariff.

ARTICLE VI - BILLING AND PAYMENT

Section 6.1 Billing. PGS will bill Shipper each Month for all Actual Takes during the preceding Month, and for any other amounts due hereunder. If, during the preceding Month, PGS has purchased Gas from Shipper pursuant to an interruption or curtailment order, such bill shall show a credit for the estimated amount due Shipper for such purchase(s). If the estimated amount owed by PGS to Shipper exceeds the amount Shipper owes PGS, PGS shall pay Shipper the net amount estimated to be due Shipper at the time PGS bills Shipper.

Section 8.2 Governing Law. This Agreement and any dispute arising hereunder shall be governed by and interpreted in accordance with the laws of Florida and shall be subject to all applicable laws, rules and orders of any Federal, state or local governmental authority having jurisdiction over the parties, their facilities or the transactions contemplated. Venue for any action, at law or in equity, commenced by either party against the other and arising out of or in connection with this Agreement shall be in a court, located within the State of Florida, having jurisdiction.

Section 8.3 Severability. If any provision hereof becomes or is declared by a court of competent jurisdiction to be illegal, unenforceable or void, this Agreement shall continue in full force and effect without said provision.

Section 8.4 Entire Agreement; Appendices. This Agreement sets forth the complete understanding of the parties as of the date first written above, and supersedes any and all prior negotiations, agreements and understandings with respect to the subject matter hereof. The appendices attached hereto are an integral part hereof. All capitalized terms used and not otherwise defined in the appendices shall have the meanings given to such terms herein.

Section 8.5 Waiver. No waiver of any of the provisions hereof shall be deemed to be a waiver of any other provision whether similar or not. No waiver shall constitute a continuing waiver. No waiver shall be binding on a party unless executed in writing by that party.

Section 8.6 Notices. (a) All notices and other communications hereunder shall be in writing and be deemed duly given on the date of delivery if delivered personally or by a recognized overnight delivery service or on the fifth day after mailing if mailed by first class United States mail, registered or certified, return receipt requested, postage prepaid, and properly addressed to the party as set forth below.

APPENDIX A - GAS TRANSPORTATION AGREEMENT

PGS RECEIPT POINT(S)

Maximum Transportation Quantity: _____ MMBtu per Day plus the Retainage

PGS will accept Gas from Shipper, or for its account, for transportation pursuant to this Agreement at the following point(s):

The above point(s) may be changed by PGS from time to time on written notice to Shipper.

APPENDIX B - GAS TRANSPORTATION AGREEMENT

PGS DELIVERY POINT(S)

Gas transported or sold pursuant to this Agreement shall be delivered by PGS to Shipper at the following point(s):

NAME	PGS METER#	MAXIMUM DELIVERY QUANTITY
Meter at the Facility		_____ MMBtu per Day

APPENDIX C - GAS TRANSPORTATION AGREEMENT

EQUIPMENT

APPENDIX D - GAS TRANSPORTATION AGREEMENT (APPLICABLE TO INTERRUPTIBLE CUSTOMERS)

ALTERNATIVES DURING PERIODS OF INTERRUPTION OR CURTAILMENT

If Shipper is an interruptible Customer, it may select one or more of the "options" set forth below prior to or during a period of interruption or curtailment. These options describe how PGS would attempt to continue deliveries during such a period.

If PGS is entitled to interrupt or curtail deliveries to Shipper for reasons other than Force Majeure, PGS will notify Shipper about such interruption or curtailment. The notice will include the estimated duration of the interruption or curtailment and the estimated cost of gas required for PGS to continue deliveries to Shipper. Shipper shall notify PGS in writing within two (2) hours after receipt of PGS's notice of interruption or curtailment of the option (from Options A through C below) Shipper elects.

If Shipper fails to make *any* election in a timely manner, it shall be conclusively presumed that Shipper has elected Option D below.

The Options are as follows:

Option A (PGS Receipt Point/Shipper's Own Arrangement): Shipper desires PGS to continue deliveries during the period of interruption or curtailment and Shipper agrees to all arrangements necessary to cause the delivery of (1) additional quantities of Gas equal to those quantities which PGS is entitled to interrupt or curtail (2) at the PGS Receipt Point(s).

Option B (Pipeline Release Point/Capacity Release): Shipper desires PGS to continue deliveries during the period of interruption and agrees to all arrangements necessary to cause the delivery of (1) additional quantities of Gas (including the Retainage) equal to those quantities PGS is entitled to interrupt to curtail (2) at the applicable point(s) of receipt into [_____] pipeline system. In addition Shipper desires PGS to release to Shipper (or to a Supplier designated by Shipper), for the duration of the period of interruption or curtailment and at the maximum rate applicable to the capacity released, primary firm capacity on [_____] sufficient to transport such additional quantities of Gas to the PGS Receipt Point(s). By election of this Option B, Shipper agrees to be responsible for the payment of all charges imposed by [_____] with respect to the capacity so released by PGS to Shipper (or Shipper's Supplier), or the use of such capacity, for the period during which such release is effective. If Shipper elects to continue deliveries during the period of interruption pursuant to this Option B, PGS agrees to release the capacity requested by Shipper if PGS determines in its sole discretion that (i) such capacity is available for release to Shipper during the period of interruption or curtailment, (ii) such release can be accomplished readily and without detriment to PGS's system operations, and (iii) such release is practicable within the time constraints and requirements of [_____] FERC Tariff and the ready availability of PGS staff and resources.

Option C PGS as Temporary Agent) : Shipper desires PGS to continue deliveries during the period of interruption or curtailment, appoints PGS as its agent to acquire (at the PGS Receipt Point(s)) additional quantities of Gas at market-based price, equal to those quantities which PGS is entitled to interrupt or curtail, to be used by Shipper during the period of interruption or curtailment, and agrees to reimburse PGS, in addition to all amounts otherwise payable for Gas pursuant to this Agreement, for the incremental additional per-Therm costs incurred by PGS (as Shipper's agent) to acquire for the account of Shipper, at the PGS Receipt Point(s), Gas to be used by Shipper during the period of interruption or curtailment. As used in this Option C, "incremental additional costs" shall mean the weighted average per-Therm costs incurred by PGS to acquire, for the accounts of Shipper and other interruptible customers of PGS who have elected this Option C during a particular period of interruption, the additional quantities of Gas mentioned above to be used by Shipper and such other interruptible customers of PGS during such period of interruption or curtailment, including but not limited to commodity, transportation, storage and other charges incurred by PGS.

Option D (No Action by Shipper): Shipper agrees to cease taking Gas pursuant to PGS's notice during the period of interruption.

If Shipper has elected to continue deliveries pursuant to one of Options A, B or C, PGS will, in implementing its interruption or curtailment notice, take and pay for Shipper's Gas as provided in PGS's FPSC Tariff, but will not discontinue deliveries to Shipper unless (i) if Shipper has elected Option A, Shipper fails to make additional Gas available at the PGS Receipt Point(s), or (ii) if Shipper has elected Option B, either (a) PGS has no primary firm capacity on [_____] available for

FPSC EXH NO. 12
ADMITTED

release to Shipper (or Shipper's Supplier) during the period of interruption or curtailment without detriment to service required by PGS's customers in a curtailment category having a higher priority than Shipper's curtailment category under PGS's curtailment plan, or (b) PGS determines either that the release of capacity contemplated by Option B would not result in Shipper's (or Shipper's Supplier's) being able to make the additional quantities of Gas available at the PGS Receipt Point(s) for delivery to Shipper during the period of interruption or curtailment or that the release of capacity cannot be made pursuant to Option B, or (iii) if Shipper has elected Option C, PGS, having exercised commercially reasonable efforts, is unable to acquire for Shipper's account, at the PGS Receipt Point(s), additional Gas for delivery to Shipper during the period of interruption or curtailment. In the event of the occurrence of any of the circumstances described in items (i) through (iii), PGS will provide Shipper with not less than two (2) hours' notice to cease taking Gas during the period of interruption or curtailment, and Shipper shall not have the benefit of Options A through C above.

THE NEXT SHEET IS NO. 8.115

"Transporter Agreement" means, for purposes of this Agreement and the Capacity Release Agreement, the applicable Service Agreements for Firm Transportation Service (however named or titled) between Transporter and PGS in effect from time to time, including (a) Transporter's currently effective applicable rate schedule(s) and (b) General Terms and Conditions filed with the FERC or the FPSC (and incorporated in each said agreement by reference), as such agreements, rate schedules and general terms and conditions may be amended from time to time, and any successor firm agreement(s), firm rate schedule(s) or general terms and conditions applicable thereto.

"Transporter's Tariff" means, for purposes of this Agreement and the Capacity Release Agreement, Transporter's effective FERC or FPSC gas tariff applicable to firm transportation service under the Transporter Agreement, as such tariff may be amended from time to time.

ARTICLE II - TERM; PROGRAM CHANGES

Section 2.1 Term. This Agreement shall be effective on the date first written above. The term of this Agreement shall commence on the first Day of the Month for which PGS first delivers to Pool Manager a list of Customer Accounts as required by Section 4.1(a) (the "Effective Date") and shall continue, unless earlier terminated pursuant to this Agreement, until the first anniversary of the Effective Date (the "Initial Term"). Thereafter, the term of this Agreement shall be extended for additional periods of one year unless either party gives written notice, not less than 90 days prior to the expiration of the Initial Term (or any subsequent period for which this Agreement has been extended) to the other party, of termination.

Section 2.2 Program Changes. Pool Manager understands that PGS is entering into this Agreement as part of a program approved by the FPSC. PGS reserves the right to file with the FPSC modifications to such program (including the terms and conditions of this Agreement). PGS shall give Pool Manager reasonable notice of any such filing. In the event the FPSC approves modifications to such program (including any terms or conditions set forth in this agreement), such modifications shall become binding on the parties hereto as of the date on which approval thereof by the FPSC becomes effective. Notwithstanding any other provision of this Agreement, PGS's obligations hereunder shall at all times be subject to the lawful orders, rules and regulations of the FPSC, and to the terms and conditions of PGS's FPSC Tariff.

ARTICLE III - NON-PAYMENT BY CUSTOMER

Pool Manager may terminate its obligation to deliver Gas hereunder for a Customer Account for non-payment of charges due Pool Manager by giving five days' written notice to PGS prior to the first Day of the Month as of which such termination is to be effective. Any such notice shall be accompanied by (i) documentary evidence of the Customer's failure to make payment for a period of at least 60 days, (ii) Pool Manager's affidavit that it has made commercially reasonable and good faith efforts to collect the amount due and (iii) a non-refundable termination fee of $62.00.

Performance of this Agreement and the interpretation thereof shall be in accordance with the laws of the State of Florida.

Venue for any action between the parties hereto arising out of this Agreement shall be in a court, located in the State of Florida, having jurisdiction. In any such action, the reasonable attorneys' fees and costs of the party prevailing in such action shall be recovered by such party from the other party. Neither PGS nor Pool Manager shall be liable to the other or to any person claiming through the other for special, indirect, punitive or consequential damages, lost profits or lost opportunity costs relating to any matter covered by this Agreement.

Any notice concerning this Agreement, except for those specifically required or permitted to be provided by facsimile, shall be given in writing and mailed by first-class mail to the party being notified at the address for such party stated below:

If to PGS:

Peoples Gas System, Inc.
3600 Midtown Drive
Tampa, FL 33607

P. O. Box 2562
Tampa, Florida 33601-2562
Attention: NCTS Administrator

If to Pool Manager:

_____

_____

_____

_____

_____

_____

Pool Manager shall keep confidential and will not use, or disclose to any person not a party hereto, the information received from PGS or any Customer during the performance of this Agreement, except to the extent such disclosure is necessary for the Pool Manager's performance hereunder or is required by law. In the case of any disclosure required by law to be made, Pool Manager shall, prior to making such disclosure, provide written notice to PGS of the disclosure to be made in order that PGS may seek a protective order or other means of protecting the confidentiality of the information to be disclosed. The parties' obligations under this paragraph shall expire two (2) years from the date of termination of this Agreement.

ITS AGENT AGREEMENT

The undersigned Shipper hereby designates the undersigned Agent as its Agent to perform the following identified (*i.e.*, marked with an "X") obligations of Shipper under Shipper's Gas Transportation Agreement(s) with Peoples Gas System, Inc. ("PGS"):

☐ Invoicing/Payment

☐ Nominations

☐ Monthly Imbalance Resolution

☐ Alert Day Volume Aggregation and Alert Day Penalty Responsibility

Shipper, Agent and PGS hereby agree, for all purposes relating to the functions identified above, that:

1. The designation by Shipper of Agent as Shipper's Agent shall be effective as of the beginning of the Day commencing on _____←insert date.

2. Shipper agrees that it may designate only one agent however, that agent may perform one or several of the functions listed above.

3. PGS has the right to rely on any written or verbal communication from Agent, and any communications by PGS to Agent shall be deemed notice to Shipper.

4. Agent shall perform the functions identified above in a manner consistent with PGS's Natural Gas Tariff on file with the Florida Public Service Commission, as the same may be amended from time to time.

5. Alert Day penalties imposed on the ITS Customer Pool of which Shipper is a part shall be paid by Agent; provided, however, that if Agent fails to pay such penalties within sixty (60) days after the date on which they are imposed by PGS, Shipper shall be responsible for, and pay to PGS, such Alert Day penalties (if any) as would have been payable by Shipper for such Alert Day in the absence of this Agreement.

6. Shipper shall remain liable to PGS (a) with respect to any act or omission of Agent in the performance of the functions identified above and, (b) to the extent not paid by Agent for the ITS Customer Pool of which Shipper is a part, all charges arising under the Gas Transportation Agreement(s) between PGS and Shipper. Shipper shall indemnify, hold harmless and defend PGS from and against any and all acts or omissions of Agent. To the extent that Shipper is the State of Florida, one of its agencies, or one of its subdivisions, nothing herein shall be construed or interpreted as a waiver of sovereign immunity beyond the waiver provided in Section 768.28, Florida Statutes, or any successor statute.

MINIMUM VOLUME COMMITMENT
GAS TRANSPORTATION AGREEMENT

This Minimum Volume Commitment Gas Transportation Agreement (the "Agreement") is made and entered into as of the _____ day of _____, 20__, by and between Peoples Gas System, Inc., a Florida corporation ("PGS"), and _____, a _____ ("Shipper"), who hereby agree as follows:

ARTICLE I - DEFINITIONS

As used herein, the following terms shall have the meanings set forth below.

Capitalized terms used herein, but not defined below, have the meanings given for such terms in PGS's FPSC Tariff.

"Actual Takes" means, for a specified period, the quantity of Gas passing through the meter(s) of the Customer Accounts during that period.

"Business Day" means the Days Monday through Friday (excluding any federal banking holiday falling on any such Day).

"Day" means the period of 24 consecutive hours beginning and ending at 9:00 a.m. Central Clock Time.

"Facility" means Shipper's _____ facility located in _____, Florida.

"FPSC" means the Florida Public Service Commission or any successor agency.

"Gas" shall have the same meaning as given for such term in PGS's FPSC Tariff.

"Gas Service" shall have the same meaning as given for such term in PGS's FPSC Tariff.

"MAT Deficiency Charge" means the difference between the applicable MAT set forth in Article VI and the actual quantity of Gas delivered during the twelve-month delivery period, multiplied by the applicable rate schedule in effect at the end of the twelve-month delivery period.

"Maximum Delivery Quantity" or "MDQ" means the maximum amount of Gas that PGS is obligated to cause to be delivered for Shipper's account pursuant to this Agreement on any Day at the PGS Delivery Point(s) and is stated in Appendix B.

"Maximum Transportation Quantity" or "MTQ" means the maximum amount of Gas that PGS shall be obligated to receive pursuant to this Agreement on any Day at the PGS Receipt Point(s), and is stated in Appendix A.

"Minimum Annual Take" or "MAT" means the quantity of minimum annual delivery of natural gas at the facility agreed to by Shipper and set forth in Article VI.

"Minimum Delivery Obligation" means the sum of Shipper's total Gas requirements over the Term of this agreement as set forth in Article VI.

"Nomination" means a notice delivered by Shipper to PGS in the form specified in PGS's FPSC Tariff, specifying (in MMBtu) the quantity of Gas the Shipper desires to purchase or to have PGS receive, transport, and deliver at the PGS Delivery Point(s).

"Nominate" means to deliver a completed Nomination.

"PGS Delivery Point(s)" means the point(s) listed in Appendix B.

"PGS Receipt Point(s)" means the point(s) of physical interconnection between Transporter and PGS, or between Shipper and PGS listed in Appendix A.

"Retainage" means 0.35% of Gas received by PGS for the account of the Customer at the Primary Delivery Point(s) to account for lost and unaccounted Gas between such point(s) and the meters of the Customer Accounts.

"Supplier(s)" means person(s) (other than PGS) from which Shipper purchases Gas transported hereunder.

"Transporter" means any upstream intrastate or interstate transport service provider.

"Twelve-Month Delivery Period" means each twelve-month period commencing on the date of Gas Service is available to the Facility and continues on an annual basis throughout the Term of this Agreement.

ARTICLE II – TERM

This Agreement is effective on the date first written above. The term shall commence upon the initiation of Gas Service and continue until the last day of the Twelve-Month Delivery Period or when the Minimum Delivery Obligation is satisfied. (the "Termination Date") (the "Term"). The Term shall reflect the recovery period for the extension of Gas Service. In no instance will the Term exceed (10) years. At the end of the Term, the Customer will be placed in the applicable rate schedule.

ARTICLE III – SALES AND TRANSPORTATION SERVICE

Section 3.1 Services. PGS desires to sell and Shipper desires to purchase from PGS, from time to time, for use in the Facility (but not for resale), Gas in quantities which, at Shipper's request, PGS may, in its sole discretion exercised in a not unduly discriminatory manner, agree to sell to Shipper. Shipper also engages PGS, and PGS accepts such engagement, to receive Gas for Shipper's account, up to the MTQ, at the PGS Receipt Point(s), and to cause an equivalent quantity, less the Retainage, to be redelivered to Shipper. Such sales and transportation shall be governed by PGS's FPSC Tariff and this Agreement. If there is a conflict between the Tariff and this Agreement, the Tariff shall control. Sales and transportation hereunder are provided in accordance with PGS's FPSC Tariff and PGS's curtailment plan. If Shipper's service is interruptible, Shipper may select one or more of the options described in Appendix D, which may enable Shipper to continue receiving delivery of Gas during periods of curtailment or interruption.

PGS shall have no obligation to make sales to Shipper in lieu of the transportation of Gas contemplated by this Agreement.

Section 3.2 Required Equipment. All items that PGS must install to provide natural gas transportation service hereunder (the "Equipment"), if any, shall be determined solely by PGS. Unless the parties agree otherwise, all facilities used to provide service to Shipper hereunder (including without limitation the Equipment) shall be installed, owned, operated and maintained by PGS.

Section 3.3 Telemetry Equipment. Equipment which PGS must install to provide transmission of measurement data hereunder (the "Telemetry Equipment"), if any, and the anticipated cost thereof, are listed in Appendix C. Shipper shall reimburse PGS for all costs incurred for the Telemetry Equipment on receipt of PGS's invoice therefor. Shipper shall be responsible for securing access to the gas measurement data transmission network as required by PGS for the proper functioning of Telemetry Equipment.

ARTICLE IV – NOMINATIONS

Section 4.1 General. For each Day Shipper desires service hereunder, Shipper shall provide a Nomination to PGS pursuant to Sections 4.2 and/or 4.3 for each meter at the Facility. The total quantity for the Facility may be Nominated to a single meter, with "zero" Nominations being made for any additional meters located at the Facility. All Nominations shall be made to PGS at its website (https://custactivitiespeoplesgas.com) provided that, in an emergency, a Nomination may be delivered via facsimile using the form set forth in PGS's FPSC Tariff. Quantities confirmed by PGS for delivery shall be Scheduled Quantities. If requested by Shipper, PGS will allow increases or decreases in Scheduled Quantities after the Nomination deadlines set forth in this article, if the same can be confirmed by PGS, Transporters and Suppliers, and can be accomplished without detriment to services then scheduled on such Day for PGS and other shippers. The maximum quantity PGS shall be obligated to make available for delivery to Shipper on any Day (which shall not exceed the MDQ) is the sum of (a) the Transportation Quantity and (b) the Sales Quantity established pursuant to this article.

Section 4.2 Nomination for Purchase. Unless otherwise agreed, Shipper shall Nominate Gas for purchase hereunder not less than seven (7) Business Days prior to the first Day of any Month in which Shipper desires to purchase Gas. Daily notices shall be given to PGS at least two (2) Business Days (but not less than forty-eight (48) hours) prior to the commencement of the Day on which Shipper desires delivery of the Gas. If Shipper has timely Nominated a quantity for a particular Month, PGS shall confirm to Shipper the quantity PGS will tender for purchase by Shipper (the "Sales Quantity," which shall also be a "Scheduled Quantity") no later than 5:00 p.m. Eastern Time on the Business Day immediately preceding each Day during such Month.

Section 4.3 Nomination for Transportation. Unless otherwise agreed, Shipper shall, for each Month, and each Day during such Month that Shipper seeks to change any aspect of any prior Nomination, notify PGS by providing a completed Nomination. Shipper's Nomination for Gas to be to be made available for delivery on the first Day of any Month shall be given by 10 a.m. on the second Business Day prior to the Day on which a nomination must be delivered to Transporter for receipt of deliveries at the PGS Receipt Point(s) on such Day. Daily Nominations for Gas to be made available for delivery other than on the first Day of a Month shall be given to PGS by 10 a.m. on the Business Day prior to the Day on which a nomination must be delivered to Transporter for the receipt of deliveries at the PGS Receipt Point(s) on such Day. The following nomination information is required for a valid nomination:

a. The Shipper's account number under which service is being nominated;

b. The receipt point location including applicable DRN and upstream pipeline name, upstream pipeline package ID, including Shipper's PGS account number, and quantity in Therms of Gas to be tendered at each PGS receipt point;
c. The downstream delivery facility name, and quantity in Therms of Gas to be delivered for each PGS Shipper account;
d. A beginning and ending date for each nomination;
e. The upstream contract identifier.

Only nominations with clearly matching upstream Transporter identifiers (including Shipper's package ID and PGS account number) and downstream (PGS) identifiers will be scheduled. If Shipper or Shipper's Agent fails to comply with provisions (a) through (e) of this section, PGS may not schedule commencement of service or change a prior nomination.

Shipper understands that PGS is subject to FERC regulations that may require PGS to post certain Shipper information on a publicly accessible website. The submission by Shipper or Shipper's Agent of a required nomination shall constitute Shipper's authorization to PGS to publicly disclose any information (including but not limited to the information provided in such nomination) required by applicable law or regulation to be disclosed by PGS.

PGS shall confirm to Shipper the quantity PGS will make available for redelivery on such Day (the "Transportation Quantity," which shall also be a "Scheduled Quantity") no later than 5:00 p.m. Eastern Time on the Business Day immediately preceding such Day. PGS has no obligation to confirm a quantity Nominated by Shipper pursuant to this section greater than the quantity which, in PGS's reasonable judgment, equals the Facility's likely consumption for a Day plus Retainage, less any Sales Quantities confirmed for delivery on such Day.

Section 4.4 Mutually Beneficial Transactions. Shipper recognizes that PGS maintains the operation and system integrity of the PGS distribution system on a daily basis, and that PGS, as the delivery point operator for its points of interconnection with interstate pipelines, is subject to the rules and regulations of such pipelines with regard to operational flow rates, pressures and penalties. As such, PGS may from time to time need Shipper to vary its Nominated quantities of Gas to be delivered at the PGS Receipt Point(s). On such occasions, PGS may in its sole discretion request, and Shipper may agree to, a change in the quantity of Gas to be delivered for the account of Shipper at the PGS Receipt Point(s). No such change in the quantity of Gas to be delivered shall be made pursuant to this section without the consent of Shipper. Terms and conditions of any such transaction will be agreed upon between the parties at the time of the transaction and will be recorded and confirmed in writing within two Business Days of the transaction.

ARTICLE–V - TRANSPORTATION AND OTHER CHARGES

Section 5.1 Transportation Charges. Shipper shall pay PGS each Month for transportation service rendered by PGS, and, if applicable, for Gas purchased from PGS, in accordance with the then-applicable rate schedule in PGS's FPSC Tariff. At the time of execution of this Agreement, Rate Schedule ___ is applicable. In the event rate schedule, CIS or a fixed rate schedule is applicable, this Agreement will automatically renew following the Initial Term at the then applicable rate schedule unless Shipper and PGS have agreed at least thirty (30) days prior to the expiration of the then current term that Rate Schedule CIS or another rate schedule shall apply.

During the Term of this Agreement, Buyer agrees to a MAT of natural gas at the Facility which will follow the schedule outlined in Section 6.2.

Section 5.2 Changes in Tariff. If the applicable rates or rate schedules change or are amended or superseded, the newly applicable rates or rate schedules shall be applicable to service hereunder. Nothing contained herein shall prevent PGS from filing with the FPSC (or Shipper from opposing) changes to the rates and other provisions in PGS's FPSC Tariff.

ARTICLE VI - REQUIREMENTS

Section 6.1 Minimum Delivery Obligation. The sum of Shipper's total Gas requirements over the Term of this Agreement are estimated to be _____ Therms.

Section 6.2 Minimum Annual Take. PGS requires the following MAT for each Twelve-Month Delivery Period, or such Delivery Period as agreed upon by the Parties as applicable:

Period	Therms
1	
2	
3	
4	
5	
6	
7	
8	
9	
10	

Section 6.3 Shortfall and MAT Deficiency Charge. If the Shipper fails to take delivery of the MAT in any Twelve-Month Delivery Period, the Shipper shall pay PGS a MAT Deficiency Charge calculated as follows: the difference between the applicable MAT and the actual quantity of Gas delivered during the Twelve-Month Delivery Period, multiplied by the rate schedule in effect at the end of the Twelve-Month Delivery Period. If, during any Twelve-Month Delivery Period, the actual quantity of Gas delivered to the Facility exceeds the applicable MAT, said excess shall be carried forward to the next Twelve-Month Delivery Period for purposes of offsetting any MAT Deficiency Charge hereunder.

Section 6.4 Financial Guarantee. Shipper shall furnish to PGS an irrevocable standby letter of credit issued by a bank acceptable to PGS or such other form of guarantee acceptable to PGS (the "Financial Guarantee") in an amount equal to [_____]. PGS may adjust the amount required in the Financial Guarantee at the end of each Twelve-Month Delivery Period.

Shipper's failure to maintain the Financial Guarantee, which for the avoidance of doubt includes notice of termination of security without acceptable alternative Financial Guarantee being provided, shall constitute a default of this Agreement.

ARTICLE VII - BILLING AND PAYMENT

Section 7.1 Billing. PGS will bill Shipper each Month for all Actual Takes during the preceding Month, and for any other amounts due hereunder. If, during the preceding Month, PGS has purchased Gas from Shipper pursuant to an interruption or curtailment order, such bill shall show a credit for the estimated amount due Shipper for such purchase(s). If the estimated amount owed by PGS to Shipper exceeds the amount Shipper owes PGS, PGS shall pay Shipper the net amount estimated to be due Shipper at the time PGS bills Shipper.

Section 7.1.1 Billing of MAT Deficiency Charge(s). PGS will bill Shipper for the MAT Deficiency Charge no later than thirty (30) days after the end of each Twelve-Month Delivery Period.

Section 7.2 Payment. Shipper shall pay all such bills, minus any disputed amounts, at the address specified in the invoice by the 20th Day following the date of PGS's mailing (as signified by the postmark) or other delivery of the bill. All sums not so paid by Shipper (or credited or paid by PGS) shall be considered delinquent and subject to later payment schedules as set forth below.

Section 7.3 Termination Payment. If the Shipper terminates Gas Service hereunder after execution of this Agreement, Shipper shall pay PGS any MAT Deficiency Charge(s) applicable at the time of termination and any future MAT Deficiency Charge(s) pursuant to the schedule in Section 6.2. resulting from such termination (the "Termination Payment"). Shipper agrees that it will make any such Termination Payment to PGS within twenty (20) days after receipt of PGS' invoice.

Section 7.4 Billing Disputes. In the event of a bona fide billing dispute, Shipper or PGS, as the case may be, shall pay (or credit) to the other party all amounts not in dispute, and the parties shall negotiate in good faith to resolve the amount in dispute as soon as reasonably practicable. If a party has withheld payment (or credit) of a disputed amount, and the dispute is resolved, the non-prevailing party shall pay to the other party the amount determined to be due such other party, plus interest thereon at an annual rate equal to the prime interest rate of Citibank, N.A., New York, New York, plus one percent (1%), calculated on a daily basis from the date due until paid (or credited).

Section 7.5 Errors or Estimates. If an estimate is used to determine the amount due Shipper for purchases by PGS pursuant to an interruption or curtailment order, PGS shall make any adjustment necessary to reflect the actual amount due Shipper on account of such purchases in the next bill rendered to Shipper after determination of the actual amount due. An error in any bill, credit or payment shall be corrected in the next bill rendered after the error is confirmed by PGS.

Each party's performance obligation hereunder shall abate proportionately during a Force Majeure event and during any period that a party is unable to perform its obligations due to the other party's performance failure. The term of this Agreement shall be extended for a period equal to the length of any such abatement(s).

ARTICLE VIII - FAILURE TO MAKE PAYMENT

Section 8.1 Late Payment Charge. Charges for services due and rendered which are unpaid as of the past due date are subject to a Late Payment Charge of 1.5%, except the accounts of

mail, registered or certified, return receipt requested, postage prepaid, and properly addressed to the party as set forth below.

Meter at the Facility		_____ MMBtu per Day

APPENDIX C - GAS TRANSPORTATION AGREEMENT

TELEMETRY EQUIPMENT

APPENDIX D -
GAS TRANSPORTATION AGREEMENT
(APPLICABLE TO INTERRUPTIBLE CUSTOMERS)

ALTERNATIVES DURING PERIODS OF INTERRUPTION OR CURTAILMENT

If Shipper is an interruptible Customer, it may select one or more of the "options" set forth below prior to or during a period of interruption or curtailment. These options describe how PGS would attempt to continue deliveries during such a period.

If PGS is entitled to interrupt or curtail deliveries to Shipper for reasons other than Force Majeure, PGS will notify Shipper about such interruption or curtailment. The notice will include the estimated duration of the interruption or curtailment and the estimated cost of gas required for PGS to continue deliveries to Shipper. Shipper shall notify PGS in writing within two (2) hours after receipt of PGS's notice of interruption or curtailment of the option (from Options A through C below) Shipper elects.

If Shipper fails to make *any* election in a timely manner, it shall be conclusively presumed that Shipper has elected Option D below.

The Options are as follows:

Option A (PGS Receipt Point/Shipper's Own Arrangement): Shipper desires PGS to continue deliveries during the period of interruption or curtailment and Shipper agrees to make all arrangements necessary to cause the delivery of (1) additional quantities of Gas equal to those quantities which PGS is entitled to interrupt or curtail (2) at the PGS Receipt Point(s).

Option B (Pipeline Release Point/Capacity Release): Shipper desires PGS to continue deliveries during the period of interruption and agrees to make all arrangements necessary to cause the delivery of (1) additional quantities of Gas (including the Retainage) equal to those quantities which PGS is entitled to interrupt or curtail (2) at the applicable point(s) of receipt into [_____] pipeline system. In addition, Shipper desires PGS to release to Shipper (or to a Supplier designated by Shipper), for the duration of the period of interruption or curtailment and at the maximum rate applicable to the capacity released, primary firm capacity on [_____] sufficient to transport such additional quantities of Gas to the PGS Receipt Point(s). By election of this Option B, Shipper agrees to be responsible for the payment of all charges imposed by [_____] with respect to the capacity so released by PGS to Shipper (or Shipper's Supplier), or the use of such capacity, for the period during which such release is effective. If Shipper elects to continue deliveries during the period of interruption pursuant to this Option B, PGS agrees to release the capacity requested by Shipper if PGS determines in its sole discretion that (i) such capacity is available for release to Shipper during the period of interruption or curtailment, (ii) such release can be accomplished readily and without detriment to PGS's system operations, and (iii) such release is practicable within the time constraints and requirements of [_____] FERC Tariff and the ready availability of PGS staff and resources.

Option C (PGS as Temporary Agent): Shipper desires PGS to continue deliveries during the period of interruption or curtailment, appoints PGS as its agent to acquire (at the PGS Receipt Point(s)) additional quantities of Gas at market-based price, equal to those quantities which PGS is entitled to interrupt or curtail, to be used by Shipper during the period of interruption or curtailment, and agrees to reimburse PGS, in addition to all amounts otherwise payable for Gas pursuant to this Agreement, for the incremental additional per-Therm costs incurred by PGS (as Shipper's agent) to acquire for the account of Shipper, at the PGS Receipt Point(s), Gas to be used by Shipper during the period of interruption or curtailment. As used in this Option C, "incremental additional costs" shall mean the weighted average per-Therm costs incurred by PGS to acquire, for the accounts of Shipper and other interruptible customers of PGS who have elected this Option C during a particular period of interruption, the additional quantities of Gas mentioned above to be used by Shipper and such other interruptible customers of PGS during such period of interruption or curtailment, including but not limited to commodity, transportation, storage and other charges incurred by PGS.

Option D (No Action by Shipper): Shipper agrees to cease taking Gas pursuant to PGS's notice during the period of interruption.

