PEOPLES GAS SYSTEM, INC. - SUMMARY OF 2024
DEMAND SIDE MANAGEMENT PROGRAM ACCOMPLISHMENTS

Peoples Gas System, Inc. ("Peoples" or the "company") received approval of Demand Side Management ("DSM") goals to fully meet the requirements of the Florida Energy Efficiency and Conservation Act ("FEECA") in Docket No. 20180186-GU, by Consummating Order No. PSC-2019-0390-CO-GU, on September 20, 2019. Peoples' 2019-2028 DSM Plan was approved by the Commission in Docket No. 20190210-EG, by Consummating Order No. PSC-2021-0270-CO-EG, on July 27, 2021. In accordance with Rule 25-17.0021 (5), Florida Administrative Code, the company submits its 2024 annual report summarizing its DSM plan and achieved results.

In 2024, the company achieved the following incremental natural gas savings – Annual Energy ("AE") in Therms at the meter:

2024 Residential Goal		Actual Residential DSM Achieved	
AE:	379,045 Therms	AE:	457,458 Therms

2024 Commercial Goal		Actual Commercial DSM Achieved	
AE:	245,457 Therms	AE:	1,812,827 Therms

2024 Combined Goal		Actual Combined DSM Achieved	
AE:	624,502 Therms	AE:	2,270,284 Therms

The company continues to see increasing activity in its Residential New Construction Program, due in part to the strong Florida housing market. However, participation in both the Residential Retrofit and Residential Retention Programs decreased compared to 2023. This decline led to an overall decline in therm savings across all residential programs from 2023 to 2024.

Peoples experienced record participation in both its Commercial New Construction and Commercial Retention Programs, attributing this growth to the economic climate in Florida and its continued efforts to educate customers on conservation and promote its conservation programs. In April 2024, Peoples made its Commercial Walkthrough Energy Audit available to all commercial customers statewide who participate in conservation cost recovery.

For 2024, Peoples remains committed to offering DSM programs that advance the policy objectives of FEECA, are directly monitorable, yield measurable results, and are cost-effective to deliver. The company will continue its advertising campaign of print media and television advertisements aimed at educating customers on opportunities to participate in programs to meet their energy efficiency requirements. Peoples will also include bill onserts to provide additional communication and education of the company's DSM programs, including its Residential Online Energy Audit and Commercial Walkthrough Energy Audit.

Peoples' 2025-2034 DSM Goals were approved by the Commission in Docket No. 20240018-EG, by Consummating Order No. PSC-2024-0370-CO-EG, on August 21,

FPSC EXH NO. 90
ADMITTED

2024. Peoples' 2025-2034 DSM Plan was also approved by the Commission in Docket No. 20240148-EG, by PAA Order No. PSC-2025-0054-PAA-EG. The company plans to implement its new DSM Plan on March 10, 2025, and its achievement of its 2025-2034 DSM Goals will be detailed in this report next year.

The attached pages present individual program participation levels and summaries that demonstrate the company achievements in 2024, as described in Rule 25-17.0021 (5), Florida Administrative Code.

PEOPLES GAS SYSTEM, INC. - SUMMARY OF 2023
DEMAND SIDE MANAGEMENT PROGRAM ACCOMPLISHMENTS

Peoples Gas System, Inc. ("Peoples" or the "company") received approval of Demand Side Management ("DSM") goals to fully meet the requirements of the Florida Energy Efficiency and Conservation Act ("FEECA") in Docket No. 20180186-GU, by Consummating Order No. PSC-2019-0390-CO-GU, on September 20, 2019. Peoples' 2019-2028 DSM Plan was approved by the Commission in Docket No. 20190210-EG, by Consummating Order No. PSC-2021-0270-CO-EG, on July 27, 2021, and implemented on August 1, 2021. In accordance with Rule 25-17.0021 (5), Florida Administrative Code, the company submits its 2023 annual report summarizing its DSM plan and achieved results.

In 2023, the company achieved the following incremental natural gas savings – Annual Energy ("AE") in Therms at the meter:

2023 Residential Goal		Actual Residential DSM Achieved	
AE:	371,562 Therms	AE:	488,301 Therms

2023 Commercial Goal		Actual Commercial DSM Achieved	
AE:	239,661 Therms	AE:	1,515,462 Therms

2023 Combined Goal		Actual Combined DSM Achieved	
AE:	611,223 Therms	AE:	2,003,762 Therms

Peoples' residential therm savings increased from 2022 to 2023. The company saw an uptick in participation in its Residential Retention Program and also saw some growth in its Residential New Construction Program, due in part to the strong Florida housing market. Peoples saw record participation in both its Commercial New Construction Program and Commercial Retention Program, attributing this growth to the economic climate in Florida and its continued efforts to educate customers on conservation and promote its conservation programs.

Peoples launched its Commercial Walkthrough Energy Audit on May 24, 2023. The program was limited to the Tampa Bay Area in 2023 and 11 customers received an audit. For 2024 and beyond, Peoples looks to expand the audit to encompass its entire territory.

For 2024, Peoples remains committed to offering DSM programs that advance the policy objectives of FEECA, are directly monitorable, yield measurable results, and are cost-effective to deliver. The company will continue its advertising campaign of print media and television advertisements aimed at educating customers on opportunities to participate in programs to meet their energy efficiency requirements. Peoples will include bill onserts to provide additional communication and education of the company's DSM programs, including its Residential Online Energy Audit and Commercial Walkthrough Energy Audit.

PEOPLES GAS SYSTEM - SUMMARY OF 2022 DEMAND SIDE MANAGEMENT PROGRAM ACCOMPLISHMENTS

Peoples Gas System, Inc. ("Peoples") received approval of Demand Side Management ("DSM") goals to fully meet the requirements of the Florida Energy Efficiency and Conservation Act ("FEECA") in Docket No. 20180186-GU, by Consummating Order No. PSC-2019-0390-CO-GU, on September 20, 2019. Peoples' 2019-2028 DSM Plan was approved by the Commission in Docket No. 20190210-EG, by Consummating Order No. PSC-2021-0270-CO-EG, on July 27, 2021, and implemented on August 1, 2021.

For 2022, Peoples achieved all of its annual residential, commercial, and combined DSM Goals. The company achieved the following incremental natural gas savings – Annual Energy ("AE") in Therms at the meter:

2022 Residential Goals		Actual Residential DSM Achieved	
AE:	363,728 Therms	AE:	450,602 Therms

2022 Commercial Goals		Actual Commercial DSM Achieved	
AE:	233,833 Therms	AE:	558,218 Therms

2022 Combined Goals		Actual Combined DSM Achieved	
AE:	597,561 Therms	AE:	1,008,819 Therms

Peoples signed a contract with a vendor to provide the Commercial Walkthrough Energy Audit in December 2022 and continues to work toward implementation in the first quarter of 2023.

For 2023, Peoples remains committed to offering DSM programs that advance the policy objectives of FEECA, are directly monitorable and yield measurable results, and are cost-effective to deliver. The company will continue its advertising campaign of print media and television advertisements aimed at educating customers on opportunities to participate in programs to meet their energy efficiency requirements. Peoples will include bill onserts to provide additional communication and education of the company's DSM programs and Residential Online Energy Audit.

The attached pages present individual program participation levels and summaries that demonstrate the company achievements in 2022, as described in Rule 25-17, (4), Florida Administrative Code.

BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION

In re: Petition for Rate Increase by Peoples Gas System, Inc.	DOCKET NO. 20250029-GU FILED: September 30, 2025

PEOPLES GAS SYSTEM, INC.'S RESPONSE TO STAFF'S TENTH REQUEST FOR PRODUCTION OF DOCUMENTS (NOS. 32-35)

Pursuant to Rule 106.206, Florida Administrative Code, and Florida Rule of Civil Procedure 1.350, Peoples Gas System, Inc. ("Peoples" or the "company"), hereby responds to The Staff of the Florida Public Service Commission's ("Staff") Tenth Request for Production of Documents (Nos. 32-35), served September 24, 2025 ("Staff's Tenth POD").

General Objections

1. Peoples objects to each Request for Production in Staff's Tenth POD ("Request") to the extent that it seeks information that is duplicative, not relevant to the subject matter of this docket, and is not reasonably calculated to lead to the discovery of admissible evidence.

2. Peoples objects to each Request to the extent it is vague, ambiguous, overly broad, imprecise, or utilizes terms that are subject to multiple interpretations but are not properly defined or explained for purposes of such Requests. Peoples will seek clarification from Staff if a request is not clear, but Peoples will produce documents subject to, and without waiving, this objection.

3. Peoples objects to each Request to the extent it requires Peoples to produce information that is already in the public record before the Florida Public Service

Commission ("FPSC" or the "Commission"), or other public agency and/or available to Staff through normal procedures or is readily accessible through legal search engines.

4. Peoples objects to each Request to the extent that it calls for data or information protected by the attorney-client privilege, the work product doctrine, the accountant-client privilege, the trade secret privilege, or any other applicable privilege or protection afforded by law. Peoples will describe the nature of the privileged material, if any, in a privilege log that will accompany its responses.

5. Peoples objects to producing paper copies on the grounds that doing so would be unduly burdensome.

6. Peoples objects to each Request to the extent it requires the company to provide information that it believes is "proprietary confidential business information" as described in Section 366.093, Florida Statutes.

7. Peoples objects to each Request to the extent it requests Peoples to prepare information in a particular format or create data or information that it otherwise does not possess as unduly burdensome and purports to expand Peoples' obligations under applicable law.

8. Subject to Section 366.093(1), Florida Statutes, Peoples objects to any definition or Request that requests documents from persons or entities who are not parties to this proceeding, that seek information from affiliates unrelated to transactions or cost allocations involving Peoples, or that are not otherwise subject to discovery under applicable rules.

9. Subject to Section 366.093(1), Florida Statutes, Peoples objects to any definition or Request that requests documents from persons or entities who are not

parties to this proceeding, that seek information from affiliates unrelated to transactions or cost allocations involving Peoples, or that are not otherwise subject to discovery under applicable rules.

10. Peoples objects to any Request requiring the company to provide additional information beyond that obtained through a reasonable and diligent search.

General Response

Subject to and without waiving its general objections, which are incorporated by reference in each of its specific answers, Peoples will serve its answers to the Commission staff by hand delivering a USB containing its answers to the Commission Clerk's office, and for Staff's purposes, the term "USB" should be substituted for "SharePoint" in the specific answers shown below.

The company's specific answers will identify interrogatories that call for answers that contain (a) information for which the company asserts a legal privilege and/or (b) "proprietary confidential business information" as defined in Section 366.093, Florida Statutes.

An answer that contains information for which the company asserts a legal privilege will be identified in the privilege log attached as Exhibit A.

An answer that contains information the company asserts to be "proprietary confidential business information" will be provided in the Confidential portion of the SharePoint subject to a request for confidential classification, motion for temporary protective order and/or a non-disclosure agreement.

FPSC EXH NO. 91
ADMITTED

Specific Responses

32. Please refer to PGS witness Buzard's Direct Testimony, page 36, lines 11-14. When discussing PGS's customer forecast for the Ocala service territory, Witness Buzard states, "Therefore, based on our use of field specific knowledge and capturing data of known construction activity, it was necessary to lower the projected growth rate for 2026." Please provide all documents that support this statement.

Response:

Peoples' confidential electronic documents responsive to this request will be served by posting on the SharePoint in the folder entitled "CONF_POD_10_32."

33. Please provide all documents supporting PGS's response to ROG No. 1 [SIC] 217. above.

Response:

Please refer to the folder entitled ROG_18_220 for weather normalized therm sales.

34. Please provide all documents supporting PGS's response to ROG 2.b.[SIC] 217.b.

above.

Response:

Peoples' did not identify any documents in response to Staff's Eighteenth Set of Interrogatories, No. 217.b; therefore, there are no documents to provide in response to Request for Production of Documents, No. 34.

35. Please provide all documents supporting PGS's response to ROG 4 [SIC] 219 above.

Response:

Please refer to the folder entitled ROG_18_220 for weather normalized therm sales. After weather normalizing, Residential actuals were 9.00% and 10.55% above budget in April and May, respectively, and Small Commercial actuals were 6.26% and 8.90% above budget.

BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION

In re: Petition for Rate Increase by Peoples Gas System, Inc.	DOCKET NO. 20250029-GU FILED: April 30, 2025

PEOPLES GAS SYSTEM, INC.'S ANSWERS TO OFFICE OF PUBLIC COUNSEL'S FIRST SET OF INTERROGATORIES (NOS. 1-94)

Pursuant to Rule 106.206, Florida Administrative Code, and Florida Rule of Civil Procedure 1.350, Peoples Gas System, Inc. ("Peoples" or the "company"), hereby answers Office of Public Counsel's ("OPC") First Set for Interrogatories (Nos. 1-94), served March 31, 2025 ("OPC's First Interrogatory").

General Objections

1. Peoples objects to each interrogatory in OPC's First Interrogatory ("Set") to the extent that it seeks information that is duplicative, not relevant to the subject matter of this docket, and is not reasonably calculated to lead to the discovery of admissible evidence.

2. Peoples objects to each Set to the extent it is vague, ambiguous, overly broad, imprecise, or utilizes terms that are subject to multiple interpretations but are not properly defined or explained for purposes of such Set. Peoples will seek clarification from OPC if a Set is not clear, but Peoples will produce documents subject to, and without waiving, this objection.

3. Peoples objects to each Set to the extent it requires Peoples to produce information that is already in the public record before the Florida Public Service Commission ("FPSC" or the "Commission") or other public agency and available to OPC through normal procedures or is readily accessible through legal search engines.

4. Peoples objects to each Set to the extent that it calls for data or information protected by the attorney-client privilege, the work product doctrine, the accountant-client

privilege, the trade secret privilege, or any other applicable privilege or protection afforded by law. Peoples will describe the nature of the privileged material, if any, in a privilege log that will accompany its responses.

5. Peoples objects to producing paper copies on the grounds that doing so would be unduly burdensome. Peoples has entered into an agreement with OPC, governing discovery production and responses, and will serve its answers to the Sets and related responsive documents to OPC in electronic form via a SharePoint site to which OPC and its consultants has remote access.

6. Peoples objects to each Request to the extent it requires the company to provide information that it believes is "proprietary confidential business information" as described in Section 366.093, Florida Statutes. Peoples will provide such confidential information to OPC in a designated confidential portion of the SharePoint site described above and subject to a Motion for Temporary Protective Order, Notice of Intent to Request Confidential Classification, and/or Request for Confidential Classification, as appropriate.

7. Peoples objects to each Set, instruction, or definition in that purports to expand Peoples' obligations under applicable law.

