PEAK AND AVERAGE METHODOLOGY SCHEDULES

SCHEDULE H-3 | COST OF SERVICE | PAGE 5 OF 5

FLORIDA PUBLIC SERVICE COMMISSION
COMPANY: PEOPLES GAS SYSTEM, INC.
DOCKET NO.: 20250029-GU

EXPLANATION: PROVIDE A FULLY ALLOCATED EMBEDDED COST OF SERVICE STUDY - PEAK AND AVERAGE (SUMMARY)

TYPE OF DATA SHOWN:
PROJECTED TEST YEAR: 12/31/26
WITNESS: J. TAYLOR

LINE NO.		TOTAL	CUSTOMER	CAPACITY	COMMODITY	REVENUE
1	SUMMARY:					
2	ATTRITION	-	-	-	-	-
3	O&M	161,541,469	105,470,303	56,071,166	-	
4	DEP.	96,259,724	27,335,515	68,924,210		
5	AMORTIZATION OF OTHER GAS PLANT	9,398,041	-	9,398,041		
6	AMORTIZATION OF ENVIRONMENTAL	1,000,000	-	1,000,000		
7	AMORTIZATION OF LIMITED TERM INVESTMENT	-	-	-		
8	AMORTIZATION OF ACQUISITION ADJUSTMENT	-	-	-		
9	AMORTIZATION OF CONVERSION COSTS	-	-	-		
10	TOTAL TAXES OTHER THAN INCOME	38,194,157	11,268,232	23,189,304		3,736,621
11	GAIN ON SALE OF PROPERTY	(224,601)	(224,601)	-	-	-
12	RETURN	223,651,232	63,542,684	160,108,548	-	
13	INCOME TAXES	50,124,879	14,241,233	35,883,646	-	
14	REVENUES CREDITED TO COST OF SERVICE	(18,296,688)	(18,296,688)			
15	TOTAL COST	579,944,901	221,633,366	354,574,914	-	3,736,621
16	RATE BASE	2,954,441,634	839,401,374	2,115,040,260	-	
17	KNOWN DIRECT & SPECIAL ASSIGNMENTS:					
18	RATE BASE ITEMS(PLANT-ACC.DEP):					
19	381-382 METERS	179,027,638	179,027,638			
20	383-384 HOUSE REGULATORS	34,474,515	34,474,515			
21	385 INDUSTRIAL MEAS.& REG.EQ.	7,099,867	7,099,867	-		
22	376 MAINS	1,672,181,046	-	1,672,181,046	-	
23	380 SERVICES	586,544,303	586,544,303			
24	378 MEAS.& REG.STA.EQ.-GEN.	20,359,610	-	20,359,610	-	
25	336 PURIFICATION EQUIPMENT (RNG)	48,400,405	-	48,400,405		
26	377 COMPRESSOR STAT. EQUIPMENT	16,918,017	-	16,918,017		
27	O&M ITEMS					
28	892 MAINT. OF SERVICES	1,701,580	1,701,580	-	-	-

Introduction

As part of Peoples Gas System, Inc.'s ("Peoples" or the "company") petition for a base rate increase, Peoples requests approval of calendar year 2026 as its test year, with new base rates and charges to be effective with the first billing cycle of 2026, based on the 2026 test year. The company also requests a subsequent year adjustment ("SYA") for 2027 to be effective with the first billing cycle of January 2027.

The company requests that the Commission approve the SYA revenue amounts for 2027, and order the company to file proposed rates for January 2027 by September 2026 based on the company's then-current billing determinants. This will allow the Commission to consider and approve rates for 2027 that reflect the company's most recent billing determinants. However, for completeness, the company has developed and presents in this volume (a) illustrative rates developed as described below for its 2027 SYA and (b) typical bills reflecting the 2027 SYA illustrative rates.

A. 2027 Proposed Rates (SYA Schedules E-1, E-2, and E-5)

Peoples prepared the illustrative rates shown in the E schedules in this volume by applying its 2027 proposed SYA amounts pro rata to customer and distribution charges for its billing classes. The company allocated revenue to its billing classes by:

(1) calculating the sum of its proposed 2026 operating revenue requirement;
(2) calculating the percentage that rate class represents of the 2026 total in (1);
(3) multiplying its 2027 proposed SYA revenue increase amounts by the percentages calculated in (2) to yield total proposed SYA revenues by rate classes for 2027; and
(4) applying the company's forecasted 2026 billing determinants for each rate class to the class revenues in (3) to develop the 2027 proposed SYA illustrative rates for each rate class. These are the billing determinants reflected in 2027 proposed SYA Schedule E-2.

The rate design for the 2027 proposed SYA illustrative rates is based on the Customer and Demand cost classification approach used by the company for its proposed 2026 rates.

Table 1 below includes a summary of the revenue allocations described above.

Table 1. Summary of Revenue Allocations

Rate Class	2026 Operating Revenue	2027 SYA Revenue Allocation	2027 Revenue Requirement
RS-1	54,559,371	3,471,978	58,031,349

B. 2027 Typical Monthly Bills (Proposed SYA Schedules E5)

The company calculated typical monthly bill comparisons for the 2027 Proposed SYA using the rates developed in Section A above and the company's 2025 approved clause factors. These bill comparisons are shown in 2027 Proposed SYA Schedule E-5 in this volume.

Appendix A

John D. Taylor

MANAGING PARTNER

Mr. Taylor has experience with a wide range of costing, ratemaking, and regulatory activities for gas and electric utilities. He has testified numerous times on these and other issues for clients across North America. He has extensive experience with costing and pricing rates and services, regulatory planning and strategy development, revenue recovery and tracking mechanisms, merger and acquisitions analysis, new product and service development, affiliate transaction reviews, line extension policies, market assessments, litigation support, and organizational and operations reviews. He has testified on numerous occasions as an expert witness on costing and ratemaking related issues on behalf of utilities before federal, state, and provincial regulatory bodies and has extensive experience in evaluating and implementing innovative ratemaking approaches and rate design concepts.

He has also testified on return on equity, electric vehicle and battery storage programs, time-of-use rates, and the appropriate use of statistical analysis during audit testing. Mr. Taylor has led engagements relating to gas supply planning and the review of midstream transportation and storage capacity resources. He has worked as the market monitor for New England ISO's capacity market, supported the negotiation of PPAs, and supported feasibility and prudence studies of generation investments. He has also been involved in selling generating assets and distribution companies, supporting due diligence efforts, financial analyses, and regulatory approval processes.

Mr. Taylor received a master's degree in Economics from American University and holds a bachelor's degree in Environmental Economics from the University of North Carolina at Asheville.

EDUCATION

M.A., Economics, American University

B.A., Environmental Economics, University of North Carolina at Asheville

- Public Service Commission of West Virginia

REPRESENTATIVE EXPERIENCE

RATE DESIGN AND REGULATORY PROCEEDINGS

Mr. Taylor has worked on dozens of electric and gas rate cases including the development of revenue requirements, class cost of service studies, and projects related to utility rate design issues. Specifically, he has:

- Lead expert and witness for class costs of service studies across North America and worked on dozens of other class cost of service and rate design projects for other lead witnesses.
- Developed WNA mechanism for a gas utility including back casting results and supporting expert witness testimony and exhibits.

- Developed revenue requirement model to comply with a new performance-based formula ratemaking process for a Midwest electric utility.
- Supported the development of time of use rates, demand rates, economic development rates, load retention rates, and line extension policies.
- Analyzed and summarized allocation methodology for a shared services company.
- Assessed the reasonableness of costs through various benchmarking efforts.
- Led the effort to collect and organize plant addition documentation for six Midwest utilities associated with the state commission's audit of rate base.
- Supported lead-lag analyses and testimonies.
- Analyzed customer usage profiles to support reclassification of rate classes for a gas utility.
- Helped conduct a marginal cost analysis to support rate design testimony.

LITIGATION SUPPORT AND EXPERT TESTIMONY

Mr. Taylor has testified in several cases on class cost of service studies and statistical audit methods. He has also supported numerous other expert testimonies. Specifically, he has:

- Filed testimony as an expert witness on allocated class cost of service studies for both electric and gas utilities.
- Filed testimony as an expert witness on the application of statistical analysis.
- Filed testimony before FERC on the rate of return for an Annual Transmission Revenue Requirement and participated in FERC settlement conferences.
- Part of two-person expert witness team that provided an expert report to the British Columbia Utilities Commission on the use of facilities for transportation balancing services for Fortis BC.
- Part of two-person expert witness team that provided an expert report on affiliate transactions and capitalized overhead allocations for Hydro One on three separate occasions.
- Sole expert for expert report on affiliate allocations for Alectra utilities, the second largest publicly owned electric utility in North America. This was conducted shortly after the merger of four distinct utilities.
- Sole expert for expert report on the allocation of overhead costs between transmission and distribution businesses for EPCOR.

TRANSACTION EXPERIENCE

Mr. Taylor has been involved with several generating asset transactions supporting both buy side and sell side analysis and due diligence. His work has included:

- Worked as buy side advisor for a large water utility in the mid-Atlantic region including supporting the review of revenue requirements, rates, and forecasts.
- Helped facilitate and manage processes for a nuclear plant auction by processing Q&A, collecting relevant documentation and managing the virtual data room for auction participants.
- Supported the auction process for steam and chilled water distribution and generation assets in the Midwest.
- Supported the development of a financial model to ascertain the net present value of several competing wholesale power purchase agreements and guided the client with a decision matrix for the qualitative aspects of the offers.
- Provided research on comparable transactions, previous mergers and acquisitions, and potential transaction opportunities for several clients.

FINANCIAL ANALYSIS AND MARKET RESEARCH

Other financial analysis and market research Mr. Taylor has conducted include:

- Estimated the rate impact and costs associated with moving California energy market to 100% renewable.
- Assessed the consequences of a divestiture on the cost-of-service model for a New England gas distribution company.
- Developed LNG market studies for two separate utilities and two separate competitive market participants.
- Modeling alternative mechanisms for the allocation of overhead costs to a nuclear plant.

List of Peoples Gas System, Inc. Witnesses

And Purposes of Their Direct Testimony

Helen Wesley	(1) Provide an overview of Peoples Gas, its core values, commitment to customers and strategic priorities; (2) describe changes and accomplishments since the last general base rate proceeding; (3) explain why the company is seeking base rate increases and the things it has done to moderate the request; and (4) introduce the witnesses in the case.
Rebecca Washington	(1) Provide an overview of the Peoples Gas Customer Experience area; (2) highlight the company's focus on excellent customer service; (3) explain the company's plans to enhance the customer experience it provides; (4) describe the improvements made to customer experience since the last general base rate case; and (5) demonstrate that the Customer Experience area rate base amounts and operations and maintenance levels for the 2026 test year are reasonable and prudent.
Timothy O'Connor	(1) Describe the company's Gas Operations functions and the factors influencing these parts of the business;(2) describe the company's achievements and changes in Gas Operations since the company's last base rate case; (3) demonstrate that the company's proposed levels of operations and maintenance ("O&M") expenses for Gas Operations for the 2026 projected test year are reasonable and prudent; and (4) detail how the company invests capital in Gas Operations to promote safe, efficient, and reliable service to our customers.

Christian Richard	(1) Describe the company's ECT team; (2) describe the achievements and changes in the ECT area since the company's last rate case; (3) demonstrate the ECT team's effectiveness at facilitating the company's capital planning process and providing oversight for the execution of capital projects; (4) describe the company's prudent capital investments in the ECT area to promote safe, efficient, and reliable service to our customers and meet the needs of a growing, aging, and increasingly more complex system; and (5) demonstrate that Peoples' proposed levels of operations and maintenance ("O&M") expenses for the ECT team for the 2026 projected test year are reasonable and prudent.
Donna Bluestone	(1) Provide an overview of the company's Human Resource activities;(2) explain the company's employee compensation system;(3) demonstrate that the company's proposed levels of O&M expense for the 2026 projected test year are reasonable;(4) demonstrate that the payroll and benefits costs for the 2026 projected test year are reasonable; and (5) show the additional O&M team members included in the rate case are appropriate.
Eric Fox	(1) Support the company's 2026 Test Year Residential and Small Commercial load forecast; (2) address the change from 20-year normal to 10-year normal weather for the forecast; and (3) discuss the performance of the 2023 rate case forecast.
John Taylor	(1) Present and explain the company's filed cost of service studies; and (2) discuss the proposed rate design changes.

Dylan D'Ascendis	(1) Discuss the recommendation that the Commission should authorize Peoples Gas the opportunity to earn an ROE of 11.10 percent on its jurisdictional rate base; and (2) provide an assessment of the capital structure to be used for ratemaking purposes.
Andrew Nichols	(1) Provide an overview of the company's request for rate relief in 2026; (2) describe the company's 2026 test year; (3) explain the 2026 budget process used to develop the financial projections for the test year; (4) Explain the calculation of and adjustments used to develop the 2026 test year rate base, present the proposed 2026 capital structure, and the 2026 net operating income; and (5) present and explain the calculation of the revenue requirement and test year revenue deficiency for the 2026 test year.
Jeff Chronister	(1) Provide an overview of changes to the company's financial profile and the reasons it needs the rate increase proposed in this case; (2) discuss the importance of maintaining Peoples Gas' financial integrity, why the Commission should approve the company's proposed 54.7 percent equity ratio, and how the company forecasted short-term and long-term debt costs for the test year; (3) provide a high-level view of the company's long-term financial outlook for serving its current and new customers and explain why approving the company's proposed subsequent year adjustment ("SYA") for 2027 is appropriate in this proceeding; and (4) describe the processes and procedures used by affiliates in the Emera family of companies to account for costs charged to each other, including how costs are direct charged, assessed, and allocated by, to, and among affiliates.

Luke Buzard	(1) Describe the function and job responsibilities of the Regulatory, External Affairs, and Finance departments; (2) Discuss Regulatory, External Affairs, and Finance operations and maintenance expense ("O&M"); (3)describe the current status of the company's recent filings before the FPSC;(4)describe the company's revenue and load forecasting processes; (5) present the load forecast used in the test year budget which supports its request for a base rate increase; (6) propose and support the tariff modifications, including the proposed base rates and miscellaneous service charges and non-rate rate related language; and (7) support economic development expenses.

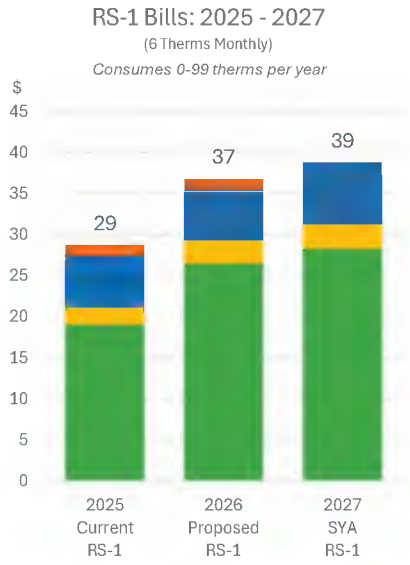
Residential Customer Proposed Bill Comparisons 2025 - 2027

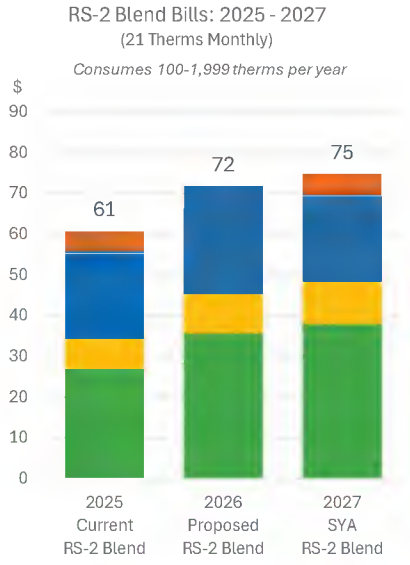
According to the *American Gas Association*, natural gas is recognized as an affordable, safe, reliable, and efficient energy source, trusted by millions of Americans. It is commonly used for heating, cooking, drying clothes, and even powering natural gas vehicles, which makes it an essential part of daily life.

In this analysis of residential bills, we compare the current RS-1 billing class rates with the RS-1 proposed rates. We also evaluate a proxy representing the current rates and the proposed combined RS-2 and RS-3 billing classes (referred to as RS-2 Blend). By combining the RS-2 and RS-3 billing classes, we calculate a weighted average usage rate for these customers and appropriately weight their existing customer charges to illustrate the overall bill impact of the proposed rate design on customer bills.

RS-1 Customers may be seasonal or have a single gas appliance like a water heater or range.



RS-2 Blend Customers have a suite of appliances that typically include a water heater, range, and dryer, and sometimes a pool heater and/or outdoor kitchen.



■ Customer Charge ■ Distribution Charge ■ Purchased Gas Adjustment ■ Clauses, Riders, and Taxes

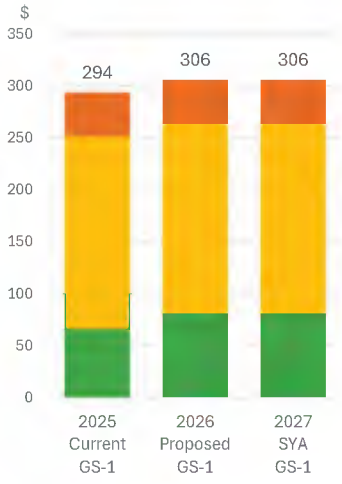
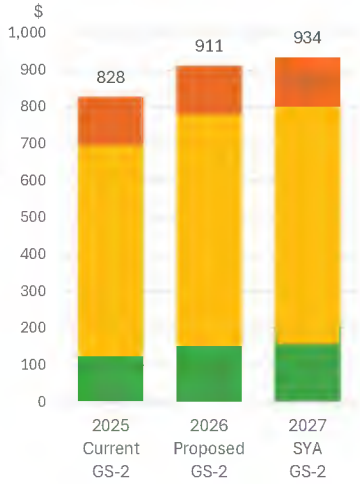
Commercial Customer Proposed Bill Comparisons 2025 - 2027

Natural gas is vital in sectors like hospitality, pharmaceuticals, healthcare, manufacturing, and agriculture. A study by the Center for Strategic Alliance and International Studies "CSIS" and the American Gas Foundation highlights natural gas' importance in energy security and U.S. manufacturing competitiveness while transitioning to a low-carbon economy, especially as energy demand continues to rise. The U.S. hospitality sector uses 387 Bcf of natural gas annually, supplying restaurants, lodging, and amusement parks. In agriculture, affordable natural gas benefits farms, ranches, and beyond through jobs and tax revenue. The affordability of natural gas and its growing popularity is evident with approximately 60 new businesses starting service daily. (1)

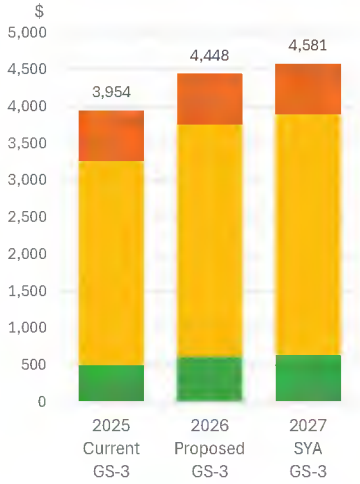
GS-1 Customers: Businesses like fast-food, small restaurants, or hair salons



GS-2 Customers: Larger businesses such as high-volume restaurants or laundromats



GS-3 Customers: Businesses such as hotels, medical facilities, or universities



■ Customer Charge ■ Distribution Charge ■ Clauses, Riders, and Taxes

2 * Projected 2026 average monthly usage is used, rounded to the nearest THM
**PGA was excluded since most commercial customers buy fuel directly from a marketer

RESUME OF LANE KOLLEN, PRESIDENT

EXPERIENCE

1986 to Present: **J. Kennedy and Associates, Inc.:** Vice President and Principal. Responsible for utility stranded cost analysis, revenue requirements analysis, cash flow projections and solvency, financial and cash effects of traditional and nontraditional ratemaking, and research, speaking and writing on the effects of tax law changes. Testimony before Connecticut, Florida, Georgia, Indiana, Louisiana, Kentucky, Maine, Maryland, Minnesota, New York, North Carolina, Ohio, Pennsylvania, Tennessee, Texas, West Virginia and Wisconsin state regulatory commissions and the Federal Energy Regulatory Commission.

1983 to 1986: **Energy Management Associates:** Lead Consultant.
Consulting in the areas of strategic and financial planning, traditional and nontraditional ratemaking, rate case support and testimony, diversification and generation expansion planning. Directed consulting and software development projects utilizing PROSCREEN II and ACUMEN proprietary software products. Utilized ACUMEN detailed corporate simulation system, PROSCREEN II strategic planning system and other custom developed software to support utility rate case filings including test year revenue requirements, rate base, operating income and pro-forma adjustments. Also utilized these software products for revenue simulation, budget preparation and cost-of-service analyses.

1976 to 1983: **The Toledo Edison Company:** Planning Supervisor.
Responsible for financial planning activities including generation expansion planning, capital and expense budgeting, evaluation of tax law changes, rate case strategy and support and computerized financial modeling using proprietary and nonproprietary software products. Directed the modeling and evaluation of planning alternatives including:

Rate phase-ins.
Construction project cancellations and write-offs.
Construction project delays.
Capacity swaps.
Financing alternatives.
Competitive pricing for off-system sales.
Sale/leasebacks.

Forward Looking Information, Non-GAAP Measures & Other

FORWARD-LOOKING INFORMATION

This presentation contains "forward-looking information" ("FLI") and statements which reflect the current view with respect to the Company's expectations regarding future growth, results of operations, performance, the expected timing and outcome of the pending sale of NMGC, business prospects and opportunities, and may not be appropriate for other purposes within the meaning of applicable Canadian securities laws. All such information and statements are made pursuant to safe harbour provisions contained in applicable securities legislation. The words "anticipates", "believes", "budget", "could", "estimates", "expects", "forecast", "intends", "may", "might", "plans", "projects", "schedule", "should", "targets", "will", "would" and similar expressions are often intended to identify FLI, although not all FLI contains these identifying words. The FLI reflects management's current beliefs and is based on information currently available to Emera's management and should not be read as guarantees of future events, performance or results, and will not necessarily be accurate indications of whether, or the time at which, such events, performance or results will be achieved.

The FLI is based on reasonable assumptions and is subject to risks, uncertainties and other factors that could cause actual results to differ materially from historical results or results anticipated by the FLI. Factors that could cause results or events to differ from current expectations include, without limitation: regulatory and political risk; change in law risk; operating and maintenance risks; changes in economic conditions; commodity price and availability risk; liquidity and capital market risk; changes in credit ratings; future dividend growth; rate base growth; adjusted earnings per common share ("EPS") growth; timing and costs associated with certain capital investments; expected impacts on Emera of challenges in the global economy; estimated energy consumption rates; maintenance of adequate insurance coverage; changes in customer energy usage patterns; developments in technology that could reduce demand for electricity; climate change risk; weather risk, including higher frequency and severity of weather events; risk of wildfires; unanticipated maintenance and other expenditures; system operating and maintenance risk; derivative financial instruments and hedging; interest rate risk; inflation risk; counterparty risk; disruption of fuel supply; country risks; supply chain risk; environmental risks; foreign exchange ("FX"); regulatory and government decisions, including changes to environmental legislation, financial reporting and tax legislation; risks associated with pension plan performance and funding requirements; loss of service area; risk of failure of information technology ("IT") infrastructure and cybersecurity risks; uncertainties associated with infectious diseases, pandemics and similar public health threats; market energy sales prices; labour relations; and availability of labour and management resources.

Readers are cautioned not to place undue reliance on FLI, as actual results could differ materially from the plans, expectations, estimates or intentions and statements expressed in the FLI. All FLI in this presentation is qualified in its entirety by the above cautionary statements and, except as required by law, Emera undertakes no obligation to revise or update any FLI as a result of new information, future events or otherwise.

NON-GAAP FINANCIAL MEASURES AND RATIOS

Emera uses financial measures and ratios that do not have standardized meaning under USGAAP and may not be comparable to similar measures presented by other entities. Emera calculates the non-GAAP measures and ratios by adjusting certain GAAP measures for specific items. Management believes excluding these items better distinguishes the ongoing operations of the business and allows investors to better understand and evaluate the business. Refer to the "Non-GAAP Financial Measures and Ratios" section of Emera's Q4 2024 MD&A which is incorporated herein by reference and can be found on SEDAR+ at www.sedarplus.ca. Reconciliation to the nearest GAAP measure is included in the appendix.

OTHER

Rate base is a financial measure specific to rate-regulated utilities that is not intended to represent any financial measure as defined by GAAP. The measure is required by the regulatory authorities in the jurisdictions where Emera's rate-regulated subsidiaries or equity investments operate, a summary of which can be found in our presentation. The calculation of this measure as presented may not be comparable to similarly titled measures used by other companies.

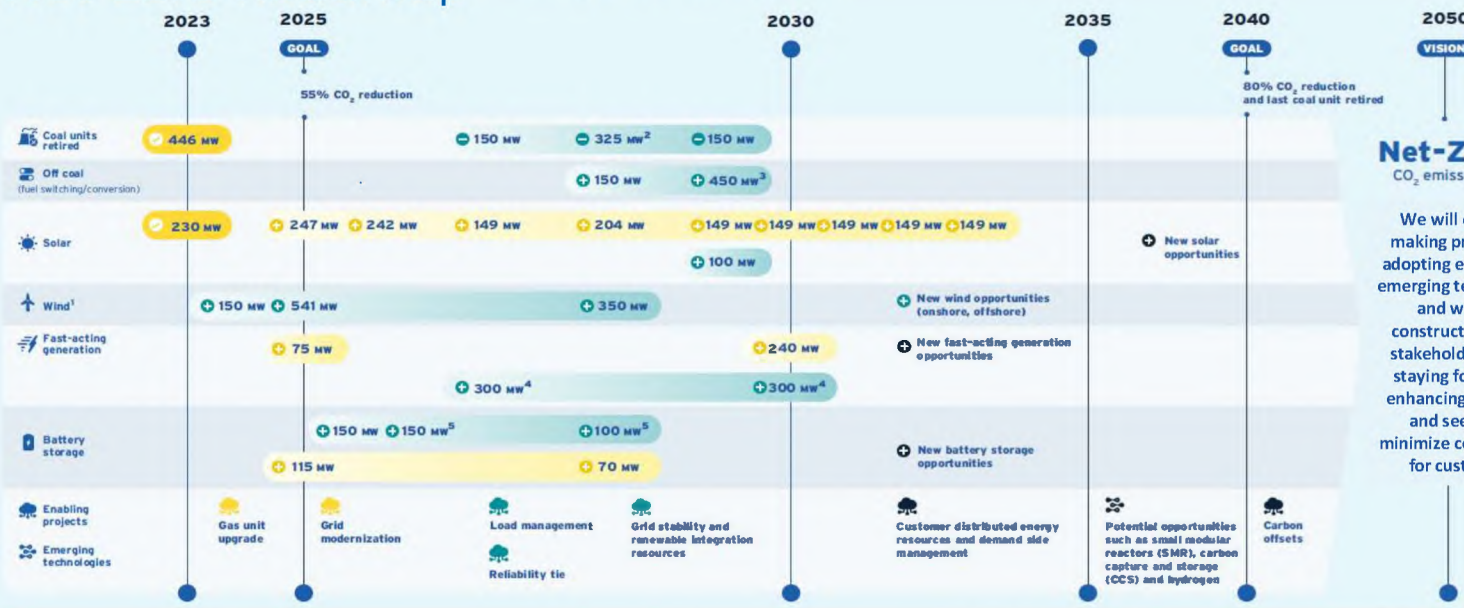
Net-Zero Roadmap

Recently completed, in-progress and planned investments outlined in Nova Scotia Power's Path to 2030 Report and Integrated Resource Plan and Tampa Electrics 10-year site plan. 2024 Roadmap will be released in Spring 2025



- Nova Scotia Power projects/opportunities
- Tampa Electric projects/opportunities
- Nova Scotia Power/Tampa Electric common projects/opportunities

This roadmap is subject to change and matters beyond our control and is dependent upon decisions of, and/or support from, others including governments, regulators, independent system operators, independent power producers, interconnected utilities, partners, investors, customers and Indigenous communities. We will only proceed with forward-looking investments where we can demonstrate to the satisfaction of regulators that such investments are prudent and the most cost-effective solution for utility customers within the applicable legislative and regulatory regimes

Emera

1 Encompasses provincial procurement programs and other independent power purchase agreements.
2 A total of two units (160 MW and 165 MW).
3 A total of three 150 MW units.
4 Utility or independent power producer owned.
5 Expected independent power purchase agreements.
6 Emera's Climate Commitment is focused on Nova Scotia Power and Tampa Electric and captures 94 per cent of our Scope 1 and 2 CO2 emissions.

TECO TAMPA ELECTRIC AN EMERA COMPANY

Tampa Electric

Vertically integrated, regulated electric utility serving Hillsborough county and parts of Pasco and Polk counties. To date, 1,350 MW of solar are in service at Tampa Electric, the highest solar generation per customer in the state of Florida. In 2024, solar represented 20% of the generation capacity.

Utility Type
Vertically integrated electric utility

Regulator
Florida Public Service Commission ("FPSC")

Regulatory Construct – Rates Effective Jan 1, 2025
- 9.5%–11.5% approved ROE
- 54% approved equity
- $11.1 billion rate base

Recent Regulatory Activity
The FPSC reached a final decision in December 2024 approving new revenues of $281M ($185M in 2025, $87M in 2026 and $9M in 2027). This reflects a 10.5% ROE midpoint (up from 10.2%) and a 54% equity thickness (unchanged from previous). Tampa Electric's operating expenses and capital expenditures were substantially approved and there is no stay out requirement.

Capex
2025–2029
$9.5 billion

OPC'S SECOND SET OF INTERROGATORIES
INTERROGATORY NO. 100
BATES PAGE(S): 17688 - 17689
May 5, 2025

100. Budgets. Refer to the Direct Testimony of Andrew Nichols at 10 wherein he describes the development of the "2026 projected test year financial data using the company's normal annual budget process."

a. Do you agree that the Company has not yet developed its 2026 budget in the normal course of business, but rather has developed its projected test year financial data using a similar process? If you do not agree, then provide a corrected statement and all support relied on for your response.

b. Provide the Company's annual timeline for developing the budget for the next year in the normal course of business. Identify all documentation of the timeline that actually was used in 2024 for the 2025 budget and the timeline the Company plans to follow this year for the 2026 budget.

c. Indicate whether the Company uses a multi-year budget process, e.g., if in 2024, the Company developed budgeted financial data only for 2025 or for 2025 and 2026 or for some other future periods.

ANSWER:

a. Yes. The company agrees that it developed its 2026 budget (i.e. its projected test year financial data) using a process similar to the company's normal annual budget process. It is important to note that this normal process, which includes steps such as forecasting capital expenditures needed to serve customers, forecasting expenses to operate and maintain assets and forecasting the funding for asset additions, can be performed to forecast one year or more than one year. This process can also be performed with varying timing and frequency.

b. It is normal for the company to develop its budget for a specific year in the second half of the prior year. It is also normal for the company to develop two years of projected financial data for a rate case filing in the second half of the year preceding the filing of its petition. The practice of developing two years of forecasted financial data is normal in petitions made to the Commission. In fact, the Commission's Minimum Filing Requirements reflect this in the required data: Historic Base Year, Historic Base Year + 1 (also referred to as Projected Prior Year), and Projected Test Year.

Regarding the documentation of the timeline used in 2024 for the 2025 and 2026 budget, Peoples is answering this interrogatory in part by producing

records as allowed under Florida Rule of Civil Procedure 1.340(c). The file has been produced in response to OPC's Second Set of Production of Documents No. 42 and will be posted on the Consumer Party SharePoint Site or provided via USB in the folder entitled "POD_2_42".

c. The company uses a budget process, which includes steps such as forecasting capital expenditures needed to serve customers, forecasting expenses to operate and maintain assets and forecasting the funding for asset additions, that can be performed to forecast one year or more than one year. In 2024, the company developed budgeted financial data for 2025 and 2026, completing the process in early 2025 prior to the submission of its petition. It is normal for the company to develop two years of projected financial data for a rate case filing in the second half of the year preceding the filing of its petition. The company's 2024 forecasted test year in its 2023 rate case was developed in this manner and was approved for ratemaking purposes in that case.

OPC'S FOURTH SET OF INTERROGATORIES
INTERROGATORY NO. 133
BATES PAGE(S): 17957 - 17958
JUNE 9, 2025

133. O&M Expense. Refer to the response to OPC's First Set of Interrogatories, Interrogatory No. 63 that was provided as file attachment "(BS 17429) O&M Expense by FERC 2022-2026" in response to OPC's First Set of Interrogatories, Interrogatory No. No. 58. Provide the Company's per books actual O&M expenses by FERC O&M/A&G account/subaccount for 2020 and 2021 in the same format as provided in the cited file attachment, in electronic format with all formulas intact.

ANSWER:

Peoples is answering this interrogatory in part by producing records as allowed under Florida Rule of Civil Procedure 1.340(c); the records reflecting the actual O&M expenses of the Company, categorized by FERC O&M/A&G Account/Subaccount for 2020 and 2021, are included in the same format as provided in the cited file attachment, in electronic format with all formulas intact in the folder entitled "ROG_4_133" or provided via USB.

6. Growth. Provide the historic and projected amounts of the following for each of the calendar years from 2021 through the end of the subsequent year and provide the percentage increases of each year end amount over that from the prior year:

a. Miles of mains and services,

b. Residential customers,

c. Commercial customers,

d. Residential sales measured in therms,

e. Commercial sales measured in therms,

f. Base rate revenues,

g. Employee team members; and

h. Contract labor full-time equivalents.

ANSWER:

a - g. Please see tables below.

The revenue requirements included in the proposed 2027 Subsequent Year Adjustment ("SYA") include incremental costs associated with the annualization of depreciation and amortization expense, property tax expense, and return requirements related to capital investments made during the 2026 test year. The proposed 2027 SYA is not based on a full projected test year for 2027. As a result, the company does not have a "subsequent year projection" for the data requested by this interrogatory.

109. Off-System Sales. Refer to the Direct Testimony of Andrew Nichols at 67-68 wherein he describes the significant increase in off-system sales net revenue during 2024 that is not expected to reoccur in the test year. Provide the total amount of off-system sales net revenues in total, the offset amount to PGA clause expenses to the benefit of customers, and the amount retained by the Company for each calendar year 2020 through 2024, budgeted for 2025, and projected during the test year.

ANSWER:

The below table presents the total amount of off-system sales net revenues in total, the offset amount to PGA clause expenses to the benefit of customers, and the amount retained by the company for each calendar year 2020 through 2024, budgeted for 2025, and projected during the test year.

The new Corporate HQ building initial property tax estimate was derived using "per sq ft tax amount" estimate supplied by developer and confirmed by Hillsborough County Property Appraiser. Therefore, the Real Property Tax Expense amount in the table above for 2026F and 2027F SYA reflects the estimate using a "per sq ft tax amount". Real Property other than the new Corproate HQ building are estimating using a taxable value multiplied by an estimated effective real property tax rate.

BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION

In re: Petition for Rate Increase by Peoples Gas System, Inc.	DOCKET NO. 20250029-GU FILED: April 30, 2025

PEOPLES GAS SYSTEM, INC.'S RESPONSE TO OFFICE OF PUBLIC COUNSEL'S FIRST REQUEST FOR PRODUCTION OF DOCUMENTS (NOS. 1-41)

Pursuant to Rule 106.206, Florida Administrative Code, and Florida Rule of Civil Procedure 1.350, Peoples Gas System, Inc. ("Peoples" or the "company"), hereby responds to the Office of Public Counsel's ("OPC") First Request for Production of Documents (Nos. 1-41), served March 31, 2025 ("OPC's First POD").

General Objections

1. Peoples objects to each Request for Production in OPC's First POD ("Request") to the extent that it seeks information that is duplicative, not relevant to the subject matter of this docket, and is not reasonably calculated to lead to the discovery of admissible evidence.

2. Peoples objects to each Request to the extent it is vague, ambiguous, overly broad, imprecise, or utilizes terms that are subject to multiple interpretations but are not properly defined or explained for purposes of such Requests. Peoples will seek clarification from OPC if a request is not clear, but Peoples will produce documents subject to, and without waiving, this objection.

3. Peoples objects to each Request to the extent it requires Peoples to produce information that is already in the public record before the Florida Public Service Commission ("FPSC" or the "Commission"), or the OPC, or any other public agency and/or available to OPC through normal procedures or is readily accessible through legal or any other search engines.

4. Peoples objects to each Request to the extent that it calls for data or information protected by the attorney-client privilege, the work product doctrine, the accountant-client

C13-1407

FPSC EXH NO. 48

4. **Cost Allocation Manuals (CAM).** Please provide a copy of all cost allocation manuals for 2023, 2024, and 2025 that describe the allocation of costs.

Response:

Peoples' non-confidential electronic documents responsive to this request will be served by posting on the SharePoint in the folder entitled "POD_1_4."

5. **MFR Supporting Documents.** Please provide a copy of all pre-filed testimony and appendices in Microsoft Word filed with PGS's petition on March 31, 2025. Provide a copy of all exhibits attached to pre-filed testimony and all supporting schedules and workpapers in Excel in live format and with all formulas and calculations intact. If any schedules have been previously provided, please identify the date provided.

Response:

Some of the documents responsive to this request contain proprietary confidential business information. Peoples' non-confidential electronic documents responsive to this request will be served by posting on the SharePoint in the folder entitled "POD_1_5." Peoples' confidential electronic documents responsive to this request will be served by posting on the Confidential Section of the SharePoint or via USB in the folder entitled "CONF_POD_1_5."

6. **MFR Supporting Documents.** Please provide a copy of the Company's March 31, 2025 MFRs in Excel format with all spreadsheet links and formulas intact with source data used. Provide all documents that identify or explain all assumptions and calculations used. If any schedules have been previously provided, please identify the date provided.

Response:

Peoples' non-confidential electronic documents responsive to this request will be served by posting on the SharePoint in the folder entitled "POD_1_6."

7. **MFR Supporting Documents.** Please provide all workpapers in your possession, custody or control underlying all schedules of your MFRs and pre-filed testimony and exhibits, and all documents in your possession, custody, or control commenting on analyzing, or evaluating any of these documents and schedules. Provide the requested documents in electronic format, with all formulas and calculations intact and source data used. Include all documents that identify or explain assumptions and calculations used in preparing testimony and exhibits. If any schedules have been previously provided, please identify the date provided.

Response:

Some of the documents responsive to this request contain proprietary confidential business information. Peoples' non-confidential electronic documents responsive to this request will

be served by posting on the SharePoint in the folder entitled "POD_1_7." Also, please see Peoples' response to OPC's First Request for Production of Documents Nos. 5 and 6.

Peoples' confidential electronic documents responsive to this request will be served by posting on the Confidential Section of the SharePoint or via USB in the folder entitled "CONF_POD_1_7."

8. **Chart of Accounts.** Please provide the detailed chart of accounts used by PGS

Response:

Peoples' non-confidential electronic documents responsive to this request will be served by posting on the SharePoint in the folder entitled "POD_1_8."

9. **General Ledger.** Please provide a complete copy of PGS' detailed general ledger for 2024 and 2025 to date.

Response:

Some of the documents responsive to this request contain proprietary confidential business information. Peoples' non-confidential electronic documents responsive to this request related to 2024 will be served by posting on the SharePoint in the folder entitled "POD_1_9." Peoples' confidential electronic documents responsive to this request related to the first quarter of 2025 will be served by posting on the Confidential Section of the SharePoint or via USB in the folder entitled "CONF_POD_1_9."

Please note that Peoples can provide transaction level details for individual accounts; however, Peoples accounting system does not provide a detailed level general ledger for all accounts combined. Furthermore, the files provided in this response include accumulated balances for each account for the periods requested.

10. **Trial Balance.** Please provide a copy of PGS' trial balances for each month in 2023 and 2024, including closing and adjusting entries and in 2025 to date.

Response:

Some of the documents responsive to this request contain proprietary confidential business information. Peoples' non-confidential electronic documents responsive to this request will be served by posting on the SharePoint in the folder entitled "POD_1_10." Peoples' confidential electronic documents related to the first quarter of 2025 responsive to this request will be served by posting on the Confidential Section of the SharePoint or via USB in the folder entitled "CONF_POD_1_10."

11. **Incentive/Bonus/At Risk Pay.** Please provide a copy of each of the Company's incentive compensation/bonus/at-risk plans for 2022, 2023, 2024, and 2025.

30. SERP. Please fully describe any SERP benefits or benefits associated with non-qualified retirement plans, and quantify the costs associated with such non-qualified plans that are included in the test year and subsequent year projection.

ANSWER:

The TECO Energy Group Supplemental Executive Retirement Plan (SERP) is a non-qualified, non-contributory defined benefit retirement plan available to certain members of senior leadership.

For the 2026 budgeted expenses associated with SERP/non-qualified retirement plans, refer to the 'Supplemental Executive Retirement Plan (SERP)' and 'Restoration Benefit Plan Expense' lines in the table provided in Peoples' response to OPC's First Set of Interrogatories No. 38.

The revenue requirements included in the proposed 2027 Subsequent Year Adjustment ("SYA") include incremental costs associated with the annualization of depreciation and amortization expense, property tax expense and return requirements related to capital investments made during the 2026 test year. The proposed 2027 SYA is not based on a full projected test year for 2027. As a result, the company does not have a "subsequent year projection" for the data requested by this interrogatory.

The revenue requirements included in the proposed 2027 Subsequent Year Adjustment ("SYA") include incremental costs associated with the annualization of depreciation and amortization expense, property tax expense and return requirements related to capital investments made during the 2026 test year. The proposed 2027 SYA is not based on a full projected test year for 2027. As a result, the company does not have a "subsequent year projection" for the data requested by this interrogatory.

APRIL 30, 2025
REVISED: JUNE 9, 2025

26. Incentive Compensation Programs. Please identify all compensation, bonuses, and benefits provided to members of the Board of Directors in each of the last three years and as included in the Company's proposed test year and subsequent year revenue requirement.

ANSWER:

The total Peoples' Board of Directors compensation expense recognized in each of the last three years and budgeted for the company's proposed test year revenue requirement is shown below.

Year	Expense
2022	$129,850
2023	$122,666
2024	$111,784
2026	$137,253

Peoples also incurs board expense allocations passed down from the parent company Emera. Emera executives hold director and/officer positions on internal boards and/or advisory boards. Consistent with the retainer and per meeting fee external directors receive, Emera will allocate a fee for each director and/or officer on a board based on a set fee calculated using market rates for external directors and expenses. The Board of Directors provides strategic advice regarding the operation of each affiliate. Affiliates ultimately benefit from this leadership. Emera charges for its executives' participation on Peoples Board recognized in each of the last three years and budgeted for the company's proposed test year revenue requirement is shown below.

Year	Expense
2022	$41,270
2023	$34,499
2024	$34,641
2026	$200,000

OPC'S FIRST SET OF INTERROGATORIES
INTERROGATORY NO. 26
BATES PAGE(S): 17142 - 17143
APRIL 30, 2025
REVISED: JUNE 9, 2025

The amount Emera charges for its executives' participation on Peoples' Board included in the 2026 test year ($200,000) was incorrect. The appropriate 2026 test year amount is $95,000. Peoples will adjust the test year revenue requirement calculation to correct this error. The increase in board member costs charged by Emera to Peoples from 2024 to 2026 is driven by Peoples being allocated an equal 50 percent of the costs for two Emera executives that participate on both the Tampa Electric Board and Peoples Board versus a much smaller allocation of costs in 2024 and prior years that was based on a Modified Massachusetts Methodology.

The revenue requirements included in the proposed 2027 Subsequent Year Adjustment ("SYA") includes incremental costs associated with the annualization of depreciation and amortization expense, property tax expense and return requirements related to capital investments made during the 2026 test year. The proposed 2027 SYA is not based on a full projected test year for 2027. As a result, the company does not have a "subsequent year projection" for the data requested by this interrogatory.

115. **Directors and Officers Insurance Expense.** Indicate whether PGS or its affiliates incurs Directors and Officers ("D&O") Insurance expense. If you do incur such expense, describe the incurred expenses for each and provide the expense incurred by each of the entities in total and the amount assigned/allocated to PGS in total during the test year and the historic base year on a per books basis. In addition, provide the proforma adjustment(s) to the D&O Insurance expense proposed by the Company for the test year.

ANSWER:

In 2024, Director & Officer Liability ("DOL") Insurance costs were allocated across the TECO affiliates. The charges were amortized to SAP Natural Account 6700504, which for ratemaking is included in FERC Account 925. The total cost allocated to Peoples in 2024 was $63,081 and is forecasted to be $73,000 in 2026. The affiliate allocation can be seen in the table below for the historic base year. The amounts for 2026 have not been developed for Tampa Electric and New Mexico Gas.

Affiliate	2024 Actual	Share	2026 Test Year
Tampa Electric	$262,371	73.8%	N/A
Peoples Gas	63,081	17.8%	$73,000
New Mexico Gas	29,870	8.4%	N/A
Total DOL Insurance Expense	$355,322	100.0%	N/A

In Order No. PSC-09-0411-FOF-GU, it was concluded that DOL insurance is a necessary cost and provided benefits to ratepayers (see excerpt below). In addition, per page 37 – 38 of Order No. PSC-09-0411-FOF-GU, the amount of DOL Insurance costs included in Peoples' 2009 test year rate case was $342,000, which is greater than the 2024 and 2026 costs allocated to the company.

Excerpt from Order No. PSC-09-0411-FOF-GU, pages 37-38:

> *Director and Officer Liability (DOL) Insurance has become a necessary part of conducting business for any company or organization and it would be difficult for companies to attract and retain competent directors and officers without it. Moreover, ratepayers receive benefits from being part of a large public company, including, among other things, access to capital. In addition, DOL Insurance is necessary to protect the ratepayers from*

allegations of corporate misdeeds. We also believe that it would be difficult for PGS to obtain DOL Insurance at the 2003 expense level and maybe even at that the requested 2009 expense level because of the current market conditions. Therefore, DOL insurance shall be included in the projected test year and no adjustment shall be made to reduce or remove DOL Insurance. Furthermore, the DOL Insurance recovered through the TECO allocated expenses to Peoples is also appropriate.

In the company's prior rate case it was not ordered to make an adjustment to remove any portion of Director and Officer Liability Insurance from its O&M per books amount. Therefore, the company has not reflected an adjustment in the historic base year or projected test year.

117. **Investor Relations Expense.** Indicate whether PGS or its affiliates incurs Investor Relations expense. If so, describe the incurred expenses for each and provide the expense incurred by each of the entities in total and the amount assigned/allocated to PGS in total during the test year and the historic base year on a per books basis. In addition, provide the proforma adjustment(s) to the Investor Relations expense proposed by the Company for the test year.

ANSWER:

Peoples incurs Investor Relations expense. The total Investor Relations expense allocated to Peoples from Emera for 2024 historic base year and 2026 projected test year is $29,556 and $43,088, respectively. Please see MFR Schedule G-2, page 19g line No. 6 as these amounts are included in the Finance area total amounts.

Please see the table below, which shows the 2024 Investor Relations expense allocated to all the affiliates in Canadian dollars from Emera and the percentage of the allocation. The allocation across affiliates has not been produced for 2026 as Emera only provides a one-year budget for all affiliates.

Shared Service Costs - Summary by Cost Center

Emera

	Total Costs to be Allocated	NSP	Emera Holdco	Brunswick Pipeline	Emera Energy (Trading Company)	Barbados Light & Power	Grand Bahamas (GBPC)	Emera Technologies Ltd. (ETL)	TSI	Tampa Electric	People's Gas	New Mexico Gas
Investor Relations (CAD $)	862,851	287,716	216,955	3,925	6,667	3,802	2,743	44	21	285,025	41,138	14,815
Investor Relations Allocation %	100.0%	33.3%	25.1%	0.5%	0.8%	0.4%	0.3%	0.0%	0.0%	33.0%	4.8%	1.7%

The Commission did not make an adjustment to remove any portion of Investor Relations expense from its O&M per books amount in the company's last base rate case. Therefore, the company has not reflected an adjustment in the historic base year or projected test year.

116. **Board of Directors Expense.** Indicate whether PGS or its affiliates incurs Board of Directors ("BOD") expense. If you do incur such expense, describe the incurred expenses for each and provide the expense incurred by each of the entities in total and the amount assigned/allocated to PGS in total during the test year and the historic base year on a per books basis. In addition, provide the proforma adjustment(s) to the BOD expense proposed by the Company for the test year.

ANSWER:

Peoples does incur Board of Directors expense. Please see the total Board of Directors expense for the 2024 historic base year and 2026 projected test year in the table below. Please note that a portion of the expense is related to Peoples' Board of Directors and a portion is allocated to Peoples from Emera for its Board of Directors. Please see MFR Schedule G-2, page 19g line 5 as the amounts allocated from Emera are included in the Executive area total amounts.

Year	Total BOD Expense	Peoples BOD	Allocated from Emera
2024	$146,425	$111,784	$34,641
2026	$337,253	$137,253	$200,000

Emera executives hold director and/officer positions on internal boards and/or advisory boards. Beginning in 2025, consistent with the retainer and per meeting fee external directors receive, Emera will allocate a fee for each director and/or officer on a board based on a set fee calculated using market rates for external directors and expenses. The Board of Directors provides strategic advice regarding the operation of each affiliate. Affiliates ultimately benefit from this leadership. The increase in board member costs charged by Emera to Peoples from 2024 to 2026 is driven by the substitution of Emera employees for external board members. However, the amount Emera charges for its executives' participation on Peoples' Board included in the 2026 test year ($200,000) was incorrect. The appropriate 2026 test year amount is $95,000. Peoples will adjust the test year revenue requirement calculation to correct this error.

Please see the table below, which shows the 2024 Board of Directors expense allocated to all the affiliates in Canadian dollars from Emera and the percentage of the allocation. The allocation across affiliates has not been produced for 2026 as Emera only provides a one-year budget for all affiliates.

BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION

In re: Petition for Rate Increase by Peoples Gas System, Inc.	DOCKET NO. 20250029-GU FILED: April 30, 2025

PEOPLES GAS SYSTEM, INC.'S RESPONSE TO OFFICE OF PUBLIC COUNSEL'S FIRST REQUEST FOR PRODUCTION OF DOCUMENTS (NOS. 1-41)

Pursuant to Rule 106.206, Florida Administrative Code, and Florida Rule of Civil Procedure 1.350, Peoples Gas System, Inc. ("Peoples" or the "company"), hereby responds to the Office of Public Counsel's ("OPC") First Request for Production of Documents (Nos. 1-41), served March 31, 2025 ("OPC's First POD").

General Objections

1. Peoples objects to each Request for Production in OPC's First POD ("Request") to the extent that it seeks information that is duplicative, not relevant to the subject matter of this docket, and is not reasonably calculated to lead to the discovery of admissible evidence.

2. Peoples objects to each Request to the extent it is vague, ambiguous, overly broad, imprecise, or utilizes terms that are subject to multiple interpretations but are not properly defined or explained for purposes of such Requests. Peoples will seek clarification from OPC if a request is not clear, but Peoples will produce documents subject to, and without waiving, this objection.

3. Peoples objects to each Request to the extent it requires Peoples to produce information that is already in the public record before the Florida Public Service Commission ("FPSC" or the "Commission"), or the OPC, or any other public agency and/or available to OPC through normal procedures or is readily accessible through legal or any other search engines.

4. Peoples objects to each Request to the extent that it calls for data or information protected by the attorney-client privilege, the work product doctrine, the accountant-client

FPSC EXH NO. 55
ADMITTED

4. **Cost Allocation Manuals (CAM).** Please provide a copy of all cost allocation manuals for 2023, 2024, and 2025 that describe the allocation of costs.

Response:

Peoples' non-confidential electronic documents responsive to this request will be served by posting on the SharePoint in the folder entitled "POD_1_4."

5. **MFR Supporting Documents.** Please provide a copy of all pre-filed testimony and appendices in Microsoft Word filed with PGS's petition on March 31, 2025. Provide a copy of all exhibits attached to pre-filed testimony and all supporting schedules and workpapers in Excel in live format and with all formulas and calculations intact. If any schedules have been previously provided, please identify the date provided.

Response:

Some of the documents responsive to this request contain proprietary confidential business information. Peoples' non-confidential electronic documents responsive to this request will be served by posting on the SharePoint in the folder entitled "POD_1_5." Peoples' confidential electronic documents responsive to this request will be served by posting on the Confidential Section of the SharePoint or via USB in the folder entitled "CONF_POD_1_5."

6. **MFR Supporting Documents.** Please provide a copy of the Company's March 31, 2025 MFRs in Excel format with all spreadsheet links and formulas intact with source data used. Provide all documents that identify or explain all assumptions and calculations used. If any schedules have been previously provided, please identify the date provided.

Response:

Peoples' non-confidential electronic documents responsive to this request will be served by posting on the SharePoint in the folder entitled "POD_1_6."

7. **MFR Supporting Documents.** Please provide all workpapers in your possession, custody or control underlying all schedules of your MFRs and pre-filed testimony and exhibits, and all documents in your possession, custody, or control commenting on analyzing, or evaluating any of these documents and schedules. Provide the requested documents in electronic format, with all formulas and calculations intact and source data used. Include all documents that identify or explain assumptions and calculations used in preparing testimony and exhibits. If any schedules have been previously provided, please identify the date provided.

Response:

Some of the documents responsive to this request contain proprietary confidential business information. Peoples' non-confidential electronic documents responsive to this request will

BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION

In re: Petition for Rate Increase by Peoples Gas System, Inc.	DOCKET NO. 20250029-GU FILED: May 5, 2025

PEOPLES GAS SYSTEM, INC.'S RESPONSE TO OFFICE OF PUBLIC COUNSEL'S SECOND REQUEST FOR PRODUCTION OF DOCUMENTS (NOS. 42-46)

Pursuant to Rule 106.206, Florida Administrative Code, and Florida Rule of Civil Procedure 1.350, Peoples Gas System, Inc. ("Peoples" or the "company"), hereby responds to the Office of Public Counsel's ("OPC") Second Request for Production of Documents (Nos. 42-46), served April 4, 2025 ("OPC's Second POD").

General Objections

1. Peoples objects to each Request for Production in OPC's Second POD ("Request") to the extent that it seeks information that is duplicative, not relevant to the subject matter of this docket, and is not reasonably calculated to lead to the discovery of admissible evidence.

2. Peoples objects to each Request to the extent it is vague, ambiguous, overly broad, imprecise, or utilizes terms that are subject to multiple interpretations but are not properly defined or explained for purposes of such Requests. Peoples will seek clarification from OPC if a request is not clear, but Peoples will produce documents subject to, and without waiving, this objection.

3. Peoples objects to each Request to the extent it requires Peoples to produce information that is already in the public record before the Florida Public Service Commission ("FPSC" or the "Commission"), or the OPC, or other public agency and/or available to OPC through normal procedures or is readily accessible through legal search engines.

4. Peoples objects to each Request to the extent that it calls for data or information protected by the attorney-client privilege, the work product doctrine, the accountant-client

Specific Responses

42. **Budgets.** Please provide all documents identified in Citizens' Second Set of Interrogatories, Interrogatory No. 100 b.

Response:

Peoples' non-confidential electronic documents responsive to this request will be served by posting on the SharePoint or via USB in the folder entitled "POD_2_42."

43. **Forecasting Process.** Please provide all documents identified in Citizens' Second Set of Interrogatories, Interrogatory No. 101.

Response:

The documents in this folder contain proprietary business information. Peoples' confidential electronic documents responsive to this request will be served by posting on the SharePoint or via USB in the folder entitled "CONF_POD_2_43."

The current year long-term forecasting process is ongoing at the time of this response and the resulting long-term forecast has not been submitted to Emera.

44. **Budgets.** Please provide all documents identified in Citizens' Second Set of Interrogatories, Interrogatory No. 102.

Response:

Peoples' did not identify any documents in response to Citizens' Second Set of Interrogatories, No. 102; therefore, there are no documents to provide in response to Production of Documents No. 44.

45. **A&G Capitalization Study.** Please provide all documents identified in Citizens' Second Set of Interrogatories, Interrogatory No. 105.

Response:

The PA Consulting A&G Capitalization study was provided with the written direct testimony of Peoples' witness Andrew Nichols in Exhibit AN-1, Document No. 4, Bates stamped pages 110 to 121, and includes the guidelines, assumptions, methodologies and calculations used to perform the calculation for 2024. A summary comparison of the calculations from 2024 through the 2026 test year is also shown in Document No. 4, Bates stamped page 122. The Excel version of Bates stamped page 122 has been provided in response to OPC's First Request for Production of Documents, No. 5.

Purpose

To: Florida Public Service Commission

We have performed the procedures described later in this report to meet the objectives set forth by the Division of Accounting and Finance in its audit service request dated April 14, 2025. We have applied these procedures to the attached schedules prepared by Peoples Gas System, Inc. in support of its filing for rate relief in Docket No. 20250029-GU.

The report is intended only for internal Commission use.

Objectives and Procedures

General

Definitions

PGS/Company refers to Peoples Gas System, Inc.

FERC refers to the Federal Energy Regulatory Commission.

USoA refers to the FERC Uniform System of Accounts as adopted by Commission Rule 25-7.014 – Records and Reports in General, Florida Administrative Code. (F.A.C.)

MFR refers to Minimum Filing Requirement.

Background

Peoples Gas System, Inc. is a natural gas distribution company providing sales and transportation of natural gas. The Company serves over 500,000 residential, commercial, industrial, and power generation customers across 43 of Florida's 67 counties. PGS is a subsidiary of Emera Incorporated and is an affiliate of Tampa Electric Company.

The Company's last Rate Case was granted in Docket No. 20230023-GU, in Commission Order No. PSC-2023-0388-FOF-GU, issued December 27, 2023. In that case, the Auditor's Report was issued on July 20, 2023, with Audit Control No. 2023-101-1-1.

Objectives: The objectives in this proceeding were to determine whether the Company's filing for the historical test year ended December 31, 2024 in Docket No. 20250029-GU is consistent and in compliance with Sections 366.04, 366.06, and 366.076, Florida Statutes, and Rules 25-7.039 and 25-7.042, Florida Administrative Code. (F.A.C.)

Procedures: We performed the following specific objectives and procedures to satisfy the overall objectives identified above.

Rate Base

Utility Plant in Service

Objectives: The objectives were to determine whether the Utility Plant in Service (UPIS) 1) Consists of property that exists and is owned by the Company, 2) Additions are authentic, recorded at original cost, and properly classified as a capital item in compliance with Commission Rules and FERC USoA, 3) Retirements are made when replacement item is put into service, 4) UPIS balances are properly stated based on Commission adjustments in the prior rate case and to determine the 13-month average balance for UPIS as of December 31, 2024.

Procedures: We reconciled the plant balances for historical test year ended December 31, 2024, from the MFR to the general ledger. We recalculated the 13-month average balance for the twelve months ended December 31, 2024. We judgmentally selected the sample for plant from 2023 to 2024, and traced to the supporting documentation. No exceptions were noted.

FPSC EXH NO. 63
ADMITTED

Land & Land Rights

Objectives: The objectives were to determine whether the utility land was recorded at original cost is used for utility operations, and was owned or secured under a long-term lease.

Procedures: We reconciled the land balances for historical test year ended December 31, 2024, from the MFR to the general ledger. We obtained all the purchases and sales of land for years 2023 to 2024. We traced a sample of the purchases of land to the deeds. We recalculated the 13-month average balance for the twelve months ended December 31, 2024. See Finding 1 for our discussion related to additions to Account 304- Land and Land Rights.

Construction Work in Progress

Objectives: The objectives were to determine the nature and purpose of utility projects recorded as Construction Work in Progress (CWIP), and whether CWIP was properly stated and authorized.

Procedures: We recalculated the monthly balance and 13-month average of CWIP for the historical test year ended December 31, 2024, from general ledger. We reconciled the 13-month average to the balance sheet, and traced to MFR Schedule B-8. We judgmentally selected the sample of CWIP from 2023 to 2024, and traced to the supporting documentation. We also reconciled the ending balances of CWIP from 2023 to 2024 to supporting documentation. No exception were noted.

Accumulated Depreciation

Objectives: The objectives were to determine whether: 1) Accruals to accumulated depreciation are properly recorded in compliance with Commission rules and the FERC USoA, 2) Depreciation accruals are calculated using the Commission's authorized rates and that retirements are properly recorded, 3) Adjustments required in the Company's last rate case proceeding were recorded in its books and records, and 4) Where accruals to accumulated depreciation were allocated from the corporate offices, the basis of the allocation is reviewed.

Procedures: We reconciled the accumulated depreciation balances of the historical test year ended December 31, 2024, from the MFR to the general ledger. We recalculated the 13-month average balance for the twelve months ended December 31, 2024. We judgmentally selected the sample of accumulated depreciation from 2023 to 2024, and traced to the supporting documentation. No exceptions were noted.

Working Capital

Objectives: The objectives were to determine whether: 1) Working capital calculation is consistent with Commission orders, 2) Working capital accounts are interest-bearing, 3) Transactions in working capital were properly recorded, 4) Non-utility items are included in the working capital accounts, 5) Purchased fuel-over recoveries are included and the under-recoveries are excluded from working capital.

Procedures: We recalculated the monthly balances and 13-month average of working capital allowance for the historical test year ended December 31, 2024, from general ledger. We reconciled the 13-month average to the balance sheet, and traced to MFR Schedules B-1, B-13,

FPSC EXH NO. 63
ADMITTED

B-14 and B-15. We judgmentally sampled the transactions in clearing accounts, prepayments, miscellaneous deferred debits, other deferred credits, accrued liabilities, and all other accounts of assets and liabilities in working capital, and traced to the supporting documentation. We confirmed the interest-bearing accounts in working capital were removed. We verified the purchased fuel-over recoveries were included, and the under-recoveries were excluded from working capital. See Finding 2 for our discussion related to our adjustment.

Capital Structure

Common Equity

Objectives: The objectives were to determine whether equity balances were representative of actual equity, and whether the equity was properly recorded in compliance with USoA for the test year ended December 31, 2024.

Procedures: We obtained the balance sheet of the common equity, traced it to MFR Schedule D-1 and the supporting documentation. We also traced the Return on Equity (ROE) to the Commission Order No. PSC-2023-0388-FOF-GU. No exceptions were noted.

Long-Term Debt

Objectives: The objectives were to determine whether Long-Term Debt (LTD) balances were representative of the actual obligations of the Company, and whether they were properly recorded in compliance with USoA for the test year ended December 31, 2024.

Procedures: We obtained the long-term debt notes from the Company and traced them to MFR Schedule D-2. We also recalculated the 13-month average of the long-term debt and traced it to MFR Schedule D-1. No exceptions were noted.

Short-Term Debt

Objectives: The objectives were to determine whether Short-Term Debt (STD) balances were representative of the actual obligations of the Company, and whether they were properly recorded in compliance with USoA for the test year ended December 31, 2024.

Procedures: We obtained the short-term notes from the Company, and traced the short-term debt balance to MFR Schedule D-3. No exceptions were noted.

Customer Deposits

Objectives: The objectives were to determine whether customer deposit balances represented actual obligations of the Company, and to verify whether customer deposits were properly recorded and reflected on MFR Schedule D-6.

Procedures: We scheduled the customer deposits and reconciled the deposits to MFR Schedule D-6. We judgmentally selected a sample from the customer deposits and traced the sample to supporting documentation. No exceptions were noted.

FPSC EXH NO. 63
ADMITTED

Accumulated Deferred Income Taxes

Objectives: The objectives were to determine whether Accumulated Deferred Income Taxes (ADIT) represented actual obligations of the Company, and to verify whether accumulated deferred income taxes were properly recorded and reflected on MFR Schedule B-18.

Procedures: We recalculated the 13-month accumulated deferred income taxes for 2024 and traced them to MFF Schedule B-18. No exceptions were noted.

Net Operating Income

Operating Revenue

Objectives: The objective was to determine whether the revenues, billing determinants, and customers was properly booked and recorded for the test year ended December 31, 2024.

Procedures: We reconciled and recalculated the monthly revenues in the MFRs to the Company's books. We traced and recalculated the unbilled revenue for the historical test year to the MFRs and the general ledger. No exceptions were noted.

Operation and Maintenance Expense

Objectives: The objectives were to determine whether: 1) Operation and Maintenance (O&M) expenses were properly recorded in compliance with Commission Rules, 2) Costs are appropriately allocated to non-utility, and 3) Appear to be reasonable for ongoing utility operations.

Procedures: We recalculated and reconciled the O&M expenses reported in the MFR to the general ledger. For the selected sample, we traced the transaction(s) to supporting documentation. No exceptions were noted.

Depreciation and Amortization Expense

Objectives: The objective was to determine whether depreciation expense for UPIS was properly recorded in compliance with Commission Rules, and that it accurately represented the depreciation of UPIS assets for ongoing utility operations.

Procedures: We reconciled the depreciation expense from the MFR to the general ledger and obtained the September 2024 detail depreciation expense for testing. We traced the rates of the depreciation expense to the orders and appropriate supporting documentation and randomly recalculated some of the depreciation expense. No exceptions were noted.

Taxes Other Than Income

Objectives: The objective was to determine the appropriate amounts for Taxes Other Than Income tax (TOTI) for the historical test year ended December 31, 2024.

Procedures: We recalculated the gross receipts tax, and reconciled to MFR Schedule C-30. We obtained the supporting documentation of Federal unemployment rate, State unemployment rate and FICA rate from the Company, and traced to MFR Schedule C-30. We reconciled the

C16-1495

FPSC EXH NO. 63
ADMITTED

property tax, and traced to MFR Schedule C-30. We recalculated the regulatory assessment fees, and reconciled to MFR Schedule C-30. No exceptions were noted.

Federal and State Income Taxes

Objectives: The objective was to determine whether the test year income taxes were properly recorded in compliance with the USoA.

Procedures: We scheduled the Federal and State Income Tax and the deferred income tax from the Company, and trace to MFR Schedule C-22. We obtained the supporting documentation of interest in tax expense calculation from the Company, and traced to MFR Schedule C-24. We requested the Federal and State Income Tax Filings from the Company; however, the Company requested and was granted an extension to file its 2024 Federal and State Income Tax Return by October 15, 2025. No exceptions were noted.

Other

Affiliate Transactions

Objectives: The objectives were to review intercompany charges to and from divisions, affiliated companies, and non-regulated operations, to determine if costs were allocated pursuant to Commission Rules, and to determine the original amounts allocated, whether the methodology was reasonable, and to check for accuracy and consistent application.

Procedures: Audit staff reviewed the Company 's policies and procedures relating to the recording of affiliate transactions and the cost/allocation manual for employees. During the review of rate base and net operating income, we examined items that were allocated as per the Company 's policies and procedures. No exceptions were noted.

FPSC EXH NO. 63
ADMITTED

Audit Findings

Finding 1: Land

Audit Analysis: There was a net $10,523,726 increase in FERC Account 304 - Land & Land Rights between January 1, 2023 and December 31, 2024. Audit staff asked for, and was provided, a detailed summary of the change in land balance for this period as noted in Table 1. Per the Company, this change was due to six work orders that are largely associated with improvements to the land and/or property. Based on the responses from the company, audit staff is not able to discern if these improvements should be booked in Account 304 or should be booked to a depreciable plant account.

Table 1

act_work_order_description	act_work_order_number	NET activity_cost
Capper Station Relocation	D0056823	$ 35,157
Wildwood-Sabal Gate	D0057205	(309,136)
Sumterville/Dade Connect Construct	D0073366	11,172,628
Baldwin Compressor Station	D0073541	(472,837)
Improvements to Miami Dade Operation	D0098205	81,118
New Asphalt and seal parking lot	D0102346	16,796
	Total Change	$ 10,523,726

Effect on the General Ledger: To be determined by the Company.

Effect on the Filing: Audit staff requests technical staff to determine the disposition of this concern and the effect on the filing.

FPSC EXH NO. 63
ADMITTED

Finding 2: Other Deferred Credits

Audit Analysis: MFR Schedule B-15 shows a $0 13-month average balance in Account 254-Other Regulatory Liabilities. However, the general ledger shows an ending balance of ($556,819) in this account. The 13-month average balance for this account would be ($556,819). Including this amount would result in a 13-month average of Other Deferred Credits of ($3,058,112). The amount is included in the respective balances on MFR Schedules B-1 and B-13. The Company indicated plans to revise MFR Schedule B-15.

Effect on the General Ledger: None.

Effect on the Filing: This is an informational finding.

Land & Land Rights

Objectives: The objectives were to determine whether the utility land was recorded at original cost is used for utility operations, and was owned or secured under a long-term lease.

Procedures: We reconciled the land balances for historical test year ended December 31, 2024, from the MFR to the general ledger. We obtained all the purchases and sales of land for years 2023 to 2024. We traced a sample of the purchases of land to the deeds. We recalculated the 13-month average balance for the twelve months ended December 31, 2024. See Finding 1 for our discussion related to additions to Account 374 - Land and Land Rights.

Construction Work in Progress

Objectives: The objectives were to determine the nature and purpose of utility projects recorded as Construction Work in Progress (CWIP), and whether CWIP was properly stated and authorized.

Procedures: We recalculated the monthly balance and 13-month average of CWIP for the historical test year ended December 31, 2024, from general ledger. We reconciled the 13-month average to the balance sheet, and traced to MFR Schedule B-8. We judgmentally selected the sample of CWIP from 2023 to 2024, and traced to the supporting documentation. We also reconciled the ending balances of CWIP from 2023 to 2024 to supporting documentation. No exception were noted.

Accumulated Depreciation

Objectives: The objectives were to determine whether: 1) Accruals to accumulated depreciation are properly recorded in compliance with Commission rules and the FERC USoA, 2) Depreciation accruals are calculated using the Commission's authorized rates and that retirements are properly recorded, 3) Adjustments required in the Company's last rate case proceeding were recorded in its books and records, and 4) Where accruals to accumulated depreciation were allocated from the corporate offices, the basis of the allocation is reviewed.

Procedures: We reconciled the accumulated depreciation balances of the historical test year ended December 31, 2024, from the MFR to the general ledger. We recalculated the 13-month average balance for the twelve months ended December 31, 2024. We judgmentally selected the sample of accumulated depreciation from 2023 to 2024, and traced to the supporting documentation. No exceptions were noted.

Working Capital

Objectives: The objectives were to determine whether: 1) Working capital calculation is consistent with Commission orders, 2) Working capital accounts are interest-bearing, 3) Transactions in working capital were properly recorded, 4) Non-utility items are included in the working capital accounts, 5) Purchased fuel-over recoveries are included and the under-recoveries are excluded from working capital.

Procedures: We recalculated the monthly balances and 13-month average of working capital allowance for the historical test year ended December 31, 2024, from general ledger. We reconciled the 13-month average to the balance sheet, and traced to MFR Schedules B-1, B-13,

Audit Findings

Finding 1: Land

Audit Analysis: There was a net $10,523,726 increase in FERC Account 374 - Land & Land Rights between January 1, 2023 and December 31, 2024. Audit staff asked for, and was provided, a detailed summary of the change in land balance for this period as noted in Table 1. Per the Company, this change was due to six work orders that are largely associated with improvements to the land and/or property. Based on the responses from the company, audit staff is not able to discern if these improvements should be booked in Account 374 or should be booked to a depreciable plant account.

Table 1

act_work_order_description	act_work_order_number	NET activity_cost
Capper Station Relocation	D0056823	$ 35,157
Wildwood-Sabal Gate	D0057205	(309,136)
Sumterville/Dade Connect Construct	D0073366	11,172,628
Baldwin Compressor Station	D0073541	(472,837)
Improvements to Miami Dade Operation	D0098205	81,118
New Asphalt and seal parking lot	D0102346	16,796
	Total Change	$ 10,523,726

Effect on the General Ledger: To be determined by the Company.

Effect on the Filing: Audit staff requests technical staff to determine the disposition of this concern and the effect on the filing.

BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION

In re: Petition for Rate Increase by Peoples Gas System, Inc.	DOCKET NO. 20250029-GU

AFFIDAVIT OF KAREN BRAMLEY

1. I, Karen Bramley, Director, Regulatory Affairs for Peoples Gas System, Inc., have personal knowledge of the matters stated in this affidavit.

2. Peoples Gas System, Inc. ("Peoples") filed a petition for general rate increase on March 31, 2025. That same day, Peoples notified the chief executive office ("CEO") of the governing body of each municipality and county within the service area included in the company's rate petition.

3. Peoples delivered this notification by an email message sent to each CEO's email address. These emails were sent with delivery receipt requested.

4. Peoples obtained a confirmation for each recipient indicating that delivery was complete. **Exhibit 1** lists each CEO, their email address, and whether Peoples received confirmation of delivery. **Exhibit 2** is a copy of the petition notification.

5. On May 9, 2025, Peoples posted the rate case synopsis on the company's website.

6. On May 9, 2025, Peoples provided the CEO of the governing body of each municipality and county with a link to the synopsis via email. These emails were also sent with delivery receipt requested. At the beginning of June, Peoples made revisions to pages 15 and 17 of the synopsis to enhance clarity.

7. On June 10, 2025, Peoples provided the CEO of the governing body of each municipality and county with a link to the revised synopsis via email. These emails were also sent with delivery receipt requested.

8. Peoples obtained a confirmation for each recipient indicating that delivery was complete. **Exhibit 3** lists each CEO, their contact information, and whether Peoples received confirmation of delivery of the original synopsis. **Exhibit 4** is a copy of the original synopsis notification. **Exhibit 5** is a copy of the original rate case synopsis. **Exhibit 6** lists each CEO, their contact information, and whether Peoples received confirmation of delivery of the revised synopsis. **Exhibit 7** is a copy of the revised synopsis notification. **Exhibit 8** is a copy of the revised rate case synopsis.

8. Under penalty of perjury, I declare that I have read the foregoing affidavit and that the facts stated in it are to the best of my knowledge and belief.

Karen Bramley

EXHIBIT 2 - Petition Letter

TECO PEOPLES GAS
AN EMERA COMPANY

March 31, 2025

Dear City Administrator,

Today, Peoples Gas System, Inc. formally filed a petition with the Florida Public Service Commission (PSC) (Docket No. 20250029-GU) to begin the several months-long process of requesting and receiving approval for an increase to our customer base rates and service charges for new rates effective Jan. 1, 2026, and another smaller adjustment effective Jan. 1, 2027.

Floridians are increasingly choosing natural gas for its cost effectiveness and reliability, particularly as severe weather events become more frequent and the demand for energy rises. Our distribution system provides safe and reliable natural gas service to residential, commercial, industrial customers and electric generators, as well as for the critical systems, businesses and institutions that we all depend on to remain reliable and resilient.

As Florida continues to grow, Peoples Gas is investing in our team, tools, and the maintenance and expansion of our system to better serve customers and communities across the state. We take our responsibility to deliver safe, dependable and affordable energy to our customers seriously, and that includes managing our business carefully while meeting their evolving expectations.

Peoples Gas is dedicated to delivering industry-leading customer service, supporting the communities we serve, and planning for the growing demand for energy in Florida. We acknowledge that there is never a good time to request rate relief and that our requested increase will have an impact on our customers. We do, however, believe that our proposed rates will reflect the value of natural gas to our customers and that the bills for our services will continue to be commensurate with the value our service provides. We're committed to growing and maintaining our system and being here when and where our customers need us most.

This letter is provided to you as required by Rule 25-22.0406 of the Florida Administrative Code, Notice and Public Information on General Rate Increase Requests. A copy of the petition and the MFRs can be accessed through the PSC website. You may also access the petition and the MFRs on our website at **PeoplesGas.com/rates.** A second communication, providing a synopsis of our request, will follow this letter in approximately 45 days.

Should you have any questions regarding this filing or the contents of the petition, please don't hesitate to contact me.

Sincerely,

DocuSigned by:
1B8AEEB33A1F489...

EXHIBIT 4 - Original Synopsis Notification

From: REGDEPT
To: SRose@coconutcreek.net
Cc: Abreu Jr, Sergio
Subject: Availability of Synopsis of Peoples Gas System's Rate Request
Date: Friday, May 9, 2025 2:30:08 PM

Good afternoon,

On March 31, 2025, Peoples Gas System Inc. filed a petition (Docket No. 20250029-GU) with the Florida Public Service Commission requesting a future increase in base rates.

The company has prepared a synopsis of the request as required by Rule 25-22.0406 of the Florida Administrative Code. Copies of the filing, including this synopsis, are available at **PeoplesGas.com/Filing** and at **https://www.psc.state.fl.us/clerks-office-dockets-level2?DocketNo=20250029**.

Should you have any questions, please do not hesitate to contact me.

Thank you and best regards,

Sergio Abreu, Jr.

I. SUMMARY OF RATE CASE

On March 31, 2025, Peoples Gas System, Inc. ("Peoples" or the "company") petitioned the Florida Public Service Commission ("Commission" or “PSC”) for an increase in its permanent base rates and charges.

Under Florida law, the Commission regulates rates, miscellaneous service charges, and services provided by Florida investor-owned utilities. The Commission assigned Docket No. 20250029-GU to the case.

Peoples filed its test year letter on January 30, 2025, advising that, based on a review of the company’s projected 2025 and 2026 financial performance, it must seek an increase in base rates to continue to meet the natural gas needs of existing and new customers, and continue to provide safe, reliable, and high-quality customer service.

Peoples’ last rate case was filed in April 2023, with a final order issued in December 2023. In the two years since Peoples’ last rate case, many factors have contributed to the necessity for the company to now seek rate relief, including (1) growth in rate base as the company keeps up with growing customer demand; (2) higher depreciation and property tax expense associated with rate base growth; (3) increasing costs associated with safely operating the company’s system and complying with federal safety and security requirements; (4) higher prices in the costs of labor, contractors, materials, insurance, and healthcare benefits; and (5) modifications in Rate Design and Cost-of-Service.

Peoples has requested an increase of $103,591,089 in base revenues, which includes approximately $6.7 million of 2026 revenue requirements related to moving approximately $53.4 million of net Cast Iron/Bare Steel Replacement Rider investments made through December 31, 2025, into rate base. The result is a net revenue increase of $96,857,794. This proposed increase would be effective with the first billing cycle in January 2026. To mitigate the need for an additional rate relief request to be filed in 2026, the company seeks a subsequent year base rate adjustment of approximately $26.7 million effective with the first billing cycle for January 2027.

Peoples also proposes closing its RS-1 billing class to new customers and merging its RS-2 and RS-3 billing classes into one billing class.

The petition and direct testimony of Peoples’ witnesses provide a more complete description of Peoples' request. The detailed data supporting the request are contained in the Minimum Filing Requirement Schedules (“MFRs”), all of which were submitted to the Commission in the proceeding. An Executive Summary of the case is included in the A Schedules of the MFRs and in Exhibit A to this synopsis. A bill comparison showing the current monthly rates and the proposed monthly rates is contained in Exhibit B.

A copy of Peoples’ entire rate request filing with the Commission, including a complete set of MFRs, is available for inspection at www.peoplesgas.com/rates/our-rate-request.

II. COMPARISON OF THE PRESENT AND PROPOSED RATES FOR CUSTOMER RATE CLASSES

Under Peoples' proposal, customer classes will receive bill increases when the proposed new rates are put into effect on and after the first cycle billing periods in January 2026 and January 2027.

Based on the current rates and projections for fuel and the other clauses, Peoples' typical monthly residential bill (RS-2) under its proposed rates for 14 therms will increase to approximately $60.00 for about a 27 percent increase for 2026 and approximately $62.00 or about a 3.0 percent increase for 2027.

The current bills are calculated using the purchased gas adjustment cap rate for fuel and the current rates for the other clause charges and base rate charges. The proposed bills are also calculated using the purchased gas adjustment cap rate for fuel and current rates for other clause charges and adjusted for the proposed base rate changes.

Attached to this synopsis as Exhibit B are the current and proposed residential and commercial rates.

MAJOR RATE CASE ISSUES
At the start of a general base rate case, it is not possible to anticipate all the issues that may arise, but potential major revenue requirement issues involved in the case could include:

1. Are the company's test year and sales forecasts reasonable?
2. What should be the value of the company's test year investment in rate base?
3. What should be the company's test year operating revenues?
4. What should be the company's test year operating expenses?
5. What should be the company's test year overall rate of return?
6. What should be the company's test year allowed rate of return on equity?
7. What will be the company's test year revenue deficiency?
8. What is the appropriate cost-of-service methodology to use in designing rates?
9. What will be the appropriate rate levels for each customer class of service?
10. What will be the appropriate charge for each miscellaneous service?
11. Should the Commission approve the proposed subsequent year adjustment of $26.7 million effective with the first billing cycle for January 2027?

The specific issues in the case will be identified in a prehearing order issued prior to the hearing.

III. DESCRIPTION OF THE RATE CASE PROCESS

All public utilities, as defined in Section 366.02, Florida Statutes, must petition the Commission to increase their rates to retail customers. After filing the request, the Commission has eight months to conduct the case and twelve months to take final action in the case. The filing to request a base rate increase consists of the petition, direct testimony, and exhibits from the company witnesses and the MFRs, which are an extensive set of documents containing detailed data in support of the rate increase, including figures about a utility's costs, investment, and operations for the specified test year. The information is distributed to the Commissioners, the Public Service Commission staff, the Office of the Public Counsel ("Public Counsel"), and other parties who express interest or intervene in the case.

After a utility files a rate case, the discovery process begins. During the process, the utility responds to requests for information, known as interrogatories, and requests to produce documents from the Commission staff and the parties, including intervenors, in the case. The Commission staff performs a field audit of the company's filed data to ensure compliance with Commission rules and the accuracy of the information provided. Formal depositions (interviews) with company witnesses may also be conducted to gather information and better identify issues.

Intervenors in the case often present their witnesses, testimony, and exhibits in response to the company's filing. They use the company's initial filing materials and discovery responses as a basis for their positions in the case. The parties, their witnesses, testimony, and exhibits are also subject to discovery. The company will then have the opportunity to present rebuttal testimony and exhibits to any intervenors who file testimony.

Toward the end of the discovery process and just before the technical hearing commences, the company, staff, and intervenors prepare issue lists and preliminary positions for the case. These lists of issues are then combined and narrowed in a Prehearing Order to help the Commission focus on the important facets of the case during the hearing.

The first hearings in a rate case – called "service hearings" – generally commence a few months after filing and are scheduled by the Commission. Service hearings allow customers to provide testimony on the utility's rate request and its quality of service. The Commission takes these views into account when ruling on the case. Customers may register to speak at the virtual service hearings in one of the following ways: (1) register using the PSC's online registration form, which will be available at www.FloridaPSC.com, under the "Hot Topics" heading, (2) Call the PSC (850) 413-7080, or (3) email speakersignup@psc.state.fl.us Online registration for the virtual service hearing will open on June 30, 2025, at 9:00 a.m. and close on July 10, 2025, at noon. One day prior to the virtual service hearing, customers will be emailed further instructions on how to participate. Customers who wish to speak at the in-person service hearings may register upon arrival at the venue. Online registration is not available for in-person service hearings. Please note that the order in which customers speak is based upon the order in which they sign up. If you have questions about the sign-up process, please call (850) 413-7080.

The Commission has scheduled the following service hearings in this case:

Virtual* July 14, 2025 at 1:00 p.m. Betty Easley Conference Center Room 148 4075 Esplanade Way Tallahassee, FL 32399	
In-Person* July 16, 2025 at 10:00 a.m. Anne Kolb Nature Center – Mangrove Hall (Hollywood North Beach Park) 751 Sheridan Street Hollywood, FL 33019	**In-Person** July 17, 2025 at 2:00 p.m. Valencia Community College West Campus 1800 South Kirkman Road Orlando, FL 32811

*Spanish Interpreter Available

The service hearing dates and times will be published in newspapers of general circulation in the Company's service areas and will also be available on the Company's website at www.peoplesgas.com/rates.

The Office of Public Counsel has intervened in this docket and will be present at the service hearings to represent the public. Public Counsel may be contacted prior to the hearing at 111 West Madison Street, Suite 812, Claude Pepper Building, Tallahassee, Florida 32399-1400, or by phone at (800) 342-0222.

The next hearing in a rate case is a technical hearing. At this hearing, the legal "record" is further established for deciding the case through direct, rebuttal, and cross-examination testimony, and the introduction of exhibits and other relevant evidence. The technical hearing in this case will be held on September 8-11, 2025, at the Betty Easley Conference Center, Room 148, located at 4075 Esplanade Way in Tallahassee, Florida.

After the technical hearing, the parties file legal briefs summarizing their positions. The Commission staff reviews the briefs and the record produced at the hearing and provides a written staff recommendation to the Commission that addresses each issue identified in the case.

The Commission holds a Special Agenda Conference and votes on the total amount of costs to be recovered annually through customer rates and service charges (revenue requirements); a Commission vote on the rates will be made on a subsequent date. After the votes, Commission attorneys prepare a final order that reflects the Commission's votes and provides background for the case, the basis for each of the decisions reached, the newly approved rates, and the effective dates of the new rates. After the Commission order is issued, parties will have an opportunity to ask the Commission to reconsider its decision on the issues.

Residential Rates and Charges Comparison

Rate Class	Annual Therm Usage	Current Monthly Rates		Proposed Monthly Rates	
		Customer Charge	Base Rate	Customer Charge	Base Rate
RS-1	0 - 99	$19.10	$0.35165	$26.50	$0.46319
RS-2	100 - 249	$24.41	$0.35165	$35.50	$0.46319
RS-3	250 - 1,999	$31.54	$0.35165	$35.50	$0.46319
RS-GHP	N/A	$31.54	$0.12395	$56.00	$0.12617
RSG (Residential Standby Generator)	N/A	$31.54	$0.28237	$41.00	$0.58931

Miscellaneous Service Charges	Current	Proposed
Residential Meter Turn On	$78.00 ($34.00 per additional meter)	$94.00 ($36.00 per additional meter)
Residential Meter Reconnect	$104.00 ($33.00 per additional meter)	$100.00 ($33.00 per additional meter)
Account Opening	$33.00	$31.00
Temporary Turn-off Charge	$33.00 per meter	$33.00 per meter
Failed Trip Charge	$25.00	$31.00
Trip Charge/Premise Collection	$29.00	$25.00

If approved, the proposed rates and service charges would be effective in January 2026.

The rates do not reflect the Purchased Gas Adjustment, which is passed through from gas and major pipeline suppliers and can fluctuate monthly based on the price of natural gas.
Rate schedules are subject to gross receipts taxes, city and state taxes and franchise fees, where applicable.

Base rates are part of the Customer Charge and Distribution Charge line items on customer bills. The Distribution Charge is a grouping of several costs, including the base rate, a charge for energy conservation programs, legacy pipeline replacement and other costs.

ISLV	> 50,000,000	$3,110.82	$0.01354	$4,024.00	$0.01751

Miscellaneous Service Charges	Current	Proposed
Commercial Meter Turn On	$107.00 ($46.00 per additional meter)	$121.00 ($54.00 per additional meter)
Commercial Meter Reconnect	$114.00 ($42.00 per additional meter)	$115.00 ($43.00 per additional meter)
Account Opening	$33.00	$31.00
Temporary Turn-off Charge	$33.00 per meter	$33.00 per meter
Failed Trip Charge	$25.00	$31.00
Trip Charge/Premise Collection	$29.00	$25.00

If approved, the proposed rates and service charges would be effective in January 2026.

The rates do not reflect your cost for natural gas. Depending on your usage, you either purchase your gas through a third-party supplier or use the Purchased Gas Adjustment, which is passed through from gas and major pipeline suppliers and can fluctuate monthly based on the price of natural gas.

Rate schedules are subject to gross receipts taxes, city and state taxes and franchise fees, where applicable.

Base rates are part of the Customer Charge and Distribution Charge line items on customer bills. The Distribution Charge is a grouping of several costs, including the base rate, a charge for energy conservation programs, legacy pipeline replacement and other costs.

Rate schedules are subject to gross receipts taxes, city and state taxes and franchise fees, where applicable.

Base rates are part of the Customer Charge and Distribution Charge line items on customer bills. The Distribution Charge is a grouping of several costs, including the base rate, a charge for energy conservation programs, legacy pipeline replacement and other costs.

Business Rates Comparison Chart Subsequent Year Adjustment

Rate Class	Annual Therm Usage	Current Monthly Rates		Proposed Monthly Rates	
		Customer Charge	Base Rate	Customer Charge	Base Rate
SGS	0 - 1,999	$63.00	$0.50314	$66.72	$0.53284
GS-1	2,000 - 9,999	$81.00	$0.45657	$81.00	$0.45657
GS-2	10,000 - 49,999	$151.00	$0.43590	$155.33	$0.44840
GS-3	50,000 - 249,999	$615.00	$0.38678	$636.70	$0.40043
GS-4	250,000 - 499,999	$1,272.00	$0.35146	$1,357.70	$0.37514
GS-5	> 500,000	$2,805.00	$0.23898	$2,993.99	$0.25509
CS-GHP	N/A	$64.00	$0.26394	$64.00	$0.26394
CSG (Commercial Standby Generator)	N/A	$70.00	$0.38361	$74.72	$0.40937
Wholesale	N/A	$888.00	$0.29347	$947.83	$0.31325
Commercial Street Lighting	N/A	$0.00	$0.42612	$0.00	$0.42612
SIS	1,000,000 - 3,999,999	$3,259.00	$0.13451	$3,478.58	$0.14357
IS	4,000,000 - 49,999,999	$3,652.00	$0.06751	$3,874.36	$0.07162
ISLV	> 50,000,000	$4,024.00	$0.01751	$4,269.01	$0.01858

Miscellaneous Service Charges	Proposed 2026	Proposed 2027
Commercial Meter Turn On	$121.00 ($54.00 per additional meter)	$121.00 ($54.00 per additional meter)
Commercial Meter Reconnect	$115.00 ($43.00 per additional meter)	$115.00 ($43.00 per additional meter)
Account Opening	$31.00	$31.00
Temporary Turn-off Charge	$33.00 per meter	$33.00 per meter
Failed Trip Charge	$31.00	$31.00
Trip Charge/Premise Collection	$25.00	$25.00

If approved, the proposed rates and service charges would be effective in January 2027.

The rates do not reflect your cost for natural gas. Depending on your usage, you either purchase your gas through a third-party supplier or use the Purchased Gas Adjustment, which is passed through from gas and major pipeline suppliers and can fluctuate monthly based on the price of natural gas.

Rate schedules are subject to gross receipts taxes, city and state taxes and franchise fees, where applicable.

Base rates are part of the Customer Charge and Distribution Charge line items on customer bills. The Distribution Charge is a grouping of several costs, including the base rate, a charge for energy conservation programs, legacy pipeline replacement and other costs.

EXHIBIT 7 - Revised Synopsis Notification

From: REGDEPT
To: public@co.palm-beach.fl.us
Cc: Abreu Jr, Sergio
Subject: Revised - Availability of Synopsis of Peoples Gas System's Rate Request
Date: Tuesday, June 10, 2025 3:11:44 PM

Good afternoon,

On March 31, 2025, Peoples Gas System Inc. filed a petition (Docket No. 20250029-GU) with the Florida Public Service Commission requesting a future increase in base rates.

In May, the company provided you with a synopsis of the request as required by Rule 25-22.0406 of the Florida Administrative Code. However, revisions have been made on pages 15 and 17 to enhance clarity, and the company is re-issuing the synopsis. Copies of the filing, including this synopsis, are available at **PeoplesGas.com/Filing** and at **https://www.psc.state.fl.us/clerks-office-dockets-level2?DocketNo=20250029**.

Should you have any questions, please do not hesitate to contact me.

Thank you and best regards,

Sergio Abreu, Jr.

I. SUMMARY OF RATE CASE

On March 31, 2025, Peoples Gas System, Inc. ("Peoples" or the "company") petitioned the Florida Public Service Commission ("Commission" or "PSC") for an increase in its permanent base rates and charges.

Under Florida law, the Commission regulates rates, miscellaneous service charges, and services provided by Florida investor-owned utilities. The Commission assigned Docket No. 20250029-GU to the case.

Peoples filed its test year letter on January 30, 2025, advising that, based on a review of the company's projected 2025 and 2026 financial performance, it must seek an increase in base rates to continue to meet the natural gas needs of existing and new customers, and continue to provide safe, reliable, and high-quality customer service.

Peoples' last rate case was filed in April 2023, with a final order issued in December 2023. In the two years since Peoples' last rate case, many factors have contributed to the necessity for the company to now seek rate relief, including (1) growth in rate base as the company keeps up with growing customer demand; (2) higher depreciation and property tax expense associated with rate base growth; (3) increasing costs associated with safely operating the company's system and complying with federal safety and security requirements; (4) higher prices in the costs of labor, contractors, materials, insurance, and healthcare benefits; and (5) modifications in Rate Design and Cost-of-Service.

Peoples has requested an increase of $103,591,089 in base revenues, which includes approximately $6.7 million of 2026 revenue requirements related to moving approximately $53.4 million of net Cast Iron/Bare Steel Replacement Rider investments made through December 31, 2025, into rate base. The result is a net revenue increase of $96,857,794. This proposed increase would be effective with the first billing cycle in January 2026. To mitigate the need for an additional rate relief request to be filed in 2026, the company seeks a subsequent year base rate adjustment of approximately $26.7 million effective with the first billing cycle for January 2027.

Peoples also proposes closing its RS-1 billing class to new customers and merging its RS-2 and RS-3 billing classes into one billing class.

The petition and direct testimony of Peoples' witnesses provide a more complete description of Peoples' request. The detailed data supporting the request are contained in the Minimum Filing Requirement Schedules ("MFRs"), all of which were submitted to the Commission in the proceeding. An Executive Summary of the case is included in the A Schedules of the MFRs and in Exhibit A to this synopsis. A bill comparison showing the current monthly rates and the proposed monthly rates is contained in Exhibit B.

A copy of Peoples' entire rate request filing with the Commission, including a complete set of MFRs, is available for inspection at www.peoplesgas.com/rates/our-rate-request.

II. COMPARISON OF THE PRESENT AND PROPOSED RATES FOR CUSTOMER RATE CLASSES

Under Peoples' proposal, customer classes will receive bill increases when the proposed new rates are put into effect on and after the first cycle billing periods in January 2026 and January 2027.

Based on the current rates and projections for fuel and the other clauses, Peoples' typical monthly residential bill (RS-2) under its proposed rates for 14 therms will increase to approximately $60.00 for about a 27 percent increase for 2026 and approximately $62.00 or about a 3.0 percent increase for 2027.

The current bills are calculated using the purchased gas adjustment cap rate for fuel and the current rates for the other clause charges and base rate charges. The proposed bills are also calculated using the purchased gas adjustment cap rate for fuel and current rates for other clause charges and adjusted for the proposed base rate changes.

Attached to this synopsis as Exhibit B are the current and proposed residential and commercial rates.

MAJOR RATE CASE ISSUES
At the start of a general base rate case, it is not possible to anticipate all the issues that may arise, but potential major revenue requirement issues involved in the case could include:

1. Are the company's test year and sales forecasts reasonable?
2. What should be the value of the company's test year investment in rate base?
3. What should be the company's test year operating revenues?
4. What should be the company's test year operating expenses?
5. What should be the company's test year overall rate of return?
6. What should be the company's test year allowed rate of return on equity?
7. What will be the company's test year revenue deficiency?
8. What is the appropriate cost-of-service methodology to use in designing rates?
9. What will be the appropriate rate levels for each customer class of service?
10. What will be the appropriate charge for each miscellaneous service?
11. Should the Commission approve the proposed subsequent year adjustment of $26.7 million effective with the first billing cycle for January 2027?

The specific issues in the case will be identified in a prehearing order issued prior to the hearing.

III. DESCRIPTION OF THE RATE CASE PROCESS

All public utilities, as defined in Section 366.02, Florida Statutes, must petition the Commission to increase their rates to retail customers. After filing the request, the Commission has eight months to conduct the case and twelve months to take final action in the case. The filing to request a base rate increase consists of the petition, direct testimony, and exhibits from the company witnesses and the MFRs, which are an extensive set of documents containing detailed data in support of the rate increase, including figures about a utility's costs, investment, and operations for the specified test year. The information is distributed to the Commissioners, the Public Service Commission staff, the Office of the Public Counsel ("Public Counsel"), and other parties who express interest or intervene in the case.

After a utility files a rate case, the discovery process begins. During the process, the utility responds to requests for information, known as interrogatories, and requests to produce documents from the Commission staff and the parties, including intervenors, in the case. The Commission staff performs a field audit of the company's filed data to ensure compliance with Commission rules and the accuracy of the information provided. Formal depositions (interviews) with company witnesses may also be conducted to gather information and better identify issues.

Intervenors in the case often present their witnesses, testimony, and exhibits in response to the company's filing. They use the company's initial filing materials and discovery responses as a basis for their positions in the case. The parties, their witnesses, testimony, and exhibits are also subject to discovery. The company will then have the opportunity to present rebuttal testimony and exhibits to any intervenors who file testimony.

Toward the end of the discovery process and just before the technical hearing commences, the company, staff, and intervenors prepare issue lists and preliminary positions for the case. These lists of issues are then combined and narrowed in a Prehearing Order to help the Commission focus on the important facets of the case during the hearing.

The first hearings in a rate case – called "service hearings" – generally commence a few months after filing and are scheduled by the Commission. Service hearings allow customers to provide testimony on the utility's rate request and its quality of service. The Commission takes these views into account when ruling on the case. Customers may register to speak at the virtual service hearings in one of the following ways: (1) register using the PSC's online registration form, which will be available at www.FloridaPSC.com, under the "Hot Topics" heading, (2) Call the PSC (850) 413-7080, or (3) email speakersignup@psc.state.fl.us Online registration for the virtual service hearing will open on June 30, 2025, at 9:00 a.m. and close on July 10, 2025, at noon. One day prior to the virtual service hearing, customers will be emailed further instructions on how to participate. Customers who wish to speak at the in-person service hearings may register upon arrival at the venue. Online registration is not available for in-person service hearings. Please note that the order in which customers speak is based upon the order in which they sign up. If you have questions about the sign-up process, please call (850) 413-7080.

The Commission has scheduled the following service hearings in this case:

<table>
<tr><td colspan="2">Virtual*
July 14, 2025 at 1:00 p.m.
Betty Easley Conference Center
Room 148
4075 Esplanade Way
Tallahassee, FL 32399</td></tr>

</table>

*Spanish Interpreter Available

The service hearing dates and times will be published in newspapers of general circulation in the Company's service areas and will also be available on the Company's website at www.peoplesgas.com/rates.

The Office of Public Counsel has intervened in this docket and will be present at the service hearings to represent the public. Public Counsel may be contacted prior to the hearing at 111 West Madison Street, Suite 812, Claude Pepper Building, Tallahassee, Florida 32399-1400, or by phone at (800) 342-0222.

The next hearing in a rate case is a technical hearing. At this hearing, the legal "record" is further established for deciding the case through direct, rebuttal, and cross-examination testimony, and the introduction of exhibits and other relevant evidence. The technical hearing in this case will be held on September 8-11, 2025, at the Betty Easley Conference Center, Room 148, located at 4075 Esplanade Way in Tallahassee, Florida.

After the technical hearing, the parties file legal briefs summarizing their positions. The Commission staff reviews the briefs and the record produced at the hearing and provides a written staff recommendation to the Commission that addresses each issue identified in the case.

The Commission holds a Special Agenda Conference and votes on the total amount of costs to be recovered annually through customer rates and service charges (revenue requirements); a Commission vote on the rates will be made on a subsequent date. After the votes, Commission attorneys prepare a final order that reflects the Commission's votes and provides background for the case, the basis for each of the decisions reached, the newly approved rates, and the effective dates of the new rates. After the Commission order is issued, parties will have an opportunity to ask the Commission to reconsider its decision on the issues.

COMPARISON OF PROPOSED MONTHLY RATES

FPSC EXH NO. 65
ADMITTED

PEOPLES GAS SYSTEM, INC.
DOCKET NO. 20250029-GU
EXHIBIT NO. LB-2
WITNESS: BUZARD
DOCUMENT NO. 1
PAGE 62 OF 109
FILED: 07/28/2025
REVISED: 06/06/2025

Residential Rates and Charges Comparison

Rate Class	Current Annual Therm Usage	Current Monthly Rates Customer Charge	Current Monthly Rates Base Rate	Proposed Annual Therm Usage	Proposed Monthly Rates Customer Charge	Proposed Monthly Rates Base Rate
RS-1	0 - 99	$19.10	$0.35165	0-99*	$26.50	$0.46319
RS-2	100 - 249	$24.41	$0.35165	0-1,999*	$35.50	$0.46319
RS-3	250 - 1,999	$31.54	$0.35165	0-1,999*	$35.50	$0.46319
RS-GHP	N/A	$31.54	$0.12395	N/A	$56.00	$0.12617
RSG (Residential Standby Generator)	N/A	$31.54	$0.28237	N/A	$41.00	$0.58931

**The company is proposing to close RS-1 rate class to new customers, and combine RS-2 and RS-3 into one rate class to usage up to 1,999 therms.*

Miscellaneous Service Charges	Current	Proposed
Residential Meter Turn On	$78.00 ($34.00 per additional meter)	$94.00 ($36.00 per additional meter)
Residential Meter Reconnect	$104.00 ($33.00 per additional meter)	$100.00 ($33.00 per additional meter)
Account Opening	$33.00	$31.00
Temporary Turn-off Charge	$33.00 per meter	$33.00 per meter
Failed Trip Charge	$25.00	$31.00
Trip Charge/Premise Collection	$29.00	$25.00

If approved, the proposed rates and service charges would be effective in January 2026.

The rates do not reflect the Purchased Gas Adjustment, which is passed through from gas and major pipeline suppliers and can fluctuate monthly based on the price of natural gas.
Rate schedules are subject to gross receipts taxes, city and state taxes and franchise fees, where applicable.

Base rates are part of the Customer Charge and Distribution Charge line items on customer bills. The Distribution Charge is a grouping of several costs, including the base rate, a charge for energy conservation programs, legacy pipeline replacement and other costs.

Trip Charge/Premise Collection	$29.00	$25.00

If approved, the proposed rates and service charges would be effective in January 2026.

The rates do not reflect your cost for natural gas. Depending on your usage, you either purchase your gas through a third-party supplier or use the Purchased Gas Adjustment, which is passed through from gas and major pipeline suppliers and can fluctuate monthly based on the price of natural gas.

Rate schedules are subject to gross receipts taxes, city and state taxes and franchise fees, where applicable.

Base rates are part of the Customer Charge and Distribution Charge line items on customer bills. The Distribution Charge is a grouping of several costs, including the base rate, a charge for energy conservation programs, legacy pipeline replacement and other costs.

BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION

In re: Petition for Rate Increase by Peoples Gas System, Inc.	DOCKET NO. 20250029-GU

AFFIDAVIT OF REBECCA WASHINGTON

1. I, Rebecca Washington, Director, Customer Experience Revenue Operations for Tampa Electric Company have personal knowledge of the matters stated in this affidavit.

2. In my role as Director, Customer Experience Revenue Operations, I work on behalf of Tampa Electric Company and Peoples Gas System, Inc. ("Peoples") in a shared service capacity.

3. Peoples provided customer notices, approved by Commission Staff on May 5, 2025. The customer notice contains the following:

- A statement that Peoples has applied for a rate increase and the general reasons for the request;
- The locations at which copies of the MFRs and synopsis are available, including a link to the company's website;
- The time schedule established for the case, including the dates, times, and locations of the service hearings and technical hearings;
- A comparison of current rates and service charges and the proposed new rates and service charges;
- A statement that written comments can be sent to the Office of Commission Clerk; and
- A statement that comments regarding service may be made to the Commission's Office of Consumer Assistance and Outreach.

4. The notice also provided for the date, time, and location of the virtual service hearings and the purpose of those hearings.

5. The notice included a statement that any customer comments regarding Peoples' service or proposed rate increase should be addressed to the Office of Commission Clerk, Florida Public Service Commission, 2540 Shumard Oak Boulevard, Tallahassee, FL 32399-0850, and that such comments identifying 20250029-GU as the docket number assigned to this proceeding.

6. At the beginning of June, Peoples revised the notice to enhance clarity of the rate request. Commission Staff approved the revised customer notice on June 6, 2025. At the time of the revision, Peoples had already begun sending out customer notices to customers on cycles 1 – 5. Accordingly, customers on cycles 1 - 5 received a second customer notification that contained the revised customer notice and the rest of the billing cycles received the revised customer notification.

7. The notice was delivered to customers on June billing cycles 1 - 23 beginning on June 3 and ending on July 1 by the customer's preference for paper or paperless bills.

All notices were sent on or before July 4, 2025. Peoples' customers accordingly received these notices no less than 10 days and no more than 45 days before the first service hearing on July 14, 2025.

8. A copy of Peoples' original bill onsert notices is included as **Exhibit 1**.

9. A copy of Peoples' revised bill onsert notices is included as **Exhibit 2**.

10. A copy of the revised notices that paperless customers received that directed them to the electronic versions of the revised bill onserts is included as **Exhibit 3**.

11. The newspaper notice published on July 2, 2025, and the accompanying affidavits from the newspapers across Peoples' service area are included as **Exhibit 4**.

12. Under penalty of perjury, I declare that I have read the foregoing affidavit and that the facts stated in it are true to the best of information and belief.

Rebecca Washington

EXHIBIT 1 - Rate Case Customer Notifications

Residential Version

Notice of Rate Request and Customer Service Hearings

On March 31, 2025, Peoples Gas System filed a petition (Docket 20250029-GU) with the Florida Public Service Commission (PSC) requesting a future increase in base rates. The increase will vary by customer rate class and, if approved as filed, would likely take effect in January 2026.

Floridians depend on natural gas. As Florida grows, Peoples Gas must continue to make investments in our team, our tools, and the maintenance and expansion of our system to serve customers and communities across the state, particularly as energy resilience becomes increasingly important.

The decision to raise rates is not an easy one for us. There is never a good time for it, and we know increased prices are affecting everyone.

Since January 2023, the last time we requested to raise base rates, we have: expanded our network by adding approximately 1,260 miles of main and service lines to serve demand; connected thousands of customers to ways to save energy and money through our free energy audits and conservation programs; invested in the safety of the public and our system; and continued to be among the leading utilities in the nation for customer satisfaction and brand trust.

We take the responsibility to deliver safe, dependable and affordable energy to our customers seriously, and that includes managing our business carefully while meeting their evolving expectations.

Hearings

The PSC has scheduled the following virtual and in-person public hearings to provide customers an opportunity to express their views on quality of service and the impact of the requested rate increase:

Virtual Hearing:
Monday, July 14, 2025 at 1 p.m.

In-Person Hearings:
Wednesday, July 16, 2025 at 10 a.m.
Anne Kolb Nature Center - Mangrove Hall
Hollywood North Beach Park
751 Sheridan Street
Hollywood, FL 33019

Thursday, July 17, 2025 at 2 p.m.
Valencia Community College
Health Science Building - Room 105
1800 South Kirkman Road
Orlando, FL 32811

A Spanish interpreter will be available during the virtual hearing on July 14 and the in-person hearing on July 16.

Customers may register to speak at the virtual service hearings in one of the following ways:
(1) Use the PSC's online registration form, which will be available at **www.FloridaPSC.com**, under the "Hot Topics" heading.
(2) Call the PSC at **(850) 413-7080** or
(3) Email **speakersignup@psc.state.fl.us.**

Online registration for the virtual service hearings will open on June 30, 2025, at 9:00 a.m., and close at noon on July 10, 2025.

One day prior to the virtual service hearings, customers who signed up to speak will be provided further instructions from PSC staff on how to participate.

Customers who wish to speak at the in-person service hearings may register upon arrival at the venue. There will be no online signups for the in-person service hearings.

All persons who wish to comment, either virtually or in-person, are urged to appear promptly at the scheduled times because the service hearings may be adjourned early if no customers are present to testify or when those present have testified.

Please note that the order in which customers will speak is based on the order in which they register. If you have questions about the sign-up process, please call **(850) 413-7080**.

On Sept. 8 - 11, 2025, the PSC will conduct a technical hearing to allow Peoples Gas and other parties involved in the proceeding to present testimony and relevant evidence regarding the rate request.

To watch either the customer service hearings or the technical hearing live, visit **www.FloridaPSC.com** and click on the "Watch Live" link. If you do not have access to the internet, you may call **(850) 413-7999** to listen to the hearings. If you are hearing or speech impaired, you may contact the PSC by using the Florida Relay Service at **(800) 955-8771** (TDD).

Resources

An overview of the rate request and copies of the complete filing are available online at **www.FloridaPSC.com** and **www.PeoplesGas.com/rates.**

If you would like to share your comments with the PSC regarding the proposed changes in rates, please write to the PSC at the following address and reference Docket No. 20250029-GU:
Office of the Commission Clerk
2540 Shumard Oak Boulevard
Tallahassee, FL 32399-0850

To submit comments regarding your utility service, please contact the PSC's Office of Consumer Assistance and Outreach by calling **1-800-342-3552.**

At any time during this process, you may contact the Office of Public Counsel (OPC). The OPC was established by the Florida Legislature to represent you and the other utility consumers before the PSC.

The Public Counsel is independent from the PSC and can be reached at **1-800-342-0222** or **www.FloridaOPC.gov.**

Please view the tables on the following page to understand how the proposed changes in rates and charges may impact your bill.
Visit **www.PeoplesGas.com/rates** for more information.

TECO PEOPLES GAS

PeoplesGas.com/rates

Peoples Gas provided you the following information with your June 2025 bill.
No updates or revisions were made to this information.

Notice of Rate Request and Customer Service Hearings

On March 31, 2025, Peoples Gas System filed a petition (Docket 20250029-GU) with the Florida Public Service Commission (PSC) requesting a future increase in base rates. The increase will vary by customer rate class and, if approved as filed, would likely take effect in January 2026.

Floridians depend on natural gas. As Florida grows, Peoples Gas must continue to make investments in our team, our tools, and the maintenance and expansion of our system to serve customers and communities across the state, particularly as energy resilience becomes increasingly important.

The decision to raise rates is not an easy one for us. There is never a good time for it, and we know increased prices are affecting everyone.

Since January 2023, the last time we requested to raise base rates, we have: expanded our network by adding approximately 1,260 miles of main and service lines to serve demand; connected thousands of customers to ways to save energy and money through our free energy audits and conservation programs; invested in the safety of the public and our system; and continued to be among the leading utilities in the nation for customer satisfaction and brand trust.

We take the responsibility to deliver safe, dependable and affordable energy to our customers seriously, and that includes managing our business carefully while meeting their evolving expectations.

Hearings

The PSC has scheduled the following virtual and in-person public hearings to provide customers an opportunity to express their views on quality of service and the impact of the requested rate increase:

Virtual Hearing:
Monday, July 14, 2025 at 1 p.m.

In-Person Hearings:
Wednesday, July 16, 2025 at 10 a.m.
Anne Kolb Nature Center - Mangrove Hall
Hollywood North Beach Park
751 Sheridan Street
Hollywood, FL 33019

Thursday, July 17, 2025 at 2 p.m.
Valencia Community College
Health Science Building - Room 105
1800 South Kirkman Road
Orlando, FL 32811

A Spanish interpreter will be available during the virtual hearing on July 14 and the in-person hearing on July 16.

Customers may register to speak at the virtual service hearing in one of the following ways:
(1) Use the PSC's online registration form, which will be available at www.FloridaPSC.com, under the "Hot Topics" heading,
(2) Call the PSC at (850) 413-7080 or
(3) Email speakersignup@psc.state.fl.us.

Online registration for the virtual service hearing will open on June 30, 2025, at 9:00 a.m., and close at noon on July 10, 2025.

One day prior to the virtual service hearing, customers who signed up to speak will be provided further instructions from PSC staff on how to participate.

Customers who wish to speak at the in-person service hearings may register upon arrival at the venue. There will be no online signups for the in-person service hearings.

All persons who wish to comment, either virtually or in-person, are urged to appear promptly at the scheduled times because the service hearings may be adjourned early if no customers are present to testify or when those present have testified.

Please note that the order in which customers will speak is based on the order in which they register. If you have questions about the sign-up process, please call (850) 413-7080.

On Sept. 8 - 11, 2025, the PSC will conduct a technical hearing to allow Peoples Gas and other parties involved in the proceeding to present testimony and relevant evidence regarding the rate request.

To watch either the customer service hearings or the technical hearing live, visit www.FloridaPSC.com and click on the "Watch Live" link. If you do not have access to the internet, you may call (850) 413-7999 to listen to the hearings. If you are hearing or speech impaired, you may contact the PSC by using the Florida Relay Service at (800) 955-8771 (TDD).

Resources

An overview of the rate request and copies of the complete filing are available online at www.FloridaPSC.com and www.PeoplesGas.com/rates.

If you would like to share your comments with the PSC regarding the proposed changes in rates, please write to the PSC at the following address and reference Docket No. 20250029-GU:
Office of the Commission Clerk
2540 Shumard Oak Boulevard
Tallahassee, FL 32399-0850

To submit comments regarding your utility service, please contact the PSC's Office of Consumer Assistance and Outreach by calling 1-800-342-3552.

At any time during this process, you may contact the Office of Public Counsel (OPC). The OPC was established by the Florida Legislature to represent you and the other utility consumers before the PSC.

The Public Counsel is independent from the PSC and can be reached at 1-800-342-0222 or www.FloridaOPC.gov.

Please view the tables on the following page to understand how the proposed changes in rates and charges may impact your bill.
Visit www.PeoplesGas.com/rates for more information.

TECO PEOPLES GAS

EXHIBIT 3 - Revised Paperless Customer Notification

TECO PEOPLES GAS

Dear Peoples Gas Customer,

Peoples Gas provided you information with your June 2025 bill about our rate request.

We revised the table at the top of page one to offer more clarity about our proposal to combine the RS-2 and RS-3 rate classes and to close the RS-1 rate class to new customers.

No updates or revisions were made to the information about proposed or current rates and charges or to the information shared on page two.

Please visit PeoplesGas.com/rates for more information.

Thank you,
Peoples Gas

Florida Public Service Commission
Notice of Customer Service Hearings
Docket No. 20250029-GU

NOTICE is hereby given that Peoples Gas System, Inc. has filed a petition with the Florida Public Service Commission to increase its rates and charges. The Florida Public Service Commission will hold virtual and in-person public hearings in this docket. The customer service hearings will commence at the dates, times and locations shown below and will continue until all witnesses have been heard.

Virtual Hearing: Monday, July 14, 2025 at 1 p.m.

In-Person Hearings:

Wednesday, July 16, 2025 at 10 a.m.
Anne Kolb Nature Center - Mangrove Hall
Hollywood North Beach Park
751 Sheridan Street
Hollywood, FL 33019

Thursday, July 17, 2025 at 2 p.m.
Valencia Community College
Health Science Building - Room 105
1800 South Kirkman Road
Orlando, FL 32811

A Spanish interpreter will be available during the virtual hearing on July 14 and the in-person hearing on July 16.

Customers may register to speak at the virtual service hearing in one of the following ways:

(1) Use the PSC's online registration form, which will be available at **www.FloridaPSC.com**, under the "Hot Topics" heading.
(2) Call the PSC at **(850) 413-7080** or
(3) Email **speakersignup@psc.state.fl.us**.

Online registration for the virtual service hearing will open on June 30, 2025, at 9:00 a.m., and close at noon on July 10, 2025. One day prior to the virtual service hearing, customers who signed up to speak will be provided further instructions from PSC staff on how to participate.

Customers who wish to speak at the in-person service hearings may register upon arrival at the venue. There will be no online signups for the in-person service hearings.

All persons who wish to comment, either virtually or in-person, are urged to appear promptly at the scheduled times because the service hearings may be adjourned early if no customers are present to testify or when those present have testified.

Please note that the order in which customers will speak is based on the order in which they register. If you have questions about the sign-up process, please call **(850) 413-7080**.

On Sept. 8 - 11, 2025, the PSC will conduct a technical hearing to allow Peoples Gas and other parties involved in the proceeding to present testimony and relevant evidence regarding the rate request.

To watch customer service hearings live, visit **www.FloridaPSC.com** and click on the "Watch Live" link. If you do not have access to the internet, you may call **(850) 413-7999** to listen to the hearings. If you are hearing or speech impaired, you may contact the PSC by using the Florida Relay Service at **(800) 955-8771** (TDD).

Purpose and Procedure
The purpose of these customer service hearings shall be to permit members of the public, who are not parties to the proceeding, to give testimony regarding Peoples Gas System's quality of service and its requested increase in its base rates and miscellaneous service charges. The company will present a brief summary of its case and then members of the public may present testimony by telephone.

Public Counsel
The Public Counsel has intervened in this docket to represent the customers of Peoples Gas System and will be present at the hearings. The Public Counsel representative may be contacted prior to the hearings at **www.FloridaOPC.gov** or by phone at **1-800-342-0222**.

An overview of the rate request and copies of the complete filing are available online at **www.FloridaPSC.com** and **www.PeoplesGas.com/rates**.

Written comments regarding Peoples Gas System's request to increase base rates and service charges may be sent to the Commission at the following address:

Comisión de Servicios Públicos de Florida
Aviso de Audiencias de Servicio a Clientes
Caso N.° 20250029-GU

Por la presente se NOTIFICA que Peoples Gas System, Inc. ha presentado una petición ante la Comisión de Servicios Públicos de Florida para aumentar sus tarifas y cargos. La Comisión de Servicios Públicos de Florida realizará audiencias públicas virtuales y presenciales en este expediente. Las audiencias de atención al cliente comenzarán en las fechas, horas y lugares que se muestran a continuación y continuarán hasta que se haya escuchado a todos los testigos.

Audiencia virtual: Lunes 14 de julio de 2025 a las 1 p.m.

Audiencias presenciales:

Miércoles 16 de julio de 2025 a las 10 a.m
Anne Kolb Nature Center - Mangrove Hall
Hollywood North Beach Park
751 Sheridan Street
Hollywood, FL 33019

Jueves 17 de julio de 2025 a las 2 p.m.
Valencia Community College
Health Science Building - Room 105
1800 South Kirkman Road
Orlando, FL 32811

Habrá un intérprete de español disponible durante la audiencia virtual del 14 de julio y la audiencia en persona del 16 de julio.

Los clientes pueden registrarse para hablar en la audiencia virtual del servicio de una de las siguientes maneras:

(1) Utilizar el formulario de inscripción en línea de la PSC, que estará disponible en **www.FloridaPSC.com**, bajo el epígrafe "Hot Topics,"
(2) Llame al PSC al **(850) 413-7080** o
(3) Envíe un correo electrónico a **speakersignup@psc.state.fl.us**.

La inscripción en línea para la audiencia de servicio virtual se abrirá el 30 de junio de 2025, a las 9:00 a.m., y se cerrará al mediodía del 10 de julio de 2025. Un día antes de la audiencia de servicio virtual, los clientes que se inscribieron para hablar recibirán instrucciones adicionales del personal de la PSC sobre cómo participar.

Los clientes que deseen intervenir en las audiencias de servicio presenciales podrán inscribirse a su llegada al lugar de la audiencia. No habrá inscripciones en línea para las audiencias de servicio presenciales.

Se insta a todas las personas que deseen hacer comentarios, ya sea virtualmente o en persona, a que se presenten puntualmente a las horas programadas, ya que las audiencias de servicio pueden aplazarse anticipadamente si no hay clientes presentes para testificar o cuando los presentes hayan testificado. Tenga en cuenta que el orden en que intervendrán los clientes se basa en el orden en que se inscriban. Si tiene preguntas sobre el proceso de inscripción, llame al **(850) 413-7080**.

Del 8 al 11 de septiembre de 2025, la PSC llevará a cabo una audiencia técnica para permitir que Peoples Gas y otras partes involucradas en el procedimiento presenten testimonios y pruebas pertinentes en relación con la solicitud de tarifas.

Para ver las audiencias de servicio al cliente en directo, visite **www.FloridaPSC.com** y haga clic en el enlace "Watch Live" (Ver en vivo). Quienes no tengan acceso a Internet, pueden llamar al **(850) 413-7999** para escuchar las audiencias. Las personas con problemas de audición o del habla pueden comunicarse con la Comisión utilizando el Servicio de retransmisión de Florida llamando al **1-800-955-8771** (TDD).

Propósito y procedimiento

El propósito de estas audiencias de servicio al clientes será permitir que miembros del público, que no sean partes del procedimiento, den testimonio sobre la calidad de servicio de Peoples Gas System y el aumento solicitado en sus tarifas base y cargos por servicios misceláneos. La compañía presentará un breve resumen de su caso y luego los miembros del público podrán presentar su testimonio por teléfono.

Asesor Público

El Asesor Público ha participado en este caso para representar a los clientes de Peoples Gas System y estará presente en las audiencias. El representante del Asesor Público puede ser contactado antes de las audiencias en **www.FloridaOPC.gov** o por teléfono al **1-800-342-0222**.

Una descripción general de la solicitud de tarifas y copias de la presentación completa están disponibles en línea en **www.FloridaPSC.com** y **www.PeoplesGas.com/rates**.

Los comentarios por escrito sobre la solicitud de Peoples Gas System de aumentar las tarifas base y los cargos por servicios pueden enviarse a la Comisión a la siguiente dirección:

NOTICE OF 30-DAY COMMENT PERIOD AND PUBLIC HEARING FOR DRAFT 2025-2029 HUD CONSOLIDATED PLAN AND PROGRAM YEAR (PY) 2025 ANNUAL ACTION PLAN

As a recipient of federal funds through the U.S. Department of Housing and Urban Development (HUD), Seminole County is required to submit a Five-Year Consolidated Plan and Annual Action Plan. The plans guide how the county will allocate its Community Development Block Grant (CDBG), HOME Investment Partnerships Program (HOME), and Emergency Solutions Grant (ESG) funds and carry out housing and community development activities over a five-year period (2025-2029) and for the first program year (2025-2026). The objectives of the federal programs requiring a Consolidated Plan and Annual Action Plan are to provide decent housing, create a suitable living environment, and expand economic opportunities, primarily for very-low, low, and moderate-income persons.

The county invites residents, housing and homeless partners, service providers, business partners, and other stakeholders to provide comments on the draft 2025-2029 Consolidated Plan and draft PY 2025- 2026 Annual Action Plan during the 30-day period from Wednesday, July 2nd, 2025, through Friday, August 1st, 2025. Please submit written comments to Elvis Santana, Program Manager, via email to esantana@seminolecountyfl.gov.

Draft documents are available for review and comment at the Seminole County Government Community Services Department, 520 W. Lake Mary Blvd, Ste 100, Sanford, FL 32773. A digital copy is to be posted on the Community Services Webpage no later than July 7, 2025: https://www.seminolecountyfl.gov/departments-services/community-services

The Seminole County Board of County Commissioners will also hold a Public Hearing on Tuesday, July 22, 2025, at 9:30 am to obtain input and comments for the proposed activities in the draft 2025-2029 Consolidated Plan and draft PY 2025-2026 Annual Action Plan. The plans are intended to be adopted at this hearing. The public hearing will be held at the Seminole County Services Building, 1101 E. 1st Street, Sanford, FL 32771.

2025-2029 Consolidated Plan Estimated Available Funding	
CDBG (estimated 5-Year allocation)	$11,432,060
HOME (estimated 5-Year allocation)	$4,490,570
ESG (estimated 5-Year allocation)	$966,920
PY 2025-2026 Annual Action Plan Estimated Available Funding	
CDBG (PY25 annual allocation)	$2,292,412
HOME (PY25 annual allocation)	$898,114
ESG (PY25 annual allocation)	$193,384

Seminole County is committed to accessibility and ensuring that all visitors and residents, including individuals with disabilities, have equal access to our programs, services, and activities. PERSONS WITH DISABILITIES NEEDING ASSISTANCE SHOULD CONTACT THE HUMAN RESOURCES DEPARTMENT ADA COORDINATOR 48 HOURS IN ADVANCE OF THE CLOSE OF THE PUBLIC COMMENT PERIOD AT (407) 665- 7940. FOR HEARING IMPAIRED INDIVIDUALS, THE FLORIDA RELAY NUMBER IS 1-800-955-8771.

LIVE OAK LAKE COMMUNITY DEVELOPMENT DISTRICT

NOTICE OF PUBLIC HEARING TO CONSIDER THE ADOPTION OF THE FY 2026 BUDGET; NOTICE OF PUBLIC HEARING TO CONSIDER THE IMPOSITION OF OPERATIONS AND MAINTENANCE SPECIAL ASSESSMENTS, ADOPTION OF AN ASSESSMENT ROLL, AND THE LEVY, COLLECTION, AND ENFORCEMENT OF THE SAME; AND NOTICE OF REGULAR BOARD OF SUPERVISORS' MEETING.

The Board of Supervisors (**"Board"**) for the Live Oak Lake Community Development District (**"District"**) will hold the following public hearings and regular meeting:

DATE: July 17, 2025
TIME: 2:00 p.m.
LOCATION: Ramada by Wyndham Hotel & Water Park
2261 E Irlo Bronson Memorial Highway
Kissimmee, Florida 34744

The first public hearing is being held pursuant to Chapter 190, *Florida Statutes*, to receive public comment and objections on the District's proposed budget (**"Proposed Budget"**) for the fiscal year beginning October 1, 2025, and ending September 30, 2026 (**"FY 2026"**). The second public hearing is being held pursuant to Chapters 190, *Florida Statutes*, to consider the imposition of operations and maintenance special assessments (**"O&M Assessments"**) upon the lands located within the District to fund the Proposed Budget for FY 2026; to consider the adoption of an assessment roll; and to provide for the levy, collection, and enforcement of O&M Assessments. At the conclusion of the public hearings, the Board will, by resolution, adopt a budget and levy O&M Assessments as finally approved by the Board. A regular meeting of the District will also be held where the Board may consider any other District business that may properly come before it.

Description of Assessments

The District imposes O&M Assessments on benefitted property within the District for the purpose of funding the District's general administrative, operations, and maintenance budget. A description of the services to be funded by the O&M Assessments, and the properties to be improved and benefitted from the O&M Assessments, are all set forth in the Proposed Budget for FY 2026. A geographic depiction of the property potentially subject to the proposed O&M Assessments is identified in the map attached hereto. The District's resolution declaring the proposed O&M Assessments for FY 2026 is attached hereto pursuant to Chapter 170, *Florida Statutes*. The table below shows the schedule of the proposed O&M Assessments, which are subject to change at the hearing:

Land Use	Total # of Units *(Platted & Anticipated on Undeveloped Lands)*	EAU/ERU Factor	Proposed Annual O&M Assessment*
Duplex – 35'	504 Units	0.70	$378.37 Per Unit
Single Family – 50'	1,322 Units	1.00	$540.53 Per Unit
Single Family – 70'	161 Units	1.40	$756.74 Per Unit
Undeveloped Land	Initially allocated to anticipated units on same EAU/ERU basis as above; then, if applicable, between undeveloped tracts with the same landowner on an equal assessment per acre basis.		

**includes collection costs and early payment discounts*

NOTE: THE DISTRICT RESERVES ALL RIGHTS TO CHANGE THE LAND USES, NUMBER OF UNITS, EQUIVALENT ASSESSMENT OR RESIDENTIAL UNIT ("EAU/ERU") FACTORS, AND O&M ASSESSMENT AMOUNTS AT THE PUBLIC HEARING, WITHOUT FURTHER NOTICE.

The proposed O&M Assessments as stated include collection costs and/or early payment discounts imposed on assessments collected by the Osceola County (**"County"**) Tax Collect on the tax bill. Moreover, pursuant to Section 197.3632(4), *Florida Statutes*, the lien amount shall serve as the "maximum rate" authorized by law for O&M Assessments, such that no public hearing on O&M Assessments shall be held or notice provided in future years unless the O&M Assessments are proposed to be increased or another criterion within Section 197.3632(4), *Florida Statutes*, is met. Note, the O&M Assessments do not include debt service assessments previously levied by the District, if any.

For FY 2026, the District intends to have the County Tax Collector collect the O&M Assessments imposed on certain developed property and directly collect the O&M Assessments on the remaining benefitted property, if any, by sending out a bill prior to, or during November 2025. It is important to pay your O&M Assessment because failure to pay will cause a tax certificate to be issued against the property which may result in loss of title or, for direct billed O&M Assessments, may result in a foreclosure action which also may result in a loss of title. The District's decision to collect O&M Assessments on the County tax roll or by direct billing does not preclude the District from later electing to collect those or other assessments in a different manner at a future time.

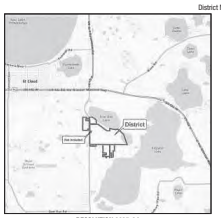
Additional Provisions

The public hearings and meeting are open to the public and will be conducted in accordance with the provisions of Florida law. A copy of the Proposed Budget, proposed assessment roll, and the agenda for the public hearings and meeting may be obtained at the offices of the District Manager, Governmental Management Services, LLC, 219 East Livingston Street, Orlando, Florida 32801 Ph: (407) 841-5524 (**"District Manager's Office"**), during normal business hours, or by visiting the District's website at https://liveoaklcdd.com. The public hearings and meeting may be continued in progress to a date, time certain, and place to be specified on the record at the public hearings or meeting. There may be occasions when staff or board members may participate by speaker telephone.

Any person requiring special accommodations at the public hearings or meeting because of a disability or physical impairment should contact the District Manager's Office at least forty-eight (48) hours prior to the public hearings and meeting. If you are hearing or speech impaired, please contact the Florida Relay Service by dialing 7-1-1, or 1-800-955-8771 (TTY) / 1-800-955-8770 (Voice), for aid in contacting the District Manager's Office.

Please note that all affected property owners have the right to appear at the public hearings and meeting and may also file written objections with the District Manager's Office within twenty days of publication of this notice. Each person who decides to appeal any decision made by the Board with respect to any matter considered at the public hearings or meeting is advised that person will need a record of proceedings and that, accordingly, the person may need to ensure that a verbatim record of the proceedings is made, including the testimony and evidence upon which such appeal is to be based.

District Manager



RESOLUTION 2025-04

[170 DECLARING RESOLUTION - FY 2026 O&M ASSESSMENTS]

A RESOLUTION OF THE BOARD OF SUPERVISORS OF THE LIVE OAK LAKE COMMUNITY DEVELOPMENT DISTRICT DECLARING SPECIAL ASSESSMENTS TO FUND THE PROPOSED BUDGET(S) FOR FY 2026 PURSUANT TO CHAPTERS 170, 190 AND 197, FLORIDA STATUTES; SETTING PUBLIC HEARING; ADDRESSING PUBLICATION; ADDRESSING SEVERABILITY; AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, for the fiscal year beginning October 1, 2025, and ending September 30, 2026 (**"FY 2026"**), the District Manager prepared and submitted to the Board of Supervisors ("**Board**") of the Live Oak Lake Community Development District ("**District**") prior to June 15, 2025, the proposed budget(s) attached hereto as **Exhibit A** ("**Proposed Budget**"); and

WHEREAS, it is in the best interest of the District to fund the administrative and operations services (together, "**Services**") set forth in the Proposed Budget by levy of special assessments pursuant to Chapters 170, 190, and 197, *Florida Statutes* ("**O&M Assessments**"), as set forth in the preliminary assessment roll included within the Proposed Budget; and

WHEREAS, the District hereby determines that benefits would accrue to the properties within the District, as outlined within the Proposed Budget, in an amount equal to or in excess of the O&M Assessments, and that such O&M Assessments would be fairly and reasonably allocated as set forth in the Proposed Budget; and

WHEREAS, the Board has considered the proposed O&M Assessments, and desires to set the required public hearing thereon.

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF SUPERVISORS OF THE LIVE OAK LAKE COMMUNITY DEVELOPMENT DISTRICT:

1. DECLARING O&M ASSESSMENTS. The current form of the Proposed Budget, attached hereto as **Exhibit A**, is hereby approved for use in proceedings to levy and impose the O&M Assessments. Pursuant to Chapters 170, 190, and 197, *Florida Statutes*, the O&M Assessments shall defray the cost of the Services in the total estimated amounts set forth in the Proposed Budget. The nature of, and plans and specifications for, the Services to be funded by the O&M Assessments are described in the Proposed Budget and in the reports (if any) of the District Engineer, all of which are on file and available for public inspection at the office of the District Manager, c/o **"District's Office,"** 219 East Livingston Street, Orlando, Florida 32801 (**"District Records Office"**). The O&M Assessments shall be levied within the District on all benefitted lots and lands, and shall be apportioned, all as described in the Proposed Budget and the preliminary assessment roll included thereto. The preliminary assessment roll is also on file and available for public inspection at the District Records Office. The O&M Assessments shall be paid in one or more installment(s) pursuant to a bill issued by the District at least thirty (30) days prior to the first due date, and pursuant to Chapter 170, *Florida Statutes*, or, alternatively, pursuant to the *Uniform Method* as set forth in Chapter 197, *Florida Statutes*.

2. SETTING A PUBLIC HEARING. Pursuant to Chapters 170, 190, and 197, *Florida Statutes*, a public hearing on the O&M Assessments is hereby declared and set for the following date, time, and location:

DATE: July 17, 2025
TIME: 2:00 P.M.
LOCATION: Ramada by Wyndham Hotel & Waterpark
2261 East Irlo Bronson Memorial Highway
Kissimmee, FL 34744

3. PUBLICATION OF NOTICE. Notice of the public hearing shall be published in the manner prescribed in Florida law. Additionally, the District shall cause this Resolution to be published once a week for a period of two (2) weeks in a newspaper of general circulation published in Osceola County.

4. SEVERABILITY. The invalidity or unenforceability of any one or more provisions of this Resolution shall not affect the validity or enforceability of the remaining portions of this Resolution, or any part thereof.

5. EFFECTIVE DATE. This Resolution shall take effect immediately upon adoption.

PASSED AND ADOPTED THIS 19th DAY OF JUNE, 2025.

Florida Public Service Commission Notice of Customer Service Hearings Docket No. 20250029-GU

NOTICE is hereby given that Peoples Gas System, Inc. has filed a petition with the Florida Public Service Commission to increase its rates and charges. The Florida Public Service Commission will hold virtual and in-person public hearings in this docket. The customer service hearings will commence at the dates, times and locations shown below and will continue until all witnesses have been heard.

Virtual Hearing: Monday, July 14, 2025 at 1 p.m.

In-Person Hearings:

Wednesday, July 16, 2025 at 10 a.m.
Anne Kolb Nature Center - Mangrove Hall
Hollywood North Beach Park
751 Sheridan Street
Hollywood, FL 33019

Thursday, July 17, 2025 at 2 p.m.
Valencia Community College
Health Science Building - Room 105
1800 South Kirkman Road
Orlando, FL 32811

A Spanish interpreter will be available during the virtual hearing on July 14 and the in-person hearing on July 16.

Customers may register to speak at the virtual service hearing in one of the following ways:

(1) Use the PSC's online registration form, which will be available at **www.FloridaPSC.com**, under the "Hot Topics" heading,
(2) Call the PSC at **(850) 413-7080** or
(3) Email **speakersignup@psc.state.fl.us**.

Online registration for the virtual service hearing will open on June 30, 2025, at 9:00 a.m., and close at noon on July 10, 2025. One day prior to the virtual service hearing, customers who signed up to speak will be provided further instructions from PSC staff on how to participate.

Customers who wish to speak at the in-person service hearings may register upon arrival at the venue. There will be no online signups for the in-person service hearings.

All persons who wish to comment, either virtually or in-person, are urged to appear promptly at the scheduled times because the service hearings may be adjourned early if no customers are present to testify or when those present have testified.

Please note that the order in which customers will speak is based on the order in which they register. If you have questions about the sign-up process, please call **(850) 413-7080**.

On Sept. 8 - 11, 2025, the PSC will conduct a technical hearing to allow Peoples Gas and other parties involved in the proceeding to present testimony and relevant evidence regarding the rate request.

To watch customer service hearings live, visit **www.FloridaPSC.com** and click on the "Watch Live" link. If you do not have access to the internet, you may call **(850) 413-7999** to listen to the hearings. If you are hearing or speech impaired, you may contact the PSC by using the Florida Relay Service at **(800) 955-8771** (TDD).

Purpose and Procedure

The purpose of these customer service hearings shall be to permit members of the public, who are not parties to the proceeding, to give testimony regarding Peoples Gas System's quality of service and its requested increase in its base rates and miscellaneous service charges. The company will present a brief summary of its case and then members of the public may present testimony by telephone.

Public Counsel

The Public Counsel has intervened in this docket to represent the customers of Peoples Gas System and will be present at the hearings. The Public Counsel representative may be contacted prior to the hearings at **www.FloridaOPC.gov** or by phone at **1-800-342-0222**.

An overview of the rate request and copies of the complete filing are available online at **www.FloridaPSC.com** and **www.PeoplesGas.com/rates**.

Written comments regarding Peoples Gas System's request to increase base rates and service charges may be sent to the Commission at the following address:

Florida Public Service Commission
Notice of Customer Service Hearings
Docket No. 20250029-GU

NOTICE is hereby given that Peoples Gas System, Inc. has filed a petition with the Florida Public Service Commission to increase its rates and charges. The Florida Public Service Commission will hold virtual and in-person public hearings in this docket. The customer service hearings will commence at the dates, times and locations shown below and will continue until all witnesses have been heard.

Virtual Hearing: Monday, July 14, 2025 at 1 p.m.

In-Person Hearings:

Wednesday, July 16, 2025 at 10 a.m.
Anne Kolb Nature Center - Mangrove Hall
Hollywood North Beach Park
751 Sheridan Street
Hollywood, FL 33019

Thursday, July 17, 2025 at 2 p.m.
Valencia Community College
Health Science Building - Room 105
1800 South Kirkman Road
Orlando, FL 32811

A Spanish interpreter will be available during the virtual hearing on July 14 and the in-person hearing on July 16.

Customers may register to speak at the virtual service hearing in one of the following ways:

(1) Use the PSC's online registration form, which will be available at **www.FloridaPSC.com**, under the "Hot Topics" heading,
(2) Call the PSC at **(850) 413-7080** or
(3) Email **speakersignup@psc.state.fl.us**.

Online registration for the virtual service hearing will open on June 30, 2025, at 9:00 a.m., and close at noon on July 10, 2025. One day prior to the virtual service hearing, customers who signed up to speak will be provided further instructions from PSC staff on how to participate.

Customers who wish to speak at the in-person service hearings may register upon arrival at the venue. There will be no online signups for the in-person service hearings.

All persons who wish to comment, either virtually or in-person, are urged to appear promptly at the scheduled times because the service hearings may be adjourned early if no customers are present to testify or when those present have testified.

Please note that the order in which customers will speak is based on the order in which they register. If you have questions about the sign-up process, please call **(850) 413-7080**.

On Sept. 8 - 11, 2025, the PSC will conduct a technical hearing to allow Peoples Gas and other parties involved in the proceeding to present testimony and relevant evidence regarding the rate request.

To watch customer service hearings live, visit **www.FloridaPSC.com** and click on the "Watch Live" link. If you do not have access to the internet, you may call **(850) 413-7999** to listen to the hearings. If you are hearing or speech impaired, you may contact the PSC by using the Florida Relay Service at **(800) 955-8771** (TDD).

Purpose and Procedure

The purpose of these customer service hearings shall be to permit members of the public, who are not parties to the proceeding, to give testimony regarding Peoples Gas System's quality of service and its requested increase in its base rates and miscellaneous service charges. The company will present a brief summary of its case and then members of the public may present testimony by telephone.

Public Counsel

The Public Counsel has intervened in this docket to represent the customers of Peoples Gas System and will be present at the hearings. The Public Counsel representative may be contacted prior to the hearings at **www.FloridaOPC.gov** or by phone at **1-800-342-0222**.

An overview of the rate request and copies of the complete filing are available online at **www.FloridaPSC.com** and **www.PeoplesGas.com/rates**.

Written comments regarding Peoples Gas System's request to increase base rates and service charges may be sent to the Commission at the following address:

Florida Public Service Commission
Notice of Customer Service Hearings
Docket No. 20250029-GU

NOTICE is hereby given that Peoples Gas System, Inc. has filed a petition with the Florida Public Service Commission to increase its rates and charges. The Florida Public Service Commission will hold virtual and in-person public hearings in this docket. The customer service hearings will commence at the dates, times and locations shown below and will continue until all witnesses have been heard.

Virtual Hearing: Monday, July 14, 2025 at 1 p.m.

In-Person Hearings:

Wednesday, July 16, 2025 at 10 a.m.
Anne Kolb Nature Center - Mangrove Hall
Hollywood North Beach Park
751 Sheridan Street
Hollywood, FL 33019

Thursday, July 17, 2025 at 2 p.m.
Valencia Community College
Health Science Building - Room 105
1800 South Kirkman Road
Orlando, FL 32811

A Spanish interpreter will be available during the virtual hearing on July 14 and the in-person hearing on July 16.

Customers may register to speak at the virtual service hearing in one of the following ways:

(1) Use the PSC's online registration form, which will be available at **www.FloridaPSC.com**, under the "Hot Topics" heading,
(2) Call the PSC at **(850) 413-7080** or
(3) Email **speakersignup@psc.state.fl.us**.

Online registration for the virtual service hearing will open on June 30, 2025, at 9:00 a.m., and close at noon on July 10, 2025. One day prior to the virtual service hearing, customers who signed up to speak will be provided further instructions from PSC staff on how to participate.

Customers who wish to speak at the in-person service hearings may register upon arrival at the venue. There will be no online signups for the in-person service hearings.

All persons who wish to comment, either virtually or in-person, are urged to appear promptly at the scheduled times because the service hearings may be adjourned early if no customers are present to testify or when those present have testified.

Please note that the order in which customers will speak is based on the order in which they register. If you have questions about the sign-up process, please call **(850) 413-7080**.

On Sept. 8 - 11, 2025, the PSC will conduct a technical hearing to allow Peoples Gas and other parties involved in the proceeding to present testimony and relevant evidence regarding the rate request.

To watch customer service hearings live, visit **www.FloridaPSC.com** and click on the "Watch Live" link. If you do not have access to the internet, you may call **(850) 413-7999** to listen to the hearings. If you are hearing or speech impaired, you may contact the PSC by using the Florida Relay Service at **(800) 955-8771** (TDD).

Purpose and Procedure
The purpose of these customer service hearings shall be to permit members of the public, who are not parties to the proceeding, to give testimony regarding Peoples Gas System's quality of service and its requested increase in its base rates and miscellaneous service charges. The company will present a brief summary of its case and then members of the public may present testimony by telephone.

Public Counsel
The Public Counsel has intervened in this docket to represent the customers of Peoples Gas System and will be present at the hearings. The Public Counsel representative may be contacted prior to the hearings at **www.FloridaOPC.gov** or by phone at **1-800-342-0222**.

An overview of the rate request and copies of the complete filing are available online at **www.FloridaPSC.com** and **www.PeoplesGas.com/rates**.

Written comments regarding Peoples Gas System's request to increase base rates and service charges may be sent to the Commission at the following address:

PEDRO PORTAL pportal@miamiherald.com

A supporter of President Donald Trump waves a flag as other people protest on Tamiami Trail on Tuesday against the establishment of Alligator Alcatraz at the site of the Dade-Collier Training and Transition Airport in Ochopee.

Merch, jokes and memes: Trump officials and supporters love the name Alligator Alcatraz

BY GRETHEL AGUILA
gaguila@miamiherald.com

Alligator Alcatraz, the immigrant detention facility that opened Tuesday in the Florida Everglades, has become a rich source of jokes, memes and even merchandise put out by officials aligned with the Trump administration — and the president's supporters.

President Donald Trump, visiting the facility with Gov. Ron DeSantis on Tuesday morning, quipped about the wildlife surrounding the buildings.

"A lot of bodyguards, a lot of cops in the form of alligators," he told reporters. "You don't have to pay them so much."