If Shipper has elected to continue deliveries pursuant to one of Options A, B, or C, PGS will, in implementing its interruption or curtailment notice, take and pay for Shipper's Gas as provided in PGS's FPSC Tariff, but will not discontinue deliveries to Shipper unless (i) if Shipper has elected Option A, Shipper fails to make additional Gas available at the PGS Receipt Point(s), or (ii) if Shipper has elected Option B, either (a) PGS has no primary firm capacity on [_____] available for release to Shipper (or Shipper's Supplier) during the period of interruption or curtailment without

detriment to service required by PGS's customers in a curtailment category having a higher priority than Shipper's curtailment category under PGS's curtailment plan, or (b) PGS determines either that the release of capacity contemplated by Option B would not result in Shipper's (or Shipper's Supplier's) being able to make the additional quantities of Gas available at the PGS Receipt Point(s) for delivery to Shipper during the period of interruption or curtailment or that the release of capacity cannot be made pursuant to Option B, or (iii) if Shipper has elected Option C, PGS, having exercised commercially reasonable efforts, is unable to acquire for Shipper's account, at the PGS Receipt Point(s), additional Gas for delivery to Shipper during the period of interruption or curtailment. In the event of the occurrence of any of the circumstances described in items (i) through (iii), PGS will provide Shipper with not less than two (2) hours' notice to cease taking Gas during the period of interruption or curtailment, and Shipper shall not have the benefit of Options A through C above.

Benefit	Vendor	Description
Medical Plan	BCBSFL	TECO Peoples Gas offers two consumer-driven health plans to eligible active team members and their dependents. Consumerism encourages members to be aware of the cost of services as both plans exclude co-payments. Members are responsible for the plan deductible and co- insurance for most services until the plan out-of-pocket maximum is met. Members have the option to use in or out-of-network providers, however, the plan is designed to cover less if a member goes out-of-network. Both medical plans cover preventive services at 100% (in-network) to encourage wellness and a proactive approach to staying healthy. Telemedicine is a convenient service included in both plan options which allows members to call or video conference with a doctor as a lower cost alternative to an office visit. The plans include coverage for behavioral and mental health as well as dedicated clinical support for high-risk medical conditions. Pre-65 retirees: TECO Energy Group Post-retirement Health and Welfare Plan (a retiree medical plan)
Employee Assistance Program	Telus Health	The EAP is a confidential assessment, counselling, and referral program offered to all TECO Peoples Gas team members and their eligible dependents free of charge. It is designed to address a broad range of difficult issues that typically affect a person's ability to do their job if he or she does not get help. The program is available 24 hours a day, 7 days a week.
Pharmacy Plan	Express Scripts	TECO Peoples Gas team members and their eligible dependents are automatically enrolled in the pharmacy plan when they choose to enroll in one of the company- sponsored medical plan options. The pharmacy plan allows members the choice to purchase medications at retail pharmacies or use the Express Scripts home delivery (mail order) service. The plan has programs built in, such as the generics preferred program and the preferred drug step therapy program which guides members to use lower-cost medications. In addition, the plan requires prior authorizations to ensure certain medications are prescribed accordingly.

Dental Plan	Aetna, Inc.	TECO Peoples Gas team members can choose between two dental plan options with the Company paying most of the cost. The Preferred Provider (PPO) dental plan option allows members the flexibility to go in or out of network with the plan covering more for in-network care. The Exclusive Provide Plan (EPP) is an in-network benefit only. Members must use in-network dental providers, or the plan will not pay. Both plans cover preventive services to encourage wellness and a proactive approach to staying healthy.
Flexible Benefits Plan	Chard Snyder	TECO Peoples Gas team members are offered three types of Flexible Spending Accounts (FSA); Healthcare FSA, Dependent Care FSA and Transportation and Parking FSA. These FSAs allow team members to pay for IRS approved healthcare, work-related dependent care, and transportation and parking expenses with tax-free dollars.
Life Insurance Plan	Lincoln Financial	TECO Peoples Gas provides a basic life insurance policy, and a basic AD&D policy automatically paid in full by the Company for all active full-time and part-time active team members. In addition, TECO Peoples Gas team members can purchase supplemental life insurance and accidental death and dismemberment coverage at a group rate cost. Spouse and dependent child life insurance coverage is also available.
Long Term Care Insurance Program	UNUM	TECO Peoples Gas provides a basic long-term care (LTC) policy to all eligible team members at no cost. In addition, TECO Peoples Gas team members can purchase supplemental LTC directly through UNUM at group rate cost.
Vision Coverage	VSP Vision	TECO Peoples Gas team members can purchase a vision plan at a group rate cost.
Group Retirement Plan	Conduent (Pension Services)	The retirement plan is designed to provide a lifetime retirement income at no cost for eligible TECO Peoples Gas team members. TECO Energy Group Retirement Plan (a Defined Benefit pension plan)
Group Retirement Savings Plan	Empower	TECO Peoples Gas provides team members with a fixed and performance match program towards a 401K retirement plan. TECO Energy Group Retirement Savings Plan (a qualified Defined Contribution 401k plan)
Short Term Disability	Lincoln Financial	Provided at no cost to eligible team members. Planned program to protect income and benefits in the event of illness or disability. Based on certain criteria, 75-100% income replacement for a specified period of time.
Long Term Disability	Lincoln Financial	Provided at no cost to eligible team members. Planned program to protect income and benefits in the event of illness or disability for more than 6 months based on certain criteria. 60% income replacement.

Executive Summary

Your benefits are:
- Above market
- Aligned with market
- Varied from market

Benefit	Peer Position	Market Position	Commentary
Retirement	Rank = 13th Index = 102	Rank = 75th Index = 181	• TECO provides a total employer contribution of about 11% (Defined Contribution, Defined Benefit and Stock Purchase Plan combined) compared to the peer group median of about 7% • **TECO is above the median plan thus no plan changes are recommended.**
Medical	Rank = 14th Index = 100	Rank = 185th Index = 106	• TECO's alignment with the peer group median position is a result of plan provisions and cost share that are competitive compared to the median plan. • TECO's slightly above-median position among the general market is a result by plan provisions that are richer compared to the median plan, offset by a cost-share that is slight less favorable. • **TECO is aligned or slightly above the median plan thus no plan changes are recommended.**
Dental	Rank = 7th Index = 116	Rank = 72nd Index = 137	• TECO's above-median plan among both the custom peer group and the general market is a result of provisions are richer compared to the median plan combined with the cost-share being more favorable. • **TECO is above the median plan thus no plan changes are recommended.**
Paid Leave	Rank = 18th Index = 96	Rank = 309th Index = 97	• Although total number of paid leave days is competitive among the peer group median, the paid Holidays are either one or two days below both peer groups. • **Although, TECO is aligned with the median plan and no plan changes are recommended, one area TECO could become more competitive is by adding two Holidays to be more aligned with the peer group median.**
Life Insurance	Rank = 14th Index = 79	Rank = 260th Index = 100	• TECO provides coverage of 1.5 times base pay, which is below the median plan that provides a 2 times pay benefit among the custom peer group; however, the benefit is competitive with the general market. • **To be aligned with the peer group median TECO should consider increasing to a 2x pay benefit.**
Short-Term Disability	Rank = 3rd Index = 113	Rank = 63rd Index = 121	• TECO 's above-median result is due to providing a 100% pay replacement for the first 13 weeks after two years of service, and 75% pay replacement thereafter. • **TECO is above the median plan thus no plan changes are recommended.**
Long-Term Disability	Rank = 2nd Index = 141	Rank = 34th Index = 141	• TECO's above-median position is a result of providing a salary definition that includes pay plus bonus, versus the median design which only includes base pay within the salary definition. • **TECO is above the median plan thus no plan changes are recommended.**

About the Report

Peoples Gas selected the following 25 organizations as peers for the benefits comparison:

Atmos Energy Corporation
CPS Energy
ERCOT
Georgia System Operations
Georgia Transmission Corporation
Hawaiian Electric Company, Inc.
Hilcorp Energy Company
Lee County Electric Cooperative
LG&E and KU Energy, LLC.
National Grid
NorthWestern Energy
NRG Energy, Inc.
NV Energy, Inc.
NW Natural
ONE Gas, Inc.
Orlando Utilities Commission
Pinnacle West Capital Corporation
Portland General Electric Company
PPL Corporation
Sacramento Municipal Utility District
Salt River Project
Southern California Edison Co.
Southwest Gas Corporation
Spire, Inc.
West Florida Electric Cooperative

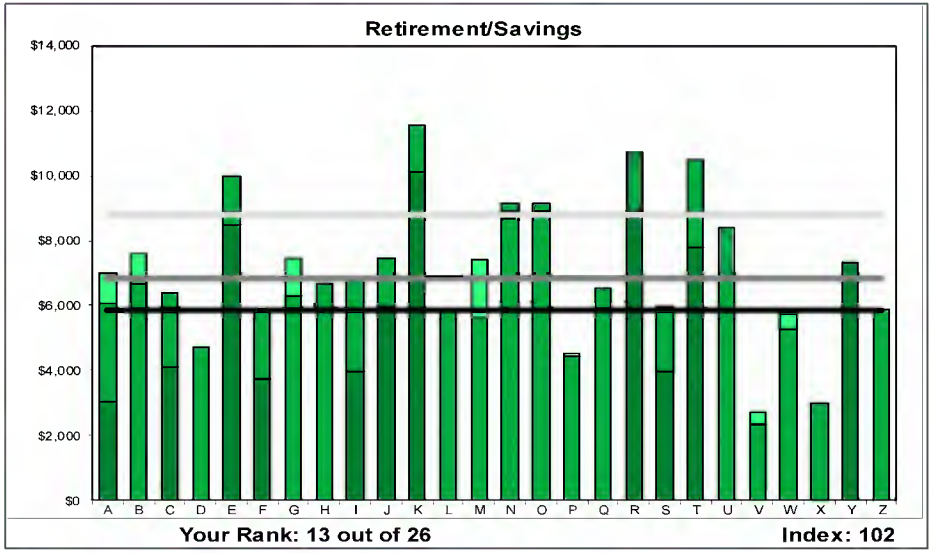
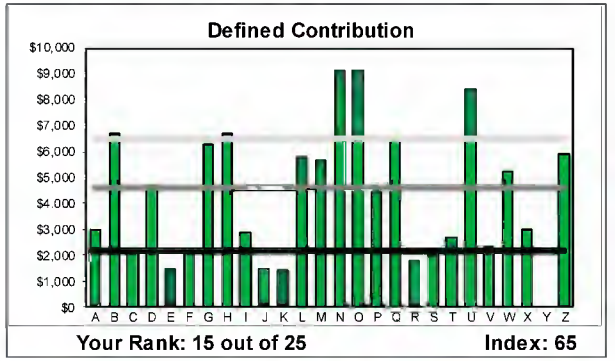
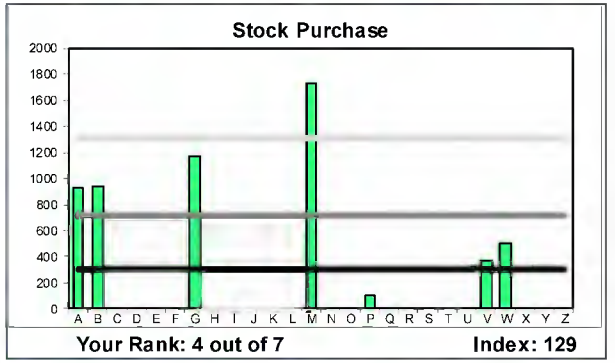
Retirement/Savings







Results and Observations

Peoples Gas' (Organization A) competitive position is driven by providing all three elements of the Retirement Savings that provide a total employer contribution of about 11% which is similar to the peer group median.

- Eleven organizations, including Peoples Gas, provide an active Defined Benefit plan.
- One organization provides their Retirement Savings value in Defined Benefit only and does not provide an employer contribution to their Defined Contribution plan.
- Seven organizations, including Peoples Gas, provide a stock purchase plan that generated a value with the median providing a discount of 15%.

Retirement/Savings – Defined Benefit

Market Position

- Peoples Gas is **below-median** as a result of providing a Pension Equity Plan compared to the Final Average or Cash Balance Plans offered by the peer group.
- Eleven organizations, including Peoples Gas, provide an active Defined Benefit plan for new hire employees.
  - Peoples Gas provides a Pension Equity Plan with percentage points ranging from 2% to 13% based on age + service points.
  - Five peers provide a Final Average Plan
  - Five peers provide a Cash Balance Plan
- Four peers have a grandfathered or frozen plan. Per the valuation methodology, grandfathered and frozen plans are not included in the analysis
- The remaining peers do not provide a Defined Benefit plan to newly hired employees.
- **Considerations**: Although Peoples Gas' Defined Benefit plan is underperforming among the peers that offer a Defined Benefit plan, the inclusion of any DB plan boosts Peoples Gas' overall Retirement Savings position to a more competitive level.

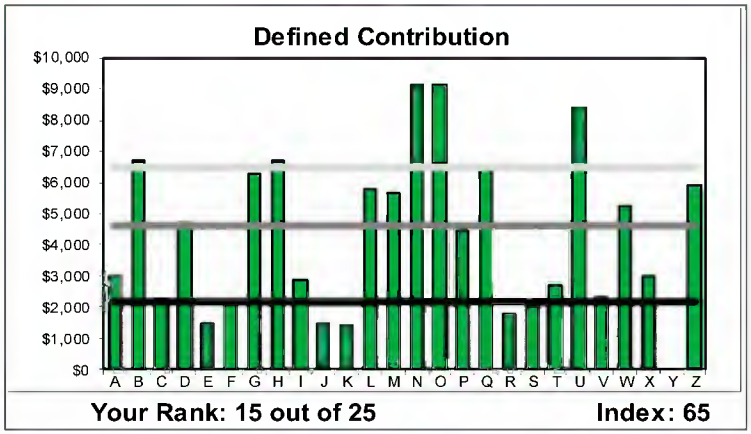
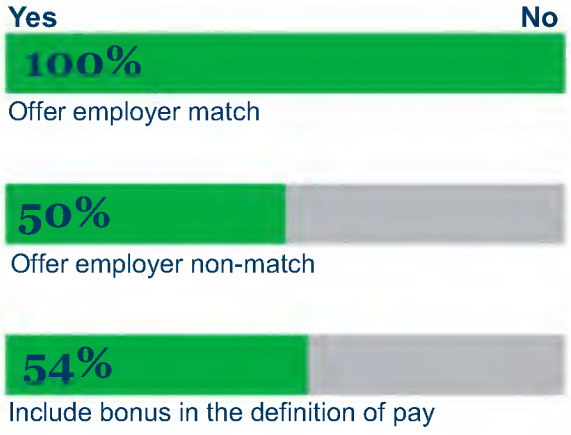
Retirement/Savings – Defined Contribution

Market Position

- Peoples Gas is **below-median** as a result of providing a total employer contribution that is not as rich as the median plan.
- Peoples Gas' total employer contribution is derived from a matching contribution of 75% of the first 6% for a total of 4.5% combined with a discretionary match that averages a total employer contribution of 0.64% using a salary definition that includes bonus compared to a median plan that provides a total employer contribution of 7.5%.
- **Considerations**: Although Peoples Gas' Defined Contribution plan is under performing among the peers that offer a Defined Contribution plan; however, Peoples Gas' overall Retirement Savings position is more competitive against the median plan compared to the Defined Contribution position alone.





Median Plan Design

401(k)	Plan type
7.5%	Matching contribution of 100% on the first 3% and 50% of the next 3%; plus a nonmatching contribution of 3%
Base + Bonus Pay	Salary definition

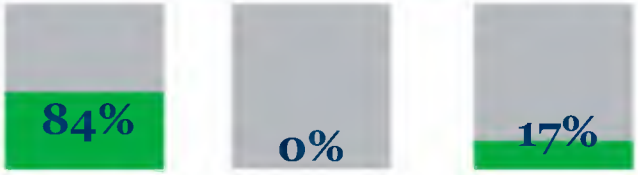
Retirement/Savings – Stock Purchase

Market Position

- The primary driver of value in a Stock Purchase plan is the level of employer funding via a match or discount on the purchase of the stock.
- Six peers provide a Stock Purchase plan to employees.
  - Peoples Gas provides a matching contribution.
  - Five of the six peers generate a value by discounting the price of the stock ranging from 5%-15%.
  - The remaining peer provides a "look back" feature allowing the employees to purchase the stock at a less expensive price.
- The remaining organizations did not report a Stock Purchase plan.
- **Considerations**: The added feature of the Stock Purchase Plan increases the overall comparison for Peoples Gas among all elements of Retirement Savings.



Offer a Discount | Offer a match | Include bonus in the definition of pay

Median Plan Design

Market Value — Lower of price at beginning and end of offering period

Base Pay — Salary definition

15% — Discount on stock

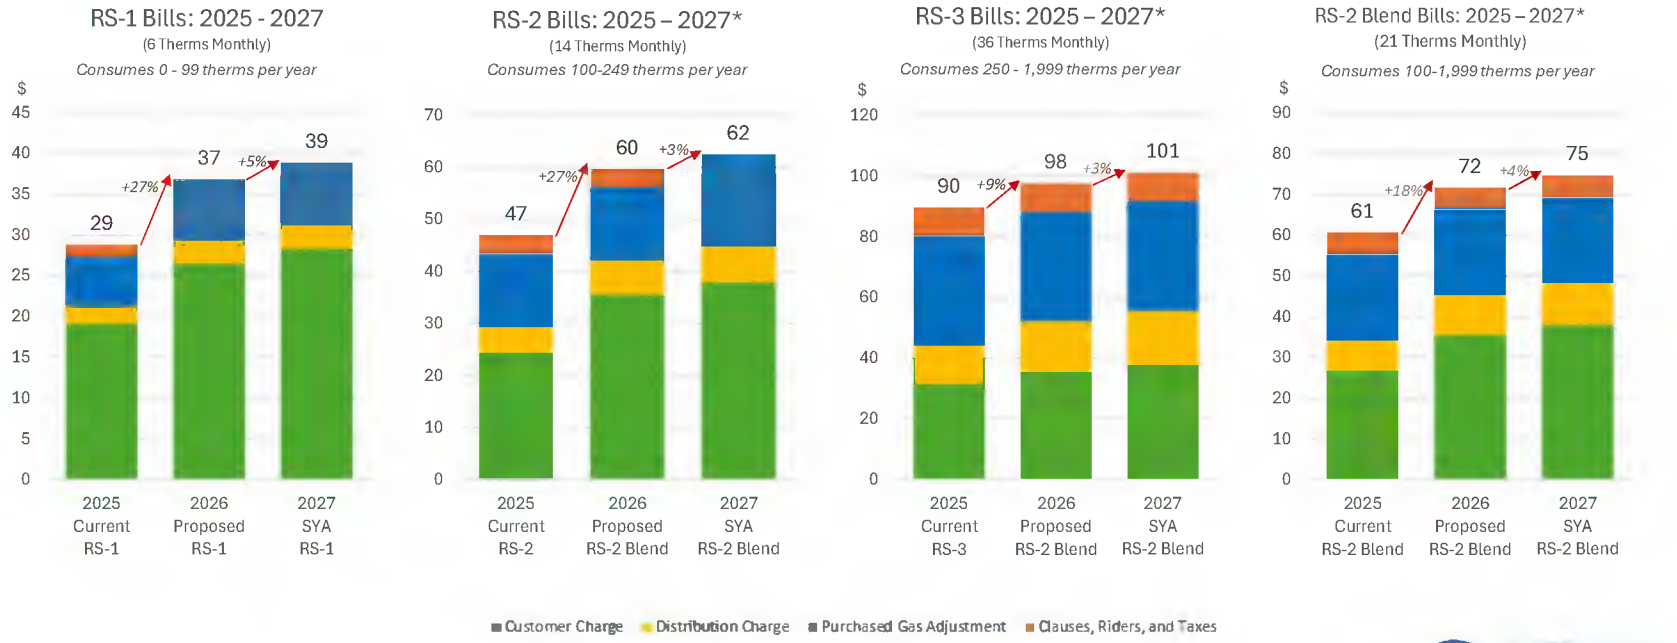
Residential Customer Proposed Total Bill Comparisons 2025 - 2027

This residential monthly bill comparison evaluates existing billing classes against proposed rates for 2026 and 2027. Customers in the RS-1 category can expect an $8 monthly increase, while those in the RS-2 Blend category may see an increase ranging from $8 to $13 in 2026. Both RS-1 and RS-2 Blend customers will experience modest monthly increases of approximately $2 to $3 in 2027.



1 *For illustrative purposes, the RS-2 and RS-3 classes have been combined into RS-2 Blend to calculate a weighted average usage rate and demonstrate the overall impact of the proposed rate design on customer bills.*

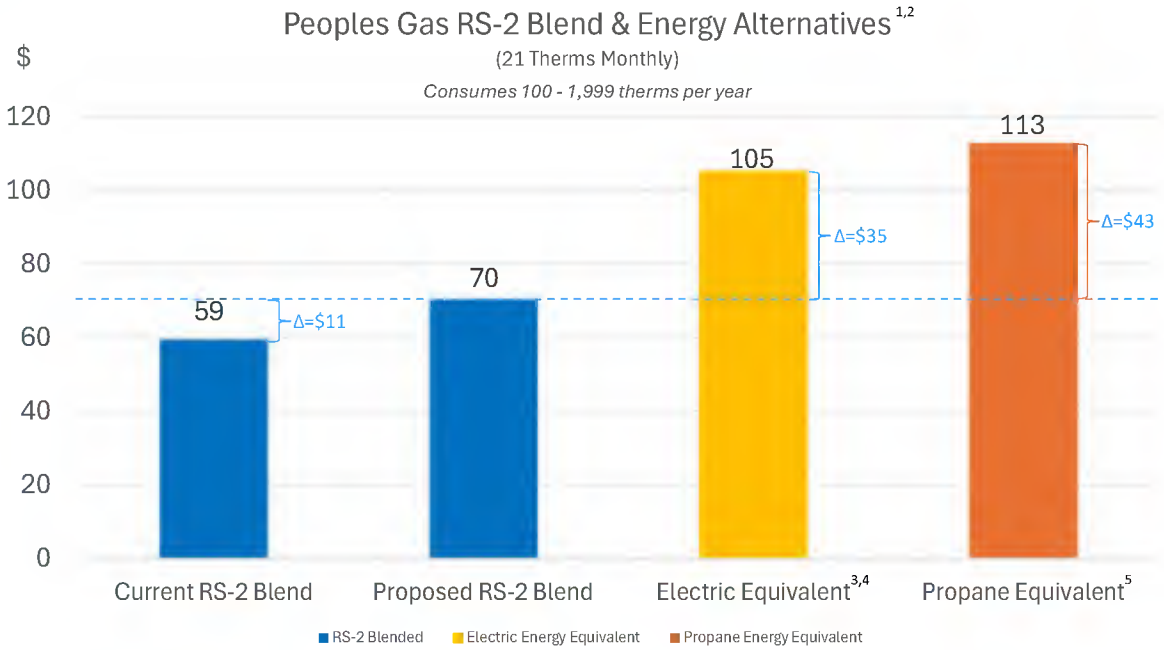
Value of Natural Gas for Residential Customers

Considering the proposed increase in 2026, natural gas remains competitively priced when compared to other fuel or energy sources. The increase from the current RS-2 Blend to the proposed is about **18.6%.** Natural gas remains economical when compared to electricity and propane equivalents and the information on this slide reinforces natural gas as an affordable and efficient energy source for everyday household needs (e.g., water heaters, ranges, dryers).



When comparing the proposed RS-2 Blend bill against energy equivalent electric bills we see that gas can help customers save up to $35 a month. A relative reduction of up to 33%.

Alternatively, relative to the proposed natural gas rate, the **propane cost is roughly 61.4% higher than the natural gas rate** ($43 / $70 × 100%).

[1] Taxes are not included on ANY of the bills shown
[2] For illustrative purposes, the RS-2 and RS-3 classes have been combined into RS-2 Blend to calculate a weighted average usage rate and demonstrate the proposed rate design.
[3] Assumes the kWh energy equivalent to 21 THMs as avoidable demand on an electric bill exceeding 1,000 kWhs.
[4] All Electric rates are a weighted average of Florida electric utilities 2025 effective rates per EIA customer counts
[5] Fuel rates used for propane are January 2025 effective Florida specific commodity spot prices per EIA.

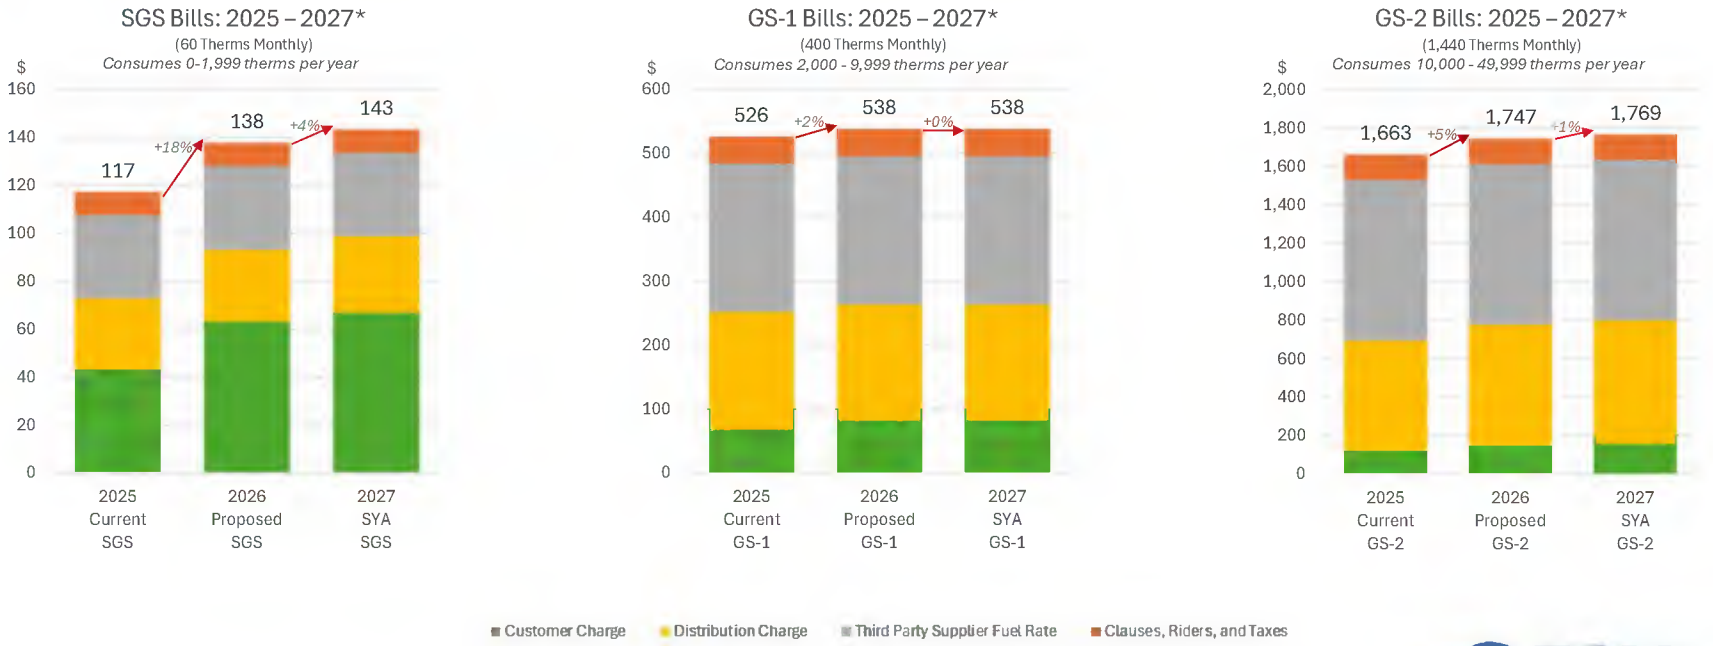
Commercial Customer Proposed Total Bill Comparison 2025 - 2027

This small commercial monthly bill comparison evaluates the current rates against the proposed rates for 2026 and 2027. The 2026 proposed increases are approximately 18% for Small General Service (SGS), 2% for General Service-1 (GS-1), and 5% for General Service-2 (GS-2). This modest increase reflects changes to the Cost of Service Study (COSS), which keeps these rates lower than under the current COSS methodology. In 2027, the small commercial classes are projected to see a modest monthly bill increase of about 1% to 4%.



3 *Depending on your usage, you either purchase your gas through a third-party supplier or use the Purchased Gas Adjustment, which is passed through from gas and major pipeline suppliers and can fluctuate monthly based on the price of natural gas. For purposes of this comparison, the assumed third-party supplier rate is $0.58/therm*

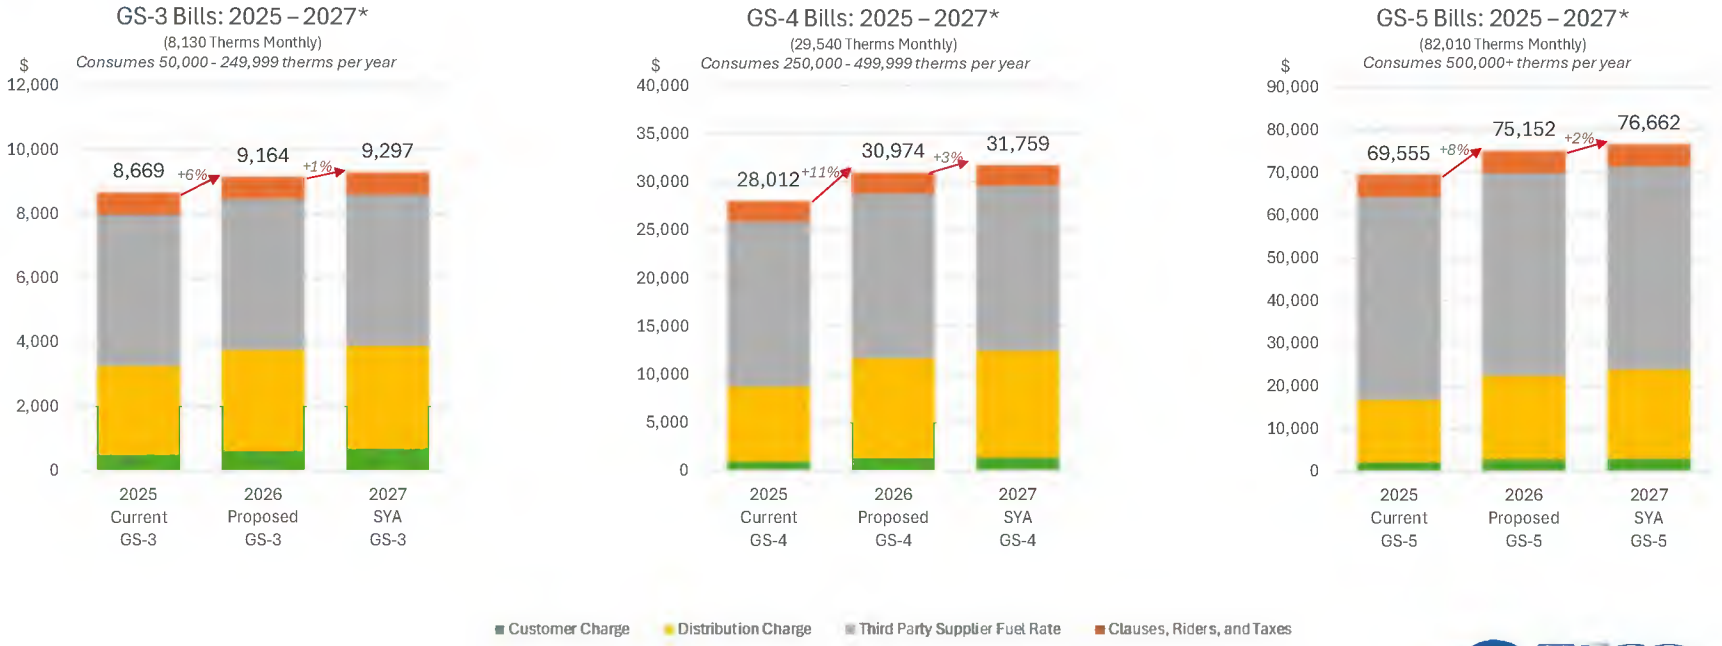
Commercial Customer Proposed Bill Comparisons 2025 - 2027

This comparison of large commercial monthly bills evaluates the current rates against the proposed rates for 2026 and 2027. These bill increases are also influenced by changes in the cost of service methodology, which has a moderating effect on these billing classes. The proposed increases for 2026 are approximately 6% for General Service-3 (GS-3), 11% for General Service-4 (GS-4), and 8% for General Service-5 (GS-5). In 2027, the large commercial classes are projected to experience a modest monthly bill increase of about 1% to 2%.



4 *Depending on your usage, you either purchase your gas through a third-party supplier or use the Purchased Gas Adjustment, which is passed through from gas and major pipeline suppliers and can fluctuate monthly based on the price of natural gas. For purposes of this comparison, the assumed third-party supplier rate is $0.58/therm*

Introduction

As part of Peoples Gas System, Inc.'s ("Peoples" or the "company") petition for a base rate increase, Peoples requests approval of calendar year 2026 as its test year, with new base rates and charges to be effective with the first billing cycle of 2026, based on the 2026 test year. The company also requests a subsequent year adjustment ("SYA") for 2027 to be effective with the first billing cycle of January 2027.

The company requests that the Commission approve the SYA revenue amounts for 2027, and order the company to file proposed rates for January 2027 by September 2026 based on the company's then-current billing determinants. This will allow the Commission to consider and approve rates for 2027 that reflect the company's most recent billing determinants. However, for completeness, the company has developed and presents in this volume (a) illustrative rates developed as described below for its 2027 SYA and (b) typical bills reflecting the 2027 SYA illustrative rates.

A. 2027 Proposed Rates (SYA Schedules E-1, E-2, and E-5)

Peoples prepared the illustrative rates shown in the E schedules in this volume by applying its 2027 proposed SYA amounts pro rata to customer and distribution charges for its billing classes. The company allocated revenue to its billing classes by:

(1) calculating the sum of its proposed 2026 operating revenue requirement;
(2) calculating the percentage that rate class represents of the 2026 total in (1);
(3) multiplying its 2027 proposed SYA revenue increase amounts by the percentages calculated in (2) to yield total proposed SYA revenues by rate classes for 2027; and
(4) applying the company's forecasted 2026 billing determinants for each rate class to the class revenues in (3) to develop the 2027 proposed SYA illustrative rates for each rate class. These are the billing determinants reflected in 2027 proposed SYA Schedule E-2.