8. Peoples objects to each Set to the extent it requests Peoples to prepare information in a particular format or create data or information that it otherwise does not possess as unduly burdensome and as purporting to expand Peoples' obligations under applicable law.

9. Subject to Section 366.093(1), Florida Statutes, Peoples objects to any definition or Set that requests documents from persons or entities who are not parties to this proceeding, that seek information from affiliates unrelated to transactions or cost allocations involving Peoples, or that are not otherwise subject to discovery under applicable rules.

FPSC EXH NO. 92
ADMITTED

10. Peoples objects to any Set requiring the company to provide additional information beyond that obtained through a reasonable and diligent search.

General Response

Subject to and without waiving its general objections, which are incorporated by reference in each of its specific answers, Peoples provides its answers to OPC's First Interrogatory by posting its answers on the Peoples Discovery SharePoint site established for this docket (the "SharePoint") and as specified in its specific answers. Peoples will serve its answers to the Commission staff by hand delivering a USB containing its answers to the Commission Clerk's office, and for Staff's purposes, the term "USB" should be substituted for "SharePoint" in the specific answers shown below.

The company's specific answers will identify interrogatories that call for answers that contain (a) information for which the company asserts a legal privilege and/or (b) "proprietary confidential business information" as defined in Section 366.093, Florida Statutes.

An answer that contains information for which the company asserts a legal privilege will be identified in the privilege log attached as Exhibit A.

An answer that contains information the company asserts to be "proprietary confidential business information" will be provided in the Confidential portion of the SharePoint subject to a request for confidential classification, motion for temporary protective order and/or a non-disclosure agreement.

PEOPLES GAS SYSTEM, INC.
DOCKET NO. 20250029-GU
OPC'S FIRST SET OF INTERROGATORIES
INTERROGATORY NO. 6
BATES PAGE(S): 17100 - 17104
APRIL 30, 2025

6. Growth. Provide the historic and projected amounts of the following for each of the calendar years from 2021 through the end of the subsequent year and provide the percentage increases of each year end amount over that from the prior year:

a. Miles of mains and services,

b. Residential customers,

c. Commercial customers,

d. Residential sales measured in therms,

e. Commercial sales measured in therms,

f. Base rate revenues,

g. Employee team members; and

h. Contract labor full-time equivalents.

ANSWER:

a - g. Please see tables below.

The revenue requirements included in the proposed 2027 Subsequent Year Adjustment ("SYA") include incremental costs associated with the annualization of depreciation and amortization expense, property tax expense, and return requirements related to capital investments made during the 2026 test year. The proposed 2027 SYA is not based on a full projected test year for 2027. As a result, the company does not have a "subsequent year projection" for the data requested by this interrogatory.

h. The company budgets and accounts for contractor services in terms of dollars rather than the number of full-time equivalents (FTEs). Contractor resources are generally available to perform units of work rather than employed on an FTE basis, which means that we evaluate the cost of our overall resource base in dollars rather than FTEs.

The table below includes outside services (contractor costs) O&M services by function in dollars for 2021 - 2026. Outside service costs are attributable to both O&M expense and capital expenditure activities; however, not all outside service costs are separated between labor and material expenditure types when vendor invoices are posted in the financial system.

Although Peoples estimates it employs between 400-500 contractors to design and construct its pipeline assets, these contracts by and large are unit based, and accounting for hours or individual contractor FTEs are not tracked in the accounting systems for these capital expenditures.

For O&M expenses, the financial system records expenses related to vendor labor but also includes overhead costs such as vehicle expenses, equipment utilization, and other similar costs that vendors incur when performing work on behalf of Peoples. As a result, information regarding outside services specific to vendor labor is not available.

APRIL 30, 2025

7. Labor. Describe in detail the relationship between the Company's projected increases and/or decreases of employee team members and increases and/or decreases of contract labor full-time equivalents each year from the beginning of 2025 through the end of 2026. In other words, describe how and to what extent the Company intends to displace contract labor full-time equivalents with team members.

ANSWER:

Peoples balances outside contractor expenses with the need to maintain a flexible and responsive workforce. Part of this balance is insourcing contractor functions where it makes sense to do so from an operational perspective. Benefits can include increasing in-house capabilities, overall cost reductions, business continuity, and capability expansion. While insourcing does increase some costs, reducing contractor expenses mitigates the costs of adding team members, resulting in a lower overall cost to the benefit of Peoples' customers. These decisions are balanced with the advantage of a flexible, temporary workforce.

To maintain this balanced approach, Peoples plans to insource additional team members in 2025 for the Gas Operations team and the Engineering, Construction and Technology ("ECT") team. By the end of 2025, Peoples is seeking to fully insource meter reading functions by adding nine Meter Read Technicians. They also intend to increase internal support for the Infor system by hiring a Systems Analyst. Additionally, to enhance collaboration between field personnel and IT solutions development, they will add a Gas Ops Business System Analyst.

In 2026, Peoples intends to support the company's customer growth by insourcing five additional inspectors and three design techs, enhance the capabilities of its Procurement Team by insourcing two Supply Chain professionals from Tampa Electric while reducing its allocation from Tampa Electric, and insource resources to provide long term support for WAM by hiring two additional Systems Analysts.

For additional details please see pages 58-66 of Witness Richard's Direct Testimony, Document No. 9 of the Exhibit to Witness Richard's Direct Testimony, pages 47 – 54 of Witness O'Connor's Direct Testimony, and Peoples answer to OPC's First Set of interrogatories Number 12.

8. Labor. Describe in detail the relationship between the Company's actual increases and/or decreases of employee team members and increases and/or decreases of contract labor full-time equivalents each year from the beginning of 2022 through the end of 2024. In other words, describe how and to what extent the Company displaced contract labor full-time equivalents with team members.

ANSWER:

In 2022, Peoples balanced its internal team with flexible contracted labor, without insourcing contractors.

In 2023, improvements in the labor market, along with the growth of the pipeline system, customer base, and safety performance, prompted the decision to bring some functions in-house to improve workplace safety and damage prevention, construction, and supply chain management. As described in the direct testimony of Witness O'Connor, pg. 51 line 20 – pg. 52, Line 4, Gas Operations insourced 21 positions, consisting of 18 pipeline locators and three Utility Technicians or Apprentices.

In 2024, Gas Operations in-sourced 14 positions, consisting of one pipeline locator, two Leak Survey technicians, and 11 Meter Technicians or Apprentices. The Measurement & Regulation Team insourced one position from contracted personnel as a Measurement Analyst. Peoples also identified two outsourced inspector/coordinator roles for insourcing as a part of the Design & Construction Performance Improvement ("DCPI") project described in Witness Richard's direct testimony. One of these positions was filled in 2024, while the other is currently posted. The DCPI Project optimized the inspection schedules and implemented process improvements as described in response to Interrogatory Request Number 85.

Additionally, Peoples' Supply Chain insourced positions from contracted personnel, hiring two Contractor Administrators during 2024. This decision was made to improve continuity and knowledge retention through staff development and succession planning, improve responsiveness to supply pricing, and reduce turnover among external providers.

PEOPLES GAS SYSTEM, INC.
DOCKET NO. 20250029-GU
OPC'S FIRST SET OF INTERROGATORIES
INTERROGATORY NO. 12
BATES PAGE(S): 17112 - 17114
APRIL 30, 2025

12. Labor. Provide an explanation detailing the need for additional new employee positions in 2025 and 2026 compared to actual employee position in 2024. Include any analysis supporting the identification and determination for the new positions, including all cost benefit analysis of new employees replaced contractor positions.