When asked about possible escapees being eaten by alligators or snakes, Trump said: "I guess that's the concept. This is not a nice business. I guess that's the concept. ... We're gonna teach them how to run away from an alligator if they escape prison."

Alligator Alcatraz, as the state officially calls the facility, lies in the Everglades about 40 miles west of Miami International Airport and halfway to Naples. Over the past week, the DeSantis administration built the detention camp at the idle airstrip, which the state seized by using its emergency powers.

The 1,000-bed, taxpayer-funded facility is just east of Big Cypress National Preserve, which is federally protected land, and it's surrounded on three sides by Miccosukee and Seminole tribal infrastructure, including homes and ceremonial sites. The site, which officials describe as temporary, will consist primarily of large tents and trailers and is expected to house undocumented immigrants arrested both within and outside Florida.

During the visit, Garrett Ripa, the Immigration and Customs Enforcement field office director in Miami, said agents are working to "get those bad hombres off the street and get them into this facility."

In recent days, Florida Attorney General James Uthmeier made several posts on X about Alligator Alcatraz, which he called "a one stop shop for immigration enforcement" because migrants can "Come in, get your 'process,' and fly out."

In one post, Uthmeier shared a photo of his son drawing in front of a laptop displaying a cartoon of an alligator-shaped airplane. "New Alligator Alcatraz slogan: see ya' lata!" he wrote on social media.

Before Trump's tour, Uthmeier also launched merch, including hats with the facility's moniker and shirts that say "Nowhere to run. Nowhere to hide."

'HELL ON EARTH'

Benny Johnson, a conservative influencer who attended Trump's visit to the facility, shared a video in which he's wearing a black Alligator Alcatraz hat, which appears to be available on Uthmeier's website. He said he was "handed official ... merch."

In another video posted to X, Johnson walked around filming the "Jurassic Park style entrance" to the facility. He described his lengthy drive to the detention center — and the dozens of alligators he saw in the area.

"You go in, and you don't come out," Johnson said in the video. "And if you do, the alligators get you."

In his post, Johnson wrote: "Mosquitoes swarming me by the thousands. Millions of gators. Hell on earth."

Far-right influencer Laura Loomer also shared her thoughts on Alligator Alcatraz in a post on X a few days ago.

"Feeding illegals to the gators," she said. "We need more of this energy."

OPPONENTS BLAST CONTROVERSIAL FACILITY

In a statement Tuesday, Bacardi Jackson, executive director of the ACLU of Florida, said the facility's branding "reflects an intent to portray people fleeing hardship and trying to build a better life for themselves and their families as threats, which is both unnecessary and abusive."

"Converting a remote island in the Everglades into a prison-like complex for members of our communities is not just cruel and absurd — it underscores how our immigration system is increasingly being used to punish people rather than provide them with due process," Jackson said in the statement. "There is no justification for locking people away in isolated, dangerous environments — let alone in a camp modeled after one of the most notorious prisons in American history."

Florida Public Service Commission
Notice of Customer Service Hearings
Docket No. 20250029-GU

NOTICE is hereby given that Peoples Gas System, Inc. has filed a petition with the Florida Public Service Commission to increase its rates and charges. The Florida Public Service Commission will hold virtual and in-person public hearings in this docket. The customer service hearings will commence at the dates, times and locations shown below and will continue until all witnesses have been heard.

Virtual Hearing: Monday, July 14, 2025 at 1 p.m.

In-Person Hearings:

Wednesday, July 16, 2025 at 10 a.m.
Anne Kolb Nature Center - Mangrove Hall
Hollywood North Beach Park
751 Sheridan Street
Hollywood, FL 33019

Thursday, July 17, 2025 at 2 p.m.
Valencia Community College
Health Science Building - Room 105
1800 South Kirkman Road
Orlando, FL 32811

A Spanish interpreter will be available during the virtual hearing on July 14 and the in-person hearing on July 16.

Customers may register to speak at the virtual service hearing in one of the following ways:
(1) Use the PSC's online registration form, which will be available at **www.FloridaPSC.com**, under the "Hot Topics" heading,
(2) Call the PSC at **(850) 413-7080** or
(3) Email **speakersignup@psc.state.fl.us**.

Online registration for the virtual service hearing will open on June 30, 2025, at 9:00 a.m., and close at noon on July 10, 2025. One day prior to the virtual service hearing, customers who signed up to speak will be provided further instructions from PSC staff on how to participate.

Customers who wish to speak at the in-person service hearings may register upon arrival at the venue. There will be no online signups for the in-person service hearings.

All persons who wish to comment, either virtually or in-person, are urged to appear promptly at the scheduled times because the service hearings may be adjourned early if no customers are present to testify or when those present have testified.

Please note that the order in which customers will speak is based on the order in which they register. If you have questions about the sign-up process, please call **(850) 413-7080**.

On Sept. 8 - 11, 2025, the PSC will conduct a technical hearing to allow Peoples Gas and other parties involved in the proceeding to present testimony and relevant evidence regarding the rate request.

To watch customer service hearings live, visit **www.FloridaPSC.com** and click on the "Watch Live" link. If you do not have access to the internet, you may call **(850) 413-7999** to listen to the hearings. If you are hearing or speech impaired, you may contact the PSC by using the Florida Relay Service at **(800) 955-8771** (TDD).

Purpose and Procedure
The purpose of these customer service hearings shall be to permit members of the public, who are not parties to the proceeding, to give testimony regarding Peoples Gas System's quality of service and its requested increase in its base rates and miscellaneous service charges. The company will present a brief summary of its case and then members of the public may present testimony by telephone.

Public Counsel
The Public Counsel has intervened in this docket to represent the customers of Peoples Gas System and will be present at the hearings. The Public Counsel representative may be contacted prior to the hearings at **www.FloridaOPC.gov** or by phone at **1-800-342-0222**.

An overview of the rate request and copies of the complete filing are available online at **www.FloridaPSC.com** and **www.PeoplesGas.com/rates**.

Written comments regarding Peoples Gas System's request to increase base rates and service charges may be sent to the Commission at the following address:

Law

from Page 3

Legislature's decade-long effort to carve out exemptions to Florida's public records laws, Block said.

"The Sunshine State is being increasingly the Shady State," he added.

State Rep. Bruce Antone, D-Orlando, faced an ethics complaint last year from his opponent in the Democratic Party primary who accused him of not living in his district, despite legal requirements to do so by Election Day.

Addresses on multiple official documents — including voter registration forms, property tax records and campaign filings — suggested he did not live in his district, which covers part of Orlando and west Orange County, according to a 2024 report by Fresh Take Florida, a news service of the University of Florida journalism program.

The bill — which Antone supported — would make some of the information used in that investigation inaccessible.

When asked if that story motivated his vote, Antone said he didn't have "any particular reason" for supporting the bill.

The law will allow someone to see an officials' city and ZIP code but not their street address, which Jones said was enough to confirm if a lawmaker lives in their district and was intentionally left available for transparency. However, the information may not be enough to confirm residency of lawmakers since cities and ZIP codes can spread over more than one district.

State Rep. Anna Eskamani, D-Orlando, was one of just two members in the House to vote against the bill. She said she sympathizes with other lawmakers' concerns — she has faced harassment at home — but does not want them addressed by limiting public access to information. "At the end of the day, there's a lot of individuals that are at risk, that are harassed just like we are, and they don't have that same kind of protection," she said.

The law applies to members of Congress and the Florida Legislature, the governor, lieutenant governor and Cabinet, mayors, county property appraisers and supervisors of elections, school superintendents, school board members and city and county commissioners.

Any official who wants to have their information exempt under the law has to opt in to it by reaching out to each individual agency that maintains the related records. Their eligibility for the exemption would end when they leave office.

Bear

from Page 3

Florida black bears become more active during spring and summer and can sometimes be seen in unexpected places, said Lisa Thompson, assigned to the state wildlife agency's division of Habitat and Species Conservation.

She said bears "are on the move more this time of year in search of things to eat."

Two summers ago, a young bear was captured in a wildlife agency trap near the World of Beer restaurant at Lake Eola Park and relocated to the Ocala National Forest. A few months earlier, a bear seen in a tree in College Park was allowed to come down on its own, but ended up being hit and killed by a vehicle.

Thompson said mother bears may expand their range while teaching cubs where to look for food while older, juvenile bears — those between the ages of 18 and 30 months — will leave their mother's home range and travel in search of a new place to settle down.

Male bears also tend to be more active as they search for mates during the summer breeding season.

The Orlando bear — or bears — has certainly moved around.

In the past week, the state wildlife agency fielded calls about a bear running on Elizabeth Avenue; a bear in a tree on Harrison Avenue, just east of Elizabeth Avenue; a bear in a tree on West Colonial Drive; and a bear moving past the soccer stadium.

Officials have not determined whether it was one bear or multiple bears.

Nancy Russ was returning home from the hair salon last week when she saw what at first she thought was a large black dog running loose on Elizabeth Street near Princeton Elementary School. A closer look proved it was a bear. "I felt so bad for it, and, of course, I love animals and I love anything nature," she said.

"I wasn't scared of it, only alarmed for the safety of the bear," said Russ, composed enough to shoot video with her phone. A woman walking in the school parking lot seemed not to notice the brain romping toward Princeton Street.

"I didn't want to honk the horn or say anything, because then it would have alarmed the bear," Russ said. The bear just galloped by, she said.

Russ saw a television news report Tuesday with video of a bear on I-4, and said it looks like the same young frightened bear she saw.

Seeing a bear in a neighborhood is not necessarily cause for alarm, but it could may signal something is drawing them in.

Bears typically try to avoid people but may linger in neighborhoods if they can easily access food sources, Thompson said.

She said concerned residents may deter bear incursions by securing garbage, pet food, bird seed and other "easy meals."

As bears become more active, they also cross more roadways.

Each year in Florida, about 300 bears are killed in collisions with motor vehicles.

Call the state Wildlife Hotline at 888-404-3922 if you spot an injured, orphaned or dead bear, feel threatened by one, or see someone harming or intentionally feeding bears.

The Seven Seas Prestige, the newest ship from Regent Seven Seas Cruises, provides guests with just shy of 9,000 square feet of combined indoor and outside space with plenty of natural light. **PHOTOS COURTESY OF REGENT SEVEN SEAS CRUISES**

Regent

from Page 3

Regent Suite is a true embodiment of that promise," said Jason Montague, chief luxury officer for Regent, in a news release. "At nearly 9,000 square feet, this breathtaking two-level suite delivers the most exclusive and elevated experience at sea, complete with every imaginable luxury included in the voyage fare."

For such a steep price tag, a stay in the Skyview Regent Suite includes a dedicated personal butler, a private car and guide in every port, daily spa treatments, curated linen and pillow menus, in-suite caviar service, unlimited laundry and dry cleaning.

All of the ship's suites have a balcony, and every passenger benefits from luxurious perks: unlimited shore excursions, included specialty restaurants and unlimited beverages at no added cost, unlimited access to spa facilities, pre-paid gratuities, WiFi and valet laundry service.

Other new and noteworthy accommodations aboard the Prestige include other two-level Skyview Suites (starting at $24,999 per person) with private terrace decks accessed via in-suite elevators, Grand Loft Suites (starting at $17,799 per person) with floor-to-ceiling windows and the Horizon Penthouse Suites (starting at $11,099 per person) with expansive balconies.

Regent Seven Seas Cruises is a subsidiary of Norwegian Cruise Line Holdings; passengers who wish to cruise at a more cost-effective price tag can explore options from Norwegian Cruise Line or the globe-trotting, elevated Oceania Cruises.

While Regent's cruises are decidedly not easy on the wallet, they should be much gentler for the mind, body and soul for those who can afford it.

Florida Public Service Commission
Notice of Customer Service Hearings
Docket No. 20250029-GU

NOTICE is hereby given that Peoples Gas System, Inc. has filed a petition with the Florida Public Service Commission to increase its rates and charges. The Florida Public Service Commission will hold virtual and in-person public hearings in this docket. The customer service hearings will commence at the dates, times and locations shown below and will continue until all witnesses have been heard.

Virtual Hearing: Monday, July 14, 2025 at 1 p.m.

In-Person Hearings:

Wednesday, July 16, 2025 at 10 a.m.
Anne Kolb Nature Center - Mangrove Hall
Hollywood North Beach Park
751 Sheridan Street
Hollywood, FL 33019

Thursday, July 17, 2025 at 2 p.m.
Valencia Community College
Health Science Building - Room 105
1800 South Kirkman Road
Orlando, FL 32811

A Spanish interpreter will be available during the virtual hearing on July 14 and the in-person hearing on July 16.

Customers may register to speak at the virtual service hearing in one of the following ways:

(1) Use the PSC's online registration form, which will be available at **www.FloridaPSC.com**, under the "Hot Topics" heading,
(2) Call the PSC at **(850) 413-7080** or
(3) Email **speakersignup@psc.state.fl.us**.

Online registration for the virtual service hearing will open on June 30, 2025, at 9:00 a.m., and close at noon on July 10, 2025. One day prior to the virtual service hearing, customers who signed up to speak will be provided further instructions from PSC staff on how to participate.

Customers who wish to speak at the in-person service hearings may register upon arrival at the venue. There will be no online signups for the in-person service hearings.

All persons who wish to comment, either virtually or in-person, are urged to appear promptly at the scheduled times because the service hearings may be adjourned early if no customers are present to testify or when those present have testified.

Please note that the order in which customers will speak is based on the order in which they register. If you have questions about the sign-up process, please call **(850) 413-7080**.

On Sept. 8 - 11, 2025, the PSC will conduct a technical hearing to allow Peoples Gas and other parties involved in the proceeding to present testimony and relevant evidence regarding the rate request.

To watch customer service hearings live, visit **www.FloridaPSC.com** and click on the "Watch Live" link. If you do not have access to the internet, you may call **(850) 413-7999** to listen to the hearings. If you are hearing or speech impaired, you may contact the PSC by using the Florida Relay Service at **(800) 955-8771** (TDD).

Purpose and Procedure

The purpose of these customer service hearings shall be to permit members of the public, who are not parties to the proceeding, to give testimony regarding Peoples Gas System's quality of service and its requested increase in its base rates and miscellaneous service charges. The company will present a brief summary of its case and then members of the public may present testimony by telephone.

Public Counsel

The Public Counsel has intervened in this docket to represent the customers of Peoples Gas System and will be present at the hearings. The Public Counsel representative may be contacted prior to the hearings at **www.FloridaOPC.gov** or by phone at **1-800-342-0222**.

An overview of the rate request and copies of the complete filing are available online at **www.FloridaPSC.com** and **www.PeoplesGas.com/rates**.

Comisión de Servicios Públicos de Florida
Aviso de Audiencias de Servicio a Clientes
Caso N.° 20250029-GU

Por la presente se NOTIFICA que Peoples Gas System, Inc. ha presentado una petición ante la Comisión de Servicios Públicos de Florida para aumentar sus tarifas y cargos. La Comisión de Servicios Públicos de Florida realizará audiencias públicas virtuales y presenciales en este expediente. Las audiencias de atención al cliente comenzarán en las fechas, horas y lugares que se muestran a continuación y continuarán hasta que se haya escuchado a todos los testigos.

Audiencia virtual: Lunes 14 de julio de 2025 a las 1 p.m.

Audiencias presenciales:

Miércoles 16 de julio de 2025 a las 10 a.m
Anne Kolb Nature Center - Mangrove Hall
Hollywood North Beach Park
751 Sheridan Street
Hollywood, FL 33019

Jueves 17 de julio de 2025 a las 2 p.m.
Valencia Community College
Health Science Building - Room 105
1800 South Kirkman Road
Orlando, FL 32811

Habrá un intérprete de español disponible durante la audiencia virtual del 14 de julio y la audiencia en persona del 16 de julio.

Los clientes pueden registrarse para hablar en la audiencia virtual del servicio de una de las siguientes maneras:

(1) Utilizar el formulario de inscripción en línea de la PSC, que estará disponible en **www.FloridaPSC.com**, bajo el epígrafe "Hot Topics,"
(2) Llame al PSC al **(850) 413-7080** o
(3) Envíe un correo electrónico a **speakersignup@psc.state.fl.us**.

La inscripción en línea para la audiencia de servicio virtual se abrirá el 30 de junio de 2025, a las 9:00 a.m., y se cerrará al mediodía del 10 de julio de 2025. Un día antes de la audiencia de servicio virtual, los clientes que se inscribieron para hablar recibirán instrucciones adicionales del personal de la PSC sobre cómo participar.

Los clientes que deseen intervenir en las audiencias de servicio presenciales podrán inscribirse a su llegada al lugar de la audiencia. No habrá inscripciones en línea para las audiencias de servicio presenciales.

Se insta a todas las personas que deseen hacer comentarios, ya sea virtualmente o en persona, a que se presenten puntualmente a las horas programadas, ya que las audiencias de servicio pueden aplazarse anticipadamente si no hay clientes presentes para testificar o cuando los presentes hayan testificado. Tenga en cuenta que el orden en que intervendrán los clientes se basa en el orden en que se inscriban. Si tiene preguntas sobre el proceso de inscripción, llame al **(850) 413-7080**.

Del 8 al 11 de septiembre de 2025, la PSC llevará a cabo una audiencia técnica para permitir que Peoples Gas y otras partes involucradas en el procedimiento presenten testimonios y pruebas pertinentes en relación con la solicitud de tarifas.

Para ver las audiencias de servicio al cliente en directo, visite **www.FloridaPSC.com** y haga clic en el enlace "Watch Live" (Ver en vivo). Quienes no tengan acceso a Internet, pueden llamar al **(850) 413-7999** para escuchar las audiencias. Las personas con problemas de audición o del habla pueden comunicarse con la Comisión utilizando el Servicio de retransmisión de Florida llamando al **1-800-955-8771** (TDD).

Propósito y procedimiento
El propósito de estas audiencias de servicio al clientes será permitir que miembros del público, que no sean partes del procedimiento, den testimonio sobre la calidad de servicio de Peoples Gas System y el aumento solicitado en sus tarifas base y cargos por servicios misceláneos. La compañía presentará un breve resumen de su caso y luego los miembros del público podrán presentar su testimonio por teléfono.

Asesor Público
El Asesor Público ha participado en este caso para representar a los clientes de Peoples Gas System y estará presente en las audiencias. El representante del Asesor Público puede ser contactado antes de las audiencias en **www.FloridaOPC.gov** o por teléfono al **1-800-342-0222**.

Una descripción general de la solicitud de tarifas y copias de la presentación completa están disponibles en línea en **www.FloridaPSC.com** y **www.PeoplesGas.com/rates**.

Los comentarios por escrito sobre la solicitud de Peoples Gas System de aumentar las tarifas base y los cargos por servicios pueden enviarse a la Comisión a la siguiente dirección:

Precio por plan del Obamacare podría aumentar el próximo año

POR DANIEL CHANG
KFF Health News

Josefina Muralles trabaja a tiempo parcial de noche como recepcionista en un condominio de Miami Beach. Así, puede cuidar durante el día de sus tres hijos, su madre mayor y su hermano, que está paralítico.

También ayuda a su madre a alimentar, bañar y dar la medicación a Rodrigo Muralles, el hermano que padece epilepsia y quedó discapacitado luego de desarrollar covid-19 en 2020.

"Vive porque le damos de comer y atendemos sus necesidades personales", explica Josefina Muralles, de 41 años. "No dice: 'Necesito esto o aquello'. Lo ha olvidado todo".

Aunque su marido trabaja a tiempo completo, este arreglo hace que los ingresos familiares estén justo por encima del umbral federal de pobreza: son demasiado altos para aplicar al Medicaid de Florida, pero lo suficientemente bajos como para que Muralles y su marido puedan optar por un seguro médico subvencionado a través del mercado de seguros establecido por la Ley de Cuidado de Salud a Bajo Precio (ACA, conocida como Obamacare).

Muralles dijo que el año que viene es posible que ella y su marido no puedan permitirse ese seguro médico, que ha pagado por los anticoagulantes que le han recetado, la medicación para el colesterol y dos operaciones, incluida una para tratar un trastorno genético.

A esto se suma que los subsidios adicionales establecidos durante la pandemia, que redujeron las primas que pagaban Muralles y su marido a menos de la mitad, es decir a $30 al mes, solo estarán vigentes hasta el 31 de diciembre.

Sin estos subsidios, las primas de los planes médicos de ACA aumentarían en promedio más del 75%, y en algunos estados las facturas que pagan las personas se duplicarían con creces, según estimaciones de KFF.

Florida y Texas se verían especialmente afectados, ya que tienen más gente inscrita en este mercado que otros estados. Solo algunos de sus distritos electorales, especialmente en el sur de Florida, tienen más personas anotadas en Obamacare que otros estados enteros.

Al igual que muchos de los más de 24 millones de estadounidenses registrados en el mercado de seguros este año, Muralles no sabía que los subsidios mejorados estaban a punto de expirar. Dijo que no puede permitirse un aumento de la prima porque la inflación ya lesionado el presupuesto de su hogar.

"El alquiler está subiendo y la cuenta del agua también", señaló.

Si se terminan los subsidios ampliados, los inscriptos con bajos ingresos, como el matrimonio Muralles serán los que reciban los mayores aumentos porcentuales en las primas.

En la práctica, los inscriptos de ingresos medios que ganan más de cuatro veces el umbral federal de pobreza ya no serían elegibles para recibir ningún subsidio. Esos afiliados —que en 2025, ganan unos $62.600 por individuo — son, en su gran mayoría, adultos mayores, trabajadores autónomos y residentes en zonas rurales.

Julio Fuentes, presidente de la Florida Hispanic American Chamber of Commerce dijo que muchos de los miembros de su organización son propietarios de pequeñas empresas que dependen del Obamacare para ofrecer cobertura de salud.

"Es esto o nada", afirmó.

La Oficina de Presupuesto del Congreso (CBO) calculó que si se dejan de aplicar los subsidios mejorados aumentará en 4,2 millones el número de personas sin seguro médico.

Si se suman los cambios en Medicaid que propone el proyecto de reconciliación presupuestaria de la Cámara de Representantes y las normas propuestas por la administración Trump para el mercado de seguros, que incluyen una verificación de ingresos más estricta y la reducción de los períodos de inscripción, el número total de personas sin cobertura crecerá en 16 millones durante ese período.

Un estudio del Urban Institute reveló que, sin los subsidios adicionales, los hispanos y los afroamericanos sufrirán mayores pérdidas de cobertura que otros grupos.

Fuentes señaló que alrededor de 5 millones de hispanos están inscritos en el mercado de ACA y que Donald Trump ganó el voto hispano en Florida en 2024. Espera que el presidente y los republicanos del Congreso vean la ampliación de los subsidios mejorados como una forma de conservar a esos votantes.

"Probablemente esta sea una buena forma de aumentar aún más esa base", afirmó. "O un buen comienzo".

La inscripción en el mercado de seguros ha crecido rápidamente desde 2020 en los estados donde Trump ganó en 2024.

Una encuesta reciente de KFF reveló que el 45% de los estadounidenses que compran su propio seguro médico se identifican como republicanos o se inclinan por este partido, incluidos 3 de cada 10 que se identifican como partidarios de Make America Great Again (MAGA).

Un porcentaje menor se identifica como demócrata o independiente con tendencia demócrata (35%) o no se inclina por ninguno de los dos partidos (20%).

Kush Desai, vocero de la Casa Blanca, afirmó que las normas propuestas por la administración Trump, junto con las disposiciones del proyecto de ley presupuestaria aprobado por la Cámara de Representantes, "fortalecerán el mercado de ACA".

El funcionario señaló que la CBO prevé que la legislación reduzca las primas de algunos planes en un promedio del 12% para 2034, pero que los gastos de bolsillo aumentarán o se mantendrán iguales para la mayoría de los consumidores que reciben subsidios.

"Los demócratas saben que los estadounidenses apoyan ampliamente el fin del despilfarro, el fraude y el abuso, tal y como lo hace The One, Big, Beautiful Bill, y por eso están tratando desesperadamente de cambiar el discurso", afirmó Desai.

Sin embargo, Lauren Aronson, directora ejecutiva de Keep Americans Covered, un grupo con sede en Washington, D.C. que representa a aseguradoras de salud, hospitales, médicos y defensores de los pacientes, afirmó que es fundamental generar conciencia sobre el posible impacto de la pérdida de los subsidios mejorados, también conocidos como créditos fiscales anticipados para el pago de primas.

Aronson se mostró entusiasmada por el hecho de que los demócratas hayan presentado un proyecto de ley para extender la vigencia de estos subsidios, y que algunos senadores republicanos hayan expresado su apoyo.

Lo que más preocupa a Aronson es que el Congreso, controlado por los republicanos, esté más centrado en prorrogar los recortes fiscales que en mejorar los subsidios, afirmó. Según la CBO, el proyecto de ley actual que prorroga los recortes fiscales de 2017 aumentaría el déficit federal en unos $2,4 mil millones durante la próxima década, mientras que hacer que los subsidios mejorados sean permanentes aumentaría el déficit en $358.000 millones durante aproximadamente el mismo período.

"El Congreso está avanzando en un paquete de reconciliación fiscal que pretende beneficiar a las familias trabajadoras", explicó Aronson. "Pero si los legisladores no se ocupan de los créditos fiscales, las familias trabajadoras terminarán cargando con el problema".

Brian Blase, presidente del Paragon Health Institute, un centro de estudios conservador en políticas de salud, dijo que se suponía que los subsidios mejorados eran una medida temporal establecida durante la pandemia de covid-19 para ayudar a las personas que corrieran el riesgo de perder la cobertura.

Pero en realidad, afirmó, los subsidios mejorados facilitaron el fraude porque los afiliados no necesitaban verificar su elegibilidad por ingresos para recibir planes sin costo mensual. Alcanzaba con declarar ingresos iguales o cercanos al nivel federal de pobreza.

Los subsidios mejorados también empeoran la inflación en el sector de salud, desalientan a los empleadores a ofrecer cobertura médica y desplazan a modelos alternativos, como los seguros a corto plazo y los planes de la Farm Bureau, dijo Blase.

"Permitir que se acaben estos subsidios sería simplemente volver al Obamacare tal y como estaba redactado", opinó Blase. "Es un programa más eficiente que el que tenemos ahora".

Las nuevas normas para el mercado propuestas por la administración Trump en marzo ya están diseñadas para combatir el fraude, dijo Anna Howard, experta en políticas de la American Cancer Society Cancer Action Network, que aboga por una mayor cobertura de seguro médico. Howard señaló que la ampliación de los créditos fiscales mejorados ayudaría a garantizar que las personas que tienen derecho legítimo a la cobertura puedan obtenerla.

"No queremos que más de 5 millones de personas se vean privadas de su cobertura de salud por temor al fraude, cuando las políticas que se proponen no abordan necesariamente este problema", manifestó.

Sin primas accesibles, muchos consumidores recurrirán a planes de salud de corto plazo, a organizaciones religiosas que ayudan con los costos médicos, y a otras formas de cobertura que no ofrecen las prestaciones ni las protecciones de la ley de salud, afirmó.

DANIEL CHANG/KFF HEALTH NEWS

JOSEFINA MURALLES, de North Miami, Florida, tiene su cobertura médica a través del mercado de seguros establecido por la Ley de Cuidado de Salud a Bajo Precio (ACA).

Senado aprueba plan fiscal de Trump y lo devuelve a la Cámara Baja para voto final

POR ROBIN LEGRAND
Agence France-Presse
WASHINGTON

El presidente estadounidense Donald Trump logró una importante victoria este martes con la aprobación por estrecho margen en el Senado de su colosal proyecto de ley de presupuestos, que incluye fondos para su política migratoria, exenciones fiscales y recortes a la cobertura médica.

Después de dos días de sesiones maratónicas, el resultado fue muy reñido.

A pesar de una mayoría republicana de 53 de 100 escaños, la votación terminó en un empate 50-50 y fue el vicepresidente JD Vance quien tuvo que emitir el voto final a favor, como lo exige la Constitución.

Una muestra más de la fuerte oposición que despierta, incluso dentro de su propio partido.

La ley "hermosa y grande", como la bautizó Trump, volverá ahora a la Cámara de Representantes, donde se enfrenta al rechazo de los demócratas y de muchos republicanos opuestos a los drásticos recortes. El republicano de 79 años se puso el 4 de julio, feriado nacional que celebra el Día de la Independencia, como fecha tope simbólica para promulgarla.

EXPLOSIÓN DEL DÉFICIT

El texto prevé prolongar los enormes créditos fiscales adoptados durante el primer mandato de Trump (2017-2021), eliminar el impuesto a las propinas e incluye miles de millones de dólares adicionales para defensa y control migratorio.

Tanto expertos como políticos prevén que disparе el déficit federal.

La Oficina de Presupuesto del Congreso, responsable de las evaluaciones imparciales del impacto de los proyectos de ley en las finanzas públicas, estima que incrementaría la deuda en más de $3 billones para 2034. Para compensarlo parcialmente, los republicanos prevén recortar Medicaid, el programa público de seguro médico del que dependen millones de estadounidenses de bajos ingresos.

También se plantean reducir el programa SNAP de ayuda alimentaria y desmantelar los incentivos fiscales para las energías renovables adoptados durante el mandato del expresidente demócrata Joe Biden.

Donald Trump, quien ha hecho de este proyecto de ley una pieza clave de su programa económico para este segundo mandato, enfrenta sin embargo las marcadas reticencias de algunos senadores de su propio partido, temerosos de los riesgos electorales de estos recortes importantes. Finalmente tres de 53 se opusieron.

A estas reticencias se ha sumado la frontal oposición de Elon Musk, la persona más rica del mundo y exasesor de Trump que se enemistó con el presidente precisamente por este proyecto de presupuesto.

Comisión de Servicios Públicos de Florida
Aviso de Audiencias de Servicio a Clientes
Caso N.° 20250029-GU

Por la presente se NOTIFICA que Peoples Gas System, Inc. ha presentado una petición ante la Comisión de Servicios Públicos de Florida para aumentar sus tarifas y cargos. La Comisión de Servicios Públicos de Florida realizará audiencias públicas virtuales y presenciales en este expediente. Las audiencias de atención al cliente comenzarán en las fechas, horas y lugares que se muestran a continuación y continuarán hasta que se haya escuchado a todos los testigos.

Audiencia virtual: Lunes 14 de julio de 2025 a las 1 p.m.

CUSTOMER'S INSTALLATION

A. GENERAL

Customer's Installation shall be constructed, installed and maintained in accordance with standard practice as determined by local codes and ordinances applicable thereto, these Rules and Regulations and other applicable governmental requirements; provided, however, that Company shall have no responsibility whatsoever for determining whether any local code or ordinance or any other governmental requirement is applicable to Customer's Installation, or for enforcing or determining whether Customer's Installation is in compliance with any local code or ordinance or any other governmental requirement. A Customer installing a Gas fired electric generator shall also ensure that the installation and operation of such equipment complies with the Tariff and the requirements of the Customer's electric provider. The Company shall not be responsible for the installation and maintenance of carbon monoxide or methane gas detectors within the Customer's premises.

The Customer's piping, appliances, equipment and apparatus shall be installed and maintained in accordance with standard practice, and in full compliance with all applicable laws, codes and governmental and Company regulations. The Customer expressly agrees to utilize no apparatus or device which is not properly constructed, controlled, and protected, or which may adversely affect service to others, and the Company reserves the right to discontinue or withhold service for such apparatus or device.

Customer shall give immediate notice to the Company when any leakage of Gas is detected, discovered, or suspected. Whenever a leakage of Gas is suspected, detected, or discovered, Customer agrees not to use any potential source of ignition, such as flame, electrical source, or other igniting medium in the proximity of escaping Gas, which could ignite such Gas.

B. INSPECTION OF CUSTOMER'S INSTALLATION

Where governmental inspection of a Customer's Installation is required, Company will not supply Gas Service to such installation until the necessary inspections have been made and Company has been authorized to provide Gas Service.

Company may also inspect Customer's Installation prior to rendering Gas Service, and from time to time thereafter, but assumes no responsibility whatsoever as a result of having made such inspection. ~~-~~Company will not render (and may discontinue) Gas Service to any Customer Installation which Company finds to be hazardous. Customer has sole responsibility to insure that the hazardous condition has been corrected prior to initiation of Gas Service.

IV

BILLING

A. BILLING PERIODS

Bills for Gas Service will be rendered each month. Bills shall be considered received by Customer when mailed to the most recent billing address supplied by Customer to Company or by any other delivery method expressly agreed to by both the Company and Customer to reach and bill the Customer.

It is the Customer's (both sales service and transportation service Customers) obligation to make payments to the Company (or to an Authorized Payment Agent of the Company) of all bills rendered. Payment by a Customer to a third party (including a Third Party Gas Supplier) which has not been designated by Company as an Authorized Payment Agent will not satisfy the Customer's obligation to make payment of Company's bill for Gas Service.

B. INITIAL OR FINAL BILLS

When the period of Gas Service for which an initial or final bill is rendered is less than fifty (50) percent of the normal billing period, the Customer charge or minimum bill shall be one-half (1/2) of the charge per applicable rate schedule. When the period of Gas Service is fifty (50) percent or more of the normal Billing Period, there shall be no reduction in the Customer charge or minimum bill. The distribution charge for Gas consumed shall be at the applicable billing rate.

C. NON-RECEIPT OF BILLS

Failure of Customer to receive a bill shall not relieve Customer of its obligation to pay the bill.

D. METER READINGS NOT COMBINED

If a Customer takes Gas Service under more than one rate schedule at a single delivery point, the bill shall be calculated separately for the Gas Service provided under each such rate schedule.

If a Customer takes Gas Service under one or more rate schedules at two or more Points of Delivery, a bill shall be calculated separately for Gas Service provided under each rate schedule at each Point of Delivery.

If Company must, for reasons of its convenience, establish more than one Point of Delivery at a single premise, the readings of the Meters for like classes of service will be combined.

E. DELINQUENT BILLS

A bill shall be considered delinquent if payment thereof has not been received by Company (or an Authorized Payment Agent of the Company) upon the expiration of twenty (20) days from the date of Company's mailing or other delivery of such bill. Charges for services due and rendered which are unpaid as of the past due date may be subject to a Late Payment Charge of 1.5 percent, except the accounts of federal, state, and local governmental entities, agencies, and instrumentalities. A Late Payment Charge may be applied to the accounts of federal, state, and local governmental entities, agencies, and instrumentalities at a rate no greater than allowed, and in a matter permitted by applicable law.

MEASUREMENT

A. METERS

Company will own, operate and maintain the Meters and regulating equipment needed to accurately measure Gas Service provided to Customer.

Customer will provide a convenient, accessible, and safe location, satisfactory to Company, for installation of necessary Meters, regulators, and ancillary equipment.

Customer will safeguard Company's facilities on Customer's property and will not permit unauthorized persons to tamper with such facilities or otherwise operate or alter them in any manner.

If changes in conditions not caused by the Company on Customer's premises adversely affect the convenience, accessibility, or safety of the Meter location, the Customer shall be responsible for the cost of relocating the Meter, its appurtenances, and related piping.

All Gas delivered to Customers shall be measured by commercially acceptable measuring devices owned and maintained by the Company, except where it is impractical to Meter loads, such as street lighting, and temporary or special installations, in which case the consumption may be calculated~~,~~ or billed on a rate or as provided in the Company's filed Tariff.

B. TYPE OF METERING PROVIDED

1. Except as provided in paragraph (2) below, each separate occupancy unit (as defined in Commission Rule 25-7.071, FAC) for which construction commenced after January 1, 1987, shall be individually metered.

2. Individual Meters shall not be required, and master metering is permitted, for separate occupancy units where dimensions or physical configurations of the units are subject to alteration; where Gas is used in central heating, water heating, ventilating and air conditioning systems, or Gas back up service to storage heating and cooling systems; in specialized-use housing accommodations such as hospitals and other health care facilities specified in Commission Rule 25-7.071, FAC, college dormitories, convents, sorority or fraternity houses, motels, hotels and similar facilities; in specially designated areas for overnight occupancy at trailer, mobile home and recreational vehicle parks where permanent residency is not established; in marinas where living aboard is prohibited by permanent means; or where individual Gas Service would otherwise be required above the second story, in accordance with Commission Rule 25-7.071, FAC.

3. When individual metering is not required and master metering is used, submeters may be purchased and installed at Customer's request and expense, for use in allocating solely the cost of Gas billed by Company for Gas Service at the master Meter.

C. METER ACCURACY AT INSTALLATION

All Meters, when installed, shall be not more than 1 percent fast or 1 percent slow and will have been tested not more than twelve (12) months prior to being installed.

Peoples Gas System
Brief Summary of Common Equity Cost Rate

Line No.	Principal Methods	Proxy Group of Eight Natural Gas Companies	Proxy Group of Eight Natural Gas Companies (exc. PRPM)
1.	Discounted Cash Flow Model (DCF) (1)	10.39%	10.39%
2.	Risk Premium Model (RPM) (2)	10.77%	10.82%
3.	Capital Asset Pricing Model (CAPM) (3)	10.89%	10.87%
4.	Market Models Applied to Comparable Risk, Non-Price Regulated Companies (4)	10.97%	10.96%
5.	Indicated Common Equity Cost Rate before Adjustment for Unique Risk	10.39% - 10.89%	10.39% - 10.87%
6.	Size Adjustment (5)	0.20%	0.20%
7.	Credit Risk Adjustment (6)	0.00%	0.00%
8.	Flotation Cost Adjustment (7)	0.07%	0.07%
9.	Indicated Common Equity Cost Rate after Adjustment	10.66% - 11.16%	10.66% - 11.14%

Notes:
(1) From page 1 of Document No. 1.
(2) From page 1 of Document No. 4.
(3) From page 1 of Document No. 5.
(4) From page 1 of Document No. 7.
(5) Size adjustment to reflect the Company's smaller size compared to the Utility Proxy Group's as detailed in Mr. D'Ascendis' Direct Testimony.
(6) The company does not have a credit rating from Moody's. However, it's A- rating from Fitch Ratings is consistent with an A3 rating from Moody's. No credit risk adjustment is necessary as the bond rating of the company (A- from Fitch Ratings) is identical to the average credit rating of the utility proxy group (A3).

Notes:

(1) All capitalization and financial statistics for the group are the arithmetic average of the achieved results for each individual company in the group, and are based upon financial statements as originally reported in each year.

(2) Computed by relating actual total debt interest or preferred stock dividends booked to average of beginning and ending total debt or preferred stock reported to be outstanding.

(3) Total debt relative to EBITDA (Earnings before Interest, Income Taxes, Depreciation and Amortization).

(4) Funds from operations (sum of net income, depreciation, amortization, net deferred income tax and investment tax credits, less total AFUDC) plus interest charges as a percentage of total debt.

Notes:

(1) Indicated dividend at 06/30/2025 divided by the average closing price of the last 60 trading days ending 06/30/2025 for each company.

(2) From pages 2 through 9 of this Document.

(3) Average of columns 2 through 4 excluding negative growth rates.

(4) This reflects a growth rate component equal to one-half the conclusion of growth rate (from column 5) x column 1 to reflect the periodic payment of dividends (Gordon Model) as opposed to the continuous payment. Thus, for Atmos Energy Corporation, 2.24% x (1+(1/2 x 7.16%)) = 2.32%.

(5) Column 5 + Column 6.

(6) Results were excluded from the final average and median as they were more than two standard deviations from the proxy group's mean.

BUSINESS: Atmos Energy Corporation is engaged primarily in the distribution and sale of natural gas to over 3.3 million customers through six regulated natural gas utility operations: Louisiana Division, West Texas Division, Mid-Tex Division, Mississippi Division, Colorado-Kansas Division, and Kentucky/Mid-States Division. Gas sales breakdown for fiscal 2024: 68.8%, residential; 27.1%, commercial; 2.7%, industrial; and 1.4% other. The company sold Atmos Energy Marketing, 1/17. Officers and directors own approximately .5% of common stock (12/24 Proxy). President and Chief Executive Officer: Kevin Akers. Incorporated: Texas. Address: Three Lincoln Centre, Suite 1800, 5430 LBJ Freeway, Dallas, Texas 75240. Telephone: 972-934-9227. Internet: www.atmosenergy.com.

Atmos Energy is having a decent year thus far. Earnings per share through the first half of fiscal 2025 (ended March 31st) increased 6.7%, to $5.26, relative to the $4.93 figure that was registered for the fiscal 2024 period. One supporting factor was the distribution unit, aided partially by rate adjustments and benefits of residential customer growth (both happening mainly in the Mid-Tex Division). Moreover, the pipeline and storage segment was helped, among other things, by the Gas Reliability Infrastructure Program filing approved in May 2024 and the System Safety and Integrity Rider filing approved in November 2024. But the company's results were hurt, to some degree, by a rise in bad-debt expense, depreciation, and property taxes. Nonetheless, it appears that, for the full year, the bottom line will end up around $7.30 per share. That would indicate a 7% advance from fiscal 2024's $6.83 tally. Concerning the following fiscal year, per-share profits stand to grow another 5% or so, to $7.70, as operating margins widen further.

There has been activity on the rate-filing front. During the first six months, Atmos managed to complete some regulatory proceedings leading to a $152.6 million boost in annual operating income. What's more, there were ratemaking initiatives in progress at the conclusion of March seeking $224.7 million of annual operating income. Of course, there are no guarantees that the company will receive everything it requests.

Good things seem to be in store out to 2028-2030. Atmos ranks as one of the nation's biggest natural gas-only distributors, with over three million customers across several states, including Texas, Louisiana, and Mississippi. Also, we believe that the pipeline and storage business has promising overall expansion opportunities, since it operates in one of the most-active drilling regions in the world. The solid balance sheet is another positive.

The equity's long-term total return prospects look rather uninspiring. The dividend yield does not impress versus the average of *Value Line's* Natural Gas Utility Industry. Also, 3- to 5-year capital appreciation potential lacks appeal, given recent stock-price strength.

BUSINESS: Chesapeake Utilities Corporation consists of two main units. The Regulated Energy segment distributes natural gas in Delaware, Maryland, and Florida; distributes electricity in Florida; and transmits natural gas on the Delmarva Peninsula and in Florida. The Unregulated Energy operation wholesales and distributes propane; markets natural gas; and provides other unregulated energy services, including midstream services in Ohio. Revenue breakdown for 2024: Regulated Energy, 74.1%; Unregulated Energy, 29.0%; Other, d3.1%. Officers and directors own 1.5% of common stock; BlackRock, 16.1% (3/25 Proxy). Chairman and CEO: Jeffry Householder. Inc.: DE. Address: 500 Energy Lane, Dover, DE 19901. Tel.: (302) 734-6799. Internet: www.chpk.com.

Chesapeake Utilities Corporation began 2025 on the right foot. Indeed, first-quarter earnings per share increased almost 7%, to $2.21, compared to the $2.07 figure that was posted last year. One supporting factor was higher customer consumption resulting from cooler temperatures, mainly across the Mid-Atlantic and Ohio service areas. Another plus was a rise in demand for virtual pipeline services. Other positives included internal growth in the natural gas distribution businesses and contributions from regulated infrastructure programs. So, at this juncture, it appears that full-year profits will end up in the vicinity of $5.70 a share. That would show a roughly 8% advance from 2024's $5.26 tally. Regarding 2026, the company's bottom line may grow at a similar percentage rate, to $6.10 a share, assuming additional expansion of operating margins.

This year's capital expenditures are anticipated to lie between $325 million and $375 million. The bulk of the funds are being deployed to the Regulated Energy division, with an emphasis on the natural gas distribution and transmission segments. Moreover, Chesapeake looks for total capital spending to be in the range of $1.5 billion to $1.8 billion for the five-year period between 2024 and 2028. All told, we believe these objectives are achievable, assuming that corporate finances remain in healthy condition, of course.

The quarterly common stock dividend was raised by 7%, to $0.685 per share. That was made possible, no doubt, by the company's solid capital position. Furthermore, our 3- to 5-year projections indicate that additional steady increases in the distribution will probably take place. The payout ratio over that horizon ought to be in the neighborhood of 40%, which is quite manageable.

The stock is not a standout selection at the moment. Its dividend yield is not exciting when measured against those of other Natural Gas Utility equities tracked by *Value Line*. Moreover, capital gains potential out to 2028-2030 does not impress. That's because the recent quotation is already within our Target Price Range. Meanwhile, these shares are ranked just 3 (Average) for Timeliness.

BUSINESS: New Jersey Resources Corp. is a holding company providing retail/wholesale energy svcs. to customers in NJ, and in states from the Gulf Coast to New England, and Canada. New Jersey Natural Gas had 583,000 cust. at 9/30/24. Fiscal 2024 volume: 158 bill. cu. ft. (16% interruptible, 41% residential, commercial & firm transportation, 43% other). N.J. Natural Energy subsidiary provides unregulated retail/wholesale natural gas and related energy svcs. 2024 dep. rate: 3.2%. Has 1,370 empls. Off./dir. own less than 1% of common; BlackRock, 17.3%; Vanguard, 11.9% (12/24 Proxy). CEO, President & Director: Steven D. Westhoven. Incorporated: New Jersey. Address: 1415 Wyckoff Road, Wall, NJ 07719. Telephone: 732-938-1480. Web: www.njresources.com.

New Jersey Resources reported strong financial and operational results in the second quarter of fiscal 2025. (Year ends September 30th.) Favorable winter conditions and effective execution across its business portfolio led to a significant outperformance of both our top- and bottom-line estimates. Revenues advanced 40%, to $913 million, while earnings per share jumped 26% to $1.78. Principally, the utility's operations benefited from new rates following a recent base rate case settlement. Too, a gain realized on the sale of the company's residential solar portfolio at Clean Energy Ventures added to the earnings outperformance. Although the macroeconomic environment reflected some volatility during the period, and the company had to contend with policy uncertainty in energy markets, we view this result as a strong business-as-usual performance, reflecting NJR's solid fundamental market approach.

We've raised our fiscal 2025 full-year targets, reflecting a strong first half. With the remaining two fiscal quarters consisting of the gas utility's low season, we have a measure of confidence in our full year top- and bottom-line targets of $1.965 billion and $3.30, respectively. The latter is near the high end of management's guidance range.

We expect fiscal 2026 results will be mostly flat. Thanks to a weather tailwind in fiscal 2025, the comparison may be challenging and we expect a soft reset, with both revenues and earnings coming in a bit lower, overall. Operationally, this would reflect the steady advance of NJR's core business verticals.

Long-term growth prospects are defined by several key factors. NJR maintains a solid financial position, with manageable leverage and a strong regional economy as its foundation. Much of the growth we envision is a result of capital spending already planned for the next two years, with infrastructure modernization, energy efficiency and renewable initiatives all representing avenues for expansion.

The stock offers a solid long-term return profile, bolstered by non-regulated businesses that add a measure of growth potential, compared to pure-play utilities.

Earl B. Humes *May 23, 2025*

(A) Fiscal year ends Sept. 30th.
(B) Diluted earnings. Qtly. revenues and egs. may not sum to total due to rounding and change in shares outstanding. Next earnings report due early August.
(C) Dividends historically paid in early Jan., April, July, and October. ■ Dividend reinvestment plan available.
(D) Includes regulatory assets in 2024: $612.6 million, $6.16/share.
(E) In millions, adjusted for 3/15 split.

BUSINESS: NiSource Inc. is a holding company for Northern Indiana Public Service Company (NIPSCO), which supplies electricity and gas to the northern third of Indiana. Customers: 492,690 electric in Indiana, 3.3 million gas in Indiana, Ohio, Pennsylvania, Kentucky, Virginia, Maryland, through its Columbia subsidiaries. Revenue breakdown, 2024: electrical, 34%; gas, 63%; other, 3%. Generating capacity, fossil feuls 56%; renewables, 44%. 2024 reported depreciation rates: 3.0% electric, 2.6% gas. Has 7,746 employees. Chairman: Richard L. Thompson. President & Chief Executive Officer: Lloyd Yates. Incorporated: Indiana. Address: 801 East 86th Avenue, Merrillville, Indiana 46410. Telephone: 877-647-5990. Internet: www.nisource.com.

NiSource posted a strong profit in the first quarter of 2025. Revenues expanded 28% to $2.2 billion, driven by regulated revenue growth and the recovery of significant capital investments made over the past few years. This pushed earnings to increase 15% to $0.98 per share, outpacing our target. Representing over half of our full-year earnings estimate, the result reflects stable utility performance across its gas and electric operations. Management noted the success of capturing efficiency gains from recent investments in technology, with artificial intelligence-optimized scheduling resulting in an impressive 60,000 hours improvement in measured labor productivity. Regulatory progress also supported results, with several successful rate cases contributing to the quarter's strong earnings.

The near-term outlook is somewhat mixed. Continued improvements may face pressure from uncertain regulatory proceedings. Particularly, a new proposal in Indiana is currently pending in settlement discussions. Too, a shifting landscape for renewables investment could affect the company's strategic priorities, especially as it seeks to decomission its legacy coal generation plants over the next few years. On a positive note, management has taken a proactive approach to tariff-related inflation risks by advancing its procurement for key infrastructure, however, broader economic developments may influence future costs. As a result, we are tentatively expecting mid- to high-single-digit earnings growth over the next few years.

NiSource is well positioned to benefit from long-term trends. Regional economic development, including the buildout of data centers and the potential for manufacturing reshoring, along with infrastructure modernization, provide promising tailwinds for energy demand and opportunities for investment. However, we are uncertain about the future for its ambitious clean-energy transition strategy, given the potential for policy shifts. Overall, the utility is likely to maintain a positive trajectory to late decade.

Despite the business' strengths, these untimely shares offer below-average capital appreciation potential to late decade, overall.

BUSINESS: Northwest Natural Holding Co. distributes natural gas to more than 800,000 customers in Oregon (88% of customers) and in southwest Washington state. Principal cities served: Portland and Eugene, OR; Vancouver, WA. Company buys gas supply from Canadian and U.S. producers; has transportation rights on Northwest Pipeline system. Owns local underground storage. Gas margin breakdown: residential, 65%; commercial, 25%; industrial, 6%; other, 4%. Also operates water and wastewater services across six states. Employs 1,452. BlackRock Inc. owns 16.1% of shares; Vanguard, 10.8%; Off./Dir., .93% (4/25 proxy). CEO: Justin B. Palfreyman. Inc.: Oregon. Address: 220 NW 2nd Ave., Portland, OR 97209. Tel.: 503-226-4211. Internet: www.nwnatural.com.

Northwest Natural posted a strong start to what we expect will be a wide recovery performance in 2025. Driven by the resolution of regulatory lag in the last Oregon gas utility rate case, which was settled in October, earnings per share advanced a remarkable 35% to $2.28 in the March period. This long-awaited decision allowed for the recovery of significant capital investments made over the past few years, while seasonal strength in gas demand boosted the result. Organic customer growth across all utilities added up to roughly 2.2%, while the total count increased 9.6% thanks to acquisitions, including that of SiEnergy in January, which added 73,000 gas meters in Texas. The company has been opportunistically expanding into new geographies and verticals over the past few years, including water and wastewater, to help diversify its operating footprint. With the remainder of 2025 in mind, the recent rate case should underpin a majority of the earnings recovery we have envisioned. However, management expects that expansion into water and the SiEnergy acquisition will add roughly $0.25 - $0.30 per share.

Growth will likely be more moderate and consistent both in 2026 and out to late decade. After the expected recovery in 2025, growth will probably be limited to just over 3% in 2026. The company has already filed another rate case in Oregon, seeking a revenue increase of $60 million, or 5.8%. Further out, leadership is positioned to continue its capital investment cycle, targeting system upgrades and reinforcement across the main gas utility and growing number of subsidiaries, which should amount to multiple smaller rate adjustments. Also, although the company is likely to remain active on the acquisition front, with several bolt-on deals already inked, we won't include these in our projections until they are completed. We expect these initiatives to gas up the company's growth over the 3- to 5-years.

Northwest's multi-faceted approach to reinvigorating growth should pay off with above-average long-term upside from the recent quotation. Risks are a modest consideration, with regulatory and operational complexities potentially creating headwinds.

The shares of ONE Gas, Inc. began trading "regular-way" on the New York Stock Exchange on February 3, 2014. That happened as a result of the separation of ONEOK's natural gas distribution operation. Regarding the details of the spinoff, on January 31, 2014, ONEOK distributed one share of OGS common stock for every four shares of ONEOK common stock held by ONEOK shareholders of record as of the close of business on January 21. It should be mentioned that ONEOK did not retain any ownership interest in the new company.

BUSINESS: ONE Gas, Inc. provides natural gas distribution services to more than two million customers. There are three divisions: Oklahoma Natural Gas, Kansas Gas Service, and Texas Gas Service. The company purchased 149 Bcf of natural gas supply in 2024, compared to 160 Bcf in 2023. Total volumes delivered by customer (fiscal 2024): transportation, 60.7%; residential, 28.6%; commercial & industrial, 10.1%; other, .6%. ONE Gas has around 3,900 employees. BlackRock owns 14.5% of common stock; The Vanguard Group, 11.6%; American Century Investment, 8.0%; officers and directors, 1.2% (4/25 Proxy). CEO: Robert S. McAnnally. Incorporated: Oklahoma. Address: 15 East Fifth Street, Tulsa, Oklahoma 74103. Tel.: 918-947-7000. Internet: www.onegas.com.

ONE Gas got off to an auspicious start in 2025. First-quarter earnings per share advanced 13.1%, to $1.98, relative to the prior-year tally of $1.75. That stemmed partially from benefits from new rates. Another contributing factor was higher residential sales, which reflected net customer growth in both Oklahoma and Texas. But increased depreciation & amortization expense, due to additional capital investments, provided somewhat of an offset to the good results. Also, employee-related costs climbed attributable, to a certain degree, to planned investments in the company's workforce. Still, it seems that full-year profits will grow 10%, to $4.30 a share, versus 2024's $3.91 total. Turning to 2026, the bottom line might rise at a slower (though still respectable) 5% rate, to $4.50 per share, given the tough comparison.

Finances are sound. When the March period concluded, cash on hand resided at $19.3 million (excluding $8.9 million in restricted cash). Furthermore, ONE Gas possesses a $1.3 billion revolving credit facility maturing in March, 2028. Also, at the end of the first quarter, long-term debt was a manageable 43% of total capital and short-term borrowings of $841.7 million did not appear to be a big hurdle. So, the company should continue to handle its obligations with little difficulty.

This year's capital expenditures, including asset removal costs, are expected to be roughly $750 million. (That would be moderately below the 2024 figure of $762.1 million.) The majority of the budget is devoted to system integrity and pipeline replacement projects. It's worth mentioning that the energy firm projects total spending to be $4.0 billion between 2025 and 2029, with around the same percentage of funds allocated to where they are at present. These goals seem achievable assuming, of course, that the balance sheet remains in solid shape.

What is an investor to do? The equity's dividend yield looks decent when stacked against those of other stocks in *Value Line's* Natural Gas Utility group. But at the recent quotation, capital gains potential for the pull to 2028-2030 is not alluring. These shares are ranked just 3 (Average) for Timeliness, as well.

Frederick L. Harris, III *May 23, 2025*

BUSINESS: Southwest Gas Holdings, Inc. is the parent holding company of Southwest Gas. Centuri Group spun-off in IPO 4/22/24. Southwest Gas is a regulated gas distributor serving 2.3 million customers in Arizona, Nevada, and California. 2024 revenue mix: residential 68%; small commercial, 20%; large commercial and industrial, 5%; transportation, 7%. Southwest has 2,435 employees as of 12/31/24; Centuri has 8,687. Off. & dir. own .5% of common stock; Carl C. Icahn, 13.4%; BlackRock, 12.9%; The Vanguard Group, 10.1%; Corvex Management, 6.6% (3/25 Proxy). Chairman: Michael J. Melarkey. Pres. & CEO: Karen S. Haller. Inc.: DE. Addr.: 8360 S. Durango Drive, P.O. Box 98510 Las Vegas, Nevada 89193. Telephone: 702-876-7237. Internet: www.swgas.com.

Southwest Gas has posted good but slightly underwhelming recent results. The company reported earnings per share of $1.58, reflecting a record quarterly profit figure, but still landed below our target of $1.75. The December period figure was similarly just below our expectation. For now, the ongoing separation from the Centuri Group poses an ongoing headwind to the bottom line. Southwest still maintains a majority interest in the company, post IPO, and partially recognizes its losses, which amounted to $18 million in the March quarter. The utility has performed fairly well, supported by new rates implemented in Arizona and Nevada, along with steady customer growth, having added roughly 40,000 meters in a year. This has helped the utility's operating margin to expand by nearly $40 million. Lower operating and maintenance costs also benefited, but higher depreciation and interest expenses served to offset somewhat.

We've lowered our full-year 2025 targets, but still expect good results. As a result of ongoing struggles at the Centuri Group, we have cut a dime from our bottom-line estimate, now at $3.50 per share. However, the gas utility is going strong, and we still expect overall share-earnings growth of over 25% this year, with net income around $255. However, results will likely depend on management's plans for divesting from its position in Centuri. It's worth noting that we do not take divestitures into account when presenting our forecasts, until such actions are completed. As a result, it is likely that our estimates could prove conservative.

The utility is well positioned to capitalize on investment opportunities. Market dynamics in the company's territories remain favorable, bolstered by population growth and strength in sectors such as hospitality, manufacturing, and mining. Management expects to invest more than $4 billion over the next years, providing a significant infrastructure platform from which to generate long-term returns.

The stock appears to offer below average return prospects over the 3- to 5-year horizon, however. The shares remain unranked for Timeliness, due to the ongoing corporate restructuring.

BUSINESS: Spire Inc., formerly known as the Laclede Group, Inc., is a holding company for natural gas utilities, which distributes natural gas across Missouri, including the cities of St. Louis and Kansas City, Alabama, and Mississippi. Has roughly 1.7 million customers. Acquired Missouri Gas 9/13, Alabama Gas Co 9/14. Utility therms sold and transported in fiscal 2024: 3.1 bill. Revenue mix for regulated operations: residential, 66%; commercial and industrial, 24%; transportation, 5%; other, 5%. Officers and directors own 2.3% of common shares; BlackRock, 11.9%; The Vanguard Group, 9.6% (12/24 proxy). Chairman: Rob L. Jones; CEO: Scott Doyle. Inc.: Missouri. Address: 700 Market Street, St. Louis, Missouri 63101. Tel.: 314-342-0500. Internet: www.spireenergy.com.

In April, Spire Inc. announced that its CEO Steve Lindsey was "terminated without cause." The company added, however, that the move was not because of some material or unexpected financial event. In any case, his successor Scott Doyle had been serving as the chief operating officer. (When Mr. Lindsey took a leave of absence earlier this year for health-related reasons, he filled in.) Prior to joining Spire in January of 2024, Mr. Doyle was executive vice president of utility operations at CenterPoint Energy. All things considered, we believe that the company is in capable hands.

Results have been lackluster thus far in fiscal 2025 (concludes September 30th). First-half profits of $4.85 a share were 5% lower than the previous year's $5.10 tally. That was due partly to reduced earnings from the Gas Marketing arm, reflecting less favorable market conditions combined with greater transportation and storage fees. The number of diluted shares outstanding rose, too. But the Gas Utility division and Midstream unit had improved performances during the period. Nevertheless, for the whole year, we expect Spire's bottom line to slip about 3%, to $4.05 per share, compared to fiscal 2024's $4.19 total. Regarding fiscal 2026, though, earnings per share may rebound around 5%, to $4.25. That is based, to some extent, on our assumption that the business climate is better. Improvements in operating efficiencies should also help.

The capital spending budget for this year was increased from $790 million to $840 million. (That's slightly below the fiscal 2024 level of $861.3 million.) The majority of the funds are being used for infrastructure upgrades, the installation of advanced meters, plus new business development initiatives at the utilities. Management adds that it expects total capital expenditures from fiscal 2025 through fiscal 2034 to be $7.4 billion. If finances stay healthy, the company ought to have little trouble achieving those goals.

These shares' big draw is the dividend yield. It stacks up nicely versus other Natural Gas Utility stocks covered by *Value Line*. Also, we expect more steady hikes in the payout out to 2028-2030.

Frederick L. Harris, III *May 23, 2025*

(A) Fiscal year ends Sept. 30th.
(B) Based on diluted shares outstanding. Next earnings report due late July.
(C) Dividends paid in early January, April, July, and October. ■ Dividend reinvestment plan available.
(D) Includes deferred charges. In '24: $1,171.6 mill., $20.31/sh.
(E) In millions.
(F) Quarterly earnings may not sum due to rounding or change in shares outstanding.

6.	Conclusion of Equity Risk Premium	8.05 %	8.04 %
7.	Adjusted Beta (6)	0.67	0.67
8.	Forecasted Equity Risk Premium	5.39 %	5.39 %

Notes:

(1) Based on the arithmetic mean historical monthly returns on large company common stocks from Kroll 2023 SBBI® Yearbook and Bloomberg Professional Services minus the arithmetic mean monthly yield of Moody's average Aaa and Aa2 corporate bonds from 1928-2024.

(2) This equity risk premium is based on a regression of the monthly equity risk premiums of large company common stocks relative to Moody's average Aaa and Aa2 rated corporate bond yields from 1928-2024 referenced in Note 1 above. Using the equation generated from the regression, an expected equity risk premium is calculated using the average consensus forecast of Aaa corporate bonds of 5.23% (from page 1 of this Document).

(3) The Predictive Risk Premium Model (PRPM) is discussed in the accompanying direct testimony. The Ibbotson equity risk premium based on the PRPM is derived by applying the PRPM to the monthly risk premiums between Ibbotson large company common stock monthly returns and average Aaa and Aa corporate monthly bond yields, from January 1928 through June 2025.

(4) The equity risk premium based on the Value Line Summary and Index is derived by subtracting the average consensus forecast of Aaa corporate bonds of 5.23% (from page 1 of this Document) from the projected 3-5 year total annual market return of 13.89% (described fully in note 1 on page 2 of Document No. 5 of this Document).

(5) Using data from Bloomberg Professional Services, Value Line, and S&P Global Market Intelligence for the S&P 500, an expected total return of 15.66% was derived based upon expected dividend yields as a proxy for income returns and long-term earnings growth estimates as a proxy for capital appreciation. Subtracting the average consensus forecast of Aaa corporate bonds of 5.23% results in an expected equity risk premium of 10.43%.

(6) Average of mean and median beta from page 2 of Document No. 5.

Forecasts for interest rates and the Federal Reserve's Advanced Foreign Economies Index represent averages for the quarter. Forecasts for Real GDP, GDP Price Index, CPI and PCE Price Index are seasonally adjusted annual rates of change (saar). Individual panel members' forecasts are on pages 4 through 9. Historical data: Treasury rates from the Federal Reserve Board's H.15; AAA-AA and A-BBB corporate bond yields from Bank of America-Merrill Lynch and are 15+ years, yield to maturity; State and local bond yields from Bank of America-Merrill Lynch, A-rated, yield to maturity; Mortgage rates from Freddie Mac, 30-year, fixed; SOFR from the New York Fed. *Interest rate data for 2Q 2025 based on historical data through the week ended June 20. **Data for 2Q 2025 for the Fed's AFE $ Index based on data through the week ended June 20. Figures for 2Q 2025 Real GDP, GDP Chained Price Index, Consumer Price Index, and PCE Price Index are consensus forecasts from the June 2025 survey.

Long-Range Survey:

The table below contains results of our semi-annual long-range CONSENSUS survey. There are also Top 10 and Bottom 10 averages for each variable. Shown are estimates for the years 2026 through 2031 and averages for the five-year periods 2027-2031 and 2032-2036. Apply these projections cautiously. Few economic, demographic and political forces can be evaluated accurately over such long time spans.

		Average For The Year						Five-Year Averages

Projected Market Appreciation of the S&P Utility Index
Derivation of Mean Equity Risk Premium Based Studies
Using Holding Period Returns and
Projected Market Appreciation of the S&P Utility Index

Line No.		Implied Equity Risk Premium	Implied Equity Risk Premium (excl. PRPM)
1.	Historical Equity Risk Premium (1)	4.16 %	4.16 %
2.	Regression of Historical Equity Risk Premium (2)	4.82	4.82
3.	Forecasted Equity Risk Premium Based on PRPM (3)	4.39	NA
4.	Forecasted Equity Risk Premium based on Projected Total Return on the S&P Utilities Index (Bloomberg, Value Line, and S&P Capital IQ Data) (4)	6.09	6.09
5.	Average Equity Risk Premium (5)	4.86 %	5.02 %

Notes:
(1) Based on S&P Public Utility Index monthly total returns and Moody's Public Utility Bond average monthly yields from 1928-2024. Holding period returns are calculated based upon income received (dividends and interest) plus the relative change in the market value of a security over a one-year holding period.

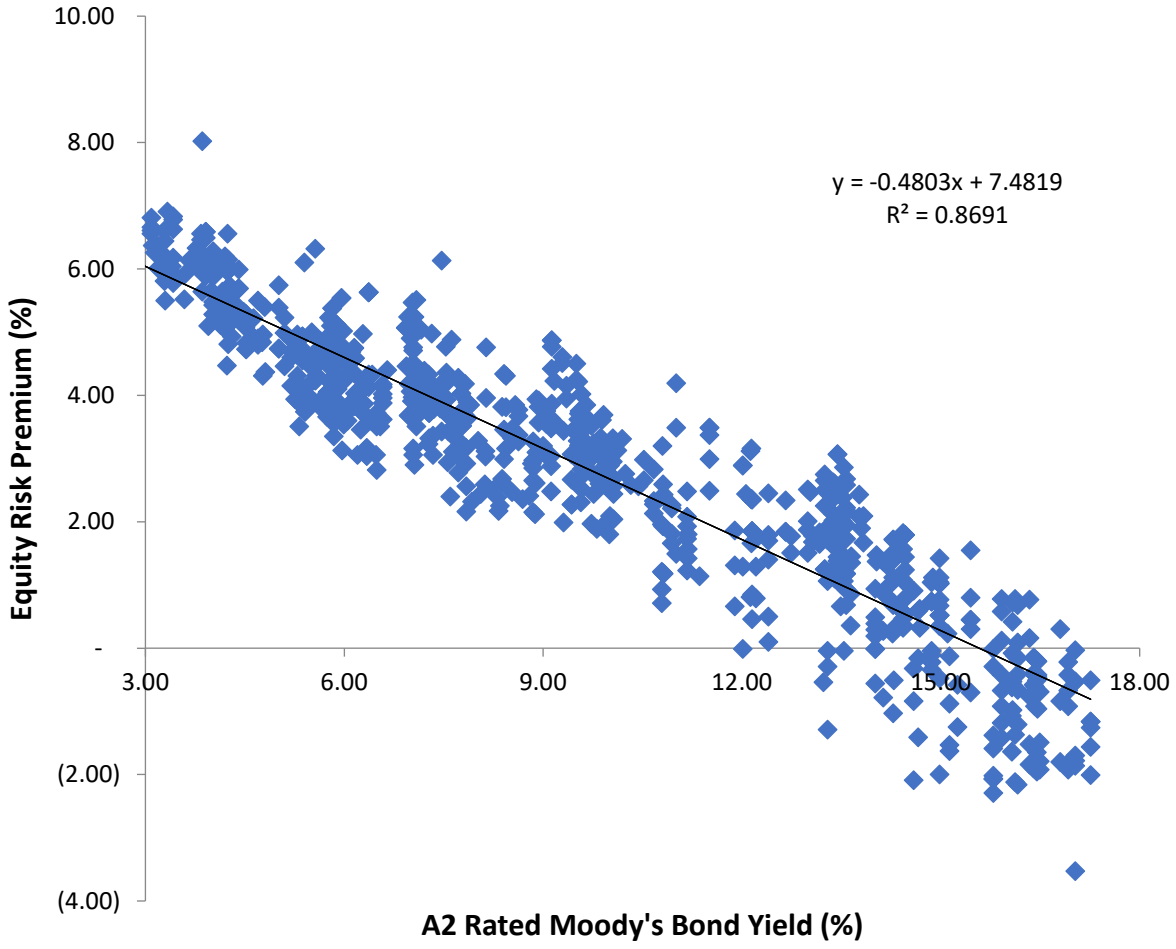
(2) This equity risk premium is based on a regression of the monthly equity risk premiums of the S&P Utility Index relative to Moody's A2 rated public utility bond yields from 1928 - 2024 referenced in note 1 above. Using the equation generated from the regression, an expected equity risk premium is calculated using the prospective A2 rated public utility bond yield of 5.71% (from line 3, page 1 of this Document).

(3) The Predictive Risk Premium Model (PRPM) is applied to the risk premium of the monthly total returns of the S&P Utility Index and the monthly yields on Moody's A2 rated public utility bonds from January 1928 through June 2025.

(4) Using data from Bloomberg, Value Line, and S&P Capital IQ for the S&P Utilities Index, an expected return of 11.80% was derived based on expected dividend yields as a proxy for income returns and long-term growth estimates as a proxy for market appreciation. Subtracting the expected A2 rated public utility bond yield of 5.71%, calculated on line 3 of page 1 of this Document results in an equity risk premium of 6.09% (11.80% - 5.71% = 6.09%).

(5) Average of lines 1 through 4.

Peoples Gas System
Prediction of Equity Risk Premiums Relative to
Moody's A2 Rated Utility Bond Yields - Electric Utilities



Constant	Slope	Prospective A2 Rated Utility Bond (1)	Prospective Equity Risk Premium

Peoples Gas System
Notes to Accompany the Application of the CAPM and ECAPM

Notes:

(1) The market risk premium (MRP) is derived by using five different measures from four sources: Kroll, Value Line, Bloomberg, and S&P Capital IQ as illustrated below:

Measure 1: Kroll Arithmetic Mean MRP (1926-2024)

Arithmetic Mean Monthly Returns for Large Stocks 1926-2024:	12.29 %
Arithmetic Mean Income Returns on Long-Term Government Bonds:	4.99
MRP based on Kroll Historical Data:	7.31 %

Measure 2: Application of a Regression Analysis to Kroll Historical Data
(1926-2024) 7.88 %

Measure 3: Application of the PRPM to Kroll Historical Data
(January 1928 through June 2025) 9.03 %

Measure 4: Value Line Projected MRP (Thirteen weeks ending July 4, 2025)

Total projected return on the market 3-5 years hence*:	13.89 %
Risk-Free Rate (see note 2):	4.60
MRP based on Value Line Summary & Index:	9.29 %

*Forcasted 3-5 year capital appreciation plus expected dividend yield

Measure 5: Bloomberg, Value Line, and S&P Capital IQ Projected Return on the Market based on the S&P 500

Total return on the Market based on the S&P 500:	15.66 %
Risk-Free Rate (see note 2):	4.60
MRP based on Bloomberg, Value Line, and S&P Capital IQ data	11.06 %

Average of all MRP Measures:	8.91 %
Average MRP Excluding the PRPM MRP:	8.89 %

(2) For reasons explained in the Direct Testimony, the appropriate risk-free rate for cost of capital purposes is the average forecast of 30 year Treasury Bonds per the consensus of nearly 50 economists reported in Blue Chip Financial Forecasts. (See pages 7 and 8 of this Document. The projection of the risk-free rate is illustrated below:

Third Quarter 2025	4.80 %
Fourth Quarter 2025	4.70
First Quarter 2026	4.70
Second Quarter 2026	4.70
Third Quarter 2026	4.60
Fourth Quarter 2026	4.60
2027-2031	4.40
2032-2036	4.30
	4.60 %

(3) Average of Column 6 and Column 7.

Peoples Gas System
Basis of Selection of the Group of Non-Price Regulated Companies
Comparable in Total Risk to the Proxy Group of Eight Natural Gas Companies

The criteria for selection of the proxy group of non-price regulated companies comparable in total risk to the proxy group of eight natural gas companies was that the non-price regulated companies be domestic and reported in Value Line Investment Survey (Standard Edition).

The proxy group of non-price regulated companies was selected based on the unadjusted beta range of 0.45 - 0.79 and residual standard error of the regression range of 2.6575 - 3.1695 of the proxy group of eight natural gas companies.

These ranges are based upon plus or minus two standard deviations of the unadjusted beta and standard error of the regression. Plus or minus three standard deviations captures 95.50% of the distribution of unadjusted betas and residual standard errors of the regression.