The rate design for the 2027 proposed SYA illustrative rates is based on the Customer and Demand cost classification approach used by the company for its proposed 2026 rates.

Table 1 below includes a summary of the revenue allocations described above.

Table 1. Summary of Revenue Allocations

Rate Class	2026 Operating Revenue	2027 SYA Revenue Allocation	2027 Revenue Requirement
RS-1	54,559,371	3,471,978	58,031,349

B. 2027 Typical Monthly Bills (Proposed SYA Schedules E5)

The company calculated typical monthly bill comparisons for the 2027 Proposed SYA using the rates developed in Section A above and the company's 2025 approved clause factors. These bill comparisons are shown in 2027 Proposed SYA Schedule E-5 in this volume.

* Ties to 2027 Proposed SYA Illustrative SCH-E1.

RULES AND REGULATIONS

I

INITIATION OF SERVICE

A. REQUEST FOR GAS SERVICE

Gas Service may be requested by a prospective Customer by:

1. Verbal, telephonic or electronic request to a business office of the Company (in the case of residential Gas Service), or

2. By submission to Company of a completed Gas Service Agreement (in the case of Gas Service other than residential Gas Service).

B. ACCEPTANCE OF REQUEST FOR GAS SERVICE

A Gas Service Agreement shall be deemed to be accepted by the Company when Gas Service pursuant thereto is initiated.

C. OBLIGATION OF CUSTOMER AND COMPANY

The terms and conditions of the Customer's Gas Service Agreement, these Rules and Regulations, and the applicable rate schedules shall become binding upon the Customer and Company upon acceptance by the Company of the Customer's Gas Service Agreement.

D. MISCELLANEOUS SERVICE CHARGES

Whenever Gas Service is established or re-established at any location, the charges set forth below will be made:

	RESIDENTIAL	OTHER
ACCOUNT OPENING CHARGE (applies only where a change of Customer occurs and Gas Service is not shut off at the premises)	**$3~~3~~1.00**	**$3~~3~~1.00**
METER TURN ON / SERVICE INITIATION CHARGE (applies where service is inactive)	**$~~78~~94.00 for initial unit or meter $~~34~~36.00 for each additional unit or meter**	**$~~107~~121.00 for initial unit or meter $~~46~~54.00 for each additional unit or meter**

RULES AND REGULATIONS (Continued)

E. **WITHHOLDING OF GAS SERVICE**

Company will refuse to establish Gas Service to any location where it finds that establishment of Gas Service will create an unsafe or hazardous condition on the Customer's premises or affecting the general public.

Company may discontinue Gas Service to an existing Customer or refuse to serve a prospective Customer where such Customer's use of Gas is or will be detrimental or hazardous to the Gas Service supplied to other Customers.

Company may discontinue service to an existing Customer or refuse to establish Gas Service for actions or threats made by a Customer, or anyone on the Customer's premises, which are reasonably perceived by a Company employee as violent or unsafe, after affording the Customer reasonable opportunity to cease from any further act of violence or unsafe condition.

Company will not establish Gas Service to any Customer where that Customer is in arrears for Gas Service at that location or another location in the Company's service area.

If a prospective Customer requests connection for Gas Service but denies the Company's employees and representatives access to the Customer's Installation for the purpose of inspecting the appliances prior to establishing Gas Service, the Company may refuse to provide Gas Service to the prospective Customer.

Fraudulent Use of Gas:
Company will discontinue Gas Service without notice:

a. In the event of tampering with regulators, valves, Meters or other facilities furnished and owned by Company, or

b. In the event of other fraudulent use of Gas Service.

Whenever Gas Service is discontinued for unauthorized or fraudulent use thereof, the Company, before restoring Gas Service, may require Customer to make, at Customer's expense, all changes in piping or equipment necessary to eliminate the fraudulent use and to pay an amount reasonably estimated as the deficiency (if any) in Company's revenue and all costs incurred by Company resulting from such unauthorized or fraudulent use.

In the event, Gas Service has been discontinued to particular premises and a prior, existing, new or prospective Customer wishes to restore such service, said Customer shall be responsible for any expenses required for the Company to restore service.

As used herein, "costs incurred by Company" shall include the Company's cost to cut and cap the Customer's service line at the Main, together with the cost incurred by the Company to restore service to the Customer, in the event the Company, in order to discontinue service to the Customer pursuant to this section, has been required (after final notice to the Customer requesting payment, and the Customer's denial of access by Company to its meter for the purpose of discontinuing service) to cut and cap the Customer's service line at the Main. If a Customer whose service line has been cut and capped as aforesaid thereafter requests restoration of Gas Service, Company may require such Customer to pay (in addition to any other charges payable pursuant to these Rules and Regulations) all costs incurred by Company to effect the previous discontinuance of Gas Service to such Customer, as well as all costs incurred by Company to restore Gas Service to such Customer.

CUSTOMER'S INSTALLATION

A. GENERAL

Customer's Installation shall be constructed, installed and maintained in accordance with standard practice as determined by local codes and ordinances applicable thereto, these Rules and Regulations and other applicable governmental requirements; provided, however, that Company shall have no responsibility whatsoever for determining whether any local code or ordinance or any other governmental requirement is applicable to Customer's Installation, or for enforcing or determining whether Customer's Installation is in compliance with any local code or ordinance or any other governmental requirement. A Customer installing a Gas fired electric generator shall also ensure that the installation and operation of such equipment complies with the Tariff and the requirements of the Customer's electric provider. Customer shall be responsible for the installation and maintenance of carbon monoxide or methane gas detectors within the Customer's premises.

The Customer's piping, appliances, equipment and apparatus shall be installed and maintained in accordance with standard practice, and in full compliance with all applicable laws, codes and governmental and Company regulations. The Customer expressly agrees to utilize no apparatus or device which is not properly constructed, controlled, and protected, or which may adversely affect service to others, and the Company reserves the right to discontinue or withhold service for such apparatus or device.

Customer shall give immediate notice to the Company when any leakage of Gas is detected, discovered, or suspected. Whenever a leakage of Gas is suspected, detected, or discovered, Customer agrees not to use any potential source of ignition, such as flame, electrical source, or other igniting medium in the proximity of escaping Gas, which could ignite such Gas.

B. INSPECTION OF CUSTOMER'S INSTALLATION

Where governmental inspection of a Customer's Installation is required, Company will not supply Gas Service to such installation until the necessary inspections have been made and Company has been authorized to provide Gas Service.

Company may also inspect Customer's Installation prior to rendering Gas Service, and from time to time thereafter, but assumes no responsibility whatsoever as a result of having made such inspection. Company will not render (and may discontinue) Gas Service to any Customer Installation which Company finds to be hazardous. Customer has sole responsibility to insure that the hazardous condition has been corrected prior to initiation of Gas Service.

DEPOSITS (Continued)

2. a. tampered with the Gas Meter; or

b. used service in a fraudulent or unauthorized manner.

G. REFUND OF DEPOSIT WHEN GAS SERVICE IS DISCONNECTED

Upon termination of Gas Service, a cash deposit and accrued interest may be credited against the final account and the balance, if any, shall be returned promptly (in no event later than fifteen (15) days after Gas Service is discontinued) to the Customer or agency.

H. RETURNED CHECKS

If the Customer's check for Gas Service is returned to the Company and not paid by the drawer's bank, the Company will follow the procedures set forth in Section 832.07, Florida Statutes. Termination of Gas Service shall not be made for failure to pay such returned check charge.

IV

BILLING

A. BILLING PERIODS

Bills for Gas Service will be rendered each month. Bills shall be considered received by Customer when mailed to the most recent billing address supplied by Customer to Company or by other delivery method used by the Company to reach the Customer.

It is the Customer's (both sales service and transportation service Customers) obligation to make payments to the Company (or to an Authorized Payment Agent of the Company) of all bills rendered. Payment by a Customer to a third party (including a Third Party Gas Supplier) which has not been designated by Company as an Authorized Payment Agent will not satisfy the Customer's obligation to make payment of Company's bill for Gas Service.

B. INITIAL OR FINAL BILLS

When the period of Gas Service for which an initial or final bill is rendered is less than fifty (50) percent of the normal billing period, the Customer charge or minimum bill shall be one-half (1/2) of the charge per applicable rate schedule. When the period of Gas Service is fifty (50) percent or more of the normal Billing Period, there shall be no reduction in the Customer charge or minimum bill. The distribution charge for Gas consumed shall be at the applicable billing rate.

C. NON-RECEIPT OF BILLS

Failure of Customer to receive a bill shall not relieve Customer of its obligation to pay the bill.

D. METER READINGS NOT COMBINED

If a Customer takes Gas Service under more than one rate schedule at a single delivery point, the bill shall be calculated separately for the Gas Service provided under each such rate schedule.

If a Customer takes Gas Service under one or more rate schedules at two or more Points of Delivery, a bill shall be calculated separately for Gas Service provided under each rate schedule at each Point of Delivery.

If Company must, for reasons of its convenience, establish more than one Point of Delivery at a single premise, the readings of the Meters for like classes of service will be combined.

E. DELINQUENT BILLS

A bill shall be considered delinquent if payment thereof has not been received by Company (or an Authorized Payment Agent of the Company) upon the expiration of twenty (20) days from the date of Company's mailing or other delivery of such bill. Charges for services due and rendered which are unpaid as of the past due date may be subject to a Late Payment Charge of 1.5 percent, except the accounts of federal, state, and local governmental entities, agencies, and instrumentalities. A Late Payment Charge may be applied to the accounts of federal, state, and local governmental entities, agencies, and instrumentalities at a rate no greater than allowed, and in a matter permitted by applicable law.

BILLING (Continued)

Essential Service Customer of the scheduled disconnect date. The Company may thereafter discontinue Gas Service to the Medically Essential Service Customer on the scheduled disconnect date if payment is not made on or before such date.

During the period that Gas Service is continued under the provisions of this section, the Customer shall continue to be responsible for the cost of the residential Gas Service.

H. ADJUSTMENT OF BILLS FOR METER ERROR

Whenever a Meter is found to have an average error as defined in Commission Rule 25-7.062, FAC, of more than two percent (2%) fast, Company will refund to Customer the amount billed in error for one-half the period since the last Meter test. This one-half period will not exceed twelve (12) months unless it can be shown that the error was due to some cause, the date of which can be fixed, in which case the overcharge will be computed back to, but not beyond, such date, based upon available records. If the Meter has not been tested in accordance with Commission Rule 25-7.064, FAC, the period for which it has been in service beyond the regular test period will be added to the twelve (12) months in computing the refund. The refund will not include any part of any minimum or Customer charge.

Except as provided by this subsection, Company may back bill Customer in the event that ~~if~~ a Meter is found to be slow, non-registering or partially registering. Company may not ~~backbill~~back bill for any period greater than twelve (12) months from the date it removes the Meter of a Customer, which Meter is later found by Company to be slow, non-registering or partially registering. If it can be ascertained that the Meter was slow, non-registering or partially registering for less than twelve (12) months prior to removal, then Company may ~~backbill~~back bill only for the lesser period of time. In any event, Customer may extend the payments of the back bill over the same amount of time for which Company issued the back bill.

1. Whenever a Meter tested is found to have an average error of more than two percent (2%) slow, Company may bill Customer an amount equal to the unbilled error in accordance with this subsection. If Company has required a Meter test deposit as permitted under Commission Rule 25-7.065(2), FAC, Customer may be billed only for the portion of the unbilled error which is in excess of the deposit retained by Company.

2. In the event of a non-registering or a partially registering Meter, unless the provisions of subsection (3) of this rule apply, Customer may be billed on an estimate based on previous bills for similar usage.

3. It shall be understood that w~~W~~hen a Meter is found to be in error in excess of the prescribed limits of two percent (2%) fast or slow, the figure to be used for calculating the amount of refund or charge shall be that percentage of error as determined by the test.

4. In the event of unauthorized use, Customer may be billed on a reasonable estimate of the Gas consumed.

BILLING (Continued)

I. BUDGET BILLING PLAN (optional)

Residential Customers (RS) and non-Residential ~~Small Commercial~~ Customers ~~(SGS)~~ served under Rate Schedules SGS, CS-GHP, GS-1, GS-2, and GS-3 may elect to make budgeted monthly payments of amounts due the Company to help stabilize their monthly payments. To qualify for the Budget Billing Plan, a customer must be in good financial standing. In determining whether a Customer is in good financial standing, the Company will ~~have~~ consider such factors as whether the Customer has ~~no~~an overdue balance, whether the Customer has a ~~or~~ pending service disconnection for non-payment, whether the Customer has a history of late payment or returned payments for insufficient funds, or other similar factors. ~~when beginning the plan.~~ The Company shall have 30 days following a Customer's request to participate in the Budget Billing Plan to deny or implement ~~such~~ participation in the program. The Company retains the option to remove customers from the program if customers do not remain in good financial standing.

If a Customer requests to participate in the program~~make budgeted payments~~, the initial budgeted payment amount will be ~~is~~ based on an average of the previous twelve (12) months consumption~~bills due the Company, including all applicable fees and taxes~~. ~~If~~ the Customer has not received Gas Service from the Company at the requesting location for the preceding twelve (12) months, the Company may deny enrollment~~will use the best information available to calculate the initial monthly payment amount~~. After the Customer's budgeted monthly payment amount has been initially established, the Company may recalculate the payment from time to time~~,~~ and the Company may begin charging the recalculated amount on the Customer's next successive bill. ~~If the recalculated budgeted payment amount varies by fifteen (15) percent or more from the budgeted payment amount then in effect, the Company may begin charging the recalculated amount on Customer's next successive bill.~~The Company will perform periodic reviews.

Any current and total deferred balance will be shown on the ~~Customer's bill.~~ When a ~~The~~ Customer's budgeted payment amount is ~~will be~~ recalculated, ~~on each anniversary of the Customer's initial participation in the plan. On such recalculation,~~ any deferred credit ~~deferred~~ balance will be credited ~~refunded~~ to the Customer's account only during an annual true-up period;~~, and one-twelfth (1/12) of~~ any deferred debit ~~deferred~~ balance will be embedded into the Customer's ~~added to the following year's recalculated~~ budgeted monthly payment amount.

An electing Customer's participation in the Budget Billing Plan will be continuous unless the customer requests that participation in the plan be terminated, Gas Service is terminated, or the Company elects to terminate the customer from participating in the program. ~~Customer has had more than one arrears per year initiating field collection procedures.~~ At that time of termination, ~~the Customer's participation in the plan will be terminated and~~ the Customer shall settle their~~his~~ account with the Company in full;~~. If a Customer requests to terminate participation in the plan,~~ customers who but remain~~s~~ a Customer of the Company~~, the Customer~~ shall pay any deferred debit balance with their ~~his~~ next regular monthly bill, and any deferred credit balance shall be used to reduce the amount due for the next regular monthly bill. An electing customer may request that participation be terminated at any time. Any Customer ~~who is disqualified~~ terminated from the program by the Company ~~because of collection action~~ or any Customer who voluntarily terminates participation in the program may not rejoin the program for at least twelve (12) months.

BILLING (Continued)

J. SUMMARY BILLING PLAN (optional)

A Customer with ten (10) or more Company accounts and no bill in arrears may request a single statement for the billing and payment of those accounts under this Summary Billing Plan. With Summary Billing, the Customer designates which accounts are to be included in the plan. Those accounts may be separated into groups each of which will be billed once a month on cycle billing days as designated by the Company.

The Company will read each meter and calculate a billing amount for each account separately. The billing amount for each of the designated accounts will be totaled on a Summary Billing statement, with each of the individual account bills attached as backup, and a single totaled bill will be included for remittance. Summary bills are due when rendered. If the summary bill is not paid in full within ten (10) days after ~~from the~~ mailing or other delivery method used by the Company to reach the Customer~~date~~, the Customer may be removed from the Summary Billing Plan.

V

MEASUREMENT

A. METERS

Company will own, operate and maintain the Meters and regulating equipment needed to accurately measure Gas Service provided to Customer.

Customer will provide a convenient, accessible, and safe location, satisfactory to Company, for installation of necessary Meters, regulators, and ancillary equipment.

Customer will safeguard Company's facilities on Customer's property and will not permit unauthorized persons to tamper with such facilities or otherwise operate or alter them in any manner.

If changes in conditions on Customer's premises adversely affect the convenience, accessibility, or safety of the Meter location, the Customer shall be responsible for the cost of relocating the Meter, its appurtenances, and related piping.

All Gas delivered to Customers shall be measured by commercially acceptable measuring devices owned and maintained by the Company, except where it is impractical to Meter loads, such as street lighting, and temporary or special installations, in which case the consumption may be calculated~~,~~ or billed on a rate or as provided in the Company's filed Tariff.

B. TYPE OF METERING PROVIDED

1. Except as provided in paragraph (2) below, each separate occupancy unit (as defined in Commission Rule 25-7.071, FAC) for which construction commenced after January 1, 1987, shall be individually metered.

2. Individual Meters shall not be required, and master metering is permitted, for separate occupancy units where dimensions or physical configurations of the units are subject to alteration; where Gas is used in central heating, water heating, ventilating and air conditioning systems, or Gas back up service to storage heating and cooling systems; in specialized-use housing accommodations such as hospitals and other health care facilities specified in Commission Rule 25-7.071, FAC, college dormitories, convents, sorority or fraternity houses, motels, hotels and similar facilities; in specially designated areas for overnight occupancy at trailer, mobile home and recreational vehicle parks where permanent residency is not established; in marinas where living aboard is prohibited by permanent means; or where individual Gas Service would otherwise be required above the second story, in accordance with Commission Rule 25-7.071, FAC.

3. When individual metering is not required and master metering is used, submeters may be purchased and installed at Customer's request and expense, for use in allocating solely the cost of Gas billed by Company for Gas Service at the master Meter.

C. METER ACCURACY AT INSTALLATION

All Meters, when installed, shall be not more than 1 percent fast or 1 percent slow and will have been tested not more than twelve (12) months prior to being installed.

MEASUREMENT (Continued)

D. METER TESTS

Company will periodically test Meters to ensure they properly and accurately measure the Gas Service provided to Customer.

E. METER TEST BY REQUEST

1. Upon written request of a Customer, the Company shall, without charge, make a test of the accuracy of the Meter in use at the Customer's premises; provided, first, that the Meter has not been tested by Company or by the Commission within twelve (12) months previous to such request and, second, that Customer agrees to accept the results of such test as the basis for the adjustment of disputed charges.

2. Should the Customer request a Meter test more frequently than once a year, the Company may require a deposit to defray the cost of testing in accordance with Commission Rule 25-7.065(2), FAC, and such deposit not to exceed the following for each test: (a) Meters with a capacity rating of 250 cfh or less - $34.00 dollars; (b) Meters with a capacity rating of over 250 cfh through 2500 cfh - $85.00 dollars; (c) Meters with a capacity rating over 2500 cfh - $129.00 dollars. If the Meter is found to be more than two percent fast, the deposit shall be refunded, but if below this accuracy limit, the deposit may be retained by Company as a service charge for conducting the test.

3. If Customer so desires, he or his authorized representative may witness the test. A written report, giving the results of the test, shall be furnished to Customer upon request.

4. At the request of the Customer, the Company shall make arrangements for a meter test to be conducted by an independent meter testing facility of the Customer's choosing. Where appropriate, the meter may be field tested. The Customer shall be responsible for all the costs to the Company associated with a meter test by an independent meter testing facility. The Company shall provide a detailed estimate of such costs and may require payment of such costs prior to the actual meter test. If the meter is found to be running fast in excess of the limits established by these rules, such costs shall be refunded, but if within the allowable limits, the Company may retain the costs.

F. METER TEST - REFEREE

1. Upon written application to the Commission by a Customer, a test of the Customer's Meter will be made or supervised as soon as practicable by a representative of the Commission.

2. A Meter shall not be disturbed after Company has received notice that application has been made for such referee test unless a representative of the Commission is present or unless authority to do so is first given in writing by the Commission or by Customer.

3. A written report of the results of the test will be made by the Commission to Customer.

VII

LIMITS OF COMPANY'S RESPONSIBILITIES

The Company shall not be liable for any property damage, fatality, or personal injury sustained on the Customer's premises resulting from the Customer's Installation or ~~the gas pipe,~~ fittings, appliances and apparatus of any other type ~~of others~~ on Customer's premises, including, but not limited to, defects or failure of Customer to maintain Customer's premises which allow Gas leakage. The Company will not be responsible for the use, care or handling of Gas once the Gas passes the Point of Delivery. The Company shall not be liable to the Customer for naturally occurring or other impurities, regardless of the source, such as water, sand, black powder, sulfur, butane, or other chemicals or compounds in the Gas delivered to Customer. The Company shall not be liable for any loss or damage caused by variation in Gas pressure, defects in pipes, connections and appliances, escape or leakage of Gas, sticking of valves or regulators, or for any other loss or damage not caused by the Company's negligence arising out of or incident to the furnishing of Gas to any Customer.

Whenever Company deems an emergency or system operating condition warrants interruption, curtailment or other limitation of the Gas Service being rendered, such interruption, curtailment or other limitation shall not constitute a breach of contract and shall not render Company liable for damages suffered as a result of such interruption, curtailment or other limitation of Gas Service, or excuse Customer from continuing to fulfill its obligations to Company.

VIII

CONTINUITY OF SERVICE

The Company will use reasonable diligence at all times to provide regular, uninterrupted Gas Service, and shall not be liable to the Customer for any fatality, injury to person, or loss of or damage to property arising from causes beyond its control or from the ordinary negligence of the Company, its employees, servants or agents, including, but not limited to, damages for Gas leakage, complete or partial failure or interruption of service, for initiation of or re-connection of service, for shutdown for repairs or adjustments, for fluctuations in Gas flow, for delay in providing or restoring Gas Service, for termination of Gas Service, or for failure, as the result of an emergency or a Force Majeure event, to warn of interruption of Gas Service.

IX

LIMITATION ON CONSEQUENTIAL DAMAGES

To the fullest extent permitted by law, neither the Company, nor their respective officers, directors, agents, employees, members, parents, subsidiaries or affiliates, successors or assigns, or their respective officers, directors, agents, employees, members, parents, subsidiaries or affiliates, successors or assigns, shall be liable to the Customer or any other party or their respective officers, directors, agents, employees, members, parents, subsidiaries or affiliates, successors or assigns, for (i) claims, suits, actions or causes of action for incidental, indirect, special, punitive, unforeseen, multiple or consequential damages connected with or resulting from Company's performance or non-performance (such as loss of use of any property or equipment, loss of profits or income, loss of production, rental expenses for replacement property or equipment, costs to repair or demolish property, governmental fines, penalties or charges, diminution in value of real property, or expenses to restore operations, or loss of goods or products), or (ii) any actions undertaken in connection with or related to service under this Tariff, including without limitation, actions which are based upon causes of action for breach of contract, tort (including negligence and

INDEMNITY TO COMPANY

A. General. The Customer shall indemnify, hold harmless, and defend the Company from and against any and all liability, proceedings, suits, cost or expense for loss or damage or injury to person or property or for fatality, in any manner directly or indirectly connected with or arising out of the transmission, distribution or use of Gas by the Customer at or on the Customer's side of the Point of Delivery, including the contributory or concurrent negligence of the Company or in any manner directly or indirectly connected with or arising out of the Customer's acts or omissions.

B. Governmental. Notwithstanding anything to the contrary in the Company's Tariff, including these Rules and Regulations, the Rate Schedules, and Standard Forms, any obligation of indemnification therein required of a Customer that is a governmental entity of the State of Florida or political subdivision thereof ("governmental entity"), shall be read to include the condition "to the extent permitted by applicable law."

XI

APPEALS TO THE COMMISSION

Whenever the application of these rules and regulations appear to be unjust or impractical either the Company or the Customer may request permission from the Commission for an exception.

RESIDENTIAL SERVICE
Rate Schedule RS

Availability:

Throughout the service areas of the Company.

Applicability:

Gas Service for residential purposes in individually metered residences and separately metered apartments. Also, for Gas used in commonly owned facilities of condominium associations, cooperative apartments, and homeowners associations, (excluding any premise at which the only Gas-consuming appliance or equipment is a standby electric generator), subject to the following criteria:

1. 100% of the Gas is used exclusively for the co-owner's benefit.

2. None of the Gas is used in any endeavor which sells or rents a commodity or provides service for a fee.

3. Each Point of Delivery will be separately metered and billed.

4. A responsible legal entity is established as the Customer to whom the Company can render its bills for said services.

5. RS-GHP refers to any Residential Customer utilizing a gas heat pump ("GHP") for heating and cooling.

Customers receiving service under this schedule will be classified for billing purposes according to annual usage as follows:

Billing Class	Annual Consumption
RS-1	0 – 99 Therms
RS-2	100 – ~~249~~1,999 Therms
~~RS-3~~	~~250 – 1,999 Therms~~
RS-GHP	All Therms

Monthly Rate:

Billing Class	Customer Charge
RS-1	$~~19.10~~26.50 per month
RS-2	$35.50~~24.41~~ per month
~~RS-3~~	~~$31.54 per month~~
RS-GHP	$~~31.54~~56.00 per month

Distribution Charge: $0.~~35165~~46319 per Therm for RS-1~~,~~ and RS-2~~, and RS-3~~
$0.12617~~395~~ per Therm for RS-GHP

Minimum Bill: The Customer charge.

RESIDENTIAL SERVICE (Continued)

Note 1 – Company's Budget Billing Plan ~~plan~~ is available to eligible Customers receiving Gas Service pursuant to this rate schedule (See Sheet No. 5.401-3).

The bill for the Therms billed under this schedule shall be increased in accordance with the provisions of the Company's Purchased Gas Adjustment Clause set forth on Sheet No. 7.101-1.

Special Conditions:

1. The rates set forth under this schedule shall be subject to the operation of the Energy Conservation Cost Recovery Adjustment Clause set forth on Sheet No. 7.101-2.

2. Service under this schedule shall be subject to the Rules and Regulations set forth in this Tariff.

3. Service under this schedule for the RS-1 Billing Class is subject to an annual volume review by the Company ~~and one additional review each year at the Customer's request~~. If reclassification to another billing class is appropriate such classification will be prospective.

   a) Each year, the Company will review active residential Gas Service consumption for Billing Class RS-1 to determine whether the prior 12 months of consumption was within ~~the consumption band for~~ that class's consumption band~~the Billing Class~~.

   b) If consumption is 10 percent or more over ~~or below~~ the consumption parameters for the RS-1 ~~assigned~~ Billing Class ("10 percent band"), the Company will re-assign the Customer to the RS-2 Billing Class~~applicable level of consumption~~.

   c) If the Customer's consumption exceeds~~is over or below~~ the consumption parameters for the RS-1~~Customer's~~ Billing Class but is ~~not more or~~ less than the 10 percent band for the RS-1 ~~assigned~~ Billing Class for the most recent 12 months of consumption, the Customer will remain on the assigned RS-1 Billing Class. If the same result occurs ~~in the same direction (over or below)~~ for two consecutive annual volume review cycles, the Company will re-assign the Customer to the RS-2 ~~appropriate~~ Billing Class ~~for the level of consumption~~.

   d) Once a Customer is classified or reclassified to the RS-2 Billing Class, no further annual reclassification will occur, and the Customer shall remain in the RS-2 Billing Class regardless of annual consumption.

   e) All new customers, or customers without 12 months of usage, will automatically be placed in the RS-2 Billing Class.

4. The rates set forth under this schedule shall be subject to the operation of the Company's Tax and Fee Adjustment Clause set forth on Sheet No. 7.101-5.

~~4.~~5. The rates set forth under this schedule shall be subject to the operation of the Company's Competitive Rate Adjustment Clause set forth on Sheet No. 7.101-5.

~~5.~~6. The rates set forth under this schedule shall be subject to the operation of the Cast Iron Bare Steel Replacement Rider Surcharge set forth on Sheet Nos. 7.806 through 7.806-3.

Interruptible Service for non-residential commercial or industrial service under this schedule is subject to interruption or curtailment at the sole discretion of the Company at any time and is available to Customers using 1,000,000 through 3,999,999 Therms per year. A Customer eligible for service pursuant to this rate schedule is eligible for transportation service under Rider ITS.

Service will be provided by the Company based on available pipeline capacity and the Customer delivering suitable Gas into the Company's distribution system.

Monthly Rate:

Customer Charge:	$~~2,440.80~~3,259.00 -per month
Distribution Charge:	$0.~~10074~~ 13451 per Therm

The bill for the Therms billed at the above rates shall be increased in accordance with the provisions of the Company's Purchased Gas Adjustment Clause set forth on Sheet No. 7.101-1, unless Customer receives transportation service under the Company's Rider ITS.

Minimum Bill: The Customer charge.

Special Conditions:

1. A service agreement accepted by the Company is a condition precedent for service under this schedule. The term of the agreement shall be set forth therein but shall not be less than one year.

2. If the Customer's requirements for Gas change, the Customer shall notify the Company so that the daily and annual quantities in the service agreement may be changed. If the Customer's usage indicates that the amounts set forth in the then existing agreement are not applicable, the Company may require that the daily and annual estimates be changed to reflect the existing conditions.

3. The rates set forth above shall be subject to the operation of the Company's Competitive Rate Adjustment Clause set forth on Sheet No. 7.101-5.

CONTRACT INTERRUPTIBLE SERVICE
Rate Schedule CIS

Availability:

Throughout the Service Areas of the Company.

Applicability:

Interruptible Gas for non-residential commercial or industrial use. Service under this schedule is subject to interruption or curtailment at the sole discretion of the Company at any time and is available to Customers using 100,000 Therms per year or more. A Customer eligible for service pursuant to this rate schedule is also eligible for transportation service under Rider ITS.

Service will be provided by the Company based on available pipeline capacity and the Customer delivering suitable Gas into the Company's distribution system.

Monthly Rate:

Customer Charge: Equal to the otherwise applicable Customer Charge based on annual consumption.

Distribution Charge:

An amount not less than $.01 per Therm nor greater than 90 percent of the currently applicable firm rate; provided however, that at any time during which the cumulative surpluses determined for all prior determination periods under the Competitive Rate Adjustment Clause (Non-West Florida Region) (see Sheet No. 7.101-5) equal or exceed the cumulative shortfalls determined for all prior determination periods under such clause, the distribution charge shall not exceed the distribution charge established for service under Rate Schedule IS in Company's last base rate proceeding. Unless changed by Company pursuant to this Rate Schedule, the distribution charge shall be equal to the applicable interruptible rate.

The "currently applicable firm rate" as used herein means the distribution charge prescribed in the otherwise applicable rate schedule, adjusted pursuant to the Competitive Rate Adjustment Clause (Non-West Florida Region) set forth on Sheet No. 7.101-5.

The distribution charge to Customer shall be determined by Company based upon Company's evaluation of competitive conditions. Such conditions may include, but are not necessarily limited to: the cost of Gas which is available to serve Customer; the delivered price and availability of Customer's designated alternate fuel; bypass opportunities; economic development; and the nature of Customer's operations (such as load factor, fuel efficiency, alternate fuel capacity, etc.). Company may from time to time increase or reduce the distribution charge as it deems necessary or appropriate to meet competition

5. Service under this schedule shall be subject to the Rules and Regulations set forth in this Tariff.

6. In instances where the Customer is able to demonstrate the ability and intent to bypass the Company's distribution system and purchase Gas or another source of energy from an alternate supplier~~,~~ or for economic development purposes, the distribution charge shall, in the discretion of the Company, be the rate per Therm necessary to retain the Customer on the Company's distribution system, provided that such rate is demonstrated to be in the long-term best interests of both the Company and its ratepayers.

7. The rates set forth in this schedule shall be subject to the operation of the Company's Tax and Fee Adjustment Clause set forth on Sheet No. 7.101-5.

OFF-SYSTEM SERVICE
Rate Schedule OSS

Availability:

Throughout the service areas of Company, and of any interstate or intrastate natural gas pipeline serving the Company (collectively, the "Pipelines").

Applicability:

Interruptible Gas delivered by Company through the facilities of a Pipeline, using Company's transportation capacity rights on such Pipeline, to any person not connected to Company's distribution system.

This Tariff is applicable to both bundled and unbundled gas service, i.e. interstate or intrastate Pipeline capacity only that is released by Company pursuant to Transporter's FERC gas tariff as well as interstate or intrastate Pipeline capacity that is bundled with natural gas supply and subsequently delivered by the Company to the Customer.

Monthly Rate:

Customer Charge:	None
Transaction Charge:	$100.00 per transaction

Distribution Charge:

For all Scheduled Quantities (as such term is defined in Special Condition 5 below), an amount not less than $.000 per Therm ~~nor greater than 90 percent of the currently applicable firm rate,~~ which Distribution Charge shall be established by agreement between Company and Customer prior to each transaction pursuant to this rate schedule.

The "currently applicable firm rate", as used herein, means the distribution charge prescribed in the firm rate schedule which would apply if the daily sales represented by a transaction under this rate schedule were annualized.

The Distribution Charge for service pursuant to this rate schedule shall be determined by Company based upon Company's evaluation of competitive conditions. Such conditions may include, but are not necessarily limited to: the cost of gas which is available to serve Customer; the delivered price and availability of Customer's designated alternate fuel; and the nature of Customer's operations (such as load factor, fuel efficiency, alternate fuel capacity, etc.). Company may from time to time increase or reduce the Distribution Charge as it deems necessary or appropriate to meet competition or remain competitive, but shall have no obligation to do so; provided, however, that the Distribution Charge shall at all times remain within the limits set forth above.

The bill for Therms billed at the above rates shall be increased by the cost per Therm of any Gas delivered to Customer pursuant to this rate schedule, including all variable costs incurred by Company for (or in connection with) Pipeline transportation.

NATURAL CHOICE TRANSPORTATION SERVICE (Continued)

9. Except as modified by the provisions set forth above, service under this Rider shall be subject to the Rules and Regulations set forth in this Tariff.