ANSWER:

MFR Schedule G-2, pages 19c through 19e, lists all of the budgeted team member additions for 2025 and 2026.

Peoples is answering this interrogatory in part by producing records as allowed under Florida Rule of Civil Procedure 1.340(c); justifications for new and replacement positions are provided in a table in the folder entitled "ROG_1_12" and will be posted on the Consumer Party SharePoint Site or provided via USB.

The company plans to increase the number of team members in 2025 and 2026 to support customer growth. Specifically, this increase will focus on several areas:

(1) Gas Operations to support the increase in activity levels due to customer growth on Peoples' system and the addition of new capital assets;

(2) Pipeline Safety to mitigate risk, and to ensure safety remains our top priority for the safety of our team members and customers;

(3) Engineering and Construction to effectively manage increasingly complex systems and workload as we grow;

(4) Technology Support to provide Peoples with the ability to own, govern and effectively manage its data, enabling more informed business decisions;

(5) Finance, External Affairs, and Regulatory Affairs to assist with various accounting and financial activities, stakeholder management, legislative activities, and franchise agreement management and cost of service and financial analysis to support regulatory activity;

(6) Strategy, Marketing & Communications to lead business improvement projects, enhance the team's project management skills across the organization, transform data into actionable insights and integrate Artificial Intelligence to improve

efficiency and productivity, and optimize the company's digital communication strategies;

(7) Gas Supply & Development to manage RNG projects, support gas supply and trading to ensure adequate gas supply and pipeline transportation capacity for the growing customer base, improve efficiencies within the fuels team by enhancing processes related to data collection and reporting, address existing CNG customer needs and manage the growing CNG market, data analysis and modeling to improve system reliability and optimize the portfolio, support large volume customer load growth, and coordinate internal functions to meet customer needs and;

(8) Human Resources is adding two new positions to address talent gaps in the organization and to support the learning and development of our team members. In 2026, HR will add a "Business Partner" position to support our growing workforce across the state.

Overall, these additions are essential to meet the demands of our growing customer base and to maintain our commitment to safety and operational efficiency.

For additional information regarding the need for team member additions, please see the tables for the company's response to OPC's First Set of Interrogatories, No. 9.

PEOPLES GAS SYSTEM, INC.
REPLACEMENT AND NEW POSITIONS IN COMPANY'S LABOR BUDGET
OPC INTERROGATORY NO 12

Department	Authorized Positions	2025 Count	2026 Count	Witness	New Position	Justification
Technology Support	Data Engineer	1		Richard	Y	Team member needed for PGS Data Governance and Strategy. This team will give PGS the ability to own, govern, and manage its data. PGS currently has multiple, distributed sources of business-related data with no centralized data management or support. The goal is for PGS to have quality data that is centralized, organized, and made accessible to users for reporting, dashboards, analytics, AI and other uses. PGS will see improved decision-making around subjects such as where to engage in construction projects or how to optimize work orders as a result. For more information, see Page 66 of Witness Christian Richard's Direct Testimony.
Technology Support	GIS Solution Analyst	1		Richard	Y	Team member needed to provide additional support for new IT systems, including GIS and Integity Management Support. For more information, see Page 66 of Witness Christian Richard's Direct Testimony.
Technology Support	Manager IT Data Del. And Supp.	1		Richard	Y	Team member needed for PGS Data Governance and Strategy. This team will give PGS the ability to own, govern, and manage its data. PGS currently has multiple, distributed sources of business-related data with no centralized data management or support. The goal is for PGS to have quality data that is centralized, organized, and made accessible to users for reporting, dashboards, analytics, AI and other uses. PGS will see improved decision-making around subjects such as where to engage in construction projects or how to optimize work orders as a result. For more information, see Page 66 of Witness Christian Richard's Direct Testimony.
Technology Support	Systems Analyst II	1		Richard	Y	Insourcing. Offset in Outside Services. PGS currently shares Infor support with TECO Partners by paying for a portion of two external resources. By insourcing this position with one employee, the company will save O&M. For more information, see Page 66 of Witness Christian Richard's Direct Testimony.
Technology Support	Scrum Master	1		Richard	Y	Team member needed for PGS Data Governance and Strategy. This team will give PGS the ability to own, govern, and manage its data. PGS currently has multiple, distributed sources of business-related data with no centralized data management or support. The goal is for PGS to have quality data that is centralized, organized, and made accessible to users for reporting, dashboards, analytics, AI and other uses. PGS will see improved decision-making around subjects such as where to engage in construction projects or how to optimize work orders as a result. For more information, see Page 66 of Witness Christian Richard's Direct Testimony.
Technology Support	PGS Gas Ops Business System Analyst	1		Richard	Y	Insourcing. Offset in Outside Services. This team member will work with management and front-line personnel to analyze and understand business processes and needs aiding in the identification of technology solutions that enable business strategy, provide value and meet business requirements. This position serves as a liaison between business partners and IT Solutions Development and Support personnel. For more information, see Page 66 of Witness Christian Richard's Direct Testimony.
Engineering & Construction Services	Capital Manager	1		Richard	Y	Responsible for capital management, including planning, tracking, execution, and reporting for PGS. For more information, see Page 65 of Witness Christian Richard's Direct Testimony.
Engineering & Construction Services	Sr. Analyst - IRP/Capital	1		Richard	Y	This team member will have a background in project management/business planning needed for the project-side work for the IRP. For more information, see Page 65 of Witness Christian Richard's Direct Testimony.
Engineering & Construction Services	Gas Operations Tech II (Replacement)	1		Richard	N	Team member needed to maintain, troubleshoot, and repair large gate station equiment, including regulators, control vales, heaters, filters/strainers, and other filtration systems.
Engineering & Construction Services	Measurement Technicians (Replacements)	2		Richard	N	These technicians are needed to complete measurement/meter work for large customers and at transfer points. This includes meter testing of large capacity meters, meter indeces and correctors, and SCADA equipment.
Engineering & Construction Services	Measurement Ops Analyst (Replacement)	1		Richard	N	Team member needed to support WAM scheduling/coordinating for the M&R team. Manages daily maintenance for the team, including tracking M&R compliance work.
Engineering & Construction Services	Gas Operations Tech (Replacement)	1		Richard	N	Team member needed to maintain, troubleshoot, and repair large gate station equiment, including regulators, control vales, heaters, filters/strainers, and other filtration systems.
Engineering & Construction Services	Instrumentation & Control Technician (Replacement)	1		Richard	N	Team member needed to collaborate with company personnel, contractors, and vendors in the installation of gate station regulation, control, chromatograph, odorization systems, and filtration equipment. Team member will troubleshoot and replace electronic and control equipment to ensure effective integration.
Engineering & Construction Services	Gas Design Techs (Replacements)	2		Richard	N	Team members needed to design and engineer the drawing and permit packages for distribution gas pipeline construction activities.
Engineering & Construction Services	Construction Project Manager (Replacement)	1		Richard	N	This position is needed to manage engineering and construction projects, including all phases of planning and execution in respect to schedule, financial, and operating performance.
Engineering & Construction Services	Contractor Program Coordinator	1		Richard	Y	This team member is needed to support the relationship and value generation of our contracted workforce. For more information, see Page 61 of Witness Christian Richard's Direct Testimony.
Engineering & Construction Services	Construction Inspector (Replacement)	1		Richard	N	This position is needed to ensure quality and safety standards are met in construction field activities.
Engineering & Construction Services	Gas Control Analyst (Replacement)	1		Richard	N	Team member will help reduce the risk of pipeline incidents by balancing workload and preventing fatigue. Maintaining this position will bring the company closer to the recommended staffing levels as defined by the PHMSA White Paper "Staffing og Regular, Cyclic 24/7 Operations".
Engineering & Construction Services	Gas Control Coordinator (Replacement)	1		Richard	N	Team member will help reduce the risk of pipeline incidents by balancing workload and preventing fatigue. Maintaining this position will bring the company closer to the recommended staffing levels as defined by the PHMSA White Paper "Staffing og Regular, Cyclic 24/7 Operations".
Engineering & Construction Services	Engineer II (Replacement)	1		Richard	N	This modeler role is required to meet modeling requests from the business along with trying to proactively model the system to find resiliancy risks and support resiliency projects.