The standard deviation of the Utility Proxy Group's residual standard error of the regression is 0.1280. The standard deviation of the standard error of the regression is calculated as follows:

$$\text{Standard Deviation of the Std. Err. of the Regr.} = \frac{\text{Standard Error of the Regression}}{\sqrt{2N}}$$

where: N = number of observations. Since Value Line betas are derived from weekly price change observations over a period of five years, N = 259

$$\text{Thus,} \quad 0.128 = \frac{2.9135}{\sqrt{518}} = \frac{2.9135}{22.7596}$$

NA = Not Available
NMF = Not Meaningful Figure

Notes:

(1) Average of columns 2 through 4 excluding negative growth rates and extreme positive values.

(2) The application of the DCF model to the domestic, non-price regulated comparable risk companies is identical to the application of the DCF to the Utility Proxy Group. The dividend yield is derived by using the 60 day average price and the spot indicated dividend as of 6/30/2025. The dividend yield is then adjusted by 1/2 the average projected growth rate in EPS, which is calculated by averaging the 5 year projected growth in EPS provided by Value Line, www.zacks.com, and S&P Capital IQ (excluding any negative growth rates) and then adding that growth rate to the adjusted dividend yield.

(3) Results were excluded from the final average and median as they were more than two standard deviations from the proxy group's mean.

26 Garrett Direct Testimony, at 29.

27 To put the amount of time that will take these two milestones to happen in perspective, approximately 300 years ago, in the year 1719, France and Spain were at war in New France (now Louisiana), and approximately 3,476 years ago, in the year 1457 BC, the first recorded battle in military history, the Battle of Megiddo, was waged between the Egyptians, led by Pharaoh Thutmose III against Kadesh, Canaanite, Mitanni, and Amurru forces. *See also* Zager and Evans, *In the Year 2525*, *on* 2525 (Exordium & Terminus) (RCA 1968).

[36] Exhibit DJG-7.

[37] Exhibit DJG-10.

[38] Exhibit DJG-8. On page 35 of his direct testimony, Mr. Garrett states to have relied upon an average of both *Value Line* and Bloomberg betas, while his Exhibit DJG-8 indicates only betas from *Value Line* were utilized in his CAPM.

[39] Exhibit DJG-11.

[40] Garrett Direct Testimony, Figure 6, at 41; and Exhibit DJG-10.

[41] D'Ascendis Direct Testimony, at 51.

[42] *See*, Pablo Fernandez, Diego Garcia de la Garza, and Lucia Fernandez Acin, *Survey: Market Risk Premium and Risk-Free Rate used for 54 countries in 2025*, IESE Business School, May 20, 2025, at 9. Specifically, the study states: [t]he [implied equity premium] is the implicit [required equity premium] used in the valuation of a stock (or market index) that matches the current market price. The most widely used model to calculate the [implied equity premium] is the dividend discount model: the current price per share (P_0) is the present value of expected dividends discounted at the required rate of return (K_e). If d_1 is the dividend per share expected to be received in year 1, and g the expected long-term growth rate in dividends per share,
$P_0 = d_1 / (Ke - g)$, which implies:
[implied equity premium] = $d_1/P_0 + g - R_f$

[43] Aswath Damodaran, Stern School of Business, *Equity Risk Premiums (ERP): Determinants, Estimation and Implications – The 2025 Edition*, Updated March 25, 2025, at 30-31.

[44] Garrett Direct Testimony, at 38-41.

[45] Garrett Direct Testimony, at 40.

[46] *See*, http://pages.stern.nyu.edu/~adamodar.

[47] Exhibit DJG-9.

[48] Exhibit DJG-9. The model also assumes that all payments are received at year-end, rather than during the year. That assumption also tends to under-state the implied MRP.

[49] Exhibit DJG-9.

[50] Document No. 13, page 2.

[51] Document No. 13. Please note that regardless of the assumed first and terminal-stage growth rates, the terminal stage consistently represents approximately 79.00 percent of the Intrinsic Value.

[52] *See*, http://pages.stern.nyu.edu/~adamodar.

[53] Source: Bureau of Economic Analysis for the years 1929 to 2024. *See also*, https://www.bea.gov/data/gdp/gross-domestic-product.

[54] SBBI-2023, 137; Bloomberg Professional.

[55] As measured by the long-term rate of capital appreciation.

[56] For example, in line with the Federal Reserve's target average rate of inflation.

[57] 2.83 percent = [(1.0489/1.020)-1]. Please note that the long-term historical average rate of inflation, measured by the difference between real and nominal GDP growth, has been approximately 2.93 percent, which would also imply perpetual real growth of 1.91 percent. Similarly, the projected difference in nominal GDP and real GDP from the Congressional Budget Office as reported in Exhibit DJG-5 has been approximately 2.10 percent, which implies perpetual real growth of 2.73 percent.

[58] FRBSF Economic Letter, *Does Slower Growth Imply Lower Interest Rates?*, November 10, 2014, at 3.

[59] Forecast bias can be described as a tendency to either over-forecast or under-forecast a given variable.

[60] 2008 was selected as the starting year as it is the first year Kroll published its recommended MRP and risk-free rate.

[72] SBBI-2023, at 137. Note: Utility companies are included in this data set.

[73] *Value Line* also ranks stocks for Safety by analyzing the total risk of a stock compared to the approximately 1,700 stocks in the *Value Line* universe. Each of the stocks tracked in the *Value Line Investment Survey* is ranked in relationship to each other, from 1 (the highest rank) to 5 (the lowest rank). Safety is a quality rank, not a performance rank, and stocks ranked 1 and 2 are most suitable for conservative investors; those ranked 4 and 5 will be more volatile. Volatility means prices can move dramatically and often unpredictably, either down or up. The major influences on a stock's Safety rank are the company's financial strength, as measured by balance sheet and financial ratios, and the stability of its price over the past five years.

[74] Garrett Direct Testimony, at 50.

[75] Garrett Direct Testimony, at 50.

[76] This example is based on an analysis performed by Dr. Roger Morin. See, Roger A. Morin, Modern Regulatory Finance, Public Utility Reports, Inc., 2021, at 337-340.

[77] Document No. 19 is provided for illustrative purposes only. Please note that I have not relied on the results of the analysis in determining my recommended ROE or range.

INTERROGATORY NO. 125
BATES PAGE(S): 17935 - 17938
JUNE 9, 2025
REVISED: JULY 28, 2025

125. Relocation Costs. Refer to the petition at 26, the Direct Testimony of Andrew Nichols at 38-39, and the Direct Testimony of Luke Buzzard at 20-21 in regard to the new rule in Docket No. 20250020-GU, Rule 25-7.150, Florida Administrative Code, which allows recovery of relocation costs through a Natural Gas Facilities Relocation Cost Recovery Clause ("NGFRCRC"). Refer also to Exhibit AN-1, which shows budgeted capital costs by type for each of the years 2024 through 2026. Finally, refer to the relocation projects and amounts identified in the Company's response to Staff's First Set of Interrogatories, Interrogatory No. 1.

a. Identify and quantify all relocation related costs included in the Company's test year rate base, operating expenses, and capitalization, including, but not limited to, capital costs, O&M expense, depreciation expense, property tax expense, all reimbursements by project that were included in the test year that could and/or will be recovered through an NGFRCRC. Provide all quantifications in an Excel workbook in live format and with all formulas intact. Annotate the amounts included in the Excel workbook to the Company's filing schedules and/or workpapers if those schedules and/or workpapers were relied on for your response. Also identify all other source documents or other information relied on for your response.

b. Quantify the effects of the costs less reimbursements, if any, identified in response to part (a) of this question included in the base revenue requirement. Provide your quantifications in an Excel workbook in live format with all formulas intact.

ANSWER:

a. Peoples is answering this interrogatory in part by producing records as allowed under Florida Rule of Civil Procedure 1.340(c); the Excel workbook, "2024-2026 Relocation Projects Included in Rate Base - REVISED.xlsx," which reflects relocation related costs included in the company's test year rate base, including capital costs, depreciation expense, and property tax expense, that could be recovered through the Natural Gas Facility

b. As shown in the "2026 Asset Calc tab" of the file, "2024-2026 Relocation Projects Included in Rate Base - REVISED.xlsx," referred to in Part a above, relocation projects included in rate base for the projected test year and eligible for recovery through the NGFRCRC include a combined total of $50,928,458 of Plant in Service and Construction Work in Progress ("CWIP"). This total for Plant in Service and CWIP results in a 2026 Revenue Requirement of $5,845,259 for these relocation projects.

JULY 28, 2025

119. Please refer to Audit Finding 1: Land, Table 1. For each work order listed in Table 1, please provide:

a. A detailed summary of the work completed;

b. Total cost of the work order;

c. Time to complete the work order;

d. For each work order, please explain whether it should be booked in Account 374 or to another depreciable plant account and why;

e. Please provide all corresponding adjustments to the projected test year, if necessary.

ANSWER:

a. Detailed summary of the work completed on each work order:

Order	Title	Description
D0056823	Capper Station Relocation	Full cost of replacing the existing Capper Road city gate station.
D0057205	Wildwood Sabal Gate	Full cost of the Sabal Trail (City of) Wildwood city gate station.
D0073366	Sumterville Dade City Connector	Full cost of a 29-mile Dade City Connector steel pipeline project.
D0073541	Baldwin Compressor Station	Full cost to construct a natural gas compressor station in Nassau County.
D0098205	Improvements to Miami Dade Operations Center	Improvements to Property and Structure at Miami Operations Center - mandated 40-year building certification.
D0102346	Repair Asphalt and Seal Parking lot	Repair damaged asphalt at PGS Eustis Operations Center.

b. Total cost of the work order:

PEOPLES GAS SYSTEM, INC.
DOCKET NO. 20250029-GU
STAFF'S TWELFTH SET OF INTERROGATORIES
INTERROGATORY NO. 119
BATES PAGE(S): 18573 - 18575
JULY 28, 2025

Order	Title	Total Work Order Costs*
D0056823	Capper Station Relocation	$2,847,726
D0057205	Wildwood Sabal Gate	$8,359,739
D0073366	Sumterville Dade City Connector	$71,424,512
D0073541	Baldwin Compressor Station	$24,818,330
D0098205	Improvements to Miami Dade Operations Center	$108,158
D0102346	Repair Asphalt and Seal Parking lot	$16,796

*Actual costs through June 2025

c. Time to complete each work order:

Order	Title	Months to Complete
D0056823	Capper Station Relocation	76
D0057205	Wildwood Sabal Gate	98
D0073366	Sumterville Dade City Connector	65*
D0073541	Baldwin Compressor Station	54
D0098205	Improvements to Miami Dade Operations Center	33
D0102346	Repair Asphalt and Seal Parking lot	4

*In service in 2023, trailing costs expected to continue through Sept 2025.

d. Plant account explanation:

D0056823 – Capper Road Gate Station Relocation. The amount ($35,157 in account 101 Plant in Service) in the land account 374, is properly classified.

D0057205 – Wildwood Sabal Gate Station. The amount ($805,757 in account 101 Plant in Service) in the land account 374, is properly classified.

D0073366 – Sumterville Dade City Connector. This project is estimated to be completed and unitized to account 101 in Q3 2025. When unitized, the balance in account 106, plant account 374, will be reversed and a final posting in account 101, plant account 374 will be created. As of June 2025, the amount in account 106, plant account 374 is $11,173,796. When unitized, the anticipated amount that will post in account 101, plant account 374 will be approximately $10,000,000.

FPSC EXH NO. 68
ADMITTED

PEOPLES GAS SYSTEM, INC.
DOCKET NO. 20250029-GU
STAFF'S TWELFTH SET OF INTERROGATORIES
INTERROGATORY NO. 119
BATES PAGE(S): 18573 - 18575
JULY 28, 2025

D0073541 – Baldwin Compressor Station. The amount ($5,170,485 in account 101 Plant in Service) in the land account 374, is properly classified.

D0098205 – Improvements to the Miami Dade Operations Center. This project is in the process of being unitized to Plant in Service (account 101), from Completed Construction Not Classified (account 106). This is a standard, continuous process to unitize work orders to the proper retirement level depreciation account. This process will unitize the total amount ($108,158) of the project to the Structures and Improvements depreciable account (account 375).

D0102346 – Repair Asphalt and Seal Parking lot at the Eustis Operating Center. The asset ($16,796 account 101, plant account 374) will be transferred to account 375 Structures and Improvements.

e. Adjustments to the projected test year, if necessary:

If adjustments were made to the projected test year, depreciation expense would increase by approximately $32,000 while rate base would decrease approximately $100,000 due to the change in accumulated depreciation. This would result in an increase in the revenue requirement in the test year. However, these adjustments are not material, and, since the unitization of work orders is an ongoing process, no changes to the projected test year are necessary.

BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION

In re: Petition for Rate Increase by Peoples Gas System, Inc.	DOCKET NO. 20250029-GU DATED: August 13, 2025

2025 STIPULATION AND SETTLEMENT AGREEMENT

THIS AGREEMENT is dated this 13th day of August, 2025 and is by and between Peoples Gas System, Inc. ("Peoples" or the "company"), the Office of Public Counsel ("OPC" or "Citizens"), and the Florida Industrial Power Users Group ("FIPUG"). Collectively, Peoples, OPC, and FIPUG shall be referred to herein as the "Parties" and the term "Party" shall be the singular form of the term "Parties." OPC and FIPUG will be referred to herein as the "Consumer Parties." This agreement, including the Exhibits appended hereto, shall be referred to as the "2025 Agreement."

Background

On March 31, 2025, Peoples filed a Petition for Rate Increase ("Petition") with the Florida Public Service Commission ("Commission" or "FPSC"), along with Minimum Filing Requirement schedules ("MFRs") and pre-filed direct testimony and exhibits of 11 expert witnesses in support of its Petition (collectively "Initial Rate Case Filing").

OPC and FIPUG intervened in the docket and have engaged in comprehensive and extensive discovery, including written discovery and depositions. OPC and FIPUG filed expert witness testimony challenging the merits of the company's Petition. The Commission held customer service hearings on July 14, 16, and 17, 2025, providing a platform for public input. On July 28, 2025, Peoples filed rebuttal testimony and exhibits of seven expert witnesses.

FPSC EXH NO. 70
ADMITTED
K17

In its Petition, Peoples requested final approval for a $103,591,089 permanent annual increase in general base rates and charges effective with the first billing cycle of January 2026. This amount included $6,733,295 of revenue currently being recovered via the company's Cast Iron/Bare Steel Replacement Rider ("Rider CI/BSR"). It also requested final approval for approval of a subsequent year adjustment of $26,709,076 to be effective with the first billing cycle in January 2027 ("2027 SYA"). The company's Petition requested that the Commission approve a return on equity of 11.1 percent, an equity ratio of 54.7 percent, and certain cost-of-service and rate design modifications and tariff wording changes.

Peoples responded to hundreds of interrogatories and produced over 18,000 pages of documents to assist the FPSC Staff and Consumer Parties in their thorough evaluation of the company's proposals. The FPSC Staff conducted an audit of the company's Rate Case filing and experts of the Parties exchanged information and conducted extensive discovery, including over 13 depositions. As a result of these activities, the Consumer Parties and Peoples are well informed about the issues presented in the company's Initial Rate Case Filing and the risks and costs associated with further litigation.

Accordingly, the Parties have undertaken to resolve by agreement to settle the issues presented by the company's Petition to maintain predictability with respect to Peoples' base rates and charges and to avoid the inherent risks, uncertainties, dedication of resources, and costs of further litigation. The Parties have entered into this 2025 Agreement in compromise of positions in accordance with their rights and interests under Chapters 120, 350, and 366, Florida Statutes, as applicable, and believe that this 2025 Agreement completely and fairly resolves all of the issues presented and is in the public interest. As part of a negotiated exchange of consideration among the Parties to this 2025 Agreement, each Party has agreed to concessions to the others with the

K17

FPSC EXH NO. 70
ADMITTED
K18

expectation, intent, and understanding such that all provisions of the 2025 Agreement, upon approval by the Commission, will be enforced by the Commission as to all matters addressed herein with respect to all Parties.

NOW, THEREFORE, in consideration of the foregoing, and the mutual covenants contained herein, which the Parties agree and acknowledge constitute good and valuable consideration, the Parties hereby stipulate and agree as follows:

Terms

1. Term.

This 2025 Agreement will become effective upon the date of the Commission's vote approving it ("Effective Date") and, except as specified otherwise herein, shall continue through and including December 31, 2028, such that, except as specified in this 2025 Agreement, no base rates, charges, or credits or rate design methodologies will be changed with an effective date before January 1, 2029. The period from the Effective Date through December 31, 2028 (subject to Paragraph 8) shall be referred to herein as the "Term." The Parties retain all rights unless such rights are expressly waived, expressly limited, or expressly eliminated by the terms of this 2025 Agreement. Upon expiration of the Term or termination of the 2025 Agreement pursuant to Paragraph 8, the provisions of this 2025 Agreement shall terminate or remain in effect as specified herein.

2. Return on Equity and Equity Ratio.

Beginning January 1, 2026, Peoples' authorized return on common equity ("ROE") shall be within a range of 9.3 percent to 11.30 percent ("ROE range"), with a mid-point of 10.30 percent ("mid-point") and its equity ratio (investor sources with any difference to actual equity ratio spread ratably over long-term debt and short-term debt) shall be 54.7 percent. This midpoint return on

K18

FPSC EXH NO. 70
ADMITTED

equity and equity ratio shall be used for all regulatory purposes from January 1, 2026 to the end of the Term (and thereafter until the company's general base rates and charges are revised by a future agreement of the Parties approved by a Final Order of the Commission or a Final Order of the Commission issued as the result of the next subsequent general base rate proceeding), including, but not limited to, cost recovery clauses, riders, recovery mechanism(s), earnings surveillance reporting, authorizing a potential exit from this 2025 Agreement pursuant to Paragraph 8, calculating the company's Allowance for Funds Used During Construction ("AFUDC"), and calculating interim rates to the extent allowed herein. The Parties agree that the company's weighted average cost of capital ("WACC") during the term of this 2025 Agreement shall be 7.18 percent as shown on Exhibit A.

3. Annual Revenue Increases.

(a) *2026 Increase.* The Parties agree that Peoples shall be authorized to change its base rates and charges for a net annual revenue increase amount of $60,000,000 in addition to the $6,733,295 of revenue currently being recovered from customers via the Rider CI/BSR for a total of $66,733,295 ("2026 Increase"), effective with the first billing cycle of January 2026. This is a negotiated amount that reflects, for example, the Commission's approval of the company's proposal to adjust the OSS sharing percentage to 50-50 and the company's proposal to remove natural gas facility relocation costs from base rates and is the result of give and take among the parties based on their thoughtful consideration of the positions they took in the case. The 2026 Increase shall be reflected in customer bills using the revenue allocations, billing determinants, rate design considerations, and tariff provisions specified in Paragraph 4, below.

(b) *2027 Increase.* The Parties agree that Peoples shall be authorized to change its base rates and charges for an additional annual revenue increase amount of $25,000,000 ("2027

FPSC EXH NO. 70
ADMITTED
K20

Increase") effective with the first billing cycle of January 2027. This is a negotiated amount that does not include any Rider CS/BSR roll-over and that reflects give and take among the parties based on their evaluation of the risks of litigation and the positions they took in the case. The 2027 Increase shall be reflected in customer bills using the cost-of-service principles, billing determinants, rate design considerations, and tariff provisions specified in Paragraph 4, below.

(c) *Pressure and Capacity Improvements Base Rate Increase.* The Parties acknowledge that the addition of natural gas-fired standby electric generators, especially in some areas of the company's natural gas distribution system, has presented operating challenges during electric outages. This is particularly relevant when the demand caused by natural gas-fired standby electric generators peaks at levels higher than anticipated when the Peoples' system was originally designed and placed in service. Recognizing the importance of natural gas-fired standby electric generators to customer service and fortifying Florida's energy resilience, the Parties agree that, as a specific exception to the general base rate freeze in Paragraph 5 of this 2025 Agreement, the company may file a limited-proceeding petition with the Commission for an annual base rate increase of up to $5 million to be effective in calendar year 2028 ("Pressure and Capacity Improvements Base Rate Increase") subject to the following conditions:

(i) the proposed Pressure and Capacity Improvement Base Rate Increase must be supported by a capacity improvement capital plan ("Capacity Plan") based on a comprehensive and well-defined engineering/hydraulic study that specifies the system improvements to be made, any proposed phasing of the work, the associated costs, and the anticipated in-service dates for the improvements;

(ii) the timing of the effective date of the Pressure and Capacity Improvement Base Rate Increase must reasonably correspond with the period in which the company demonstrates that

K20

FPSC EXH NO. 70
ADMITTED
K21

it has incurred engineering and design expenses such that the project is at a CLASS 3 level of design/cost estimate and has received the requisite budget and expenditure authorization necessary to implement the Capacity Plan beginning in and throughout the portion of 2028 (and thereafter) for which the optional 2028 Pressure and Capacity Improvements Base Rate Increase will be in effect; and

(iii) the revenue requirement for the capacity improvement capital project(s) shall be calculated using the weighted average cost of capital specified in this agreement, the company's approved depreciation rates, the then existing federal and state income tax rates, and reasonable estimates of related operations and maintenance and property tax expenses. Any proceeding conducted pursuant to this subparagraph shall be a limited proceeding and shall not expand into a "base rate case" type inquiry into the operations, investments, and finances of the company.

4. Class Revenue Allocations, Billing Determinants, Rate Design, and Customer Rates.

(a) *2026 Increase.* Effective with the first billing cycle in January 2026, the company shall be authorized to change its base rates and charges for a net annual revenue increase amount of approximately $66,733,295 based on the 2026 billing determinants reflected in the company's Initial Rate Case Filing in this proceeding and the cost recovery revenue allocation shown on Exhibit B. Clean and redline versions of the updated and agreed-to tariffs reflecting the customer rates and charges and other terms and conditions of service specified herein to become effective with the first billing cycle in January 2026 are attached to this 2025 Agreement as Exhibit C. In addition to the rates reflected in them, the Parties agree to the Miscellaneous Service Charges as proposed in the prepared direct testimony of Luke Buzard and to the non-rate related wording changes reflected in Exhibit C. Approval of this 2025 Agreement by the Commission shall

K21

FPSC EXH NO. 70
ADMITTED

constitute approval of the attached tariffs. The parties agree that the file and suspend provisions in Section 366.06, Florida Statutes, referenced in this subparagraph, to the extent applicable, have been satisfied by the company's Initial Rate Case Filing and related Commission action, including approval of the 2025 Agreement, in this docket.

(b) *2027 Increase.* Effective with the first billing cycle in January 2027, the company shall be authorized to change its base rates and charges for an additional net annual revenue increase amount of $25,000,000. The company shall develop the base rates and charges for this increase using the cost recovery revenue allocation shown on Exhibit B and the billing determinants for 2027 that the company will use to develop its cost recovery clause and rider factors for 2027. The company shall file its proposed tariffs to implement the 2027 Increase and supporting schedules no later than July 31, 2026, to enable the Commission to consider and approve the tariffs such that the company may provide timely notice to customers and to implement the new tariffs effective with the first billing cycle of 2027. The parties agree that the file and suspend provisions in Section 366.06, Florida Statutes, referenced in this subparagraph, to the extent applicable, have been satisfied by the company's Initial Rate Case Filing and related Commission action, including approval of the 2025 Agreement, in this docket.

(c) *Pressure and Capacity Improvements.* If the company satisfies the conditions in subparagraph 3(c) and elects to make the change authorized therein, the company shall be authorized to petition the Commission to change its base rates and charges for an additional net annual revenue increase amount of up to $5,000,000, effective no earlier than the first billing cycle in January 2028. The company shall develop the base rates and charges for this increase using the cost recovery revenue allocation shown on Exhibit B and the billing determinants for 2028 that the company will use to develop its cost recovery clauses and rider factors for 2028. The company

FPSC EXH NO. 70
ADMITTED

shall file its petition, proposed tariffs, and supporting documentation to implement subparagraph 3(c) on a time schedule that will allow the Commission, Consumer Parties, and any other intervenors adequate time to evaluate and act on the company's proposal such that the proposed tariffs can be implemented on the company's proposed effective date. The parties agree that a proceeding filed pursuant to subparagraph 3(c) shall be a limited proceeding under Section 366.076, Florida Statutes, and that the application of the file and suspend provisions in Section 366.06, Florida Statutes, to the tariffs referenced in this subparagraph, will be consistent with Commission precedent and policy.

(d) Except as specified in this 2025 Agreement, the company's general base rates, charges, credits, and rate design methodologies for gas distribution services specified in this paragraph shall remain in effect for billing cycles through and including December 31, 2028, and thereafter until revised by a future agreement of the Parties approved by a Final Order of the Commission or a Final Order of the Commission issued as the result of the company's next subsequent general base rate proceeding; however, nothing in this 2025 Agreement shall limit the ability of the company to begin collecting proposed new base rates and charges or a portion thereof subject to refund effective after the first billing cycle in January 2029 if the eight-month period of withheld consent specified in Section 366.06(3), Florida Statutes, for a general base rate case petition filed after January 1, 2028, has expired.

(e) With respect to cost recovery clauses and riders that recover plant investment costs, for rates that will first go into effect after January 1, 2026, it is the intent of the Parties that the company shall use the midpoint return on equity, equity ratio, and WACC specified in Exhibit A and the company shall allocate among its respective rate schedules the annual cost recovery amounts to be recovered by applying the cost recovery revenue distribution shown on Exhibit B,

FPSC EXH NO. 70
ADMITTED
K24

and that the midpoint return on equity, equity ratio, and WACC shown in Exhibit A and the revenue distribution in Exhibit B shall be used in cost recovery clauses and riders that recover plant investment costs until the company's general base rates and charges are revised by a future agreement of the Parties approved by a Final Order of the Commission or a Final Order of the Commission issued as the result of the next subsequent general base rate proceeding.

(f) The company may implement its proposal to move from three residential rate classes to two (as reflected in the company's Petition and the prepared direct testimony of Luke Buzard), effective with the first billing cycle of January 2026.

5. Base Rate Freeze and Other Cost Recovery.

(a) Except as expressly provided in this 2025 Agreement, and as part of the base rate freeze, the general base rates, charges, credits, cost allocation or rate design methodologies for gas service shall not be changed with an effective date for any such changes earlier than January 1, 2029.

(b) The company may continue to implement the Rider CI/BSR during the term of this agreement, will not seek to add new categories of costs for recovery under its Rider CI/BSR as authorized by Orders No. PSC-2012-0476-TRF-GU and PSC-2017-0066-AS-GU, during the term of the agreement, and, except as specified in Paragraph 3(a), will not roll-over Rider CI/BSR revenues into base rates until its next general base rate case. To the extent there are any, the company will not seek recovery of any problematic plastic pipe ("PPP") costs associated with the Tampa Downtown project or any other PPP costs included for recovery in its Initial Rate Case Filing in the company's filing through its Rider CI/BSR.

(c) Nothing in this 2025 Agreement shall preclude the company from requesting the Commission to approve the recovery of costs that are: (i) of a type which traditionally or

K24

FPSC EXH NO. 70
ADMITTED

historically would be, have been, or are presently recovered through existing or newly enacted cost recovery clauses or riders, or (ii) incremental costs not currently recovered in base rates which the Legislature expressly requires shall be clause recoverable.

(d) Except as specified in this 2025 Agreement, the company shall not seek to recover, nor shall the company be allowed to recover, through any cost recovery clause or charge, or through the functional equivalent of such cost recovery clauses and charges, costs of any type or category that have historically or traditionally been recovered in base rates, unless such costs are: (i) the direct and unavoidable result of new governmental impositions or requirements such as, for example and without limitation, new natural gas safety requirements; or (ii) new or atypical costs that have not been litigated before the Commission because they were unforeseeable (in contrast to, for instance, pandemic costs) and could not have been contemplated by the Parties resulting from significantly changed industry-wide circumstances directly affecting the company's operations.

(e) The company will not seek Commission approval to defer for later recovery in rates, any costs incurred or reasonably expected to be incurred (such as those which have been litigated before the Commission (e.g. pandemic costs)), from the Effective Date through and including December 31, 2028, which are of the type which historically or traditionally have been or would be recovered in base rates, unless such deferral and subsequent recovery is expressly authorized herein or otherwise agreed to in writing signed by each of the Parties.

(f) The Consumer Parties are not precluded from participating in any proceedings pursuant to Paragraph 6 on storm costs, nor is any Party precluded from raising any issues pertinent to any such proceedings or the enforcement of this 2025 Agreement. This Paragraph 5 shall expire at the end of the Term or upon termination of the 2025 Agreement pursuant to Paragraph 8.

FPSC EXH NO. 70
ADMITTED

6. Storm Accrual, Reserve, and Damage Cost Recovery.

(a) The company shall maintain its annual storm reserve accrual at the current level of $380,000 and its existing storm reserve target of $3.8 million

(b) Nothing in this 2025 Agreement shall preclude the company from petitioning the Commission to seek recovery of costs associated with any tropical systems named by the National Hurricane Center or its successor without the application of any form of earnings test or measure and irrespective of previous or current base rate earnings.

(c) Consistent with the rate design and cost allocation methods approved in this 2025 Agreement, the Parties agree that recovery of storm costs, incurred after the Effective Date, from customers will begin on an interim basis (subject to refund following a hearing or a full opportunity for a formal proceeding) sixty days following the filing by the company of a cost recovery petition and tariff with the Commission.

(d) All storm related costs for recovery under this paragraph shall be calculated and disposed of pursuant to Rule 25-7.0413, Florida Administrative Code, and shall be limited to: (i) costs resulting from such tropical system named by the National Hurricane Center or its successor; (ii) the estimate of incremental storm restoration costs above the level of storm reserve prior to the storm; and (iii) the replenishment of the storm reserve to the $3.8 million target amount.

(e) The Consumer Parties are not precluded from participating in any storm cost recovery proceeding or opposing the amount of Peoples' claimed costs (for example, and without limitation, on grounds that such claimed costs were not reasonable or were not prudently incurred) or whether the proposed recovery is consistent with Paragraph 6.

(f) The Parties expressly agree that any proceeding to recover costs associated with any storm shall not be a vehicle for a "rate case" type inquiry concerning the expenses, investment,

FPSC EXH NO. 70
ADMITTED
K27

or financial results of operations of Peoples and shall not apply any form of earnings test or measure or consider previous or current base rate earnings. Such issues may be fully addressed in any subsequent Peoples base rate case.

(g) The provisions of this Paragraph 6 shall remain in effect during the Term except as otherwise permitted or provided for in this 2025 Agreement and shall continue in effect until the company's base rates are next reset by the Commission. For clarity, this means that if this 2025 Agreement is terminated pursuant to Paragraph 8 hereof, the company's rights regarding storm cost recovery under this 2025 Agreement are terminated at the same time, except that any Commission-approved surcharge then in effect shall remain in effect until the costs subject to that surcharge are fully recovered. A storm surcharge in effect without approval of the Commission shall be terminated at the time this 2025 Agreement is terminated pursuant to Paragraph 8 hereof.

7. Depreciation.

(a) The Parties agree and intend that, notwithstanding any requirements of Rule 25-7.045, Florida Administrative Code, the company shall not be required during the Term of this 2025 Agreement to file any depreciation study. The depreciation and amortization accrual rates included in the company's initial filing for the 2026 test year shall remain in effect during the Term or until the company's next depreciation study and resulting depreciation rates, whichever is later. Without limiting the generality of this provision, the amortization period for the company's work and asset management ("WAM") system software shall be 20 years effective January 1, 2026, and the company shall create its proposed new WAM subaccount effective January 1, 2026.

(b) Notwithstanding the provisions of subparagraph 7(a) above, the company shall file a depreciation study no more than one year, nor less than 60 days, before the filing of its next general base rate proceeding. The depreciation study period shall complement the test year in the

K27

FPSC EXH NO. 70
ADMITTED

MFRs accompanying the general base rate case filed in accordance with this subparagraph, with all supporting data in electronic format with links, cells, and formulae intact and functional, and shall be timely served upon all Consumer Parties and all intervenors in such subsequent rate case.

8. Earnings.

(a) Notwithstanding Paragraph 2, if the company's earned return on common equity falls below 9.30 percent during the Term on a compliant monthly earnings surveillance report stated on an actual Commission thirteen-month average adjusted basis, Peoples may petition the Commission to amend its base rates either through a general rate proceeding under Sections 366.06 and 366.07, Florida Statutes, or through a limited proceeding under Section 366.076, Florida Statutes. Nothing in this 2025 Agreement shall be construed as an agreement by the Consumer Parties that a limited proceeding would be appropriate, and Peoples acknowledges and agrees that the Parties reserve and retain all rights to challenge the propriety of any limited proceeding or to assert that any request for base rate changes should properly be addressed through a general base rate case, as well as to challenge any substantive proposals to change the company's rates in any such future proceeding. For purposes of this 2025 Agreement, the terms "Commission actual adjusted basis" and "actual adjusted earned return" shall mean results reflecting all adjustments to Peoples' books required by the Commission by rule or order, excluding pro forma adjustments. No Consumer Party shall be precluded from participating in any proceeding initiated by Peoples to increase base rates pursuant to this Paragraph 8, and no Consumer Party is precluded from opposing or seeking to modify Peoples' request.

(b) Notwithstanding Paragraph 2, if Peoples' earned return on common equity exceeds 11.30 percent during the Term on a compliant monthly earnings surveillance report stated on an

FPSC EXH NO. 70
ADMITTED
K29

actual Commission thirteen-month average adjusted basis, no Party shall be precluded from petitioning the Commission for a review of Peoples' base rates and charges.

(c) Notwithstanding Paragraph 1, this 2025 Agreement shall terminate upon the effective date of any Final Order of the Commission issued in any proceeding initiated pursuant to this Paragraph 8 that changes Peoples' base rates prior to the last billing cycle of December 2028.

(d) This Paragraph 8 shall not: (i) be construed to bar Peoples from requesting any recovery of costs otherwise contemplated by this 2025 Agreement; (ii) apply to any request to change Peoples' base rates that would become effective after the expiration of the Term of this 2025 Agreement; or (iii) limit any Party's rights in proceedings concerning changes to base rates that would become effective subsequent to the Term of this 2025 Agreement to argue that Peoples' authorized ROE range should be different than as set forth in this 2025 Agreement.

(e) Notwithstanding any other provision of this 2025 Agreement, the Parties fully and completely reserve all rights available to them under the law to challenge the level or rate structure (or the cost-of-service or cost allocation methodologies underlying them) of Peoples' base rates, charges, credits, and rate design methodologies effective as of January 1, 2029, or thereafter.

9. Corporate Income Tax Changes.

(a) Changes to federal and state corporate income tax rules after the Effective Date of this 2025 Agreement ("Tax Changes") can take many forms, including changes to corporate income tax rates, deductibility of costs, and the timing of deductibility of certain costs. It can also affect the availability of existing or new tax credits. Tax Changes can impact the effective corporate income tax rate used by a utility to (1) calculate and report FPSC adjusted net operating income and (2) measure existing and prospective deferred income tax assets and liabilities in the FPSC adjusted capital structure. Corporate income tax rate decreases will decrease the statutory

K29

FPSC EXH NO. 70
ADMITTED

tax rate used to calculate net operating income and generate excess accumulated deferred income tax ("ADIT") excesses. Corporate income tax rate increases will increase the statutory tax rate used to calculate net operating income and create ADIT deficiencies.

(b) If Tax Changes are enacted and become effective after this 2025 Agreement has been executed by the Parties and during the Term, the following provisions shall apply:

(i) The company will quantify the impact of Tax Changes on its Florida Jurisdictional base revenue requirement as projected in its forecasted earnings surveillance report for the calendar year that includes the period in which Tax Changes are effective.

(ii) *ADIT Generally*. Any excess ADIT or ADIT deficiencies arising from Tax Changes shall be deferred to a regulatory asset or liability which shall be included in the FPSC adjusted capital structure and flowed back to or collected from customers over a term consistent with law and the terms of this proposal.

(iii) *Deferred Taxes - Depreciation-related method and life differences ("protected") deferred taxes*. If the law causing the Tax Changes contains requirements governing the remeasurement of depreciation-related method and life differences/protected deferred taxes at the new corporate income tax rate – up or down – the company will follow those requirements. If the Tax Changes law does not contain requirements for depreciation-related method and life differences/protected deferred taxes, the company shall remeasure the ADIT arising from depreciation-related method and life differences – up or down – and adjust them up or down ratably over the total average remaining book life of the assets associated with the depreciation-related method and life differences.

(iv) *Unprotected Deferred Taxes or Deferred Taxes not governed by (iii)*. If the Tax Changes law does not contain requirements governing the remeasurement of the kinds of ADIT

FPSC EXH NO. 70
ADMITTED
K31

that are currently not considered "protected" and the corporate income tax rate goes up or down, the company shall net any amount of unamortized excess ADIT remaining on its books as of the effective date of Tax Changes against the total unprotected ADIT excess or deficiency arising from Tax Changes and there shall be a rebuttable presumption that the company shall amortize the resulting net ADIT excess or deficiency ratably as follows: (I) if the cumulative net regulatory asset or liability is equal to or less than $10 million, the flow-back period shall be five years or (II) if the cumulative net regulatory asset or liability is more than $10 million, the flow-back period shall be ten years The company reserves the right to demonstrate by clear and convincing evidence that such five or ten year maximum period (as applicable) is not in the best interests of the company's customers and should be increased to no more than 50 percent of the remaining life of the assets associated with the Excess or Deficient Deferred Taxes ("Fifty Percent Rule"). The relevant factors to support the company's demonstration include, but are not limited to, the impact the flow-back period would have on the company's cash flows and credit metrics or the optimal capitalization of the company's regulated operations in Florida. If the company demonstrate, by clear and convincing evidence, that limiting the flow back period to the 50 Percent Rule, in conjunction with other Tax Reform provisions related to deferred taxes will be the sole basis causing a full notch credit downgrade by each major rating agency that rates the company's debt, as expressly reflected in publicly available reports, the company may seek a longer flow-back period.

(v) The impacts of Tax Changes, including, without limitation, rate changes, the remeasurement of deferred taxes to reflect new tax rates, and changes to the availability of existing and new tax credits and other similar tax benefits on a normalized basis (when the Internal Revenue Code or regulations require normalization) on base revenue requirements – up or down – will be

K31

FPSC EXH NO. 70
ADMITTED

reflected in the company's general base rates and charges through a prospective adjustment to those rates and charges to be effective within the later of: (a) 180 days from the date when Tax Changes become law or (b) the effective date of Tax Changes. This prospective adjustment to base rates and charges shall be accomplished through an equal percentage change – up or down – to customer and distribution base rate charges as applicable for all customer billing classes.

(vi) Any effects of Tax Changes on retail revenue requirements from the effective date through the date of the base rate adjustment shall be flowed back to or collected from customers through the Natural Gas Conservation Cost Recovery Clause on the same basis as used in any base rate adjustment under this 2025 Agreement.

(d) The action contemplated in this Paragraph 9 shall be accomplished in a limited proceeding initiated by the company and, except as required to perform the calculation in subparagraph 9(b)(i), without regard to the actual or projected earnings levels of the company and without a "base rate case" type inquiry into the operations, investments, and finances of the company. Nothing in this 2025 Agreement shall preclude any Party or any other lawful party from participating, consistent with the full rights of an intervenor, in any proceeding that addresses any matter or issue concerning the Tax Change provisions of this 2025 Agreement.

(e) This Paragraph 9 shall expire at the end of the Term or upon termination of the 2025 Agreement pursuant to Paragraph 8.

10. Other.

(a) *Natural Gas Facilities Relocation Cost Recovery Clause*. The Parties agree to the company's proposal to remove recovery of natural gas facilities relocation costs from the base rates as proposed in the rebuttal testimony of Luke Buzard so that those costs may earn a return and be recovered through the Natural Gas Facilities Relocation Cost Recovery Clause and further

FPSC EXH NO. 70
ADMITTED

agree that this change as shown in Document No. 3 of Exhibit AN-2 to Andrew Nichols' rebuttal testimony has been reflected in the annual revenue increase specified in Paragraph 3(a). Consistent with Paragraph 5, the company will ensure that any filing it makes for cost recovery under the new Natural Gas Facilities Relocation Cost Recovery Clause will not include costs that otherwise have been included in the base rates approved in this 2025 Agreement.

(b) *AMI.* The Parties agree that the company shall be authorized to, and the company agrees to, proceed with the AMI pilot as proposed by the company and as reflected on pages 34 and 35 of the prepared direct testimony of Timothy O'Connor.

(c) *Economic Development Expenses.* The company may incur and recover through base rates and charges the net amount of $388,740 (95 percent of the 2026 forecasted amount of $409,200) for qualifying economic development expenses for its projected 2026 test year. In accordance with Rule 25-7.042, Florida Administrative Code, Peoples' economic development expense amounts reported for surveillance reports and earnings review calculations in 2026 and subsequent years shall be limited to the greater of: (a) $388,740 escalated for customer growth since 2026 or (b) 95 percent of the expenses incurred for the reporting period, so long as such amount does not exceed the lesser of 0.15 percent of gross annual revenues or $3 million (approximately $1.2 million for 2026).

(d) *Parent Debt Adjustment.* Peoples shall reflect a parent debt adjustment in the amount of $2.967 million in determining its FPSC adjusted net operating income that is reported to the Commission in its quarterly earnings surveillance reports.

(e) *MGP Amortization.* The company shall continue to annually record $1.0 million of MGP amortization expense as shown on MFR Schedule G-2, page 1, line 7.

FPSC EXH NO. 70
ADMITTED

(f) *TIMP*. Peoples shall continue to use reserve accounting treatment for its Transmission Integrity Management Program ("TIMP"), to accrue a levelized TIMP expense of $2.7 million effective January 1, 2026, to address expected continuing volatility in TIMP spending, and to reflect any difference between the actual cumulative spending and cumulative expense accrual as a regulatory asset or liability.

(g) *Non-Capitalizable Software Implementation Costs*. Peoples may continue its existing accounting treatment for non-capitalizable software implementation costs and may amortize the associated regulatory asset over the authorized five-year period.

(h) *Rate Case Expenses*. The company shall account for rate case expenses as proposed on pages 63 and 64 of the prepared direct testimony of Andrew Nichols.

(i) *2027 Meeting*. The parties shall meet during the first half of 2027 to discuss, in good faith, rate design and other regulatory options for evaluating the allocation of growth's impact on customers.

11. New Tariffs. Nothing in this 2025 Agreement shall preclude Peoples from filing and the Commission from approving any new or revised tariff provisions or rate schedules required by law or FPSC rule changes. Likewise, nothing in this 2025 Agreement shall preclude Peoples from filing and the Commission from approving any new or revised tariff provisions or rate schedules as requested by Peoples, provided that any such tariff request does not (i) recover any of the same costs previously collected under base rates or another tariff provision and (ii) increase any existing base rate component of a tariff or rate schedule, or any other charge imposed on customers during the Term unless the application of such new or revised tariff, rate schedule, or charge is optional to Peoples' customers. This Paragraph 11 shall expire at the end of the Term or upon termination of the 2025 Agreement pursuant to Paragraph 8.

FPSC EXH NO. 70
ADMITTED

12. Application of 2025 Agreement. No Party to this 2025 Agreement will request, support, or seek to impose a change to any term or provision of this 2025 Agreement. Except as specifically provided in this 2025 Agreement, no Party will either seek or support any reduction in Peoples' base rate charges, or credits, including limited, limited-scope, interim, or any other rate decreases, or changes to rate design methodologies, that would take effect prior to the first billing cycle for January 2029, except for any reductions in base rates or charges (but not customer credits) requested by Peoples or as otherwise provided for in this 2025 Agreement. Peoples shall not seek interim, limited, or general base rate relief during the Term except as provided for in this 2025 Agreement. Peoples is not precluded from seeking interim, limited, or general base rate relief that would be effective during or after the first billing cycle in January 2029, nor are the Consumer Parties precluded from opposing such relief.

13. Commission Approval.

(a) The provisions of this 2025 Agreement are contingent on approval of this 2025 Agreement in its entirety by the Commission without modification. The Parties further agree and will support the company in asking that the Commission find that (a) this 2025 Agreement is in the public interest and (b) results in base rates and charges that are fair, just, and reasonable during the Term. The Parties further agree that they will support this 2025 Agreement, and that they will not request or support any order, relief, outcome, or result in conflict with the terms of this 2025 Agreement in any administrative or judicial proceeding relating to, reviewing, or challenging the establishment, approval, adoption, or implementation of this 2025 Agreement or the subject matter hereof.

(b) No Party will assert in any proceeding before the Commission or before any court that this 2025 Agreement or any of the terms in the 2025 Agreement shall have any precedential

FPSC EXH NO. 70
ADMITTED

value. The Parties' agreement to the terms in the 2025 Agreement shall be without prejudice to any Party's ability to advocate a different position in future proceedings not involving this 2025 Agreement. The Parties further expressly agree that no individual provision, by itself, necessarily represents a position of any Party in any future proceeding, and the Parties further agree that no Party shall assert or represent in any future proceeding in any forum that another Party endorses any specific provision of this 2025 Agreement by virtue of that Party's signature on, or participation in, this 2025 Agreement. It is the intent of the Parties to this 2025 Agreement that the Commission's approval of all the terms and provisions of this 2025 Agreement is an express recognition that no individual term or provision, by itself, necessarily represents a position, in isolation, of any Party or that a Party to this 2025 Agreement endorses a specific provision, in isolation, of this 2025 Agreement by virtue of that Party's signature on, or participation in, this 2025 Agreement.

(c) The Parties intend and agree to request that the Commission's final order approving this 2025 Agreement find that approval of this 2025 Agreement in its entirety is in the public interest and fairly resolves all matters in Docket No. 20250029-GU pursuant to and in accordance with Section 120.57(4), Florida Statutes, and that the Docket will be closed effective on the date the Commission's order approving this 2025 Agreement becomes final.

(d) No Party shall seek appellate review of any Commission order approving this 2025 Agreement.

(e) This Paragraph 13 shall survive the end of the Term or termination of the 2025 Agreement pursuant to Paragraph 8.

14. Disputes. To the extent a dispute arises among the Parties about the provisions, interpretation, or application of this 2025 Agreement, the Parties agree to meet and confer to

FPSC EXH NO. 70
ADMITTED

resolve the dispute. To the extent that the Parties cannot resolve any dispute within 30 days, the matter may be submitted to the Commission for resolution. This Paragraph 14 shall survive the end of the Term or termination of the 2025 Agreement pursuant to Paragraph 8.

15. Execution. This 2025 Agreement may be executed in counterpart originals, and a facsimile or electronic scan of an original signature shall be deemed an original.

IN WITNESS WHEREOF, the Parties evidence their acceptance and agreement with the provisions of this 2025 Agreement by their signature(s):

Re: Docket No. 20250029-GU, Petition for Rate Increase by Peoples Gas System, Inc.

Dear Mr. Teitzman:

Attached for filing in the above docket is Revised Exhibit B to the 2025 Stipulation and Settlement Agreement, which was filed yesterday in this docket as Attachment One to Peoples Gas System, Inc.'s Motion to Approve 2025 Stipulation and Settlement Agreement [DN 07879-2025]. This version of Exhibit B replaces the erroneous version inadvertently included in the agreement attached to the motion filed yesterday and is being filed with the consent of the Parties (a) in this docket and (b) to the 2025 Stipulation and Settlement Agreement.

Please accept my apologies for any inconvenience this may cause and thank you for your assistance in connection with this matter.

Sincerely,

J. Jeffry Wahlen

RULES AND REGULATIONS

I

INITIATION OF SERVICE

A. REQUEST FOR GAS SERVICE

Gas Service may be requested by a prospective Customer by:

1. Verbal, telephonic or electronic request to a business office of the Company (in the case of residential Gas Service), or

2. By submission to Company of a completed Gas Service Agreement (in the case of Gas Service other than residential Gas Service).

B. ACCEPTANCE OF REQUEST FOR GAS SERVICE

A Gas Service Agreement shall be deemed to be accepted by the Company when Gas Service pursuant thereto is initiated.

C. OBLIGATION OF CUSTOMER AND COMPANY

The terms and conditions of the Customer's Gas Service Agreement, these Rules and Regulations, and the applicable rate schedules shall become binding upon the Customer and Company upon acceptance by the Company of the Customer's Gas Service Agreement.

D. MISCELLANEOUS SERVICE CHARGES

Whenever Gas Service is established or re-established at any location, the charges set forth below will be made:

	RESIDENTIAL	OTHER
ACCOUNT OPENING CHARGE (applies only where a change of Customer occurs and Gas Service is not shut off at the premises)	**$31.00**	**$31.00**
METER TURN ON / SERVICE INITIATION CHARGE (applies where service is inactive)	**$94.00 for initial unit or meter $36.00 for each additional unit or meter**	**$121.00 for initial unit or meter $54.00 for each additional unit or meter**

FPSC EXH NO 74
ADMITTED

RULES AND REGULATIONS (Continued)

	RESIDENTIAL	OTHER
METER RECONNECTION/ SERVICE RESTORATION CHARGE (applies where service has been turned off for cause and includes cost of turn-off)	**$100.00 for initial unit or meter $33.00 for each additional unit or meter**	**$115.00 for initial unit or meter $43.00 for each additional unit or meter**
TRIP CHARGE/COLLECTION AT CUSTOMER PREMISES (applies when Company's employee, agent, or representative makes a trip to Customer's premises for the purpose of terminating Gas Service or providing final notice of termination for nonpayment of bills)	**$25.00**	**$25.00**
FAILED TRIP CHARGE AT CUSTOMER PREMISES (applies when the Customer fails to keep a scheduled appointment with the Company's employee, agent or representative)	**$31.00**	**$31.00**
TEMPORARY METER TURN-OFF CHARGE (applies when Company's employee, agent or representative, turns off Customers' meter temporarily at Customer's request)	**$33.00 per meter**	**$33.00 per meter**

Where Gas Service is established outside of normal business hours, by special appointment, or same day service the charges set forth above multiplied by 1.5. Same day service is offered on an as-available basis.

FPSC EXH NO. 74
ADMITTED

RULES AND REGULATIONS (Continued)

E. WITHHOLDING OF GAS SERVICE

Company will refuse to establish Gas Service to any location where it finds that establishment of Gas Service will create an unsafe or hazardous condition on the Customer's premises or affecting the general public.

Company may discontinue Gas Service to an existing Customer or refuse to serve a prospective Customer where such Customer's use of Gas is or will be detrimental or hazardous to the Gas Service supplied to other Customers.

Company may discontinue service to an existing Customer or refuse to establish Gas Service for actions or threats made by a Customer, or anyone on the Customer's premises, which are reasonably perceived by a Company employee as violent or unsafe, after affording the Customer reasonable opportunity to cease from any further act of violence or unsafe condition.

Company will not establish Gas Service to any Customer where that Customer is in arrears for Gas Service at that location or another location in the Company's service area.

If a prospective Customer requests connection for Gas Service but denies the Company's employees and representatives access to the Customer's Installation for the purpose of inspecting the appliances prior to establishing Gas Service, the Company may refuse to provide Gas Service to the prospective Customer.

Fraudulent Use of Gas:
Company will discontinue Gas Service without notice:

a. In the event of tampering with regulators, valves, Meters or other facilities furnished and owned by Company, or

b. In the event of other fraudulent use of Gas Service.

Whenever Gas Service is discontinued for unauthorized or fraudulent use thereof, the Company, before restoring Gas Service, may require Customer to make, at Customer's expense, all changes in piping or equipment necessary to eliminate the fraudulent use and to pay an amount reasonably estimated as the deficiency (if any) in Company's revenue and all costs incurred by Company resulting from such unauthorized or fraudulent use.

Cut and Cap
As used herein, "costs incurred by Company" shall include the Company's cost to cut and cap the Customer's service line at the Main, together with the cost incurred by the Company to restore service to the Customer, in the event the Company, in order to discontinue service to the Customer pursuant to this section, has been required (after final notice to the Customer requesting payment, and the Customer's denial of access by Company to its meter for the purpose of discontinuing service) to cut and cap the Customer's service line at the Main.

If a Customer whose service line has been cut and capped for any reason thereafter requests restoration of Gas Service, Company may require such Customer to pay (in addition to any other charges payable pursuant to these Rules and Regulations) all costs incurred by Company to effect the previous discontinuance of Gas Service to such Customer, as well as all costs incurred by Company to restore Gas Service to such Customer.

FPSC EXH NO. 74

II

CUSTOMER'S INSTALLATION

A. GENERAL

Customer's Installation shall be constructed, installed and maintained in accordance with standard practice as determined by local codes and ordinances applicable thereto, these Rules and Regulations and other applicable governmental requirements; provided, however, that Company shall have no responsibility whatsoever for determining whether any local code or ordinance or any other governmental requirement is applicable to Customer's Installation, or for enforcing or determining whether Customer's Installation is in compliance with any local code or ordinance or any other governmental requirement. A Customer installing a Gas fired electric generator shall also ensure that the installation and operation of such equipment complies with the Tariff and the requirements of the Customer's electric provider. The Company shall not be responsible for the installation and maintenance of carbon monoxide or methane gas detectors within the Customer's premises.

The Customer's piping, appliances, equipment and apparatus shall be installed and maintained in accordance with standard practice, and in full compliance with all applicable laws, codes and governmental and Company regulations. The Customer expressly agrees to utilize no apparatus or device which is not properly constructed, controlled, and protected, or which may adversely affect service to others, and the Company reserves the right to discontinue or withhold service for such apparatus or device.

Customer shall give immediate notice to the Company when any leakage of Gas is detected, discovered, or suspected. Whenever a leakage of Gas is suspected, detected, or discovered, Customer agrees not to use any potential source of ignition, such as flame, electrical source, or other igniting medium in the proximity of escaping Gas, which could ignite such Gas.

B. INSPECTION OF CUSTOMER'S INSTALLATION

Where governmental inspection of a Customer's Installation is required, Company will not supply Gas Service to such installation until the necessary inspections have been made and Company has been authorized to provide Gas Service.

Company may also inspect Customer's Installation prior to rendering Gas Service, and from time to time thereafter, but assumes no responsibility whatsoever as a result of having made such inspection. Company will not render (and may discontinue) Gas Service to any Customer Installation which Company finds to be hazardous. Customer has sole responsibility to insure that the hazardous condition has been corrected prior to initiation of Gas Service.

FPSC EXH NO. 74
ADMITTED

III

DEPOSITS (Continued)

2. a. tampered with the Gas Meter; or

b. used service in a fraudulent or unauthorized manner.

G. REFUND OF DEPOSIT WHEN GAS SERVICE IS DISCONNECTED

Upon termination of Gas Service, a cash deposit and accrued interest may be credited against the final account and the balance, if any, shall be returned promptly (in no event later than fifteen (15) days after Gas Service is discontinued) to the Customer or agency.

H. RETURNED CHECKS

If the Customer's check for Gas Service is returned to the Company and not paid by the drawer's bank, the Company will follow the procedures set forth in Section 832.07, Florida Statutes. Termination of Gas Service shall not be made for failure to pay such returned check charge.

FPSC EXH NO 74
ADMITTED

IV

BILLING

A. BILLING PERIODS

Bills for Gas Service will be rendered each month. Bills shall be considered received by Customer when mailed to the most recent billing address supplied by Customer to Company or by any other delivery method expressly agreed to by both the Company and Customer to reach and bill the Customer.

It is the Customer's (both sales service and transportation service Customers) obligation to make payments to the Company (or to an Authorized Payment Agent of the Company) of all bills rendered. Payment by a Customer to a third party (including a Third Party Gas Supplier) which has not been designated by Company as an Authorized Payment Agent will not satisfy the Customer's obligation to make payment of Company's bill for Gas Service.

B. INITIAL OR FINAL BILLS

When the period of Gas Service for which an initial or final bill is rendered is less than fifty (50) percent of the normal billing period, the Customer charge or minimum bill shall be one-half (1/2) of the charge per applicable rate schedule. When the period of Gas Service is fifty (50) percent or more of the normal Billing Period, there shall be no reduction in the Customer charge or minimum bill. The distribution charge for Gas consumed shall be at the applicable billing rate.

C. NON-RECEIPT OF BILLS

Failure of Customer to receive a bill shall not relieve Customer of its obligation to pay the bill.

D. METER READINGS NOT COMBINED

If a Customer takes Gas Service under more than one rate schedule at a single delivery point, the bill shall be calculated separately for the Gas Service provided under each such rate schedule.

If a Customer takes Gas Service under one or more rate schedules at two or more Points of Delivery, a bill shall be calculated separately for Gas Service provided under each rate schedule at each Point of Delivery.

If Company must, for reasons of its convenience, establish more than one Point of Delivery at a single premise, the readings of the Meters for like classes of service will be combined.

E. DELINQUENT BILLS

A bill shall be considered delinquent if payment thereof has not been received by Company (or an Authorized Payment Agent of the Company) upon the expiration of twenty (20) days from the date of Company's mailing or other delivery of such bill. Charges for services due and rendered which are unpaid as of the past due date may be subject to a Late Payment Charge of 1.5 percent, except the accounts of federal, state, and local governmental entities, agencies, and instrumentalities. A Late Payment Charge may be applied to the accounts of federal, state, and local governmental entities, agencies, and instrumentalities at a rate no greater than allowed, and in a matter permitted by applicable law.

BILLING (Continued)

Essential Service Customer of the scheduled disconnect date. The Company may thereafter discontinue Gas Service to the Medically Essential Service Customer on the scheduled disconnect date if payment is not made on or before such date.

During the period that Gas Service is continued under the provisions of this section, the Customer shall continue to be responsible for the cost of the residential Gas Service.

H. ADJUSTMENT OF BILLS FOR METER ERROR

Whenever a Meter is found to have an average error as defined in Commission Rule 25-7.062, FAC, of more than two percent (2%) fast, Company will refund to Customer the amount billed in error for one-half the period since the last Meter test. This one-half period will not exceed twelve (12) months unless it can be shown that the error was due to some cause, the date of which can be fixed, in which case the overcharge will be computed back to, but not beyond, such date, based upon available records. If the Meter has not been tested in accordance with Commission Rule 25-7.064, FAC, the period for which it has been in service beyond the regular test period will be added to the twelve (12) months in computing the refund. The refund will not include any part of any minimum or Customer charge.

Except as provided by this subsection, Company may back bill Customer in the event that a Meter is found to be slow, non-registering or partially registering. Company may not back bill for any period greater than twelve (12) months from the date it removes the Meter of a Customer, which Meter is later found by Company to be slow, non-registering or partially registering. If it can be ascertained that the Meter was slow, non-registering or partially registering for less than twelve (12) months prior to removal, then Company may back bill only for the lesser period of time. In any event, Customer may extend the payments of the back bill over the same amount of time for which Company issued the back bill.

1. Whenever a Meter tested is found to have an average error of more than two percent (2%) slow, Company may bill Customer an amount equal to the unbilled error in accordance with this subsection. If Company has required a Meter test deposit as permitted under Commission Rule 25-7.065(2), FAC, Customer may be billed only for the portion of the unbilled error which is in excess of the deposit retained by Company.

2. In the event of a non-registering or a partially registering Meter, unless the provisions of subsection (3) of this rule apply, Customer may be billed on an estimate based on previous bills for similar usage.

3. It shall be understood that when a Meter is found to be in error in excess of the prescribed limits of two percent (2%) fast or slow, the figure to be used for calculating the amount of refund or charge shall be that percentage of error as determined by the test.

4. In the event of unauthorized use, Customer may be billed on a reasonable estimate of the Gas consumed.

FPSC EXH NO. 74
ADMITTED

BILLING (Continued)

I. BUDGET BILLING PLAN (optional)

Residential Customers (RS) and non-Residential Customers served under Rate Schedules SGS, CS-GHP, GS-1, GS-2, and GS-3 may elect to make budgeted monthly payments of amounts due the Company to help stabilize their monthly payments. To qualify for the Budget Billing Plan, a customer must be in good financial standing. In determining whether a Customer is in good financial standing, the Company will consider such factors as whether the Customer has an overdue balance, whether the Customer has a pending service disconnection for non-payment, whether the Customer has a history of late payment or returned payments for insufficient funds, or other similar factors. The Company shall have 30 days following a Customer's request to participate in the Budget Billing Plan to deny or implement participation in the program. The Company retains the option to remove customers from the program if customers do not remain in good financial standing.

If a Customer requests to participate in the program, the initial budgeted payment amount will be based on an average of the previous twelve (12) months consumption. If the Customer has not received Gas Service from the Company at the requesting location for the preceding twelve (12) months, the Company may deny enrollment. After the Customer's budgeted monthly payment amount has been initially established, the Company may recalculate the payment from time to time, and the Company may begin charging the recalculated amount on the Customer's next successive bill. The Company will perform periodic reviews.

Any current and total deferred balance will be shown on the Customer's bill. When a Customer's budgeted payment amount is recalculated, any deferred credit balance will be credited to the Customer's account only during an annual true-up period; any deferred debit balance will be embedded into the Customer's budgeted monthly payment amount.

An electing Customer's participation in the Budget Billing Plan will be continuous unless the customer requests that participation in the plan be terminated, Gas Service is terminated, or the Company elects to terminate the customer from participating in the program. At that time of termination, the Customer shall settle their account with the Company in full; customers who remain a Customer of the Company shall pay any deferred debit balance with their next regular monthly bill, and any deferred credit balance shall be used to reduce the amount due for the next regular monthly bill. An electing customer may request that participation be terminated at any time. Any Customer terminated from the program by the Company or any Customer who voluntarily terminates participation in the program may not rejoin the program for at least twelve (12) months.

FPSC EXH NO. 74
ADMITTED

BILLING (Continued)

J. SUMMARY BILLING PLAN (optional)

A Customer with ten (10) or more Company accounts and no bill in arrears may request a single statement for the billing and payment of those accounts under this Summary Billing Plan. With Summary Billing, the Customer designates which accounts are to be included in the plan. Those accounts may be separated into groups each of which will be billed once a month on cycle billing days as designated by the Company.

The Company will read each meter and calculate a billing amount for each account separately. The billing amount for each of the designated accounts will be totaled on a Summary Billing statement, with each of the individual account bills attached as backup, and a single totaled bill will be included for remittance. Summary bills are due when rendered. If the summary bill is not paid in full within ten (10) days after mailing or other delivery method used by the Company to reach the Customer, the Customer may be removed from the Summary Billing Plan.

FPSC EXH NO 74
ADMITTED

V

MEASUREMENT

A. METERS

Company will own, operate and maintain the Meters and regulating equipment needed to accurately measure Gas Service provided to Customer.

Customer will provide a convenient, accessible, and safe location, satisfactory to Company, for installation of necessary Meters, regulators, and ancillary equipment.

Customer will safeguard Company's facilities on Customer's property and will not permit unauthorized persons to tamper with such facilities or otherwise operate or alter them in any manner.

If changes in conditions not caused by the Company on Customer's premises adversely affect the convenience, accessibility, or safety of the Meter location, the Customer shall be responsible for the cost of relocating the Meter, its appurtenances, and related piping.

All Gas delivered to Customers shall be measured by commercially acceptable measuring devices owned and maintained by the Company, except where it is impractical to Meter loads, such as street lighting, and temporary or special installations, in which case the consumption may be calculated or billed on a rate or as provided in the Company's filed Tariff.

B. TYPE OF METERING PROVIDED

1. Except as provided in paragraph (2) below, each separate occupancy unit (as defined in Commission Rule 25-7.071, FAC) for which construction commenced after January 1, 1987, shall be individually metered.

2. Individual Meters shall not be required, and master metering is permitted, for separate occupancy units where dimensions or physical configurations of the units are subject to alteration; where Gas is used in central heating, water heating, ventilating and air conditioning systems, or Gas back up service to storage heating and cooling systems; in specialized-use housing accommodations such as hospitals and other health care facilities specified in Commission Rule 25-7.071, FAC, college dormitories, convents, sorority or fraternity houses, motels, hotels and similar facilities; in specially designated areas for overnight occupancy at trailer, mobile home and recreational vehicle parks where permanent residency is not established; in marinas where living aboard is prohibited by permanent means; or where individual Gas Service would otherwise be required above the second story, in accordance with Commission Rule 25-7.071, FAC.

3. When individual metering is not required and master metering is used, submeters may be purchased and installed at Customer's request and expense, for use in allocating solely the cost of Gas billed by Company for Gas Service at the master Meter.

C. METER ACCURACY AT INSTALLATION

All Meters, when installed, shall be not more than 1 percent fast or 1 percent slow and will have been tested not more than twelve (12) months prior to being installed.

MEASUREMENT (Continued)

D. METER TESTS

Company will periodically test Meters to ensure they properly and accurately measure the Gas Service provided to Customer.

E. METER TEST BY REQUEST

1. Upon written request of a Customer, the Company shall, without charge, make a test of the accuracy of the Meter in use at the Customer's premises; provided, first, that the Meter has not been tested by Company or by the Commission within twelve (12) months previous to such request and, second, that Customer agrees to accept the results of such test as the basis for the adjustment of disputed charges.

2. Should the Customer request a Meter test more frequently than once a year, the Company may require a deposit to defray the cost of testing in accordance with Commission Rule 25-7.065(2), FAC, and such deposit not to exceed the following for each test: (a) Meters with a capacity rating of 250 cfh or less - $34.00 dollars; (b) Meters with a capacity rating of over 250 cfh through 2500 cfh - $85.00 dollars; (c) Meters with a capacity rating over 2500 cfh - $129.00 dollars. If the Meter is found to be more than two percent fast, the deposit shall be refunded, but if below this accuracy limit, the deposit may be retained by Company as a service charge for conducting the test.

3. If Customer so desires, he or his authorized representative may witness the test. A written report, giving the results of the test, shall be furnished to Customer upon request.

4. At the request of the Customer, the Company shall make arrangements for a meter test to be conducted by an independent meter testing facility of the Customer's choosing. Where appropriate, the meter may be field tested. The Customer shall be responsible for all the costs to the Company associated with a meter test by an independent meter testing facility. The Company shall provide a detailed estimate of such costs and may require payment of such costs prior to the actual meter test. If the meter is found to be running fast in excess of the limits established by these rules, such costs shall be refunded, but if within the allowable limits, the Company may retain the costs.

F. METER TEST - REFEREE

1. Upon written application to the Commission by a Customer, a test of the Customer's Meter will be made or supervised as soon as practicable by a representative of the Commission.

2. A Meter shall not be disturbed after Company has received notice that application has been made for such referee test unless a representative of the Commission is present or unless authority to do so is first given in writing by the Commission or by Customer.

3. A written report of the results of the test will be made by the Commission to Customer.

ADMITTED

VII

LIMITS OF COMPANY'S RESPONSIBILITIES

The Company shall not be liable for any property damage, fatality, or personal injury sustained on the Customer's premises resulting from the Customer's Installation or fittings, appliances and apparatus of any other type on Customer's premises, including, but not limited to, defects or failure of Customer to maintain Customer's premises which allow Gas leakage. The Company will not be responsible for the use, care or handling of Gas once the Gas passes the Point of Delivery. The Company shall not be liable to the Customer for naturally occurring or other impurities, regardless of the source, such as water, sand, black powder, sulfur, butane, or other chemicals or compounds in the Gas delivered to Customer. The Company shall not be liable for any loss or damage caused by variation in Gas pressure, defects in pipes, connections and appliances, escape or leakage of Gas, sticking of valves or regulators, or for any other loss or damage not caused by the Company's negligence arising out of or incident to the furnishing of Gas to any Customer.

Whenever Company deems an emergency or system operating condition warrants interruption, curtailment or other limitation of the Gas Service being rendered, such interruption, curtailment or other limitation shall not constitute a breach of contract and shall not render Company liable for damages suffered as a result of such interruption, curtailment or other limitation of Gas Service, or excuse Customer from continuing to fulfill its obligations to Company.

VIII

CONTINUITY OF SERVICE

The Company will use reasonable diligence at all times to provide regular, uninterrupted Gas Service, and shall not be liable to the Customer for any fatality, injury to person, or loss of or damage to property arising from causes beyond its control or from the ordinary negligence of the Company, its employees, servants or agents, including, but not limited to, damages for Gas leakage, complete or partial failure or interruption of service, for initiation of or re-connection of service, for shutdown for repairs or adjustments, for fluctuations in Gas flow, for delay in providing or restoring Gas Service, for termination of Gas Service, or for failure, as the result of an emergency or a Force Majeure event, to warn of interruption of Gas Service.

IX

LIMITATION ON CONSEQUENTIAL DAMAGES

To the fullest extent permitted by law, neither the Company, nor their respective officers, directors, agents, employees, members, parents, subsidiaries or affiliates, successors or assigns, or their respective officers, directors, agents, employees, members, parents, subsidiaries or affiliates, successors or assigns, shall be liable to the Customer or any other party or their respective officers, directors, agents, employees, members, parents, subsidiaries or affiliates, successors or assigns, for (i) claims, suits, actions or causes of action for incidental, indirect, special, punitive, unforeseen, multiple or consequential damages connected with or resulting from Company's performance or non-performance (such as loss of use of any property or equipment, loss of profits or income, loss of production, rental expenses for replacement property or equipment, costs to repair or demolish property, governmental fines, penalties or charges, diminution in value of real property, or expenses to restore operations, or loss of goods or products), or (ii) any actions undertaken in connection with or related to service under this Tariff, including without limitation, actions which are based upon causes of action for breach of contract, tort (including negligence and misrepresentation), breach of warranty, strict liability, statute, operation of law, under any indemnity provision or any other theory of recovery.

FPSC EXH NO. 74
ADMITTED

X

INDEMNITY TO COMPANY

A. General. The Customer shall indemnify, hold harmless, and defend the Company from and against any and all liability, proceedings, suits, cost or expense for loss or damage or injury to person or property or for fatality, in any manner directly or indirectly connected with or arising out of the transmission, distribution or use of Gas by the Customer at or on the Customer's side of the Point of Delivery, including the contributory or concurrent negligence of the Company or in any manner directly or indirectly connected with or arising out of the Customer's acts or omissions.

B. Governmental. Notwithstanding anything to the contrary in the Company's Tariff, including these Rules and Regulations, the Rate Schedules, and Standard Forms, any obligation of indemnification therein required of a Customer that is a governmental entity of the State of Florida or political subdivision thereof ("governmental entity"), shall be read to include the condition "to the extent permitted by applicable law."

XI

APPEALS TO THE COMMISSION

Whenever the application of these rules and regulations appear to be unjust or impractical either the Company or the Customer may request permission from the Commission for an exception.

RESIDENTIAL SERVICE
Rate Schedule RS

Availability:

Throughout the service areas of the Company.

Applicability:

Gas Service for residential purposes in individually metered residences and separately metered apartments. Also, for Gas used in commonly owned facilities of condominium associations, cooperative apartments, and homeowners associations, (excluding any premise at which the only Gas-consuming appliance or equipment is a standby electric generator), subject to the following criteria:

1. 100% of the Gas is used exclusively for the co-owner's benefit.

2. None of the Gas is used in any endeavor which sells or rents a commodity or provides service for a fee.

3. Each Point of Delivery will be separately metered and billed.

4. A responsible legal entity is established as the Customer to whom the Company can render its bills for said services.

5. RS-GHP refers to any Residential Customer utilizing a gas heat pump ("GHP") for heating and cooling.

Customers receiving service under this schedule will be classified for billing purposes according to annual usage as follows:

Billing Class	Annual Consumption
RS-1	0 – 99* Therms
RS-2	0 – 1,999* Therms
RS-GHP	All Therms

Monthly Rate:

Billing Class	Customer Charge
RS-1	$23.00 per month
RS-2	$32.00 per month
RS-GHP	$56.00 per month

Distribution Charge: $0.41465 per Therm for RS-1 and RS-2
$0.10046 per Therm for RS-GHP

Minimum Bill: The Customer charge.

*As of January 1, 2026, Billing Class RS-1 is closed to new customers, and Billing Classes RS-2 and RS-3 are combined into a single Billing Class RS-2.