10. If a Customer receiving service pursuant to this Rider has annual consumption greater than or equal to 500,000 therms annually, then the Company will install and maintain facilities for remote monitoring of the Customer's hourly gas flow. The Customer will reimburse the Company for the expense incurred for the investment in and installation of these facilities.

11. A Pool Manager may terminate Gas supply to a Customer pursuant to this Rider electronically via Company's website prior to the sixteenth day of the month as of which such termination will commence on the first day of the Customer's billing period of the next calendar month following receipt by the Company of the aforesaid electronic termination. In the event of non-payment by Customer for charges due, a Pool Manager may terminate Gas supply to a Customer by giving five business days written notice to Company prior to the first day of the month as of which such termination is to be effective. Any such notice shall be accompanied by (a) documentary evidence of the Customer's failure to make payment for a period of at least 60 days, (b) Pool Manager's affidavit that it has made commercially reasonable and good faith efforts to collect the amount due, and (c) a non-refundable termination fee of $~~59~~62.00 per account number. A Customer whose Gas supply is terminated by a Pool Manager pursuant to this special condition will automatically return to sales service provided by Company until such time as the Customer elects, subject to the conditions of this Rider, to receive service hereunder through a different Pool Manager. Additional deposit may be required from the Customer to return to sales service.

12. It is the Customer's obligation to make payments to the Company (or to an Authorized Payment Agent of the Company) of all bills rendered. Payment by a Customer to a third party (including a Third-Party Gas Supplier or Customer's Pool Manager) which has not been designated by Company as an Authorized Payment Agent will not satisfy the Customer's obligation to make payment of Company's bill for Gas Service.

INDIVIDUAL TRANSPORTATION SERVICE RIDER
RIDER ITS

Availability:

Throughout the service areas of the Company, subject to the Special Conditions set forth herein.

Applicability:

To firm or interruptible individual transportation service for any non-residential Customer who uses 500,000 therms per year or more and owns Gas that is made available for individual transportation service on the Company's system under Rate Schedules GS-5, WHS, SIS, IS, ISLV, and CIS.

Monthly Rate:

The Monthly Rate set forth in the applicable rate schedule, based on the annual Therm usage of, and character of service elected by, the Customer, plus an Individual Transportation Administration Fee of $~~216.00~~313.80 per month per meter.

Special Conditions:

1. Definitions: As used in this Rider or in a Gas Transportation Agreement, the following terms have the meanings set forth below:

   "Actual Takes" means, for a specified period of time, the quantity of Gas passing through the meter(s) at the PGS Delivery Point(s) of Customer (as defined in the Customer's Gas Transportation Agreement).

   "Customer" means the person or entity which executes a Gas Transportation Agreement providing for individual transportation service hereunder.

   "Daily Imbalance Amount" means, for a Day, the positive or negative whole number determined by subtracting the Actual Takes for the Day from the Scheduled Quantities for the Day.

   "Day" means a period of 24 consecutive hours beginning and ending at 9:00 a.m. Central Clock Time.

   "FGT" means Florida Gas Transmission Company, a Delaware corporation, and its successors and assigns.

   "Gas Transportation Agreement" means an agreement between Company and an individual transportation Customer, the basic form of which is set forth on Sheets Nos. 8.114 through 8.114-8, which specifies the term for which it is effective and contains such reasonable provisions for termination as to which Company and Customer may agree.

Gas Service Agreement No. Page 2

NATURAL GAS SERVICE TERMS AND CONDITIONS:

The applicant named on the first page hereof ("Customer") makes application to Peoples Gas System, Inc. ("Company") for natural gas service under the rate classification indicated on the first page hereof according to the following terms and conditions in consideration of the Company's agreement to deliver natural gas to Customer pursuant to the applicable provisions of Company's Tariff approved by the Florida Public Service Commission. In the event of a conflict between this application and the Tariff, the Tariff shall control.

Gas is to be delivered to Customer at the outlet side of the Company's gas meter serving the premises indicated on the first page hereof, such meter and service line there to be installed and operated by the Company, and, if located on Customer's property, the site therefor to be furnished free of charge by Customer.

The Company and its representatives are hereby authorized to enter upon and install on Customer's property any required gas meter or meters and gas pipe for furnishing gas to said address, and to ditch, lay, or otherwise install pipe as is required outside the building(s). The gas pipe from the Company's gas system to and including said meter or meters shall be owned, operated, and maintained by the Company with a perpetual right of ingress and egress thereto, hereby granted to the Company for such purposes. Installation of Company's facilities may require that Company be granted an easement. All gas pipe, from the outlet side of said meter or meters, shall be owned, operated, and maintained by Customer at its sole cost and risk.

Customer shall receive and pay for all gas delivered to Customer according to the applicable provisions of Company's Tariff and the applicable rules and regulations of the Florida Public Service Commission. Any gas delivered to Customer at any other delivery point is also subject to the terms and conditions hereof. No oral statement shall change any term or obligation set forth herein.

A customer receiving gas service under the residential or commercial standby generator Tariff rate shall be obligated to remain on that schedule for a minimum of 12 months. This 12-month requirement shall be renewed at the end of each 12-month period unless Customer terminates gas service at the end of any 12-month period.

If Customer fails or refuses to take gas service from the Company, Customer shall pay to the Company the actual cost incurred by the Company in constructing the facilities to have been used in providing service to the Customer. Any deposits currently held by the Company shall be forfeited by Customer in payment or partial payment of these costs.

UNDERGROUND FACILITIES:

Prior to construction of gas pipeline, it is extremely important that the Company be made aware of existing underground obstacles, sprinkler systems, septic tanks, sewer lines, or structures, etc., located on Customer's property which may be damaged as a result of installation of the gas pipeline. Customer shall be responsible for marking and/or locating any underground facilities that may be on Customer's property that do not belong to local utilities (Power, Telephone, Water, Cable TV companies, etc.), and agrees to indemnify and hold Company harmless for any damages arising out of Customer's failure to do so.

GENERAL TERMS AND CONDITIONS APPLICABLE TO NATURAL GAS SERVICE:

To the extent that the Customer identified in this agreement is the State of Florida, one of its agencies, or one of its subdivisions, nothing herein shall be construed or interpreted as a waiver of sovereign immunity beyond the waiver provided in Section 768.28 Florida Statutes, or any successor statute.

This agreement is not assignable or transferable by Customer without prior written consent by the Company.

IN NO EVENT SHALL THE COMPANY OR ITS AFFILIATED COMPANIES, OFFICERS, DIRECTORS, EMPLOYEES, AGENTS OR REPRESENTATIVES BE LIABLE FOR ANY INCIDENTAL, INDIRECT, SPECIAL, CONSEQUENTIAL, EXEMPLARY OR PUNITIVE DAMAGES, INCLUDING, BUT NOT LIMITED TO, LOSS OF USE OF ANY PROPERTY OR EQUIPMENT, LOSS OF PROFITS OR INCOME, LOSS OF PRODUCTION, RENTAL EXPENSES FOR REPLACEMENT PROPERTY OR EQUIPMENT, DIMINUTION IN VALUE OF REAL PROPERTY, EXPENSES TO RESTORE OPERATIONS, OR LOSS OF GOODS OR PRODUCTIONS, EVEN IF THE COMPANY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

~~Customer understands and acknowledges that the dealer (if any) identified on the first page of this document ("Dealer") is not affiliated in any way with the Company and has not been engaged by the Company as a contractor or subcontractor. The Company assumes no responsibility whatsoever for any acts or omissions of, or any services or goods provided by, such Dealer.~~

This agreement may not be amended or modified except by an instrument in writing signed by the Company and Customer.

This agreement shall be governed by the laws of the State of Florida without regard to principles of conflicts of laws.

This agreement contains the entire understanding between the parties hereto and supersedes any written or oral, prior or contemporaneous agreement or understanding between the parties.

NOTE: I acknowledge installation of the gas line will not be scheduled until the required easement, if needed, is signed by the landowner and received by Peoples Gas System, Inc. _____ (customer initials)

"Supplier(s)" means person(s) (other than PGS) from which Shipper purchases Gas transported hereunder.

"Transporter" means any upstream intrastate or interstate transport service provider.

ARTICLE II - TERM

This Agreement is effective on the date first written above. The term shall commence at the beginning of the Day commencing on _____ and continue until the beginning of the Day commencing on (the "Termination Date") (the "Initial Term"). [PROVISIONS AGREEABLE TO PGS AND SHIPPER WITH RESPECT TO ANY EXTENDED OR "SECONDARY" TERM]

ARTICLE III - SALES AND TRANSPORTATION SERVICE

Section 3.1 Services. PGS desires to sell and Shipper desires to purchase from PGS, from time to time, for use in the Facility (but not for resale), Gas in quantities which, at Shipper's request, PGS may, in its sole discretion exercised in a not unduly discriminatory manner, agree to sell to Shipper. Shipper also engages PGS, and PGS accepts such engagement, to receive Gas for Shipper's account, up to the MTQ, at the PGS Receipt Point(s), and to cause an equivalent quantity, less the Retainage, to be redelivered to Shipper. Such sales and transportation shall be governed by PGS's FPSC Tariff and this Agreement. If there is a conflict between the Tariff and this Agreement, the Tariff shall control. Sales and transportation hereunder are provided ~~interruptible~~ in accordance with PGS's FPSC Tariff and curtailment plan. If Shipper's service is interruptible, Shipper may select one or more of the options described in Appendix D, which may enable Shipper to continue receiving delivery of Gas during periods of curtailment or interruption. PGS shall have no obligation to make sales to Shipper in lieu of the transportation of Gas contemplated by this Agreement.

Section 3.2 ~~Telemetry and Other~~ Required Equipment. ~~Telemetry and other e~~Equipment ~~which~~ that PGS must install to provide natural gas transportation service hereunder (the "Equipment"), if any, shall be determined solely by PGS~~and the anticipated cost thereof, are listed in Appendix C. Shipper shall reimburse PGS for all costs incurred for the Equipment on receipt of PGS's invoice therefor~~. Unless the parties agree otherwise, all facilities used to provide service to Shipper hereunder (including without limitation the Equipment) shall be installed, owned, operated and maintained by PGS.

Section 3.3 Telemetry Equipment. Equipment which PGS must install to provide transmission of measurement data hereunder (the "Telemetry Equipment"), if any, and the anticipated cost thereof, are listed in Appendix C. Shipper shall reimburse PGS for all costs incurred for the Telemetry Equipment on receipt of PGS's invoice therefor. Shipper shall be responsible for securing access to the gas measurement data transmission network as required by PGS for the proper functioning of Telemetry Equipment.

ARTICLE IV - NOMINATIONS

Section 4.1 General. For each Day Shipper desires service hereunder, Shipper shall provide a Nomination to PGS pursuant to Sections 4.2 and/or 4.3 for each meter at the Facility. The total quantity for the Facility may be Nominated to a single meter, with "zero" Nominations being made for any additional meters located at the Facility. All Nominations shall be made to PGS at its web site (https://custactivitiespeoplesgas.com provided that, in an emergency, a Nomination may be delivered via facsimile using the form set forth in PGS's FPSC Tariff. Quantities confirmed by PGS for delivery shall be Scheduled Quantities. If requested by Shipper, PGS will allow increases or decreases in Scheduled Quantities after the Nomination deadlines set forth in this article, if the same can be confirmed by PGS, Transporters and Suppliers, and can be accomplished without detriment to services then scheduled on such Day for PGS and other shippers. The maximum quantity PGS shall be obligated to make available for delivery to Shipper on any Day (which shall not exceed the MDQ) is the sum of (a) the Transportation Quantity and (b) the Sales Quantity established pursuant to this article.

Section 4.4 Other Responsibilities. Shipper shall promptly notify PGS in writing of any change in the Sales Quantity or Transportation Quantity for any Day, and PGS will use commercially reasonable efforts to accept any such requested change as soon as practicable.

Section 4.5 Confirmation. If Transporter asks PGS to verify a nomination for Shipper's account, PGS shall confirm the lesser of such nomination, the Transportation Quantity or, in the case of non- or partial operation of the Facility, that quantity which in PGS's reasonable judgment (after consultation with Shipper) is likely to be consumed at the Facility. PGS has no obligation with respect to verification or rejection of quantities not requested by Shipper.

Section 4.6 Mutually Beneficial Transactions. Shipper recognizes that PGS maintains the operation and system integrity of the PGS distribution system on a daily basis, and that PGS, as the delivery point operator for its points of interconnection with interstate pipelines, is subject to the rules and regulations of such pipelines with regard to operational flow rates, pressures and penalties. As such, PGS may from time to time need Shipper to vary its Nominated quantities of Gas to be delivered at the PGS Receipt Point(s). On such occasions, PGS may in its sole discretion request, and Shipper may agree to, a change in the quantity of Gas to be delivered for the account of Shipper at the PGS Receipt Point(s). No such change in the quantity of Gas to be delivered shall be made pursuant to this section without the consent of Shipper. Terms and conditions of any such transaction will be agreed upon between the parties at the time of the transaction and will be recorded and confirmed in writing within two Business Days of the transaction.

ARTICLE V - TRANSPORTATION AND OTHER CHARGES

Section 5.1 Transportation Charges~~; Purchase Price~~. Shipper shall pay PGS each Month for transportation service rendered by PGS, and, if applicable, for Gas purchased from PGS, in accordance with the then-applicable rate schedule in PGS's FPSC Tariff. At the time of execution of this Agreement, Rate Schedule ___ is applicable. In the event Rate Schedule, CIS or a fixed rate schedule is applicable, this Agreement will automatically renew following the Initial Term at the then applicable rate schedule~~,~~ unless Shipper and PGS have agreed at least 30 days prior to the expiration of the then current term that Rate Schedule CIS or another rate schedule shall apply.

Section 5.2 Changes in Tariff. If the applicable rates or rate schedules change or are amended or superseded, the newly applicable rates or rate schedules shall be applicable to service hereunder. Nothing contained herein shall prevent PGS from filing with the FPSC (or Shipper from opposing) changes to the rates and other provisions in PGS's FPSC Tariff. ~~PGS agrees to give Shipper reasonable notice of (a) all filings (except filings in FPSC Docket No. 000003-GU, In Re: Purchased Gas Adjustment (PGA) True-Up, and successor dockets) which PGS makes with the FPSC and (b) all other FPSC proceedings of which PGS becomes aware, which PGS (in the exercise of reasonable judgment) determines would affect PGS's rates or the services to be performed by PGS under this Agreement.~~

ARTICLE VI - BILLING AND PAYMENT

Section 6.1 Billing. PGS will bill Shipper each Month for all Actual Takes during the preceding Month, and for any other amounts due hereunder. If, during the preceding Month, PGS has purchased Gas from Shipper pursuant to an interruption or curtailment order, such bill shall show a credit for the estimated amount due Shipper for such purchase(s). If the estimated amount owed by PGS to Shipper exceeds the amount Shipper owes PGS, PGS shall pay Shipper the net amount estimated to be due Shipper at the time PGS bills Shipper.

Section 8.2 Governing Law. This Agreement and any dispute arising hereunder shall be governed by and interpreted in accordance with the laws of Florida and shall be subject to all applicable laws, rules and orders of any Federal, state or local governmental authority having jurisdiction over the parties, their facilities or the transactions contemplated. Venue for any action, at law or in equity, commenced by either party against the other and arising out of or in connection with this Agreement shall be in a court, located within the State of Florida, having jurisdiction.

Section 8.3 Severability. If any provision hereof becomes or is declared by a court of competent jurisdiction to be illegal, unenforceable or void, this Agreement shall continue in full force and effect without said provision.

Section 8.4 Entire Agreement; Appendices. This Agreement sets forth the complete understanding of the parties as of the date first written above, and supersedes any and all prior negotiations, agreements and understandings with respect to the subject matter hereof. The appendices attached hereto are an integral part hereof. All capitalized terms used and not otherwise defined in the appendices shall have the meanings given to such terms herein.

Section 8.5 Waiver. No waiver of any of the provisions hereof shall be deemed to be a waiver of any other provision whether similar or not. No waiver shall constitute a continuing waiver. No waiver shall be binding on a party unless executed in writing by that party.

Section 8.6 Notices. (a) All notices and other communications hereunder shall be in writing and be deemed duly given on the date of delivery if delivered personally or by a recognized overnight delivery service or on the fifth day after mailing if mailed by first class United States mail, registered or certified, return receipt requested, postage prepaid, and properly addressed to the party as set forth below.

APPENDIX A - GAS TRANSPORTATION AGREEMENT

PGS RECEIPT POINT(S)

Maximum Transportation Quantity: _____ MMBtu per Day plus the Retainage

PGS will accept Gas from Shipper, or for its account, for transportation pursuant to this Agreement at the following point(s):

The above point(s) may be changed by PGS from time to time on written notice to Shipper.

APPENDIX B - GAS TRANSPORTATION AGREEMENT

PGS DELIVERY POINT(S)

Gas transported or sold pursuant to this Agreement shall be delivered by PGS to Shipper at the following point(s):

NAME	PGS METER#	MAXIMUM DELIVERY QUANTITY
Meter at the Facility		_____ MMBtu per Day

_____

APPENDIX C - GAS TRANSPORTATION AGREEMENT

EQUIPMENT

_____

APPENDIX D -
GAS TRANSPORTATION AGREEMENT
(APPLICABLE TO INTERRUPTIBLE CUSTOMERS)

ALTERNATIVES DURING PERIODS OF INTERRUPTION OR CURTAILMENT

If Shipper is an interruptible Customer, it may select one or more of the "~~O~~options" ~~hereinafter described~~set forth below ~~–~~prior to or during a period of interruption or curtailment ~~or interruption~~. ~~–~~These ~~O~~options ~~set forth below~~ describe ~~means through which~~how PGS ~~will~~would attempt to continue deliveries ~~to Shipper~~ during such a period ~~if PGS can do so in a manner that is consistent with the order of priorities of service set forth in its curtailment plan and that will not prevent service to customers in higher priorities of service than Shipper~~.

If PGS is entitled ~~under this Agreement or PGS's FPSC Tariff~~ to interrupt or curtail deliveries to Shipper for reasons other than Force Majeure, PGS will notify Shipper ~~to that effect,~~ about such interruption or curtailment. The notice will ~~to~~ include the estimated duration of the interruption or curtailment and the estimated cost of gas required for PGS to continue deliveries to Shipper ~~during the period of interruption~~. Shipper shall notify PGS in writing within two (2) hours after receipt of PGS's notice of interruption or curtailment of the option (from Options A through C below) Shipper elects ~~during the period of interruption~~.

~~If Shipper fails to respond to PGS's notice within the aforesaid two-hour period, it shall be conclusively presumed that Shipper has elected the Option(s) (if any) previously selected by Shipper in writing.~~ If Shipper ~~has~~ fail~~sed~~ to make *any* election in a timely manner, ~~either prior to PGS's notice or during the two-hour period,~~ it shall be conclusively presumed that Shipper has elected Option D below. ~~The Options are as follows:~~

The Options are as follows:

Option A~~:~~ (PGS Receipt Point/Shipper's Own Arrangement): ——Shipper desires PGS to continue deliveries during the period of interruption or curtailment and Shipper agrees to ~~make available for its account (*i.e.*, to make~~ all arrangements necessary to cause the delivery of ~~)~~ at the PGS Receipt Point(s)~~(1)~~ ~~additional quantities of Gas equal to those quantities which PGS is entitled to interrupt~~ or curtail (2) at the PGS Receipt Point(s).

Option B (Pipeline Release Point/Capacity Release): ——Shipper desires PGS to continue deliveries during the period of interruption and agrees to ~~make available for its account (*i.e.*, to make~~ all arrangements necessary to cause the delivery of~~)~~ (1) additional quantities of Gas (including the Retainage) equal to those quantities PGS is entitled to interrupt to curtail (2) at the applicable point(s) of receipt into [_____] pipeline system. ~~additional quantities of Gas (including the Retainage) equal to those quantities which PGS is entitled to interrupt,~~ In addition Shipper ~~and~~ desires PGS to release to Shipper (or to a Supplier designated by Shipper), for the duration of the period of interruption or curtailment and at the maximum rate applicable to the capacity released, primary firm capacity on [_____] sufficient to transport such additional quantities of Gas to the PGS Receipt Point(s). By election of this Option B, Shipper agrees to be responsible for the payment of all charges imposed by [_____] with respect to the capacity so released by PGS to Shipper (or Shipper's Supplier), or the use of such capacity, for the period during which such release is effective. If Shipper elects to continue deliveries during the period of interruption pursuant to this Option B, PGS agrees to release the capacity requested by Shipper if PGS determines in its sole discretion that (i) such capacity is available for release to Shipper during the period of interruption or curtailment, (ii) such release can be accomplished readily and without detriment to PGS's system operations, and (iii) such release is practicable within the time constraints and requirements of [_____] FERC Tariff and the ready availability of PGS staff and resources.

Option C PGS as Temporary Agent) : ——Shipper desires PGS to continue deliveries during the period of interruption or curtailment, appoints PGS as its agent to acquire (at the PGS Receipt Point(s)) additional quantities of Gas at market-based price, equal to those quantities which PGS is entitled to interrupt or curtail, to be used by Shipper during the period of interruption or curtailment, and agrees to reimburse PGS, in addition to all amounts otherwise payable for Gas pursuant to this Agreement, for the incremental additional per-Therm costs incurred by PGS (as Shipper's agent) to acquire for the account of Shipper, at the PGS Receipt Point(s), Gas to be used by Shipper during the period of interruption or curtailment. ~~As~~ used in this Option C, "incremental additional costs" shall mean the weighted average per-Therm costs incurred by PGS to acquire, for the accounts of Shipper and other interruptible customers of PGS who have elected this Option C during a particular period of interruption, the additional quantities of Gas mentioned above to be used by Shipper and such other interruptible customers of PGS during such period of interruption or curtailment, including but not limited to commodity, transportation, storage and other charges incurred by PGS.

Option D (No Action by Shipper): ——Shipper agrees to cease taking Gas pursuant to PGS's notice during the period of interruption.

If Shipper has elected to continue deliveries pursuant to one of Options A, ~~Option~~ B or ~~Option~~ C, PGS will, in implementing its interruption or curtailment notice, take and pay for Shipper's Gas as provided in PGS's FPSC Tariff, but will not discontinue deliveries to Shipper unless (i) if Shipper has elected Option A,

"Transporter Agreement" means, for purposes of this Agreement and the Capacity Release Agreement, the applicable Service Agreements for Firm Transportation Service (however named or titled) between Transporter and PGS in effect from time to time, including (a) Transporter's currently effective applicable rate schedule(s) and (b) General Terms and Conditions filed with the FERC or the FPSC (and incorporated in each said agreement by reference), as such agreements, rate schedules and general terms and conditions may be amended from time to time, and any successor firm agreement(s), firm rate schedule(s) or general terms and conditions applicable thereto.

"Transporter's Tariff" means, for purposes of this Agreement and the Capacity Release Agreement, Transporter's effective FERC or FPSC gas tariff applicable to firm transportation service under the Transporter Agreement, as such tariff may be amended from time to time.

ARTICLE II - TERM; PROGRAM CHANGES

Section 2.1 Term. This Agreement shall be effective on the date first written above. The term of this Agreement shall commence on the first Day of the Month for which PGS first delivers to Pool Manager a list of Customer Accounts as required by Section 4.1(a) (the "Effective Date") and shall continue, unless earlier terminated pursuant to this Agreement, until the first anniversary of the Effective Date (the "Initial Term"). Thereafter, the term of this Agreement shall be extended for additional periods of one year unless either party gives written notice, not less than 90 days prior to the expiration of the Initial Term (or any subsequent period for which this Agreement has been extended) to the other party, of termination.

Section 2.2 Program Changes. Pool Manager understands that PGS is entering into this Agreement as part of a program approved by the FPSC. PGS reserves the right to file with the FPSC modifications to such program (including the terms and conditions of this Agreement). PGS shall give Pool Manager reasonable notice of any such filing. In the event the FPSC approves modifications to such program (including any terms or conditions set forth in this agreement), such modifications shall become binding on the parties hereto as of the date on which approval thereof by the FPSC becomes effective. Notwithstanding any other provision of this Agreement, PGS's obligations hereunder shall at all times be subject to the lawful orders, rules and regulations of the FPSC, and to the terms and conditions of PGS's FPSC Tariff.

ARTICLE III - NON-PAYMENT BY CUSTOMER

Pool Manager may terminate its obligation to deliver Gas hereunder for a Customer Account for non-payment of charges due Pool Manager by giving five days' written notice to PGS prior to the first Day of the Month as of which such termination is to be effective. Any such notice shall be accompanied by (i) documentary evidence of the Customer's failure to make payment for a period of at least 60 days, (ii) Pool Manager's affidavit that it has made commercially reasonable and good faith efforts to collect the amount due and (iii) a non-refundable termination fee of $~~59~~62.00.

ITS AGENT AGREEMENT

The undersigned Shipper hereby designates the undersigned Agent as its Agent to perform the following identified (*i.e.*, marked with an "X") obligations of Shipper under Shipper's Gas Transportation Agreement(s) with Peoples Gas System, Inc. ("PGS"):

☐ Invoicing/Payment
☐ Nominations
☐ Monthly Imbalance Resolution
☐ Alert Day Volume Aggregation and Alert Day Penalty Responsibility

Shipper, Agent and PGS hereby agree, for all purposes relating to the functions identified above, that:

1. The designation by Shipper of Agent as Shipper's Agent shall be effective as of the beginning of the Day commencing on _____←insert date.

2. Shipper agrees that it may designate only one agent however, that agent may perform one or several of the functions listed above.

3. PGS has the right to rely on any written or verbal communication from Agent, and any communications by PGS to Agent shall be deemed notice to Shipper.

4. Agent shall perform the functions identified above in a manner consistent with PGS's Natural Gas Tariff on file with the Florida Public Service Commission, as the same may be amended from time to time.

5. Alert Day penalties imposed on the ITS Customer Pool of which Shipper is a part shall be paid by Agent; provided, however, that if Agent fails to pay such penalties within sixty (60) days after the date on which they are imposed by PGS, Shipper shall be responsible for, and pay to PGS, such Alert Day penalties (if any) as would have been payable by Shipper for such Alert Day in the absence of this Agreement.

6. Shipper shall remain liable to PGS (a) with respect to any act or omission of Agent in the performance of the functions identified above and, (b) to the extent not paid by Agent for the ITS Customer Pool of which Shipper is a part, all charges arising under the Gas Transportation Agreement(s) between PGS and Shipper. Shipper shall indemnify, hold harmless and defend PGS from and against any and all acts or omissions of Agent. To the extent that Shipper is the State of Florida, one of its agencies, or one of its subdivisions, nothing herein shall be construed or interpreted as a waiver of sovereign immunity beyond the waiver provided in Section 768.28, Florida Statutes, or any successor statute.

MINIMUM VOLUME COMMITMENT
GAS TRANSPORTATION AGREEMENT

This Minimum Volume Commitment Gas Transportation Agreement (the "Agreement") is made and entered into as of the _____ day of _____, 20__, by and between Peoples Gas System, Inc., a Florida corporation ("PGS"), and _____, a _____ ("Shipper"), who hereby agree as follows:

ARTICLE I - DEFINITIONS

As used herein, the following terms shall have the meanings set forth below.

Capitalized terms used herein, but not defined below, have the meanings given for such terms in PGS's FPSC Tariff.

"Actual Takes" means, for a specified period, the quantity of Gas passing through the meter(s) of the Customer Accounts during that period.

"Business Day" means the Days Monday through Friday (excluding any federal banking holiday falling on any such Day).

"Day" means the period of 24 consecutive hours beginning and ending at 9:00 a.m. Central Clock Time.

"Facility" means Shipper's _____ facility located in _____, Florida.

"FPSC" means the Florida Public Service Commission or any successor agency.

"Gas" shall have the same meaning as given for such term in PGS's FPSC Tariff.

"Gas Service" shall have the same meaning as given for such term in PGS's FPSC Tariff.

"MAT Deficiency Charge" means the difference between the applicable MAT set forth in Article VI and the actual quantity of Gas delivered during the twelve-month delivery period, multiplied by the applicable rate schedule in effect at the end of the twelve-month delivery period.

"Maximum Delivery Quantity" or "MDQ" means the maximum amount of Gas that PGS is obligated to cause to be delivered for Shipper's account pursuant to this Agreement on any Day at the PGS Delivery Point(s) and is stated in Appendix B.

"Maximum Transportation Quantity" or "MTQ" means the maximum amount of Gas that PGS shall be obligated to receive pursuant to this Agreement on any Day at the PGS Receipt Point(s), and is stated in Appendix A.

"Minimum Annual Take" or "MAT" means the quantity of minimum annual delivery of natural gas at the facility agreed to by Shipper and set forth in Article VI.

"Minimum Delivery Obligation" means the sum of Shipper's total Gas requirements over the Term of this agreement as set forth in Article VI.

"Nomination" means a notice delivered by Shipper to PGS in the form specified in PGS's FPSC Tariff, specifying (in MMBtu) the quantity of Gas the Shipper desires to purchase~~,~~ or to have PGS receive, transport, and deliver~~,~~ at the PGS Delivery Point(s).

"Nominate" means to deliver a completed Nomination.

"PGS Delivery Point(s)" means the point(s) listed in Appendix B.

"PGS Receipt Point(s)" means the point(s) of physical interconnection between Transporter and PGS, or between Shipper and PGS listed in Appendix A.

"Retainage" means 0.35% of Gas received by PGS for the account of the Customer at the Primary Delivery Point(s) to account for lost and unaccounted Gas between such point(s) and the meters of the Customer Accounts.

"Supplier(s)" means person(s) (other than PGS) from which Shipper purchases Gas transported hereunder.

"Transporter" means any upstream intrastate or interstate transport service provider.

"Twelve-Month Delivery Period" means each twelve-month period commencing on the date of Gas Service is available to the Facility and continues on an annual basis throughout the Term of this Agreement.

ARTICLE II – TERM

This Agreement is effective on the date first written above. The term shall commence upon the initiation of Gas Service and continue until the last day of the Twelve-Month Delivery Period or when the Minimum Delivery Obligation is satisfied. (the "Termination Date") (the "Term"). The Term shall reflect the recovery period for the extension of Gas Service. In no instance will the Term exceed (10) years. At the end of the Term, the Customer will be placed in the applicable rate schedule.

ARTICLE III – SALES AND TRANSPORTATION SERVICE

Section 3.1 Services. PGS desires to sell and Shipper desires to purchase from PGS, from time to time, for use in the Facility (but not for resale), Gas in quantities which, at Shipper's request, PGS may, in its sole discretion exercised in a not unduly discriminatory manner, agree to sell to Shipper. Shipper also engages PGS, and PGS accepts such engagement, to receive Gas for Shipper's account, up to the MTQ, at the PGS Receipt Point(s), and to cause an equivalent quantity, less the Retainage, to be redelivered to Shipper. Such sales and transportation shall be governed by PGS's FPSC Tariff and this Agreement. If there is a conflict between the Tariff and this Agreement, the Tariff shall control. Sales and transportation hereunder are provided ~~interruptible~~ in accordance with PGS's FPSC Tariff and PGS's curtailment plan. If Shipper's service is interruptible, Shipper may select one or more of the options described in Appendix D, which may enable Shipper to continue receiving delivery of Gas during periods of curtailment or interruption.

DOCUMENT NO. 11
PAGE 65 OF 75
FILED: 03/31/2025

PGS shall have no obligation to make sales to Shipper in lieu of the transportation of Gas contemplated by this Agreement.

Section 3.2 ~~Telemetry and Other~~ Required Equipment. ~~Telemetry and other equipment~~ All items ~~which~~ that PGS must install to provide natural gas transportation service hereunder (the "Equipment"), if any, shall be determined solely by PGS. ~~and the anticipated cost thereof, are listed in Appendix C. Shipper shall reimburse PGS for all costs incurred for the Equipment on receipt of PGS's invoice therefor.~~ Unless the parties agree otherwise, all facilities used to provide service to Shipper hereunder (including without limitation the Equipment) shall be installed, owned, operated and maintained by PGS.

Section 3.3 Telemetry Equipment. Equipment which PGS must install to provide transmission of measurement data hereunder (the "Telemetry Equipment"), if any, and the anticipated cost thereof, are listed in Appendix C. Shipper shall reimburse PGS for all costs incurred for the Telemetry Equipment on receipt of PGS's invoice therefor. Shipper shall be responsible for securing access to the gas measurement data transmission network as required by PGS for the proper functioning of Telemetry Equipment.

ARTICLE IV – NOMINATIONS

Section 4.1 General. For each Day Shipper desires service hereunder, Shipper shall provide a Nomination to PGS pursuant to Sections 4.2 and/or 4.3 for each meter at the Facility. The total quantity for the Facility may be Nominated to a single meter, with "zero" Nominations being made for any additional meters located at the Facility. All Nominations shall be made to PGS at its website (https://custactivitiespeoplesgas.com) provided that, in an emergency, a Nomination may be delivered via facsimile using the form set forth in PGS's FPSC Tariff. Quantities confirmed by PGS for delivery shall be Scheduled Quantities. If requested by Shipper, PGS will allow increases or decreases in Scheduled Quantities after the Nomination deadlines set forth in this article, if the same can be confirmed by PGS, Transporters and Suppliers, and can be accomplished without detriment to services then scheduled on such Day for PGS and other shippers. The maximum quantity PGS shall be obligated to make available for delivery to Shipper on any Day (which shall not exceed the MDQ) is the sum of (a) the Transportation Quantity and (b) the Sales Quantity established pursuant to this article.

Section 4.2 Nomination for Purchase. Unless otherwise agreed, Shipper shall Nominate Gas for purchase hereunder not less than seven (7) Business Days prior to the first Day of any Month in which Shipper desires to purchase Gas. Daily notices shall be given to PGS at least two (2) Business Days (but not less than forty-eight (48) hours) prior to the commencement of the Day on which Shipper desires delivery of the Gas. If Shipper has timely Nominated a quantity for a particular Month, PGS shall confirm to Shipper the quantity PGS will tender for purchase by Shipper (the "Sales Quantity," which shall also be a "Scheduled Quantity") no later than 5:00 p.m. Eastern Time on the Business Day immediately preceding each Day during such Month.