FPSC EXH NO. 92

ADMITTED

Engineering & Construction Services	Coop (Replacement)	1	Richard	N	Team member needed to complete various engineering tasks. The Co-op will gain valuable real-world experience under the mentorship of the engineering team. In addition to gaining practical skills, they will be introduced to Peoples and the natural gas industry, fostering future career opportunities.
Engineering & Construction Services	Technology Analyst (Replacement)	1	Richard	N	Team member will help reduce the risk of pipeline incidents by balancing workload and preventing fatigue. Maintaining this position will bring the company closer to the recommended staffing levels as defined by the PHMSA White Paper "Staffing og Regular, Cyclic 24/7 Operations".
Regulatory	Director Rates, Cost of Service and Financial Analysis	1	Buzard	Y	Team member needed to play a critical role in performing activities related to pricing gas distribution rates, conducting comprehensive cost-of-service studies, and engaging in regulatory financial analysis that accurately reflects the company's cost to serve. For more information, see Page 11 of the Direct Testimony of Witness Luke Buzard.
External Affairs	External Affairs Manager (Replacement)	1	Buzard	N	Team member needed to develop, cultivate, and manage relationships with elected officials, governmental staff, business and community leaders, economic development organizations and customers for the North Region in the company's service area. For more information, see Page 13 of the Direct Testimony of Witness Luke Buzard.
External Affairs	External Affairs Business Strategy Analyst (Replacement)	1	Buzard	N	Team member needed to support the External Affairs team in developing and implementing strategies to advocate for interests of the company. For more information, see Page 13 of the Direct Testimony of Witness Luke Buzard.
Marketing & Communication	Director Project Management & Change	1	Bluestone	Y	Team member needed for change leadership in our rapidly growing and evolving environment. See Page 53 of the Direct Testimony of Witness Donna Bluestone for more information.
Fuels & Commercial Development	Business Development Manager (Replacement)	1	Bluestone	N	Team member needed to focus on building relationships with RNG developers and customers and will serve as a primary point of contact for corporate or industrial customer representatives looking to utilize cleaner sources of natural gas. See Page 58 of the Direct Testimony of Witness Donna Bluestone for more information.
Fuels & Commercial Development	Sr. Gas Trader (Replacement)	1	Bluestone	N	Team member needed to support the company's activities in gas supply and wholesale origination, focusing on the administration of gas supply and upstream transportation capacity activities. See Page 59 of the Direct Testimony of Witness Donna Bluestone for more information.
Fuels & Commercial Development	Coop (Replacement)	1	Bluestone	N	Team member needed to assist in creating efficiencies for the fuels team by improving processes and procedures for data collection, data entry, models and reporting. See Page 59 of the Direct Testimony of Witness Donna Bluestone for more information.
Fuels & Commercial Development	CNG Business Development Manger (Replacement)	1	Bluestone	N	Team member is necessary to meet existing CNG customer needs and manage workload associated with the continued growth in the CNG market that has evolved as a resilient source of energy for our customers. See Page 59 of the Direct Testimony of Witness Donna Bluestone for more information.
Finance	Coop (Replacement)	1	Buzard	N	Team member needed to assist with various accounting and financial activities, while receiving an opportunity for practical experience and professional growth. See Page 15 of the Direct Testimony of Luke Buzard for more information.
Finance	Fixed Assets Accountant	1	Buzard	Y	Team member needed to support the growing volume of transactional data related to the company's expanding capital assets. For more information, see Page 15 of the Direct Testimony of Witness Luke Buzard.
Human Resources	Technical Trainer	1	Bluestone	Y	Team member needed as we continue to prioritize leadership and team member development and enhance engagement among our team members. See Page 22 of the Direct Testimony of Witness Donna Bluestone for more information.
Human Resources	Learning & Development Specialist	1	Bluestone	Y	Team member needed to address talent management, and assist with leadership development and the needs of our growing workforce. See Page 22 of the Direct Testimony of Witness Donna Bluestone for more information.
Pipeline Safety	Director of Safety (Replacement)	1	O'Connor	N	Team member needed to drive continued occupational, contractor and SMS improvements and provide expertise and leadership of the associated teams. Specifically, the SMS Director will lead strategies and tactics to prevent team member and contractor high energy-related injuries and PHMSA reportable pipeline safety incidents, and to further our Safety Management System and culture.
Pipeline Safety	Damage Prevention Coordinators	2	O'Connor	Y	Team members needed to support the company's effort to protect its pipeline system and perform awareness and damage prevention training to third-party excavators and the public. See Page 48 of the Direct Testimony of Witness Tim O'Connor for more information.
Gas Operations	Meter Technician - Orlando	2	O'Connor	Y	Insourcing. Team member replacing outside contractors for meter reading.For more information, see Page 47 of the Direct Testimony of Witness Tim O'Connor.
Gas Operations	Administrative Specialist (Replacement) - Orlando	1	O'Connor	N	Team member needed to support WAM and compliance efforts.
Gas Operations	Apprentice (Replacement) - Ocala	2	O'Connor	N	Team member needed to support increasing activity levels across Peoples' service areas. Apprentices will start in the company's training program, with the goal of becoming fully qualified gas technicians.
Gas Operations	Meter Technician - Ocala	1	O'Connor	Y	Insourcing. Team member replacing outside contractors for meter reading.For more information, see Page 47 of the Direct Testimony of Witness Tim O'Connor.
Gas Operations	Pipeline Locator (Replacement)-Jacksonville	1	O'Connor	N	Team member needed to support increasing activity levels across Peoples' service areas.
Gas Operations	Pipeline Locator (Replacement)-Jacksonville	1	O'Connor	N	Team member needed to support increasing activity levels across Peoples' service areas.
Gas Operations	Pipeline Locator (Replacement)-Jacksonville	1	O'Connor	N	Team member needed to support increasing activity levels across Peoples' service areas.
Gas Operations	Utility Technician (Replacement)-Jacksonville	1	O'Connor	N	Team member needed to maintain Peoples' leak response.
Gas Operations	Utility Technician (Replacement)-Jacksonville	1	O'Connor	N	Team member needed to maintain Peoples' leak response.