FPSC EXH NO 74
ADMITTED

RESIDENTIAL SERVICE (Continued)

Note 1 – Company's Budget Billing Plan is available to eligible Customers receiving Gas Service pursuant to this rate schedule (See Sheet No. 5.401-3).

The bill for the Therms billed under this schedule shall be increased in accordance with the provisions of the Company's Purchased Gas Adjustment Clause set forth on Sheet No. 7.101-1.

Special Conditions:

1. The rates set forth under this schedule shall be subject to the operation of the Energy Conservation Cost Recovery Adjustment Clause set forth on Sheet No. 7.101-2.

2. Service under this schedule shall be subject to the Rules and Regulations set forth in this Tariff.

3. Service under this schedule for the RS-1 Billing Class is subject to an annual volume review by the Company. If reclassification to another billing class is appropriate such classification will be prospective.

   a) Each year, the Company will review active residential Gas Service consumption for Billing Class RS-1 to determine whether the prior 12 months of consumption was within that class's consumption band.

   b) If consumption is 10 percent or more over the consumption parameters for the RS-1 Billing Class ("10 percent band"), the Company will re-assign the Customer to the RS-2 Billing Class.

   c) If the Customer's consumption exceeds the consumption parameters for the RS-1 Billing Class but is less than the 10 percent band for the RS-1 Billing Class for the most recent 12 months of consumption, the Customer will remain on the assigned RS-1 Billing Class. If the same result occurs for two consecutive annual volume review cycles, the Company will re-assign the Customer to the RS-2 Billing Class.

   d) Once a Customer is classified or reclassified to the RS-2 Billing Class, no further annual reclassification will occur, and the Customer shall remain in the RS-2 Billing Class regardless of annual consumption.

   e) All new customers, or customers without 12 months of usage will automatically be placed in the RS-2 Billing Class.

4. The rates set forth under this schedule shall be subject to the operation of the Company's Tax and Fee Adjustment Clause set forth on Sheet No. 7.101-5.

5. The rates set forth under this schedule shall be subject to the operation of the Company's Competitive Rate Adjustment Clause set forth on Sheet No. 7.101-5.

6. The rates set forth under this schedule shall be subject to the operation of the Cast Iron Bare Steel Replacement Rider Surcharge set forth on Sheet Nos. 7.806 through 7.806-3.

7. A RS-GHP Customer with an annual consumption in excess of 1,999 Therms shall be eligible for transportation service under Rider NCTS.

8. When the Customer receives service under the Company's Natural Choice Transportation Service Rider (Rider NCTS), the rates set forth above shall be subject to the operation of the Company's Swing Service Charge set forth on Sheet No. 7.101-3.

CONTRACT INTERRUPTIBLE SERVICE
Rate Schedule CIS

Availability:

Throughout the Service Areas of the Company.

Applicability:

Interruptible Gas for non-residential commercial or industrial use. Service under this schedule is subject to interruption or curtailment at the sole discretion of the Company at any time and is available to Customers using 100,000 Therms per year or more. A Customer eligible for service pursuant to this rate schedule is also eligible for transportation service under Rider ITS.

Service will be provided by the Company based on available pipeline capacity and the Customer delivering suitable Gas into the Company's distribution system.

Monthly Rate:

Customer Charge: Equal to the otherwise applicable Customer Charge based on annual consumption.

Distribution Charge:

An amount not less than $.01 per Therm nor greater than 90 percent of the currently applicable firm rate; provided however, that at any time during which the cumulative surpluses determined for all prior determination periods under the Competitive Rate Adjustment Clause (Non-West Florida Region) (see Sheet No. 7.101-5) equal or exceed the cumulative shortfalls determined for all prior determination periods under such clause, the distribution charge shall not exceed the distribution charge established for service under Rate Schedule IS in Company's last base rate proceeding. Unless changed by Company pursuant to this Rate Schedule, the distribution charge shall be equal to the applicable interruptible rate.

The "currently applicable firm rate" as used herein means the distribution charge prescribed in the otherwise applicable rate schedule, adjusted pursuant to the Competitive Rate Adjustment Clause (Non-West Florida Region) set forth on Sheet No. 7.101-5.

The distribution charge to Customer shall be determined by Company based upon Company's evaluation of competitive conditions. Such conditions may include, but are not necessarily limited to: the cost of Gas which is available to serve Customer; the delivered price and availability of Customer's designated alternate fuel; bypass opportunities; economic development; and the nature of Customer's operations (such as load factor, fuel efficiency, alternate fuel capacity, etc.). Company may from time to time increase or reduce the distribution charge as it deems necessary or appropriate to meet competition

FPSC EXH NO. 74

CONTRACT INTERRUPTIBLE SERVICE (Continued)

5. Service under this schedule shall be subject to the Rules and Regulations set forth in this Tariff.

6. In instances where the Customer is able to demonstrate the ability and intent to bypass the Company's distribution system and purchase Gas or another source of energy from an alternate supplier or for economic development purposes, the distribution charge shall, in the discretion of the Company, be the rate per Therm necessary to attract or retain the Customer on the Company's distribution system, provided that such rate is demonstrated to be in the long-term best interests of both the Company and its ratepayers.

7. The rates set forth in this schedule shall be subject to the operation of the Company's Tax and Fee Adjustment Clause set forth on Sheet No. 7.101-5.

8. Any applicability of the CIS tariff may not reduce an existing customer's currently applicable interruptible rate, unless the customer expands operations, agrees to a material increase in the annual therms to be purchased and extends the term of the agreement.

FPSC EXH NO 74

OFF-SYSTEM SERVICE
Rate Schedule OSS

Availability:

Throughout the service areas of Company, and of any interstate or intrastate natural gas pipeline serving the Company (collectively, the "Pipelines").

Applicability:

Interruptible Gas delivered by Company through the facilities of a Pipeline, using Company's transportation capacity rights on such Pipeline, to any person not connected to Company's distribution system.

This Tariff is applicable to both bundled and unbundled gas service, i.e. interstate or intrastate Pipeline capacity only that is released by Company pursuant to Transporter's FERC gas tariff as well as interstate or intrastate Pipeline capacity that is bundled with natural gas supply and subsequently delivered by the Company to the Customer.

Monthly Rate:

Customer Charge: None

Transaction Charge: $100.00 per transaction

Distribution Charge:

For all Scheduled Quantities (as such term is defined in Special Condition 5 below), an amount not less than $.000 per Therm which Distribution Charge shall be established by agreement between Company and Customer prior to each transaction pursuant to this rate schedule.

The "currently applicable firm rate", as used herein, means the distribution charge prescribed in the firm rate schedule which would apply if the daily sales represented by a transaction under this rate schedule were annualized.

The Distribution Charge for service pursuant to this rate schedule shall be determined by Company based upon Company's evaluation of competitive conditions. Such conditions may include, but are not necessarily limited to: the cost of gas which is available to serve Customer; the delivered price and availability of Customer's designated alternate fuel; and the nature of Customer's operations (such as load factor, fuel efficiency, alternate fuel capacity, etc.). Company may from time to time increase or reduce the Distribution Charge as it deems necessary or appropriate to meet competition or remain competitive, but shall have no obligation to do so; provided, however, that the Distribution Charge shall at all times remain within the limits set forth above.

The bill for Therms billed at the above rates shall be increased by the cost per Therm of any Gas delivered to Customer pursuant to this rate schedule, including all variable costs incurred by Company for (or in connection with) Pipeline transportation.

FPSC EXH NO. 74
ADMITTED

NATURAL CHOICE TRANSPORTATION SERVICE (Continued)

9. Except as modified by the provisions set forth above, service under this Rider shall be subject to the Rules and Regulations set forth in this Tariff.

10. If a Customer receiving service pursuant to this Rider has annual consumption greater than or equal to 500,000 therms annually, then the Company will install and maintain facilities for remote monitoring of the Customer's hourly gas flow. The Customer will reimburse the Company for the expense incurred for the investment in and installation of these facilities.

11. A Pool Manager may terminate Gas supply to a Customer pursuant to this Rider electronically via Company's website prior to the sixteenth day of the month as of which such termination will commence on the first day of the Customer's billing period of the next calendar month following receipt by the Company of the aforesaid electronic termination. In the event of non-payment by Customer for charges due, a Pool Manager may terminate Gas supply to a Customer by giving five business days written notice to Company prior to the first day of the month as of which such termination is to be effective. Any such notice shall be accompanied by (a) documentary evidence of the Customer's failure to make payment for a period of at least 60 days, (b) Pool Manager's affidavit that it has made commercially reasonable and good faith efforts to collect the amount due, and (c) a non-refundable termination fee of $62.00 per account number. A Customer whose Gas supply is terminated by a Pool Manager pursuant to this special condition will automatically return to sales service provided by Company until such time as the Customer elects, subject to the conditions of this Rider, to receive service hereunder through a different Pool Manager. Additional deposit may be required from the Customer to return to sales service.

12. It is the Customer's obligation to make payments to the Company (or to an Authorized Payment Agent of the Company) of all bills rendered. Payment by a Customer to a third party (including a Third-Party Gas Supplier or Customer's Pool Manager) which has not been designated by Company as an Authorized Payment Agent will not satisfy the Customer's obligation to make payment of Company's bill for Gas Service.

INDIVIDUAL TRANSPORTATION SERVICE RIDER
RIDER ITS

Availability:

Throughout the service areas of the Company, subject to the Special Conditions set forth herein.

Applicability:

To firm or interruptible individual transportation service for any non-residential Customer who uses 500,000 therms per year or more and owns Gas that is made available for individual transportation service on the Company's system under Rate Schedules GS-5, WHS, SIS, IS, ISLV, and CIS.

Monthly Rate:

The Monthly Rate set forth in the applicable rate schedule, based on the annual Therm usage of, and character of service elected by, the Customer, plus an Individual Transportation Administration Fee of $313.80 per month per meter.

Special Conditions:

1. Definitions: As used in this Rider or in a Gas Transportation Agreement, the following terms have the meanings set forth below:

   "Actual Takes" means, for a specified period of time, the quantity of Gas passing through the meter(s) at the PGS Delivery Point(s) of Customer (as defined in the Customer's Gas Transportation Agreement).

   "Customer" means the person or entity which executes a Gas Transportation Agreement providing for individual transportation service hereunder.

   "Daily Imbalance Amount" means, for a Day, the positive or negative whole number determined by subtracting the Actual Takes for the Day from the Scheduled Quantities for the Day.

   "Day" means a period of 24 consecutive hours beginning and ending at 9:00 a.m. Central Clock Time.

   "FGT" means Florida Gas Transmission Company, a Delaware corporation, and its successors and assigns.

   "Gas Transportation Agreement" means an agreement between Company and an individual transportation Customer, the basic form of which is set forth on Sheets Nos. 8.114 through 8.114-8, which specifies the term for which it is effective and contains such reasonable provisions for termination as to which Company and Customer may agree.

Gas Service Agreement No. Page 2

NATURAL GAS SERVICE TERMS AND CONDITIONS:

The applicant named on the first page hereof ("Customer") makes application to Peoples Gas System, Inc. ("Company") for natural gas service under the rate classification indicated on the first page hereof according to the following terms and conditions in consideration of the Company's agreement to deliver natural gas to Customer pursuant to the applicable provisions of Company's Tariff approved by the Florida Public Service Commission. In the event of a conflict between this application and the Tariff, the Tariff shall control.

Gas is to be delivered to Customer at the outlet side of the Company's gas meter serving the premises indicated on the first page hereof, such meter and service line there to be installed and operated by the Company, and, if located on Customer's property, the site therefor to be furnished free of charge by Customer.

The Company and its representatives are hereby authorized to enter upon and install on Customer's property any required gas meter or meters and gas pipe for furnishing gas to said address, and to ditch, lay, or otherwise install pipe as is required outside the building(s). The gas pipe from the Company's gas system to and including said meter or meters shall be owned, operated, and maintained by the Company with a perpetual right of ingress and egress thereto, hereby granted to the Company for such purposes. Installation of Company's facilities may require that Company be granted an easement. All gas pipe, from the outlet side of said meter or meters, shall be owned, operated, and maintained by Customer at its sole cost and risk.

Customer shall receive and pay for all gas delivered to Customer according to the applicable provisions of Company's Tariff and the applicable rules and regulations of the Florida Public Service Commission. Any gas delivered to Customer at any other delivery point is also subject to the terms and conditions hereof. No oral statement shall change any term or obligation set forth herein.

A customer receiving gas service under the residential or commercial standby generator Tariff rate shall be obligated to remain on that schedule for a minimum of 12 months. This 12-month requirement shall be renewed at the end of each 12-month period unless Customer terminates gas service at the end of any 12-month period.

If Customer fails or refuses to take gas service from the Company, Customer shall pay to the Company the actual cost incurred by the Company in constructing the facilities to have been used in providing service to the Customer. Any deposits currently held by the Company shall be forfeited by Customer in payment or partial payment of these costs.

UNDERGROUND FACILITIES:

Prior to construction of gas pipeline, it is extremely important that the Company be made aware of existing underground obstacles, sprinkler systems, septic tanks, sewer lines, or structures, etc., located on Customer's property which may be damaged as a result of installation of the gas pipeline. Customer shall be responsible for marking and/or locating any underground facilities that may be on Customer's property that do not belong to local utilities (Power, Telephone, Water, Cable TV companies, etc.), and agrees to indemnify and hold Company harmless for any damages arising out of Customer's failure to do so.

GENERAL TERMS AND CONDITIONS APPLICABLE TO NATURAL GAS SERVICE:

To the extent that the Customer identified in this agreement is the State of Florida, one of its agencies, or one of its subdivisions, nothing herein shall be construed or interpreted as a waiver of sovereign immunity beyond the waiver provided in Section 768.28 Florida Statutes, or any successor statute.

This agreement is not assignable or transferable by Customer without prior written consent by the Company.

IN NO EVENT SHALL THE COMPANY OR ITS AFFILIATED COMPANIES, OFFICERS, DIRECTORS, EMPLOYEES, AGENTS OR REPRESENTATIVES BE LIABLE FOR ANY INCIDENTAL, INDIRECT, SPECIAL, CONSEQUENTIAL, EXEMPLARY OR PUNITIVE DAMAGES, INCLUDING, BUT NOT LIMITED TO, LOSS OF USE OF ANY PROPERTY OR EQUIPMENT, LOSS OF PROFITS OR INCOME, LOSS OF PRODUCTION, RENTAL EXPENSES FOR REPLACEMENT PROPERTY OR EQUIPMENT, DIMINUTION IN VALUE OF REAL PROPERTY, EXPENSES TO RESTORE OPERATIONS, OR LOSS OF GOODS OR PRODUCTIONS, EVEN IF THE COMPANY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

This agreement may not be amended or modified except by an instrument in writing signed by the Company and Customer.

This agreement shall be governed by the laws of the State of Florida without regard to principles of conflicts of laws.

This agreement contains the entire understanding between the parties hereto and supersedes any written or oral, prior or contemporaneous agreement or understanding between the parties.

NOTE: I acknowledge installation of the gas line will not be scheduled until the required easement, if needed, is signed by the landowner and received by Peoples Gas System, Inc. _____ (customer initials)

PEOPLES GAS SYSTEM, INC.

By: _____

_____
(Title)

"Supplier(s)" means person(s) (other than PGS) from which Shipper purchases Gas transported hereunder.

"Transporter" means any upstream intrastate or interstate transport service provider.

ARTICLE II - TERM

This Agreement is effective on the date first written above. The term shall commence at the beginning of the Day commencing on _____ and continue until the beginning of the Day commencing on (the "Termination Date") (the "Initial Term"). [PROVISIONS AGREEABLE TO PGS AND SHIPPER WITH RESPECT TO ANY EXTENDED OR "SECONDARY" TERM]

ARTICLE III - SALES AND TRANSPORTATION SERVICE

Section 3.1 Services. PGS desires to sell and Shipper desires to purchase from PGS, from time to time, for use in the Facility (but not for resale), Gas in quantities which, at Shipper's request, PGS may, in its sole discretion exercised in a not unduly discriminatory manner, agree to sell to Shipper. Shipper also engages PGS, and PGS accepts such engagement, to receive Gas for Shipper's account, up to the MTQ, at the PGS Receipt Point(s), and to cause an equivalent quantity, less the Retainage, to be redelivered to Shipper. Such sales and transportation shall be governed by PGS's FPSC Tariff and this Agreement. If there is a conflict between the Tariff and this Agreement, the Tariff shall control. Sales and transportation hereunder are provided in accordance with PGS's FPSC Tariff and curtailment plan. If Shipper's service is interruptible, Shipper may select one or more of the options described in Appendix D, which may enable Shipper to continue receiving delivery of Gas during periods of curtailment or interruption. PGS shall have no obligation to make sales to Shipper in lieu of the transportation of Gas contemplated by this Agreement.

Section 3.2 Required Equipment. Equipment that PGS must install to provide natural gas transportation service hereunder (the "Equipment"), if any, shall be determined solely by PGS. Unless the parties agree otherwise, all facilities used to provide service to Shipper hereunder (including without limitation the Equipment) shall be installed, owned, operated and maintained by PGS.

Section 3.3 Telemetry Equipment. Equipment which PGS must install to provide transmission of measurement data hereunder (the "Telemetry Equipment"), if any, and the anticipated cost thereof, are listed in Appendix C. Shipper shall reimburse PGS for all costs incurred for the Telemetry Equipment on receipt of PGS's invoice therefor. Shipper shall be responsible for securing access to the gas measurement data transmission network as required by PGS for the proper functioning of Telemetry Equipment.

ARTICLE IV - NOMINATIONS

Section 4.1 General. For each Day Shipper desires service hereunder, Shipper shall provide a Nomination to PGS pursuant to Sections 4.2 and/or 4.3 for each meter at the Facility. The total quantity for the Facility may be Nominated to a single meter, with "zero" Nominations being made for any additional meters located at the Facility. All Nominations shall be made to PGS at its web site (https://custactivitiespeoplesgas.com provided that, in an emergency, a Nomination may be delivered via facsimile using the form set forth in PGS's FPSC Tariff. Quantities confirmed by PGS for delivery shall be Scheduled Quantities. If requested by Shipper, PGS will allow increases or decreases in Scheduled Quantities after the Nomination deadlines set forth in this article, if the same can be confirmed by PGS, Transporters and Suppliers, and can be accomplished without detriment to services then scheduled on such Day for PGS and other shippers. The maximum quantity PGS shall be obligated to make available for delivery to Shipper on any Day (which shall not exceed the MDQ) is the sum of (a) the Transportation Quantity and (b) the Sales Quantity established pursuant to this article.

Section 4.4 Other Responsibilities. Shipper shall promptly notify PGS in writing of any change in the Sales Quantity or Transportation Quantity for any Day, and PGS will use commercially reasonable efforts to accept any such requested change as soon as practicable.

Section 4.5 Confirmation. If Transporter asks PGS to verify a nomination for Shipper's account, PGS shall confirm the lesser of such nomination, the Transportation Quantity or, in the case of non- or partial operation of the Facility, that quantity which in PGS's reasonable judgment (after consultation with Shipper) is likely to be consumed at the Facility. PGS has no obligation with respect to verification or rejection of quantities not requested by Shipper.

Section 4.6 Mutually Beneficial Transactions. Shipper recognizes that PGS maintains the operation and system integrity of the PGS distribution system on a daily basis, and that PGS, as the delivery point operator for its points of interconnection with interstate pipelines, is subject to the rules and regulations of such pipelines with regard to operational flow rates, pressures and penalties. As such, PGS may from time to time need Shipper to vary its Nominated quantities of Gas to be delivered at the PGS Receipt Point(s). On such occasions, PGS may in its sole discretion request, and Shipper may agree to, a change in the quantity of Gas to be delivered for the account of Shipper at the PGS Receipt Point(s). No such change in the quantity of Gas to be delivered shall be made pursuant to this section without the consent of Shipper. Terms and conditions of any such transaction will be agreed upon between the parties at the time of the transaction and will be recorded and confirmed in writing within two Business Days of the transaction.

ARTICLE V - TRANSPORTATION AND OTHER CHARGES

Section 5.1 Transportation Charges. Shipper shall pay PGS each Month for transportation service rendered by PGS, and, if applicable, for Gas purchased from PGS, in accordance with the then-applicable rate schedule in PGS's FPSC Tariff. At the time of execution of this Agreement, Rate Schedule ___ is applicable. In the event Rate Schedule, CIS or a fixed rate schedule is applicable, this Agreement will automatically renew following the Initial Term at the then applicable rate schedule unless Shipper and PGS have agreed at least 30 days prior to the expiration of the then current term that Rate Schedule CIS or another rate schedule shall apply.

Section 5.2 Changes in Tariff. If the applicable rates or rate schedules change or are amended or superseded, the newly applicable rates or rate schedules shall be applicable to service hereunder. Nothing contained herein shall prevent PGS from filing with the FPSC (or Shipper from opposing) changes to the rates and other provisions in PGS's FPSC Tariff.

ARTICLE VI - BILLING AND PAYMENT

Section 6.1 Billing. PGS will bill Shipper each Month for all Actual Takes during the preceding Month, and for any other amounts due hereunder. If, during the preceding Month, PGS has purchased Gas from Shipper pursuant to an interruption or curtailment order, such bill shall show a credit for the estimated amount due Shipper for such purchase(s). If the estimated amount owed by PGS to Shipper exceeds the amount Shipper owes PGS, PGS shall pay Shipper the net amount estimated to be due Shipper at the time PGS bills Shipper.

Section 8.2 Governing Law. This Agreement and any dispute arising hereunder shall be governed by and interpreted in accordance with the laws of Florida and shall be subject to all applicable laws, rules and orders of any Federal, state or local governmental authority having jurisdiction over the parties, their facilities or the transactions contemplated. Venue for any action, at law or in equity, commenced by either party against the other and arising out of or in connection with this Agreement shall be in a court, located within the State of Florida, having jurisdiction.

Section 8.3 Severability. If any provision hereof becomes or is declared by a court of competent jurisdiction to be illegal, unenforceable or void, this Agreement shall continue in full force and effect without said provision.

Section 8.4 Entire Agreement; Appendices. This Agreement sets forth the complete understanding of the parties as of the date first written above, and supersedes any and all prior negotiations, agreements and understandings with respect to the subject matter hereof. The appendices attached hereto are an integral part hereof. All capitalized terms used and not otherwise defined in the appendices shall have the meanings given to such terms herein.

Section 8.5 Waiver. No waiver of any of the provisions hereof shall be deemed to be a waiver of any other provision whether similar or not. No waiver shall constitute a continuing waiver. No waiver shall be binding on a party unless executed in writing by that party.

Section 8.6 Notices. (a) All notices and other communications hereunder shall be in writing and be deemed duly given on the date of delivery if delivered personally or by a recognized overnight delivery service or on the fifth day after mailing if mailed by first class United States mail, registered or certified, return receipt requested, postage prepaid, and properly addressed to the party as set forth below.

APPENDIX A - GAS TRANSPORTATION AGREEMENT

PGS RECEIPT POINT(S)

Maximum Transportation Quantity: _____ MMBtu per Day plus the Retainage

PGS will accept Gas from Shipper, or for its account, for transportation pursuant to this Agreement at the following point(s):

The above point(s) may be changed by PGS from time to time on written notice to Shipper.

APPENDIX B - GAS TRANSPORTATION AGREEMENT

PGS DELIVERY POINT(S)

Gas transported or sold pursuant to this Agreement shall be delivered by PGS to Shipper at the following point(s):

NAME	PGS METER#	MAXIMUM DELIVERY QUANTITY
Meter at the Facility		_____ MMBtu per Day

APPENDIX C - GAS TRANSPORTATION AGREEMENT

EQUIPMENT

APPENDIX D - GAS TRANSPORTATION AGREEMENT (APPLICABLE TO INTERRUPTIBLE CUSTOMERS)

ALTERNATIVES DURING PERIODS OF INTERRUPTION OR CURTAILMENT

If Shipper is an interruptible Customer, it may select one or more of the "options" set forth below prior to or during a period of interruption or curtailment. These options describe how PGS would attempt to continue deliveries during such a period.

If PGS is entitled to interrupt or curtail deliveries to Shipper for reasons other than Force Majeure, PGS will notify Shipper about such interruption or curtailment. The notice will include the estimated duration of the interruption or curtailment and the estimated cost of gas required for PGS to continue deliveries to Shipper. Shipper shall notify PGS in writing within two (2) hours after receipt of PGS's notice of interruption or curtailment of the option (from Options A through C below) Shipper elects.

If Shipper fails to make *any* election in a timely manner, it shall be conclusively presumed that Shipper has elected Option D below.

The Options are as follows:

Option A (PGS Receipt Point/Shipper's Own Arrangement): Shipper desires PGS to continue deliveries during the period of interruption or curtailment and Shipper agrees to all arrangements necessary to cause the delivery of (1) additional quantities of Gas equal to those quantities which PGS is entitled to interrupt or curtail (2) at the PGS Receipt Point(s).

Option B (Pipeline Release Point/Capacity Release): Shipper desires PGS to continue deliveries during the period of interruption and agrees to all arrangements necessary to cause the delivery of (1) additional quantities of Gas (including the Retainage) equal to those quantities PGS is entitled to interrupt to curtail (2) at the applicable point(s) of receipt into [_____] pipeline system. In addition Shipper desires PGS to release to Shipper (or to a Supplier designated by Shipper), for the duration of the period of interruption or curtailment and at the maximum rate applicable to the capacity released, primary firm capacity on [_____] sufficient to transport such additional quantities of Gas to the PGS Receipt Point(s). By election of this Option B, Shipper agrees to be responsible for the payment of all charges imposed by [_____] with respect to the capacity so released by PGS to Shipper (or Shipper's Supplier), or the use of such capacity, for the period during which such release is effective. If Shipper elects to continue deliveries during the period of interruption pursuant to this Option B, PGS agrees to release the capacity requested by Shipper if PGS determines in its sole discretion that (i) such capacity is available for release to Shipper during the period of interruption or curtailment, (ii) such release can be accomplished readily and without detriment to PGS's system operations, and (iii) such release is practicable within the time constraints and requirements of [_____] FERC Tariff and the ready availability of PGS staff and resources.

Option C PGS as Temporary Agent) : Shipper desires PGS to continue deliveries during the period of interruption or curtailment, appoints PGS as its agent to acquire (at the PGS Receipt Point(s)) additional quantities of Gas at market-based price, equal to those quantities which PGS is entitled to interrupt or curtail, to be used by Shipper during the period of interruption or curtailment, and agrees to reimburse PGS, in addition to all amounts otherwise payable for Gas pursuant to this Agreement, for the incremental additional per-Therm costs incurred by PGS (as Shipper's agent) to acquire for the account of Shipper, at the PGS Receipt Point(s), Gas to be used by Shipper during the period of interruption or curtailment. As used in this Option C, "incremental additional costs" shall mean the weighted average per-Therm costs incurred by PGS to acquire, for the accounts of Shipper and other interruptible customers of PGS who have elected this Option C during a particular period of interruption, the additional quantities of Gas mentioned above to be used by Shipper and such other interruptible customers of PGS during such period of interruption or curtailment, including but not limited to commodity, transportation, storage and other charges incurred by PGS.

Option D (No Action by Shipper): Shipper agrees to cease taking Gas pursuant to PGS's notice during the period of interruption.

If Shipper has elected to continue deliveries pursuant to one of Options A, B or C, PGS will, in implementing its interruption or curtailment notice, take and pay for Shipper's Gas as provided in PGS's FPSC Tariff, but will not discontinue deliveries to Shipper unless (i) if Shipper has elected Option A, Shipper fails to make additional Gas available at the PGS Receipt Point(s), or (ii) if Shipper has elected Option B, either (a) PGS has no primary firm capacity on [_____] available for

ADMITTED

release to Shipper (or Shipper's Supplier) during the period of interruption or curtailment without detriment to service required by PGS's customers in a curtailment category having a higher priority than Shipper's curtailment category under PGS's curtailment plan, or (b) PGS determines either that the release of capacity contemplated by Option B would not result in Shipper's (or Shipper's Supplier's) being able to make the additional quantities of Gas available at the PGS Receipt Point(s) for delivery to Shipper during the period of interruption or curtailment or that the release of capacity cannot be made pursuant to Option B, or (iii) if Shipper has elected Option C, PGS, having exercised commercially reasonable efforts, is unable to acquire for Shipper's account, at the PGS Receipt Point(s), additional Gas for delivery to Shipper during the period of interruption or curtailment. In the event of the occurrence of any of the circumstances described in items (i) through (iii), PGS will provide Shipper with not less than two (2) hours' notice to cease taking Gas during the period of interruption or curtailment, and Shipper shall not have the benefit of Options A through C above.

THE NEXT SHEET IS NO. 8.115

"Transporter Agreement" means, for purposes of this Agreement and the Capacity Release Agreement, the applicable Service Agreements for Firm Transportation Service (however named or titled) between Transporter and PGS in effect from time to time, including (a) Transporter's currently effective applicable rate schedule(s) and (b) General Terms and Conditions filed with the FERC or the FPSC (and incorporated in each said agreement by reference), as such agreements, rate schedules and general terms and conditions may be amended from time to time, and any successor firm agreement(s), firm rate schedule(s) or general terms and conditions applicable thereto.

"Transporter's Tariff" means, for purposes of this Agreement and the Capacity Release Agreement, Transporter's effective FERC or FPSC gas tariff applicable to firm transportation service under the Transporter Agreement, as such tariff may be amended from time to time.

ARTICLE II - TERM; PROGRAM CHANGES

Section 2.1 Term. This Agreement shall be effective on the date first written above. The term of this Agreement shall commence on the first Day of the Month for which PGS first delivers to Pool Manager a list of Customer Accounts as required by Section 4.1(a) (the "Effective Date") and shall continue, unless earlier terminated pursuant to this Agreement, until the first anniversary of the Effective Date (the "Initial Term"). Thereafter, the term of this Agreement shall be extended for additional periods of one year unless either party gives written notice, not less than 90 days prior to the expiration of the Initial Term (or any subsequent period for which this Agreement has been extended) to the other party, of termination.

Section 2.2 Program Changes. Pool Manager understands that PGS is entering into this Agreement as part of a program approved by the FPSC. PGS reserves the right to file with the FPSC modifications to such program (including the terms and conditions of this Agreement). PGS shall give Pool Manager reasonable notice of any such filing. In the event the FPSC approves modifications to such program (including any terms or conditions set forth in this agreement), such modifications shall become binding on the parties hereto as of the date on which approval thereof by the FPSC becomes effective. Notwithstanding any other provision of this Agreement, PGS's obligations hereunder shall at all times be subject to the lawful orders, rules and regulations of the FPSC, and to the terms and conditions of PGS's FPSC Tariff.

ARTICLE III - NON-PAYMENT BY CUSTOMER

Pool Manager may terminate its obligation to deliver Gas hereunder for a Customer Account for non-payment of charges due Pool Manager by giving five days' written notice to PGS prior to the first Day of the Month as of which such termination is to be effective. Any such notice shall be accompanied by (i) documentary evidence of the Customer's failure to make payment for a period of at least 60 days, (ii) Pool Manager's affidavit that it has made commercially reasonable and good faith efforts to collect the amount due and (iii) a non-refundable termination fee of $62.00.

Performance of this Agreement and the interpretation thereof shall be in accordance with the laws of the State of Florida.

Venue for any action between the parties hereto arising out of this Agreement shall be in a court, located in the State of Florida, having jurisdiction. In any such action, the reasonable attorneys' fees and costs of the party prevailing in such action shall be recovered by such party from the other party. Neither PGS nor Pool Manager shall be liable to the other or to any person claiming through the other for special, indirect, punitive or consequential damages, lost profits or lost opportunity costs relating to any matter covered by this Agreement.

Any notice concerning this Agreement, except for those specifically required or permitted to be provided by facsimile, shall be given in writing and mailed by first-class mail to the party being notified at the address for such party stated below:

If to PGS:

Peoples Gas System, Inc.
3600 Midtown Drive
Tampa, FL 33607

P. O. Box 2562
Tampa, Florida 33601-2562
Attention: NCTS Administrator

If to Pool Manager:

_____

_____

_____

_____

_____

Pool Manager shall keep confidential and will not use, or disclose to any person not a party hereto, the information received from PGS or any Customer during the performance of this Agreement, except to the extent such disclosure is necessary for the Pool Manager's performance hereunder or is required by law. In the case of any disclosure required by law to be made, Pool Manager shall, prior to making such disclosure, provide written notice to PGS of the disclosure to be made in order that PGS may seek a protective order or other means of protecting the confidentiality of the information to be disclosed. The parties' obligations under this paragraph shall expire two (2) years from the date of termination of this Agreement.

FPSC EXH NO. 74
ADMITTED

ITS AGENT AGREEMENT

The undersigned Shipper hereby designates the undersigned Agent as its Agent to perform the following identified (*i.e.*, marked with an "X") obligations of Shipper under Shipper's Gas Transportation Agreement(s) with Peoples Gas System, Inc. ("PGS"):

☐ Invoicing/Payment

☐ Nominations

☐ Monthly Imbalance Resolution

☐ Alert Day Volume Aggregation and Alert Day Penalty Responsibility

Shipper, Agent and PGS hereby agree, for all purposes relating to the functions identified above, that:

1. The designation by Shipper of Agent as Shipper's Agent shall be effective as of the beginning of the Day commencing on _____←insert date.

2. Shipper agrees that it may designate only one agent however, that agent may perform one or several of the functions listed above.

3. PGS has the right to rely on any written or verbal communication from Agent, and any communications by PGS to Agent shall be deemed notice to Shipper.

4. Agent shall perform the functions identified above in a manner consistent with PGS's Natural Gas Tariff on file with the Florida Public Service Commission, as the same may be amended from time to time.

5. Alert Day penalties imposed on the ITS Customer Pool of which Shipper is a part shall be paid by Agent; provided, however, that if Agent fails to pay such penalties within sixty (60) days after the date on which they are imposed by PGS, Shipper shall be responsible for, and pay to PGS, such Alert Day penalties (if any) as would have been payable by Shipper for such Alert Day in the absence of this Agreement.

6. Shipper shall remain liable to PGS (a) with respect to any act or omission of Agent in the performance of the functions identified above and, (b) to the extent not paid by Agent for the ITS Customer Pool of which Shipper is a part, all charges arising under the Gas Transportation Agreement(s) between PGS and Shipper. Shipper shall indemnify, hold harmless and defend PGS from and against any and all acts or omissions of Agent. To the extent that Shipper is the State of Florida, one of its agencies, or one of its subdivisions, nothing herein shall be construed or interpreted as a waiver of sovereign immunity beyond the waiver provided in Section 768.28, Florida Statutes, or any successor statute.

MINIMUM VOLUME COMMITMENT
GAS TRANSPORTATION AGREEMENT

This Minimum Volume Commitment Gas Transportation Agreement (the "Agreement") is made and entered into as of the _____ day of _____, 20__, by and between Peoples Gas System, Inc., a Florida corporation ("PGS"), and _____, a _____ ("Shipper"), who hereby agree as follows:

ARTICLE I - DEFINITIONS

As used herein, the following terms shall have the meanings set forth below.

Capitalized terms used herein, but not defined below, have the meanings given for such terms in PGS's FPSC Tariff.

"Actual Takes" means, for a specified period, the quantity of Gas passing through the meter(s) of the Customer Accounts during that period.

"Business Day" means the Days Monday through Friday (excluding any federal banking holiday falling on any such Day).

"Day" means the period of 24 consecutive hours beginning and ending at 9:00 a.m. Central Clock Time.

"Facility" means Shipper's _____ facility located in _____, Florida.

"FPSC" means the Florida Public Service Commission or any successor agency.

"Gas" shall have the same meaning as given for such term in PGS's FPSC Tariff.

"Gas Service" shall have the same meaning as given for such term in PGS's FPSC Tariff.

"MAT Deficiency Charge" means the difference between the applicable MAT set forth in Article VI and the actual quantity of Gas delivered during the twelve-month delivery period, multiplied by the applicable rate schedule in effect at the end of the twelve-month delivery period.

"Maximum Delivery Quantity" or "MDQ" means the maximum amount of Gas that PGS is obligated to cause to be delivered for Shipper's account pursuant to this Agreement on any Day at the PGS Delivery Point(s) and is stated in Appendix B.

"Maximum Transportation Quantity" or "MTQ" means the maximum amount of Gas that PGS shall be obligated to receive pursuant to this Agreement on any Day at the PGS Receipt Point(s), and is stated in Appendix A.

"Minimum Annual Take" or "MAT" means the quantity of minimum annual delivery of natural gas at the facility agreed to by Shipper and set forth in Article VI.

"Minimum Delivery Obligation" means the sum of Shipper's total Gas requirements over the Term of this agreement as set forth in Article VI.

"Nomination" means a notice delivered by Shipper to PGS in the form specified in PGS's FPSC Tariff, specifying (in MMBtu) the quantity of Gas the Shipper desires to purchase or to have PGS receive, transport, and deliver at the PGS Delivery Point(s).

"Nominate" means to deliver a completed Nomination.

"PGS Delivery Point(s)" means the point(s) listed in Appendix B.

"PGS Receipt Point(s)" means the point(s) of physical interconnection between Transporter and PGS, or between Shipper and PGS listed in Appendix A.

"Retainage" means 0.35% of Gas received by PGS for the account of the Customer at the Primary Delivery Point(s) to account for lost and unaccounted Gas between such point(s) and the meters of the Customer Accounts.

"Supplier(s)" means person(s) (other than PGS) from which Shipper purchases Gas transported hereunder.

"Transporter" means any upstream intrastate or interstate transport service provider.

"Twelve-Month Delivery Period" means each twelve-month period commencing on the date of Gas Service is available to the Facility and continues on an annual basis throughout the Term of this Agreement.

ARTICLE II – TERM

This Agreement is effective on the date first written above. The term shall commence upon the initiation of Gas Service and continue until the last day of the Twelve-Month Delivery Period or when the Minimum Delivery Obligation is satisfied. (the "Termination Date") (the "Term"). The Term shall reflect the recovery period for the extension of Gas Service. In no instance will the Term exceed (10) years. At the end of the Term, the Customer will be placed in the applicable rate schedule.

ARTICLE III – SALES AND TRANSPORTATION SERVICE

Section 3.1 Services. PGS desires to sell and Shipper desires to purchase from PGS, from time to time, for use in the Facility (but not for resale), Gas in quantities which, at Shipper's request, PGS may, in its sole discretion exercised in a not unduly discriminatory manner, agree to sell to Shipper. Shipper also engages PGS, and PGS accepts such engagement, to receive Gas for Shipper's account, up to the MTQ, at the PGS Receipt Point(s), and to cause an equivalent quantity, less the Retainage, to be redelivered to Shipper. Such sales and transportation shall be governed by PGS's FPSC Tariff and this Agreement. If there is a conflict between the Tariff and this Agreement, the Tariff shall control. Sales and transportation hereunder are provided in accordance with PGS's FPSC Tariff and PGS's curtailment plan. If Shipper's service is interruptible, Shipper may select one or more of the options described in Appendix D, which may enable Shipper to continue receiving delivery of Gas during periods of curtailment or interruption.

PGS shall have no obligation to make sales to Shipper in lieu of the transportation of Gas contemplated by this Agreement.

Section 3.2 Required Equipment. All items that PGS must install to provide natural gas transportation service hereunder (the "Equipment"), if any, shall be determined solely by PGS. Unless the parties agree otherwise, all facilities used to provide service to Shipper hereunder (including without limitation the Equipment) shall be installed, owned, operated and maintained by PGS.

Section 3.3 Telemetry Equipment. Equipment which PGS must install to provide transmission of measurement data hereunder (the "Telemetry Equipment"), if any, and the anticipated cost thereof, are listed in Appendix C. Shipper shall reimburse PGS for all costs incurred for the Telemetry Equipment on receipt of PGS's invoice therefor. Shipper shall be responsible for securing access to the gas measurement data transmission network as required by PGS for the proper functioning of Telemetry Equipment.

ARTICLE IV – NOMINATIONS

Section 4.1 General. For each Day Shipper desires service hereunder, Shipper shall provide a Nomination to PGS pursuant to Sections 4.2 and/or 4.3 for each meter at the Facility. The total quantity for the Facility may be Nominated to a single meter, with "zero" Nominations being made for any additional meters located at the Facility. All Nominations shall be made to PGS at its website (https://custactivitiespeoplesgas.com) provided that, in an emergency, a Nomination may be delivered via facsimile using the form set forth in PGS's FPSC Tariff. Quantities confirmed by PGS for delivery shall be Scheduled Quantities. If requested by Shipper, PGS will allow increases or decreases in Scheduled Quantities after the Nomination deadlines set forth in this article, if the same can be confirmed by PGS, Transporters and Suppliers, and can be accomplished without detriment to services then scheduled on such Day for PGS and other shippers. The maximum quantity PGS shall be obligated to make available for delivery to Shipper on any Day (which shall not exceed the MDQ) is the sum of (a) the Transportation Quantity and (b) the Sales Quantity established pursuant to this article.

Section 4.2 Nomination for Purchase. Unless otherwise agreed, Shipper shall Nominate Gas for purchase hereunder not less than seven (7) Business Days prior to the first Day of any Month in which Shipper desires to purchase Gas. Daily notices shall be given to PGS at least two (2) Business Days (but not less than forty-eight (48) hours) prior to the commencement of the Day on which Shipper desires delivery of the Gas. If Shipper has timely Nominated a quantity for a particular Month, PGS shall confirm to Shipper the quantity PGS will tender for purchase by Shipper (the "Sales Quantity," which shall also be a "Scheduled Quantity") no later than 5:00 p.m. Eastern Time on the Business Day immediately preceding each Day during such Month.

Section 4.3 Nomination for Transportation. Unless otherwise agreed, Shipper shall, for each Month, and each Day during such Month that Shipper seeks to change any aspect of any prior Nomination, notify PGS by providing a completed Nomination. Shipper's Nomination for Gas to be to be made available for delivery on the first Day of any Month shall be given by 10 a.m. on the second Business Day prior to the Day on which a nomination must be delivered to Transporter for receipt of deliveries at the PGS Receipt Point(s) on such Day. Daily Nominations for Gas to be made available for delivery other than on the first Day of a Month shall be given to PGS by 10 a.m. on the Business Day prior to the Day on which a nomination must be delivered to Transporter for the receipt of deliveries at the PGS Receipt Point(s) on such Day. The following nomination information is required for a valid nomination:

a. The Shipper's account number under which service is being nominated;

b. The receipt point location including applicable DRN and upstream pipeline name, upstream pipeline package ID, including Shipper's PGS account number, and quantity in Therms of Gas to be tendered at each PGS receipt point;
c. The downstream delivery facility name, and quantity in Therms of Gas to be delivered for each PGS Shipper account;
d. A beginning and ending date for each nomination;
e. The upstream contract identifier.

Only nominations with clearly matching upstream Transporter identifiers (including Shipper's package ID and PGS account number) and downstream (PGS) identifiers will be scheduled. If Shipper or Shipper's Agent fails to comply with provisions (a) through (e) of this section, PGS may not schedule commencement of service or change a prior nomination.

Shipper understands that PGS is subject to FERC regulations that may require PGS to post certain Shipper information on a publicly accessible website. The submission by Shipper or Shipper's Agent of a required nomination shall constitute Shipper's authorization to PGS to publicly disclose any information (including but not limited to the information provided in such nomination) required by applicable law or regulation to be disclosed by PGS.

PGS shall confirm to Shipper the quantity PGS will make available for redelivery on such Day (the "Transportation Quantity," which shall also be a "Scheduled Quantity") no later than 5:00 p.m. Eastern Time on the Business Day immediately preceding such Day. PGS has no obligation to confirm a quantity Nominated by Shipper pursuant to this section greater than the quantity which, in PGS's reasonable judgment, equals the Facility's likely consumption for a Day plus Retainage, less any Sales Quantities confirmed for delivery on such Day.

Section 4.4 Mutually Beneficial Transactions. Shipper recognizes that PGS maintains the operation and system integrity of the PGS distribution system on a daily basis, and that PGS, as the delivery point operator for its points of interconnection with interstate pipelines, is subject to the rules and regulations of such pipelines with regard to operational flow rates, pressures and penalties. As such, PGS may from time to time need Shipper to vary its Nominated quantities of Gas to be delivered at the PGS Receipt Point(s). On such occasions, PGS may in its sole discretion request, and Shipper may agree to, a change in the quantity of Gas to be delivered for the account of Shipper at the PGS Receipt Point(s). No such change in the quantity of Gas to be delivered shall be made pursuant to this section without the consent of Shipper. Terms and conditions of any such transaction will be agreed upon between the parties at the time of the transaction and will be recorded and confirmed in writing within two Business Days of the transaction.

ARTICLE–V - TRANSPORTATION AND OTHER CHARGES

Section 5.1 Transportation Charges. Shipper shall pay PGS each Month for transportation service rendered by PGS, and, if applicable, for Gas purchased from PGS, in accordance with the then-applicable rate schedule in PGS's FPSC Tariff. At the time of execution of this Agreement, Rate Schedule ___ is applicable. In the event rate schedule, CIS or a fixed rate schedule is applicable, this Agreement will automatically renew following the Initial Term at the then applicable rate schedule unless Shipper and PGS have agreed at least thirty (30) days prior to the expiration of the then current term that Rate Schedule CIS or another rate schedule shall apply.

During the Term of this Agreement, Buyer agrees to a MAT of natural gas at the Facility which will follow the schedule outlined in Section 6.2.

Section 5.2 Changes in Tariff. If the applicable rates or rate schedules change or are amended or superseded, the newly applicable rates or rate schedules shall be applicable to service hereunder. Nothing contained herein shall prevent PGS from filing with the FPSC (or Shipper from opposing) changes to the rates and other provisions in PGS's FPSC Tariff.

ARTICLE VI - REQUIREMENTS

Section 6.1 Minimum Delivery Obligation. The sum of Shipper's total Gas requirements over the Term of this Agreement are estimated to be _____ Therms.

Section 6.2 Minimum Annual Take. PGS requires the following MAT for each Twelve-Month Delivery Period, or such Delivery Period as agreed upon by the Parties as applicable:

Period	Therms
1	
2	
3	
4	
5	
6	
7	
8	
9	
10	

Section 6.3 Shortfall and MAT Deficiency Charge. If the Shipper fails to take delivery of the MAT in any Twelve-Month Delivery Period, the Shipper shall pay PGS a MAT Deficiency Charge calculated as follows: the difference between the applicable MAT and the actual quantity of Gas delivered during the Twelve-Month Delivery Period, multiplied by the rate schedule in effect at the end of the Twelve-Month Delivery Period. If, during any Twelve-Month Delivery Period, the actual quantity of Gas delivered to the Facility exceeds the applicable MAT, said excess shall be carried forward to the next Twelve-Month Delivery Period for purposes of offsetting any MAT Deficiency Charge hereunder.

Section 6.4 Financial Guarantee. Shipper shall furnish to PGS an irrevocable standby letter of credit issued by a bank acceptable to PGS or such other form of guarantee acceptable to PGS (the "Financial Guarantee") in an amount equal to [_____]. PGS may adjust the amount required in the Financial Guarantee at the end of each Twelve-Month Delivery Period.

Shipper's failure to maintain the Financial Guarantee, which for the avoidance of doubt includes notice of termination of security without acceptable alternative Financial Guarantee being provided, shall constitute a default of this Agreement.

ARTICLE VII - BILLING AND PAYMENT

Section 7.1 Billing. PGS will bill Shipper each Month for all Actual Takes during the preceding Month, and for any other amounts due hereunder. If, during the preceding Month, PGS has purchased Gas from Shipper pursuant to an interruption or curtailment order, such bill shall show a credit for the estimated amount due Shipper for such purchase(s). If the estimated amount owed by PGS to Shipper exceeds the amount Shipper owes PGS, PGS shall pay Shipper the net amount estimated to be due Shipper at the time PGS bills Shipper.

Section 7.1.1 Billing of MAT Deficiency Charge(s). PGS will bill Shipper for the MAT Deficiency Charge no later than thirty (30) days after the end of each Twelve-Month Delivery Period.

Section 7.2 Payment. Shipper shall pay all such bills, minus any disputed amounts, at the address specified in the invoice by the 20th Day following the date of PGS's mailing (as signified by the postmark) or other delivery of the bill. All sums not so paid by Shipper (or credited or paid by PGS) shall be considered delinquent and subject to later payment schedules as set forth below.

Section 7.3 Termination Payment. If the Shipper terminates Gas Service hereunder after execution of this Agreement, Shipper shall pay PGS any MAT Deficiency Charge(s) applicable at the time of termination and any future MAT Deficiency Charge(s) pursuant to the schedule in Section 6.2. resulting from such termination (the "Termination Payment"). Shipper agrees that it will make any such Termination Payment to PGS within twenty (20) days after receipt of PGS' invoice.

Section 7.4 Billing Disputes. In the event of a bona fide billing dispute, Shipper or PGS, as the case may be, shall pay (or credit) to the other party all amounts not in dispute, and the parties shall negotiate in good faith to resolve the amount in dispute as soon as reasonably practicable. If a party has withheld payment (or credit) of a disputed amount, and the dispute is resolved, the non-prevailing party shall pay to the other party the amount determined to be due such other party, plus interest thereon at an annual rate equal to the prime interest rate of Citibank, N.A., New York, New York, plus one percent (1%), calculated on a daily basis from the date due until paid (or credited).

Section 7.5 Errors or Estimates. If an estimate is used to determine the amount due Shipper for purchases by PGS pursuant to an interruption or curtailment order, PGS shall make any adjustment necessary to reflect the actual amount due Shipper on account of such purchases in the next bill rendered to Shipper after determination of the actual amount due. An error in any bill, credit or payment shall be corrected in the next bill rendered after the error is confirmed by PGS.

Each party's performance obligation hereunder shall abate proportionately during a Force Majeure event and during any period that a party is unable to perform its obligations due to the other party's performance failure. The term of this Agreement shall be extended for a period equal to the length of any such abatement(s).

ARTICLE VIII - FAILURE TO MAKE PAYMENT

Section 8.1 Late Payment Charge. Charges for services due and rendered which are unpaid as of the past due date are subject to a Late Payment Charge of 1.5%, except the accounts of

mail, registered or certified, return receipt requested, postage prepaid, and properly addressed to the party as set forth below.

APPENDIX A - GAS TRANSPORTATION AGREEMENT

PGS RECEIPT POINT(S)

Maximum Transportation Quantity: _____ MMBtu per Day plus the Retainage

PGS will accept Gas from Shipper, or for its account, for transportation pursuant to this Agreement at the following point(s):

The above point(s) may be changed by PGS from time to time on written notice to Shipper.

APPENDIX B - GAS TRANSPORTATION AGREEMENT

PGS DELIVERY POINT(S)

Gas transported or sold pursuant to this Agreement shall be delivered by PGS to Shipper at the following point(s):

NAME	PGS METER#	MAXIMUM DELIVERY QUANTITY
Meter at the Facility		_____ MMBtu per Day

APPENDIX C - GAS TRANSPORTATION AGREEMENT

TELEMETRY EQUIPMENT

APPENDIX D -
GAS TRANSPORTATION AGREEMENT
(APPLICABLE TO INTERRUPTIBLE CUSTOMERS)

ALTERNATIVES DURING PERIODS OF INTERRUPTION OR CURTAILMENT

If Shipper is an interruptible Customer, it may select one or more of the "options" set forth below prior to or during a period of interruption or curtailment. These options describe how PGS would attempt to continue deliveries during such a period.

If PGS is entitled to interrupt or curtail deliveries to Shipper for reasons other than Force Majeure, PGS will notify Shipper about such interruption or curtailment. The notice will include the estimated duration of the interruption or curtailment and the estimated cost of gas required for PGS to continue deliveries to Shipper. Shipper shall notify PGS in writing within two (2) hours after receipt of PGS's notice of interruption or curtailment of the option (from Options A through C below) Shipper elects.

If Shipper fails to make *any* election in a timely manner, it shall be conclusively presumed that Shipper has elected Option D below.

The Options are as follows:

Option A (PGS Receipt Point/Shipper's Own Arrangement): Shipper desires PGS to continue deliveries during the period of interruption or curtailment and Shipper agrees to make all arrangements necessary to cause the delivery of (1) additional quantities of Gas equal to those quantities which PGS is entitled to interrupt or curtail (2) at the PGS Receipt Point(s).

Option B (Pipeline Release Point/Capacity Release): Shipper desires PGS to continue deliveries during the period of interruption and agrees to make all arrangements necessary to cause the delivery of (1) additional quantities of Gas (including the Retainage) equal to those quantities which PGS is entitled to interrupt or curtail (2) at the applicable point(s) of receipt into [_____] pipeline system. In addition, Shipper desires PGS to release to Shipper (or to a Supplier designated by Shipper), for the duration of the period of interruption or curtailment and at the maximum rate applicable to the capacity released, primary firm capacity on [_____] sufficient to transport such additional quantities of Gas to the PGS Receipt Point(s). By election of this Option B, Shipper agrees to be responsible for the payment of all charges imposed by [_____] with respect to the capacity so released by PGS to Shipper (or Shipper's Supplier), or the use of such capacity, for the period during which such release is effective. If Shipper elects to continue deliveries during the period of interruption pursuant to this Option B, PGS agrees to release the capacity requested by Shipper if PGS determines in its sole discretion that (i) such capacity is available for release to Shipper during the period of interruption or curtailment, (ii) such release can be accomplished readily and without detriment to PGS's system operations, and (iii) such release is practicable within the time constraints and requirements of [_____] FERC Tariff and the ready availability of PGS staff and resources.

Option C (PGS as Temporary Agent): Shipper desires PGS to continue deliveries during the period of interruption or curtailment, appoints PGS as its agent to acquire (at the PGS Receipt Point(s)) additional quantities of Gas at market-based price, equal to those quantities which PGS is entitled to interrupt or curtail, to be used by Shipper during the period of interruption or curtailment, and agrees to reimburse PGS, in addition to all amounts otherwise payable for Gas pursuant to this Agreement, for the incremental additional per-Therm costs incurred by PGS (as Shipper's agent) to acquire for the account of Shipper, at the PGS Receipt Point(s), Gas to be used by Shipper during the period of interruption or curtailment. As used in this Option C, "incremental additional costs" shall mean the weighted average per-Therm costs incurred by PGS to acquire, for the accounts of Shipper and other interruptible customers of PGS who have elected this Option C during a particular period of interruption, the additional quantities of Gas mentioned above to be used by Shipper and such other interruptible customers of PGS during such period of interruption or curtailment, including but not limited to commodity, transportation, storage and other charges incurred by PGS.

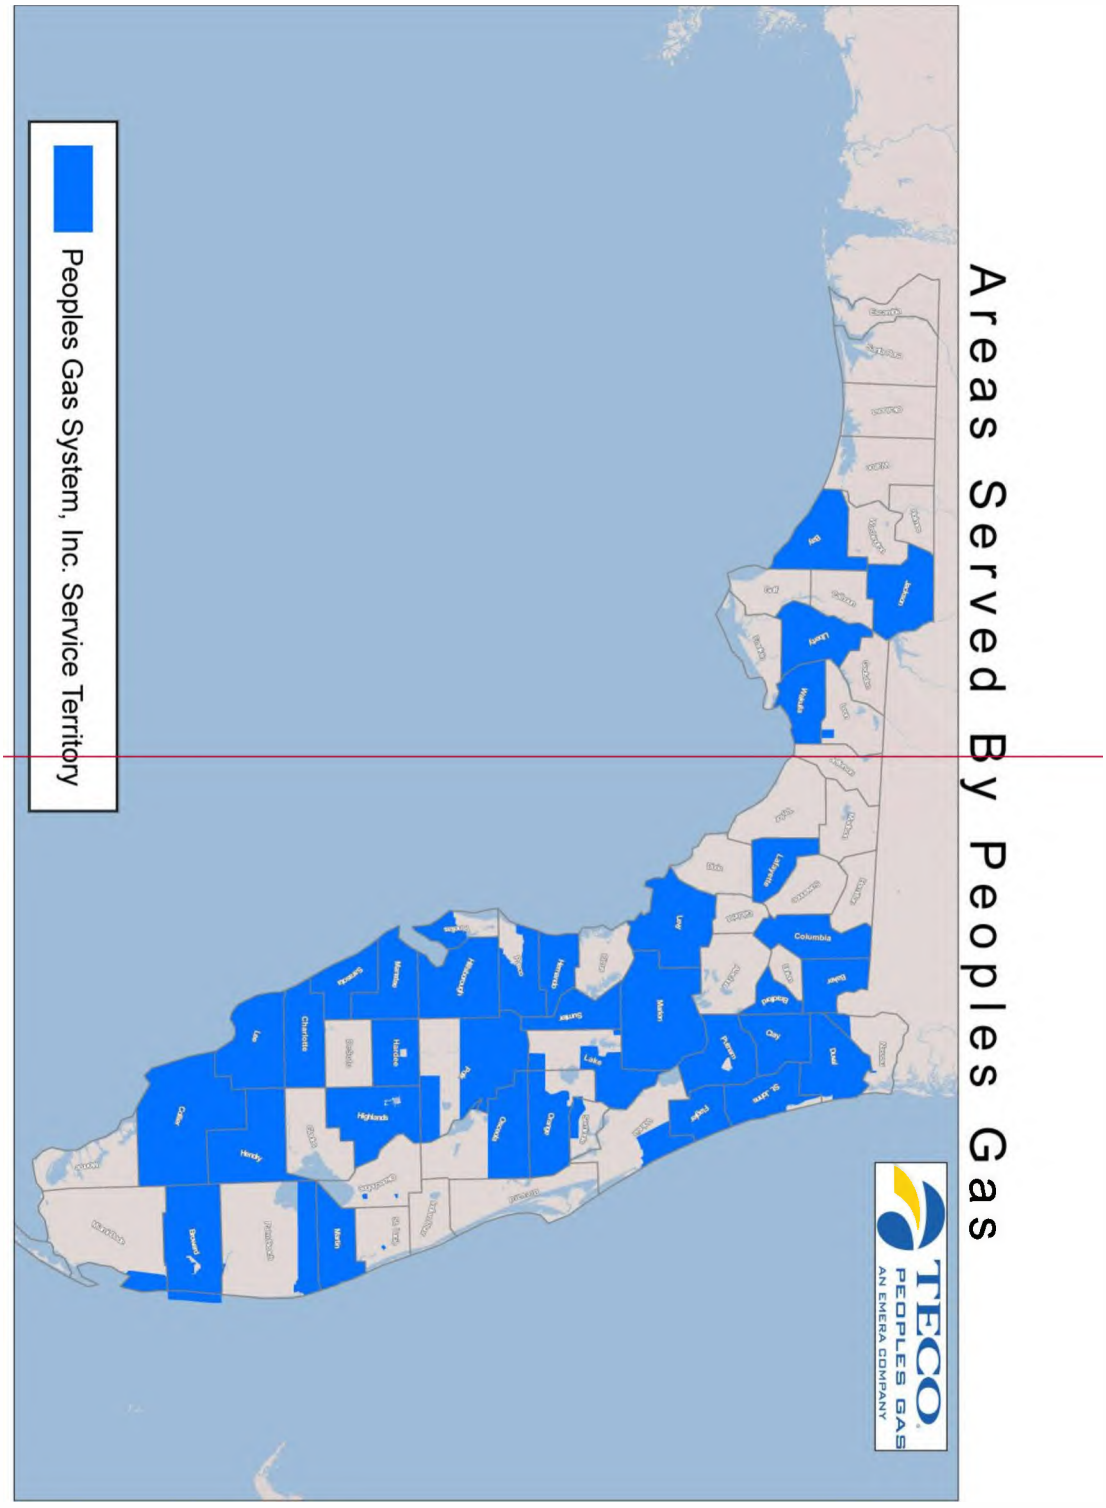
Option D (No Action by Shipper): Shipper agrees to cease taking Gas pursuant to PGS's notice during the period of interruption.

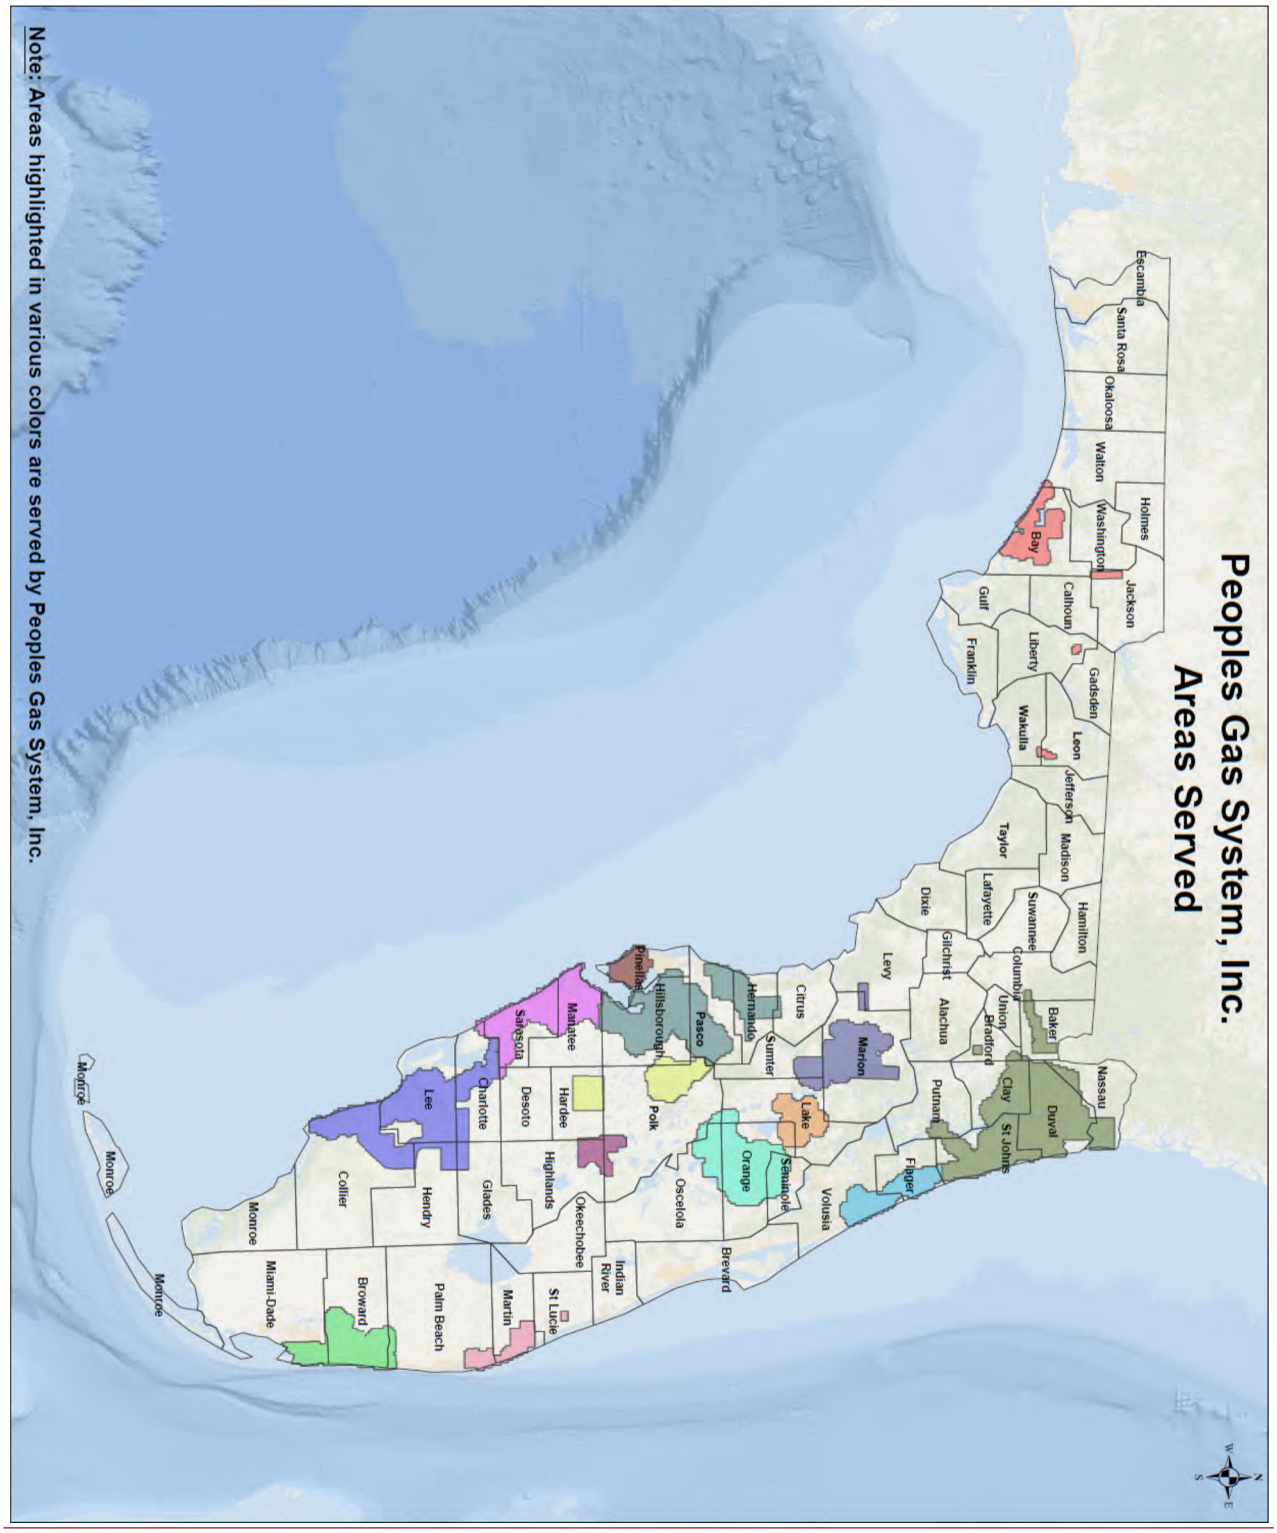
If Shipper has elected to continue deliveries pursuant to one of Options A, B, or C, PGS will, in implementing its interruption or curtailment notice, take and pay for Shipper's Gas as provided in PGS's FPSC Tariff, but will not discontinue deliveries to Shipper unless (i) if Shipper has elected Option A, Shipper fails to make additional Gas available at the PGS Receipt Point(s), or (ii) if Shipper has elected Option B, either (a) PGS has no primary firm capacity on [_____] available for release to Shipper (or Shipper's Supplier) during the period of interruption or curtailment without

FPSC EXH NO. 74
ADMITTED

detriment to service required by PGS's customers in a curtailment category having a higher priority than Shipper's curtailment category under PGS's curtailment plan, or (b) PGS determines either that the release of capacity contemplated by Option B would not result in Shipper's (or Shipper's Supplier's) being able to make the additional quantities of Gas available at the PGS Receipt Point(s) for delivery to Shipper during the period of interruption or curtailment or that the release of capacity cannot be made pursuant to Option B, or (iii) if Shipper has elected Option C, PGS, having exercised commercially reasonable efforts, is unable to acquire for Shipper's account, at the PGS Receipt Point(s), additional Gas for delivery to Shipper during the period of interruption or curtailment. In the event of the occurrence of any of the circumstances described in items (i) through (iii), PGS will provide Shipper with not less than two (2) hours' notice to cease taking Gas during the period of interruption or curtailment, and Shipper shall not have the benefit of Options A through C above.

Peoples Gas System, Inc.





Service Territory

This map depicts the general service territory as it stands today. For more details, see the list of counties and communities served in Section 6.

RULES AND REGULATIONS

I

INITIATION OF SERVICE

A. REQUEST FOR GAS SERVICE

Gas Service may be requested by a prospective Customer by:

1. Verbal, telephonic or electronic request to a business office of the Company (in the case of residential Gas Service), or

2. By submission to Company of a completed Gas Service Agreement (in the case of Gas Service other than residential Gas Service).

B. ACCEPTANCE OF REQUEST FOR GAS SERVICE

A Gas Service Agreement shall be deemed to be accepted by the Company when Gas Service pursuant thereto is initiated.

C. OBLIGATION OF CUSTOMER AND COMPANY

The terms and conditions of the Customer's Gas Service Agreement, these Rules and Regulations, and the applicable rate schedules shall become binding upon the Customer and Company upon acceptance by the Company of the Customer's Gas Service Agreement.

D. MISCELLANEOUS SERVICE CHARGES

Whenever Gas Service is established or re-established at any location, the charges set forth below will be made:

	RESIDENTIAL	OTHER
ACCOUNT OPENING CHARGE (applies only where a change of Customer occurs and Gas Service is not shut off at the premises)	**$3~~31~~.00**	**$3~~31~~.00**
METER TURN ON / SERVICE INITIATION CHARGE (applies where service is inactive)	**$~~7894~~.00 for initial unit or meter $~~3436~~.00 for each additional unit or meter**	**$~~107~~121.00 for initial unit or meter $~~46~~54.00 for each additional unit or meter**

RULES AND REGULATIONS (Continued)

	RESIDENTIAL	OTHER
METER RECONNECTION/ SERVICE RESTORATION CHARGE (applies where service has been turned off for cause and includes cost of turn-off)	**$~~104~~100.00 for initial unit or meter $33.00 for each additional unit or meter**	**$1145.00 for initial unit or meter $4~~2~~3.00 for each additional unit or meter**
TRIP CHARGE/COLLECTION AT CUSTOMER PREMISES (applies when Company's employee, agent, or representative makes a trip to Customer's premises for the purpose of terminating Gas Service or providing final notice of termination for nonpayment of bills)	**$2~~9~~5.00**	**$2~~9~~5.00**
FAILED TRIP CHARGE AT CUSTOMER PREMISES (applies when the Customer fails to keep a scheduled appointment with the Company's employee, agent or representative)	**$~~25~~31.00**	**$~~25~~31.00**
TEMPORARY METER TURN-OFF CHARGE (applies when Company's employee, agent or representative, turns off Customers' meter temporarily at Customer's request)	**$33.00 per meter**	**$33.00 per meter**

Where Gas Service is established outside of normal business hours, by special appointment, or same day service the charges set forth above multiplied by 1.5. Same day service is offered on an as-available basis.

RULES AND REGULATIONS (Continued)

E. WITHHOLDING OF GAS SERVICE

Company will refuse to establish Gas Service to any location where it finds that establishment of Gas Service will create an unsafe or hazardous condition on the Customer's premises or affecting the general public.

Company may discontinue Gas Service to an existing Customer or refuse to serve a prospective Customer where such Customer's use of Gas is or will be detrimental or hazardous to the Gas Service supplied to other Customers.

Company may discontinue service to an existing Customer or refuse to establish Gas Service for actions or threats made by a Customer, or anyone on the Customer's premises, which are reasonably perceived by a Company employee as violent or unsafe, after affording the Customer reasonable opportunity to cease from any further act of violence or unsafe condition.

Company will not establish Gas Service to any Customer where that Customer is in arrears for Gas Service at that location or another location in the Company's service area.

If a prospective Customer requests connection for Gas Service but denies the Company's employees and representatives access to the Customer's Installation for the purpose of inspecting the appliances prior to establishing Gas Service, the Company may refuse to provide Gas Service to the prospective Customer.

Fraudulent Use of Gas:
Company will discontinue Gas Service without notice:

a. In the event of tampering with regulators, valves, Meters or other facilities furnished and owned by Company, or

b. In the event of other fraudulent use of Gas Service.

Whenever Gas Service is discontinued for unauthorized or fraudulent use thereof, the Company, before restoring Gas Service, may require Customer to make, at Customer's expense, all changes in piping or equipment necessary to eliminate the fraudulent use and to pay an amount reasonably estimated as the deficiency (if any) in Company's revenue and all costs incurred by Company resulting from such unauthorized or fraudulent use.

Cut and Cap
As used herein, "costs incurred by Company" shall include the Company's cost to cut and cap the Customer's service line at the Main, together with the cost incurred by the Company to restore service to the Customer, in the event the Company, in order to discontinue service to the Customer pursuant to this section, has been required (after final notice to the Customer requesting payment, and the Customer's denial of access by Company to its meter for the purpose of discontinuing service) to cut and cap the Customer's service line at the Main.