Section 4.3 Nomination for Transportation. Unless otherwise agreed, Shipper shall, for each Month, and each Day during such Month that Shipper seeks to change any aspect of any prior Nomination, notify PGS by providing a completed Nomination. Shipper's Nomination for Gas to be to be made available for delivery on the first Day of any Month shall be given by 10 a.m. on the second Business Day prior to the Day on which a nomination must be delivered to Transporter for receipt of deliveries at the PGS Receipt Point(s) on such Day. Daily Nominations for Gas to be made available for delivery other than on the first Day of a Month shall be given to PGS by 10 a.m. on the Business Day prior to the Day on which a nomination must be delivered to Transporter for the receipt of deliveries at the PGS Receipt Point(s) on such Day. The following nomination information is required for a valid nomination:

b. The receipt point location including applicable DRN and upstream pipeline name, upstream pipeline package ID, including Shipper's PGS account number, and quantity in Therms of Gas to be tendered at each PGS receipt point;
c. The downstream delivery facility name, and quantity in Therms of Gas to be delivered for each PGS Shipper account;
d. A beginning and ending date for each nomination;
e. The upstream contract identifier.

Only nominations with clearly matching upstream Transporter identifiers (including Shipper's package ID and PGS account number) and downstream (PGS) identifiers will be scheduled. If Shipper or Shipper's Agent fails to comply with provisions (a) through (e) of this section, PGS may not schedule commencement of service or change a prior nomination.

Shipper understands that PGS is subject to FERC regulations that may require PGS to post certain Shipper information on a publicly accessible website. The submission by Shipper or Shipper's Agent of a required nomination shall constitute Shipper's authorization to PGS to publicly disclose any information (including but not limited to the information provided in such nomination) required by applicable law or regulation to be disclosed by PGS.

PGS shall confirm to Shipper the quantity PGS will make available for redelivery on such Day (the "Transportation Quantity," which shall also be a "Scheduled Quantity") no later than 5:00 p.m. Eastern Time on the Business Day immediately preceding such Day. PGS has no obligation to confirm a quantity Nominated by Shipper pursuant to this section greater than the quantity which, in PGS's reasonable judgment, equals the Facility's likely consumption for a Day plus Retainage, less any Sales Quantities confirmed for delivery on such Day.

Section 4.4 Mutually Beneficial Transactions. Shipper recognizes that PGS maintains the operation and system integrity of the PGS distribution system on a daily basis, and that PGS, as the delivery point operator for its points of interconnection with interstate pipelines, is subject to the rules and regulations of such pipelines with regard to operational flow rates, pressures and penalties. As such, PGS may from time to time need Shipper to vary its Nominated quantities of Gas to be delivered at the PGS Receipt Point(s). On such occasions, PGS may in its sole discretion request, and Shipper may agree to, a change in the quantity of Gas to be delivered for the account of Shipper at the PGS Receipt Point(s). No such change in the quantity of Gas to be delivered shall be made pursuant to this section without the consent of Shipper. Terms and conditions of any such transaction will be agreed upon between the parties at the time of the transaction and will be recorded and confirmed in writing within two Business Days of the transaction.

ARTICLE–V - TRANSPORTATION AND OTHER CHARGES

Section 5.1 Transportation Charges~~; Purchase Price~~. Shipper shall pay PGS each Month for transportation service rendered by PGS, and, if applicable, for Gas purchased from PGS, in accordance with the then-applicable rate schedule in PGS's FPSC Tariff. At the time of execution of this Agreement, Rate Schedule ___ is applicable. In the event rate schedule, CIS or a fixed rate schedule is applicable, this Agreement will automatically renew following the Initial Term at the then applicable rate schedule unless Shipper and PGS have agreed at least thirty (30) days prior to the expiration of the then current term that Rate Schedule CIS or another rate schedule shall apply.

During the Term of this Agreement, Buyer agrees to a MAT of natural gas at the Facility which will follow the schedule outlined in Section 6.2.

DOCUMENT NO. 11
PAGE 68 OF 75
FILED: 03/31/2025

Section 5.2 Changes in Tariff. If the applicable rates or rate schedules change or are amended or superseded, the newly applicable rates or rate schedules shall be applicable to service hereunder. Nothing contained herein shall prevent PGS from filing with the FPSC (or Shipper from opposing) changes to the rates and other provisions in PGS's FPSC Tariff. ~~PGS agrees to give Shipper reasonable notice of (a) all filings (except filings in FPSC Docket No. 000003-GU, In Re: Purchased Gas Adjustment (PGA) True-Up, and successor dockets) which PGS makes with the FPSC and (b) all other FPSC proceedings of which PGS becomes aware, which PGS determines would affect PGS's rates or the services to be performed by PGS under this Agreement.~~

ARTICLE VI - REQUIREMENTS

Section 6.1 Minimum Delivery Obligation. The sum of Shipper's total Gas requirements over the Term of this Agreement are estimated to be _____ Therms.

Section 6.2 Minimum Annual Take. PGS requires the following MAT for each Twelve-Month Delivery Period, or such Delivery Period as agreed upon by the Parties as applicable:

Period	Therms
1	
2	
3	
4	
5	
6	
7	
8	
9	
10	

Section 6.3 Shortfall and MAT Deficiency Charge. If the Shipper fails to take delivery of the MAT in any Twelve-Month Delivery Period, the Shipper shall pay PGS a MAT Deficiency Charge calculated as follows: the difference between the applicable MAT and the actual quantity of Gas delivered during the Twelve-Month Delivery Period, multiplied by the rate schedule in effect at the end of the Twelve-Month Delivery Period. If, during any Twelve-Month Delivery Period, the actual quantity of Gas delivered to the Facility exceeds the applicable MAT, said excess shall be carried forward to the next Twelve-Month Delivery Period for purposes of offsetting any MAT Deficiency Charge hereunder.

Section 6.4 Financial Guarantee. Shipper shall furnish to PGS an irrevocable standby letter of credit issued by a bank acceptable to PGS or such other form of guarantee acceptable to PGS (the "Financial Guarantee") in an amount equal to [_____]. PGS may adjust the amount required in the Financial Guarantee at the end of each Twelve-Month Delivery Period.

Shipper's failure to maintain the Financial Guarantee, which for the avoidance of doubt includes notice of termination of security without acceptable alternative Financial Guarantee being provided, shall constitute a default of this Agreement.

ARTICLE VII - BILLING AND PAYMENT

Section 7.1 Billing. PGS will bill Shipper each Month for all Actual Takes during the preceding Month, and for any other amounts due hereunder. If, during the preceding Month, PGS has purchased Gas from Shipper pursuant to an interruption or curtailment order, such bill shall show a credit for the estimated amount due Shipper for such purchase(s). If the estimated amount owed by PGS to Shipper exceeds the amount Shipper owes PGS, PGS shall pay Shipper the net amount estimated to be due Shipper at the time PGS bills Shipper.

Section 7.1.1 Billing of MAT Deficiency Charge(s). PGS will bill Shipper for the MAT Deficiency Charge ~~within~~no later than thirty (30) days after the end of each Twelve-Month Delivery Period.

Section 7.2 Payment. Shipper shall pay all such bills, minus any disputed amounts, at the address specified in the invoice by the 20th Day following the date of PGS's mailing (as signified by the postmark) or other delivery of the bill. All sums not so paid by Shipper (or credited or paid by PGS) shall be considered delinquent and subject to later payment schedules as set forth below.

Section 7.3 Termination Payment. If the Shipper terminates Gas Service hereunder after execution of this Agreement, Shipper shall pay PGS any MAT Deficiency Charge(s) applicable at the time of termination and any future MAT Deficiency Charge(s) pursuant to the schedule in Section 6.2. resulting from such termination (the "Termination Payment"). Shipper agrees that it will make any such Termination Payment to PGS within twenty (20) days after receipt of PGS' invoice.

Section 7.4 Billing Disputes. In the event of a bona fide billing dispute, Shipper or PGS, as the case may be, shall pay (or credit) to the other party all amounts not in dispute, and the parties shall negotiate in good faith to resolve the amount in dispute as soon as reasonably practicable. If a party has withheld payment (or credit) of a disputed amount, and the dispute is resolved, the non-prevailing party shall pay to the other party the amount determined to be due such other party, plus interest thereon at an annual rate equal to the prime interest rate of Citibank, N.A., New York, New York, plus one percent (1%), calculated on a daily basis from the date due until paid (or credited).

Section 7.5 Errors or Estimates. If an estimate is used to determine the amount due Shipper for purchases by PGS pursuant to an interruption or curtailment order, PGS shall make any adjustment necessary to reflect the actual amount due Shipper on account of such purchases in the next bill rendered to Shipper after determination of the actual amount due. An error in any bill, credit or payment shall be corrected in the next bill rendered after the error is confirmed by PGS.

Each party's performance obligation hereunder shall abate proportionately during a Force Majeure event and during any period that a party is unable to perform its obligations due to the other party's performance failure. The term of this Agreement shall be extended for a period equal to the length of any such abatement(s).

ARTICLE VIII - FAILURE TO MAKE PAYMENT

Section 8.1 Late Payment Charge. Charges for services due and rendered which are unpaid as of the past due date are subject to a Late Payment Charge of 1.5%, except the accounts of

APPENDIX A - GAS TRANSPORTATION AGREEMENT

PGS RECEIPT POINT(S)

Maximum Transportation Quantity: _____ MMBtu per Day plus the Retainage

PGS will accept Gas from Shipper, or for its account, for transportation pursuant to this Agreement at the following point(s):

The above point(s) may be changed by PGS from time to time on written notice to Shipper.

APPENDIX B - GAS TRANSPORTATION AGREEMENT

PGS DELIVERY POINT(S)

Gas transported or sold pursuant to this Agreement shall be delivered by PGS to Shipper at the following point(s):

NAME	PGS METER#	MAXIMUM DELIVERY QUANTITY
Meter at the Facility		_____ MMBtu per Day

APPENDIX C - GAS TRANSPORTATION AGREEMENT

TELEMETRY EQUIPMENT

APPENDIX D -
GAS TRANSPORTATION AGREEMENT
(APPLICABLE TO INTERRUPTIBLE CUSTOMERS)

ALTERNATIVES DURING PERIODS OF INTERRUPTION OR CURTAILMENT

If Shipper is an interruptible Customer, it may select one or more of the "~~O~~options" ~~hereinafter described~~ set forth below prior to or during a period of interruption or curtailment ~~or interruption~~. These ~~O~~options ~~set forth below~~ describe ~~means through which~~ how PGS will~~would~~ attempt to continue deliveries ~~to Shipper~~ during such a period ~~if PGS can do so in a manner that is consistent with the order of priorities of service set forth in its curtailment plan and that will not prevent service to customers in higher priorities of service than Shipper~~.

If PGS is entitled ~~under this Agreement or PGS's FPSC Tariff~~ to interrupt or curtail deliveries to Shipper for reasons other than Force Majeure, PGS will notify Shipper ~~to that effect,~~ about such interruption or curtailment. The notice ~~to~~ will include the estimated duration of the interruption or curtailment and the estimated cost of gas required for PGS to continue deliveries to Shipper ~~during the period of interruption~~. Shipper shall notify PGS in writing within two (2) hours after receipt of PGS's

~~Shipper has elected the Option(s) (if any) previously selected by Shipper in writing.~~ If Shipper ~~has failed~~ fails to make *any* election in a timely manner, ~~, either prior to PGS's notice or during the two-hour period,~~ it shall be conclusively presumed that Shipper has elected Option D below.

The Options are as follows:

Option A (PGS Receipt Point/Shipper's Own Arrangement): Shipper desires PGS to continue deliveries during the period of interruption or curtailment and Shipper agrees to make ~~available for its account (*i.e.*, to make~~ all arrangements necessary to cause the delivery of~~)~~ ~~at the PGS Receipt Point(s)~~ (1) additional quantities of Gas equal to those quantities which PGS is entitled to interrupt or curtail (2) at the PGS Receipt Point(s).

Option B (Pipeline Release Point/Capacity Release): Shipper desires PGS to continue deliveries during the period of interruption and agrees to make ~~available for its account (*i.e.*, to make~~ all arrangements necessary to cause the delivery of ~~)~~ (1) additional quantities of Gas (including the Retainage) equal to those quantities which PGS is entitled to interrupt or curtail (2) at the applicable point(s) of receipt into [_____] pipeline system~~, additional quantities of Gas (including the Retainage) equal to those quantities which PGS is entitled to interrupt. In addition, Shipper, and~~ desires PGS to release to Shipper (or to a Supplier designated by Shipper), for the duration of the period of interruption or curtailment and at the maximum rate applicable to the capacity released, primary firm capacity on [_____] sufficient to transport such additional quantities of Gas to the PGS Receipt Point(s). By election of this Option B, Shipper agrees to be responsible for the payment of all charges imposed by [_____] with respect to the capacity so released by PGS to Shipper (or Shipper's Supplier), or the use of such capacity, for the period during which such release is effective. If Shipper elects to continue deliveries during the period of interruption pursuant to this Option B, PGS agrees to release the capacity requested by Shipper if PGS determines in its sole discretion that (i) such capacity is available for release to Shipper during the period of interruption or curtailment, (ii) such release can be accomplished readily and without detriment to PGS's system operations, and (iii) such release is practicable within the time constraints and requirements of [_____] FERC Tariff and the ready availability of PGS staff and resources.

Option C (PGS as Temporary Agent): Shipper desires PGS to continue deliveries during the period of interruption or curtailment, appoints PGS as its agent to acquire (at the PGS Receipt Point(s)) additional quantities of Gas at market-based price, equal to those quantities which PGS is entitled to interrupt or curtail, to be used by Shipper during the period of interruption or curtailment, and agrees to reimburse PGS, in addition to all amounts otherwise payable for Gas pursuant to this Agreement, for the incremental additional per-Therm costs incurred by PGS (as Shipper's agent) to acquire for the account of Shipper, at the PGS Receipt Point(s), Gas to be used by Shipper during the period of interruption or curtailment. As used in this Option C, "incremental additional costs" shall mean the weighted average per-Therm costs incurred by PGS to acquire, for the accounts of Shipper and other interruptible customers of PGS who have elected this Option C during a particular period of interruption, the additional quantities of Gas mentioned above to be used by Shipper and such other interruptible customers of PGS during such period of interruption or curtailment, including but not limited to commodity, transportation, storage and other charges incurred by PGS.

Option D (No Action by Shipper): Shipper agrees to cease taking Gas pursuant to PGS's notice during the period of interruption.

If Shipper has elected to continue deliveries pursuant to one of ~~-~~Options A, ~~Option~~ B, or ~~Option~~ C, PGS will, in implementing its interruption or curtailment notice, take and pay for Shipper's Gas as

COMPREHENSIVE PROCEDURAL REVIEW

SEACOAST GAS TRANSMISSION COST ASSIGNMENT AND ALLOCATION

SeaCoast Gas Transmission Operations Overview

SeaCoast Gas Transmission, LLC ("SeaCoast") designs, constructs and operates intrastate natural gas transmission pipelines in Florida. SeaCoast provides extensive access to diverse natural gas supply sources across the state. SeaCoast received tariff approval from the Florida Public Service Commission in November 2008 as a non-rate regulated transmission company. SeaCoast is a wholly owned subsidiary of TECO Gas Operations, Inc., which is a wholly owned subsidiary of TECO Holdings, Inc, which is a wholly owned subsidiary of Emera United States Holdings, Inc., which is a wholly owned subsidiary of Emera Incorporated ("Emera"). SeaCoast is a sister company to Peoples Gas System, Inc. ("PGS") in that both entities are wholly-owned subsidiaries of TECO Gas Operations, Inc. SeaCoast's assets and operations encompass the following four intrastate pipelines.

SeaCoast Pipeline

Completed in 2010, the 25-mile SeaCoast Pipeline was the first intrastate pipeline constructed in the state. The pipeline provides long-term transportation of natural gas to Jacksonville Electric Authority's Greenland Energy Center from the Florida Gas Transmission and Southern Natural Gas transmission pipelines in northeast Florida.

Callahan Intrastate Pipeline

A joint pipeline between SeaCoast and Peninsula Pipeline Company, a subsidiary of Chesapeake Utilities Corporation, the Callahan Pipeline brings additional natural gas capacity to Nassau and

Duval Counties. Facilities include a 26.5-mile-long joint natural gas pipeline, which initiates from a gate station near Crawford Road in Callahan, Florida, to Radio Avenue and Highway 17 in Yulee, Florida. SeaCoast's partner in the project, Peninsula Pipeline Company, fully maintains this pipeline. The project was completed in the fall of 2020.

Seminole Palatka Pipeline

The 21-mile Seminole Lateral in Putnam County transports natural gas from the Florida Gas Transmission interstate pipeline to Seminole Electric Cooperative's Palatka power plant. Service is provided under a 34-year contract with renewal options for an additional 16 years. This project was in-service in the spring of 2022.

SW Lakeland Expansion

The 3.5-mile SW Lakeland pipeline in Hillsborough and Polk Counties serve as a back feed to Peoples Gas' Lakeland distribution system to help supply existing commercial and residential customers and support future expansion of large industrial infrastructure in the surrounding area. This expansion was also completed in 2022.

Operations

SeaCoast is limited to these four pipelines and therefore does not have its own dedicated employees. The four SeaCoast pipelines are operated and maintained by PGS, third party contractors, and Peninsula Pipeline Company in the case of the Callahan pipeline. Some indirect shared service support is provided to SeaCoast by Tampa Electric Company and Emera.

I. PURPOSE OF ASSIGNMENT OF COSTS

The purpose of assigning costs to operating companies is to distribute appropriately all the costs of doing business to each of the applicable operating companies. It is also to prevent subsidization of a non-regulated affiliate product or service by a regulated affiliate or subsidization of a regulated affiliate by another regulated affiliate. With regard to shared services, the cost to provide such services shall be assigned to the companies benefiting from such services. Through the allocation process, the financial result of operations of each operating company reflects the costs of each operating company as though each had operated independently of all others. This purpose is consistent with the cost allocation principles outlined in the National Association of Regulatory Utility Commissioners' "Guidelines for Cost Allocations and Affiliate Transactions" in that the general method for charging affiliates should be on a fully allocated cost basis. Cost assignment methods utilized by PGS, Tampa Electric Company and Emera supporting SeaCoast are based on selected cost drivers using the following criteria:

- cost causative,

- measurable,
- objective,
- stable or predictable, and,
- consistent and applicable.

The cost allocation methodology employed herein has been designed to be flexible for Peoples and SeaCoast. Flexibility is necessary to allow for changes in the application of a different assignment methodology based on a review of the five criteria above.

As changes in organizational structure or allocation methodology occur, PGS will update this Comprehensive Procedural Review ("CPR") accordingly.

II. ASSIGNMENT OF DIRECT AND INDIRECT COSTS TO SEACOAST

The costs are attributed to SeaCoast in one of four ways. The first is when affiliate team members direct charge their labor to SeaCoast. The second is through a standard labor distribution where Peoples team members distribute a fixed percentage of their time to SeaCoast, which are periodically reviewed and adjusted for any changes in an individual's support of SeaCoast. Both of these are considered direct costs for each team member's support of SeaCoast. Third, for some Shared Services provided by Tampa Electric, costs to affiliates including SeaCoast that receive the service using a cost causative statistical driver (assessment). The last is through an overhead allocation using a Modified Massachusetts Method ("MMM."). Further discussion of each is provided below.

Direct costs are those labor and non-labor costs (e.g., non-labor costs can include services purchased from third party providers) that are specifically identifiable and associated with services provided to SeaCoast. When labor costs are direct charged to SeaCoast from PGS and other affiliates, a benefits allocation at 29% of labor cost and payroll taxes at 8% of labor cost are added. Direct costs to SeaCoast may include an allocation of the non-labor costs equal to a percentage of the direct labor charges incurred for that affiliate.

The ERP (SAP) system allows PGS employees to directly charge their labor to SeaCoast. As part of a PGS A&G study also conducted in 2024, a thorough review and survey of PGS employee time spent supporting SeaCoast was conducted. Due to the limited amount of assets, the relatively young age of the four pipelines, and the absence of any new capital project in development or construction since 2022, the survey results showed that actual PGS employees' time directly involved in supporting SeaCoast operations or project development was limited to certain departments. The PGS departments that routinely provide direct support to SeaCoast, such as Gas Control, Commercial Development & Fuels and Gas Operations, charge SeaCoast directly for their labor hours. Labor hours can be directly charged through positive time entry on timesheets or through a Standard Labor Distributions that reflects a reasonable estimate of what the individual routinely works on. For example, Commercial Development & Fuels team members that are on standby to evaluate potential SeaCoast projects include an allocation of their

FILED: 03/31/2025

time to SeaCoast in their Standard Labor Distributions. When projects move forward for development or are under construction, additional PGS Commercial Development & Fuels, Engineering and Construction and Supply Chain employees supporting those efforts directly charge SeaCoast on their timesheets.

In addition to affiliate support, SeaCoast routinely contracts directly with third parties for major maintenance activities and when a project is under construction, it is performed by third parties. A separate purchase order is required for SeaCoast in most cases, which allows SeaCoast to be invoiced directly. In the case of a third-party payment that is made by PGS, but shared with SeaCoast, a manual journal entry may be required to transfer the appropriate share of costs to SeaCoast.

Indirect costs are those labor and non-labor costs incurred in providing services to affiliates, but which do not relate to a specific, individual affiliate. For indirect support and overhead, costs are allocated to SeaCoast by PGS, Tampa Electric and Emera using MMM calculations. The PGS MMM is driven by three factors: (i) Net Revenue, (ii) Payroll and Benefits, and (iii) Property, Plant and Equipment. The calculated MMM percentage is applied to the budgeted expense of the cost centers that provide overhead support to SeaCoast.

In PGS' last rate case, the company determined that the Payroll and Benefits component needed to be modified because SeaCoast did not have its own employees and not including any payroll and benefits did not fairly reflect the scale of SeaCoast operations. Therefore, the payroll and benefits costs sent to SeaCoast from PGS and other affiliates was applied as SeaCoast's Payroll and Benefits component factor in determining the PGS MMM allocation of indirect overhead costs. PGS evaluated this methodology change as part of this CPR and concluded that it was the most practical and appropriate adjustment to the Payroll and Benefits component of the MMM allocation. Therefore, the modification was included in PGS' 2024 MMM calculations. Also, as a result of the CPR, additional departments (i.e., cost centers) providing indirect support to Seacoast were added to the pool of corporate dollars that are allocated from PGS to SeaCoast (see MFR schedule C-6). This change increased the MMM allocation to SeaCoast.

Some Shared Service costs are assessed by Tampa Electric to the affiliates receiving those services using cost causation principles linked to the relationship of the type of service provided or cost being assessed. As an example, SeaCoast receives an assessment of Shared Service accounts payable department costs from Tampa Electric, based on the number of invoices, and is an example of an assessment based on statistical cost drivers.

III. ALLOCATION BASIS

Below is an example of the MMM allocation used in 2024:

PGS and SeaCoast Only*	PGS		SGT		TOTAL	
	$	%	$	%	$	%
Net Revenue	381,183	92.9%	29,016	7.1%	410,199	100.0%
Payroll and Benefits	77,657	98.6%	1,124	1.4%	78,781	100.0%
PP&E (gross)	3,224,650	94.2%	197,392	5.8%	3,422,042	100.0%
Average		95.2%		4.8%		100.0%

Below is the base that the MMM percentage is applied to. Those cost centers that directly charge SeaCoast or are not relevant (such as customer experience) are excluded from the base:

	2024 Budget	Less Adj	Allocable	SeaCoast Percentage	SGT Portion	TPI Percentage	TPI Portion
Customer Experience - related	4,406,509	-	4,406,509	0.0%	-	4.0%	176,260
PGS External Affairs	2,318,796		2,318,796	4.8%	110,282	0.0%	-

	69,096,060		55,248,614		2,407,080		534,495

IV. EXPECTED CHANGES IN 2025 FROM CURRENT PROCEDURE

SeaCoast currently receives rent and associated costs allocated from Tampa Electric via the PGS Facilities cost center which is included in the PGS MMM allocation. Beginning in mid-2025, SeaCoast will receive rent expense directly from PGS. The allocation of the rent charge from PGS will include the associated depreciation, taxes, interest and the most recent Commission approved return on equity. The shared building maintenance and other costs will be allocated through the MMM as they currently are.

IV. CONCLUSION

The current methods for assigning costs to SeaCoast are reasonable and appropriately apply the cost allocation principles outlined in the National Association of Regulatory Utility Commissioners' "Guidelines for Cost Allocations and Affiliate Transactions". Charging SeaCoast directly for labor services when services are specifically provided to SeaCoast is appropriate. For PGS individual team members in the Commercial Development & Fuels department that routinely are on standby to support the evaluation and assessment of potential SeaCoast projects, their time is appropriately being direct charged to SeaCoast through their individual Standard Labor Distribution. For whole departments supporting SeaCoast on a day-to-day basis and there are cost causative statistical drivers available, those costs are reasonably allocated based on those available statistics. For all other departments that indirectly support SeaCoast, costs are reasonably allocated using the MMM calculation discussed above that was adjusted in 2024 to appropriately reflect that SeaCoast did not have any employees. In conclusion, the costs assigned and allocated to SeaCoast from PGS and other affiliates in 2024 are reasonable and appropriate.

SeaCoast capital projects drive increases in labor (Real Estate, Legal, Engineering) and outside services/consultants. The Callahan project, which was fully managed by Peninsula Pipeline, was completed in 2020. Additionally, the Seminole Palatka Pipeline and SW Lakeland projects were both completed in 2022. The fluctuations in labor in the graph below are in line with capital project timing. The amounts below do not include outside services.

Peoples Gas System
Brief Summary of Common Equity Cost Rate

Line No.	Principal Methods	Proxy Group of Seven Natural Gas Companies	Proxy Group of Seven Natural Gas Companies (exc. PRPM)
1.	Discounted Cash Flow Model (DCF) (1)	10.50%	10.50%
2.	Risk Premium Model (RPM) (2)	10.84%	10.85%
3.	Capital Asset Pricing Model (CAPM) (3)	11.18%	11.17%
4.	Market Models Applied to Comparable Risk, Non-Price Regulated Companies (4)	11.88%	11.87%
5.	Indicated Common Equity Cost Rate before Adjustment for Unique Risk	10.50% - 11.18%	10.50% - 11.17%
6.	Size Adjustment (5)	0.20%	0.20%
7.	Credit Risk Adjustment (6)	0.00%	0.00%
8.	Flotation Cost Adjustment (7)	0.08%	0.08%
9.	Indicated Common Equity Cost Rate after Adjustment	10.78% - 11.46%	10.78% - 11.45%
10.	Recommended Common Equity Cost Rate	11.10%	11.10%

Notes:
(1) From page 1 of Document No. 3.
(2) From page 1 of Document No. 4.
(3) From page 1 of Document No. 5.
(4) From page 1 of Document No. 7.
(5) Size adjustment to reflect the Company's smaller size compared to the Utility Proxy Group's as detailed in the accompanying Direct Testimony.
(6) The company does not have a credit rating from Moody's. However, it's A- rating from Fitch Ratings is consistent with an A3 rating from Moody's. No credit risk adjustment is necessary as the bond rating of the company (A- from Fitch Ratings) is identical to the average credit rating of the utility proxy group (A3).
(7) From Document No. 9.

Notes:

(1) All capitalization and financial statistics for the group are the arithmetic average of the achieved results for each individual company in the group, and are based upon financial statements as originally reported in each year.

(2) Computed by relating actual total debt interest or preferred stock dividends booked to average of beginning and ending total debt or preferred stock reported to be outstanding.

(3) Total debt relative to EBITDA (Earnings before Interest, Income Taxes, Depreciation and Amortization).

(4) Funds from operations (sum of net income, depreciation, amortization, net deferred income tax and investment tax credits, less total AFUDC) plus interest charges as a percentage of total debt.

Notes:

(1) Indicated dividend at 01/15/2025 divided by the average closing price of the last 60 trading days ending 01/15/2025 for each company.
(2) From pages 2 through 8 of this Document No..
(3) Average of columns 2 through 4 excluding negative growth rates.
(4) This reflects a growth rate component equal to one-half the conclusion of growth rate (from column 5) x column 1 to reflect the periodic payment of dividends (Gordon Model) as opposed to the continuous payment. Thus, for Atmos Energy Corporation, 2.45% x (1+(1/2 x 7.17%)) = 2.54%.
(5) Column 5 + Column 6.
(6) Results were excluded from the final average and median as they were more than two standard deviations from the proxy group's mean.

BUSINESS: Atmos Energy Corporation is engaged primarily in the distribution and sale of natural gas to over three million customers through six regulated natural gas utility operations: Louisiana Division, West Texas Division, Mid-Tex Division, Mississippi Division, Colorado-Kansas Division, and Kentucky/Mid-States Division. Gas sales breakdown for fiscal 2023: 66.5%, residential; 28.0%, commercial; 3.8%, industrial; and 1.7% other. The company sold Atmos Energy Marketing, 1/17. Officers and directors own approximately .5% of common stock (12/23 Proxy). President and Chief Executive Officer: Kevin Akers. Incorporated: Texas. Address: Three Lincoln Centre, Suite 1800, 5430 LBJ Freeway, Dallas, Texas 75240. Telephone: 972-934-9227. Internet: www.atmosenergy.com.

Atmos Energy Corporation ought to exhibit bottom-line improvement, once again, in fiscal 2025 (which started on October 1st). We believe that will be brought about partially by the distribution division, supported to a large extent by benefits of higher rates plus an expanded customer base. The pipeline and storage unit stands to have a better performance, too. Even though the company's effective income tax rate may well climb, we look for earnings per share to be in the neighborhood of $7.20. That would show a 5% increase from fiscal 2024's $6.83 tally. Concerning the following fiscal year, profits might advance at a similar percentage rate, to $7.55 a share, as operating margins widen further.

Capital spending for fiscal 2025 is expected to be roughly $3.7 billion. That is some 26% higher than the prior-year level of around $2.9 billion. Similar to fiscal 2024, a considerable portion of the resources are being utilized to enhance the safety and reliability of Atmos Energy's natural gas distribution and transmission systems. Leadership adds that it projects total capital expenditures from fiscal 2025 through fiscal 2029 to be roughly $24 billion. A meaningful amount of the investments will continue to be deployed to where they are presently. Assuming that the balance sheet remains healthy, the company ought to have little trouble achieving those goals.

The quarterly common stock dividend was raised around 8%, to $0.87 per share. What's more, we anticipate additional steady hikes in the distribution out to 2027-2029. The payout ratio over that span should be manageable, in the vicinity of 50%.

These top-quality shares have reached fresh highs since our last full-page report in August. It appears that price movement stems partially from investor optimism regarding the energy firm's near-term prospects. But 3- to 5-year capital appreciation potential is minimal, even after raising our Target Price Range. Too, the dividend yield is not exciting versus *Value Line's* Natural Gas Utility Industry average. Meanwhile, the stock possesses a 4 (Below Average) rank for Timeliness.

BUSINESS: New Jersey Resources Corp. is a holding company providing retail/wholesale energy svcs. to customers in NJ, and in states from the Gulf Coast to New England, and Canada. New Jersey Natural Gas had 576,000 cust. at 9/30/23. Fiscal 2023 volume: 128 bill. cu. ft. (23% interruptible, 50% residential, commercial & firm transportation, 27% other). N.J. Natural Energy subsidiary provides unregulated retail/wholesale natural gas and related energy svcs. 2023 dep. rate: 2.8%. Has 1,350 empls. Off./dir. own less than 1% of common; BlackRock, 15.9%; Vanguard, 11.4% (12/23 Proxy). CEO, President & Director: Steven D. Westhoven. Incorporated: New Jersey. Address: 1415 Wyckoff Road, Wall, NJ 07719. Telephone: 732-938-1480. Web: www.njresources.com.

New Jersey Resources likely ended fiscal 2024 on a good note. (Fiscal year ended September 30th.) The company reported earnings per share of $2.06 over the first nine months, down from $2.40 in the year before. The broader energy markets have been volatile over the past two-plus years, but New Jersey Resources' diverse business mix has helped to smooth out some turbulence. Still, the negative overall comparison factors in multiple benefits unique to 2023, including a winter storm event and a tax valuation allowance. As such, operating results have generally expanded at a steady pace. Similarly, we expect a good operating result was reached in the fiscal-fourth quarter. However, our target of $0.84 per share is bolstered by the likely recognition of significant revenue from asset management agreements within the Energy Services segment. This should bring the year-end tally to $2.90 per share.

Looking ahead, earnings growth may stall somewhat in the absence of similar beneficial items. The bottom-line comparison may be more challenging next year without specific financial items to bolster results. However, core operations are likely to maintain the pace. The ongoing base rate case for NJ Natural Gas is proceeding, and could be resolved before the start of 2025, which would surely help results. Unfortunately, the company has planned significant investment of up to $1.5 billion over the next two years, targeting the utility infrastructure as well as renewable energy projects. The latter of these planned investments could face headwinds with the potential for shifts in renewable energy policies and incentives, adding a degree of uncertainty and risk. The potential for tariffs may also elevate maintenance and other operating costs.

The stock doesn't offer strong price appreciation potential over the long run, at the recent quotation. To its credit, the company did recently raise its dividend by 7%, to $0.45 per share. Investors may also appreciate the stock's Safety rank of 2 (Above Average). However, other stocks within the industry appear to offer better price appreciation potential for those looking to gain exposure to regulated gas utilities.

Earl B. Humes *November 22, 2024*

(A) Fiscal year ends Sept. 30th.
(B) Diluted earnings. Qtly. revenues and egs. may not sum to total due to rounding and change in shares outstanding. Next earnings report due November 25th.
(C) Dividends historically paid in early Jan., April, July, and October. ■ Dividend reinvestment plan available.
(D) Includes regulatory assets in 2023: $585 million, $6.00/share.
(E) In millions, adjusted for 3/15 split.