Gas Operations	Admin Specialist (Replacement)-Jacksonville	1	O'Connor	N	Team member needed to support WAM and compliance efforts.
Gas Operations	Meter Technician - Jacksonville	2	O'Connor	Y	Insourcing. Team member replacing outside contractors for meter reading.For more information, see Page 47 of the Direct Testimony of Witness Tim O'Connor.
Gas Operations	Apprentice (Replacement) - Eustis	1	O'Connor	N	Team member needed to support increasing activity levels across Peoples' service areas. Apprentices will start in the company's training program, with the goal of becoming fully qualified gas technicians.
Gas Operations	Utility Technician (Replacement) - Panama City	1	O'Connor	N	Team member needed to maintain Peoples' leak response.
Gas Operations	Apprentice (Replacement) - Sarasota	1	O'Connor	N	Team member needed to support increasing activity levels across Peoples' service areas. Apprentices will start in the company's training program, with the goal of becoming fully qualified gas technicians.
Gas Operations	Pipeline Locator (Replacement) - Sarasota	1	O'Connor	N	Team member needed to support increasing activity levels across Peoples' service areas.
Gas Operations	Supervisor Damage Prevention - Sarasota	1	O'Connor	Y	Team member needed to manage the increasing workload in the Sarasota service area. See Page 47 of the Direct Testimony of Witness Tim O'Connor for more information.
Gas Operations	Apprentices (Replacement) - Dade	7	O'Connor	N	Team members needed to support increasing activity levels across Peoples' service areas. Apprentices will start in the company's training program, with the goal of becoming fully qualified gas technicians.
Gas Operations	Pipeline Locator (Replacement) - St. Pete	1	O'Connor	N	Team member needed to support increasing activity levels across Peoples' service areas.
Gas Operations	Apprentice (Replacement) - St. Pete	1	O'Connor	N	Team member needed to support increasing activity levels across Peoples' service areas. Apprentices will start in the company's training program, with the goal of becoming fully qualified gas technicians.
Gas Operations	Meter Technician - St. Pete	1	O'Connor	Y	Insourcing. Team member replacing outside contractors for meter reading.For more information, see Page 47 of the Direct Testimony of Witness Tim O'Connor.
Gas Operations	Scheduler Coordinator I (Replacement) - Tampa	1	O'Connor	N	Team member needed to support increasing activity levels across Peoples' service areas.
Gas Operations	Meter Technician - Tampa	3	O'Connor	Y	Insourcing. Team member replacing outside contractors for meter reading.For more information, see Page 47 of the Direct Testimony of Witness Tim O'Connor.
Gas Operations	Dispatcher Analyst - BOSS	2	O'Connor	Y	Team member needed to transition the company to a 24/7 dispatch cycle. See Page 47 of the Direct Testimony of Witness Tim O'Connor for more information.
Gas Operations	Supervisor Dispatch Shift - BOSS	1	O'Connor	Y	Team member needed to transition the company to a 24/7 dispatch cycle. See Page 47 of the Direct Testimony of Witness Tim O'Connor for more information.
Gas Operations	Business Ops Support Specialist - BOSS	1	O'Connor	Y	This is the first phase in transitioning 24/7 Dispatch from TEC. This position would handle dispatch after-hours, enter tickets in WAM and prepare for the next day. Current TEC dispatch cannot access WAM. This position was approved in Peoples' 2023 Rate Case, as discussed on Page 45 of Witness Tim O'Connor's Direct Testimony.
Gas Operations	Supervisor Centralized Scheduling - BOSS	1	O'Connor	Y	Team member needed to transition the company to a 24/7 dispatch cycle. See Page 47 of the Direct Testimony of Witness Tim O'Connor for more information.
Gas Operations	Manager of Sustainable Operations - Sustainable Ops.	1	O'Connor	Y	Team member needed to oversee operational support for CNG and RNG pipeline projects. Fifty percent of the labor costs for this position will be classified as below-the line expenses, as some of the manager's direct reports will be dedicated to maintaining the Alliance RNG facilities. See Page 47 of the Direct Testimony of Witness Tim O'Connor for more information.
Gas Operations	Administrative Specialist - Technical Training	1	O'Connor	Y	Team member needed to support the growth of Peoples' Technical Training program. See Page 47 of the Direct Testimony of Witness Tim O'Connor for more information.
Gas Operations	Technical Trainer - Technical Training	1	O'Connor	Y	Team member needed to support the growth of Peoples' Technical Training program. See Page 47 of the Direct Testimony of Witness Tim O'Connor for more information.
Supply Chain/Procurement	Contract Administrators III	2	Richard	Y	Insourcing. Team member needed to assist in contract administration including preparation, solicitation, negotiation, award, and commercial management. See Page 66 of the Direct Testimony of Witness Christian Richard for more information.
Supply Chain/Procurement	Fleet Sr. Analyst	1	Richard	Y	Team member s necessary to manage a fleet of over 701 vehicles and 14 facilities as of December 2024. See Page 66 of the Direct Testimony of Witness Christian Richard for more information.
Supply Chain/Procurement	Sr. Buyer	1	Richard	Y	Team member needed to support the annual procurement of $55.0 million in materials. See Page 66 of the Direct Testimony of Witness Christian Richard for more information.
Technology Support	Business Intelligence Analyst II	1	Richard	Y	Team member needed for additional support for new IT systems, including WAM Reporting. For more information, see Page 66 of Witness Christian Richard's Direct Testimony.
Technology Support	Data Engineer II	1	Richard	Y	Team member needed for PGS Data Governance and Strategy. This team will give PGS the ability to own, govern, and manage its data. PGS currently has multiple, distributed sources of business-related data with no centralized data management or support. The goal is for PGS to have quality data that is centralized, organized, and made accessible to users for reporting, dashboards, analytics, AI and other uses. PGS will see improved decision-making around subjects such as where to engage in construction projects or how to optimize work orders as a result. For more information, see Page 66 of Witness Christian Richard's Direct Testimony.