If a Customer whose service line has been cut and capped ~~as aforesaid~~ for any reason thereafter requests restoration of Gas Service, Company may require such Customer to pay (in addition to any other charges payable pursuant to these Rules and Regulations) all costs incurred by Company to effect the previous discontinuance of Gas Service to such Customer, as well as all costs incurred by Company to restore Gas Service to such Customer.

II

CUSTOMER'S INSTALLATION

A. GENERAL

Customer's Installation shall be constructed, installed and maintained in accordance with standard practice as determined by local codes and ordinances applicable thereto, these Rules and Regulations and other applicable governmental requirements; provided, however, that Company shall have no responsibility whatsoever for determining whether any local code or ordinance or any other governmental requirement is applicable to Customer's Installation, or for enforcing or determining whether Customer's Installation is in compliance with any local code or ordinance or any other governmental requirement. A Customer installing a Gas fired electric generator shall also ensure that the installation and operation of such equipment complies with the Tariff and the requirements of the Customer's electric provider. The Company shall not be responsible for the installation and maintenance of carbon monoxide or methane gas detectors within the Customer's premises.

The Customer's piping, appliances, equipment and apparatus shall be installed and maintained in accordance with standard practice, and in full compliance with all applicable laws, codes and governmental and Company regulations. The Customer expressly agrees to utilize no apparatus or device which is not properly constructed, controlled, and protected, or which may adversely affect service to others, and the Company reserves the right to discontinue or withhold service for such apparatus or device.

Customer shall give immediate notice to the Company when any leakage of Gas is detected, discovered, or suspected. Whenever a leakage of Gas is suspected, detected, or discovered, Customer agrees not to use any potential source of ignition, such as flame, electrical source, or other igniting medium in the proximity of escaping Gas, which could ignite such Gas.

B. INSPECTION OF CUSTOMER'S INSTALLATION

Where governmental inspection of a Customer's Installation is required, Company will not supply Gas Service to such installation until the necessary inspections have been made and Company has been authorized to provide Gas Service.

Company may also inspect Customer's Installation prior to rendering Gas Service, and from time to time thereafter, but assumes no responsibility whatsoever as a result of having made such inspection. Company will not render (and may discontinue) Gas Service to any Customer Installation which Company finds to be hazardous. Customer has sole responsibility to insure that the hazardous condition has been corrected prior to initiation of Gas Service.

FPSC EXH NO 74
ADMITTED

III

DEPOSITS (Continued)

2. a. tampered with the Gas Meter; or

b. used service in a fraudulent or unauthorized manner.

G. REFUND OF DEPOSIT WHEN GAS SERVICE IS DISCONNECTED

Upon termination of Gas Service, a cash deposit and accrued interest may be credited against the final account and the balance, if any, shall be returned promptly (in no event later than fifteen (15) days after Gas Service is discontinued) to the Customer or agency.

H. RETURNED CHECKS

If the Customer's check for Gas Service is returned to the Company and not paid by the drawer's bank, the Company will follow the procedures set forth in Section 832.07, Florida Statutes. Termination of Gas Service shall not be made for failure to pay such returned check charge.

IV

BILLING

A. BILLING PERIODS

Bills for Gas Service will be rendered each month. Bills shall be considered received by Customer when mailed to the most recent billing address supplied by Customer to Company or by any other delivery method expressly agreed to by both the Company and Customer to reach and bill the Customer.

It is the Customer's (both sales service and transportation service Customers) obligation to make payments to the Company (or to an Authorized Payment Agent of the Company) of all bills rendered. Payment by a Customer to a third party (including a Third Party Gas Supplier) which has not been designated by Company as an Authorized Payment Agent will not satisfy the Customer's obligation to make payment of Company's bill for Gas Service.

B. INITIAL OR FINAL BILLS

When the period of Gas Service for which an initial or final bill is rendered is less than fifty (50) percent of the normal billing period, the Customer charge or minimum bill shall be one-half (1/2) of the charge per applicable rate schedule. When the period of Gas Service is fifty (50) percent or more of the normal Billing Period, there shall be no reduction in the Customer charge or minimum bill. The distribution charge for Gas consumed shall be at the applicable billing rate.

C. NON-RECEIPT OF BILLS

Failure of Customer to receive a bill shall not relieve Customer of its obligation to pay the bill.

D. METER READINGS NOT COMBINED

If a Customer takes Gas Service under more than one rate schedule at a single delivery point, the bill shall be calculated separately for the Gas Service provided under each such rate schedule.

If a Customer takes Gas Service under one or more rate schedules at two or more Points of Delivery, a bill shall be calculated separately for Gas Service provided under each rate schedule at each Point of Delivery.

If Company must, for reasons of its convenience, establish more than one Point of Delivery at a single premise, the readings of the Meters for like classes of service will be combined.

E. DELINQUENT BILLS

A bill shall be considered delinquent if payment thereof has not been received by Company (or an Authorized Payment Agent of the Company) upon the expiration of twenty (20) days from the date of Company's mailing or other delivery of such bill. Charges for services due and rendered which are unpaid as of the past due date may be subject to a Late Payment Charge of 1.5 percent, except the accounts of federal, state, and local governmental entities, agencies, and instrumentalities. A Late Payment Charge may be applied to the accounts of federal, state, and local governmental entities, agencies, and instrumentalities at a rate no greater than allowed, and in a matter permitted by applicable law.

BILLING (Continued)

Essential Service Customer of the scheduled disconnect date. The Company may thereafter discontinue Gas Service to the Medically Essential Service Customer on the scheduled disconnect date if payment is not made on or before such date.

During the period that Gas Service is continued under the provisions of this section, the Customer shall continue to be responsible for the cost of the residential Gas Service.

H. ADJUSTMENT OF BILLS FOR METER ERROR

Whenever a Meter is found to have an average error as defined in Commission Rule 25-7.062, FAC, of more than two percent (2%) fast, Company will refund to Customer the amount billed in error for one-half the period since the last Meter test. This one-half period will not exceed twelve (12) months unless it can be shown that the error was due to some cause, the date of which can be fixed, in which case the overcharge will be computed back to, but not beyond, such date, based upon available records. If the Meter has not been tested in accordance with Commission Rule 25-7.064, FAC, the period for which it has been in service beyond the regular test period will be added to the twelve (12) months in computing the refund. The refund will not include any part of any minimum or Customer charge.

Except as provided by this subsection, Company may back bill Customer in the event that if a Meter is found to be slow, non-registering or partially registering. Company may not backbillback bill for any period greater than twelve (12) months from the date it removes the Meter of a Customer, which Meter is later found by Company to be slow, non-registering or partially registering. If it can be ascertained that the Meter was slow, non-registering or partially registering for less than twelve (12) months prior to removal, then Company may backbillback bill only for the lesser period of time. In any event, Customer may extend the payments of the back bill over the same amount of time for which Company issued the back bill.

1. Whenever a Meter tested is found to have an average error of more than two percent (2%) slow, Company may bill Customer an amount equal to the unbilled error in accordance with this subsection. If Company has required a Meter test deposit as permitted under Commission Rule 25-7.065(2), FAC, Customer may be billed only for the portion of the unbilled error which is in excess of the deposit retained by Company.

2. In the event of a non-registering or a partially registering Meter, unless the provisions of subsection (3) of this rule apply, Customer may be billed on an estimate based on previous bills for similar usage.

3. It shall be understood that wWhen a Meter is found to be in error in excess of the prescribed limits of two percent (2%) fast or slow, the figure to be used for calculating the amount of refund or charge shall be that percentage of error as determined by the test.

4. In the event of unauthorized use, Customer may be billed on a reasonable estimate of the Gas consumed.

BILLING (Continued)

I. BUDGET BILLING PLAN (optional)

Residential Customers (RS) and non-Residential Small Commercial Customers (SGS) served under Rate Schedules SGS, CS-GHP, GS-1, GS-2, and GS-3 may elect to make budgeted monthly payments of amounts due the Company to help stabilize their monthly payments. To qualify for the Budget Billing Plan, a customer must be in good financial standing. In determining whether a Customer is in good financial standing, the Company will have consider such factors as whether the Customer has noan overdue balance, whether the Customer has a or pending service disconnection for non-payment, whether the Customer has a history of late payment or returned payments for insufficient funds, or other similar factors. when beginning the plan. The Company shall have 30 days following a Customer's request to participate in the Budget Billing Plan to deny or implement such participation in the program. The Company retains the option to remove customers from the program if customers do not remain in good financial standing.

If a Customer requests to participate in the programmake budgeted payments, the initial budgeted payment amount will be is based on an average of the previous twelve (12) months consumptionbills due the Company, including all applicable fees and taxes. If the Customer has not received Gas Service from the Company at the requesting location for the preceding twelve (12) months, the Company may deny enrollmentwill use the best information available to calculate the initial monthly payment amount. After the Customer's budgeted monthly payment amount has been initially established, the Company may recalculate the payment from time to time,, and the Company may begin charging the recalculated amount on the Customer's next successive bill. If the recalculated budgeted payment amount varies by fifteen (15) percent or more from the budgeted payment amount then in effect, the Company may begin charging the recalculated amount on Customer's next successive bill.The Company will perform periodic reviews.

Any current and total deferred balance will be shown on the Customer's bill. When a The Customer's budgeted payment amount is will be recalculated, on each anniversary of the Customer's initial participation in the plan. On such recalculation, any deferred credit deferred balance will be credited refunded to the Customer's account only during an annual true-up period;, and one-twelfth (1/12) of any deferred debit deferred balance will be embedded into the Customer's added to the following year's recalculated budgeted monthly payment amount.

An electing Customer's participation in the Budget Billing Plan will be continuous unless the customer requests that participation in the plan be terminated, Gas Service is terminated, or the Company elects to terminate the customer from participating in the program. Customer has had more than one arrears per year initiating field collection procedures. At that time of termination, the Customer's participation in the plan will be terminated and the Customer shall settle theirhis account with the Company in full;. If a Customer requests to terminate participation in the plan, customers who but remains a Customer of the Company, the Customer shall pay any deferred debit balance with their his next regular monthly bill, and any deferred credit balance shall be used to reduce the amount due for the next regular monthly bill. An electing customer may request that participation be terminated at any time. Any Customer who is disqualified terminated from the program by the Company because of collection action or any Customer who voluntarily terminates participation in the program may not rejoin the program for at least twelve (12) months.

FPSC EXH NO. 74
ADMITTED

BILLING (Continued)

J. SUMMARY BILLING PLAN (optional)

A Customer with ten (10) or more Company accounts and no bill in arrears may request a single statement for the billing and payment of those accounts under this Summary Billing Plan. With Summary Billing, the Customer designates which accounts are to be included in the plan. Those accounts may be separated into groups each of which will be billed once a month on cycle billing days as designated by the Company.

The Company will read each meter and calculate a billing amount for each account separately. The billing amount for each of the designated accounts will be totaled on a Summary Billing statement, with each of the individual account bills attached as backup, and a single totaled bill will be included for remittance. Summary bills are due when rendered. If the summary bill is not paid in full within ten (10) days after ~~from the~~ mailing or other delivery method used by the Company to reach the Customer~~date~~, the Customer may be removed from the Summary Billing Plan.

V

MEASUREMENT

A. METERS

Company will own, operate and maintain the Meters and regulating equipment needed to accurately measure Gas Service provided to Customer.

Customer will provide a convenient, accessible, and safe location, satisfactory to Company, for installation of necessary Meters, regulators, and ancillary equipment.

Customer will safeguard Company's facilities on Customer's property and will not permit unauthorized persons to tamper with such facilities or otherwise operate or alter them in any manner.

If changes in conditions not caused by the Company on Customer's premises adversely affect the convenience, accessibility, or safety of the Meter location, the Customer shall be responsible for the cost of relocating the Meter, its appurtenances, and related piping.

All Gas delivered to Customers shall be measured by commercially acceptable measuring devices owned and maintained by the Company, except where it is impractical to Meter loads, such as street lighting, and temporary or special installations, in which case the consumption may be calculated~~,~~ or billed on a rate or as provided in the Company's filed Tariff.

B. TYPE OF METERING PROVIDED

1. Except as provided in paragraph (2) below, each separate occupancy unit (as defined in Commission Rule 25-7.071, FAC) for which construction commenced after January 1, 1987, shall be individually metered.

2. Individual Meters shall not be required, and master metering is permitted, for separate occupancy units where dimensions or physical configurations of the units are subject to alteration; where Gas is used in central heating, water heating, ventilating and air conditioning systems, or Gas back up service to storage heating and cooling systems; in specialized-use housing accommodations such as hospitals and other health care facilities specified in Commission Rule 25-7.071, FAC, college dormitories, convents, sorority or fraternity houses, motels, hotels and similar facilities; in specially designated areas for overnight occupancy at trailer, mobile home and recreational vehicle parks where permanent residency is not established; in marinas where living aboard is prohibited by permanent means; or where individual Gas Service would otherwise be required above the second story, in accordance with Commission Rule 25-7.071, FAC.

3. When individual metering is not required and master metering is used, submeters may be purchased and installed at Customer's request and expense, for use in allocating solely the cost of Gas billed by Company for Gas Service at the master Meter.

C. METER ACCURACY AT INSTALLATION

All Meters, when installed, shall be not more than 1 percent fast or 1 percent slow and will have been tested not more than twelve (12) months prior to being installed.

MEASUREMENT (Continued)

D. METER TESTS

Company will periodically test Meters to ensure they properly and accurately measure the Gas Service provided to Customer.

E. METER TEST BY REQUEST

1. Upon written request of a Customer, the Company shall, without charge, make a test of the accuracy of the Meter in use at the Customer's premises; provided, first, that the Meter has not been tested by Company or by the Commission within twelve (12) months previous to such request and, second, that Customer agrees to accept the results of such test as the basis for the adjustment of disputed charges.

2. Should the Customer request a Meter test more frequently than once a year, the Company may require a deposit to defray the cost of testing in accordance with Commission Rule 25-7.065(2), FAC, and such deposit not to exceed the following for each test: (a) Meters with a capacity rating of 250 cfh or less - $34.00 dollars; (b) Meters with a capacity rating of over 250 cfh through 2500 cfh - $85.00 dollars; (c) Meters with a capacity rating over 2500 cfh - $129.00 dollars. If the Meter is found to be more than two percent fast, the deposit shall be refunded, but if below this accuracy limit, the deposit may be retained by Company as a service charge for conducting the test.

3. If Customer so desires, he or his authorized representative may witness the test. A written report, giving the results of the test, shall be furnished to Customer upon request.

4. At the request of the Customer, the Company shall make arrangements for a meter test to be conducted by an independent meter testing facility of the Customer's choosing. Where appropriate, the meter may be field tested. The Customer shall be responsible for all the costs to the Company associated with a meter test by an independent meter testing facility. The Company shall provide a detailed estimate of such costs and may require payment of such costs prior to the actual meter test. If the meter is found to be running fast in excess of the limits established by these rules, such costs shall be refunded, but if within the allowable limits, the Company may retain the costs.

F. METER TEST - REFEREE

1. Upon written application to the Commission by a Customer, a test of the Customer's Meter will be made or supervised as soon as practicable by a representative of the Commission.

2. A Meter shall not be disturbed after Company has received notice that application has been made for such referee test unless a representative of the Commission is present or unless authority to do so is first given in writing by the Commission or by Customer.

3. A written report of the results of the test will be made by the Commission to Customer.

VII

LIMITS OF COMPANY'S RESPONSIBILITIES

The Company shall not be liable for any property damage, fatality, or personal injury sustained on the Customer's premises resulting from the Customer's Installation or the gas pipe, fittings, appliances and apparatus of any other type of others on Customer's premises, including, but not limited to, defects or failure of Customer to maintain Customer's premises which allow Gas leakage. The Company will not be responsible for the use, care or handling of Gas once the Gas passes the Point of Delivery. The Company shall not be liable to the Customer for naturally occurring or other impurities, regardless of the source, such as water, sand, black powder, sulfur, butane, or other chemicals or compounds in the Gas delivered to Customer. The Company shall not be liable for any loss or damage caused by variation in Gas pressure, defects in pipes, connections and appliances, escape or leakage of Gas, sticking of valves or regulators, or for any other loss or damage not caused by the Company's negligence arising out of or incident to the furnishing of Gas to any Customer.

Whenever Company deems an emergency or system operating condition warrants interruption, curtailment or other limitation of the Gas Service being rendered, such interruption, curtailment or other limitation shall not constitute a breach of contract and shall not render Company liable for damages suffered as a result of such interruption, curtailment or other limitation of Gas Service, or excuse Customer from continuing to fulfill its obligations to Company.

VIII

CONTINUITY OF SERVICE

The Company will use reasonable diligence at all times to provide regular, uninterrupted Gas Service, and shall not be liable to the Customer for any fatality, injury to person, or loss of or damage to property arising from causes beyond its control or from the ordinary negligence of the Company, its employees, servants or agents, including, but not limited to, damages for Gas leakage, complete or partial failure or interruption of service, for initiation of or re-connection of service, for shutdown for repairs or adjustments, for fluctuations in Gas flow, for delay in providing or restoring Gas Service, for termination of Gas Service, or for failure, as the result of an emergency or a Force Majeure event, to warn of interruption of Gas Service.

IX

LIMITATION ON CONSEQUENTIAL DAMAGES

To the fullest extent permitted by law, neither the Company, nor their respective officers, directors, agents, employees, members, parents, subsidiaries or affiliates, successors or assigns, or their respective officers, directors, agents, employees, members, parents, subsidiaries or affiliates, successors or assigns, shall be liable to the Customer or any other party or their respective officers, directors, agents, employees, members, parents, subsidiaries or affiliates, successors or assigns, for (i) claims, suits, actions or causes of action for incidental, indirect, special, punitive, unforeseen, multiple or consequential damages connected with or resulting from Company's performance or non-performance (such as loss of use of any property or equipment, loss of profits or income, loss of production, rental expenses for replacement property or equipment, costs to repair or demolish property, governmental fines, penalties or charges, diminution in value of real property, or expenses to restore operations, or loss of goods or products), or (ii) any actions undertaken in connection with or related to service under this Tariff, including without limitation, actions which are based upon causes of action for breach of contract, tort (including negligence and

FPSC EXH NO. 74
ADMITTED

misrepresentation), breach of warranty, strict liability, statute, operation of law, under any indemnity provision or any other theory of recovery.

FPSC EXH NO. 74
ADMITTED

X

INDEMNITY TO COMPANY

A. General. The Customer shall indemnify, hold harmless, and defend the Company from and against any and all liability, proceedings, suits, cost or expense for loss or damage or injury to person or property or for fatality, in any manner directly or indirectly connected with or arising out of the transmission, distribution or use of Gas by the Customer at or on the Customer's side of the Point of Delivery, including the contributory or concurrent negligence of the Company or in any manner directly or indirectly connected with or arising out of the Customer's acts or omissions.

B. Governmental. Notwithstanding anything to the contrary in the Company's Tariff, including these Rules and Regulations, the Rate Schedules, and Standard Forms, any obligation of indemnification therein required of a Customer that is a governmental entity of the State of Florida or political subdivision thereof ("governmental entity"), shall be read to include the condition "to the extent permitted by applicable law."

XI

APPEALS TO THE COMMISSION

Whenever the application of these rules and regulations appear to be unjust or impractical either the Company or the Customer may request permission from the Commission for an exception.

RESIDENTIAL SERVICE
Rate Schedule RS

Availability:

Throughout the service areas of the Company.

Applicability:

Gas Service for residential purposes in individually metered residences and separately metered apartments. Also, for Gas used in commonly owned facilities of condominium associations, cooperative apartments, and homeowners associations, (excluding any premise at which the only Gas-consuming appliance or equipment is a standby electric generator), subject to the following criteria:

1. 100% of the Gas is used exclusively for the co-owner's benefit.

2. None of the Gas is used in any endeavor which sells or rents a commodity or provides service for a fee.

3. Each Point of Delivery will be separately metered and billed.

4. A responsible legal entity is established as the Customer to whom the Company can render its bills for said services.

5. RS-GHP refers to any Residential Customer utilizing a gas heat pump ("GHP") for heating and cooling.

Customers receiving service under this schedule will be classified for billing purposes according to annual usage as follows:

Billing Class	Annual Consumption
~~RS-1~~	~~0 – 99 Therms~~
~~RS-2~~	~~100 – 249 Therms~~
~~RS-3~~	~~250 – 1,999 Therms~~
~~RS-GHP~~	~~All Therms~~
RS-1	0 – 99* Therms
RS-2	0 – 1,999* Therms
RS-GHP	All Therms

Monthly Rate:

Billing Class	Customer Charge
RS-1	$~~19.10~~23.00 per month
RS-2	$~~24.41~~32.00 per month
~~RS-3~~	~~$31.54 per month~~
RS-GHP	$~~31.54~~56.00 per month

Distribution Charge: $0.~~3516~~41465 per Therm for RS-1 and, RS-2~~, and RS-3~~
$0.1~~00462~~2395 per Therm for RS-GHP

Minimum Bill: The Customer charge.

*As of January 1, 2026, Billing Class RS-1 is closed to new customers, and Billing Classes RS-2 and RS-3 are combined into a single Billing Class RS-2.

RESIDENTIAL SERVICE (Continued)

Note 1 – Company's Budget Billing Plan ~~plan~~ is available to eligible Customers receiving Gas Service pursuant to this rate schedule (See Sheet No. 5.401-3).

The bill for the Therms billed under this schedule shall be increased in accordance with the provisions of the Company's Purchased Gas Adjustment Clause set forth on Sheet No. 7.101-1.

Special Conditions:

1. The rates set forth under this schedule shall be subject to the operation of the Energy Conservation Cost Recovery Adjustment Clause set forth on Sheet No. 7.101-2.

2. Service under this schedule shall be subject to the Rules and Regulations set forth in this Tariff.

3. Service under this schedule for the RS-1 Billing Class is subject to an annual volume review by the Company ~~and one additional review each year at the Customer's request~~. If reclassification to another billing class is appropriate such classification will be prospective.

   a) Each year, the Company will review active residential Gas Service consumption for Billing Class RS-1 to determine whether the prior 12 months of consumption was within ~~the consumption band for~~ that class's consumption band~~the Billing Class~~.

   b) If consumption is 10 percent or more over ~~or below~~ the consumption parameters for the RS-1 ~~assigned~~ Billing Class ("10 percent band"), the Company will re-assign the Customer to the RS-2 Billing Class~~applicable level of consumption~~.

   c) If the Customer's consumption exceeds~~is over or below~~ the consumption parameters for the RS-1~~Customer's~~ Billing Class but is ~~not more or~~ less than the 10 percent band for the RS-1 ~~assigned~~ Billing Class for the most recent 12 months of consumption, the Customer will remain on the assigned RS-1 Billing Class. If the same result occurs ~~in the same direction (over or below)~~ for two consecutive annual volume review cycles, the Company will re-assign the Customer to the RS-2 ~~appropriate~~ Billing Class ~~for the level of consumption~~.

   d) Once a Customer is classified or reclassified to the RS-2 Billing Class, no further annual reclassification will occur, and the Customer shall remain in the RS-2 Billing Class regardless of annual consumption.

   e) All new customers, or customers without 12 months of usage~~,~~ will automatically be placed in the RS-2 Billing Class.

4. The rates set forth under this schedule shall be subject to the operation of the Company's Tax and Fee Adjustment Clause set forth on Sheet No. 7.101-5.

~~4.~~5. The rates set forth under this schedule shall be subject to the operation of the Company's Competitive Rate Adjustment Clause set forth on Sheet No. 7.101-5.

~~5.~~6. The rates set forth under this schedule shall be subject to the operation of the Cast Iron Bare Steel Replacement Rider Surcharge set forth on Sheet Nos. 7.806 through 7.806-3.

~~6. A RS-GHP Customer with an annual consumption in excess of 1,999 Therms shall be eligible for transportation service under Rider NCTS.~~

~~7. When the Customer receives service under the Company's Natural Choice Transportation Service Rider (Rider NCTS), the rates set forth above shall be subject to the operation of the Company's Swing Service Charge set forth on Sheet No. 7.101-3.~~

7. A RS-GHP Customer with an annual consumption in excess of 1,999 Therms shall be eligible for transportation service under Rider NCTS.

8. When the Customer receives service under the Company's Natural Choice Transportation Service Rider (Rider NCTS), the rates set forth above shall be subject to the operation of the Company's Swing Service Charge set forth on Sheet No. 7.101-3.

4. Service under this schedule shall be subject to the Rules and Regulations set forth in this Tariff.

5. The rates set forth above shall be subject to the operation of the Company's Tax and Fee Adjustment Clause set forth on Sheet No. 7.101-5.

6. The rates set forth under this schedule shall be subject to the operation of the Cast Iron Bare Steel Replacement Rider Surcharge set forth on Sheet Nos. 7.806 through 7.806-3.

SMALL INTERRUPTIBLE SERVICE
Rate Schedule SIS

Availability:

Throughout the service areas of the Company.

Applicability:

Interruptible Service for non-residential commercial or industrial service under this schedule is subject to interruption or curtailment at the sole discretion of the Company at any time and is available to Customers using 1,000,000 through 3,999,999 Therms per year. A Customer eligible for service pursuant to this rate schedule is eligible for transportation service under Rider ITS.

Service will be provided by the Company based on available pipeline capacity and the Customer delivering suitable Gas into the Company's distribution system.

Monthly Rate:

Customer Charge:	$~~2,440.80~~3,259.00 per month
Distribution Charge:	$0.~~10074~~ 11775 per Therm

The bill for the Therms billed at the above rates shall be increased in accordance with the provisions of the Company's Purchased Gas Adjustment Clause set forth on Sheet No. 7.101-1, unless Customer receives transportation service under the Company's Rider ITS.

Minimum Bill: The Customer charge.

Special Conditions:

1. A service agreement accepted by the Company is a condition precedent for service under this schedule. The term of the agreement shall be set forth therein but shall not be less than one year.

2. If the Customer's requirements for Gas change, the Customer shall notify the Company so that the daily and annual quantities in the service agreement may be changed. If the Customer's usage indicates that the amounts set forth in the then existing agreement are not applicable, the Company may require that the daily and annual estimates be changed to reflect the existing conditions.

3. The rates set forth above shall be subject to the operation of the Company's Competitive Rate Adjustment Clause set forth on Sheet No. 7.101-5.

INTERRUPTIBLE SERVICE - LARGE VOLUME
Rate Schedule ISLV

Availability:

Throughout the service areas of the Company.

Applicability:

Interruptible Gas for non-residential commercial or industrial use. Service under this schedule is subject to interruption or curtailment at the sole discretion of the Company at any time and is available to Customers using 50,000,000 Therms per year or more. A Customer eligible for service pursuant to this rate schedule is eligible for transportation service under Rider ITS.

Service will be provided by the Company based on available pipeline capacity and the Customer delivering suitable Gas into the Company's distribution system.

Monthly Rate:

Customer Charge:	$~~3,110.82~~4,024.00 per month
Distribution Charge:	$0.~~01354~~ 01602 per Therm

The bill for the Therms billed at the above rates shall be increased in accordance with the provisions of the Company's Purchased Gas Adjustment Clause set forth on Sheet No. 7.101-1, unless Customer receives transportation service under Company's Rider ITS.

Minimum Bill: The Customer charge.

Special Conditions:

1. A service agreement accepted by the Company is a condition precedent for service under this schedule. The term of the agreement shall be set forth therein but not less than one year.

2. If the Customer's requirement for Gas change, the Customer shall notify the Company so that the daily and annual quantities in the service agreement may be changed. If the Customer's usage indicates that the amounts set forth in the then existing agreement are not applicable, the Company may require that the daily and annual estimates be changed to reflect the existing conditions.

CONTRACT INTERRUPTIBLE SERVICE
Rate Schedule CIS

Availability:

Throughout the Service Areas of the Company.

Applicability:

Interruptible Gas for non-residential commercial or industrial use. Service under this schedule is subject to interruption or curtailment at the sole discretion of the Company at any time and is available to Customers using 100,000 Therms per year or more. A Customer eligible for service pursuant to this rate schedule is also eligible for transportation service under Rider ITS.

Service will be provided by the Company based on available pipeline capacity and the Customer delivering suitable Gas into the Company's distribution system.

Monthly Rate:

Customer Charge: Equal to the otherwise applicable Customer Charge based on annual consumption.

Distribution Charge:

An amount not less than $.01 per Therm nor greater than 90 percent of the currently applicable firm rate; provided however, that at any time during which the cumulative surpluses determined for all prior determination periods under the Competitive Rate Adjustment Clause (Non-West Florida Region) (see Sheet No. 7.101-5) equal or exceed the cumulative shortfalls determined for all prior determination periods under such clause, the distribution charge shall not exceed the distribution charge established for service under Rate Schedule IS in Company's last base rate proceeding. Unless changed by Company pursuant to this Rate Schedule, the distribution charge shall be equal to the applicable interruptible rate.

The "currently applicable firm rate" as used herein means the distribution charge prescribed in the otherwise applicable rate schedule, adjusted pursuant to the Competitive Rate Adjustment Clause (Non-West Florida Region) set forth on Sheet No. 7.101-5.

The distribution charge to Customer shall be determined by Company based upon Company's evaluation of competitive conditions. Such conditions may include, but are not necessarily limited to: the cost of Gas which is available to serve Customer; the delivered price and availability of Customer's designated alternate fuel; bypass opportunities; economic development; and the nature of Customer's operations (such as load factor, fuel efficiency, alternate fuel capacity, etc.). Company may from time to time increase or reduce the distribution charge as it deems necessary or appropriate to meet competition

FPSC EXH NO. 74
ADMITTED

CONTRACT INTERRUPTIBLE SERVICE (Continued)

5. Service under this schedule shall be subject to the Rules and Regulations set forth in this Tariff.

6. In instances where the Customer is able to demonstrate the ability and intent to bypass the Company's distribution system and purchase Gas or another source of energy from an alternate supplier~~,~~ or for economic development purposes, the distribution charge shall, in the discretion of the Company, be the rate per Therm necessary to attract or retain the Customer on the Company's distribution system, provided that such rate is demonstrated to be in the long-term best interests of both the Company and its ratepayers.

7. The rates set forth in this schedule shall be subject to the operation of the Company's Tax and Fee Adjustment Clause set forth on Sheet No. 7.101-5.

8. Any applicability of the CIS tariff may not reduce an existing customer's currently applicable interruptible rate, unless the customer expands operations, agrees to a material increase in the annual therms to be purchased and extends the term of the agreement.

FPSC EXH NO. 74
ADMITTED

OFF-SYSTEM SERVICE
Rate Schedule OSS

Availability:

Throughout the service areas of Company, and of any interstate or intrastate natural gas pipeline serving the Company (collectively, the "Pipelines").

Applicability:

Interruptible Gas delivered by Company through the facilities of a Pipeline, using Company's transportation capacity rights on such Pipeline, to any person not connected to Company's distribution system.

This Tariff is applicable to both bundled and unbundled gas service, i.e. interstate or intrastate Pipeline capacity only that is released by Company pursuant to Transporter's FERC gas tariff as well as interstate or intrastate Pipeline capacity that is bundled with natural gas supply and subsequently delivered by the Company to the Customer.

Monthly Rate:

Customer Charge: None

Transaction Charge: $100.00 per transaction

Distribution Charge:

For all Scheduled Quantities (as such term is defined in Special Condition 5 below), an amount not less than $.000 per Therm ~~nor greater than 90 percent of the currently applicable firm rate,~~ which Distribution Charge shall be established by agreement between Company and Customer prior to each transaction pursuant to this rate schedule.

The "currently applicable firm rate", as used herein, means the distribution charge prescribed in the firm rate schedule which would apply if the daily sales represented by a transaction under this rate schedule were annualized.

The Distribution Charge for service pursuant to this rate schedule shall be determined by Company based upon Company's evaluation of competitive conditions. Such conditions may include, but are not necessarily limited to: the cost of gas which is available to serve Customer; the delivered price and availability of Customer's designated alternate fuel; and the nature of Customer's operations (such as load factor, fuel efficiency, alternate fuel capacity, etc.). Company may from time to time increase or reduce the Distribution Charge as it deems necessary or appropriate to meet competition or remain competitive, but shall have no obligation to do so; provided, however, that the Distribution Charge shall at all times remain within the limits set forth above.

The bill for Therms billed at the above rates shall be increased by the cost per Therm of any Gas delivered to Customer pursuant to this rate schedule, including all variable costs incurred by Company for (or in connection with) Pipeline transportation.

NATURAL CHOICE TRANSPORTATION SERVICE (Continued)

9. Except as modified by the provisions set forth above, service under this Rider shall be subject to the Rules and Regulations set forth in this Tariff.

10. If a Customer receiving service pursuant to this Rider has annual consumption greater than or equal to 500,000 therms annually, then the Company will install and maintain facilities for remote monitoring of the Customer's hourly gas flow. The Customer will reimburse the Company for the expense incurred for the investment in and installation of these facilities.

11. A Pool Manager may terminate Gas supply to a Customer pursuant to this Rider electronically via Company's website prior to the sixteenth day of the month as of which such termination will commence on the first day of the Customer's billing period of the next calendar month following receipt by the Company of the aforesaid electronic termination. In the event of non-payment by Customer for charges due, a Pool Manager may terminate Gas supply to a Customer by giving five business days written notice to Company prior to the first day of the month as of which such termination is to be effective. Any such notice shall be accompanied by (a) documentary evidence of the Customer's failure to make payment for a period of at least 60 days, (b) Pool Manager's affidavit that it has made commercially reasonable and good faith efforts to collect the amount due, and (c) a non-refundable termination fee of $~~59~~62.00 per account number. A Customer whose Gas supply is terminated by a Pool Manager pursuant to this special condition will automatically return to sales service provided by Company until such time as the Customer elects, subject to the conditions of this Rider, to receive service hereunder through a different Pool Manager. Additional deposit may be required from the Customer to return to sales service.

12. It is the Customer's obligation to make payments to the Company (or to an Authorized Payment Agent of the Company) of all bills rendered. Payment by a Customer to a third party (including a Third-Party Gas Supplier or Customer's Pool Manager) which has not been designated by Company as an Authorized Payment Agent will not satisfy the Customer's obligation to make payment of Company's bill for Gas Service.

INDIVIDUAL TRANSPORTATION SERVICE RIDER
RIDER ITS

Availability:

Throughout the service areas of the Company, subject to the Special Conditions set forth herein.

Applicability:

To firm or interruptible individual transportation service for any non-residential Customer who uses 500,000 therms per year or more and owns Gas that is made available for individual transportation service on the Company's system under Rate Schedules GS-5, WHS, SIS, IS, ISLV, and CIS.

Monthly Rate:

The Monthly Rate set forth in the applicable rate schedule, based on the annual Therm usage of, and character of service elected by, the Customer, plus an Individual Transportation Administration Fee of $~~216.00~~313.80 per month per meter.

Special Conditions:

1. Definitions: As used in this Rider or in a Gas Transportation Agreement, the following terms have the meanings set forth below:

   "Actual Takes" means, for a specified period of time, the quantity of Gas passing through the meter(s) at the PGS Delivery Point(s) of Customer (as defined in the Customer's Gas Transportation Agreement).

   "Customer" means the person or entity which executes a Gas Transportation Agreement providing for individual transportation service hereunder.

   "Daily Imbalance Amount" means, for a Day, the positive or negative whole number determined by subtracting the Actual Takes for the Day from the Scheduled Quantities for the Day.

   "Day" means a period of 24 consecutive hours beginning and ending at 9:00 a.m. Central Clock Time.

   "FGT" means Florida Gas Transmission Company, a Delaware corporation, and its successors and assigns.

   "Gas Transportation Agreement" means an agreement between Company and an individual transportation Customer, the basic form of which is set forth on Sheets Nos. 8.114 through 8.114-8, which specifies the term for which it is effective and contains such reasonable provisions for termination as to which Company and Customer may agree.

Gas Service Agreement No. Page 2

NATURAL GAS SERVICE TERMS AND CONDITIONS:

The applicant named on the first page hereof ("Customer") makes application to Peoples Gas System, Inc. ("Company") for natural gas service under the rate classification indicated on the first page hereof according to the following terms and conditions in consideration of the Company's agreement to deliver natural gas to Customer pursuant to the applicable provisions of Company's Tariff approved by the Florida Public Service Commission. In the event of a conflict between this application and the Tariff, the Tariff shall control.

Gas is to be delivered to Customer at the outlet side of the Company's gas meter serving the premises indicated on the first page hereof, such meter and service line there to be installed and operated by the Company, and, if located on Customer's property, the site therefor to be furnished free of charge by Customer.

The Company and its representatives are hereby authorized to enter upon and install on Customer's property any required gas meter or meters and gas pipe for furnishing gas to said address, and to ditch, lay, or otherwise install pipe as is required outside the building(s). The gas pipe from the Company's gas system to and including said meter or meters shall be owned, operated, and maintained by the Company with a perpetual right of ingress and egress thereto, hereby granted to the Company for such purposes. Installation of Company's facilities may require that Company be granted an easement. All gas pipe, from the outlet side of said meter or meters, shall be owned, operated, and maintained by Customer at its sole cost and risk.

Customer shall receive and pay for all gas delivered to Customer according to the applicable provisions of Company's Tariff and the applicable rules and regulations of the Florida Public Service Commission. Any gas delivered to Customer at any other delivery point is also subject to the terms and conditions hereof. No oral statement shall change any term- or obligation set forth herein.

A customer receiving gas service under the residential or commercial standby generator Tariff rate shall be obligated to remain on that schedule for a minimum of 12 months. This 12-month requirement shall be renewed at the end of each 12-month period unless Customer terminates gas service at the end of any 12-month period.

If Customer fails or refuses to take gas service from the Company, Customer shall pay to the Company the actual cost incurred by the Company in constructing the facilities to have been used in providing service to the Customer. Any deposits currently held by the Company shall be forfeited by Customer in payment or partial payment of these costs.

UNDERGROUND FACILITIES:

Prior to construction of gas pipeline, it is extremely important that the Company be made aware of existing underground obstacles, sprinkler systems, septic tanks, sewer lines, or structures, etc., located on Customer's property which may be damaged as a result of installation of the gas pipeline. Customer shall be responsible for marking and/or locating any underground facilities that may be on Customer's property that do not belong to local utilities (Power, Telephone, Water, Cable TV companies, etc.), and agrees to indemnify and hold Company harmless for any damages arising out of Customer's failure to do so.

GENERAL TERMS AND CONDITIONS APPLICABLE TO NATURAL GAS SERVICE:

To the extent that the Customer identified in this agreement is the State of Florida, one of its agencies, or one of its subdivisions, nothing herein shall be construed or interpreted as a waiver of sovereign immunity beyond the waiver provided in Section 768.28 Florida Statutes, or any successor statute.

This agreement is not assignable or transferable by Customer without prior written consent by the Company.

IN NO EVENT SHALL THE COMPANY OR ITS AFFILIATED COMPANIES, OFFICERS, DIRECTORS, EMPLOYEES, AGENTS OR REPRESENTATIVES BE LIABLE FOR ANY INCIDENTAL, INDIRECT, SPECIAL, CONSEQUENTIAL, EXEMPLARY OR PUNITIVE DAMAGES, INCLUDING, BUT NOT LIMITED TO, LOSS OF USE OF ANY PROPERTY OR EQUIPMENT, LOSS OF PROFITS OR INCOME, LOSS OF PRODUCTION, RENTAL EXPENSES FOR REPLACEMENT PROPERTY OR EQUIPMENT, DIMINUTION IN VALUE OF REAL PROPERTY, EXPENSES TO RESTORE OPERATIONS, OR LOSS OF GOODS OR PRODUCTIONS, EVEN IF THE COMPANY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

~~Customer understands and acknowledges that the dealer (if any) identified on the first page of this document ("Dealer") is not affiliated in any way with the Company and has not been engaged by the Company as a contractor or subcontractor. The Company assumes no responsibility whatsoever for any acts or omissions of, or any services or goods provided by, such Dealer.~~

This agreement may not be amended or modified except by an instrument in writing signed by the Company and Customer.

This agreement shall be governed by the laws of the State of Florida without regard to principles of conflicts of laws.

This agreement contains the entire understanding between the parties hereto and supersedes any written or oral, prior or contemporaneous agreement or understanding between the parties.

NOTE: I acknowledge installation of the gas line will not be scheduled until the required easement, if needed, is signed by the landowner and received by Peoples Gas System, Inc. _____ (customer initials)

PEOPLES GAS SYSTEM, INC.

By: _____

_____
(Title)

"Supplier(s)" means person(s) (other than PGS) from which Shipper purchases Gas transported hereunder.

"Transporter" means any upstream intrastate or interstate transport service provider.

ARTICLE II - TERM

This Agreement is effective on the date first written above. The term shall commence at the beginning of the Day commencing on _____ and continue until the beginning of the Day commencing on (the "Termination Date") (the "Initial Term"). [PROVISIONS AGREEABLE TO PGS AND SHIPPER WITH RESPECT TO ANY EXTENDED OR "SECONDARY" TERM]

ARTICLE III - SALES AND TRANSPORTATION SERVICE

Section 3.1 Services. PGS desires to sell and Shipper desires to purchase from PGS, from time to time, for use in the Facility (but not for resale), Gas in quantities which, at Shipper's request, PGS may, in its sole discretion exercised in a not unduly discriminatory manner, agree to sell to Shipper. Shipper also engages PGS, and PGS accepts such engagement, to receive Gas for Shipper's account, up to the MTQ, at the PGS Receipt Point(s), and to cause an equivalent quantity, less the Retainage, to be redelivered to Shipper. Such sales and transportation shall be governed by PGS's FPSC Tariff and this Agreement. If there is a conflict between the Tariff and this Agreement, the Tariff shall control. Sales and transportation hereunder are provided ~~interruptible~~ in accordance with PGS's FPSC Tariff and curtailment plan. If Shipper's service is interruptible, Shipper may select one or more of the options described in Appendix D, which may enable Shipper to continue receiving delivery of Gas during periods of curtailment or interruption. PGS shall have no obligation to make sales to Shipper in lieu of the transportation of Gas contemplated by this Agreement.

Section 3.2 ~~Telemetry and Other~~ Required Equipment. ~~Telemetry and other e~~Equipment ~~which~~ that PGS must install to provide natural gas transportation service hereunder (the "Equipment"), if any, shall be determined solely by PGS~~and the anticipated cost thereof, are listed in Appendix C. Shipper shall reimburse PGS for all costs incurred for the Equipment on receipt of PGS's invoice therefor~~. Unless the parties agree otherwise, all facilities used to provide service to Shipper hereunder (including without limitation the Equipment) shall be installed, owned, operated and maintained by PGS.

Section 3.3 Telemetry Equipment. Equipment which PGS must install to provide transmission of measurement data hereunder (the "Telemetry Equipment"), if any, and the anticipated cost thereof, are listed in Appendix C. Shipper shall reimburse PGS for all costs incurred for the Telemetry Equipment on receipt of PGS's invoice therefor. Shipper shall be responsible for securing access to the gas measurement data transmission network as required by PGS for the proper functioning of Telemetry Equipment.

ARTICLE IV - NOMINATIONS

Section 4.1 General. For each Day Shipper desires service hereunder, Shipper shall provide a Nomination to PGS pursuant to Sections 4.2 and/or 4.3 for each meter at the Facility. The total quantity for the Facility may be Nominated to a single meter, with "zero" Nominations being made for any additional meters located at the Facility. All Nominations shall be made to PGS at its web site (https://custactivitiespeoplesgas.com provided that, in an emergency, a Nomination may be delivered via facsimile using the form set forth in PGS's FPSC Tariff. Quantities confirmed by PGS for delivery shall be Scheduled Quantities. If requested by Shipper, PGS will allow increases or decreases in Scheduled Quantities after the Nomination deadlines set forth in this article, if the same can be confirmed by PGS, Transporters and Suppliers, and can be accomplished without detriment to services then scheduled on such Day for PGS and other shippers. The maximum quantity PGS shall be obligated to make available for delivery to Shipper on any Day (which shall not exceed the MDQ) is the sum of (a) the Transportation Quantity and (b) the Sales Quantity established pursuant to this article.

Section 4.4 Other Responsibilities. Shipper shall promptly notify PGS in writing of any change in the Sales Quantity or Transportation Quantity for any Day, and PGS will use commercially reasonable efforts to accept any such requested change as soon as practicable.

Section 4.5 Confirmation. If Transporter asks PGS to verify a nomination for Shipper's account, PGS shall confirm the lesser of such nomination, the Transportation Quantity or, in the case of non- or partial operation of the Facility, that quantity which in PGS's reasonable judgment (after consultation with Shipper) is likely to be consumed at the Facility. PGS has no obligation with respect to verification or rejection of quantities not requested by Shipper.

Section 4.6 Mutually Beneficial Transactions. Shipper recognizes that PGS maintains the operation and system integrity of the PGS distribution system on a daily basis, and that PGS, as the delivery point operator for its points of interconnection with interstate pipelines, is subject to the rules and regulations of such pipelines with regard to operational flow rates, pressures and penalties. As such, PGS may from time to time need Shipper to vary its Nominated quantities of Gas to be delivered at the PGS Receipt Point(s). On such occasions, PGS may in its sole discretion request, and Shipper may agree to, a change in the quantity of Gas to be delivered for the account of Shipper at the PGS Receipt Point(s). No such change in the quantity of Gas to be delivered shall be made pursuant to this section without the consent of Shipper. Terms and conditions of any such transaction will be agreed upon between the parties at the time of the transaction and will be recorded and confirmed in writing within two Business Days of the transaction.

ARTICLE V - TRANSPORTATION AND OTHER CHARGES

Section 5.1 Transportation Charges~~; Purchase Price~~. Shipper shall pay PGS each Month for transportation service rendered by PGS, and, if applicable, for Gas purchased from PGS, in accordance with the then-applicable rate schedule in PGS's FPSC Tariff. At the time of execution of this Agreement, Rate Schedule ___ is applicable. In the event Rate Schedule, CIS or a fixed rate schedule is applicable, this Agreement will automatically renew following the Initial Term at the then applicable rate schedule~~,~~ unless Shipper and PGS have agreed at least 30 days prior to the expiration of the then current term that Rate Schedule CIS or another rate schedule shall apply.

Section 5.2 Changes in Tariff. If the applicable rates or rate schedules change or are amended or superseded, the newly applicable rates or rate schedules shall be applicable to service hereunder. Nothing contained herein shall prevent PGS from filing with the FPSC (or Shipper from opposing) changes to the rates and other provisions in PGS's FPSC Tariff. ~~PGS agrees to give Shipper reasonable notice of (a) all filings (except filings in FPSC Docket No. 000003-GU, In Re: Purchased Gas Adjustment (PGA) True-Up, and successor dockets) which PGS makes with the FPSC and (b) all other FPSC proceedings of which PGS becomes aware, which PGS (in the exercise of reasonable judgment) determines would affect PGS's rates or the services to be performed by PGS under this Agreement.~~

ARTICLE VI - BILLING AND PAYMENT

Section 6.1 Billing. PGS will bill Shipper each Month for all Actual Takes during the preceding Month, and for any other amounts due hereunder. If, during the preceding Month, PGS has purchased Gas from Shipper pursuant to an interruption or curtailment order, such bill shall show a credit for the estimated amount due Shipper for such purchase(s). If the estimated amount owed by PGS to Shipper exceeds the amount Shipper owes PGS, PGS shall pay Shipper the net amount estimated to be due Shipper at the time PGS bills Shipper.

Section 8.2 Governing Law. This Agreement and any dispute arising hereunder shall be governed by and interpreted in accordance with the laws of Florida and shall be subject to all applicable laws, rules and orders of any Federal, state or local governmental authority having jurisdiction over the parties, their facilities or the transactions contemplated. Venue for any action, at law or in equity, commenced by either party against the other and arising out of or in connection with this Agreement shall be in a court, located within the State of Florida, having jurisdiction.

Section 8.3 Severability. If any provision hereof becomes or is declared by a court of competent jurisdiction to be illegal, unenforceable or void, this Agreement shall continue in full force and effect without said provision.

Section 8.4 Entire Agreement; Appendices. This Agreement sets forth the complete understanding of the parties as of the date first written above, and supersedes any and all prior negotiations, agreements and understandings with respect to the subject matter hereof. The appendices attached hereto are an integral part hereof. All capitalized terms used and not otherwise defined in the appendices shall have the meanings given to such terms herein.

Section 8.5 Waiver. No waiver of any of the provisions hereof shall be deemed to be a waiver of any other provision whether similar or not. No waiver shall constitute a continuing waiver. No waiver shall be binding on a party unless executed in writing by that party.

Section 8.6 Notices. (a) All notices and other communications hereunder shall be in writing and be deemed duly given on the date of delivery if delivered personally or by a recognized overnight delivery service or on the fifth day after mailing if mailed by first class United States mail, registered or certified, return receipt requested, postage prepaid, and properly addressed to the party as set forth below.

APPENDIX A - GAS TRANSPORTATION AGREEMENT

PGS RECEIPT POINT(S)

Maximum Transportation Quantity: _____ MMBtu per Day plus the Retainage

PGS will accept Gas from Shipper, or for its account, for transportation pursuant to this Agreement at the following point(s):

The above point(s) may be changed by PGS from time to time on written notice to Shipper.

APPENDIX B - GAS TRANSPORTATION AGREEMENT

PGS DELIVERY POINT(S)

Gas transported or sold pursuant to this Agreement shall be delivered by PGS to Shipper at the following point(s):

NAME	PGS METER#	MAXIMUM DELIVERY QUANTITY
Meter at the Facility		_____ MMBtu per Day

APPENDIX C - GAS TRANSPORTATION AGREEMENT

EQUIPMENT

APPENDIX D - GAS TRANSPORTATION AGREEMENT (APPLICABLE TO INTERRUPTIBLE CUSTOMERS)

ALTERNATIVES DURING PERIODS OF INTERRUPTION OR CURTAILMENT

If Shipper is an interruptible Customer, it may select one or more of the "~~O~~options" ~~hereinafter described~~set forth below ~~-~~prior to or during a period of interruption or curtailment ~~or interruption~~. ~~-~~These ~~O~~options ~~set forth below~~ describe ~~means through which~~how PGS ~~will~~would attempt to continue deliveries ~~to Shipper~~ during such a period ~~if PGS can do so in a manner that is consistent with the order of priorities of service set forth in its curtailment plan and that will not prevent service to customers in higher priorities of service than Shipper~~.

If PGS is entitled ~~under this Agreement or PGS's FPSC Tariff~~ to interrupt or curtail deliveries to Shipper for reasons other than Force Majeure, PGS will notify Shipper ~~to that effect,~~ about such interruption or curtailment. The notice will ~~to~~ include the estimated duration of the interruption or curtailment and the estimated cost of gas required for PGS to continue deliveries to Shipper ~~during the period of interruption~~. Shipper shall notify PGS in writing within two (2) hours after receipt of PGS's notice of interruption or curtailment of the option (from Options A through C below) Shipper elects ~~during the period of interruption~~.

If Shipper fails to respond to PGS's notice within the aforesaid two-hour period, it shall be conclusively presumed that Shipper has elected the Option(s) (if any) previously selected by Shipper in writing. If Shipper has failsed to make *any* election in a timely manner, either prior to PGS's notice or during the two-hour period, it shall be conclusively presumed that Shipper has elected Option D below. The Options are as follows:

The Options are as follows:

Option A: (PGS Receipt Point/Shipper's Own Arrangement): ——Shipper desires PGS to continue deliveries during the period of interruption or curtailment and Shipper agrees to make available for its account (*i.e.*, to make all arrangements necessary to cause the delivery of) at the PGS Receipt Point(s)(1) additional quantities of Gas equal to those quantities which PGS is entitled to interrupt or curtail (2) at the PGS Receipt Point(s).

Option B (Pipeline Release Point/Capacity Release): ——Shipper desires PGS to continue deliveries during the period of interruption and agrees to make available for its account (*i.e.*, to make all arrangements necessary to cause the delivery of) (1) additional quantities of Gas (including the Retainage) equal to those quantities PGS is entitled to interrupt to curtail (2) at the applicable point(s) of receipt into [_____] pipeline system. additional quantities of Gas (including the Retainage) equal to those quantities which PGS is entitled to interrupt, In addition Shipper and desires PGS to release to Shipper (or to a Supplier designated by Shipper), for the duration of the period of interruption or curtailment and at the maximum rate applicable to the capacity released, primary firm capacity on [_____] sufficient to transport such additional quantities of Gas to the PGS Receipt Point(s). By election of this Option B, Shipper agrees to be responsible for the payment of all charges imposed by [_____] with respect to the capacity so released by PGS to Shipper (or Shipper's Supplier), or the use of such capacity, for the period during which such release is effective. If Shipper elects to continue deliveries during the period of interruption pursuant to this Option B, PGS agrees to release the capacity requested by Shipper if PGS determines in its sole discretion that (i) such capacity is available for release to Shipper during the period of interruption or curtailment, (ii) such release can be accomplished readily and without detriment to PGS's system operations, and (iii) such release is practicable within the time constraints and requirements of [_____] FERC Tariff and the ready availability of PGS staff and resources.

Option C PGS as Temporary Agent) : ——Shipper desires PGS to continue deliveries during the period of interruption or curtailment, appoints PGS as its agent to acquire (at the PGS Receipt Point(s)) additional quantities of Gas at market-based price, equal to those quantities which PGS is entitled to interrupt or curtail, to be used by Shipper during the period of interruption or curtailment, and agrees to reimburse PGS, in addition to all amounts otherwise payable for Gas pursuant to this Agreement, for the incremental additional per-Therm costs incurred by PGS (as Shipper's agent) to acquire for the account of Shipper, at the PGS Receipt Point(s), Gas to be used by Shipper during the period of interruption or curtailment. As used in this Option C, "incremental additional costs" shall mean the weighted average per-Therm costs incurred by PGS to acquire, for the accounts of Shipper and other interruptible customers of PGS who have elected this Option C during a particular period of interruption, the additional quantities of Gas mentioned above to be used by Shipper and such other interruptible customers of PGS during such period of interruption or curtailment, including but not limited to commodity, transportation, storage and other charges incurred by PGS.

Option D (No Action by Shipper): ——Shipper agrees to cease taking Gas pursuant to PGS's notice during the period of interruption.

If Shipper has elected to continue deliveries pursuant to one of Options A, Option B or Option C, PGS will, in implementing its interruption or curtailment notice, take and pay for Shipper's Gas as provided in PGS's FPSC Tariff, but will not discontinue deliveries to Shipper unless (i) if Shipper has elected Option A,

FPSC EXH NO. 74
ADMITTED

Shipper fails to make additional Gas available at the PGS Receipt Point(s), or (ii) if Shipper has elected Option B, either (a) PGS has no primary firm capacity on [_____] available for

release to Shipper (or Shipper's Supplier) during the period of interruption or curtailment without detriment to service required by PGS's customers in a curtailment category having a higher priority than Shipper's curtailment category under PGS's curtailment plan, or (b) PGS determines either that the release of capacity contemplated by Option B would not result in Shipper's (or Shipper's Supplier's) being able to make the additional quantities of Gas available at the PGS Receipt Point(s) for delivery to Shipper during the period of interruption or curtailment or that the release of capacity cannot be made pursuant to Option B, or (iii) if Shipper has elected Option C, PGS, having exercised commercially reasonable efforts, is unable to acquire for Shipper's account, at the PGS Receipt Point(s), additional Gas for delivery to Shipper during the period of interruption or curtailment. In the event of the occurrence of any of the circumstances described in items (i) through (iii), PGS will provide Shipper with not less than two (2) hours' notice to cease taking Gas during the period of interruption or curtailment, and Shipper shall not have the benefit of Options A through C above.

THE NEXT SHEET IS NO. 8.115

"Transporter Agreement" means, for purposes of this Agreement and the Capacity Release Agreement, the applicable Service Agreements for Firm Transportation Service (however named or titled) between Transporter and PGS in effect from time to time, including (a) Transporter's currently effective applicable rate schedule(s) and (b) General Terms and Conditions filed with the FERC or the FPSC (and incorporated in each said agreement by reference), as such agreements, rate schedules and general terms and conditions may be amended from time to time, and any successor firm agreement(s), firm rate schedule(s) or general terms and conditions applicable thereto.

"Transporter's Tariff" means, for purposes of this Agreement and the Capacity Release Agreement, Transporter's effective FERC or FPSC gas tariff applicable to firm transportation service under the Transporter Agreement, as such tariff may be amended from time to time.

ARTICLE II - TERM; PROGRAM CHANGES

Section 2.1 Term. This Agreement shall be effective on the date first written above. The term of this Agreement shall commence on the first Day of the Month for which PGS first delivers to Pool Manager a list of Customer Accounts as required by Section 4.1(a) (the "Effective Date") and shall continue, unless earlier terminated pursuant to this Agreement, until the first anniversary of the Effective Date (the "Initial Term"). Thereafter, the term of this Agreement shall be extended for additional periods of one year unless either party gives written notice, not less than 90 days prior to the expiration of the Initial Term (or any subsequent period for which this Agreement has been extended) to the other party, of termination.

Section 2.2 Program Changes. Pool Manager understands that PGS is entering into this Agreement as part of a program approved by the FPSC. PGS reserves the right to file with the FPSC modifications to such program (including the terms and conditions of this Agreement). PGS shall give Pool Manager reasonable notice of any such filing. In the event the FPSC approves modifications to such program (including any terms or conditions set forth in this agreement), such modifications shall become binding on the parties hereto as of the date on which approval thereof by the FPSC becomes effective. Notwithstanding any other provision of this Agreement, PGS's obligations hereunder shall at all times be subject to the lawful orders, rules and regulations of the FPSC, and to the terms and conditions of PGS's FPSC Tariff.

ARTICLE III - NON-PAYMENT BY CUSTOMER

Pool Manager may terminate its obligation to deliver Gas hereunder for a Customer Account for non-payment of charges due Pool Manager by giving five days' written notice to PGS prior to the first Day of the Month as of which such termination is to be effective. Any such notice shall be accompanied by (i) documentary evidence of the Customer's failure to make payment for a period of at least 60 days, (ii) Pool Manager's affidavit that it has made commercially reasonable and good faith efforts to collect the amount due and (iii) a non-refundable termination fee of $~~59~~62.00.

Performance of this Agreement and the interpretation thereof shall be in accordance with the laws of the State of Florida.

Venue for any action between the parties hereto arising out of this Agreement shall be in a court, located in the State of Florida, having jurisdiction. In any such action, the reasonable attorneys' fees and costs of the party prevailing in such action shall be recovered by such party from the other party. Neither PGS nor Pool Manager shall be liable to the other or to any person claiming through the other for special, indirect, punitive or consequential damages, lost profits or lost opportunity costs relating to any matter covered by this Agreement.

Any notice concerning this Agreement, except for those specifically required or permitted to be provided by facsimile, shall be given in writing and mailed by first-class mail to the party being notified at the address for such party stated below:

If to PGS:

Peoples Gas System, Inc.
~~702 N. Franklin Street, 7th Floor~~3600 Midtown Drive
Tampa, FL 33607

P. O. Box 2562
Tampa, Florida 33601-2562
Attention: NCTS Administrator

If to Pool Manager:

_____

_____

_____

_____

_____

_____

Pool Manager shall keep confidential and will not use, or disclose to any person not a party hereto, the information received from PGS or any Customer during the performance of this Agreement, except to the extent such disclosure is necessary for the Pool Manager's performance hereunder or is required by law. In the case of any disclosure required by law to be made, Pool Manager shall, prior to making such disclosure, provide written notice to PGS of the disclosure to be made in order that PGS may seek a protective order or other means of protecting the confidentiality of the information to be disclosed. The parties' obligations under this paragraph shall expire two (2) years from the date of termination of this Agreement.

ITS AGENT AGREEMENT

The undersigned Shipper hereby designates the undersigned Agent as its Agent to perform the following identified (*i.e.*, marked with an "X") obligations of Shipper under Shipper's Gas Transportation Agreement(s) with Peoples Gas System, Inc. ("PGS"):

☐ Invoicing/Payment

☐ Nominations

☐ Monthly Imbalance Resolution

☐ Alert Day Volume Aggregation and Alert Day Penalty Responsibility

Shipper, Agent and PGS hereby agree, for all purposes relating to the functions identified above, that:

1. The designation by Shipper of Agent as Shipper's Agent shall be effective as of the beginning of the Day commencing on _____←insert date.

2. Shipper agrees that it may designate only one agent however, that agent may perform one or several of the functions listed above.

3. PGS has the right to rely on any written or verbal communication from Agent, and any communications by PGS to Agent shall be deemed notice to Shipper.

4. Agent shall perform the functions identified above in a manner consistent with PGS's Natural Gas Tariff on file with the Florida Public Service Commission, as the same may be amended from time to time.

5. Alert Day penalties imposed on the ITS Customer Pool of which Shipper is a part shall be paid by Agent; provided, however, that if Agent fails to pay such penalties within sixty (60) days after the date on which they are imposed by PGS, Shipper shall be responsible for, and pay to PGS, such Alert Day penalties (if any) as would have been payable by Shipper for such Alert Day in the absence of this Agreement.

6. Shipper shall remain liable to PGS (a) with respect to any act or omission of Agent in the performance of the functions identified above and, (b) to the extent not paid by Agent for the ITS Customer Pool of which Shipper is a part, all charges arising under the Gas Transportation Agreement(s) between PGS and Shipper. Shipper shall indemnify, hold harmless and defend PGS from and against any and all acts or omissions of Agent. To the extent that Shipper is the State of Florida, one of its agencies, or one of its subdivisions, nothing herein shall be construed or interpreted as a waiver of sovereign immunity beyond the waiver provided in Section 768.28, Florida Statutes, or any successor statute.

PGS is installing the Devices at the Facilities as a convenience to Subscriber. **PGS MAKES NO WARRANTY AS TO THE OPERATION OF, OR ACCURACY OF THE DATA PROVIDED THROUGH, THE PORTS, AND TAKES NO RESPONSIBILITY FOR SUBSCRIBER'S USE OF THE PORT AND DATA SUPPLIED THEREFROM, SINCE THEY ARE BEING SUPPLIED FOR INFORMATIONAL PURPOSES ONLY, AT NO PROFIT AND AS AN ACCOMMODATION TO SUBSCRIBER. PGS DISCLAIMS ANY AND ALL WARRANTIES, EXPRESS OR IMPLIED, INCLUDING WARRANTIES OF FITNESS FOR A PARTICULAR PURPOSE AND MERCHANTABILITY.**

PGS IS NOT LIABLE FOR, AND SUBSCRIBER HEREBY WAIVES ANY RIGHT TO, ANY AND ALL INDIRECT, INCIDENTAL AND CONSEQUENTIAL DAMAGES, INCLUDING, BUT NOT LIMITED TO, LOSS OF PROFITS, LOSS OF CAPITAL, LOSS OF DATA, COMPUTER DOWNTIME, AND COST OF SUBSTITUTE SERVICES. THE PARTIES AGREE THAT PGS SHALL NOT BE LIABLE FOR ANY COMPUTER PROBLEMS RESULTING FROM SUBSCRIBER'S ATTEMPTS TO RECEIVE OR PROCESS THE DATA, INCLUDING PROBLEMS RESULTING FROM THE USE OF ANY THIRD PARTY SOFTWARE OR FROM COMPUTER VIRUSES.

Subscriber shall not attempt, and shall not permit any third party to attempt, to adjust, modify or remove the Devices without the prior written approval of PGS.

Subscriber agrees to protect, indemnify and hold PGS harmless from and against any and all liability, costs, damages and expenses in any way attributable to Subscriber's failure to comply with this Agreement or Subscriber's negligence or fault. This indemnification shall include, but is not limited to, (1) PGS's attorney's fee and court costs, and (2) any liability, costs, damages and expenses resulting from the use of the data signal from the Port. This indemnification provision is in addition to (and does not replace) similar provisions relating to the same subject matter in the Gas Transportation Agreement, if applicable. To the extent that the Subscriber is the State of Florida, one of its agencies, or one of its subdivisions, nothing herein shall be construed or interpreted as a waiver of sovereign immunity beyond the waiver provided in Section 768.28, Florida Statutes, or any successor statute.

Notwithstanding any provision of this Agreement to the contrary, measurement of gas delivered to or consumed by Subscriber shall be governed by the applicable provisions of PGS's natural gas Tariff on file with the Florida Public Service Commission (or its successor) and in effect from time to time.

IN WITNESS WHEREOF, this Agreement is executed as of the day and year first hereinabove written.

MINIMUM VOLUME COMMITMENT
GAS TRANSPORTATION AGREEMENT

This Minimum Volume Commitment Gas Transportation Agreement (the "Agreement") is made and entered into as of the _____ day of _____, 20__, by and between Peoples Gas System, Inc., a Florida corporation ("PGS"), and _____, a _____ ("Shipper"), who hereby agree as follows:

ARTICLE I - DEFINITIONS

As used herein, the following terms shall have the meanings set forth below.

Capitalized terms used herein, but not defined below, have the meanings given for such terms in PGS's FPSC Tariff.

"Actual Takes" means, for a specified period, the quantity of Gas passing through the meter(s) of the Customer Accounts during that period.

"Business Day" means the Days Monday through Friday (excluding any federal banking holiday falling on any such Day).

"Day" means the period of 24 consecutive hours beginning and ending at 9:00 a.m. Central Clock Time.

"Facility" means Shipper's _____ facility located in _____, Florida.

"FPSC" means the Florida Public Service Commission or any successor agency.

"Gas" shall have the same meaning as given for such term in PGS's FPSC Tariff.

"Gas Service" shall have the same meaning as given for such term in PGS's FPSC Tariff.

"MAT Deficiency Charge" means the difference between the applicable MAT set forth in Article VI and the actual quantity of Gas delivered during the twelve-month delivery period, multiplied by the applicable rate schedule in effect at the end of the twelve-month delivery period.

"Maximum Delivery Quantity" or "MDQ" means the maximum amount of Gas that PGS is obligated to cause to be delivered for Shipper's account pursuant to this Agreement on any Day at the PGS Delivery Point(s) and is stated in Appendix B.

"Maximum Transportation Quantity" or "MTQ" means the maximum amount of Gas that PGS shall be obligated to receive pursuant to this Agreement on any Day at the PGS Receipt Point(s), and is stated in Appendix A.

"Minimum Annual Take" or "MAT" means the quantity of minimum annual delivery of natural gas at the facility agreed to by Shipper and set forth in Article VI.

"Minimum Delivery Obligation" means the sum of Shipper's total Gas requirements over the Term of this agreement as set forth in Article VI.

"Nomination" means a notice delivered by Shipper to PGS in the form specified in PGS's FPSC Tariff, specifying (in MMBtu) the quantity of Gas the Shipper desires to purchase~~,~~ or to have PGS receive, transport, and deliver~~,~~ at the PGS Delivery Point(s).

"Nominate" means to deliver a completed Nomination.

"PGS Delivery Point(s)" means the point(s) listed in Appendix B.

"PGS Receipt Point(s)" means the point(s) of physical interconnection between Transporter and PGS, or between Shipper and PGS listed in Appendix A.

"Retainage" means 0.35% of Gas received by PGS for the account of the Customer at the Primary Delivery Point(s) to account for lost and unaccounted Gas between such point(s) and the meters of the Customer Accounts.

"Supplier(s)" means person(s) (other than PGS) from which Shipper purchases Gas transported hereunder.

"Transporter" means any upstream intrastate or interstate transport service provider.

"Twelve-Month Delivery Period" means each twelve-month period commencing on the date of Gas Service is available to the Facility and continues on an annual basis throughout the Term of this Agreement.

ARTICLE II – TERM

This Agreement is effective on the date first written above. The term shall commence upon the initiation of Gas Service and continue until the last day of the Twelve-Month Delivery Period or when the Minimum Delivery Obligation is satisfied. (the "Termination Date") (the "Term"). The Term shall reflect the recovery period for the extension of Gas Service. In no instance will the Term exceed (10) years. At the end of the Term, the Customer will be placed in the applicable rate schedule.

ARTICLE III – SALES AND TRANSPORTATION SERVICE

Section 3.1 Services. PGS desires to sell and Shipper desires to purchase from PGS, from time to time, for use in the Facility (but not for resale), Gas in quantities which, at Shipper's request, PGS may, in its sole discretion exercised in a not unduly discriminatory manner, agree to sell to Shipper. Shipper also engages PGS, and PGS accepts such engagement, to receive Gas for Shipper's account, up to the MTQ, at the PGS Receipt Point(s), and to cause an equivalent quantity, less the Retainage, to be redelivered to Shipper. Such sales and transportation shall be governed by PGS's FPSC Tariff and this Agreement. If there is a conflict between the Tariff and this Agreement, the Tariff shall control. Sales and transportation hereunder are provided ~~interruptible~~ in accordance with PGS's FPSC Tariff and PGS's curtailment plan. If Shipper's service is interruptible, Shipper may select one or more of the options described in Appendix D, which may enable Shipper to continue receiving delivery of Gas during periods of curtailment or interruption.

PGS shall have no obligation to make sales to Shipper in lieu of the transportation of Gas contemplated by this Agreement.

Section 3.2 ~~Telemetry and Other~~ Required Equipment. ~~Telemetry and other equipment~~ All items ~~which~~ that PGS must install to provide natural gas transportation service hereunder (the "Equipment"), if any, shall be determined solely by PGS. ~~and the anticipated cost thereof, are listed in Appendix C. Shipper shall reimburse PGS for all costs incurred for the Equipment on receipt of PGS's invoice therefor.~~ Unless the parties agree otherwise, all facilities used to provide service to Shipper hereunder (including without limitation the Equipment) shall be installed, owned, operated and maintained by PGS.

Section 3.3 Telemetry Equipment. Equipment which PGS must install to provide transmission of measurement data hereunder (the "Telemetry Equipment"), if any, and the anticipated cost thereof, are listed in Appendix C. Shipper shall reimburse PGS for all costs incurred for the Telemetry Equipment on receipt of PGS's invoice therefor. Shipper shall be responsible for securing access to the gas measurement data transmission network as required by PGS for the proper functioning of Telemetry Equipment.

ARTICLE IV – NOMINATIONS

Section 4.1 General. For each Day Shipper desires service hereunder, Shipper shall provide a Nomination to PGS pursuant to Sections 4.2 and/or 4.3 for each meter at the Facility. The total quantity for the Facility may be Nominated to a single meter, with "zero" Nominations being made for any additional meters located at the Facility. All Nominations shall be made to PGS at its website (https://custactivitiespeoplesgas.com) provided that, in an emergency, a Nomination may be delivered via facsimile using the form set forth in PGS's FPSC Tariff. Quantities confirmed by PGS for delivery shall be Scheduled Quantities. If requested by Shipper, PGS will allow increases or decreases in Scheduled Quantities after the Nomination deadlines set forth in this article, if the same can be confirmed by PGS, Transporters and Suppliers, and can be accomplished without detriment to services then scheduled on such Day for PGS and other shippers. The maximum quantity PGS shall be obligated to make available for delivery to Shipper on any Day (which shall not exceed the MDQ) is the sum of (a) the Transportation Quantity and (b) the Sales Quantity established pursuant to this article.

Section 4.2 Nomination for Purchase. Unless otherwise agreed, Shipper shall Nominate Gas for purchase hereunder not less than seven (7) Business Days prior to the first Day of any Month in which Shipper desires to purchase Gas. Daily notices shall be given to PGS at least two (2) Business Days (but not less than forty-eight (48) hours) prior to the commencement of the Day on which Shipper desires delivery of the Gas. If Shipper has timely Nominated a quantity for a particular Month, PGS shall confirm to Shipper the quantity PGS will tender for purchase by Shipper (the "Sales Quantity," which shall also be a "Scheduled Quantity") no later than 5:00 p.m. Eastern Time on the Business Day immediately preceding each Day during such Month.