BUSINESS: NiSource Inc. is a holding company for Northern Indiana Public Service Company (NIPSCO), which supplies electricity and gas to the northern third of Indiana. Customers: 488,833 electric in Indiana, 3,200,000 gas in Indiana, Ohio, Pennsylvania, Kentucky, Virginia, Maryland, through its Columbia subsidiaries. Revenue breakdown, 2023: electrical, 32%; gas, 67%; other, less than 1%. Generating capacity, coal, 69.4%; purchased & other, 30.6%. 2023 reported depreciation rates: 3.5% electric, 2.4% gas. Has 7,364 employees. Chairman: Richard L. Thompson. President & Chief Executive Officer: Lloyd Yates. Incorporated: Indiana. Address: 801 East 86th Avenue, Merrillville, Indiana 46410. Telephone: 877-647-5990. Internet: www.nisource.com.

NiSource posted a better third-quarter profit than we expected. The earnings figure was steady versus both the year before and the prior quarter. We had thought the bottom line would dip to $0.13 per share during the gas utility's low season. Instead, higher rate base investments brought in an additional $61 million in revenues, and financing benefits added $26 million to the bottom line. Taking a closer look, the company's performance has been bolstered by lower energy costs, providing a significant boost to margins. However, depreciation expense is also rising rapidly, as the company is currently investing heavily in new capital projects aimed at infrastructure hardening and expanding upon clean-energy programs. Interest expense is up, too, as a result. On balance, the bottom-line has expanded nicely over the first nine months.

The good recent operating performance may come up against headwinds in the near term. As noted, the company has benefited from energy prices, due to a cost-pass-through mechanism that typically lags twelve months. Otherwise, the company has had to contend with some cost inflation. We think its probable that the lower energy costs will soon subside, leaving higher operating costs that will pressure earnings growth. To wit, management appears to agree, as our full-year 2024 bottom-line target of $1.75 is at the top of their guidance range. We've cut our full-year 2025 target by $0.05 as well, to $1.80, reflecting the recent share-count expansion of roughly 4%, per the end of the most recent quarter.

NiSource's current capital investment cycle is a key driver for future performance. Leadership updated its five-year capital plan to $19.3 billion, an increase of $2.9 billion from prior expectations. This focuses further on investments in power generation, gas compliance, infrastructure hardening, and modernization of technology systems. The plan aims to drive an 8% to 10% rate base growth.

The shares have gained over 45% in price these past twelve months, and currently trade within the bounds of our 3- to 5-year projections. Other investment opportunities show greater upside potential at this juncture.

BUSINESS: Northwest Natural Holding Co. distributes natural gas to 1,000 communities, 795,000 customers, in Oregon (88% of customers) and in southwest Washington state. Principal cities served: Portland and Eugene, OR; Vancouver, WA. Service area population: 3.7 mill. (77% in OR). Company buys gas supply from Canadian and U.S. producers; has transportation rights on Northwest Pipeline system. Owns local underground storage. Rev. breakdown: residential, 38%; commercial, 23%; industrial, gas transportation, 39%. Employs 1,380. BlackRock Inc. owns 17.6% of shares; Vanguard, 12.4%; Off./Dir., .84% (4/24 proxy). CEO: David H. Anderson. Inc.: Oregon. Address: 220 NW 2nd Ave., Portland, OR 97209. Tel.: 503-226-4211. Internet: www.nwnatural.com.

Northwest Natural's stock is up 12% in price since our late August review. The shares reached a twelve-month high on Tuesday, November 12th, after the company posted earnings results. The gas utility notched a loss of $0.71 per share, in line with our forecast, for the business' low season quarter. Management's commentary helped to improve investors' sentiment as it provided an update on the Oregon gas utility rate case and detailed various strategic objectives.

The third quarter was mostly in line with expectations. The earnings per share declined year over year, primarily as a result of regulatory lag on capital investments, as well as inflationary pressures. Operating expenses rose, including a $1.3 million rise in labor and material costs, and a $3.6 million increase in depreciation and general taxes. Other income also decreased $4.6 million from lower interest income and higher pension expense. Consolidated, net losses were $3.5 million worse this year, or $0.05 per share.

We expected earnings per share to bottom out this year, and begin to improve markedly by the end of 2025. The completion of the Oregon rate case is expected to improve earnings and resolve the regulatory lag. Capital expenditures are likely to be stable or lower next year as the company focuses primarily on safety and reliability projects. The acquisition of Putman Infrastructure and through Infrastructure Capital Holdings (ICH) by the water services subsidiary should help to expand that niche. Too, the completion of two landfill natural gas facilities should contribute to good results expected ahead.

Our long-term earnings-growth forecast is slightly above management's own target range. We expect strong economic fundamentals, including a steady regional economy, a good customer expansion rate, and a recent rise in single-family housing permits, will drive core utility performance, though, as we've seen this year, the regulatory environment remains a risk. We've targeted 6.5% earnings per share growth, compared to Northwest's guidance of 4% to 6%.

These shares could be of interest to long-term investors seeking a good-value position with a utility company.

The shares of ONE Gas, Inc. began trading "regular-way" on the New York Stock Exchange on February 3, 2014. That happened as a result of the separation of ONEOK's natural gas distribution operation. Regarding the details of the spinoff, on January 31, 2014, ONEOK distributed one share of OGS common stock for every four shares of ONEOK common stock held by ONEOK shareholders of record as of the close of business on January 21. It should be mentioned that ONEOK did not retain any ownership interest in the new company.

Bold figures are Value Line estimates

BUSINESS: ONE Gas, Inc. provides natural gas distribution services to more than two million customers. There are three divisions: Oklahoma Natural Gas, Kansas Gas Service, and Texas Gas Service. The company purchased 160 Bcf of natural gas supply in 2023, compared to 165 Bcf in 2022. Total volumes delivered by customer (fiscal 2023): transportation, 59.3%; residential, 29.7%; commercial & industrial, 10.6%; other, .4%. ONE Gas has around 3,900 employees. BlackRock owns 14.5% of common stock; The Vanguard Group, 11.6%; American Century Investment, 7.5%; officers and directors, 1.5% (4/24 Proxy). CEO: Robert S. McAnnally. Incorporated: Oklahoma. Address: 15 East Fifth Street, Tulsa, Oklahoma 74103. Tel.: 918-947-7000. Internet: www.onegas.com.

ONE Gas appears to be headed for a down year. Indeed, through the first nine months, profits of $2.57 per share were 10.5% below the $2.87 figure that was generated for the same period in 2023. That partly reflected higher employee-related costs, stemming from planned investments in the company's workforce and ongoing in-sourcing efforts. Depreciation & amortization expense increased, too, given additional capital investments. Moreover, sales volumes declined and interest charges climbed. But new rates aided results to a certain degree during the period. Although we do not anticipate any big problems for ONE Gas in the fourth quarter, the bottom line stands to end up around $3.85 a share for the whole year. That would indicate a 7% decrease from 2023's $4.14 tally. But concerning 2025, a 5% or so recovery, to $4.05 per share, seems plausible, assuming that the operating environment is generally favorable.

Business prospects out to 2027-2029 look promising. The company is the leading natural gas distributor, as measured by number of customers, in both Oklahoma and Kansas, and holds the number-three position in Texas. Furthermore, we believe these markets have decent growth potential and are located in one of the most active drilling areas in the United States. Also, supported by the sound finances, ONE Gas ought to continue to satisfy its obligations (including capital expenditures and working capital requirements) with little trouble.

There are risk factors to consider, though. The company's lack of geographic diversification leaves it somewhat more vulnerable to regional economic downturns and regulations. Moreover, there's competition from other energy suppliers, such as propane dealers and electric companies. Finally, pipeline ruptures, leaks, and other unfortunate events can take a major toll on earnings if not adequately covered by insurance.

What about the stock? The dividend yield looks respectable when stacked against other equities in *Value Line's* Natural Gas Utility Industry. However, capital gains possibilities over the 3- to 5-year span are unspectacular, at the recent quotation. These shares are untimely, too.

Frederick L. Harris, III November 22, 2024

BUSINESS: Southwest Gas Holdings, Inc. is the parent holding company of Southwest Gas. Centuri Group spun-off 4/22/24. Southwest Gas is a regulated gas distributor serving 2.2 million customers in Arizona, Nevada, and California. 2023 marg'n mix: residential 68%; small commercial, 20%; large commercial and industrial, 8%; transportation, 4%. Total throughput: 2.2 billion therms. Southwest has 2,371 employees; Centuri 12,572. Off. & dir. own .4% of common stock; Carl C. Icahn, 15.4%; BlackRock, 13.0%; The Vanguard Group, 10.1%; (3/24 Proxy). Chairman: Michael J. Melarkey. Pres. & CEO: Karen S. Haller. Inc.: DE. Address: 8360 S. Durango Drive, P.O. Box 98510 Las Vegas, Nevada 89193. Telephone: 702-876-7237. Internet: www.swgas.com.

Southwest Gas Holdings delivered another weaker-than-expected quarterly performance in the September period. Following the 2024 spin-off of the Centuri Group, the business has posted two quarters of year-over-year earnings declines. To be fair, the September and June periods both reflect the low season for gas usage, so Southwest's breakeven performance is not necessarily indicative of the utility's performance. In fact, Southwest Gas Corporation, the regulated utility business, achieved a significant expansion of operating profit compared to the previous year, as a result of rate relief from earlier investments made in Nevada and California, along with good customer growth trends. The poor comparison was actually a result of challenges at the Centuri Group, of which Southwest Holdings maintains an approximately 80% ownership interest. As such, Southwest's financial statements still present consolidated results. Centuri, the infrastructure services subsidiary, faced reduced work volumes and operational issues that led to higher costs and lower margins. Higher interest expense is also impacting earnings.

We've cut our near-term earnings forecasts to reflect recent headwinds. The utility should continue to perform well, but losses at Centuri are likely to subtract from results. We've lowered our profit target from $240 million (which is what the utility business is likely to earn independently) to $200 million. The recently refreshed rate structures and other key rate cases on the horizon exemplify the impetus for simplifying the company's operations away from auxiliary businesses. However, the separation of Centuri remains uncertain, contingent on market conditions that will influence the timing and structure of a sale. Until then, challenges at the Centuri group could create headwinds for Southwest's bottom line. We've cut our earnings-per-share targets from $3.25 in 2024 and $3.90 in 2025 to $2.80 and $3.60, respectively.

The stock has risen 9% in price since our August review. Despite the struggle at Centuri, investors are likely impressed with the gas utility's operating strength. We think conservative accounts may enjoy the dividend and lower risk here.

Earl B. Humes *November 22, 2024*

BUSINESS: Spire Inc., formerly known as the Laclede Group, Inc., is a holding company for natural gas utilities, which distributes natural gas across Missouri, including the cities of St. Louis and Kansas City, Alabama, and Mississippi. Has roughly 1.7 million customers. Acquired Missouri Gas 9/13, Alabama Gas Co 9/14. Utility therms sold and transported in fiscal 2023: 3.2 bill. Revenue mix for regulated operations: residential, 67%; commercial and industrial, 25%; transportation, 5%; other, 3%. Officers and directors own 2.9% of common shares; American Century Companies, 15.4% (12/23 proxy). Chairman: Edward Glotzbach; CEO: Steve Lindsey. Inc.: Missouri. Address: 700 Market Street, St. Louis, Missouri 63101. Tel.: 314-342-0500. Internet: www.spireenergy.com.

It appears that Spire managed to post healthy bottom-line results in fiscal 2024, which concluded September 30th. (Please be aware that fourth-quarter figures were not disclosed to the public when this report went to press.) Recall that during the first nine months, earnings per share increased 7%, to $4.82, compared to the previous-year tally of $4.51. That was brought about partly by the Gas Utility division, which benefited from new rates. The Midstream unit and Gas Marketing segment had improved performances for that period, as well. If there were no big setbacks in the fourth quarter, we think full-year profits rebounded about 12%, to $4.30 a share, relative to fiscal 2023's $3.85 total.

Concerning fiscal 2025, earnings per share stand to grow in the mid-single-digit percentage range, to $4.55. This is based, to a certain extent, on our assumption that the business climate is generally favorable. Improvements in operating efficiencies ought to provide further assistance.

Corporate finances are sufficient. When the third quarter concluded, cash and equivalents were $7.4 million. Too, there was $1.3 billion available through a revolving credit facility maturing in July, 2027. Also, long-term debt resided at a manageable 50% of total capital, and short-term borrowings were not a major problem.

Prospects out to the end of the decade look decent. The gas utilities currently serve about 1.7 million customers in Mississippi, Alabama, and Missouri. Moreover, the other operations, particularly pipelines, hold promise. Additional expansionary projects and technological enhancements in customer service and elsewhere should be beneficial to Spire, as well. Finally, future acquisitions are probable, supported, of course, by the sound balance sheet.

The good-quality stock might be of interest to income-focused investors. Indeed, the dividend yield stacks up nicely relative to those of other equities in *Value Line's* Natural Gas Utility Industry. What's more, we anticipate further steady increases in the payout over the 2027-2029 span.

Frederick L. Harris, III November 22, 2024

(A) Fiscal year ends Sept. 30th. (B) Based on diluted shares outstanding. Excludes gain from discontinued operations: '08, 94¢. Next earnings report due late Jan. (C) Dividends paid in early January, April, July, and October. ■ Dividend reinvestment plan available. (D) Incl. deferred charges. In '23: $1,171.6 mill., $22.02/sh. (E) In millions. (F) Qtly. egs. may not sum due to rounding or change in shares outstanding.

6.	Conclusion of Equity Risk Premium	7.49 %	7.47 %
7.	Adjusted Beta (6)	0.79	0.79
8.	Forecasted Equity Risk Premium	5.92 %	5.90 %

Notes:

(1) Based on the arithmetic mean historical monthly returns on large company common stocks from Kroll 2023 SBBI® Yearbook and Bloomberg Professional Services minus the arithmetic mean monthly yield of Moody's average Aaa and Aa2 corporate bonds from 1928-2024.

(2) This equity risk premium is based on a regression of the monthly equity risk premiums of large company common stocks relative to Moody's average Aaa and Aa2 rated corporate bond yields from 1928-2024 referenced in Note 1 above. Using the equation generated from the regression, an expected equity risk premium is calculated using the average consensus forecast of Aaa corporate bonds of 5.18% (from page 1 of this Document).

(3) The Predictive Risk Premium Model (PRPM) is discussed in the accompanying direct testimony. The Ibbotson equity risk premium based on the PRPM is derived by applying the PRPM to the monthly risk premiums between Ibbotson large company common stock monthly returns and average Aaa and Aa corporate monthly bond yields, from January 1928 through December 2024.

(4) The equity risk premium based on the Value Line Summary and Index is derived by subtracting the average consensus forecast of Aaa corporate bonds of 5.18% (from page 1 of this Document No.) from the projected 3-5 year total annual market return of 10.79% (described fully in note 1 on page 2 of Document No. 5).

(5) Using data from the Bloomberg Professional Services, Value Line, and S&P Global Market Intelligence for the S&P 500, an expected total return of 16.33% was derived based upon expected dividend yields as a proxy for income returns and long-term earnings growth estimates as a proxy for capital appreciation. Subtracting the average consensus forecast of Aaa corporate bonds of 5.18% results in an expected equity risk premium of

(6) Average of mean and median beta from Document No. 5.

Long-Range Survey:

The table below contains the results of our twice-annual long-range CONSENSUS survey. There are also Top 10 and Bottom 10 averages for each variable. Shown are consensus estimates for the years 2026 through 2030 and averages for the five-year periods 2026-2030 and 2031-2035. Apply these projections cautiously. Few if any economic, demographic and political forces can be evaluated accurately over such long time spans.

Projected Market Appreciation of the S&P Utility Index
Derivation of Mean Equity Risk Premium Based Studies
Using Holding Period Returns and
Projected Market Appreciation of the S&P Utility Index

Line No.		Implied Equity Risk Premium	Implied Equity Risk Premium (excl. PRPM)
1.	Historical Equity Risk Premium (1)	4.16 %	4.16 %
2.	Regression of Historical Equity Risk Premium (2)	4.91	4.91
3	Forecasted Equity Risk Premium Based on PRPM (3)	4.72	NA
4.	Forecasted Equity Risk Premium based on Projected Total Return on the S&P Utilities Index (Bloomberg, Value Line, and S&P Capital IQ Data) (4)	5.54	5.54
5.	Average Equity Risk Premium (5)	4.83 %	4.87 %

Notes:
(1) Based on S&P Public Utility Index monthly total returns and Moody's Public Utility Bond average monthly yields from 1928-2024. Holding period returns are calculated based upon income received (dividends and interest) plus the relative change in the market value of a security over a one-year holding period.
(2) This equity risk premium is based on a regression of the monthly equity risk premiums of the S&P Utility Index relative to Moody's A2 rated public utility bond yields from 1928 - 2024 referenced in note 1 above. Using the equation generated from the regression, an expected equity risk premium is calculated using the prospective A2 rated public utility bond yield of 5.60% (from line 3, page 1 of this Document).
(3) The Predictive Risk Premium Model (PRPM) is applied to the risk premium of the monthly total returns of the S&P Utility Index and the monthly yields on Moody's A2 rated public utility bonds from January 1928 through December 2024.
(4) Using data from Bloomberg, Value Line, and S&P Capital IQ for the S&P Utilities Index, an expected return of 11.14% was derived based on expected dividend yields as a proxy for income returns and long-term growth estimates as a proxy for market appreciation. Subtracting the expected A2 rated public utility bond yield of 5.60%, calculated on line 3 of page 1 of this Document results in an equity risk premium of 5.54%. (11.14% - 5.60% = 5.54%).
(5) Average of lines 1 through 4.

Peoples Gas System
Notes to Accompany the Application of the CAPM and ECAPM

Notes:

(1) The market risk premium (MRP) is derived by using five different measures from four sources: Kroll, Value Line, Bloomberg, and S&P Capital IQ as illustrated below:

Measure 1: Kroll Arithmetic Mean MRP (1926-2024)

Arithmetic Mean Monthly Returns for Large Stocks 1926-2024:	12.29 %
Arithmetic Mean Income Returns on Long-Term Government Bonds:	4.99
MRP based on Kroll Historical Data:	7.31 %

Measure 2: Application of a Regression Analysis to Kroll Historical Data
(1926-2024) 8.06 %

Measure 3: Application of the PRPM to Kroll Historical Data
(January 1928 through December 2024) 8.45 %

Measure 4: Value Line Projected MRP (Thirteen weeks ending January 17, 2025)

Total projected return on the market 3-5 years hence*:	10.79 %
Risk-Free Rate (see note 2):	4.44
MRP based on Value Line Summary & Index:	6.35 %

*Forcasted 3-5 year capital appreciation plus expected dividend yield

Measure 5: Bloomberg, Value Line, and S&P Capital IQ Projected Return on the Market based on the S&P 500

Total return on the Market based on the S&P 500:	16.33 %
Risk-Free Rate (see note 2):	4.44
MRP based on Bloomberg, Value Line, and S&P Capital IQ data	11.89 %

Average of all MRP Measures:	8.41 %
Average MRP Excluding the PRPM MRP:	8.40 %

(2) For reasons explained in the Direct Testimony, the appropriate risk-free rate for cost of capital purposes is the average forecast of 30 year Treasury Bonds per the consensus of nearly 50 economists reported in Blue Chip Financial Forecasts. (See pages 7 and 8 of Document No. 4.) The projection of the risk-free rate is illustrated below:

First Quarter 2025	4.60 %
Second Quarter 2025	4.50
Third Quarter 2025	4.50
Fourth Quarter 2025	4.50
First Quarter 2026	4.50
Second Quarter 2026	4.40
2026-2030	4.30
2031-2035	4.20
	4.44 %

(3) Average of Column 6 and Column 7.

(4) Results were excluded from the final average and median as they were more than two standard deviations from the proxy group's mean.

Peoples Gas System
Basis of Selection of the Group of Non-Price Regulated Companies
Comparable in Total Risk to the Proxy Group of Seven Natural Gas Companies

The criteria for selection of the proxy group of non-price regulated companies comparable in total risk to the proxy group of seven natural gas companies was that the non-price regulated companies be domestic and reported in Value Line Investment Survey (Standard Edition).

The proxy group of non-price regulated companies was selected based on the unadjusted beta range of 0.64 - 0.92 and residual standard error of the regression range of 2.8409 - 3.3885 of the proxy group of seven natural gas companies.

These ranges are based upon plus or minus two standard deviations of the unadjusted beta and standard error of the regression. Plus or minus three standard deviations captures 95.50% of the distribution of unadjusted betas and residual standard errors of the regression.

The standard deviation of the Utility Proxy Group's residual standard error of the regression is 0.1369. The standard deviation of the standard error of the regression is calculated as follows:

$$\text{Standard Deviation of the Std. Err. of the Regr.} = \frac{\text{Standard Error of the Regression}}{\sqrt{2N}}$$

where: N = number of observations. Since Value Line betas are derived from weekly price change observations over a period of five years, N = 259

$$\text{Thus,} \quad 0.1369 = \frac{3.1147}{\sqrt{518}} = \frac{3.1147}{22.7596}$$

						Median	11.41 %
						Average of Mean and Median	11.37 %

Notes:

(1) Average of columns 2 through 4 excluding negative growth rates and extreme positive values.

(2) The application of the DCF model to the domestic, non-price regulated comparable risk companies is identical to the application of the DCF to the Utility Proxy Group. The dividend yield is derived by using the 60 day average price and the spot indicated dividend as of 1/15/2025. The dividend yield is then adjusted by 1/2 the average projected growth rate in EPS, which is calculated by averaging the 5 year projected growth in EPS provided by Value Line, www.zacks.com, and S&P Capital IQ (excluding any negative growth rates) and then adding that growth rate to the adjusted dividend yield.

(3) Results were excluded from the final average and median as they were more than two standard deviations from the proxy group's mean.

Peoples Gas System
Indicated Common Equity Cost Rate
Through Use of a Risk Premium Model
Using an Adjusted Total Market Approach

Line No.		Proxy Group of Forty-Nine Non-Price Regulated Companies	Proxy Group of Forty-Nine Non-Price Regulated Companies (excl. PRPM)
1.	Prospective Yield on Baa2 Rated Corporate Bonds (1)	6.01 %	6.01
2.	Adjustment to Reflect Bond rating Difference of Non-Price Regulated Companies (2)	(0.09)	(0.09)
3.	Adjusted Bond Yield	5.92	5.92
4.	Equity Risk Premium (3)	6.52	6.50
5.	Risk Premium Derived Common Equity Cost Rate	12.44 %	12.42

Notes: (1) Average forecast of Baa corporate bonds based upon the consensus of nearly 50 economists reported in Blue Chip Financial Forecasts dated November 27, 2024 and December 30, 2024 (see pages 7 and 8 of Document No. 4). The estimates are detailed below.

First Quarter 2025	6.00 %
Second Quarter 2025	6.00
Third Quarter 2025	6.00
Fourth Quarter 2025	6.10
First Quarter 2026	6.10
Second Quarter 2026	6.00
2026-2030	6.00
2031-2035	5.90
Average	6.01 %

(2) The average yield spread of Baa2 rated corporate bonds over A2 corporate bonds for the three months ending December 2024. To reflect the Baa1 average rating of the Non-Price Regulated Proxy Group, the yield on the Baa corporate bond must be adjusted by 1/3 of the spread between A2 and Baa2 corporate bond yields as shown below:

	A2 Corp. Bond Yield	Baa2 Corp. Bond Yield	Spread
Dec-24	5.53 %	5.80 %	0.27 %
Nov-24	5.50	5.78	0.28
Oct-24	5.33	5.63	0.30
		Average yield spread	0.28
		1/3 of spread	0.09

Partner

Summary

Dylan is an experienced consultant and a Certified Rate of Return Analyst (CRRA) and Certified Valuation Analyst (CVA). Dylan joined ScottMadden in 2016 and is a leading expert witness with respect to cost of capital, capital structure, and valuation. He has served as a consultant for investor-owned and municipal utilities and authorities for 16 years. Dylan has testified as an expert witness on over 150 occasions regarding rate of return, cost of service, rate design, and valuation before more than 40 regulatory jurisdictions in the United States and Canada, an American Arbitration Association panel, and the Superior Court of Rhode Island. He also maintains the benchmark index against which the Hennessy Gas Utility Mutual Fund performance is measured. Dylan holds a B.A. in economic history from the University of Pennsylvania and an M.B.A. with concentrations in finance and international business from Rutgers University.

Areas of Specialization

- Expert Witness Testimony
- Rates and Regulation
- Return on Equity
- Valuation
- Utility Regulations
- Rate Case Planning, Management, and Support
- Utility Benchmarking

Recent Articles and Speeches

- "Decoupling, Risk Impacts, and the Cost of Capital." Co-authored with Richard A. Michelfelder, Ph.D., Rutgers University and Pauline M. Ahern. The Electricity Journal. March 2020
- "Decoupling Impact and Public Utility Conservation Investment." Co-authored with Richard A. Michelfelder, Ph.D., Rutgers University and Pauline M. Ahern. Energy Policy Journal. 130 (2019), 311-319
- "Establishing Alternative Proxy Groups." Presentation before the Society of Utility and Regulatory Financial Analysts: 51st Financial Forum. April 4, 2019. New Orleans, LA
- "Past Is Prologue: Future Test Year." Presentation before the National Association of Water Companies 2017 Southeast Water Infrastructure Summit. May 2, 2017. Savannah, GA
- "Comparative Evaluation of the Predictive Risk Premium Model™, the Discounted Cash Flow Model and the Capital Asset Pricing Model." Co-authored with Richard A. Michelfelder, Ph.D., Rutgers University, Pauline M. Ahern, and Frank J. Hanley. The Electricity Journal. May 2013
- "Decoupling: Impact on the Risk and Cost of Common Equity of Public Utility Stocks." Presentation before the Society of Utility and Regulatory Financial Analysts: 45th Financial Forum. April 17-18, 2013. Indianapolis, IN

Recent Assignments

- Provided expert testimony on the cost of capital for ratemaking purposes before numerous state utility regulatory agencies
- Maintains the benchmark index against which the Hennessy Gas Utility Mutual Fund performance is measured
- Sponsored valuation testimony for a large municipal water company in front of an American Arbitration Association Board to justify the reasonability of their lease payments to the city
- Co-authored a valuation report on behalf of a large investor-owned utility in response to a new state regulation which allowed the appraised value of acquired assets into rate base

Resume and Project Experience

Eric Fox

Director, Forecast Solutions
Itron, Inc.

Education

- M.A. in Economics, San Diego State University, 1984
- B.A. in Economics, San Diego State University, 1981

Employment History

- Director, Forecasting Solutions, Itron, Inc. 2002 - present
- Vice President, Regional Economic Research, Inc. (now part of Itron, Inc.), 1999 – 2002
- Project Manager, Regional Economic Research, Inc., 1994 – 1999
- New England Electric Service Power Company, 1990 – 1994
  Positions Held:
  - Principal Rate Analyst, Rates
  - Coordinator, Load Research
  - Senior Analyst, Forecasting
- Senior Economist, Regional Economic Research, Inc., 1987 – 1990
- San Diego Gas & Electric, 1984 – 1987
  Positions Held:
  - Senior Analyst, Rate Department
  - Analyst, Forecasting and Evaluation Department
- Instructor, Economics Department, San Diego State University, 1985 – 1986

Experience

Mr. Eric Fox is Director Forecasting Solutions with Itron where he directs electric and gas analytics and forecasting projects and manages Itron's forecast consulting team. Mr. Fox has over 30 years of forecasting experience with expertise in financial forecasting and analysis, long-term energy and demand forecasting, and load research.

His team focuses on developing sales, customers, and revenue forecasts for financial planning and long-term energy, load, and demand forecasts for resource planning. Related work includes load research for developing rate class loads for cost of service studies, building technology load forecasts, weather normalization and sales variance analysis, and regulatory support for rate cases and integrated resource plans. The team also supports Itron's forecasting and load research applications and the Energy Forecasting Group (EFG). The EFG provides utility members with models, end-use inputs, and training to support their budget and long-term load forecasting requirements. The annual EFG conference focuses on addressing issues facing electric and gas forecasters; it is the largest forecast conference in North America. Mr. Fox has provided expert testimony and support in rate and regulatory related hearings, presented on numerous forecast topics, and is one of the primary forecast instructors.

Prior to joining Itron, Mr. Fox supervised the load research group at New England Electric where he oversaw systems development, directed load research programs, and customer load analysis. He also worked in the Rate Department as a Principal Analyst where he was responsible for DSM rate and incentive filings, and related cost studies. The position required providing testimony in regulatory proceedings.

Regulatory Experience

June 2024: Addressing Complexities in the Long-Term Load Forecast, Indiana Utility Regulatory Commission, Contemporary Issues Technical Conference

February 2024: Provided testimony and documentation supporting the Liberty Midstates Natural Gas (Missouri) rate case

August 2023: Presented Indiana AES Test-Year Weather Normalization and Load Development Method and Results to the Indiana Office of Utility Consumer Counselor (OUCC)

June 2023: Provided testimony and supporting test-year normalized sales and rate class hourly loads for the 2023 AES Indiana general rate case.

March 2023: Provided testimony, report, and documentation supporting the 2024 test-year forecast for People's Gas System 2023 general rate case.

January 2023: Provided testimony and documentation supporting the Empire District Electric Company/Liberty Utilities, Arkansas electric general rate case.

June 2022: Provided testimony and supporting sales and weather-normalization for the 2022 Sierra Pacific Power Company (NV Energy) general rate case.

February 2022: Provided testimony and supporting sales and weather-normalization for the 2022 Oklahoma rate case. Empire District Electric/Liberty Utilities.

May 2021: Provided testimony and supporting sales and weather-normalization for the 2021 Missouri rate case. Empire District Electric/Liberty Utilities.

June 2020: Provided testimony and supporting analysis of weather trends and analysis as part of Nevada Power's 2020 general rate review.

July 2019: Provided testimony and supporting sales and weather-normalization for the 2020 Missouri rate case. Empire District Electric/Liberty Utilities.

November 2018: Provided testimony and supporting sales weather-normalization for the 2018 Kansas rate case. Empire District Electric/Liberty Utilities.

December 2017: Provided testimony and support related to sales weather-normalization for the 2018 rate case. Indianapolis Power & Light.

October 2017: Provided testimony and support for the Dominion Energy Virginia 2017 Integrated Resource Plan

Jan 2015 – Dec 2016: Assisted Power Stream with developing and supporting the 2015 rate case sales and customer forecast before the Ontario Energy Board

Jan 2015 – Dec 2016: Assisted Hydro Ottawa with developing and supporting the 2015 rate case sales and customer forecast before the Ontario Energy Board

September 2015: Provided testimony and support related to sales weather-normalization for the 2015 rate case. Indianapolis Power & Light

October 2014 – July 2015: Assisted Entergy Arkansas with developing and supporting weather adjusted sales and demand estimates for the 2015 rate case.

September 2014: Assisted with developing the budget sales and revenue forecast and provided regulatory support related Horizon Utilities 2014 rate filing before the Ontario Energy Board

August 2013: Reviewed and provided testimony supporting Sierra Pacific Power Company's forecast for the 2013 Energy Supply Plan before the Nevada Public Utilities Commission

July 2013: Reviewed and provided testimony supporting Tampa Electric's forecast for the 2013 rate case before the Florida Public Service Commission

March 2013: Reviewed and provided testimony supporting Entergy Arkansas sales weather normalization for the 2013 rate filing before the Arkansas Public Service Commission

June 2012: Reviewed and provided testimony supporting Nevada Power Company's 2012 Long-Term Energy and Demand Forecast before the Nevada Public Utilities Commission

May 2010: Provided testimony supporting Sierra Pacific Power's Company's 2010 Long-Term Energy and Demand Forecast before the Nevada Public Utilities Commission

March 2010: Assisted with development of the IRP forecast and provided testimony supporting Nevada Power Company's 2010 Long-Term Energy and Demand Forecast before the Nevada Public Utilities Commission

August 2009: Reviewed Entergy Arkansas weather normalization and provided supporting testimony before the Arkansas Public Service Commission

February 2006: Developed long-term forecast and provided testimony to support Orlando Utilities Commission *Need for PowerApplication* before the Florida Public Service Commission

July 2005: Developed sales and customer forecast and provided testimony to support Central Hudson's electric rate filing before the New York Public Service Commission

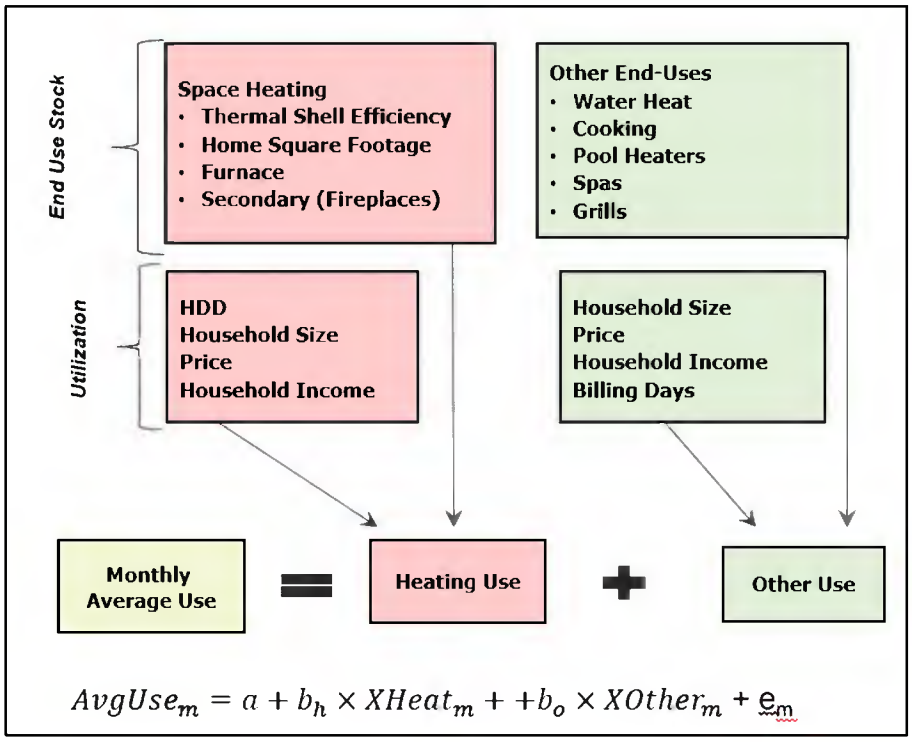
April 2004: Held Weather Normalization Workshop with the Missouri Public Service Commission Staff

July 2001: Conducted workshop on long-term forecasting with the Colorado Public Utilities Commission Staff

STATISTICALLY ADJUSTED END-USE (SAE) GAS MODEL

The Residential and Small Commercial average use models are estimated using a Statistically Adjusted End-Use (SAE) specification. The SAE model is a structured framework where monthly gas usage is defined in terms of heating requirements and base-use gas end-uses that include cooking, dryers, water heating, and other miscellaneous gas use. It constructs estimates of end-use energy requirements and then calibrates (statistically adjust) to actual monthly usage using linear regression models. The impact of weather, price, and economic activity are captured in the constructed heating (XHeat) and cooling (XCool) model variables. Figure 1 shows the Residential SAE model framework.