Technology Support	Data Architect	1	Richard	Y	Team member needed for PGS Data Governance and Strategy. This team will give PGS the ability to own, govern, and manage its data. PGS currently has multiple, distributed sources of business-related data with no centralized data management or support. The goal is for PGS to have quality data that is centralized, organized, and made accessible to users for reporting, dashboards, analytics, AI and other uses. PGS will see improved decision-making around subjects such as where to engage in construction projects or how to optimize work orders as a result. For more information, see Page 66 of Witness Christian Richard's Direct Testimony.
Technology Support	Gas Management Systems Analyst	1	Richard	Y	Team member needed for additional gas meter, flow measurements and other non-SCADA systems as PGS AMI implementation and customer growth continues. For more information, see Page 66 of Witness Christian Richard's Direct Testimony.
Technology Support	SCADA Systems Analyst	1	Richard	Y	Team member needed for additional SCADA support as customer growth continues. For more information, see Page 66 of Witness Christian Richard's Direct Testimony.
Technology Support	SAP S4 Systems Analyst	1	Richard	Y	Insourcing, offset in Outside Services. Team member needed to bring Readily Available key WAM resources in-house to offset AMS cost and provide long term support of key areas. For more information, see Page 66 of Witness Christian Richard's Direct Testimony.
Technology Support	SAP Systems Analyst	1	Richard	Y	Insourcing, offset in Outside Services. Team member needed to bring Readily Available key WAM resources in-house to offset AMS cost and provide long term support of key areas. For more information, see Page 66 of Witness Christian Richard's Direct Testimony.
Engineering & Construction Services	Sr. Engineering Analyst - IRP	1	Richard	Y	This is an IRP position focused on system forecasting, including growth and load projections. This team member will develop the capital plan and ensure that it is tied to the load forecast developed by Regulatory Affairs. For more information, see Page 65 of Witness Christian Richard's Direct Testimony.
Engineering & Construction Services	Sr. Manager Strategic System/Capital Planning	1	Richard	Y	Within the IRP team, focuses on modeling IRP scenarios, working with Engineering, Partners and BD to understand systems requirements and changes and propose strategic solutions to best deliver value for customers. For more information, see Page 65 of Witness Christian Richard's Direct Testimony.
Engineering & Construction Services	Measurement Engineer	1	Richard	Y	Team member needed to ensure the safe and reliable operation of the company's measurement and regulating equipment and compressor stations. See Page 63 of the Direct Testimony of Witness Christian Richard for more information.
Engineering & Construction Services	Compliance Program Manager	1	Richard	Y	Team member needed to ensure the safe and reliable operation of the company's measurement and regulating equipment and compressor stations. See Page 63 of the Direct Testimony of Witness Christian Richard for more information.
Engineering & Construction Services	Instrumentation & Control Technicians	3	Richard	Y	Team member needed to ensure the safe and reliable operation of the company's measurement and regulating equipment and compressor stations. See Page 63 of the Direct Testimony of Witness Christian Richard for more information.
Engineering & Construction Services	Measurement Technicians/Gas Ops Techs	2	Richard	Y	Team member needed to ensure the safe and reliable operation of the company's measurement and regulating equipment and compressor stations. See Page 63 of the Direct Testimony of Witness Christian Richard for more information.
Engineering & Construction Services	Compressor & CNG Ops Tech	1	Richard	Y	Team member needed to ensure the safe and reliable operation of the company's measurement and regulating equipment and compressor stations. See Page 63 of the Direct Testimony of Witness Christian Richard for more information.
Engineering & Construction Services	Gas Design Techs	3	Richard	Y	Insourcing. Offset in Outside Services. Team member needed to support a growing system design workload. See Page 62 of the Direct Testimony of Witness Christian Richard for more information.
Engineering & Construction Services	Construction Coordinator	1	Richard	Y	Team members needed to support permit closures, update maps and records, and coordinate between customers and contractors to provide both positive customer service as well as an efficient construction process. See Page 61 of the Direct Testimony of Witness Christian Richard for more information.
Engineering & Construction Services	Construction Coordinator	1	Richard	Y	Team members needed to support permit closures, update maps and records, and coordinate between customers and contractors to provide both positive customer service as well as an efficient construction process. See Page 61 of the Direct Testimony of Witness Christian Richard for more information.
Engineering & Construction Services	Gas Design Tech II	1	Richard	Y	Team member needed to support a growing system design workload. See Page 62 of the Direct Testimony of Witness Christian Richard for more information.
Engineering & Construction Services	Admin Specialist	1	Richard	Y	Team member needed to help manage the construction contractors and improve business processes. See Page 62 of the Direct Testimony of Witness Christian Richard for more information.
Engineering & Construction Services	Contractor Program Manager	1	Richard	Y	Team member needed to help manage the construction contractors and improve business processes. See Page 62 of the Direct Testimony of Witness Christian Richard for more information.
Engineering & Construction Services	Construction Inspectors	5	Richard	Y	Insourcing. Team members needed to design and build new services, install new mains, and complete legacy pipe replacement and relocation projects. See Page 62 of the Direct Testimony of Witness Christian Richard for more information.
Engineering & Construction Services	Technology Analyst	1	Richard	Y	Team member needed to reduce the risk of pipeline incidents by balancing workloads and preventing fatigue. See Page 65 of the Direct Testimony of Witness Christian Richard for more information.
Engineering & Construction Services	Gas Control Analyst	2	Richard	Y	Team member needed to reduce the risk of pipeline incidents by balancing workloads and preventing fatigue. See Page 65 of the Direct Testimony of Witness Christian Richard for more information.
Engineering & Construction Services	Estimator	1	Richard	Y	Team member needed to free up skilled engineers to focus on more complex and challenging engineering work, reduce external contractor costs, and 5 enable more consistent and timely internal estimates or engineering designs to ensure the needs of customers are met. See Page 61 of the Direct Testimony of Witness Christian Richard for more information.
Engineering & Construction Services	Record Specialist/Team	1	Richard	Y	Team member needed to set standards for all new records generated and will ensure all historical records are managed for accuracy and digitized. See Page 61 of the Direct Testimony of Witness Christian Richard for more information.