Section 4.3 Nomination for Transportation. Unless otherwise agreed, Shipper shall, for each Month, and each Day during such Month that Shipper seeks to change any aspect of any prior Nomination, notify PGS by providing a completed Nomination. Shipper's Nomination for Gas to be to be made available for delivery on the first Day of any Month shall be given by 10 a.m. on the second Business Day prior to the Day on which a nomination must be delivered to Transporter for receipt of deliveries at the PGS Receipt Point(s) on such Day. Daily Nominations for Gas to be made available for delivery other than on the first Day of a Month shall be given to PGS by 10 a.m. on the Business Day prior to the Day on which a nomination must be delivered to Transporter for the receipt of deliveries at the PGS Receipt Point(s) on such Day. The following nomination information is required for a valid nomination:

FPSC EXH NO. 74
ADMITTED

a. The Shipper's account number under which service is being nominated;
b. ~~The receipt point location including applicable DRN and upstream pipeline name, upstream pipeline package ID, including Shipper's PGS account number, and quantity in Therms of Gas to be tendered at each PGS receipt poin~~

b. The receipt point location including applicable DRN and upstream pipeline name, upstream pipeline package ID, including Shipper's PGS account number, and quantity in Therms of Gas to be tendered at each PGS receipt point;
c. The downstream delivery facility name, and quantity in Therms of Gas to be delivered for each PGS Shipper account;
d. A beginning and ending date for each nomination;
e. The upstream contract identifier.

Only nominations with clearly matching upstream Transporter identifiers (including Shipper's package ID and PGS account number) and downstream (PGS) identifiers will be scheduled. If Shipper or Shipper's Agent fails to comply with provisions (a) through (e) of this section, PGS may not schedule commencement of service or change a prior nomination.

Shipper understands that PGS is subject to FERC regulations that may require PGS to post certain Shipper information on a publicly accessible website. The submission by Shipper or Shipper's Agent of a required nomination shall constitute Shipper's authorization to PGS to publicly disclose any information (including but not limited to the information provided in such nomination) required by applicable law or regulation to be disclosed by PGS.

PGS shall confirm to Shipper the quantity PGS will make available for redelivery on such Day (the "Transportation Quantity," which shall also be a "Scheduled Quantity") no later than 5:00 p.m. Eastern Time on the Business Day immediately preceding such Day. PGS has no obligation to confirm a quantity Nominated by Shipper pursuant to this section greater than the quantity which, in PGS's reasonable judgment, equals the Facility's likely consumption for a Day plus Retainage, less any Sales Quantities confirmed for delivery on such Day.

Section 4.4 Mutually Beneficial Transactions. Shipper recognizes that PGS maintains the operation and system integrity of the PGS distribution system on a daily basis, and that PGS, as the delivery point operator for its points of interconnection with interstate pipelines, is subject to the rules and regulations of such pipelines with regard to operational flow rates, pressures and penalties. As such, PGS may from time to time need Shipper to vary its Nominated quantities of Gas to be delivered at the PGS Receipt Point(s). On such occasions, PGS may in its sole discretion request, and Shipper may agree to, a change in the quantity of Gas to be delivered for the account of Shipper at the PGS Receipt Point(s). No such change in the quantity of Gas to be delivered shall be made pursuant to this section without the consent of Shipper. Terms and conditions of any such transaction will be agreed upon between the parties at the time of the transaction and will be recorded and confirmed in writing within two Business Days of the transaction.

ARTICLE–V - TRANSPORTATION AND OTHER CHARGES

Section 5.1 Transportation Charges~~; Purchase Price~~. Shipper shall pay PGS each Month for transportation service rendered by PGS, and, if applicable, for Gas purchased from PGS, in accordance with the then-applicable rate schedule in PGS's FPSC Tariff. At the time of execution of this Agreement, Rate Schedule ___ is applicable. In the event rate schedule, CIS or a fixed rate schedule is applicable, this Agreement will automatically renew following the Initial Term at the then applicable rate schedule unless Shipper and PGS have agreed at least thirty (30) days prior to the expiration of the then current term that Rate Schedule CIS or another rate schedule shall apply.

During the Term of this Agreement, Buyer agrees to a MAT of natural gas at the Facility which will follow the schedule outlined in Section 6.2.

Section 5.2 Changes in Tariff. If the applicable rates or rate schedules change or are amended or superseded, the newly applicable rates or rate schedules shall be applicable to service hereunder. Nothing contained herein shall prevent PGS from filing with the FPSC (or Shipper from opposing) changes to the rates and other provisions in PGS's FPSC Tariff. ~~PGS agrees to give Shipper reasonable notice of (a) all filings (except filings in FPSC Docket No. 000003-GU, In Re: Purchased Gas Adjustment (PGA) True-Up, and successor dockets) which PGS makes with the FPSC and (b) all other FPSC proceedings of which PGS becomes aware, which PGS determines would affect PGS's rates or the services to be performed by PGS under this Agreement.~~

ARTICLE VI - REQUIREMENTS

Section 6.1 Minimum Delivery Obligation. The sum of Shipper's total Gas requirements over the Term of this Agreement are estimated to be _____ Therms.

Section 6.2 Minimum Annual Take. PGS requires the following MAT for each Twelve-Month Delivery Period, or such Delivery Period as agreed upon by the Parties as applicable:

Period	Therms
1	
2	
3	
4	
5	
6	
7	
8	
9	
10	

Section 6.3 Shortfall and MAT Deficiency Charge. If the Shipper fails to take delivery of the MAT in any Twelve-Month Delivery Period, the Shipper shall pay PGS a MAT Deficiency Charge calculated as follows: the difference between the applicable MAT and the actual quantity of Gas delivered during the Twelve-Month Delivery Period, multiplied by the rate schedule in effect at the end of the Twelve-Month Delivery Period. If, during any Twelve-Month Delivery Period, the actual quantity of Gas delivered to the Facility exceeds the applicable MAT, said excess shall be carried forward to the next Twelve-Month Delivery Period for purposes of offsetting any MAT Deficiency Charge hereunder.

Section 6.4 Financial Guarantee. Shipper shall furnish to PGS an irrevocable standby letter of credit issued by a bank acceptable to PGS or such other form of guarantee acceptable to PGS (the "Financial Guarantee") in an amount equal to [_____]. PGS may adjust the amount required in the Financial Guarantee at the end of each Twelve-Month Delivery Period.

Shipper's failure to maintain the Financial Guarantee, which for the avoidance of doubt includes notice of termination of security without acceptable alternative Financial Guarantee being provided, shall constitute a default of this Agreement.

ARTICLE VII - BILLING AND PAYMENT

Section 7.1 Billing. PGS will bill Shipper each Month for all Actual Takes during the preceding Month, and for any other amounts due hereunder. If, during the preceding Month, PGS has purchased Gas from Shipper pursuant to an interruption or curtailment order, such bill shall show a credit for the estimated amount due Shipper for such purchase(s). If the estimated amount owed by PGS to Shipper exceeds the amount Shipper owes PGS, PGS shall pay Shipper the net amount estimated to be due Shipper at the time PGS bills Shipper.

Section 7.1.1 Billing of MAT Deficiency Charge(s). PGS will bill Shipper for the MAT Deficiency Charge ~~within~~no later than thirty (30) days after the end of each Twelve-Month Delivery Period.

Section 7.2 Payment. Shipper shall pay all such bills, minus any disputed amounts, at the address specified in the invoice by the 20th Day following the date of PGS's mailing (as signified by the postmark) or other delivery of the bill. All sums not so paid by Shipper (or credited or paid by PGS) shall be considered delinquent and subject to later payment schedules as set forth below.

Section 7.3 Termination Payment. If the Shipper terminates Gas Service hereunder after execution of this Agreement, Shipper shall pay PGS any MAT Deficiency Charge(s) applicable at the time of termination and any future MAT Deficiency Charge(s) pursuant to the schedule in Section 6.2. resulting from such termination (the "Termination Payment"). Shipper agrees that it will make any such Termination Payment to PGS within twenty (20) days after receipt of PGS' invoice.

Section 7.4 Billing Disputes. In the event of a bona fide billing dispute, Shipper or PGS, as the case may be, shall pay (or credit) to the other party all amounts not in dispute, and the parties shall negotiate in good faith to resolve the amount in dispute as soon as reasonably practicable. If a party has withheld payment (or credit) of a disputed amount, and the dispute is resolved, the non-prevailing party shall pay to the other party the amount determined to be due such other party, plus interest thereon at an annual rate equal to the prime interest rate of Citibank, N.A., New York, New York, plus one percent (1%), calculated on a daily basis from the date due until paid (or credited).

Section 7.5 Errors or Estimates. If an estimate is used to determine the amount due Shipper for purchases by PGS pursuant to an interruption or curtailment order, PGS shall make any adjustment necessary to reflect the actual amount due Shipper on account of such purchases in the next bill rendered to Shipper after determination of the actual amount due. An error in any bill, credit or payment shall be corrected in the next bill rendered after the error is confirmed by PGS.

Each party's performance obligation hereunder shall abate proportionately during a Force Majeure event and during any period that a party is unable to perform its obligations due to the other party's performance failure. The term of this Agreement shall be extended for a period equal to the length of any such abatement(s).

ARTICLE VIII - FAILURE TO MAKE PAYMENT

Section 8.1 Late Payment Charge. Charges for services due and rendered which are unpaid as of the past due date are subject to a Late Payment Charge of 1.5%, except the accounts of

mail, registered or certified, return receipt requested, postage prepaid, and properly addressed to the party as set forth below.

APPENDIX A - GAS TRANSPORTATION AGREEMENT

PGS RECEIPT POINT(S)

Maximum Transportation Quantity: _____ MMBtu per Day plus the Retainage

PGS will accept Gas from Shipper, or for its account, for transportation pursuant to this Agreement at the following point(s):

The above point(s) may be changed by PGS from time to time on written notice to Shipper.

APPENDIX B - GAS TRANSPORTATION AGREEMENT

PGS DELIVERY POINT(S)

Gas transported or sold pursuant to this Agreement shall be delivered by PGS to Shipper at the following point(s):

NAME	PGS METER#	MAXIMUM DELIVERY QUANTITY
Meter at the Facility		_____ MMBtu per Day

APPENDIX C - GAS TRANSPORTATION AGREEMENT

TELEMETRY EQUIPMENT

APPENDIX D - GAS TRANSPORTATION AGREEMENT (APPLICABLE TO INTERRUPTIBLE CUSTOMERS)

ALTERNATIVES DURING PERIODS OF INTERRUPTION OR CURTAILMENT

If Shipper is an interruptible Customer, it may select one or more of the "~~O~~options" ~~hereinafter described~~ set forth below prior to or during a period of interruption or curtailment ~~or interruption~~. ~~T~~These ~~O~~options ~~set forth below~~ describe ~~means through which~~ how PGS ~~will~~would attempt to continue deliveries ~~to Shipper~~ during such a period ~~if PGS can do so in a manner that is consistent with the order of priorities of service set forth in its curtailment plan and that will not prevent service to customers in higher priorities of service than Shipper~~.

If PGS is entitled ~~under this Agreement or PGS's FPSC Tariff~~ to interrupt or curtail deliveries to Shipper for reasons other than Force Majeure, PGS will notify Shipper ~~to that effect,~~ about such interruption or curtailment. The notice ~~to~~ will include the estimated duration of the interruption or curtailment and the estimated cost of gas required for PGS to continue deliveries to Shipper ~~during the period of interruption~~. Shipper shall notify PGS in writing within two (2) hours after receipt of PGS's

notice of interruption or curtailment of the option (from Options A through C below) Shipper elects ~~during the period of interruption~~.

~~Shipper has elected the Option(s) (if any) previously selected by Shipper in writing.~~ If Shipper ~~has failed~~ fails to make *any* election in a timely manner, ~~, either prior to PGS's notice or during the two-hour period,~~ it shall be conclusively presumed that Shipper has elected Option D below.

The Options are as follows:

Option A (PGS Receipt Point/Shipper's Own Arrangement): Shipper desires PGS to continue deliveries during the period of interruption or curtailment and Shipper agrees to make ~~available for its account (*i.e.*, to make~~ all arrangements necessary to cause the delivery of~~)~~ ~~at the PGS Receipt Point(s)~~ (1) additional quantities of Gas equal to those quantities which PGS is entitled to interrupt or curtail (2) at the PGS Receipt Point(s).

Option B (Pipeline Release Point/Capacity Release): Shipper desires PGS to continue deliveries during the period of interruption and agrees to make ~~available for its account (*i.e.*, to make~~ all arrangements necessary to cause the delivery of ~~)~~ (1) additional quantities of Gas (including the Retainage) equal to those quantities which PGS is entitled to interrupt or curtail (2) at the applicable point(s) of receipt into [_____] pipeline system ~~additional quantities of Gas (including the Retainage) equal to those quantities which PGS is entitled to interrupt~~. In addition, Shipper, ~~and~~ desires PGS to release to Shipper (or to a Supplier designated by Shipper), for the duration of the period of interruption or curtailment and at the maximum rate applicable to the capacity released, primary firm capacity on [_____] sufficient to transport such additional quantities of Gas to the PGS Receipt Point(s). By election of this Option B, Shipper agrees to be responsible for the payment of all charges imposed by [_____] with respect to the capacity so released by PGS to Shipper (or Shipper's Supplier), or the use of such capacity, for the period during which such release is effective. If Shipper elects to continue deliveries during the period of interruption pursuant to this Option B, PGS agrees to release the capacity requested by Shipper if PGS determines in its sole discretion that (i) such capacity is available for release to Shipper during the period of interruption or curtailment, (ii) such release can be accomplished readily and without detriment to PGS's system operations, and (iii) such release is practicable within the time constraints and requirements of [_____] FERC Tariff and the ready availability of PGS staff and resources.

Option C (PGS as Temporary Agent): Shipper desires PGS to continue deliveries during the period of interruption or curtailment, appoints PGS as its agent to acquire (at the PGS Receipt Point(s)) additional quantities of Gas at market-based price, equal to those quantities which PGS is entitled to interrupt or curtail, to be used by Shipper during the period of interruption or curtailment, and agrees to reimburse PGS, in addition to all amounts otherwise payable for Gas pursuant to this Agreement, for the incremental additional per-Therm costs incurred by PGS (as Shipper's agent) to acquire for the account of Shipper, at the PGS Receipt Point(s), Gas to be used by Shipper during the period of interruption or curtailment. As used in this Option C, "incremental additional costs" shall mean the weighted average per-Therm costs incurred by PGS to acquire, for the accounts of Shipper and other interruptible customers of PGS who have elected this Option C during a particular period of interruption, the additional quantities of Gas mentioned above to be used by Shipper and such other interruptible customers of PGS during such period of interruption or curtailment, including but not limited to commodity, transportation, storage and other charges incurred by PGS.

Option D (No Action by Shipper): Shipper agrees to cease taking Gas pursuant to PGS's notice during the period of interruption.

If Shipper has elected to continue deliveries pursuant to one of ~~-~~Options A, ~~Option~~ B, or ~~Option~~ C, PGS will, in implementing its interruption or curtailment notice, take and pay for Shipper's Gas as

provided in PGS's FPSC Tariff, but will not discontinue deliveries to Shipper unless (i) if Shipper has elected Option A, Shipper fails to make additional Gas available at the PGS Receipt Point(s), or (ii) if Shipper has elected Option B, either (a) PGS has no primary firm capacity on [_____] available for release to Shipper (or Shipper's Supplier) during the period of interruption or curtailment without

detriment to service required by PGS's customers in a curtailment category having a higher priority than Shipper's curtailment category under PGS's curtailment plan, or (b) PGS determines either that the release of capacity contemplated by Option B would not result in Shipper's (or Shipper's Supplier's) being able to make the additional quantities of Gas available at the PGS Receipt Point(s) for delivery to Shipper during the period of interruption or curtailment or that the release of capacity cannot be made pursuant to Option B, or (iii) if Shipper has elected Option C, PGS, having exercised commercially reasonable efforts, is unable to acquire for Shipper's account, at the PGS Receipt Point(s), additional Gas for delivery to Shipper during the period of interruption or curtailment. In the event of the occurrence of any of the circumstances described in items (i) through (iii), PGS will provide Shipper with not less than two (2) ~~hours' notice~~hours' notice to cease taking Gas during the period of interruption or curtailment, and Shipper shall not have the benefit of Options A through C above.

BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION

In re: Petition for Rate Increase by Peoples Gas System, Inc.	DOCKET NO. 20250029-GU FILED: May 19, 2025

PEOPLES GAS SYSTEM, INC.'S ANSWERS TO STAFF'S SECOND SET OF INTERROGATORIES (NOS. 2-14)

Pursuant to Rule 106.206, Florida Administrative Code, and Florida Rule of Civil Procedure 1.350, Peoples Gas System, Inc. ("Peoples" or the "company"), hereby answers The Staff of the Florida Public Service Commission's ("Staff") Second Set of Interrogatories (Nos. 2-14), served April 29, 2025 ("Staff's Second Interrogatory").

General Objections

1. Peoples objects to each interrogatory in Staff's Second Interrogatory ("Set") to the extent that it seeks information that is duplicative, not relevant to the subject matter of this docket, and is not reasonably calculated to lead to the discovery of admissible evidence.

2. Peoples objects to each Set to the extent it is vague, ambiguous, overly broad, imprecise, or utilizes terms that are subject to multiple interpretations but are not properly defined or explained for purposes of such Set. Peoples will seek clarification from Staff if a Set is not clear, but Peoples will produce documents subject to, and without waiving, this objection.

3. Peoples objects to each Set to the extent it requires Peoples to produce information that is already in the public record before the Florida Public Service Commission ("FPSC" or the "Commission") or other public agency and available to Staff through normal procedures or is readily accessible through legal search engines.

4. Peoples objects to each Set to the extent that it calls for data or information protected by the attorney-client privilege, the work product doctrine, the accountant-client

FPSC EXH NO. 76
ADMITTED

privilege, the trade secret privilege, or any other applicable privilege or protection afforded by law. Peoples will describe the nature of the privileged material, if any, in a privilege log that will accompany its responses.

5. Peoples objects to producing paper copies on the grounds that doing so would be unduly burdensome.

6. Peoples objects to each Request to the extent it requires the company to provide information that it believes is "proprietary confidential business information" as described in Section 366.093, Florida Statutes.

7. Peoples objects to each Set, instruction, or definition in that purports to expand Peoples' obligations under applicable law.

8. Peoples objects to each Set to the extent it requests Peoples to prepare information in a particular format or create data or information that it otherwise does not possess as unduly burdensome and as purporting to expand Peoples' obligations under applicable law.

9. Subject to Section 366.093(1), Florida Statutes, Peoples objects to any definition or Set that requests documents from persons or entities who are not parties to this proceeding, that seek information from affiliates unrelated to transactions or cost allocations involving Peoples, or that are not otherwise subject to discovery under applicable rules.

10. Peoples objects to any Set requiring the company to provide additional information beyond that obtained through a reasonable and diligent search.

General Response

Subject to and without waiving its general objections, which are incorporated by reference in each of its specific answers, Peoples will serve its answers to the Commission staff by hand delivering a USB containing its answers to the Commission Clerk's office, and for Staff's

FPSC EXH NO. 76
ADMITTED

purposes, the term "USB" should be substituted for "SharePoint" in the specific answers shown below.

The company's specific answers will identify interrogatories that call for answers that contain (a) information for which the company asserts a legal privilege and/or (b) "proprietary confidential business information" as defined in Section 366.093, Florida Statutes.

An answer that contains information for which the company asserts a legal privilege will be identified in the privilege log attached as Exhibit A.

An answer that contains information the company asserts to be "proprietary confidential business information" will be provided in the Confidential portion of the SharePoint subject to a request for confidential classification, motion for temporary protective order and/or a non-disclosure agreement.

MAY 19, 2025

2. Please refer to Exhibit No. LB-1, Document No. 7, page 1 of 1 included in PGS witness Buzard's direct testimony, as well as MFR Schedule G-2, pages 6a-6f and 8a-8f. For the customer and therm sales forecasts presented, please provide:

a. All FPSC dockets or other filings in which PGS presented the same forecasts used in this proceeding and explain how they were used in those dockets or other filings.

b. All FPSC dockets which were opened after April 2024 in which PGS filed customer or therm sales forecasts which were different from the forecasts used in this proceeding. Explain in each instance, if any, why a different forecast was used and how those forecasts differed from those in the instant case.

ANSWER:

a. There are no other FSPC dockets or filings that use this forecast. Peoples plans to use this same forecast in its anticipated filings for the 2026 Purchased Gas Adjustment Projection, Natural Gas Conservation Cost Recovery Projection, Cast Iron Bare Steel Replacement Rider and potentially the Natural Gas Facilities Relocation Cost Recovery Clause (i.e., if filed in 2025).

b. The following dockets were opened after April 2024, and Peoples used customer or therm sales forecasts, which were different from the forecasts used in this proceeding:

- Docket No. 20240107-GU (Petition for Approval of Modifications to Peoples' Cast Iron/ Bare Steel Replacement Rider)
- Docket No. 20240133-GU (Peoples' Cast Iron/Bare Steel Replacement Rider)
- Docket No. 20240148-EG (Peoples' DSM Plan)

Docket Nos. 20240107-GU and 20240133-GU utilized a forecast prepared prior to the final forecasts for 2025 and 2026 utilized for the current base rate case petition. These dockets were filed prior to the final preparation of the rate case petition and the company used the most readily available actual data at the time of filing Docket Nos. 20240107-GU and 20240133-GU. The forecast for the current base rate proceeding was prepared later

FPSC EXH NO. 76
ADMITTED

in 2024 (November) and utilized more updated information on actuals at that time.

3. Please specify the months and years included in the actual data (beginning and ending) and the month and years included in the forecast data (beginning and ending) of each Explanatory (Independent) Input Variable used to produce PGS's 2025 Historic Base Year +1 and 2026 Test Year customer and therm sales forecasts.

ANSWER:

Peoples is answering this interrogatory in full by producing records as allowed under Florida Rule of Civil Procedure 1.340(c); the records reflecting number of customers by rate class are provided in the folder entitled "ROG_2_3" and will be posted on the Consumer Party SharePoint Site or provided via USB.

PEOPLES GAS SYSTEM, INC.
DOCKET NO. 20250029-GU
STAFF'S SECOND SET OF INTERROGATORIES
INTERROGATORY NO. 4
BATES PAGE(S): 17789 - 17790
MAY 19, 2025

4. Beginning with the first forecasted data point (month/year) that PGS used for their model projections (which have now transpired) through April 2025, please provide the following:

a. A side-by-side comparison of PGS's total (all divisions combined) monthly projected customer count and total therm sales to PGS's actual monthly customer count and therm sales (for PGS's Residential Sales and Customers Forecasts, Small Commercial Sales and Customers Forecasts, and all other sales and customer forecasts reflected in MFR Schedule G-2).

b. A causative explanation for any deviations greater than 10 percent for therm sales and 2 percent for customers.

ANSWER:

a. Peoples is answering this interrogatory in full by producing records as allowed under Florida Rule of Civil Procedure 1.340(c); the records reflecting number of customers by rate class are provided in the folder entitled "ROG_2_4" and will be posted on the Consumer Party SharePoint Site or provided via USB.

b. Peoples did not experience any deviations exceeding two percent for Residential or Small Commercial customer counts as of the end of April.

On a 10-year weather normalized basis and excluding unbilled therms, the company did not experience any deviations exceeding 10 percent for Residential or Small Commercial therm sales as of the end of April 2025. Large Customer sales had a negative 19.1 percent deviation from budget in March 2025 due to one customer undergoing an extended outage.

MAY 19, 2025

5. Please fill out the tables below providing the forecast error rate for residential and small commercial customer counts and therm sales, for 2021, 2022, 2023, and 2024. In addition, please provide the data tables used to perform all such calculations, in Excel format with cells unlocked.

Year	Accuracy of Total Residential Customers Forecasts*					
	Forecast Error Rate (%)				0-3 Year Error (%)	
	Years Prior**				Average	Absolute Average
	3 Years	2 Years	1 Year	0 Years		
2021						
2022						
2023						
2024						
Average						

*The Company's officially adopted annual forecast of total customers (all divisions combined).

**Examples: In the column '3 Years,' row '2021', enter the percent error in the Company's 2018 forecast of 2021 residential customers. Similarly, in the column '0 Years', row '2024', enter the percent error in the Company's 2024 forecast of 2024 residential customers.

Note: Over-forecast = positive error rate
Under-forecast = negative error rate

Year	Accuracy of Total Small Commercial Customers Forecasts*					
	Forecast Error Rate (%)				0-3 Year Error (%)	
	Years Prior**				Average	Absolute Average
	3 Years	2 Years	1 Year	0 Years		
2021						
2022						
2023						
2024						
Average						

*The Company's officially adopted annual forecast of total customers (all divisions combined).

**Examples: In the column '3 Years,' row '2021', enter the percent error in the Company's 2018 forecast of 2021 small commercial customers. Similarly, in the column '0 Years', row '2024', enter the percent error in the Company's 2024 forecast of 2024 small commercial customers.

Note: Over-forecast = positive error rate
Under-forecast = negative error rate

Year	Accuracy of Total Small Commercial Therm Sales Forecasts*					
	Forecast Error Rate (%)				0-3 Year Error (%)	
	Years Prior**				Average	Absolute Average
	3 Years	2 Years	1 Year	0 Years		
2021						
2022						
2023						
2024						
Average						

*The Company's officially adopted annual forecast of therm sales (all divisions combined).

**Examples: In the column '3 Years,' row '2021', enter the percent error in the Company's 2018 forecast of 2021 small commercial therm sales. Similarly, in the column '0 Years', row '2024', enter the percent error in the Company's 2024 forecast of 2024 small commercial therm sales.

Note: Over-forecast = positive error rate
Under-forecast = negative error rate

ANSWER:

Peoples is answering this interrogatory in full by producing records as allowed under Florida Rule of Civil Procedure 1.340(c); the records reflecting number of customers by rate class are provided in the folder entitled "ROG_2_5" and will be posted on the Consumer Party SharePoint Site or provided via USB. All therm sales are weather normalized.

Year	Accuracy of Total Residential Customers Forecasts*					
	Forecast Error Rate (%)				0-3 Year Error (%)	
	Years Prior**				Average	Absolute Average
	3 Years	2 Years	1 Year	0 Years		
2021	4.6%	2.9%	3.1%	2.9%	3.4%	3.4%
2022	4.3%	4.9%	1.8%	0.9%	3.0%	3.0%
2023	5.9%	4.0%	2.2%	1.2%	3.3%	3.3%
2024	5.6%	2.6%	2.6%	2.2%	3.2%	3.2%
Average	5.1%	3.6%	2.4%	1.8%	3.2%	3.2%

*The Company's officially adopted annual forecast of total customers (all divisions combined).

**Examples: In the column '3 Years,' row '2021', enter the percent error in the Company's 2018 forecast of 2021 residential customers. Similarly, in the column '0 Years', row '2024', enter the percent error in the Company's 2024 forecast of 2024 residential customers.

Note: Over-forecast = positive error rate
Under-forecast = negative error rate

STAFF'S SECOND SET OF INTERROGATORIES
INTERROGATORY NO. 5
BATES PAGE(S): 17791 - 17795
MAY 19, 2025
REVISED: JUNE 9, 2025

5. Please fill out the tables below providing the forecast error rate for residential and small commercial customer counts and therm sales, for 2021, 2022, 2023, and 2024. In addition, please provide the data tables used to perform all such calculations, in Excel format with cells unlocked.

Year	Accuracy of Total Residential Customers Forecasts*					
	Forecast Error Rate (%)				0-3 Year Error (%)	
	Years Prior**				Average	Absolute Average
	3 Years	2 Years	1 Year	0 Years		
2021						
2022						
2023						
2024						
Average						

*The Company's officially adopted annual forecast of total customers (all divisions combined).

**Examples: In the column '3 Years,' row '2021', enter the percent error in the Company's 2018 forecast of 2021 residential customers. Similarly, in the column '0 Years', row '2024', enter the percent error in the Company's 2024 forecast of 2024 residential customers.

Note: Over-forecast = positive error rate
Under-forecast = negative error rate

Year	Accuracy of Total Small Commercial Customers Forecasts*					
	Forecast Error Rate (%)				0-3 Year Error (%)	
	Years Prior**				Average	Absolute Average
	3 Years	2 Years	1 Year	0 Years		
2021						
2022						
2023						
2024						
Average						

*The Company's officially adopted annual forecast of total customers (all divisions combined).

**Examples: In the column '3 Years,' row '2021', enter the percent error in the Company's 2018 forecast of 2021 small commercial customers. Similarly, in the column '0 Years', row '2024', enter the percent error in the Company's 2024 forecast of 2024 small commercial customers.

Note: Over-forecast = positive error rate
Under-forecast = negative error rate

Under-forecast = negative error rate

ANSWER:

Peoples is answering this interrogatory in full by producing records as allowed under Florida Rule of Civil Procedure 1.340(c); the records reflecting number of customers by rate class are provided in the folder entitled "ROG_2_5" and will be posted on the Consumer Party SharePoint Site or provided via USB. All therm sales are weather normalized.

Year	Accuracy of Total Residential Customers Forecasts*

STAFF'S SECOND SET OF INTERROGATORIES
INTERROGATORY NO. 6
BATES PAGE(S): 17796
MAY 19, 2025

6. Please refer to witness Buzard's direct testimony, page 40, lines 16-20. Witness Buzard states, "Rather, since a large volume of demand is concentrated in a small number of Large Customers, the company develops its Large Customer demand and revenue forecast by examining prior and expected usage on a customer-by-customer basis." Please elaborate on the methodology PGS used for the forecasted demand for these large customers.

ANSWER:

Peoples' forecasting of demand for large customers relies on simple historical data averages, without complex regression, as well as input from the company's internal Gas Supply & Development team and gaining insights externally from TECO Partners, Inc. (TPI). The steps below provide an overview of the process.

- Identify the existing accounts that are considered large customers: Wholesale, General Service 4 and 5, and all Interruptible classes.
- Export each customer's actual monthly consumption.
- For accounts with at least 12 consecutive months of consumption: the monthly therm forecast is equal to the average of the previous two years for the respective months (e.g. Jan 2025 forecast is equal to the average of Jan 2024 actual usage and Jan 2023 actual usage).
- For accounts with less than 12 consecutive previous months of consumption: the monthly therm forecast is equal to the rounded average of the latest data available (e.g. if the forecast was generated in Aug 2024 and an account's available historical data is from Feb 2024 through Jul 2024, then the monthly demand forecast is equal to the rounded average of Feb 2024 through Jul 2024).
- Manually adjust any expected pattern changes or anomalies.
- Identify and forecast potential large customers and associated usage and revenue.

INTERROGATORY NO. 7
BATES PAGE(S): 17797
MAY 19, 2025

7. Please refer to Exhibit AN-1, Document No. 10, pg. 2 of 2, provided in witness Nichols' direct testimony. The second footnote at the bottom of this document reads "2025 and 2026 customer growth reflects revenue forecast (see Document No. 3 to Exhibit No. JED-1)…" Please indicate whether the reference to Exhibit JED-1 is in error, and if so, what the appropriate reference is.

ANSWER:

The reference to Document No. 3 to Exhibit JED-1 is in error. The appropriate reference is to Document No. 9 to Exhibit AN-1.

PEOPLES GAS SYSTEM, INC.
DOCKET NO. 20250029-GU
STAFF'S SECOND SET OF INTERROGATORIES
INTERROGATORY NO. 8
BATES PAGE(S): 17798 - 17799
MAY 19, 2025

8. Please refer to witness Buzard's direct testimony, page 23, lines 23-25.

a. Please identify which entity - TECO Partners, Inc (TPI) or PGS' load forecasting team - produced the 2025 and 2026 customer, use per customer, and sales forecasts for PGS.

b. Please identify the lead managers for TPI and PGS's load forecasting team.

c. Please provide the credentials of each of the different forecasting teams as well as their respective prior experience in preparing PGS forecasts.

ANSWER:

a. Peoples' load forecasting team developed the forecasts for 2025 and 2026. These forecasts were produced in collaboration with multiple internal groups, including the Business Intelligence and Analytics team within the Strategy, Marketing and Communications department, the Business Development area in the Gas Supply and Development department, and the Finance department. Externally, the company works with TECO Partners, Inc. ("TPI"), to obtain their view of current market conditions and planned developments as they are involved in customer relationships.

b. Internally, the lead managers for Peoples' load forecasting team are the Director of Regulatory Affairs, Manager Regulatory Rates, Manager of Business Intelligence and Analytics, and Sr. Manager Resource Planning. Externally, the lead managers are the Head of Sales & Customer Programs and the Director of Financial Analytics at TPI.

c. Please see the table below providing the credentials and forecasting experience of the different forecasting team.

STAFF'S SECOND SET OF INTERROGATORIES
INTERROGATORY NO. 9
BATES PAGE(S): 17800 - 17802
MAY 19, 2025

9. Please refer to PGS' response to Staff POD No. 1.c. and 1.d for the following questions.

a. Please provide an explanation for all variable names/abbreviations and sources for each chosen independent variable identified.

b. Please provide approximate percentage increases/decreases in the dependent variable attributable to a one percent increase/decrease in each independent variable.

c. For each customer and therm sales model and out-of-model adjustment, please explain all assumptions that were utilized, describing the connection between the specific variables/out-of-model adjustments and their formulation to the dependent variable. Please include all sources of assumptions.

d. Provide all model, out of model adjustment, and forecasted independent variable data sources. For sources that are proprietary, please include whether or not the Company tested the reasonableness of such data against publicly available data. If so, please identify the public sources utilized.

ANSWER:

a. Monthly binaries, specific month binaries, shift variables, and linear trends that are specific to each model: Naming should be clear in the model coefficient and data tabs.

The other model variables are:

- ResUPC: Residential Average Use
- ComUPC: Commercial Average Use
- XHeat: the constructed heating variable as described in the Itron Report
- XOther: the constructed other gas end-uses as described in the Itron Report
- ResCVD: The residential COVID variable
- ComCVD: The commercial COVID variable
- HseHlds_Div: Number of households (MSA)

- EMP_Div: Employment (MSA)

b. Peoples is answering this interrogatory in full by producing records as allowed under Florida Rule of Civil Procedure 1.340(c); the records reflecting number of customers by rate class are provided in the folder entitled "ROG_2_9" and will be posted on the Consumer Party SharePoint Site or provided via USB.

The elasticities are an output from the model estimation process and are shown on the Elasticities tab. The elasticities show the impact of a 1% change in XHeat and XOther.

c. Please refer to the company's response to Staff's POD No. 1, parts e and f. The exogenous adjustments use the same usage per customer calculated by the model.

d. Please refer to the company's response to Staff's POD No. 1, parts e and f.

ADMITTED

NOTE: The elasticities show the average percent change in usage given a percent change in the forecast drivers – XHeat and XOther.

PEOPLES GAS SYSTEM, INC.
DOCKET NO. 20250029-GU
STAFF'S SECOND SET OF INTERROGATORIES
INTERROGATORY NO. 10
BATES PAGE(S): 17803
MAY 19, 2025

10. Please explain whether the use a 10 year weather normal assumption as opposed to the historical use of an 20 year weather normal assumption impacts the stability of the utility's weather forecast, and in turn the stability of its load forecasts, and what potential consequences to system planning may result as a consequence of adopting the abbreviated normalization period.

ANSWER:

It is true that normal heating degree-days (HDD) based on 10 years of historical data may change over time more often than normal HDDs based on 20 years of data; each year in a 10-year normal represents one-tenth of the observations vs one-twentieth of the observations in a twenty-year normal. Ten years, however, is still a significant number of years that should result in a consistent sales forecast over time. Another approach for addressing stability is the application of trended normal HDD, where HDD are not a simple average of the past but rather a trend toward general warming winter temperatures. The Energy Information Administration (EIA) uses trended-normal degree-days in developing Census level long-term gas requirements.

The current 10-year normal, will likely result in a more accurate near-term (2025 and 2026) sales and revenue forecast as over the last ten years, the annual number of HDD (and associated gas use) has been significantly lower than the twenty-year normal in most regions of the state.

The company does not see any potential consequences to system planning as a result of adopting the abbreviated normalization period.

MAY 19, 2025

11. Does PGS intend to use the load forecasts based on 10-year weather normalization methodology for all utility purposes going forward, including system planning, rate development, etc.?

ANSWER:

Yes. Peoples uses the same forecast for clauses, budgeting, system planning, rate development, and all other functions on an annual basis.

DOCKET NO. 20250029-GU
STAFF'S SECOND SET OF INTERROGATORIES
INTERROGATORY NO. 12
BATES PAGE(S): 17805
MAY 19, 2025

12. Please explain whether switching from a 20 year weather normal assumption in preparing PGS's load forecasts to a 10 year weather normal assumption is a departure from the utility's and the industries' historical practice, and if so, what justifies the switch.

ANSWER:

The decision to switch to a 10-year gas normal period is supported by the number of HDDs that drive gas usage are trending down in most parts of the state. With the downward trend of HDDs, we are also experiencing more Cooling Degree Days (CDD) in the cooler part of the year. Please refer to the company's response to Staff's First Production of Documents, Number 3 for division-specific HDD graphs. A 10-year normal HDD will more accurately capture this trend compared to a 20-year normal HDD.

Switching from a 20-year period to 10-year period for gas sales and revenue estimates is not a departure from industry historical practice. There is a wide range of historical periods used in calculating normal degree-days.

In Florida, the Commission has set precedent by allowing gas utilities to use 10-year normal HDD in their rate filing including filings by FPUC.

The company has fluctuated between using 10-year and 20-year normal HDD. In Docket No. 20080318-GU, rate case filing, Peoples used 10-year normal HDD. This practice was continued in the company's forecasts 2008 through 2013. In the 2014 budget, Peoples used 15-year normal HDD and added an additional year every budget cycle. Beginning in 2018, the company used 20-year normal HDD for all forecasts and budgets, and this practice continued through Docket Nos. 20200051-GU and 20230023-GU, rate case filings. After examining the historical therm usage, it became apparent that recent actuals were trending closer to a 10-year normal HDD. As a result, Peoples began using 10-year normal HDD in all forecasts, including the current Docket No. 20250029-GU, rate case filing.

13. Please refer to Staff POD No. 2. Please reconcile the rate class names appearing in witness Buzards's direct testimony, page 26, lines 24-25, and page 27, lines 1-3, with those appearing in MFR Schedule E-5, Pages 1-18.

ANSWER:

Some of the rate class names within Witness Buzard's direct testimony contain a "T" because Peoples internally uses this to delineate between PGA and non-PGA customers. As a result, the eight class names provided in testimony correlate to four rate classes in E-5 as shown below.

Testimony	Schedule E-5	Rate Class
RS-RHP	RGHP	Residential Heat Pump
RTP	RGHP	Residential Transportation Heat Pump
CS-GHP	CGHP	Commercial Heat Pump
CTP	CGHP	Commercial Transportation Heat Pump
CS-SG	CSG	Commercial Standby Generator
CTG	CSG	Commercial Transportation Standby Generator
CSLS	CSLS	Commercial Street Lighting
CSLT	CSLS	Commercial Transportation Street Lighting

Peoples' 2023 Rate Case (Docket No. 20230023-GU)

	2024 Test Year		
	Forecast	**Actual (non-weather normalized)**	**Percent Difference**
Customers	496,809	508,285	2.31%
Total Therm Sales (000)	1,713,916	2,030,081	18.45%

Actual EOY customers in 2021 exceeded forecasts by 3.30 percent due to the unexpected increase in home buying during the COVID-19 pandemic. While Residential therm sales slightly increased during the COVID-19 pandemic, Small Commercial and Large customers' therm sales significantly declined, equating to a (9.86 percent) variance to forecast.

Actual EOY customers in 2024 exceeded forecasts due to Florida home buying diverging from economic outlooks. Peoples continued to experience strong customer growth through 2024. Total therm sales were 18.45 percent above forecast primarily due to higher Large Customer usage and favorable weather above the 10-year normal.

PEOPLES GAS SYSTEM, INC.
DOCKET NO. 20250029-GU
STAFF'S SECOND SET OF INTERROGATORIES
INTERROGATORY NO. 14
BATES PAGE(S): 17807 - 17808
MAY 19, 2025
REVISED: JUNE 20, 2025

Peoples' 2023 Rate Case (Docket No. 20230023-GU)

	2024 Test Year		
	Forecast	**Actual (non-weather normalized)**	**Percent Difference**
Customers	496,809	508,285	2.31%
Total Therm Sales (000)	1,713,916	2,030,081	18.45%

Actual EOY customers in 2021 exceeded forecasts by 3.30 percent due to the unexpected increase in home buying during the COVID-19 pandemic. While Residential therm sales slightly increased during the COVID-19 pandemic, Small Commercial and Large customers' therm sales significantly declined, equating to a (9.86 percent) variance to forecast.

Actual EOY customers in 2024 exceeded forecasts due to Florida home buying diverging from economic outlooks. Peoples continued to experience strong customer growth through 2024. Total therm sales were 18.45 percent above forecast primarily due to higher Large Customer usage. When broken out by category, actual Residential therm sales were -3.73 percent below forecast, Small Commercial therm sales were -5.76 percent below forecast, and Large Customer therm sales were 26.73 percent above forecast. Residential therm sales were below forecast due to using 20-year normal weather in 20230023-GU and actual weather being closer to 10-year normal, as shown in Document 4 of witness Fox's exhibit. Small Commercial sales were below forecast primarily due to customer usage not returning to pre-pandemic levels, but also due to using 20-year normal weather in 20230023-GU and actual weather being closer to 10-year normal, as shown in Document 4 of witness Fox's exhibit.

BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION

In re: Petition for Rate Increase by Peoples Gas System, Inc.	DOCKET NO. 20250029-GU FILED: May 27, 2025

PEOPLES GAS SYSTEM, INC.'S ANSWERS TO STAFF'S THIRD SET OF INTERROGATORIES (NOS. 15-23)

Pursuant to Rule 106.206, Florida Administrative Code, and Florida Rule of Civil Procedure 1.350, Peoples Gas System, Inc. ("Peoples" or the "company"), hereby answers The Staff of the Florida Public Service Commission's ("Staff") Third Set of Interrogatories (Nos. 15-23), served May 6, 2025 ("Staff's Third Interrogatory").

General Objections

1. Peoples objects to each interrogatory in Staff's Third Interrogatory ("Set") to the extent that it seeks information that is duplicative, not relevant to the subject matter of this docket, and is not reasonably calculated to lead to the discovery of admissible evidence.

2. Peoples objects to each Set to the extent it is vague, ambiguous, overly broad, imprecise, or utilizes terms that are subject to multiple interpretations but are not properly defined or explained for purposes of such Set. Peoples will seek clarification from Staff if a Set is not clear, but Peoples will produce documents subject to, and without waiving, this objection.

3. Peoples objects to each Set to the extent it requires Peoples to produce information that is already in the public record before the Florida Public Service Commission ("FPSC" or the "Commission") or other public agency and available to Staff through normal procedures or is readily accessible through legal search engines.

4. Peoples objects to each Set to the extent that it calls for data or information protected by the attorney-client privilege, the work product doctrine, the accountant-client

FPSC EXH NO. 77
ADMITTED

privilege, the trade secret privilege, or any other applicable privilege or protection afforded by law. Peoples will describe the nature of the privileged material, if any, in a privilege log that will accompany its responses.

5. Peoples objects to producing paper copies on the grounds that doing so would be unduly burdensome.

6. Peoples objects to each Request to the extent it requires the company to provide information that it believes is "proprietary confidential business information" as described in Section 366.093, Florida Statutes.

7. Peoples objects to each Set, instruction, or definition in that purports to expand Peoples' obligations under applicable law.

8. Peoples objects to each Set to the extent it requests Peoples to prepare information in a particular format or create data or information that it otherwise does not possess as unduly burdensome and as purporting to expand Peoples' obligations under applicable law.

9. Subject to Section 366.093(1), Florida Statutes, Peoples objects to any definition or Set that requests documents from persons or entities who are not parties to this proceeding, that seek information from affiliates unrelated to transactions or cost allocations involving Peoples, or that are not otherwise subject to discovery under applicable rules.

10. Peoples objects to any Set requiring the company to provide additional information beyond that obtained through a reasonable and diligent search.

General Response

Subject to and without waiving its general objections, which are incorporated by reference in each of its specific answers, Peoples will serve its answers to the Commission staff by hand delivering a USB containing its answers to the Commission Clerk's office, and for Staff's

FPSC EXH NO. 77
ADMITTED

purposes, the term "USB" should be substituted for "SharePoint" in the specific answers shown below.

The company's specific answers will identify interrogatories that call for answers that contain (a) information for which the company asserts a legal privilege and/or (b) "proprietary confidential business information" as defined in Section 366.093, Florida Statutes.

An answer that contains information for which the company asserts a legal privilege will be identified in the privilege log attached as Exhibit A.

An answer that contains information the company asserts to be "proprietary confidential business information" will be provided in the Confidential portion of the SharePoint subject to a request for confidential classification, motion for temporary protective order and/or a non-disclosure agreement.

Specific Answers

PEOPLES GAS SYSTEM, INC.
DOCKET NO. 20250029-GU
STAFF'S THIRD SET OF INTERROGATORIES
INTERROGATORY NO. 15
BATES PAGE(S): 17809 - 17811
MAY 27, 2025

15. Refer to MFR Schedule E-1, page 5 of 6, for the Projected Test Year ending 12/31/2026. Lines 49 through 63 identify each Service Charge and a detailed breakdown (number, charge, and revenue) of how the $14,654,277 amount was calculated, based on the adjusted present rates.

a. For each of the years 2019 through 2024 (actual) and 2025 (projected), please provide similar data (a detailed breakdown by number, charge, and revenue amounts for each identified Service Charge) presented in Excel spreadsheet format with the cells unlocked and formulas intact.

b. For each Service Charge subcategory, please explain the extent to which the 2026 projections of units (number) were based on historical data, observable trends, expected future conditions, and/or specific contractual terms, and describe the rationale for the forecasting approach used.

c. Please describe the extent to which economic conditions and expected changes in customer behavior were factored into the 2026 unit projections for each Service Charge subcategory.

d. For any Service Charge subcategory where the 2026 forecasted revenue differs by more than 15% from the 2024 actual revenue, please identify the subcategory and provide a detailed explanation of the factors contributing to the variance.

e. Please explain the Service Charge "Amortization/Maintenance" on line 61 and state why the projected amount is shown as a negative.

ANSWER:

a – d. Peoples is answering this interrogatory in full by producing records as allowed under Florida Rule of Civil Procedure 1.340(c); the records reflecting number of customers by rate class are provided in the folder entitled "ROG_3_15" and will be posted on the Consumer Party SharePoint Site or provided via USB.

FPSC EXH NO. 77
ADMITTED

e. The service charge labeled "Amortization/Maintenance" on line 61 represents the amortization of a contractual adjustment made with a customer in 2017. This adjustment was deemed necessary and beneficial for all customers. The amortization period spans the life of the agreement, from 2017 to 2030. The negative amount remains consistent throughout the contract period, impacting revenue as a reduction to the net revenue from the customer over the duration of the agreement. The amount is recorded in FERC Account 495 – Other Gas Revenue.

Where Gas Service is established outside of normal business hours, by special appointment, or same day service the charges set forth above multiplied by 1.5.

Variance Explanations:

1. Trip Charges apply when a PGS employee or agent make a trip to Customer's premise for the purpose of terminating gas service or providing final notice of termination for nonpayment of bills. Expected the 2024 unually low amount to increase in 2025/2026, however year to date 2025 is also trending low.

2. The returned check charge activity is uncertain and can vary with the economy, storm activity and/or higher bills due to cold weather and/or rates.

3. The increase in rent revenue is due to rent from affiliates: TECO Partners (TPI) and SeaCoast (SGT). Beginning mid 2025, PGS will move to the new corporate headquarters, and begin charging rent to TPI and SeaCoast. In 2024, PGS does not own the headquarter building.

4. 2024 Other miscellaneous revenue increase of $41,564 assumes typical revenue in 2025.

16. Refer to witness Andrew Nichols' Exhibit No. AN-1, Document No. 9, and to the specific testimony references in subparts below.

a. Please refer to the Direct Testimony of Andrew Nichols, page 24, lines 3-7, which states that the budgeted amount of Off System Sales ("OSS") margin net revenue for 2026 was "based on expected market conditions and historical trends." Please identify and describe the specific market conditions and historical trends that informed the 2026 OSS net margin forecast of $2.6 million.

b. Please refer to the Direct Testimony of Andrew Nichols, page 68, lines 15-22. Please provide natural gas price spreads for 2019 through 2024 and projections of such spreads for 2025 and 2026.

c. Please refer to the Direct Testimony of Andrew Nichols, page 69, lines 3-17, which discusses a request by the utility to modify the OSS sharing mechanism from its current basis of 75/25 to a 50/50 basis. If the proposed change to the OSS sharing mechanism is approved, please quantify the impact of the reduction to the utility's requested 2026 revenue requirement.

d. Please indicate whether the Company considered presenting alternative OSS net margin forecasts for 2025 and 2026 reflecting the 50/50 revenue sharing proposal in Docket No. 20250026-GU and explain the rationale for the approach taken.

e. Identify and compare January-April 2025 OSS revenue to January–April 2024 OSS revenue for the same number of months. Please indicate whether the moderation of such revenues contemplated in witness Nichols direct testimony, Page 68, Lines 15-22 has begun.

f. For each of the years 2019 through 2023, please provide the OSS margin revenue. Explain any year-to-year increases or decreases greater than 10 percent.

PEOPLES GAS SYSTEM, INC.

STAFF'S THIRD SET OF INTERROGATORIES
INTERROGATORY NO. 16
BATES PAGE(S): 17812 - 17816
MAY 27, 2025

ANSWER:

a. Due to the sporadic and opportunistic nature of OSS transactions and dependence on natural gas supply and market conditions, forecasting OSS revenue is difficult. OSS revenue cannot simply be predicted based on historical data. The company's budgeted OSS revenues for 2026 are based upon forecasted sales quantity times the forecasted FGT Zone 3 / Market Area delivery locational basis. The company's budgeted OSS revenues for the projected test year do not consider any events like Winter Storm Uri (February 2021), leading to market disruption. The forecasted FGT Zone 3 / Market Area delivery locational basis is calculated based on market conditions at the time of the forecast. The forecasted sales quantity is estimated based on historical quantities adjusted for known sales transactions that may be in place at the time of the forecast.

The company considers its OSS revenue to be based on weather and market conditions. OSS revenue is contingent on the quantity of available capacity and commodity supply the company has available for sale in the spot market. This amount is dependent on the company's system load obligations which vary based on weather and system balancing requirements. OSS revenue is also contingent on the magnitude of sales margins which vary based on market conditions at the company's points of supply receipts and points of delivery within Florida. Market conditions will be impacted by supply and demand balances as well as the prevailing load factor of the delivery pipelines.

b. The natural gas price yearly average spread between Henry Hub and FGT Zone 3 for 2019 through 2024 based on historical prices.

Year	FGT Zone 3 minus Henry Hub
2019	$0.01
2020	$0.03
2021	$0.06
2022	$0.53
2023	$0.21
2024	$0.32

PEOPLES GAS SYSTEM, INC.
DOCKET NO. 20250029-GU
STAFF'S THIRD SET OF INTERROGATORIES
INTERROGATORY NO. 16
BATES PAGE(S): 17812 - 17816
MAY 27, 2025

The natural gas price forecasted yearly average spread between the Henry Hub and FGT Zone 3 for 2025 and 2026 as of December 24, 2024, based on futures price.

Year	FGT Zone 3 minus Henry Hub
2025	$0.69
2026	$0.84

c. If the proposed change to the OSS sharing mechanism proposed by the company in Docket No. 20250026-GU is approved, the impact of the reduction to the utility's requested 2026 revenue requirement would be $2,666,790. This amount was calculated by doubling the OSS margin retained by the company from the $2,645,888 (25 percent) to $5,291,775 (50 percent), then multiplying the difference by the Net Operating Income multiplier of 1.0079 (only Regulatory Assessment Fee and Bad Debt impacts in NOI multiplier).

d. No. The company did not consider presenting alternative OSS net margin forecasts for 2025 and 2026 reflecting the 50/50 revenue sharing proposal in Docket No. 20250026-GU because the Commission's decision on this docket was not reached prior to the company's rate case filing. If the Commission were to approve the 50/50 sharing mechanism in Docket No. 20250026-GU prior to the conclusion of this rate case, the company would submit an adjusted base rate revenue requirement.

e. See the table below with the total OSS net revenue for the period January through April of 2024 and 2025. As shown in this table, the moderation assumed in the 2025 budget has not yet occurred.

PEOPLES GAS SYSTEM, INC.
Total Off-System Sales Margin Revenue by Month

	Total Sales	Company's Margin (25%)
Jan – Apr 2024	$9,199,084	$837,257
Jan – Apr 2025	$22,050,565	$2,885,604

MAY 27, 2025

f. See the table below with OSS margin by year for 2019 through 2023 and the respective year-to-year increase or decrease.

PEOPLES GAS SYSTEM, INC.
Off-System Sales Margin Revenue

Year	Average Spot Price	OSS Sales Volume (Therms)	Total OSS Net Revenue (Margin)	Margin Offset to PGA Clause (75%)	Company's Margin (25%)	Yr-Over-Yr Change in Margin
2019	$2.57	186,089,670	$5,250,855	$3,938,141	$1,312,714	
2020	$2.03	114,559,300	$4,160,930	$3,120,698	$1,040,233	-21%
2021	$3.91	47,009,340	$4,082,844	$3,062,133	$1,020,711	-2%
2022	$6.42	108,650,280	$17,840,585	$13,380,439	$4,460,146	337%
2023	$2.54	75,220,070	$10,770,429	$8,077,822	$2,692,607	-40%

2020 versus 2019 (-21%): The 21 percent decrease in 2020 compared to 2019 was likely due to a mild winter which reduced heating demand and reduced electric generation due to the global COVID-19 Pandemic. The lower demand in 2020 drove natural gas pricing down and led to a smaller spread between market pricing and the company's available capacity. This decreased spread leads to less opportunities for OSS.

2021 versus 2020 (-2%): Less than a 10 percent increase or decrease year-over-year.

2022 versus 2021 (337%): The 337 percent increase in 2022 compared to 2021 was likely due to the volatile natural gas pricing impacted by rising conflict in Europe and increased foreign demand. This increased foreign demand drove up natural gas pricing and an increased spread between market pricing and the company's available capacity. This increased spread leads to more opportunities for OSS.

2023 versus 2022 (-40%): The 40 percent decrease in 2023 was likely due to decreased heating demand driven by warmer than average temperatures. The

17. Please complete the chart below as a means to provide a like comparison of PGS' selected forecast at the time it was prepared (Moody's Analytics May 2024 forecast of projected CPI for 2025 and 2026) with the most current version of the same forecast from the same source as the original (i.e., a forecast of projected CPI for 2025 and 2026 from Moody's Analytics based upon the most current data available).

Moody's Analytics' forecasts of projected CPI for 2025 and 2026

Forecast Period	May 2024	April 2025
2025	2.50%	
2026	2.33%	

ANSWER:

See the table below showing the most current version of Moody's Analytics forecast of projected CPI for 2025 and 2026 as compared to the May 2024 forecast used in the company's budgets. The update reflects greater increases in CPI than that assumed in the company's budgets for 2025 and 2026.

Moody's Analytics' forecasts of projected CPI for 2025 and 2026:

Forecast Period	May 2024	April 2025
2025	2.50%	[redacted]
2026	2.33%	

In addition, the State's National Economic Estimating Conference February 2025 update has also increased its 2025 and 2026 forecast for CPI to 2.7 percent and 3.0 percent from the 2.4 percent forecasted for both years in July 2024, as referenced in witness Andrew Nichols' Direct Testimony, page 27, lines 9-14.

STAFF'S THIRD SET OF INTERROGATORIES
INTERROGATORY NO. 18
BATES PAGE(S): 17818 - 17822
MAY 27, 2025

18. Please refer to Schedule G-2, page 12a of 31. PGS identifies five types of trend factors and their rates.

a. The schedule indicates that Trend Factor #2, Customer Growth times Pay Change, and the standalone Customer Growth trend factor, are not used in MFR Schedule G-2 for purposes of calculating test year expenses. Please explain why.

b. The schedule reflects that the Trend Factor #3, the Customer Growth times Inflation trend factor, was applied to significantly more account numbers than Trend Factor #4, the Inflation Only trend factor. Please explain the justification or rationale for applying the Customer Growth times Inflation trend factor to more account numbers, compared to the use of the Inflation Only trend factor, where applied.

ANSWER:

a. The company has listed the same four trend factors plus Customer Growth on MFR Schedule G-2, page 12 used in calculating the test year expenses since its 2002 rate case in Docket No. 020384-GU. In Docket No. 020384-GU and Docket No. 080318-UG, the company used Trend Factor #2, Customer Growth times Pay Change for "Payroll trended" amounts on several FERC accounts that are driven by customer growth. Starting in Docket No. 20200051-GU, the company stopped using the Trend Factor #2 for "Payroll trended". Instead, the company applied payroll cost changes through trending payroll using Trend Factor #1, Payroll Only (or "Pay Change") plus specifically identified added or replacement positions included in the "Payroll not trended" line item. This practice was used again in Docket No. 20230023-GU and has been continued in this case with "Payroll not trended" detailed by FERC account on MFR Schedule G-2, pages 19c-19e.

In this rate case and in all prior cases referenced, the standalone Customer Growth is shown on MFR Schedule G-2 for informational purposes to explain the amounts used in calculating Trend Factors #2 and #3 (Customer

BATES PAGE(S): 17818 - 17822
MAY 27, 2025

Growth X Inflation). Customer Growth as a standalone trend factor is typically not used as inflation affects the calculation of test year expenses.

b. Since the 2002 rate case in Docket No. 020384-GU, "Other trended" amounts for Distribution Expenses, Customer Accounts Expenses, and Sales Expense FERC accounts in the company's approved revenue requirements were calculated using inflation and customer growth via Trend Factor #3, except for certain exceptions determined by inflation only through Trend Factor #4. The exceptions were FERC Account 876 - Measuring and Regulating Station Equipment - Industrial, Account 881 - Rents, Account 890 - Maintenance of Measuring and Regulating Station Equipment - Industrial, and Account 913 - Advertising. These items were determined to be inflation only driven as these items are specifically Industrial customer-related or not customer facing expenses and therefore not driven by customer growth. The only A&G Expense FERC account that has been calculated in the 2026 test year using Trend Factor #3 is FERC Account 921, Office Supplies and Expenses, as it includes the operational service areas' expenses that are customer facing and generally are driven by customer growth. All other A&G FERC accounts have been calculated using inflation only ("Trend factor #4) for the "Other trended" line item.

The table on the following three pages shows the trend factors applied in calculating the test year expenses by FERC account in the company's prior cases starting in Docket No. 020384-GU that were included in the Commission approved revenue requirements as compared with the trend factors applied in this filing, Docket No. 20250029-GU.

STAFF'S THIRD SET OF INTERROGATORIES
INTERROGATORY NO. 19
BATES PAGE(S): 17823 - 17824
MAY 27, 2025

19. Please refer to Schedule G-2, page 12a of 31, FERC account 875 (Measuring and Regulation Station Expenses – General). Line 42 shows the Other Trended amount of $192,828 for the non-payroll expense for the PGS base year.

a. Please explain why the utility applied Trend Factor #3, the Customer Growth times Inflation trend factor, to the non-payroll expenses for FERC account 875.

b. Please provide a reason for the unexpected increase in the non-payroll, trended amount of $192,828 for the PGS base year, considering $11,849 was the amount that was forecasted for the projected test year for this account in the company's 2023 rate case (Schedule G-2, page 12c of 31, FERC account 875 Docket No. 20230023).

ANSWER:

a. Please refer to the Company's response to Staff's Interrogatory No. 18, part b, for the history of and reasoning for applying Trend Factor #3, the Customer Growth times Inflation trend factor, to the non-payroll expenses for FERC Account 875. Starting in Docket No. 20200051-GU, the company determined that the non-payroll expenses for FERC Account 875 (Measuring and Regulating Station Expense – General) should be trended using the same trend factor being applied to FERC Account 889 (Maintenance of Measuring and Regulating Station Equipment – General). Therefore, for consistency, both FERC accounts 875 and 889 applied Trend Factor #3 Customer Growth times Inflation trend factor in determining the test year expense.

b. In 2023, Peoples completed the construction and interconnection of the New River and Brightmark renewable natural gas facilities. During the development of the budgets that supported the company's rate case filing in Docket No. 20230023-GU, the increases in 2024 test year O&M expense related to these facilities was not identified and budgeted on Schedule G-2, page 12c of 31, FERC account 875.

BATES PAGE(S): 17823 - 17824
MAY 27, 2025

In 2024, the company began to operate the measuring and regulation stations at these biogas interconnections and the cost associated with these activities accounted for the increase in non-payroll expense in FERC Account 875 as noted below.

Brightmark	$132,218
New River	35,140
All other non-payroll	25,470
Total FERC 875 Non-payroll	**$192,828**

PEOPLES GAS SYSTEM, INC.
DOCKET NO. 20250029-GU
STAFF'S THIRD SET OF INTERROGATORIES
INTERROGATORY NO. 20
BATES PAGE(S): 17825
MAY 27, 2025

20. Please refer to Schedule G-2, page 12c of 31, FERC account 890 (Maintenance of Measuring and Regulating Station Equipment – Industrial). Line 27 shows the Other Trended amount of $496,326 for the non-payroll expense for the PGS base year.

a. Please explain why the utility applied Trend Factor #4, the Inflation Only trend factor, to the non-payroll expenses for FERC account 890.

b. Please provide a reason for unexpected increase in the non-payroll, trended amount of $496,326 for the PGS base year, considering $266,560 was the amount that was forecasted for the projected test year for this account in the company's 2023 rate case (Schedule G-2, page 12c of 31, FERC account 890, Docket No. 20230023).

ANSWER:

a. Please refer to the Company's response to Staff's Interrogatory No. 18, part b, for the history of and reasoning for applying Trend Factor #4, the Inflation Only trend factor, to the non-payroll expenses for FERC account 890. FERC account 890 is specific to industrial customers only and therefore Trend Factor #4, the Inflation Only trend factor, was applied to the non-payroll expenses.

b. After the company's rate case filing in 2023 there was an unexpected increase in non-payroll for FERC Account 890 related to specialized field meter testing and repairs performed by contractors.

PEOPLES GAS SYSTEM, INC.
DOCKET NO. 20250029-GU
STAFF'S THIRD SET OF INTERROGATORIES
INTERROGATORY NO. 21
BATES PAGE(S): 17826
MAY 27, 2025

21. Please refer to Schedule G-2, page 14 of 31, FERC account 903 (customer records and collection expenses). Line 12 shows the Other Trended amount of $5,197,289 for the PGS base year. Please explain why the utility applied Trend Factor #3, the Customer Growth times Inflation trend factor, to the Other Trended expenses for FERC account 903. Include in your response how the utility apportioned the total expense amount for this account among the various trending/non-trending factor categories.

ANSWER:

Please refer to the Company's response to Staff's Interrogatory No. 18, part b, for the history of and reasoning for applying Trend Factor #3, the Customer Growth times Inflation trend factor, to the Other Trended expenses for FERC account 903. FERC account 903 includes customer facing expenses that are driven by customer growth and Trend Factor #3 has been consistently applied to the "Other trended" amount in all prior cases going back to Docket No. 020384-GU. The total non-payroll amount in FERC account 903 in 2024 was $7,385,360. After removing the "Other Not Trended" amount of $2,188,071 for the Customer Relationship Management Billing ("CRMB") Asset Usage Fee that is shown on MFR Schedule G-2, page 19b, line 12, the total non-payroll amount is $5,197,289. The $5,197,289 amount is trended forward by Trend Factor #3, the Customer Growth times Inflation trend factor, to calculate the Other Trended expense amount of $5,864,462 for the 2026 test year.

For the 2026 test year, the Other Not Trended amounts include two items apportioned separately on MFR Schedule G-2, page 19b. First, the previously mentioned CRMB Asset Usage Fee shown on line 12. Second, shown on line 11, the increased distribution to Peoples of shared Customer Experience O&M expenses from 30 percent to 37 percent, which accounts for the company's current customer count. The remaining apportionment of FERC account 903 expenses are the 2024 Payroll trended amounts trended forward to the 2026 test year using Trend Factor #1, Payroll Only, and the Payroll not trended specifically identified added positions apportioned separately on MFR Schedule G-2, page 19d.

BATES PAGE(S): 17827 - 17828
MAY 27, 2025

22. Please refer to the direct testimony of Andrew Nichols, page 25, lines 4-11, where the witness states, in part, "I have prepared a comparison of the two O&M methodologies and included it as Document No. 3 of my exhibit."

a. Line 16 of Document 3 reflects minor differences (on a percentage basis) in budget methodology versus the trending methodology. Please detail what the difference in calculations are between the two different O&M expense methodologies.

b. Compare the method for calculating O&M expenses under the budget methodology versus the trend factor methodologies. Please describe the primary differences.

ANSWER:

a. The difference in calculations between the two different O&M expense budget methodologies is described below in response to Part b, where the method for each budget methodology is compared, including a description of the differences in calculations.

b. Consistent with the company's prior rate case filings, the company has prepared the required FERC account based O&M budget MFR Schedule G-2, page 12-19 using the trending factors applied in the calculations from the base year, and adjusting for certain items where the trend factors did not capture the projected changes in O&M expense by detailing "Not trended" items within each FERC account. The Excel version of MFR Schedule G-2, page 12-19 includes the calculations used to produce the projected test year O&M expense by FERC account. The FERC account based budget shown on MFR Schedule G-2, page 12-19 is aligned within a small difference to the company's cost center level approach budget that is developed by resource type (payroll, benefits, materials and supplies, outside services, etc.) using the underlying inflation assumption from Moody's Analytics, customer growth assumptions included in the revenue forecast and the payroll increase assumption. The company budgeted payroll expenses by position and allocated those payroll costs between

PEOPLES GAS SYSTEM, INC.

O&M, capital expenditures, clause recoverable, and charges to affiliates as appropriate. The company budgeted other resource types by cost center based on projected activity levels and requirements. The cost center level O&M budget by resource and by position is captured in the company's EPM system.

The two budgets are then reconciled within a small difference as shown in Document No. 3 to Exhibit AN-1. This process of aligning the and the budget using a cost center level approach and a FERC account-based approach, that includes trend factors for ratemaking purposes, has been used in the development of test year revenue requirements approved by the Commission going back to at least Docket No. 020384-GU.

In re: Petition for Rate Increase by Peoples Gas System, Inc.	DOCKET NO. 20250029-GU FILED: May 27, 2025

PEOPLES GAS SYSTEM, INC.'S ANSWERS TO STAFF'S FOURTH SET OF INTERROGATORIES (NO. 24)

Pursuant to Rule 106.206, Florida Administrative Code, and Florida Rule of Civil Procedure 1.350, Peoples Gas System, Inc. ("Peoples" or the "company"), hereby answers The Staff of the Florida Public Service Commission's ("Staff") Fourth Set of Interrogatories (No. 24), served May 7, 2025 ("Staff's Fourth Interrogatory").

General Objections

1. Peoples objects to each interrogatory in Staff's Fourth Interrogatory ("Set") to the extent that it seeks information that is duplicative, not relevant to the subject matter of this docket, and is not reasonably calculated to lead to the discovery of admissible evidence.

2. Peoples objects to each Set to the extent it is vague, ambiguous, overly broad, imprecise, or utilizes terms that are subject to multiple interpretations but are not properly defined or explained for purposes of such Set. Peoples will seek clarification from Staff if a Set is not clear, but Peoples will produce documents subject to, and without waiving, this objection.

3. Peoples objects to each Set to the extent it requires Peoples to produce information that is already in the public record before the Florida Public Service Commission ("FPSC" or the "Commission") or other public agency and available to Staff through normal procedures or is readily accessible through legal search engines.

4. Peoples objects to each Set to the extent that it calls for data or information protected by the attorney-client privilege, the work product doctrine, the accountant-client

FPSC EXH NO. 78
ADMITTED

privilege, the trade secret privilege, or any other applicable privilege or protection afforded by law. Peoples will describe the nature of the privileged material, if any, in a privilege log that will accompany its responses.

5. Peoples objects to producing paper copies on the grounds that doing so would be unduly burdensome.

6. Peoples objects to each Request to the extent it requires the company to provide information that it believes is "proprietary confidential business information" as described in Section 366.093, Florida Statutes.

7. Peoples objects to each Set, instruction, or definition in that purports to expand Peoples' obligations under applicable law.

8. Peoples objects to each Set to the extent it requests Peoples to prepare information in a particular format or create data or information that it otherwise does not possess as unduly burdensome and as purporting to expand Peoples' obligations under applicable law.

9. Subject to Section 366.093(1), Florida Statutes, Peoples objects to any definition or Set that requests documents from persons or entities who are not parties to this proceeding, that seek information from affiliates unrelated to transactions or cost allocations involving Peoples, or that are not otherwise subject to discovery under applicable rules.

10. Peoples objects to any Set requiring the company to provide additional information beyond that obtained through a reasonable and diligent search.

General Response

Subject to and without waiving its general objections, which are incorporated by reference in each of its specific answers, Peoples will serve its answers to the Commission staff by hand delivering a USB containing its answers to the Commission Clerk's office, and for Staff's

FPSC EXH NO. 78
ADMITTED

purposes, the term "USB" should be substituted for "SharePoint" in the specific answers shown below.

The company's specific answers will identify interrogatories that call for answers that contain (a) information for which the company asserts a legal privilege and/or (b) "proprietary confidential business information" as defined in Section 366.093, Florida Statutes.

An answer that contains information for which the company asserts a legal privilege will be identified in the privilege log attached as Exhibit A.

An answer that contains information the company asserts to be "proprietary confidential business information" will be provided in the Confidential portion of the SharePoint subject to a request for confidential classification, motion for temporary protective order and/or a non-disclosure agreement.

24. Please refer to the direct testimony of Timothy O'Connor beginning on page 43 lines 11-20. Of the 72 new positions being sought for approval to add, how many of those are previously approved positions that were not filled?

ANSWER:

In his Direct Testimony, Witness O'Connor details 83 new positions Peoples is seeking approval for - 72 positions in Gas Operations and 11 in Pipeline Safety. Of the 72 new positions in Gas Operations, 11 were previously approved by the Commission in the company's 2023 Rate Case and were not filled as originally requested. Of the 11 previously approved positions not filled, the company repurposed and filled five positions with a changed location or changed position title to meet the specific operational needs of our service areas. Therefore, the company has not hired six of the previously approved positions and these six are part of the current request.

25. Please refer to the direct testimony of witness Nichols, page 44, lines 16 through 18, and Exhibit No. AN-1, Document No. 6. Please provide the results of the CPVRR analysis in Microsoft Excel format with formulas intact.

ANSWER:

Peoples is answering this interrogatory in full by producing records as allowed under Florida Rule of Civil Procedure 1.340(c); the records reflecting number of customers by rate class are provided in the folder entitled "ROG_5_25" and will be posted on the Consumer Party SharePoint Site or provided via USB.

PEOPLES GAS SYSTEM, INC.
DOCKET NO. 20250029-GU
STAFF'S FIFTH SET OF INTERROGATORIES
INTERROGATORY NO. 26
BATES PAGE(S): 17879-17881
JUNE 4, 2025

Please refer to the direct testimony of witness Richard for the following questions.

26. Please refer to page 29, lines 10 through 17, and Exhibit No. CR-1, Document No. 4. For each of the Growth and Reliability, Resiliency, and Efficiency (RRE) projects, please provide a table listing the contractors who provided bids, the proposed project cost, and an explanation of why each contractor's bid was selected or dismissed. If the least cost bidder was not selected, please explain why.

ANSWER:

Peoples is answering this interrogatory in part by producing records as allowed under Florida Rule of Civil Procedure 1.340(c). A portion of the company's response includes proprietary, confidential business information. It will be made available subject to a Motion for Protective Order or Request for Confidential Classification filed contemporaneously with this response by posting these documents to the Confidential Section of the SharePoint site or via USB in the folder entitled "CONF_ROG_5_26". The table reflects the contract bidders, proposed project costs, and why bids were selected or not for Growth and RRE specific projects budgeted in 2025 and 2026.