FIGURE 1: RESIDENTIAL STASTICALLY ADJUSTED END-USE (SAE) MODEL FRAMEWORK



End-use stock intensities are measured in therms per household. Factors influencing gas intensities include changes in saturation (ownership rate) and the overall stock efficiency (a measure of output relative to energy input). Stock utilization, such as hours of space heating, number of loads of laundry, and gallons of hot water delivered, is influenced by temperature (for the heating end-use), average number of people in the household, household average income, and price. Heating requirements, measured in heating degree days, have the most significant impact on gas usage. The effects of economic variables on utilization are relatively minor. Moderate changes in income or price are unlikely to significantly alter month-to-month consumption levels.

Variable Construction. XHeat and XOther are the primary end-use model variables. The variables combine annual end-use intensity.projections with monthly.utilization drivers: heating.degree-days (XHeat), billing days (XOther), household size (HHSize), household income (HsehldInc), and gas prices (Price). Small elasticities (from the Itron Census Division models) are imposed on these variables as the impact of these variables on month-to-month usage is small.

The monthly XHeat variable specification is shown below:

- $XHeat_m = HeatEI_a \times HeatUse_m$
- $HeatUse_m = HDD_m \times HHSize_m^{.30} \times HsehldInc_m^{.20} \times Price_m^{-.20}$

The heating intensity (HeatEI) reflects heating requirements per household for the South Atlantic Census Division. The model estimation process scales/calibrates the heating variable down to Florida average annual use which is roughly a tenth of that for the Census Division. In addition to space heat, HeatEI is also capturing gas pool and spa heating.

The non-weather sensitive end-uses (XOther) include water heating, dryers, and cooking. XOther is specified as:

- $XOther_m = OtherEI_a \times BaseUse_m$
- $BaseUse_m = Days_m \times HHSize_m^{.60} \times HsehldInc_m^{.10} \times Price_m^{-.12}$

Estimated base use is close to that of the Southeast Census Division. Figures 2 &3 show the constructed XHeat and XOther variables for Orlando, respectively.

FIGURE 2: XHEAT (SCALED TO FLORIDA HEATING LEVELS)

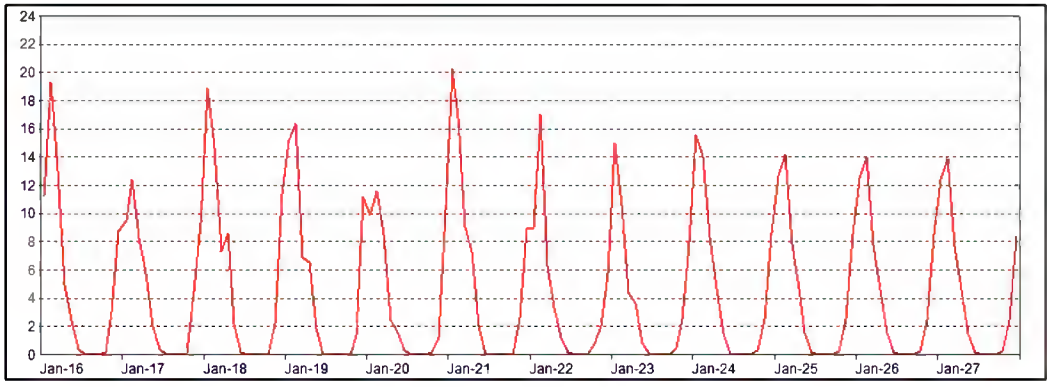


FIGURE 3: XOTHER

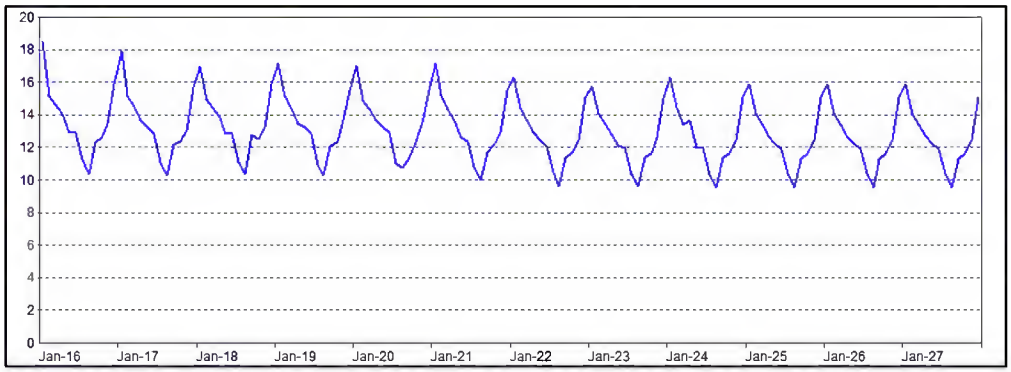
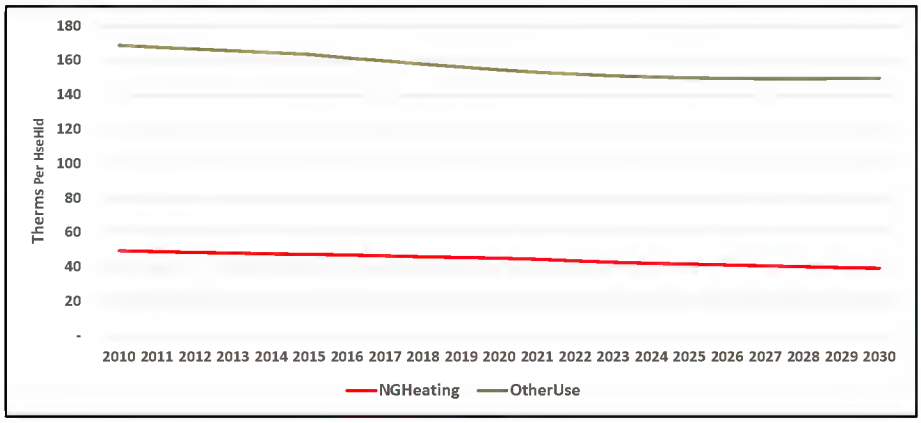


Historical and projected end-use gas intensities are derived from the Energy Information Administration (EIA) Annual Energy Outlook (AEO). The AEO database includes actual and projected end-use consumption data, number of households in the Residential forecast and square footage in the Small Commercial forecast. The forecast is based on the 2023 projections for the South Atlantic Census Division. Figure 4 shows historical and projected heating and other use intensity trends; heating has been scaled to reflect Florida heating loads. Heating accounts for approximately 70% of Residential gas use in the Census Division and roughly 25% of gas use in Florida.

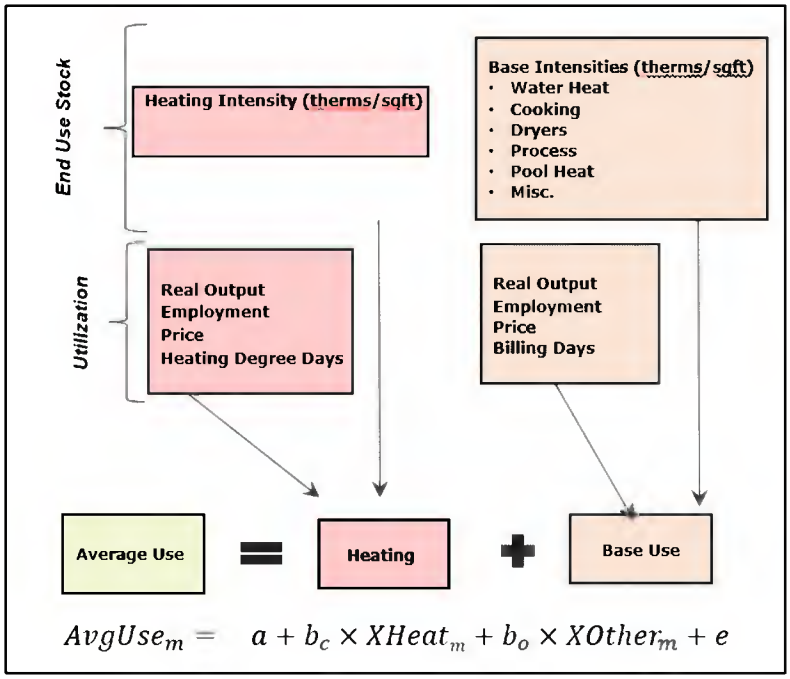
FIGURE 4: RESIDENTIAL GAS AND OTHERUSE INTENSITY TRENDS



Heating intensities are decreasing with the installation of more efficient systems, while base use intensities have mostly stabilized. End-use intensities slightly increase over time due to higher saturation outweighing efficiency gains. Considering that nearly all efficiency gains are related to heating, the overall impact of these gains is significantly lower in Florida.

The Small Commercial SAE model is similar in structure to the Residential model. Figure 5 shows the Small Commercial model structure.

FIGURE 5: SMALL COMMERCIAL AVERAGE USE MODEL



Like Residential, estimates of monthly heating (XHeat) and base use (XOther) are derived by combining Small Commercial end-use gas intensities with a utilization variable that includes gross state product (GSP), employment, price, and HDD in the XHeat variable and number of billing days in the XOther variable. Small Commercial economic variables combine GSP and employment, with greater emphasis on employment. XHeat and XOther are measured on a therm per square foot basis. The model coefficients (a, bc, and bo) are estimated using monthly linear regression models.

Space heating efficiency has significantly improved, and EIA projects further gains of over 1.0 percent annually for Small Commercial heating efficiency. Expected improvements in intensities for other primary end-uses are minimal, as most efficiency gains have already been achieved. As space heating constitutes a minor portion of Small Commercial gas consumption in Florida, enhancements in heating efficiency yield only a limited reduction in overall gas usage. Figure 6 shows Small Commercial gas intensity trends. Heating intensity has been scaled down to reflect Florida Small Commercial gas consumption level.

FIGURE 6: SMALL COMMERCIAL GAS INTENSTIY TRENDS

Model Estimation. The constructed model variables are utilized to estimate the average use models for Residential and Small Commercial sectors. Distinct models are developed for each Division and the estimation period spans from January 2016 to October 2024. Models typically incorporate monthly binary variables to account for seasonal variations and significant outliers not captured by the model variables. Additionally, a COVID-19 variable is included to reflect the increase in Residential use and the decrease in Small Commercial sales during the pandemic period. As an example, Figures 7 & 8 show the Orlando Residential and Small Commercial average use models.

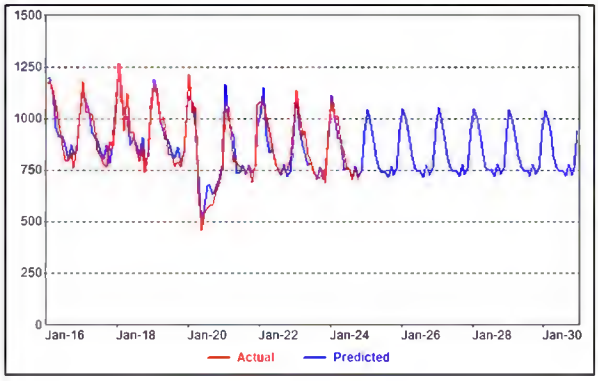
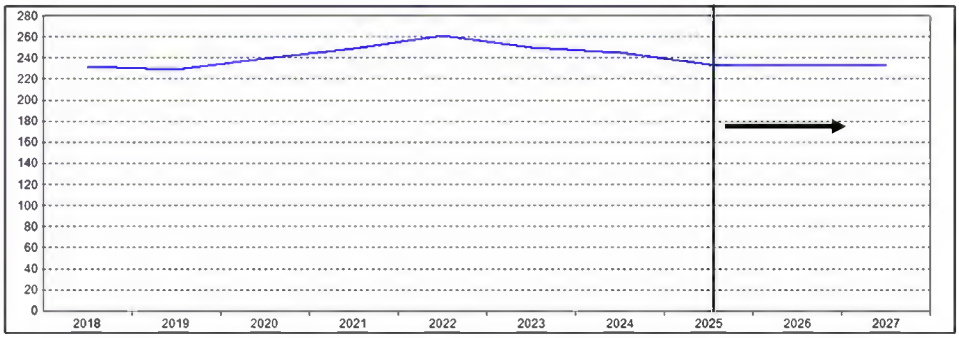
Durbin-Watson Statistic	1.894



The models are relatively strong from a statistical measure with a Residential Adjusted-R-Squared of 0.949 and standard error of 1.73 therms (compared with a mean of 19.75 therms). The Small Commercial model shows an adjusted R-Squared of 0.873 with a standard error of 59 therms

(compared with mean use of 878.6 therms). The XHeat and XOther coefficients are statistically significant. Figure 9 shows the resulting annual average use forecast.

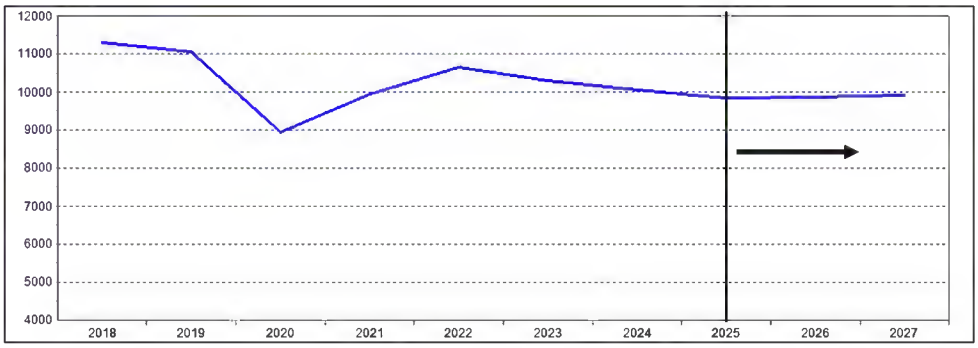
FIGURE 9: ORLANDO RESIDENTIAL AVERAGE USE FORECAST (WEAHTER NORMAL)



Gas consumption peaked in 2022 due to the shift from office to home during COVID-19. Although average use has declined since then, it is expected to stabilize by 2025 as rising household incomes and lower prices offset smaller household sizes and better heating efficiency.

Figure 10 shows the Small Commercial average use forecast.

FIGURE 10: ORLANDO SMALL COMMERCIAL AVERAGE USE MODEL



Small Commercial use experienced a significant decline in 2020 due to business closures in response to COVID-19. Usage saw partial recovery by 2022, followed by a subsequent downward trend. Similar to Residential, the combination of minor improvements in heating efficiency and moderate economic growth results in a stable projection for average usage.

Executive Summary

Corporate services providers, which typically charge their time and expenses to Administrative and General ("A&G") accounts, play an important role in a utility's construction program. Activities ranging from planning and budgeting for capital expenditures and raising new capital to finance the expenditures to recruiting and training a workforce to perform the construction work, processing invoices, providing risk management and insurance services for construction work, auditing the work, and completing the property accounting activities to close work orders – among others – are all essential elements of successful construction projects. Further, active involvement in the construction program by executive management to provide leadership and oversight are also important elements of a successful construction program.

Accounting for construction project related costs properly is important. Understanding the full cost of a project provides important information to all involved in the process and charging appropriate amounts of A&G costs to capital contributes to intergenerational equity among customers.

PA Consulting ("PA") was retained by Peoples Gas System ("PGS" or the "Company") to perform the 2024 A&G capitalization study ("Study"). The objective of this study was to determine the dollar amount of A&G costs incurred in support of construction activities and eligible to be capitalized ("A&G Pool") for FY 2024. Once established, the A&G Pool is then applied to individual capital projects as an overhead cost. On a monthly basis, administrative and general expenses applied to individual capital projects are credited to Uniform System of Accounts ("USoA") Account 922 consistent with commonly accepted industry practices and Federal Energy Regulatory Commission ("FERC") / National Association of Regulatory Utility Commissioners ("NARUC") guidance.

The study that PA performed included an analysis of labor expenses charged to FERC account 920 - Administrative and General Salaries as well as non-labor expenses charged to other A&G accounts, including costs direct charged or allocated by Emera and TECO, to determine the extent to which these expenses relate to construction activities. Consistent with the direction provided by both FERC and NARUC, we used a combination of cost center surveys and statistical analyses to develop our estimates of the percentage of labor and non-labor expenses that support construction activities.

Based on the results of this study, PA identified $18.35 million of administrative and general expenses related to construction activities.

While we expect the pool of A&G costs to be capitalized to vary from period to period based on levels of construction activity, the nature of A&G costs suggests that these costs are both fixed and variable. Therefore, the amount to be capitalized in the future should not vary from period to period in direct proportion to changes in construction activity, as the company anticipates future capital programs.

We believe the results of the Study are reasonable and align with observed industry practices based on our understanding of the Company's organizational structure and level of construction activity; our experience with regulated utilities and their parent companies throughout North America; our understanding of FERC regulatory accounting (i.e., the USoA); and our understanding of similar practices at other North American regulated utility companies. On a go forward basis, we recommend the Company review the results of this capitalization study annually and update the A&G capitalization pool as needed to reflect any significant changes in operating activities, organizational structures, costs, and cost drivers.

1 Background and Framework

1.1 Study Background

PA was retained by PGS to identify the level of support currently provided by corporate (i.e., administrative and general) resources to construction activities and develop an updated A&G capitalization pool based on the current cost of providing that support. The A&G capitalization pool is applied to individual capital projects through the Company's existing A&G capitalization overhead process.

The A&G overhead process is the mechanism PGS uses to assign an appropriate portion of administrative and general costs to construction work orders. Administrative and general costs such as finance, accounting, human resources, procurement, legal, information technology, and executive management, all make important contributions to the efficiency and effectiveness of the Company's construction program. The loading of a portion of the A&G costs on construction work orders is an appropriate recognition of these contributions.

1.2 Our Framework

PA's approach to completing the Study is based on regulatory guidelines. Our guiding principle for determining if costs can be capitalized includes all "costs which would not be incurred if construction were not undertaken," and not just those costs directly assigned to projects. The basis of that opinion is guidance by both the FERC and NARUC Uniform Systems of Accounts.

Utility Plant Instruction No. 3 included in the Uniform System of Accounts states:

> *(12) General administration capitalized includes the portion of the pay and expenses of the general officers and administrative and general expenses applicable to construction work.*

Utility Plant Instruction No. 4 included in the Uniform System of Accounts states:

> *A. All overhead construction costs, such as engineering, supervision, general office salaries and expenses, construction engineering and supervision by others than the accounting utility, law expenses, insurance, injuries and damages, relief and pensions, taxes and interest, shall be charged to particular jobs or units on the basis of the amounts of such overheads reasonably applicable thereto, to the end that each job or unit shall bear its equitable proportion of such*

© PA Knowledge Limited. Confidential between PA and intended recipient.

> *costs and that the entire cost of the unit, both direct and overhead, shall be deducted from the plant accounts at the time the property is retired.*
>
> *B. As far as practicable, the determination of pay roll charges includible in construction overheads shall be based on time card distributions thereof. Where this procedure is impractical, special studies shall be made periodically of the time of supervisory employees devoted to construction activities to the end that only such overhead costs as have a definite relation to construction shall be capitalized. The addition to direct construction costs of arbitrary percentages or amounts to cover assumed overhead costs is not permitted.*
>
> *C. The record supporting the entries for overhead construction costs shall be so kept as to show the total amount of each overhead for each year, the nature and amount of each overhead expenditure charged to each construction work order and to each utility plant account, and the bases of distribution of such costs.*

Interpretation No. 59 of the NARUC USoA states:

> *IN GENERAL, IT IS BELIEVED THAT THE INCREMENTAL COST BASIS IS THE PREFERRED METHOD OF DETERMINING AMOUNTS OF ADMINISTRATIVE AND GENERAL EXPENSES WHICH SHOULD BE CAPITALIZED. UNDER THIS METHOD ONLY THE COSTS SPECIFICALLY INCURRED FOR CONSTRUCTION - COSTS WHICH WOULD NOT BE INCURRED IF CONSTRUCTION WERE NOT UNDERTAKEN - ARE CHARGEABLE TO CONSTRUCTION. THE USE OF THIS PLAN WILL AVOID THE EFFECT OF SHOWING GREATER NET INCOME MERELY BECAUSE OF INCREASED CONSTRUCTION WORK. WHERE THE INCREMENTAL COST BASIS IS NOT EMPLOYED, GENERAL AND ADMINISTRATIVE EXPENSES CAN PROPERLY BE DISTRIBUTED TO CONSTRUCTION ONLY IF STUDIES ARE MADE TO DETERMINE THE AMOUNTS THEREOF WHICH RELATE TO CONSTRUCTION ACTIVITIES. IN THE CASE OF COMPENSATION FOR PERSONAL SERVICES, SUCH STUDIES SHOULD BE BASED UPON TIME RECORDS OR PERIODIC SURVEYS OF THE ACTIVITIES OF EMPLOYEES. WHERE DAILY TIME REPORTS ARE NOT IN EFFECT, PERIODIC STUDIES SHOULD BE MADE AT LEAST ONCE A YEAR AND MORE FREQUENTLY IF CONSTRUCTION ACTIVITIES FLUCTUATE CONSIDERABLY. SUCH STUDIES SHOULD SHOW EACH EMPLOYEE'S ACTIVITIES AND THE PROPORTION OF HIS TIME WHICH IS INCLUDIBLE IN CONSTRUCTION ACCOUNT. WHERE THE EXPENDITURES RELATE TO OTHER THAN COMPENSATION FOR PERSONAL SERVICES, IT MUST BE SHOWN (1) THAT THE EXPENDITURE HAS A RELATIONSHIP TO CONSTRUCTION ACTIVITIES AND (2) THAT A REASONABLE BASIS HAS BEEN EVOLVED FOR DETERMINING THE AMOUNT OF PROPORTION PROPERLY CAPITALIZABLE. IN NO EVENT IS IT PERMISSABLE TO ASSIGN TO CONSTRUCTION A PROPORTION OR PERCENTAGE OF A PARTICULAR CLASS OF EXPENDITURES WITHOUT FIRST HAVING ESTABLISHED THE RELATIONSHIP OF THE EXPENDITURES IN QUESTION TO CONSTRUCTION WORK.*
>
> *THE RECORDS SUPPORTING ALLOCATIONS OF ADMINISTRATIVE AND GENERAL EXPENSES TO CONSTRUCTION SHOULD; THEREFORE, SHOW (1) THE RELATIONSHIP OF THE PARTICULAR FUNCTION TO CONSTRUCTION ACTIVITIES, (2) THE PROPORTION OF EACH EMPLOYEE'S TIME OR EACH PARTICULAR EXPENDITURE ALLOCABLE TO CONSTRUCTION, AND (3) THE METHOD OF DETERMINING (2), THAT IS TIME STUDIES, DAILY TIME REPORTS, ETC.*

While the following list is not exhaustive, examples of A&G activities that may be attributed to construction in PA's opinion include:

- Providing leadership regarding capital expenditure resource allocation decisions and spend levels (i.e., senior executives)
- Developing long-term plans and forecasts of capital expenditures

© PA Knowledge Limited. Confidential between PA and intended recipient.

- Developing capital budgets
- Processing, validating, correcting timecards with charges to construction projects
- Processing, validating, correcting vouchers for charges to construction projects
- All tasks associated with closing construction and retirement work orders
- Monitoring actual expenditures compared to budget for capital expenditures and explaining budget variances
- Recruiting and hiring employees performing construction activities
- Labor negotiations for represented employees performing construction activities
- Providing insurance coverage for construction activities
- Auditing construction activities
- Workers comp claims for field workers
- Time spent arranging financing for capital projects
- Legal work for construction contracts
- Land rights legal work
- Manage IT infrastructure (e.g., networks, telecommunications, computer hardware, etc.) and information systems directly or indirectly supporting construction
- Time spent by Procurement on capital related projects
- Time devoted to Resource Planning, Scheduling and Dispatching related to capital projects
- Directing and supervising employees with responsibilities for any of the above

To ensure completeness and accuracy in our review, we considered the work performed by all A&G departments and employees whose labor and expenses are ultimately charged to an A&G account in the FERC / NARUC Uniform System of Accounts.

2 Approach

2.1 Introduction

The objective of this Study was to calculate the dollar amount of administrative expenses that are construction related (i.e., the A&G capitalization cost pool) consistent with FERC and NARUC guidance and commonly accepted industry practices based on an assessment of current practices.

PA's approach used to complete the 2024 A&G Capitalization Study was to develop a "periodic survey" as provided for under Interpretation No. 59 of the NARUC USoA. The survey asks for a description of the activities performed by each department, a description of the activities that are construction related, and the percentage of productive time by employee class that are construction-related. The guidance we provided during our training sessions prior to the distribution of the survey was that the cost center managers consider the question "What A&G work and/or costs would be eliminated if the construction program were eliminated?" when identifying construction-related activities. If no construction-related activities are identified, then the question should be answered "None", and none of their salaries and expenses will be included in the pool of A&G costs to be capitalized.

To complete the assessment of the support provided by PGS's administrative and general cost centers for construction activities, PA undertook the below actions which are further detailed in Our Approach section below:

- Determine costs and cost centers considered "in-scope"
- Provide training to survey participants
- Develop and distribute survey templates and instructions
- Provide ad-hoc support to survey participants
- Determine cost centers better suited for a statistical study approach
- Collect surveys and verify data
- Model the survey and statistical results using five months of 2024 actuals and 7 months of forecast to develop the final A&G capitalization cost pool.

2.2 Our Approach

The completion of the 2024 A&G Capitalization Study was a collaborative effort between PA Consulting (PA) and the PGS team led by the Controller and VP of Finance. Together, the team performed the following 8 steps in completing this Study.

© PA Knowledge Limited. Confidential between PA and intended recipient.

STEP 1: DETERMINE COSTS AND COST CENTERS CONSIDERED "IN-SCOPE"

The Study included cost centers within PGS whose employees predominantly charge their time to A&G accounts, as well as administrative functions at both Emera and Tampa Electric Company whose apportioned costs to PGS are recorded to an A&G account. These cost centers include most traditional Administrative and General functional areas. Cost centers for which some employee time was charged to A&G were excluded from the scope of this analysis based on their limited use of Account 920, and predominant use of non-A&G accounts.

STEP 2: DEVELOP AND DISTRIBUTE A&G CAPITALIZATION STUDY SURVEY

For each in-scope cost center, we needed to develop an estimate of the annual percentage of work activity performed by that cost center in support of construction. In order to facilitate the collection of that information we developed a survey designed to collect the required information. Prior to distributing the surveys, PA provided training sessions to cost center leads to explain the rationale for the study and provide an overview of the survey process and requested data points. The survey was designed to be completed by every Cost Center head for each full-time PGS employee, within their Cost Center, who was considered within the scope of the project. These surveys were used to collect information about the nature of an individual's work activity during calendar 2024. The survey template included fields to provide basic identifying information in addition to the portion of time spent on construction related activity in 2024. Each survey was accompanied by a set of instructions that describe the overall process for completing the survey. A brief overview of what the survey included is summarized below. Appendix A provides a sample of the full survey template.

- Describe the responsibilities and activities performed by the Cost Center;
- Describe the activities performed in the Cost Center that are in support of construction;
- For each employee within the Cost Center, provide the percentage of productive time spent supporting construction as well as the basis for the percentage provided; and,
- Identify non-labor costs by Cost Center and the percentage of these costs that relate to construction activities.

A NOTE ON SEACOAST AND TECO PARTNERS

Seacoast Gas Transmission LLC ("SGT") and TECO Partners, Inc. ("TPI") are related entities with Peoples Gas System, Inc. SGT, TPI, and PGS provide and receive services to / from one another under the Emera umbrella. Because we were performing a survey of PGS personnel, we embedded within the survey a series of questions to understand the extent of services provided by PGS A&G personnel to both SGT and TPI. The information gathered as it related to time spent on SGT and TPI including direct charging of time was intended to be used only as a reference point for PGS in future planning and analysis.

STEP 3: ADMINISTER, COLLECT, AND VALIDATE THE SURVEY RESULTS

PA answered questions raised by the Cost Centers as they completed the survey, performed a quality assurance review of survey responses, and compiled the completed results. Completed surveys were reviewed by both PA and the PGS Controller to ensure that the instructions were followed and that the "percentage of productive time spent on construction" appeared reasonable based on the activities described, our understanding of the work activities of the department, and prior study results. In some instances, this required follow-up meetings with the cost center managers.

STEP 4: IDENTIFY COST CENTERS SUITED FOR STATISTICAL ANALYSIS

For some administrative and general functions, identifying the percentage of time in support of construction requires the use of statistical techniques. For example, Accounts Payable (under the General Accounting cost center) employees cannot reasonably track time spent processing construction-related vouchers due to the significant volume of transactions processed. Accordingly, to determine the Accounts Payable capitalization rate, we identified the number of vouchers processed that are construction-related compared to the total number of vouchers processed to calculate the percentage of time spent of construction-related activities. Similarly, certain Human Resources and Information Technology functions provide support to the entire organization and distinguishing the level of resources required to support construction work versus non-construction cannot be done meaningfully through a time survey process. In these cases, the use of appropriate statistical methods tailored to the services provided was used in the Study.

STEP 5: CALCULATE CONSTRUCTION-RELATED PERCENTAGES BY COST CENTER

The percentage of time spent on construction activities for each cost center was based on survey responses and statistical analyses. PA calculated the construction-related percentage for each Cost Center based on a simple average of time spent supporting construction for each of the employees within the Cost Center using the capitalization percentages provided in the survey results.

As described above, for those cost centers for which we used a statistical approach, we developed appropriate cost causative capitalization percentages based on statistical data provided by the Company.

For PGS's IT department, the calculation of the amount of IT labor and non-labor costs included in the A&G capitalization cost pool was based on analysis of who benefited from the IT services and/or systems.

To determine the capitalization amount of Emera/TECO costs apportioned to PGS, PA reviewed a detailed breakdown of the costs charged from Emera/TECO to PGS.

1. For services provided to PGS by TECO's IT department, the calculation of the amount of labor and non-labor costs included in the A&G capitalization cost pool was based on analysis of who benefited from those services and/or systems (similar to the approach used for PGS's IT department).
2. For those services provided by Emera to PGS, PA worked with the PGS team to determine the extent to which those services provided support to construction activities. We then applied an appropriate capitalization rate in calculating the portion of the cost of services provided by Emera to be included in the A&G capitalization cost pool.
3. For all other services provided by TECO including, for example, Accounts Payable, Corporate Accounting and Treasury, we used appropriate cost drivers for the services provided, including the completion of the capitalization survey form by TECO employees, as appropriate, to identify those costs to be included in the A&G capitalization cost pool.

STEP 6: APPLY COST CENTER PERCENTAGES TO LABOR CHARGES (INCLUDING PAYROLL BENEFITS AND TAXES LOADINGS)

PA applied the weighted average percentages of time spent on construction activities by cost center to the A&G labor amounts. For each cost center, these amounts included direct labor, benefits, and payroll taxes.

STEP 7: APPLY CONSTRUCTION-RELATED PERCENTAGES TO NON-LABOR COSTS

To the extent specific construction-related percentages were provided in the survey response for individual non-labor charges, PA applied these percentages to the individual cost items. For all other significant non-labor costs identified in the cost center reports, we applied the calculated percentages of time spent on construction activities by Cost Center or percentages developed using statistical analyses to the remaining non-labor amounts for each Cost Center.

STEP 8: CALCULATE TOTAL POOL OF CONSTRUCTION-RELATED A&G COSTS

The amounts of A&G costs associated with construction activity were compiled to calculate the total pool of construction-related A&G costs.

3 Results and Discussion

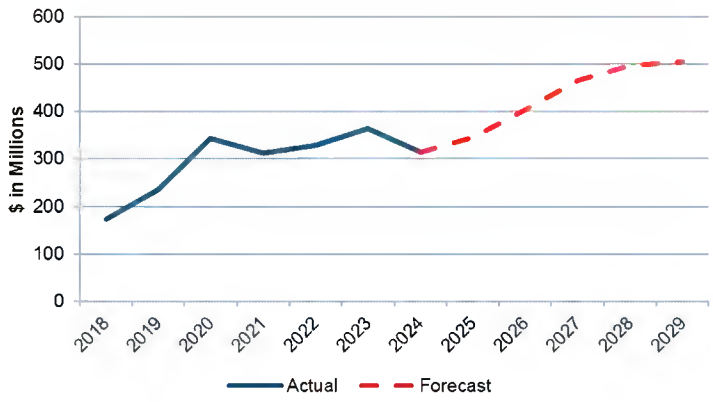
3.1 Introduction

Based on results of the completed fiscal year 2024 A&G Capitalization Study, PA identified $18.35 million dollars in capitalizable A&G costs. Consistent with the FERC / NARUC Uniform System of Accounts, costs from this A&G cost pool will be credited to account 922 and charged to specific capital projects based on direct charges to these specific capital projects during the accounting period.