Regulatory	Regulatory Manager	1	Buzard	Y	Team member needed to address the increased workload associated with on-going and anticipated regulatory activity, enhanced regulatory research and analysis, and general legislative and Commission activities. For more information, see Page 12 of the Direct Testimony of Witness Luke Buzard.
External Affairs	External Affairs Manager	1	Buzard	Y	Team member needed to serve as a key resource with a responsibility to enhance the company's interactions with the Commission, other regulatory agencies, and various stakeholders. For more information, see Page 14 of the Direct Testimony of Witness Luke Buzard.
Marketing & Communication	Data Scientist	1	Bluestone	Y	Team member needed to enhance Peoples' efforts to transform company data into actionable insights. See Page 54 of the Direct Testimony of Witness Donna Bluestone for more information.
Marketing & Communication	Lead Business Innovation Specialist	1	Bluestone	Y	Team member needed to support process improvement strategy implementation across the company. See Page 54 of the Direct Testimony of Witness Donna Bluestone for more information.
Marketing & Communication	Digital Comms Coordinator	1	Bluestone	Y	This team member is needed to manage and optimize the company's communication strategies and channels in today's digital-first world. See Page 55 of the Direct Testimony of Witness Donna Bluestone for more information.
Marketing & Communication	Communications Strategist	1	Bluestone	Y	Team member needed to ensure the effective implementation of the company's internal and external communication strategies across various platforms. See Page 56 of the Direct Testimony of Witness Donna Bluestone for more information.
Fuels & Commercial Development	Manager BP & Analysis	1	Bluestone	Y	Team member needed to create overall efficiencies in the GS&D department by managing data analysis, modeling, and gas planning to improve system reliability, optimize the portfolio, reduce expenses, and increase revenue for the company. See Page 60 of the Direct Testimony of Witness Donna Bluestone for more information.
Fuels & Commercial Development	Sr. Manager - Business Development	1	Bluestone	Y	Team member needed to support the addition of large volume customer load. See Page 60 of the Direct Testimony of Witness Donna Bluestone for more information.
Fuels & Commercial Development	Program Manager	1	Bluestone	Y	Team member needed to administer contracts and ensuring proper billing setup for accurate customer bills and revenue tracking. See Page 61 of the Direct Testimony of Witness Donna Bluestone for more information.
Finance	Business Planning Analyst	1	Buzard	Y	Team member needed to provide additional financial support as the company's operational activities increase with the growing pipeline system and customer base. See Page 15 of the Direct Testimony of Witness Luke Buzard for more information.
Human Resources	HR Business Partner	1	Bluestone	Y	Team member needed to handle complex HR issues, labor relations, employee engagement, and performance management. See Page 51 of the Direct Testimony of Witness Donna Bluestone for more information.
Pipeline Safety	Damage Prevention Coordinators	3	O'Connor	Y	Team members needed to support protection of the company's pipeline system. Fore more information, see Page 49 of the Direct Testimony of Witness Tim O'Connor.
Pipeline Safety	Damage Claims & Billing Support Coordinators	2	O'Connor	Y	Team member needed to support the implementation of improved damage claims, billing processes and systems designed to achieve maximum recovery. For more information, see Page 49 of the Direct Testimony of Witness Tim O'Connor.
Pipeline Safety	Security Professional	1	O'Connor	Y	Team member needed to provide timely responses to TSA requirements and support incident response. See Page 50 of the Direct Testimony of Witness Tim O'Connor for more information.
Pipeline Safety	Business Continuity Coordinator	1	O'Connor	Y	Team member needed to create and maintain detailed continuity plans and provide periodic training. See Page 50 of the Direct Testimony of Witness Tim O'Connor for more information.
Pipeline Safety	Fleet Safety Professional	1	O'Connor	Y	Team member needed to manage all safety aspects of the company's growing vehicle fleet. See Page 50 of the Direct Testimony of Witness Tim O'Connor for more information.
Gas Operations	Apprentices - Jacksonville	2	O'Connor	Y	Team member needed to support increasing activity levels across Peoples' service areas. Apprentices will start in the company's training program, with the goal of becoming fully qualified gas technicians. See Page 48 of the Direct Testimony of Witness Tim O'Connor for more information.
Gas Operations	Administrative Specialist - Jacksonville	1	O'Connor	Y	Team member needed to support WAM and compliance efforts. See Page 49 of the Direct Testimony of Witness Tim O'Connor for more information.
Gas Operations	Apprentice - Panama City	1	O'Connor	Y	Team member needed to support increasing activity levels across Peoples' service areas. Apprentices will start in the company's training program, with the goal of becoming fully qualified gas technicians. See Page 48 of the Direct Testimony of Witness Tim O'Connor for more information.
Gas Operations	Administrative Specialist - Lakeland	1	O'Connor	Y	Team member needed to support WAM and compliance efforts. See Page 49 of the Direct Testimony of Witness Tim O'Connor for more information.
Gas Operations	Apprentice - Orlando	1	O'Connor	Y	Team member needed to support increasing activity levels across Peoples' service areas. Apprentices will start in the company's training program, with the goal of becoming fully qualified gas technicians. See Page 48 of the Direct Testimony of Witness Tim O'Connor for more information.
Gas Operations	Utility Techicians - Ocala	2	O'Connor	Y	Team member needed to maintain Peoples' leak response. See Page 49 of the Direct Testimony of Witness Tim O'Connor for more information.
Gas Operations	Administrative Specialist - Ocala	1	O'Connor	Y	Team member needed to support WAM and compliance efforts. See Page 49 of the Direct Testimony of Witness Tim O'Connor for more information.
Gas Operations	Apprentices - Tampa	2	O'Connor	Y	Team member needed to support increasing activity levels across Peoples' service areas. Apprentices will start in the company's training program, with the goal of becoming fully qualified gas technicians. See Page 48 of the Direct Testimony of Witness Tim O'Connor for more information.
Gas Operations	Pipeline Locator - Tampa	1	O'Connor	Y	Team member needed to support increasing activity levels across Peoples' service areas. For more information, see Page 48 of the Direct Testimony of Witness Tim O'Connor.
Gas Operations	Apprentice - Jupiter	1	O'Connor	Y	Team member needed to support increasing activity levels across Peoples' service areas. Apprentices will start in the company's training program, with the goal of becoming fully qualified gas technicians. See Page 48 of the Direct Testimony of Witness Tim O'Connor for more information.
Gas Operations	Apprentices - SWFL	2	O'Connor	Y	Team member needed to support increasing activity levels across Peoples' service areas. Apprentices will start in the company's training program, with the goal of becoming fully qualified gas technicians. See Page 48 of the Direct Testimony of Witness Tim O'Connor for more information.
Gas Operations	Pipeline Locator - SWFL	1	O'Connor	Y	Team member needed to support increasing activity levels across Peoples' service areas. See Page 48 of the Direct Testimony of Witness Tim O'Connor for more information.

PEOPLES GAS SYSTEM, INC.
DOCKET NO. 20250029-GU
OPC'S FIRST SET OF INTERROGATORIES
INTERROGATORY NO. 14
BATES PAGE(S): 17117 - 17118
APRIL 30, 2025

14. Labor. Please provide the following actual (where available)/projected labor data for 2025 through the end of the test year, showing both monthly amounts and annual totals:

a. Number of actual/projected full time equivalent employees broken down between type (e.g. salaried, hourly, union, non-union, temporary, etc.).

b. Number of authorized actual/projected full time equivalent employees broken down between type (e.g. salaried, hourly, union, non-union, temporary, etc.).

c. Regular payroll broken down between actual/projected base pay, at-risk pay actually paid, expensed, capitalized and other.

d. Overtime payroll broken down between actual/projected base pay, at-risk pay actually paid, expensed, capitalized and other.

e. Temporary payroll broken down between actual/projected base pay, at-risk pay actually paid, expensed, capitalized and other.

f. Other actual/projected payroll (specify).

g. Portion of actual/projected at-risk pay not paid out broken out by employee groups (i.e.; management, union, non-union, etc.).

ANSWER:

a - f. Peoples is answering this interrogatory in part by producing records as allowed under Florida Rule of Civil Procedure 1.340(c); these tables are provided in the folder entitled "ROG_1_14" and will be posted on the Consumer Party SharePoint Site or provided via USB.

g. The company does not budget for items not paid out. However, the company's response to c - f reflects the budgeted incentives.

15. Labor. Please indicate whether the employee positions used in the Company's labor calculations for the test year and subsequent year are authorized or are actually filled positions. If unfilled, explain the basis for including them.

ANSWER:

MFR Schedule G-2 pages 19c through 19e, lists all of the budgeted/authorized team members for 2025 and the projected 2026 test year. The proposed subsequent year adjustment does not include a request for labor.

For 2025, the company included 892 authorized and budgeted for positions. Of the 892 authorized positions, 39 (14 replacement positions and 25 new positions) are unfilled, as of March 31, 2025. Of the 981 authorized/budgeted positions for 2026, there are 89 unfilled new positions. The company included 128 unfilled positions in its labor calculations for 2025 and the 2026 projected test year because these team members are essential to meet customer growth and maintain our commitment to safety and operational efficiency.

ADMITTED

PEOPLES GAS SYSTEM, INC.
DOCKET NO. 20250029-GU
OPC'S FIRST SET OF INTERROGATORIES
INTERROGATORY NO. 45
BATES PAGE(S): 17174 - 17403
APRIL 30, 2025

45. Outside Services Expense. Provide a detailed accounting of outside services expense for the last three years, as well as for the test year and subsequent year, showing the amounts paid by vendor and a description of the nature of the services provided.

ANSWER:

Peoples is answering this interrogatory in full by producing records as allowed under Florida Rule of Civil Procedure 1.340(c); the records reflecting the outside service expenses will be posted on the Consumer Party SharePoint Site in the folder entitled "ROG_1_45" or provided via USB.

The revenue requirements included in the proposed 2027 Subsequent Year Adjustment ("SYA") include incremental costs associated with the annualization of depreciation and amortization expense, property tax expense and return requirements related to capital investments made during the 2026 test year. The proposed 2027 SYA is not based on a full projected test year for 2027. As a result, the company does not have a response to the "subsequent year" for the data requested by this interrogatory.

Peoples Gas System - Listing of Outside Services Expense
List includes Journal Entries ("Accruals" and "GL Account Document")
The # sign indicates data is not applicable to the line item.
Listing excludes the legal general ledger account

YEAR: 2022