As can be seen in the following chart, capital expenditures have increased significantly from 2019, the date of the prior study, and are expected to continue through the end of the forecast period.

While we expect the pool of A&G costs to be capitalized to vary from period to period based on levels of construction activity, the nature of A&G costs suggests that these costs are both fixed and variable. Therefore, the amount to be capitalized in the future should not vary from period to period in direct proportion to changes in construction activity, as the company anticipates future capital programs as illustrated in **Figure 1** below.

Figure 2: Peoples Gas – Trend in CapEx



3.2 Summary of Results and Impact

As discussed in the methodology chapter of this report, we applied labor capitalization and non-labor capitalization percentages to costs within the A&G accounts to determine total dollars to be included in the A&G capitalization cost pool for 2024 based on our analysis of five months actuals and seven months forecasted calendar year 2024 costs. The following table presents the percentages of

© PA Knowledge Limited. Confidential between PA and intended recipient.

departmental resources spent in support of construction activities by A&G Cost Center based on the study results.

A&G Cost Center Description	A&G Capitalization Cost Pool Percentage[1]
CC_390010 - PGS Regional Affairs - Southeast	27 1%
CC_390030 - PGS Regional Affairs - Southwest	27.1%

CC_390050 - PGS Regional Affairs - Tampa	27.1%
CC_390080 - PGS Regional Affairs - Orlando	27.1%
CC_390100 - CRP Procurement	9.0%
CC_390120 - CRP Risk Management	14.0%
CC_390140 - CRP Human Resources	32.8%
CC_390170 - CRP Legal	48.3%
CC_390190 - PGS Supply Chain	57.8%
CC_390200 - CRP General Accounting	48.8%
CC_390240 - CRP Regulatory	24.8%
CC_390280 - CRP Settlements Acc	0.0%
CC_390300 - CRP Marketing-PGS	5.0%
CC_390350 - PGS Communications & Marketing	0.0%
CC_390415 - Technical & Operations Standards	0.0%
CC_390430 - Tech Services	0.0%
CC_390435 - Strategy & Innovation	30.2%
CC_390444 - Work & Capital Management	0.0%
CC_390480 - Emergency Management	26.6%
CC_390481 - Pipeline Ops Compliance	0.0%
CC_390490 - Damage Prevention	16.1%
CC_390491 - Technology Support	42.9%
CC_390505 - OPS Operations Processes	0.0%
CC_390506 - Sustainable Operations	8.3%
CC_390540 - Safety	18.2%
CC_390600 - CRP Info Tech-IT	39.1%
CC_390601 - CRP Telecom Services	29.4%
CC_390605 - CRP Facilities	21.8%
CC_390690 - Shared Info Tech-IT	25.3%

[1] Note: Some of the cost centers with 0% subject to an A&G allocation listed here charge costs to the Engineering & Supervision (E&S) overhead work order as their activities are more directly supporting construction activities.

© PA Knowledge Limited. Confidential between PA and intended recipient.

CC_390900 - CRP Executive	21.8%
CC_390903 - CRP Shared-Insurance, dues, etc. (primarily short-term incentive comp)	25.8%
CC_390906 - Benefits	11.0%
CC_397210 - Commercial Development & Fuels	0.0%
2024 A&G Capitalization Percentage	**25.28%**

The survey results and non-labor expense analysis indicate the following dollar amounts should be included in the A&G capitalization cost pool for 2024 based on the percentages shown in the immediately preceding table. For some cost centers shown below, construction-related time is directly charged to the Engineering and Supervision capital clearing account. In these instances, any cost center expenses remaining in A&G were not considered for capitalization through the A&G capital clearing account process.

A&G Cost Center Description	Total A&G Costs	A&G Capitalization Cost Pool Amounts
CC_390010 - PGS Regional Affairs - Southeast	$1,610,132	$437,036
CC_390030 - PGS Regional Affairs - Southwest	$14,438	$3,919
CC_390040 - PGS Regional Affairs - Northeast	$63,684	$17,286
CC_390050 - PGS Regional Affairs - Tampa	$25,014	$6,789
CC_390080 - PGS Regional Affairs - Orlando	$72,802	$19,761
CC_390100 - CRP Procurement	$654,100	$58,807
CC_390120 - CRP Risk Management	$8,666,142	$1,210,751
CC_390140 - CRP Human Resources	$2,767,509	$907,936
CC_390170 - CRP Legal	$2,566,294	$1,239,586
CC_390190 - PGS Supply Chain	$925,661	$534,826

CC_390690 - Shared Info Tech-IT	$7,624,629	$1,931,554
CC_390900 - CRP Executive (900)	$5,527,221	$1,204,172
CC_390903 - CRP Shared-Insurance, dues, etc. (short-term incentive comp) (903)	$14,270,772	$3,674,756
CC_390906 - Benefits	$(1,035,356)	$(113,885)
CC_397210 - Commercial Development & Fuels	$2,468,689	$0.00
A&G 2024 Capitalization Total	**$72,587,541**	$18,349,419

3.3 Conclusion

PA believes the above approach is both auditable and replicable, that the approach is consistent with regulatory requirements and industry practices, and that the results are within utility industry norms for administrative and general costs in support of construction programs.

On a going forward basis, we recommend the Company review the results of the capitalization study annually and update the A&G capitalization cost pool as needed to reflect changes in operating and construction activity, organizational structures, and costs.

Appendix A – Survey Tool Template

Part 1 – Description of Cost Center Functions

	Response
Cost Center Number: Cost Center Name: Name and Title of Individual Completing the Survey: Date Completed:	
Describe in detail the responsibilities of and activities performed by the cost center.	
Describe the activities performed that are related to services provided to TECO Partners and / or Seacoast Gas Transmission (Seacoast), if any or "N/A".	
Are any of these activities direct-charged to TECO Partners or Seacoast, if any?	
Describe the activities performed that are PGS capital program-related.	
Are any of these activities direct-charged to PGS-specific capital work orders?	

Part 2 – A&G Labor Not Directly Charged to Affiliates or Specific Capital Projects

In this section of the survey, please identify the percentage of time not direct charged to affiliates or specific capital projects by category shown below based on work activities completed during the first five months of 2024 and expected to be completed during the remaining seven months of 2024.

Please refer to the "2024 Cost Center Cost Detail" tab for the 2024 non-direct charged expenses of this cost center.

Portions that are direct charged to capital or TPI/SGT should NOT be considered productive time and excluded from the time reported in the table below.

Position Description (Please add as many rows as needed)	Number of Employees by Position in the 2024 Budget	Percent of Productive Time Spent on Services Provide to Seacoast	Percent of Productive Time Spent on Services Provide to TECO Partners	Percent of Productive Time Spent on Capital Program Activities	Percent of Productive Time Spent on Other Activities	Total (should equal 100%)	Describe Bases for Determining the Percentages Reported. Attach supporting documentation as appropriate.

Part 3 - Non-Labor Charges

For all significant non-labor charges in your cost center budget (excluding employee-related expenses such as office supplies, travel, training and subscriptions), please provide the detail shown in the table below.

Vendor	Description	Total Amount	Capital program-related Percentage	Describe in detail the basis used to determine the amounts that are capital-related. Attach supporting documentation as appropriate.

About PA.

We believe in the power of ingenuity to build a positive human future.

As strategies, technologies, and innovation collide, we create opportunity from complexity.

Our diverse teams of experts combine innovative thinking and breakthrough technologies to progress further, faster. Our clients adapt and transform, and together we achieve enduring results.

We are over 4,000 strategists, innovators, designers, consultants, digital experts, scientists, engineers, and technologists. And we have deep expertise in consumer and manufacturing, defense and security, energy and utilities, financial services, government and public services, health and life sciences, and transport.

Our teams operate globally from offices across the US, UK, Ireland, Nordics, and Netherlands.

PA. Bringing Ingenuity to Life.

FERC 922 - Capitalized A&G Credit Comparison of 2024 (Budget and Actual) to 2025 and 2026 Budget

		PA Consulting Conclusion					
	2024B [1]	2024A [2]	Change	2025B	YoY	2026B	YoY
A&G Cost Pool ($000's) [1], [2]	72,588	72,588		80,219	7,631	92,493	12,274
A&G (%) [3]	18.1%	25.3%	7.2%	26.1%	0.8%	25.6%	-0.4%
A&G ($000's)	13,125	**18,349**	5,224	**20,900**	2,551	**23,700**	2,800

Notes:

[1] 2024B had a solved A&G credit dollar amount per Order No. PGS-2023-0388-FOF-GU. However, it is not clear what total cost pool was used to determine the ~$13.1M amount. Therefore, for comparative purposes the 2024B and 2024A use the 2024 Q3F forecasted pool and the A&G percentage in 2024B is imputed.

[2] 2024A Cost Pool was an estimate based on 2024 Q3F (most available data at the time PA Consulting A&G study was conducted).

[3] Minor changes to the effective A&G percentage as this is a weighted average of all cost centers that attract the A&G credit. Therefore, as the proportion of dollars going into cost centers change year-over-year, it is reasonable to expect the total A&G percentage to change slightly.

For the purpose of determining the maximum amount of Accumulated Deferred Income Taxes to be excluded from the rate base, or to be included as no-cost capital, Treasury Regulation 1.167(l)-1 requires the ADIT balance at the beginning of the future test period be adjusted by the pro rata portion of any projected monthly increase or decrease charged to this reserve. Per certain Private Letter Rulings, the pro ration begins in the month of the test year that the new rates are expected to take effect. The rulings also set forth a model for calculation of the adjustment. Failure to follow the normalization requirements under IRC section 167(l) for public utility property may result in the forfeiture of accelerated depreciation tax deductions.

Peoples Gas System, Inc.
Justification of Non-Trended O&M FERC Accounts shown on MFR G-2, pages 19b and 19e
2024 Historical Base Year to 2026 Test Year

FERC Account	Item	2024	2026	Explanation
407	***Regulatory Debits and Credits***	$ 388,935	$ 388,936	In 2023, the Florida corporate income tax rate was increased to 5.5 percent from 3.535 percent in 2022. In the company's prior rate case proceeding the Commission allowed the company to amortize the approximate $1.2 million State Tax Reform NOI impact over a three-year period through O&M expense. As shown on MFR schedule G-2, page 19b, line 1, the company has used account 407.4 Regulatory Debits to amortize the State Tax Reform impact of $388,936 annually, which is consistent with the company's prior rate case proceeding.
904	***Uncollectible Accounts Expense***	$ 1,630,819	$ 1,815,103	The 2026 bad debt expense of $1,815,103 shown on MFR schedule G-2, page 19b, was based on the four-year average write-off percentage of 0.2830 percent as shown on line 4 of MFR schedule G-4. This approach is consistent with that used in the company's previous base rate proceedings.
912	***Demonstration & Selling Expense***	$ 8,383,821	$ 8,848,780	The Other not-trended amount shown on MFR schedule G-2, page 19b, reflects expected costs per the Marketing Services agreement between Peoples and its subsidiary TPI.
920	***Administrative & General Salaries***			As shown on MFR schedule G-2, page 19e, 3 positions totaling $133,503 of O&M expense are related to labor resources needed in the Finance area. This includes replacing an entry level co-op position that provides a vehicle for developing staff with industry knowledge, adding a Fixed Asset Accountant to help administer the plant accounting for the company's growing distribution system and volume of work orders, and adding a Business Planning Analyst to assist the growing operations areas in managing expenditures and budgeting. The Other non-trended item in FERC account 920 is a year 2024 legal expenditure that is not expected to be incurred in the future.
	- Payroll Not Trended	$ -	$ 133,503	
	- Non-recurring legal expenses	$ 518,678	$ -	
922	***Administrative Expense Transferred***			As discussed in my direct testimony, the budgeted amount of A&G expense transferred to construction costs in 2026 is $23.7 million versus $18.349 million in 2024. The 2024 actual amount reflects the PA Consulting Study conclusion, which is approximately $5.2 million greater than the $13.125 million amount approved by the Commission for the 2024 test year in the last rate case. As discussed in my testimony, for the 2026 Budget, the company consistently applied the PA Consulting methods and capitalized A&G expenses in the amount of $23.7 million. See Document No. 4 to my exhibit that includes a summary of the 2024-2026 Capitalized A&G amounts in this case and the 2024 Commission approved amount. Also as discussed in the testimony of witness Chronister, the total amount of allocated charges to Seacoast and TPI increased from $2.941 million in 2024 to $3.707 million in 2026.
	- Capitalized A&G	$ (18,349,149)	$ (23,700,000)	
	- Intercompany Allocation	$ (2,941,000)	$ (3,707,041)	
923	***Outside Service Employed***			The Other not trended increase in this account is primarily driven by approximately $0.8 million higher audit fees in 2026 primarily due to increased scope of audit work starting in 2025 related to reporting on effectiveness of Emera and its subsidiaries internal controls as required for U.S. publicly traded companies under Section 404 of Sarbanes-Oxley Act. In 2025, Emera plans to become dual listed on the Toronto Stock Exchange and New York Stock Exchange ("NYSE"). The stronger internal controls required to be listed on the NYSE will help the company be even more cost effective as we conduct our day-to-day business. Other increases include higher information technology ("IT") contractor costs in 2026 related to software systems discussed in witness Richard's direct testimony, and leadership development programs discussed in witness Bluestone's testimony. These increases are partially offset by approximately $350,000 of legal expenses incurred in 2024 that are not expected to be incurred in 2026.
	Audit fees	$ 534,000	$ 1,319,938	
	Non-recurring legal expenses	$ 349,575	$ -

Peoples Gas System, Inc.
Justification of Non-Trended O&M FERC Accounts shown on MFR G-2, pages 19b and 19e
2024 Historical Base Year to 2026 Test Year

FERC Account	Item	2024	2026	Explanation
924	***Property Insurance***	$ 380,000	$ 380,000	The Other not trended for this account includes the expense recognition for storm costs. As discussed in my direct testimony, the company is proposing to maintain the annual accrual for the storm reserve of $380,000 in the 2026 test year.
925	***Injuries & Damages***			Injuries and Damages ("I&D") expense includes the liability insurance premium costs and the self-insured or deductible component of legal claims, including adjustments to the I&D reserve for the self-insured portion of claims incurred but not paid. Legal fees related to claims and a portion of the company's damage prevention efforts are also included in FERC account 925. Regarding general-liability exposure, the company maintains a $1 million self-insurance or deductible limit. To determine the I&D claims and related legal expenses in the 2025 and 2026 budgets, the company factored in the past five years' actual I&D claims related expense activity included in FERC account 925. Over this period, the dollar value of claims incurred, legal expenses and I&D reserve adjustments have fluctuated significantly, so an approximate average over the five-year period was determined. As shown on MFR schedule G-2, page 19b, the 2026 Budget for I&D claims related expense is lower than 2024 actuals due to a higher-than-average amount of expense recognition in 2024, which was primarily due to settlement of I&D claims recognized in 2024 legal expenses (approximately $2.025 million) plus an increase in the I&D reserve (approximately $0.963 million) recognized as O&M expense in 2024. The 2026 budgeted liability insurance costs included in FERC account 925 were based on premium estimates from the company's outside insurance broker, Marsh. Marsh's estimates reflect continued increases in insurance premiums primarily due to tight insurance market conditions resulting from deteriorating industry claims. In 2024, the company increased its total liability insurance limits of coverage from $400 million to $450 million, with a $400 million sublimit for wildfire events. These increases in coverage limits have been made in response to the higher frequency of severe industry loss events and the company's relative exposure due to growth. As shown on MFR schedule G-2, page 19b, Marsh's estimates for total insurance premiums and fees reflects an increase in expense from approximately $8.8 million in 2024 to $9.9 million and $10.7 million in 2025 and 2026, respectively. Overall, as shown on MFR schedule G-2, page 17, FERC account 925 I&D total expenses are projected around $14.7 million in both 2024 and 2026 as the premium increases are offset by lower expected I&D claims related expenses.
	Insurance premiums and fees	$ 8,839,383	$ 10,742,729	
	I&D reserve balance adj.	$ 963,611	$ -	
	Non-recurring legal expenses	$ 2,025,867	$ -	
928	***Regulatory Commission Expense***	$ 922,016	$ 1,797,193	The non-trended increases in this account from 2024 to the 2026 test year of $0.875 million is related to amortizing the rate case expense projected for this general base rate proceeding over a two-year period along with the unamortized expense from the last case, which I discussed in my direct testimony.

Peoples Gas System, Inc.
Justification of Non-Trended O&M FERC Accounts shown on MFR G-2, pages 19b and 19e
2024 Historical Base Year to 2026 Test Year

FERC Account	Item	2024	2026	Explanation
930.2	***Miscellaneous General Expense***			This account includes the cost of labor and expenses incurred in connection with the general management of the utility not provided for elsewhere, including general expenses which apply to the utility as a whole. As mentioned in my testimony and discussed in witness Chronister's testimony, this includes shared services from Tampa Electric and support services from Emera. The increase from 2024 to 2026 in account 930.2 Other not trended of approximately $4.9 million is primarily driven by increases in shared services from Tampa Electric, non- SAP customer relationship management and billing system ("CRMB") asset usage fees from Tampa Electric, and support services from Emera that I discussed in my testimony. Due to approximately $840,000 of non-recurring legal related expenditures in 2024, the change in the remaining Other not trended items from 2024 to 2026 shown on MFR G-2, page 19b net to an increase of approximately $5,000. Included in this net increase is approximately $10,000 of higher facilities related O&M expense from 2024 to 2026, as the company moves from TECO Plaza to the new Corporate Headquarters. Also, as discussed in my testimony, in 2026 this account includes $306,900 of amortization of the regulatory asset related to software implementation costs. The remaining Other not trended items relate to IT contractor support and software license fees that are discussed in the testimony of witness Richard.
	Non-CRMB asset usage fee	$ 1,413,215	$ 2,306,570	
	TEC MMM allocated charges	2,710,639	4,850,818	
	TEC assessed charges	9,871,532	10,952,154	
	Emera direct & assessed charges	2,825,624	3,599,211	
	subtotal affiliate charges	$ 16,821,011	$ 21,708,754	
	Non-recurring legal expenses	$ 840,370	$ -	
	SW implementation Reg Asset.	402,866	306,900	
	Facilities O&M Expense	1,136,542	1,146,008	
	IT related items	-	932,000	
	subtotal other items	2,379,777	2,384,908

Executive Summary

The Peoples Gas System (PGS) system is exposed to and in the past has incurred significant costs from hurricanes. After hurricane events, PGS is required to respond to reported safety hazards such as gas leaks and blowing gas lines, and to perform damage assessments of the PGS system. The exposure to these potential hurricane costs are modeled and quantified.

Two analyses were performed. A Hurricane Cost Analysis ("Cost Analysis") was performed using a computer catastrophe simulation model that estimates the average annual costs from hurricane perils. A Reserve Performance Analysis was performed using a dynamic financial simulation model to estimate the performance of the reserve subject to the annual hurricane cost probabilities determined in the Cost Analysis

The hurricane exposure is analyzed from a probabilistic approach. The model simulates a large number of hurricane events, covering the full range of potential hurricane characteristics, and determines their corresponding costs. Factors considered in the analysis include the location of PGS's customers, the probability of hurricanes of different intensities and landfall points impacting those customers, the vulnerability of those customers to hurricane damage, and the costs to perform post hurricane inspection assessment activities.

The frequencies and computed costs for a large set of simulated hurricanes are combined to calculate the expected annual cost and the annual aggregate exceedance relations. The expected annual cost represents the average of all hurricane years over a long period of time.

There is an approximate 10% probability that inspection costs from all hurricanes in one year could exceed $1,000,000, and a 1% probability that costs could exceed $4,400,000.

The Reserve Performance Analysis simulates the performance of PGS's reserve fund over a five-year prospective period and is based on the probabilistic derived costs and frequencies of occurrence of hurricanes as determined in the Cost Analysis.

The analysis provides two cases with assumptions on when negative reserve balances, due to hurricane costs, are recovered:

1. In years with negative balances, the costs are not recovered within the five-year simulation, and
2. In years with negative balances, the costs are recovered in one (1) year after the loss.

DOCUMENT NO. 12
PAGE 5 OF 23
FILED: 03/31/2025

The analysis case with no recoveries of negative reserve balances shows the reserve fund balance is expected to decline from the initial $522,000 to $302,000 at the end of five years. There is a 40.8% probability that the reserve could have inadequate funds to cover hurricane costs in one or more years of the five-year simulation.

The analysis case with one (1) year recovery of negative reserve balances shows the reserve fund balance is expected to increase from the initial $522,000 to a $934,000 at the end of five years. There is a 40.6% probability that the reserve could have inadequate funds to cover hurricane costs in one or more years of the five-year simulation.

A summary of the analyses performed of PGS's hurricane cost exposure and reserve performance are provided in the risk profile shown in Table E-1 below.

1. Hurricane Cost Analysis

The Peoples Gas System (PGS) is exposed to and in the past has incurred significant costs from hurricanes. After hurricane events, PGS is required to respond to reported safety hazards such as gas leaks and blowing gas lines, and to perform damage assessments of the PGS system. The exposure to these potential hurricane costs are quantified. The Cost Analysis was performed using the CoreLogic computer model simulation program *Risk, Quantification and Engineering (RQE®)* as well as the portfolio data of customer locations provided by PGS.

Hurricane exposure is analyzed using a probabilistic approach, which considers the full range of potential hurricane characteristics and corresponding costs. Probabilistic analyses identify the probability of damage to customer premises and the cost of performing "Make Safe" inspections.

Probabilistic annual costs are computed using the results of over 110,000 hurricanes events. Annual cost estimates are developed for each simulated hurricane due to damage at individual customer premise locations and aggregated to provide overall portfolio cost amounts.

Factors considered in the analyses include the location of PGS's customers, the probability of hurricanes of different intensities and/or landfall points impacting those assets, the vulnerability of those customer premises to hurricane damage, and the costs to inspect customers' and PGS system assets.

Hurricane Estimation Methodology

The basic components of the hurricane risk analysis include:

- **Customer Locations at Risk**: Define and locate
- **Hurricane Hazard**: Apply a probabilistic hurricane model for the region
- **Customer Vulnerabilities**: Severity (wind speed/storm surge) versus damage and inspection cost
- **Portfolio Analysis**: Probabilistic analysis – based on aggregate inspections and associated costs

These analysis components are summarized herein.

2. Post Hurricane Customer Service, and System Inspection Costs

Customer Locations at risk

After hurricane events, PGS is required to respond to reported safety hazards such as gas leaks and blowing gas lines. These emergency leak orders require PGS to conduct leak surveys, disconnect and reconnect customers, cut and cap service lines, remove meters, and replace damaged facilities. PGS field staff also performs damage assessments of the PGS system after significant hurricane events.

PGS's customer premises are distributed unevenly across its Florida service territory. PGS provides service to approximately 442,000 customers' premises in over 30 Florida counties. A large portion of these customers are located in Hillsborough, Orange, Broward, Miami-Dade, Manatee, and Pinellas Counties. The PGS customer premises are geo-located in the RQE hurricane model to capture the spatial distribution and concentration of these customer premises and their vulnerability to hurricane and storm surge risk.

3. Hurricane Hazard in Florida

The historical record for hurricanes on the Gulf and Atlantic coasts of the United States consists of over 100 years for which reasonably accurate information is available. Historically approximately 500 tropical or subtropical cyclones have affected the state of Florida. Since 1900, there have been 29 hurricanes of Saffir-Simpson Intensity (SSI) 3 or greater (see Table 3-1 for description of the Saffir-Simpson Intensity scale) which have made landfall in the state of Florida. Going back further, written descriptions of hurricanes are available, but it becomes increasingly difficult to estimate actual hurricane intensities and track locations in a reliable manner consistent with the later data. For this reason all hypothetical hurricanes used in this analysis, as well as their corresponding frequencies, have been based only on hurricanes that have occurred since 1900.

Since the historical record is too sparse to simply extrapolate future hurricane landfall probabilities, a series of hypothetical hurricanes was generated in the RQE probabilistic hurricane data base, essentially "filling in" the gaps in the historical data. This provides an estimate of future potential hurricane locations (landfall), track, severity and frequency consistent with the observed historical data.

The hurricane model was developed (Reference 1), using the National Oceanic and Atmospheric Administration (NOAA) model as the base, to determine individual hurricane wind speeds. The NOAA model was designed to model only a few specific types of hurricanes. While the eye of the hurricane follows the selected track, the model uses up to a dozen different hurricane parameters to estimate wind speeds at all distances away from the eye. RQE is based in part on the Florida Commission on Hurricane Loss Projection Methodology's Official Storm Set, which includes hurricanes affecting Florida during the period of 1900 to 2017.

The hurricane intensities used for the analyses conform to basic NOAA information regarding hurricane intensity recurrence relationships corresponding to locations along the coast. Much of PGS's service territory includes coastal areas where these hurricanes have made landfall.

The historical annual frequency of hurricanes has varied significantly over time. There are many causes for the temporal variability in hurricane formation. One of the primary climate cycles having a significant correlation with hurricane activity is the Atlantic Multidecadal Oscillation (AMO). It has been suggested that the formation of hurricanes in the Atlantic Ocean off the coast of Africa is related to the amount of rainfall in the Western African Sahel region. Years in which rainfall is heavy have been associated with the formation of a greater number of hurricanes. The AMO cycle consists of a warm phase, during which the tropical and sub-tropical North Atlantic basins have warmer than average temperatures at the surface and in the upper portion relevant to hurricane activity, and a cool phase, during which these regions of the ocean have cooler than average temperatures. In the period of 1900 to the present, the AMO has gone through the following phases:

1900 to 1925	Cool	(Decreased Hurricane Activity)
1926 to 1969	Warm	(Increased Hurricane Activity)
1970 to 1994	Cool	(Decreased Hurricane Activity)
1995 to the Present	Warm	(Increased Hurricane Activity)

These AMO phases are illustrated by the plot of Sea Surface Temperature (SST) Anomalies (deviation from the mean) in the Atlantic Basin over the past 150 years in Figure 3-1.

The NOAA believes that we entered a warm phase of AMO around the mid-1990s which can be expected to continue for at least several years. Historically, each phase of AMO has lasted approximately 20 to 40 years.

Probabilistic Annual Cost is computed using the results of thousands of random variable hurricanes considering the current Near-Term warm period of hurricane hazard.

Storm Surge Analyses

The storm surge hazard model is supported by the same stochastic hazard event set within RQE to develop wind field and hurricane parameter descriptions, and is additionally integrated with bathymetry data at the Atlantic coastline of the United States from Canada to Mexico.

The phenomenon of storm surge is mainly caused by the wind stress towards the coastline from an approaching tropical cyclone and the atmospheric pressure depression. The main parameters inducing storm surge along the coast are peak gust wind, bathymetry (shallowness), rotation of the earth (Coriolis force), waves and pressure gradient developed in the Tropical Cyclone.

In surge phenomenon, the wind stress coefficient has been identified as the dominant parameter among various model and shelf parameters, because of the stress from the tangential component of the wind, which provides the main driving force for the surge.

The US coast is divided into five zones and bathymetry data has been digitized from coastal Texas to Maine. Grids have been constructed all along the coast in the ocean shelf. The important inputs to the model are the bathymetry of the region at these grid points and cyclone data. The model uses the finite element method to simulate the surge flow by solving vertically an integrated form of shallow water gravity equations. The surge model provides a best estimate of the height of storm surge at the coastal interface.

The model solves the equations of motion for the near-shore sea water, including the wind stress from the standard *RQE* wind field model and the bottom stress as boundary conditions. The bathymetry (ocean depth) is defined on a grid, and the equations of motion are numerically solved at each nodal point of the grid, resulting in the peak storm surge height at a series of coastal boundary points.

For each hurricane event, the probabilistic distribution of storm surge inundation depth is calculated for each location in the portfolio, using the probabilistic distributions of all important storm and location parameters. Inundation is modeled in two zones: the high-velocity zone (typically the first few hundred meters from the coast), where wave action and debris can severely damage structures, and farther inland, where the main problem is flooding as opposed to structural damage. For each hurricane event, the width of the high-velocity zone is calculated at each coastal boundary point using a run-up model. The elevation of the storm surge water surface farther inland is a function of the surge height at the coast and the local distance to the coast.

The storm surge model is run for the probabilistic event set to compute the storm surge at the portfolio asset location. The frequency of each event with the storm surge is calculated.

4. Customer Vulnerabilities

Structures have suffered damage in past hurricanes. Structure damage patterns tend to be most severe in coastal areas where buildings can be exposed to both wind and storm surge perils. Damage at inland locations tends to be less severe with contributions to damage from only wind perils. Structure damage varies with hurricane wind speeds and depths of storm surge. Damage to structures has in past hurricanes resulted in damage to gas lines, meters, and to other equipment that has required PGS inspection to ensure safe conditions.

Vulnerability of customer premises is based upon typical Florida construction, modeled wind speeds, and storm surge from simulated hurricanes. PGS data on the cost of "Make Safe" inspections and costs to inspect system assets are utilized in the modeling of hurricane costs. PGS's cost data from the 2016 Hurricane Matthew, 2017 Hurricane Irma, and 2018 Hurricane Michael provide data on recent hurricane costs from moderate to extreme intensity events. These hurricane cost experiences include the effects of many factors, including the post hurricane costs of labor, fleet equipment, and accommodations associated with the hurricane inspection processes utilized by PGS.

5. Hurricane Cost Analysis Results

PGS's customer premise locations were analyzed using the proprietary computer program, *RQE* subject to a suite of probabilistic hurricanes. The probabilistic hurricane analyses provide the expected annual costs, and non-exceedance probabilities over a range of cost levels.

Storm Probabilistic Analysis

The probabilistic cost analysis is performed using RQE. The hurricane hazard uses the RQE probabilistic stochastic hurricane database which contains approximately 110,000 simulations of possible hurricanes affecting the eastern United States, along both the Gulf and the Atlantic coasts. Each hurricane in the database has been defined by associating a central pressure with a unique hurricane track. In addition, each hurricane is assigned an annual frequency of occurrence, which depends on the hurricane track location and the hurricane intensity as measured by central pressure. For each customer location in the portfolio, the wind speed is calculated, the degree of structure damage and the inspection cost is estimated. The sum of the cost for each customer location is an estimate of the mean cost for each hurricane simulation.

Aggregate Cost Exceedance and Expected Annual Cost

Aggregate cost exceedance calculations are developed by keeping a running total of costs from all possible events in a year. At the end of each year, the aggregate cost for all events is then determined by probabilistically summing the cost distribution from each event, taking into account the event frequency. The process considers the probability of having zero events, one event, two events, etc. during a year.

A series of probabilistic analyses were performed, using the vulnerability curves derived for PGS's customer premises in RQE. A summary of the analysis is presented in Table 5-1, which shows the aggregate cost exceedance probability for cost layers between $0 and more than $4,400,000.

For each cost layer shown, the probability of cost exceeding a specified value is shown. For example, the probability of costs exceeding $400,000 in one year is 22.0%. The analysis calculates the probability of costs from all hurricanes and aggregates the total cost and exceedance probabilities.

The expected annual cost (EAC) from hurricanes is $364,000. This value represents the average cost from all simulated hurricanes. The EAC is not expected to occur every year. Some years will have no costs from hurricanes, some years will have small costs and a few years will have large costs. The EAC represents the average of all hurricane years over a long period of time.

6. Reserve Performance Analysis

A dynamic financial analysis of potential costs from hurricanes was performed to determine their impact on the performance of PGS's reserve. The analysis included the costs from all simulated hurricane events.

The expected annual cost from the hurricane Cost Analysis is $364,000. The expected annual cost estimate represents the average annual cost associated with hurricane inspections for service restoration over a long period of time.

Analysis

The Reserve performance analysis consisted of performing 10,000 iterations of hurricane cost simulations within the PGS service area, each covering a 5-year period, to determine the effect of the costs on the PGS Reserve. Monte Carlo simulations were used to generate cost samples for the analysis. The analysis provides an estimate of the Reserve assets in each year of the simulation, accounting for the annual accrual, borrowing costs when fund balances are negative, and hurricane costs, as determined in the Cost Analysis, using a dynamic financial model.

The analysis provides estimates of the fifth percentile and ninety-fifth percentile reserve balances. At the fifth percentile reserve balance, only five percent of the simulated outcomes have smaller values. Similarly, for the ninety-fifth percentile reserve balance, only five percent of simulated outcomes have values which would be greater than that value. The fifth percentile represents an extremely adverse five years of hurricane experience where costs would far exceed the reserve funds available.

Assumptions

The analysis performed included the following assumptions:

- An initial Reserve balance of $521,856.
- Expected Annual Cost from hurricane hazard is $364,000.
- An annual accrual of $380,000 each year.
- The Reserve balance has a maximum balance of $3,800,000.

FPSC EXH NO. 18
ADMITTED

PEOPLES GAS SYSTEM, INC.

- Two cost recovery cases for negative reserve balances were analyzed:
  - No cost recovery within the five (5) year simulation, and
  - A one (1) year recovery period for negative reserve balances.
- Hurricane costs were assumed to increase by 6.82% per year; 3% per year due to inflation, and 3.82% per year due to system growth.
- Negative reserve balances were assumed to be financed with an unlimited line of credit costing 2.5%.

Analysis Results

Reserve analyses were performed for two cases. The results show the annual reserve accrual amount, the mean (expected) reserve fund balance as well as the probability that the reserve fund balance will be negative in any one or more of the five years of the simulated time horizon.

The analysis case with no recoveries of negative reserve balances shows that the reserve fund balance is expected to decline from the initial $522,000 to $302,000 at the end of five years. There is a 40.8% probability that the reserve could have inadequate funds to cover hurricane costs in one or more years of the five-year simulation.

The analysis case with one (1) year recovery of negative reserve balances shows the reserve fund balance is expected to increase from the initial $522,000 to a $934,000 at the end of five years. There is a 40.6% probability that the reserve could have inadequate funds to cover hurricane costs in one or more years of the five-year simulation.