In the file identified above, numerous projects are noted where the use of blanket contractors is documented. Blanket contractors and corresponding contracts are utilized for all types of distribution work. This includes new main and service installations, main and service replacements, and most other distribution construction capital activities. Peoples bid five-year blanket contracts in 2020 & 2021 and selected the lowest bid price. These long-term contracts enable economies of scale, fixed unit rates, and enhance the efficiency of project execution. This continuity of highly skilled labor, combined with Operator Qualification (OQ) programs and our contractor management program, drive safe, compliant, quality installations at a prudent price. Blanket contracts are up for bid in 2025.

Please see the table below for the explanation of the blanket contractor bids in 2020 and 2021.

Growth	New Revenue Mains	Eagle Creek - Heritage Stn Res Dev	$ 900,000	$ -	Blanket Contract Rates Utilized - See Written Response to ROG 26 for additional information.	To serve an estimated 960 new residential customers	Install 22,000' of 6" Plastic Development Main. See written response to ROG 41b for additional information.	Oct 2024	Jul 2025	Engineering: 16 weeks - Complete Materials: 12 weeks - Complete Construction: 24 weeks - In Progress	$256,175	$558,000	$54,000	$31,825	$900,000	Project utilizesthe most direct and least impactful route from existing supporting main and is the least cost alternative combined with consideration for Safety and Reliability.	Will serve 960 Customers - Capital Supported by New Customers.	If project is completed, the company would not be able to recover on this investment. If the project is not completed, the company would not be able to serve customers consistent with its obligation to serve per the tariff.
Growth	New Revenue Mains	Governor's Park Expansion	$ -	$ 47,526	Anticipate Utilization of Blanket Rates	To serve an estimated 3,000 new residential customers	Install 6,000' of 6" Steel Supply Main. See written response to ROG 41b for additional information.	Jan 2026	Jun 2027	Engineering: 16 weeks - Not Started Materials: 4 weeks - Not Started Construction: 40 weeks - Not Started	$0	$47,526	$0	$0	$47,526	Project will utilize the most direct route from existing supporting main and is the least cost alternative combined with consideration for Safety and Reliability, once project scope is reestablished as the parcels were sold to a different developer.	Potential to serve 3,000 Residential Customers- Capital Supported by New Customers.	If project is completed, the company would not be able to recover on this investment. If the project is not completed, the company would not be able to serve customers consistent with its obligation to serve per the tariff.
Growth	New Revenue Mains	Hammock Oaks Residential Dev Ph II	$ 150,109	$ 85,570	Blanket Contract Rates Utilized - See Written Response to ROG 26 for additional information.	To serve an estimated 215 new residential customers	Install 15,000 of 2" PE Development Main See written response to ROG 41b for additional information.	Oct 2025	Mar 2026	Engineering: 4 weeks - Complete Materials: 3 weeks - Complete Construction: 3 weeks - Not Started	$47,136	$153,191	$23,568	$11,784	$235,679	Project utilizes the most direct route from existing supporting main and is the least cost alternative combined with consideration for Safety and Reliability.	Project will serve 215 Residential Customers- Capital Supported by New Customers.	If project is completed, the company would not be able to recover on this investment. If the project is not completed, the company would not be able to serve customers consistent with its obligation to serve per the tariff.
Growth	New Revenue Mains	Hammock Oaks Residential Dev Ph III	$ -	$ 85,571	Blanket Contract Rates Utilized - See Written Response to ROG 26 for additional information.	To serve an estimated 215 new residential customers	Install 15,000' of 2" PE Development Main. See written response to ROG 41b for additional information.	Sep 2026	Jun 2027	Engineering: 4 weeks - Complete Materials: 3 weeks - Complete Construction: 3 weeks - Not Started	$17,114	$55,621	$8,557	$4,279	$85,571	Project utilizes the most direct route from existing supporting main and is the least cost alternative combined with consideration for Safety and Reliability.	Project will serve 215 Residential Customers- Capital Supported by New Customers.	If project is completed, the company would not be able to recover on this investment. If the project is not completed, the company would not be able to serve customers consistent with its obligation to serve per the tariff.
Growth	New Revenue Mains	Main-Avalon Park	$ -	$ 310,049	Anticipate Utilization of Blanket Rates	To serve an estimated 3,000 new residential customers	See written response to ROG 41b for additional information.	Mar 2026	Dec 2030	Engineering: 16 weeks - Not Started Materials: 4 weeks - Not Started Construction: 52 weeks - Not Started	$190,049	$120,000	$0	$0	$310,049	Project will utilize the most direct route from existing supporting main and is the least cost alternative combined with consideration for Safety and Reliability, once project scope is reestablished as the parcels were sold to a different developer.	Project will serve 3,000 Residential Customers- Capital Supported by New Customers.	If project is completed, the company would not be able to recover on this investment. If the project is not completed, the company would not be able to serve customers consistent with its obligation to serve per the tariff.
Growth	New Revenue Mains	Main-Cemex Brooksville South Plant	$ 2,000,000	$ 4,133,532	Anticipate bidding in Q2 or Q3 of 2026.	To serve a new industrial customer	Pipeline to a large industrial customer. the exact footage of pipe to be install is yet to be determined. See written response to ROG 41b for additional information.	Feb 2025	Dec 2026	Contract negotiation:36 weeks - In Progress Engineering: 16 weeks - Not Started Materials: 10 weeks - Not started Construction: 26 weeks - Not started	$1,250,000	$4,250,000	$280,000	$353,532	$6,133,532	Based on multiple hydraulic scenarios and preliminary engineering, it is the opinion of the engineering and design teams that this solution is the most cost effective. See written response to ROG 41f for additional information.	Capital supported by customer backed agreement	If project is completed, the company would not be able to recover on this investment. If the project is not completed, the company would not be able to serve customers consistent with its obligation to serve per the tariff.
Growth	New Revenue Mains	Main-Del Webb River Res Shady Hills	$ 1,050,000	$ -	Blanket Contract Rates Utilized - See Written Response to ROG 26 for additional information.	To serve an estimated 690 new residential customers and 10 new commercial customers.	Install 9,200 of 4" PE and 52,000' of 2" PE Development Main See written response to ROG 41b for additional information.	Dec 2024	Jan 2026	Engineering: 4 weeks -Complete Materials: 4 weeks -Complete Construction: 20 weeks -In-Progress	$174,526	$778,818	$85,456	$11,200	$1,050,000	Project utilizes the most direct route from existing supporting main and is the least cost alternative combined with consideration for Safety and Reliability.	Capital Expenditure supported by 690 residential Customer and 10 commercial customers	If project is completed, the company would not be able to recover on this investment. If the project is not completed, the company would not be able to serve customers consistent with its obligation to serve per the tariff.
Growth	New Revenue Mains	Main-EverRange - Parc Group	$ 231,971	$ 433,300	Blanket Contract Rates Utilized - See Written Response to ROG 26 for additional information.	To serve an estimated 1395 residential and 6 commercial customers	110,000' of Development Main and One District Regulator Station. See written response to ROG 41b for additional information.	Jan 2025	Dec 2025	Engineering: 6 weeks - Not Started Materials: 18 weeks - Not Started Construction: 6 weeks - Not Started	$133,054	$432,426	$65,527	$34,264	$665,271	Based on preliminary Feasibility Study, project utilizes the most direct route from existing supporting main and is the least cost alternative combined with consideration for Safety and Reliability.	Capital Expenditure supported by proposed addition of 1,400 Residential Customers.	If project is completed, the company would not be able to recover on this investment. If the project is not completed, the company would not be able to serve customers consistent with its obligation to serve per the tariff.
Growth	New Revenue Mains	Main-Johnson & Johnson Vision Care	$ -	$ 4,651,923	Anticipate bidding in Q2 or Q3 of 2026.	To serve a new industrial customer	Install approx. 6 miles of 8" pipeline to a large industrial customer. See written response to ROG 41b for additional information.	Feb 2025	Dec 2026	Contract negotiation: 36 weeks - In Progress Engineering: 16 weeks - Not started Materials: 10 weeks - Not started Construction: 26 weeks - Not started	$1,250,000	$2,750,000	$300,000	$351,923	$4,651,923	Based on multiple hydraulic scenarios and preliminary design, it is the opinion of the engineering and design teams that this solution is the most cost effective. See written response to ROG 41f for additional information.	Capital supported by customer backed agreement	If project is completed, the company would not be able to recover on this investment. If the project is not completed, the company would not be able to serve customers consistent with its obligation to serve per the tariff.
Growth	New Revenue Mains	Main-Kingston Ranch	$ 300,000	$ 300,000	Blanket Contract Rates Utilized - See Written Response to ROG 26 for additional information.	To serve an estimated 4,065 new residential customers	23,000' of 6" PE, 36,000' of 4" PE, and 267,000' of 2" PE New Revenue Project See written response to ROG 41b for additional information.	Jan 2025	Dec 2028	Engineering: 12 weeks - Not Started Materials: 8 weeks - Not Started Construction: 16 weeks - Not Started	$168,000	$378,000	$42,000	$12,000	$600,000	Based on preliminary Feasibility Study, project utilizes the most direct and least impactful route from existing supporting main and is the least cost alternative combined with consideration for Safety and Reliability.	Capital Expenditure supported by 4,065 Customers	If project is completed, the company would not be able to recover on this investment. If the project is not completed, the company would not be able to serve customers consistent with its obligation to serve per the tariff.
Growth	New Revenue Mains	Main-LinerSource Greenhouse	$ -	$ 3,886,049	Anticipate bidding in Q2 or Q3 of 2026.	To serve a new industrial customer	19,900' of 6" steel pipe to a large industrial customer. See written response to ROG 41b for additional information.	Feb 2025	Dec 2026	Contract negotiation: 36 weeks - In Progress Engineering: 16 weeks - Not started Materials: 10 weeks - Not started Construction: 26 weeks - Not started	$750,000	$2,500,000	$250,000	$386,049	$3,886,049	Based on multiple hydraulic scenarios and preliminary design, it is the opinion of the engineering and design teams that this solution is the most cost effective. Relocation Required by a Governmental Entity	If project is completed, the company would not be able to recover on this investment. If the project is not completed, the company could cause a delay in government road widening and other infrastructure projects and risk rule violations.
Reliability, Resiliency, and Efficiency	Municipal Improvements	Westwood Blvd & Central Pkwy SR 535	[redacted]	This project is necessary to meet the pipeline relocation mandated by a government entity.	Relocate 45' of 8" Steel, 180' of 6" Steel, 84' of 2" Steel, and 21' of 1.25" Gas Main See written response to RDG 41b for additional information.	Jan 2025	Dec 2025	Engineering: 4 weeks - Complete Materials: 6 weeks - Complete Construction: 4 weeks - Complete	[redacted]	Participated in Utility Coordination with the FDOT to minimize relocation cost and delay risks in accordance with FDOT standards and specifications, thus no alternatives considered.	FDOT Required relocation to avoid conflicts or delays to FDOT projects	If project is completed, the company would not be able to recover on this investment. If the project is not completed, the company could cause a delay in government road widening and other infrastructure projects and risk rule violations.
Reliability, Resiliency, and Efficiency	Distribution System Improvements	Nocatee Backfeed Loop to Penman Rd	[redacted]	This project is necessary to reinforce gas supply in SE Jacksonville area in the company's Jacksonville service area. This reinforcement will enhance reliability an additional feed running through the community.	Running a new steel feed to support additional customer growth.	Jan 2026	Jan 2028	Engineering: 52 weeks - Not started Materials: 12 weeks - Not started Construction: 40 weeks - Not started	[redacted]	Alternaives have not been considered yet, but the engineering team will complete hydraulic modeling scenarios and engineering evaluations to determine the most cost-effective and technically sound solution.	Reinforces supply to enhance reliability, improve pipeline safety and meet customer demand	If project is completed, the company would not be able to recover on this investment. If the project is not completed, there is a risk of system failure and loss of customers.
Reliability, Resiliency, and Efficiency	Distribution System Improvements	Pompano Reinforcement - SFRP	[redacted]	This project is necessary to reinforce gas supply in Pompano Beach in the company's Dade-Broward service area. This reinforcement will enhance reliability an additional feed running through the community.	Install 6" steel through Pompano beach and to the island See written response to RDG 41b for additional information.	Jan 2025	Aug 2028	Engineering: 52 weeks - In Progress Materials: 12 weeks - Not Started Construction: 52 weeks - Not Started	[redacted]	Based on multiple hydraulic scenarios and preliminary engineering, it is the opinion of the engineering and design teams that this solution is the most cost effective. See written response to RDG 41f for additional information.	Reinforces supply to enhance reliability, improve pipeline safety and meet customer demand	If project is completed, the company would not be able to recover on this investment. If the project is not completed, there is a risk of system failure and loss of customers.
Reliability, Resiliency, and Efficiency	Main Replacements - Downtown Tampa - AYUDC	Main Replace- Downtown Tampa	[redacted]	This project is necessary to eliminate risks associated with gas leaks in Downtown Tampa. This area has plastic pipe inserted in an older pipeline, a common practice in the past, that creates challenges for gas leak detection and increased risk to the public due to the gas migrating through the casing pipe that is likely not leak tight. Replacing this pipe will allow for a lower pressure system (3PSI) to a higher pressure system (35PSI) allowing increased capacity.	Install new distribution piping in the Tampa down area See written response to RDG 41b for additional information.	Feb 2025	Aug 2026	Engineering: 20 weeks - In Progress Materials: 4 weeks - Not started Construction: 52 weeks - Not started	[redacted]	Based on multiple hydraulic scenarios and preliminary engineering, it is the opinion of the engineering and design teams that this solution is the most cost effective. See written response to RDG 41f for additional information.	Pipe Replacement for Pipeline Safety, reliability and increase capacity	If project is completed, the company would not be able to recover on this investment. If the project is not completed, a risk of a pipeline safety event would persist.
Reliability, Resiliency, and Efficiency	AMI Pilot	AMI Pilot and AMI Meter Implementation 2026	[redacted]	This project is necessary to assess smart meter technology and potential applications for the company to modernize metering technology including improving billing accuracy, enhancing operational efficiency and increased safety for customers	Evaluate technology solution including 5,000 smart meters in the field and 12 smart meters with advanced functionality at the GasWorx training and testing facility. Some of the anticipated activities include: (1) Evaluate remote shutoff, high flow rate, and high-pressure conditions of the 12 meters at GasWorx. This controlled environment will enable Peoples to simulate field conditions with minimal risk. (2) Evaluate the ability of the TEC communications system to remotely read the 5,000 field gas meters. This test will involve remote readings via Tampa Electric's current network and include data transfer of meter readings to the company's current billing system. (3) Document learnings from the GasWorx and field tests to define pilot benefits and design the next phase of AMI deployment.	Jul 2025	Dec 2027	Phase 1: Materials: 12 weeks (In progress) Services: 26 weeks (Not started) Phase 2: Materials: 12 weeks (Not started) Services: 26 weeks (Not started) Phase 3: Materials: 12 weeks (Not started) Services: 26 weeks (Not started)	[redacted]	Alternative considered is to maintain existing meter systems. This limits the Company's ability to gain insight to data that can be used to optimize gas network management, reduce peak demand, and improve overall efficiency and can also be used to improve customer service by providing customers with detailed consumption information.	Remote meter management. Remote meter reading. Customer utilization metrics and analytics more frequent than existing monthly process.	If project is completed, the company would not be able to recover on this investment. If the project is not completed, AMI would not be deployed to customers which will limit the company's ability to gain insight to data that can be used to optimize gas network management, reduce peak demand, improve overall efficiency, and improve customer service by providing customers with detailed consumption information.
Reliability, Resiliency, and Efficiency	Technology Projects	GIS GPS Barcode	[redacted]	This capital expenditure is necessary to procure GPS Barcoding devices used for scanning and tagging pipeline assets with geospatial information in order to safely manage pipeline facilities.	Hardware replacement project. Activities are performed annually for project. Activities to implement project are: (1) Define the business requirements, (2) identify hardware solution, (3) receive technology governance and business review and approval, (4) purchase new and replacement hardware, (5) implement and configure hardware,	Sep 2022	Dec 2027	Activities with Completion Status: (1) Define the business requirements, (Complete) (2) identify hardware solution, (Complete) (3) receive technology governance and business review and approval, (Complete) (4) purchase new and replacement hardware, (Complete), (5) receive and configure hardware, (In-progress. On-going period until completion) (6) test and validate hardware, (In-progress. On-going period until completion) (7) complete the project roll-out (In-progress. Anticipating 2+ years to complete current solution and version)	[redacted]	The project adds more units to existing equipment due to need or to replace aging or damaged units that are compatible with our current systems, thus no alternatives were considered.	Benefits of this project include geolocation and tagging of assets for pipeline safety, reliability, and efficiencies.	If project is completed, the company would not be able to recover on this investment. If the project is not completed, a higher risk to safety persists due to limitations in accurately locating facilities.
Reliability, Resiliency, and Efficiency	Technology Projects	AT&T APN First Net	[redacted]	This project is necessary to replace outdated analog communication networks with a cellular network in order to have adequate communication with industrial meters and ensure accurate measurement of industrial customer usage.	AT&T APN service. Meter SIM card deployment and configuration. System integration. Activities to implement project are: (1) Define the business requirements, (2) receive technology governance and business review and approval, (3) cellular service provider assessment of vendor solutions and options, (4) identify the optimal solution and vendor proposals, (5) vendor selection, MSA review, and SOW creation, (6) develop implementation plan, project timeline, and secure resources, (7) implement and configure solution, (8) test and validate implementation, and (9) complete the project roll-out.	Jan 2026	Dec 2026	Activities with Completion Status: (1) Define the business requirements, (Complete) (2) receive technology governance and business review and approval, (Complete) (3) cellular service provider assessment of vendor solutions and options, (Complete) (4) identify the optimal solution and vendor proposals, (Complete) (5) vendor selection, MSA review, and SOW creation, (Complete) (6) develop implementation plan, project timeline, and secure resources, (Complete) (7) implement and configure solution, (Complete) (8) test and validate implementation, and (In Progress, Est. completion: 2-3 weeks) (9) complete the project roll-out (Not Started). Project is near completion. Will begin full rollout after testing and validation is complete. Approximately 6+	[redacted]	Peoples considered Verizon FirstLine as an alternative. However, utilizing Verizon over ATT would mean Peoples would have to manage an additional support structure and resources. This would have increased cost, risk and complexity.	Benefits of this project include efficient meter measurement reading and avoidance of costs to manually read meters for customers the often in highly remote locations.	If project is completed, the company would not be able to recover on this investment. If the project is not completed, Industrial customers will be required to establish traditional landline, which could increase costs to each customer as landline setup and installation from telecommunication vendors are phased out for digital communication channels
Reliability, Resiliency, and Efficiency	Technology Projects	Business Dev Market Data Automation	[redacted]	This system implementation is necessary to automate collection and processing of market data from multiple sources into single analytics platform. This will allow the company to gather industry market data more efficiently and improves data quality as current processes require manual data ingestion from various, unlinked sources and manipulate data into a single aggregated file for analysis.	Major activities include External sources integration, Data ingestion, AI and advance analytics modeling. Activities to implement project are: (1) Define the business requirements, (2) receive technology governance, business review and approval, (3) go to market through RFP process to understand vendor solutions and options, (4) identify the optimal solution and vendor proposals, (5) select vendor, MSA review with legal, and SOW creation, (6) develop implementation plan, project timeline, and secure resources, (7) implement and configure solution, (8) test and validate implementation, and (9) complete the project roll-out.	Jan 2026	Dec 2026	Complete project timeline is unknown at this time. This will be identified during project planning. Anticipating 1 yr to deploy project. (1) Define the business requirements, (In-progress. Anticipate 2 months to complete) (2) receive technology governance, business review and approval, (Not started) (3) go to market through RFP process to understand vendor solutions and options, (Not started) (4) identify the optimal solution and vendor proposals, (Not started) (5) select vendor, MSA review with legal, and SOW creation, (Not started) (6) develop implementation plan, project timeline, and secure resources, (Not started) (7) implement and configure solution, (Not started) (8) test and validate implementation, and (Not started) (9) complete the project roll-out. (Not started)	[redacted]	Alternative solutions will be assessed as part of bidding process in 2026.	Benefits of this project include efficiencies in collecting gas marketing data from multiple sources and predictive analytics and AI capabilities in analysing market data	If project is completed, the company would not be able to recover on this investment. If the project is not completed, the company would have to continue manual processes for data collection, analysis and forecasting, which limits the company's ability for informed decision making and to serve customers.
-	Technology Projects	Business Development Contract Mgmt.	[redacted]	This system implementation is necessary to provide end to end contract management for industrial customers to ensure contracting project statuses are tracked, managed and communicated from centralized source.	Major activities include configuration of CRM, updates to customer billing system. Other activities needed for changes resulting from rate case. (1) Define the business requirements, (2) receive technology governance, business review and approval, (3) go to market through RFP process to understand vendor solutions and options, (4) identify the optimal solution and vendor proposals, (5) select vendor, MSA review with legal, and SOW creation, (6) develop implementation plan, project timeline, and secure resources, (7) implement and configure solution, (8) test and validate implementation, and (9) complete the project roll-out.	Jan 2026	Dec 2026	Complete project timeline is unknown at this time. This will be identified during project planning. Anticipating 1 yr to deploy project. (1) Define the business requirements, (In-progress. Anticipating 1-2 months to complete) (2) receive technology governance, business review and approval, (In-progress. Anticipating 1-2 months. Anticipating 1-2 months to complete) (3) go to market through RFP process to understand vendor solutions and options, (Not started) (4) identify the optimal solution and vendor proposals, (Not started) (5) select vendor, MSA review with legal, and SOW creation, (Not started) (6) develop implementation plan, project timeline, and secure resources, (Not started) (7) implement and configure solution, (Not started) (8) test and validate implementation, and (Not started)	[redacted]	Alternative solutions will be assessed as part of bidding process in 2026.	Benefits of this project include efficiencies in managing industrial contracts and improvements in customer relations.	If project is completed, the company would not be able to recover on this investment. If the project is not completed, the company would continue to use manual processes limit its ability to effectively and efficiently serve customers.
Reliability, Resiliency, and Efficiency	Technology Projects	Capital Inv Planning for Rate Case	[redacted]	This capital expenditure are necessary to complete the required enhancements and customization to the customer management system to align with changes (tariff and rate) resulting from the rate case.	Major activities include configuration of CRM, updates to customer billing system. Other activities needed for changes resulting from rate case. (1) Define the business requirements, (2) receive technology governance, business review and approval, (3) develop implementation plan, project timeline, and secure resources, (4) implement and configure solution, (5) test and validate implementation, and	Sep 2025	Dec 2025	Complete project timeline is unknown at this time. This will be identified during project planning. Anticipating up to 13 weeks to deploy project after rate case results. (1) Define the business requirements, (In-progress. Anticipating 1-2 weeks after rate case results) (2) receive technology governance, business review and approval, (Not started) (3) develop implementation plan, project timeline, and secure resources, (Not started) (4) implement and configure solution, (Not started) (5) test and validate implementation, and (Not started)	[redacted]	Alternative solutions will be assessed as part of (2) going to market in 2026.	Benefits of this project include implementation of proper customer rate calculation and billing changes in the customer management and billing systems post rate case.	If project is completed, the company would not be able to recover on this investment. If the project is not completed, rates and tariff changes approved by the Commission through the rate case would not be able to be implemented in the company's customer billing system.
Reliability, Resiliency, and Efficiency	Technology Projects	Capital Inv. Planning Solution	[redacted]	This project is necessary to enhance the company's capital planning and management capabilities by enabling data-driven investment decisions by prioritizing projects and allocating resources to maximize value and manage risk over time. It enables scenario modeling and long-term planning.	Major activities include solution procurement or development, internal systems integration, System and data migration. Data ingestion and integration. Activities to implement project are: (1) Define the business requirements, (2) receive technology governance, business review and approval, (3) go to market through RFP process to understand vendor solutions and options, (4) identify the optimal solution and vendor proposals, (5) select vendor, MSA review with legal, and SOW creation, (6) develop implementation plan, project timeline, and secure resources, (7) implement and configure solution, (8) test and validate implementation, and (9) complete the project roll-out.	Jul 2025	May 2026	Complete project timeline is unknown at this time. This will be identified during project planning. Anticipating 1 - 1 1/2 years to deploy project. (1) Define the business requirements, (In-progress. Anticipating 1-2 months to complete) (2) receive technology governance, business review and approval, (In-progress. Initial governance approval received. Anticipating 1-2 months to complete based on new requirements identified) (3) go to market through RFP process to understand vendor solutions and options, (In-progress. Anticipating 2-3 months to complete) (4) identify the optimal solution and vendor proposals, (Not started) (5) select vendor, MSA review with legal, and SOW creation, (Not started) (6) develop implementation plan, project timeline, and secure resources, (Not started) (7) implement and configure solution, (Not started) (8) test and validate implementation, and (Not started)	[redacted]	Assessed the capabilities of PowerPlan, PeopleSoft and Copperleaf. As part of assessment, each vendor demonstrated solution capabilities. Affiliates such as NMGC are currently utilizing Copperleaf for their capital planning and management processes. Affiliate usage and savings potential will be a factor when bidding.	Benefits of this project include the ability to utilize industry standard solutions for capital planning and management and improvements to capital project planning.	If project is completed, the company would not be able to recover on this investment. If the project is not completed, the company would continue to utilize inefficient manual processes and outdated technology.
Reliability, Resiliency, and Efficiency	Technology Projects	COMPUTERS - Statewide PC Purchases	[redacted]	This capital expenditure is necessary for the purchase of iPads and other computing systems as needed for team members to perform job tasks.	Hardware replacement project. Activities are performed annually for project. Activities to implement project are: (1) Define the business requirements, (2) identify hardware solution, (3) receive technology governance and business review and approval, (4) purchase new and replacement hardware, (5) implement and configure hardware,	Jan 2025	Dec 2026	Activities with Completion Status: (1) Define the business requirements, (Complete) (2) identify hardware solution, (Complete) (3) receive technology governance and business review and approval, (Complete) (4) purchase new and replacement hardware, (Complete), (5) receive and configure hardware, (In-progress. On-going period until completion) (6) test and validate hardware, (In-progress. On-going period until completion) (7) complete the project roll-out (In-progress. Anticipating 1 - 1 1/2 years to complete)	[redacted]	Replacement of laptops, PCs and mobile technology hardware such as iPads and workstations aligned to take advantage of existing TEC vendor agreements to ensure value for customers. Alternatives considered included a standalone solution or leveraging existing TEC agreements. Leveraging TEC agreements was the best solution for customers.	Benefits of this project include deployment of computing equipment that allows team members to effectively and efficiently perform job tasks and serve customers.	If project is completed, the company would not be able to recover on this investment. If the project is not completed, team members would no have computing devices and systems to perform field activities and duties in serving customers.
Reliability, Resiliency, and Efficiency	Technology Projects	Damage Billing	[redacted]	This system implementation is necessary to improve the management of billing information associated with pipeline damages.	Major activities include solution procurement or development, internal systems integration, System and data migration. Data ingestion and integration. Activities to implement project are: (1) Define the business requirements, (2) receive technology governance, business review and approval, (3) go to market through RFP process to understand vendor solutions and options, (4) identify the optimal solution and vendor proposals, (5) select vendor, MSA review with legal, and SOW creation, (6) develop implementation plan, project timeline, and secure resources, (7) implement and configure solution, (8) test and validate implementation, and (9) complete the project roll-out.	Jan 2025	Dec 2025	Complete project timeline is unknown at this time. This will be identified during project planning. Anticipating 13 weeks to deploy project. Timeline may be extended dependent on internal development vs external "out-of-box" vendor solution selection. (1) Define the business requirements, (Complete) (2) receive technology governance, business review and approval, (Complete) (3) go to market through RFP process to understand vendor solutions and options, (In-progress. Anticipating 1 month to complete) (4) identify the optimal solution and vendor proposals, (Not started) (5) select vendor, MSA review with legal, and SOW creation, (Not started) (6) develop implementation plan, project timeline, and secure resources, (Not started) (7) implement and configure solution, (Not started) (8) test and validate implementation, and (Not started)	[redacted]	Currently assessing 3rd party vendors, building solution in-house , or maintain existing Stand-Point solution with a series of upgrades and added infrastructure. Assessment is part of initial bidding process.	Benefits of this project include better management and tracking of billing details and activities associated with pipeline damages and leak repairs.	If project is completed, the company would not be able to recover on this investment. If the project is not completed, the company would continue to rely on manual processes and use outdated, limited technology creating a risk to safety and compliance.
Reliability, Resiliency, and Efficiency	Technology Projects	Design Tools Upgrade	[redacted]	This project is necessary to upgrade the company's CAD solution to support AutoCAD and MicroStation formats used by the company's Engineering group for pipeline designs.	Major activities include solution procurement or development, internal systems integration, System and data migration. Data ingestion and integration. Activities to implement project are: (1) Define the business requirements, (2) receive technology governance, business review and approval, (3) go to market through RFP process to understand vendor solutions and options, (4) identify the optimal solution and vendor proposals, (5) select vendor, MSA review with legal, and SOW creation, (6) develop implementation plan, project timeline, and secure resources, (7) implement and configure solution, (8) test and validate implementation, and	Jan 2026	Mar 2026	Complete project timeline is unknown at this time. This will be identified during project planning. Anticipating 1 year to deploy project. (1) Define the business requirements, (Complete) (2) receive technology governance, business review and approval, (Complete) (3) go to market through RFP process to understand vendor solutions and options, (Not started) (4) identify the optimal solution and vendor proposals, (Not started) (5) select vendor, MSA review with legal, and SOW creation, (Not started) (6) develop implementation plan, project timeline, and secure resources, (Not started) (7) implement and configure solution, (Not started) (8) test and validate implementation, and (Not started) (9) complete the project roll-out. (Not started)	[redacted]	Alternative solutions will be assessed as part of bidding process in 2026.	Benefits of this project include support of multiple CAD formats utilized by various municipalities. This improves permit application and close-out efficiency.	If project is completed, the company would not be able to recover on this investment. If the project is not completed, the company would have to utilize manual creation and duplication of CAD designs in various formats. This creates inefficiencies into the construction process.
Reliability, Resiliency, and Efficiency	Technology Projects	FCS Upgrade (Itron) 2026	[redacted]	This project is necessary to upgrade the company's field collection system in order to continue system operation and support. The field collection system is used to read customer meters information for gas usage and billing information.	Major activities include solution procurement or development, internal systems integration, System and data migration. Data ingestion and integration. Activities to implement project are: (1) Define the business requirements, (2) receive technology governance, business review and approval, (3) go to market through RFP process to understand vendor solutions and options, (4) identify the optimal solution and vendor proposals, (5) select vendor, MSA review with legal, and SOW creation, (6) develop implementation plan, project timeline, and secure resources, (7) implement and configure solution, (8) test and validate implementation, and	Jan 2026	Dec 2026	Complete project timeline is unknown at this time. This will be identified during project planning. Anticipating 1 year to deploy project. (1) Define the business requirements, (In-progress) (2) receive technology governance, business review and approval, (Completed initial governance review. Final approval is come after requirements gathering is complete) (3) go to market through RFP process to understand vendor solutions and options, (Not started) (4) identify the optimal solution and vendor proposals, (Not started) (5) select vendor, MSA review with legal, and SOW creation, (Not started) (6) develop implementation plan, project timeline, and secure resources, (Not started) (7) implement and configure solution, (Not started) (8) test and validate implementation, and (Not started)	[redacted]	Alternative solutions will be assessed as part of bidding process in 2026.	Benefits of this project include maintaining usability and supportability of solutions used for meter reading.	If project is completed, the company would not be able to recover on this investment. If the project is not completed, the company would have to rely on its current solution that will be out of support by vendor.

	Windows System Upg 2025			This Microsoft Windows upgrade is necessary for the company's computing systems as the current version running on the company's computers will no longer be supported by Microsoft.	Major activities include hardware replacement, server operating system upgrade and system integration. Activities to implement project are: (1) Define the business requirements, (2) identify hardware solution, (3) receive technology governance and business review and approval, (4) purchase new and replacement hardware, (5) implement and configure hardware, (6) test and validate hardware, (7) integrate hardware into environment and replace legacy system, and (8) complete the project roll-out	Jan 2025	Sep 2025	Activities are done in parallel (i.e. purchase additional hardware at the same time hardware received is upgraded and configured). Anticipating all legacy Windows servers are upgraded, configured and deployed by year end to meet Microsoft support deadline. Activities to implement project are: (1) Define the business requirements, (Complete) (2) identify hardware solution, (Complete) (3) receive technology governance and business review and approval, (Complete) (4) purchase new and replacement hardware, (In-progress) (5) implement and configure hardware, (In-progress) (6) test and validate hardware, (In-progress) (7) integrate hardware into environment and replace legacy system, and (In-progress)		Upgrading Windows servers that are nearing end of life and support. This include the purchase of hardware and labor to perform upgrade and integration. Alternatives considered included a standalone solution or leveraging existing TEC agreements. Leveraging TEC agreements was the best solution for customers.	Benefits of this project include maintaining usability and supportability of Windows servers.	If project is completed, the company would not be able to recover on this investment. If the project is not completed, the company would have to rely on Windows servers and computers that are not supported by Microsoft. This would mean systems on network that do not receive necessary security patches and updates.
Reliability, Resiliency, and Efficiency	Technology Projects	Gas Utility Underground Mapping		This system implementation of an underground pipeline geospatial locating system will allow the company to map the location of underground, undetectable pipeline.	Major activities include solution procurement or development, internal systems integration, System and data migration. Data ingestion and integration. Activities to implement project are: (1) Define the business requirements, (2) receive technology governance, business review and approval, (3) go to market through RFP process to understand vendor solutions and options, (4) identify the optimal solution and vendor proposals, (5) select vendor, MSA review with legal, and SOW creation, (6) develop implementation plan, project timeline, and secure resources, (7) implement and configure solution, (8) test and validate implementation, and	Jan 2026	Dec 2026	Complete project timeline is unknown at this time. This will be identified during project planning. Anticipating 1 year to deploy project. (1) Define the business requirements, (In-progress) (2) receive technology governance, business review and approval, (Completed initial governance review. Final approval is come after requirements gathering is complete) (3) go to market through RFP process to understand vendor solutions and options, (Not started) (4) identify the optimal solution and vendor proposals, (Not started) (5) select vendor, MSA review with legal, and SOW creation, (Not started) (6) develop implementation plan, project timeline, and secure resources, (Not started) (7) implement and configure solution, (Not started) (8) test and validate implementation, and (Not started)		Alternative solutions will be assessed as part of bidding process in 2026.	Benefits of this project include improved mapping of underground facilities that includes asset geospatial location information (latitude, longitude, and depth) and other GIS attributes. This will ultimately improve the accuracy of locating pipelines thereby reducing the risk of damages and improving safety.	If project is completed, the company would not be able to recover on this investment. If the project is not completed, the company will have less precise asset location data to rely upon for pipeline location and may incur costs associated with excavation needed to expose underground facilities for manual locating.
Reliability, Resiliency, and Efficiency	Technology Projects	GIS-COALA-Capture on Loc Assignment		This system implementation is necessary as it will allow the company to collect the data necessary to safely manage pipeline assets and integrate with iOS, Windows, and GPS Barcode devices with GIS.	Major activities include solution development, internal systems integration, System and data migration. Data ingestion and integration. Activities to implement project are: (1) Define the business requirements, (2) receive technology governance, business review and approval, (3) go to market through RFP process to understand vendor solutions and options, (4) identify the optimal solution and vendor proposals, (5) SOW creation for development, (6) develop implementation plan, project timeline, and secure resources, (7) implement and configure solution, (8) test and validate implementation, and	Jul 2024	Sep 2025	Anticipating 1 - 1 1/2 years to deploy project. (1) Define the business requirements, (Complete) (2) receive technology governance, business review and approval, (Complete) (3) go to market through RFP process to understand vendor solutions and options, (Complete) (4) identify the optimal solution and vendor proposals, (Complete) (5) SOW creation for development, (Complete) (6) develop implementation plan, project timeline, and secure resources, (Complete) (7) implement and configure solution, (In-progress) (8) test and validate implementation, and (In-progress) (9) complete the project roll-out. (Not started)		A Request for Information and Request for Proposal for a solution to integrate with WAM, GIS, GPS Barcoding, iOS and other company solutions was completed and unsuccessful due to the specific architecture and processes of asset management. In-house solution and infrastructure was developed.	Benefits for this project include improved accessibility to GIS data for technicians in the field, improve asset location and GPS tagging capabilities, and be company owned and supported, which removes traditional third party license and support costs.	If project is completed, the company would not be able to recover on this investment. If the project is not completed, the company would continue to utilize manual processes with higher risk of inaccuracies in asset data and missing asset information due to inability of some technologies to geo-tag assets.
Reliability, Resiliency, and Efficiency	Technology Projects	Locates & Ticket Management Sys		This system upgrade of the company's current Sunshine 811 locate ticket management from limited free solution to enterprise solution is necessary as it will allow the company to manage more Sunshine 811 locate tickets which is limited with the free solution, integrate with WAM and GIS systems, improve ticket response times, and improve visibility of updated pipeline location mark information.	Major activities include solution procurement or development, internal systems integration, System and data migration. Data ingestion and integration. Activities to implement project are: (1) Define the business requirements, (2) receive technology governance, business review and approval, (3) go to market through RFP process to understand vendor solutions and options, (4) identify the optimal solution and vendor proposals, (5) select vendor, MSA review with legal, and SOW creation, (6) develop implementation plan, project timeline, and secure resources, (7) implement and configure solution, (8) test and validate implementation, and	Jan 2025	Dec 2025	Anticipating 1 year to deploy project. (1) Define the business requirements, (Complete) (2) receive technology governance, business review and approval, (Complete) (3) go to market through RFP process to understand vendor solutions and options, (Complete) (4) identify the optimal solution and vendor proposals, (Complete) (5) select vendor, MSA review with legal, and SOW creation, (In-progress) (6) develop implementation plan, project timeline, and secure resources, (In-progress) (7) implement and configure solution, (Not started) (8) test and validate implementation, and (Not started) (9) complete the project roll-out. (Not started)		The company manages more than half a million locate requests (locate tickets) per year. To manage this increasing volume, the company is looking to ensure proper management of locate requests. Various providers/alternatives were considered through a competitive bidding process and the solution with the lowest cost that met all requirements was selected.	Benefits of this project include improvements to pipeline locate ticket management and damage risk assessment, processes both integral to pipeline safety. Additionally, this projection will allow for integration with WAM, data analytics environment and AI capabilities.	If project is completed, the company would not be able to recover on this investment. If the project is not completed, the company would continue to utilize manual processes and a "free" limited version of solution that doesn't allow the company to take advantage of risk assessment and AI capabilities.
Reliability, Resiliency, and Efficiency	Technology Projects	Mobility Project		This system upgrade and enhancement to leak survey and detection capabilities will improve the company's ability to detect pipeline emission levels through drive by and hand-held leak detection technology.	Major activities include solution procurement or development, internal systems integration, System and data migration. Data ingestion and integration. Deployment of mobile and handheld emission detection devices. Activities to implement project are: (1) Define the business requirements, (2) receive technology governance, business review and approval, (3) go to market through RFP process to understand vendor solutions and options, (4) identify the optimal solution and vendor proposals, (5) select vendor, MSA review with legal, and SOW creation, (6) develop implementation plan, project timeline, and secure resources, (7) implement and configure solution, (8) test and validate implementation, and	Jan 2025	Dec 2026	Anticipating 1 - 1 1/2 years to deploy project. (1) Define the business requirements, (In-progress) (2) receive technology governance, business review and approval, (Completed initial governance review. Final approval is come after requirements gathering is complete) (3) go to market through RFP process to understand vendor solutions and options, (Not Started) (4) identify the optimal solution and vendor proposals, (Not Started) (5) select vendor, MSA review with legal, and SOW creation, (Not Started) (6) develop implementation plan, project timeline, and secure resources, (Not Started) (7) implement and configure solution, (Not started) (8) test and validate implementation, and (Not started) (9) complete the project roll-out. (Not started)		Currently assessing 3rd party vendors. Working with business on assessing other options. Other considerations will happen as we get closer to bidding phase of project	Benefits of this project include improvements the company's leak detection capabilities and its ability to meet and maintain safety compliance and regulations.	If project is completed, the company would not be able to recover on this investment. If the project is not completed, the company would continue to rely on more manual processes impacting drive-by emission detection capabilities and leak surveys.
Reliability, Resiliency, and Efficiency	Technology Projects	PC Hardware Upgrade 2026		This capital project is necessary to replace legacy computing systems to ensure computing processes can continue effectively and efficiently.	Major activities include workstation replacement, server operating system upgrade and system integration. Activities to implement project are: (1) Define the business requirements, (2) identify hardware solution, (3) receive technology governance and business review and approval, (4) purchase new and replacement hardware, (5) implement and configure hardware, (6) test and validate hardware, (7) integrate hardware into environment and replace legacy system, and (8) complete the project roll-out	Jan 2026	Sep 2026	Complete project timeline is unknown at this time. This will be identified during project planning. Activities are done in parallel (i.e. purchase additional hardware at the same time hardware received is upgraded and configured). Anticipating 1 year to complete. Activities to implement project are: (1) Define the business requirements, (In-progress) (2) identify hardware solution, (In-progress) (3) receive technology governance and business review and approval, (In-progress) (4) purchase new and replacement hardware, (Not Started) (5) implement and configure hardware, (Not Started) (6) test and validate hardware, (Not Started) (7) integrate hardware into environment and replace legacy system, and (Not Started)		Replacement of laptops, PCs and mobile technology hardware such as iPads and workstations aligned to take advantage of existing TEC vendor agreements to ensure value for customers. Alternatives considered included a standalone solution or leveraging existing TEC agreements. Leveraging TEC agreements was the best solution for customers.	Benefits of this project include providing computing equipment that allows team members to efficiently and effectively complete work activities including serving customers, as well as ensure that computing systems are secure from cyber threats.	If project is completed, the company would not be able to recover on this investment. If the project is not completed, the company will have a higher risk of cyber security as existing workstation may not continue to receive patches and updates. Additionally, usability and supportability of existing computing systems since Windows 10 and current laptops are going end-of-life in the next year.
Reliability, Resiliency, and Efficiency	Technology Projects	PGAS to FlowCal Migration		This capital expenditure is a continuation of a project that started in 2023 to deploy the FlowCal solution, which replaces PGAS. This replacement was driven by improvements in Peoples' gas flow measurement and BTU factor calculation processes.	This project has been ongoing since May 2023. The spend in 2025 relates to project finalization and project wrap-up. All activities have been completed.	May 2023	Dec 2025	This project has been ongoing since May 2023. The spend in 2025 relates to project finalization and project wrap-up. All activities have been completed.		Remaining capital spend from a closed project. Work was not bid due nor alternatives considered, to supplier and original 3rd party knowledge, experience and support of systems.	Benefits of this project include efficiencies and controls around gas measurements and BTU factors, ultimately ensuring accuracy of customer bills.	This project has been completed, and denial by the Commission would result in the company not being able to recover on this investment.
Reliability, Resiliency, and Efficiency	Technology Projects	PGS Job Documentation & Drawing Mgt		This design and document management solution implementation is necessary for the company's management of designs in a central, governed repository to ensure asset design documentation is appropriately maintained, accessible, and searchable.	Major activities include solution procurement, internal systems integration, System and data migration. Data ingestion and integration. Activities to implement project are: (1) Define the business requirements, (2) receive technology governance, business review and approval, (3) identify the optimal solution and vendor proposals, (4) develop implementation plan, project timeline, and secure resources, (5) implement and configure solution, (6) test and validate implementation, and	Aug 2024	Aug 2025	Anticipating 1 year to deploy project. Activities to implement project are: (1) Define the business requirements, (Complete) (2) receive technology governance, business review and approval, (Complete) (3) identify the optimal solution and vendor proposals, (Complete) (4) develop implementation plan, project timeline, and secure resources, (Complete) (5) implement and configure solution, (In-progress) (6) test and validate implementation, and (Not Started) (7) complete the project roll-out. (Not Started)		By utilizing existing TEC agreements, Peoples can take advantage of negotiated rates to ensure value for customers. Alternatives considered included a standalone solution or leveraging existing TEC agreements. Leveraging TEC agreements was the best solution for customers.	Benefits of this project include modernized data management and governances of Engineering and Construction designs.	If project is completed, the company would not be able to recover on this investment. If the project is not completed, the company would have to continue to rely on manual processes and spread-out, non-centralized storage and management of engineering and construction designs.
Reliability, Resiliency, and Efficiency	Technology Projects	PGS Pipeline Insights 2025		This is a multi-year project for data governance, data management, advanced analytics and AI/ML that is necessary to allow the company to address difficulties, gaps and challenges experienced by the business related to data, data analytics, reporting, and access management, and to position the organization to deliver value and better decision-making from the use of data analytics and artificial intelligence.	Major activities include solution procurement, internal systems integration, System development, organization change management, System and data migration. Data ingestion and integration. Activities to implement project are: (1) Define the business requirements, (2) receive technology governance, business review and approval, (3) go to market through RFP process to understand vendor solutions and options, (4) identify the optimal solution and vendor proposals, (5) select vendor, MSA review with legal, and SOW creation, (6) develop implementation plan, project timeline, and secure resources, (7) implement and configure solution, (8) test and validate implementation, and (9) complete the project roll-out.	Dec 2024	Dec 2025	Solution is a multi-year effort broken out to annual projects. Anticipating 1 year for each project completion timeline. Status below reflects 2025 project update. Activities to implement project are: (1) Define the business requirements, (Complete) (2) receive technology governance, business review and approval, (Complete) (3) go to market through RFP process to understand vendor solutions and options, (Complete) (4) identify the optimal solution and vendor proposals, (Complete) (5) select vendor, MSA review with legal, and SOW creation, (Complete) (6) develop implementation plan, project timeline, and secure resources, (Complete) (7) implement and configure solution, (In-progress) (8) test and validate implementation, and (Not Started) (9) complete the project roll-out. (Not Started)		Technology project is least cost alternative. Lowest bidder that aligned with scope, experiences and capabilities selected for multiyear project. Peoples considered a standalone data solution, however the cost estimate was 2-3 times higher than partnering with TEC. Furthermore, since TEC implemented their data solution 2-3 years prior, Peoples was able to benefit from TEC lessons learned, shared infrastructure costs, and other cost savings.	Benefits of this project include modernized data management and governance, assurance of data quality and trustworthiness, and mature artificial intelligence and machine learning ("AI/ML") readiness and utilization. These benefits will further allow the company to make more-informed decisions utilizing the data and better service customers.	If project is completed, the company would not be able to recover on this investment. If the project is not completed, the company would have to continue to utilize less efficient and reliable manual analytics, have limited AI utilization, and lack the capability to process large amounts of complex data such as the data received from Advanced Metering Infrastructure ("AMI"). This incapability may limit the company's ability to improve service for the customer using the latest technologies.
Reliability, Resiliency, and Efficiency	Technology Projects	PGS Pipeline Insights 2026		This is a multi-year project for data governance, data management, advanced analytics and AI/ML that is necessary to allow the company to address difficulties, gaps and challenges experienced by the business related to data, data analytics, reporting, and access management, and to position the organization to deliver value and better decision-making from the use of data analytics and artificial intelligence.	Major activities include solution procurement, internal systems integration, System development, organization change management, System and data migration. Data ingestion and integration. Activities to implement project are: (1) Define the business requirements, (2) receive technology governance, business review and approval, (3) go to market through RFP process to understand vendor solutions and options, (4) identify the optimal solution and vendor proposals, (5) select vendor, MSA review with legal, and SOW creation, (6) develop implementation plan, project timeline, and secure resources, (7) implement and configure solution, (8) test and validate implementation, and (9) complete the project roll-out.	Jan 2026	Dec 2026	Solution is a multi-year effort broken out to annual projects. Anticipating 1 year for each project completion timeline. Status below reflects 2026 project update. Activities to implement project are: (1) Define the business requirements, (In-progress) (2) receive technology governance, business review and approval, (Completed in 2025 effort) (3) go to market through RFP process to understand vendor solutions and options, (Completed in 2025 effort) (4) identify the optimal solution and vendor proposals, (Completed in 2025 effort) (5) select vendor, MSA review with legal, and SOW creation, (In-progress) (6) develop implementation plan, project timeline, and secure resources, (Not Started) (7) implement and configure solution, (Not Started) (8) test and validate implementation, and (Not Started) (9) complete the project roll-out. (Not Started)		Technology project is least cost alternative. Lowest bidder that aligned with scope, experiences and capabilities selected for multiyear project. Peoples considered a standalone data solution, however the cost estimate was 2-3 times higher than partnering with TEC. Furthermore, since TEC implemented their data solution 2-3 years prior, Peoples was able to benefit from TEC lessons learned, shared infrastructure costs, and other cost savings.	Benefits of this project include modernized data management and governance, assurance of data quality and trustworthiness, and mature artificial intelligence and machine learning ("AI/ML") readiness and utilization. These benefits will further allow the company to make more-informed decisions utilizing the data and better service customers.	If project is completed, the company would not be able to recover on this investment. If the project is not completed, the company would have to continue to utilize less efficient and reliable manual analytics, have limited AI utilization, and lack the capability to process large amounts of complex data such as the data received from Advanced Metering Infrastructure ("AMI"). This incapability may limit the company's ability to improve service for the customer using the latest technologies.
Reliability, Resiliency, and Efficiency	Technology Projects	PGS Technology Projects		Technology investment needs materialize during the year caused by cyber security vulnerability remediations, unforeseen hardware replacements, and other unplanned technology project needs. The budgeted amount is based on trending from previous years. All project requests in this budget line item are reviewed by Peoples' Technology Governance Committee and must go through normal company approvals.	Major activities varies based on annual needs. This includes solution procurement, internal systems integration, System development, organization change management, cyber security assets, System and data migration. Data ingestion and integration. Activities to implement project are: (1) Define the business requirements, (2) receive technology governance, business review and approval, (3) go to market through RFP process to understand vendor solutions and options, (4) identify the optimal solution and vendor proposals, (5) select vendor, MSA review with legal, and SOW creation, (6) develop implementation plan, project timeline, and secure resources, (7) implement and configure solution, (8) test and validate implementation, and	Jan 2026	Dec 2026	Solution is a multi-year effort broken out to annual projects. Anticipating 1 year for each project completion timeline. Activities to implement project are: (1) Define the business requirements, (On-going) (2) receive technology governance, business review and approval, (Completed in 2025. Ongoing for future projects) (3) go to market through RFP process to understand vendor solutions and options, (On-going) (4) identify the optimal solution and vendor proposals, (On-going) (5) select vendor, MSA review with legal, and SOW creation, (As Needed) (6) develop implementation plan, project timeline, and secure resources, (On-going) (7) implement and configure solution, (On-going) (8) test and validate implementation, and (On-going)		Alternatives will be evaluated in the Analyze and Discovery Phase of the project plan.	These funds are for various business initiatives based on business needs, technology governance, value, and periodization. Benefits of these projects will be determined during the requirements identification and planning phases.	Funds will be used for various business initiatives based on business needs, technology governance, value, and prioritization. If project is completed, the company would not be able to recover on this investment. If the project is not completed, result would be a complete slow down or halt to unplanned but necessary technology projects. This would impact emergency cyber security protections for zero day vulnerabilities, hardware replacements for decommissioned systems, and other unforseen technology needs.
Reliability, Resiliency, and Efficiency	Technology Projects	Quorum Enhancements & Upgrades		This project is a necessary upgrade and enhancement of the company's gas management solution. The Quorum Pipeline and Distribution Management (QPTM) platform is used to manage pipeline gas transport and accounting.	Major activities include solution procurement, internal systems integration, System upgrades and enhancements, System and data migration. Data ingestion and integration. Activities to implement project are: (1) Define the business requirements, (2) receive technology governance, business review and approval, (3) go to market through RFP process to understand vendor solutions and options, (4) identify the optimal solution and vendor proposals, (5) select vendor, MSA review with legal, and SOW creation, (6) develop implementation plan, project timeline, and secure resources, (7) implement and configure solution, (8) test and validate implementation, and	Jan 2026	Dec 2026	Complete project timeline is unknown at this time. This will be identified during project planning. Anticipating 1 year to complete. Activities to implement project are: (1) Define the business requirements, (In-progress) (2) receive technology governance, business review and approval, (In-progress) (3) go to market through RFP process to understand vendor solutions and options, (Not Started) (4) identify the optimal solution and vendor proposals, (Not Started) (5) select vendor, MSA review with legal, and SOW creation, (Not Started) (6) develop implementation plan, project timeline, and secure resources, (Not Started) (7) implement and configure solution, (Not Started) (8) test and validate implementation, and (Not Started)		Alternative solutions will be assessed as part of bidding process in 2026.	The benefits of this upgrade include utilization of a system is that is completely supported by the vendor, continued receipt of system patches to keep security up-to-date, and an updated user interface that offers improvements and greater efficiencies for team members, customers, and contractors utilizing the system.	If project is completed, the company would not be able to recover on this investment. If the project is not completed, the company's ability to manage gas measurement and transport may be jeopardized due to use of an aged and potentially unsupported solution.
Reliability, Resiliency, and Efficiency	Technology Projects	SCADA Upgrade		This project is a necessary upgrade to the company's gas control system used to safely monitor and control pipeline system pressures.	Major activities include solution procurement, internal systems integration, System upgrades, System and data migration. Data ingestion and integration. Activities to implement project are: (1) Define the business requirements, (2) receive technology governance, business review and approval, (3) identify the optimal solution, (4) develop implementation plan, project timeline, and secure resources, (5) implement and configure solution, (6) test and validate implementation, and	Jan 2025	Sep 2026	Complete project timeline is unknown at this time. This will be identified during project planning. Anticipating 1 year to complete. Activities to implement project are: (1) Define the business requirements, (Completed) (2) receive technology governance, business review and approval, (Completed) (3) identify the optimal solution, (Completed) (4) develop implementation plan, project timeline, and secure resources, (In-progress) (5) implement and configure solution, (Not Started) (6) test and validate implementation, and (Not Started)		The vendor (AVEVA) ads in the upgrade of our critical gas control system. By working with the vendor of the SCADA system, we ensure successful and vendor supported deployment. This minimized impact to gas control and the safety of our gas management systems. Since the company worked with the vendor of the SCADA system, no alternatives were considered.	The benefits of this upgrade include utilization of a system is that is completely supported by the vendor, continued receipt of system patches to keep security up-to-date, and an updated user interface that offers improvements and greater efficiencies for team members, customers, and contractors utilizing the system.	If project is completed, the company would not be able to recover on this investment. If the project is not completed, it could jeopardize the company's ability to safely monitor and control the pipeline system.
Reliability, Resiliency, and Efficiency	Technology Projects	Sertifi Upgrade		This project is a necessary upgrade of the company's digital signature solution, which is used for customers and contractors without DocuSign capabilities to digitally sign contracts, orders and agreements.	Major activities include solution procurement, internal systems integration, System upgrades, System and data migration. Data ingestion and integration. Activities to implement project are: (1) Define the business requirements, (2) receive technology governance, business review and approval, (3) go to market through RFP process to understand vendor solutions and options, (4) identify the optimal solution and vendor proposals, (5) select vendor, MSA review with legal, and SOW creation, (6) develop implementation plan, project timeline, and secure resources, (7) implement and configure solution, (8) test and validate implementation, and (9) complete the project roll-out.	Jan 2026	Dec 2026	Complete project timeline is unknown at this time. This will be identified during project planning. Anticipating 1 year to complete. Activities to implement project are: (1) Define the business requirements, (In-progress) (2) receive technology governance, business review and approval, (Completed initial governance review. Final approval come after requirements gathering is complete) (3) go to market through RFP process to understand vendor solutions and options, (Not Started) (4) identify the optimal solution and vendor proposals, (Not Started) (5) select vendor, MSA review with legal, and SOW creation, (Not Started) (6) develop implementation plan, project timeline, and secure resources, (Not Started) (7) implement and configure solution, (Not Started) (8) test and validate implementation, and (Not Started)		Alternative solutions will be assessed as part of bidding process in 2026.	The benefits of this upgrade include utilization of a system is that is completely supported by the vendor, continued receipt of system patches to keep security up-to-date, and an updated user interface that offers improvements and greater efficiencies for team members, customers, and contractors utilizing the system.	If project is completed, the company would not be able to recover on this investment. If the project is not completed, would result in the company continuing to use pen-to-paper manual signatures, manual scanning, and manual filing and maintaining of paper copies of signed contracts, rather than use of digitally signed and stored contracts.

FPSC EXH NO. 79

ADMITTED

		Infor CRB Data Interface	[redacted]	This project is to upgrade and integrate the TPI's Infor solution and Peoples' CRB system. This integration is necessary to streamline the manual processes and improve efficiencies around the customer service delivery into Peoples' CRB system.	Major activities include solution procurement, internal systems integration, System upgrades, System and data migration. Data ingestion and integration. Activities to implement project are: (1) Define the business requirements, (2) receive technology governance, business review and approval, (3) go to market through RFP process to understand vendor solutions and options, (4) identify the optimal solution and vendor proposals, (5) select vendor, MSA review with legal, and SOW creation, (6) develop implementation plan, project timeline, and secure resources, (7) implement and configure solution, (8) test and validate implementation, and (9) complete the project roll-out.	Jan 2026	Dec 2026	Complete project timeline is unknown at this time. This will be identified during project planning. Anticipating 1 year to complete. Activities to implement project are: (1) Define the business requirements, (In-progress) (2) receive technology governance, business review and approval, (Completed Initial governance review. Final approval come after requirements gathering is complete) (3) go to market through RFP process to understand vendor solutions and options, (Not Started) (4) identify the optimal solution and vendor proposals, (Not Started) (5) select vendor, MSA review with legal, and SOW creation, (Not Started) (6) develop implementation plan, project timeline, and secure resources, (Not Started) (7) implement and configure solution, (Not Started) (8) test and validate implementation, and (Not Started)	[redacted]	Alternative solutions will be assessed as part of bidding process in 2026.	This project's benefits include maintaining usability and support of customer data solutions.	If project is completed, the company would not be able to recover on this investment. If the project is not completed, the company would continue using a solution that is nearing end-of-support and would not be able to utilize features and functionality available to newer versions such as better integration with customer systems.
Reliability, Resiliency, and Efficiency	Technology Projects	Transient Cyber Asset & Remote Mod		This project is an implementation of security measures to Peoples' operation technology and cyber protection measures, necessary to meet TSA federal directives / recommendations.	Major activities include solution procurement, internal systems integration, System upgrades, System and data migration. Data ingestion and integration. Implementation of cyber security measures. Activities to implement project are: (1) Define the business requirements, (2) receive technology governance, business review and approval, (3) identify the optimal solution, (4) develop implementation plan, project timeline, and secure resources, (5) implement and configure solution, (6) test and validate implementation, and (7) complete the project roll-out.	Jan 2025	Sep 2026	Complete project timeline is unknown at this time. This will be identified during project planning. Anticipating 1 - 1 1/2 years to complete. Activities to implement project are: (1) Define the business requirements, (Complete) (2) receive technology governance, business review and approval, (Complete) (3) identify the optimal solution, (Complete) (4) develop implementation plan, project timeline, and secure resources, (Complete) (5) implement and configure solution, (In-progress) (6) test and validate implementation, and (Not Started) (7) complete the project roll-out. (Not Started)		Security measures implementation is performed through collaboration between TEC, Peoples, and the Transportation Security Administration. The technology project is shared between TEC and Peoples. Through split cost of total effort, project is least cost-option through affiliate agreement with TEC. These projects are TEC led and generally follow similar steps to Peoples led projects. Generally speaking, each project will include the following steps: a) business requirements gathering, b) assessing internal and external solutions to meet business needs, and c) approving and selecting the most cost effective solution or vendor that provides the most value to the business and customer. Peoples invest a percentage of the total cost, which is the least cost option compared to Peoples conducting the work alone.	This project's benefit include enhancements for remote management of communication modems for gas systems throughout the state and implement cyber related protections based on TSA directives / recommendations.	If project is completed, the company would not be able to recover on this investment. If the project is not completed, the company may not meet TSA Security Directive (SD02) recommendations to added security protection gas operations and pipeline technology and physical security measures.
Reliability, Resiliency, and Efficiency	Technology Projects	TSA		This project is an implementation of security measures to Peoples' information technology, cyber security protection, operation technology and facilities, necessary to meet TSA federal directives / recommendations.	Major activities include solution procurement, internal systems integration, System upgrades, System and data migration. Data ingestion and integration. Implementation of cyber security measures. Activities to implement project are: (1) Define the business requirements, (2) receive technology governance, business review and approval, (3) identify the optimal solution, (4) develop implementation plan, project timeline, and secure resources, (5) implement and configure solution, (6) test and validate implementation, and (7) complete the project roll-out.	Feb 2022	Dec 2026	Work is over multiple years and requires multiple teams and vendors to meet TSA directors that are reviewed and prioritized annually. Complete project timeline is unknown at this time. This will be identified during project planning. Anticipating multiple years to complete as requirements are released annually. Activities to implement project are: (1) Define the business requirements, (On-going) (2) receive technology governance, business review and approval, (Complete) (3) identify the optimal solution, (On-going) (4) develop implementation plan, project timeline, and secure resources, (On-going) (5) implement and configure solution, (On-going) (6) test and validate implementation, and (On-going) (7) complete the project roll-out. (On-going)		Security measures implementation is performed through collaboration between TEC, Peoples, and the Transportation Security Administration. The technology project is shared between TEC and Peoples. Through split cost of total effort, project is least cost-option through affiliate agreement with TEC. These projects are TEC led and generally follow similar steps to Peoples led projects. Generally speaking, each project will include the following steps: a) business requirements gathering, b) assessing internal and external solutions to meet business needs, and c) approving and selecting the most cost effective solution or vendor that provides the most value to the business and customer. Peoples invest a percentage of the total cost, which is the least cost option compared to Peoples conducting the work alone.	This project allows the company to comply with TSA Security Directive (SD02a-e) security recommendations to harden the technology, cyber, and physical security of gas operations and facilities.	If project is completed, the company would not be able to recover on this investment. If the project is not completed, the company may not meet TSA Security Directive (SD02) recommendations to added security protection gas operations and pipeline technology and physical security measures.
Reliability, Resiliency, and Efficiency	Technology Projects	WAM Enhancements 2026		This project is involves enhancing the company's Work & Asset Management ("WAM") system. Enhancements includes integrations and sync improvements, user experience improvements, and other gas operation needs.•Enhancements are changes identified by the users of the system, such as field technicians, and are necessary to improve their ability to better serve customers. Periodic enhancements to the system are necessary to maintain the system and address process changes and improvements.	Major activities include solution procurement, internal systems integration, System upgrades, System and data migration. Data ingestion and integration. Activities to implement project are: (1) Define the business requirements, (2) receive technology governance, business review and approval, (3) go to market through RFP process to understand vendor solutions and options, (4) identify the optimal solution and vendor proposals, (5) select vendor, MSA review with legal, and SOW creation, (6) develop implementation plan, project timeline, and secure resources, (7) implement and configure solution, (8) test and validate implementation, and	Jan 2026	Dec 2026	The timeline by activity is unknown at this time. The scope of work and timeline of activities will be defined early 2026 in anticipation of the RFP in Q2/Q3 of that year.		Alternative solutions will be assessed as part of bidding process in 2026.	Benefits of this project include ensuring the systems are available, continue to supported by vendors and/or the organization, and effective security and controls are in place. Additional benefits to WAM system include improved synchronization time of work orders that will allow field technicians to complete work faster, improvements how information is entered in WAM on the iPad which improves data accuracy and lessen data correction activities, and other enhancements that allows crews to more efficiently complete service and support work to customers.	If project is completed, the company would not be able to recover on this investment. If the project is not completed, the system may not be able to receive necessary features and efficiencies available in enhancements. The operation of this system is crucial in team member's ability to serve customers.
Reliability, Resiliency, and Efficiency	Technology Projects	WAM Upgrade		This project involves the company's Work & Asset Management ("WAM") system. Periodic system upgrades are necessary to ensure the system has security improvements, improvements to user interfaces, meet software solution vendor versioning requirements, and other useful improvements that keep the system running smoothly. Upgrades are new versions of the solution released by the vendor and deployed to provide vendor driven and supported changes to the overall functionality of the system. This would include solution core upgrades such as user interface improvements, security and system patches, and other necessary components. Upgraded components include: SAP S4 HANA – On premise, back-end SAP application and Enterprise Asset Management (EAM) module. This will include the core back-end applications, Fiori User Interface, and integrations to all satellite systems (CRB, ERP, GIS, Infor, etc.) Field Service Manager (FSM) – FSM is the application for work order scheduling and dispatching, resource managing, and work/route optimizing. This will include the SAP cloud-based application, SAP Mobiles Services, FSM integrations with SAP S4, SUAM and external applications such as AVL. SAP Service and Asset Manager (SSAM) - Mobile application developed for iOS (iPad Pro) that provides the solution for technicians to execute work orders	Major activities include solution procurement, internal systems integration, System upgrades, System and data migration. Data ingestion and integration. Activities to implement project are: (1) Define the business requirements, (2) receive technology governance, business review and approval, (3) go to market through RFP process to understand vendor solutions and options, (4) identify the optimal solution and vendor proposals, (5) select vendor, MSA review with legal, and SOW creation, (6) develop implementation plan, project timeline, and secure resources, (7) implement and configure solution, (8) test and validate implementation, and (9) complete the project roll-out.	Jun 2024	Dec 2026	WAM upgrades are periodic, multiyear efforts due to the number different modules and components that make up the WAM system and vendor upgrade release cycles. This include the core SAP S4 system upgrade, SSAM, and FSM modules within WAM. Also, because there are integrations with the ERP, CRB, and other financial and customer systems, plenty of testing has to be coordinated between the PGS business, PGS IT, TEC IT, and TEC business functions for system, regression and business user acceptance testing. Anticipating 2 years to complete the full WAM ecosystem upgrade where each upgraded module and component can be deployed within that timeline as we complete individual component upgrade activities. Some activities can and will be done in parallel. Activities to implement project are: (1) Define the business requirements, (Complete) (2) receive technology governance, business review and approval, (Complete) (3) go to market through RFP process to understand vendor solutions and options, (Complete) (4) identify the optimal solution and vendor proposals, (Complete) (5) select vendor, MSA review with legal, and SOW creation, (Complete) (6) develop implementation plan, project timeline, and secure resources, (Complete) (7) implement and configure solution, (In-progress. 1-2 years to complete based on module upgrade activities. Full system upgrade complete in 2026). (8) test and validate implementation, and (In-progress. Testing phase is usually 1 month for each module, 1 - 1/2 months for core SAP and integration testing). (9) complete the project roll-out. (Not Started. Upgraded modules will be rolled out as their upgrade tasks are complete).		Based on a competitive bidding process, the lowest cost provider with the experiences and capabilities needed was selected. The alternative of not upgrading the system would lead to the loss of benefits including security patches, efficiencies and system performance.	The benefits of this upgrade include utilization of a system is that is completely supported by the vendor, continued receipt of system patches to keep security up-to-date, and an updated user interface that offers improvements and greater efficiencies for team members utilizing the system.	If project is completed, the company would not be able to recover on this investment. If the project is not completed, the system may not be able to receive necessary features, updates from the vendor, and features and efficiencies available in upgraded versions. The operation of this system is crucial in team member's ability to serve customers.
Reliability, Resiliency, and Efficiency	Technology Projects (Sha	Allegro Upgrade 2025		This project is a necessary upgrade of the company's solution utilized for gas trading and associated accounting and compliance. Periodic system upgrades are necessary to ensure the system has security improvements, improvements to user interfaces, meet software solution vendor versioning requirements, and other useful improvements that keep the system running smoothly.	Projects led by TEC generally follow similar steps to Peoples led projects. Generally speaking, each project will include the following steps: (1) Define the business requirements, (2) receive technology governance, business review and approval, (3) go to market through RFP process to understand vendor solutions and options, (4) identify the optimal solution and vendor proposals, (5) select vendor, MSA review with legal, and SOW creation, (6) develop implementation plan, project timeline, and secure resources, (7) implement and configure solution, (8) test and validate implementation, and (9) complete the project roll-out.	Feb 2025	Sep 2025	TEC is managing the execution of this project utilizing standard steps for technology projects with a projected time to complete of September 2025. PGS does not have the detailed breakdown of timeframe by activity.		Technology project shared between TEC and Peoples. Through split cost of total effort, project is least cost-option through affiliate agreement with TEC. These projects are TEC led and generally follow similar steps to Peoples led projects. Generally speaking, each project will include the following steps: a) business requirements gathering, b) assessing internal and external solutions to meet business needs, and c) approving and selecting the most cost effective solution or vendor that provides the most value to the business and customer. Peoples invest a percentage of the total cost, which is the least cost option compared to Peoples conducting the work alone.	The benefits of this upgrade include utilization of a system is that is completely supported by the vendor, continued receipt of system patches to keep security up-to-date, and an updated user interface that offers improvements and greater efficiencies for team members utilizing the system.	If project is completed, the company would not be able to recover on this investment. If the project is not completed, the company would have to continue to use an outdated and unsupported version, which could jeopardize the process of gas trading and the associated compliance and accounting.
Reliability, Resiliency, and Efficiency	Technology Projects (Sha	EECP Enhancement		This project is for necessary enhancements to the company's energy rebate processing system. Periodic enhancements are necessary to ensure effective operation continues and to align with changing processes.	Projects led by TEC generally follow similar steps to Peoples led projects. Generally speaking, each project will include the following steps: (1) Define the business requirements, (2) receive technology governance, business review and approval, (3) go to market through RFP process to understand vendor solutions and options, (4) identify the optimal solution and vendor proposals, (5) select vendor, MSA review with legal, and SOW creation, (6) develop implementation plan, project timeline, and secure resources, (7) implement and configure solution, (8) test and validate implementation, and (9) complete the project roll-out.	Apr 2025	Nov 2025	TEC is managing the execution of this project utilizing standard steps for technology projects with a projected time to complete of November 2025. PGS does not have the detailed breakdown of timeframe by activity.		Technology project shared between TEC and Peoples. Through split cost of total effort, project is least cost-option through affiliate agreement with TEC. These projects are TEC led and generally follow similar steps to Peoples led projects. Generally speaking, each project will include the following steps: a) business requirements gathering, b) assessing internal and external solutions to meet business needs, and c) approving and selecting the most cost effective solution or vendor that provides the most value to the business and customer. Peoples invest a percentage of the total cost, which is the least cost option compared to Peoples conducting the work alone.	Benefits of this project include assurance that systems are available, continue to supported by vendors and/or the organization, and effective security and controls are in place.	If project is completed, the company would not be able to recover on this investment. If the project is not completed, the company may have to use outdated features and functionality of its rebate processing system, and customers applying for rebates may be impacted by system issues or these outdated features.
Reliability, Resiliency, and Efficiency	Technology Projects (Sha	EPM Enhancement		This project is for necessary enhancements to the company's Enterprise Performance Management ("EMP") solution used for financial reporting and analysis. Periodic enhancements are necessary to ensure effective operation continues and to align with changing processes.	Projects led by TEC generally follow similar steps to Peoples led projects. Generally speaking, each project will include the following steps: (1) Define the business requirements, (2) receive technology governance, business review and approval, (3) go to market through RFP process to understand vendor solutions and options, (4) identify the optimal solution and vendor proposals, (5) select vendor, MSA review with legal, and SOW creation, (6) develop implementation plan, project timeline, and secure resources, (7) implement and configure solution, (8) test and validate implementation, and (9) complete the project roll-out.	Feb 2025	Nov 2025	TEC is managing the execution of this project utilizing standard steps for technology projects with a projected time to complete of November 2025. PGS does not have the detailed breakdown of timeframe by activity.		Technology project shared between TEC and Peoples. Through split cost of total effort, project is least cost-option through affiliate agreement with TEC. These projects are TEC led and generally follow similar steps to Peoples led projects. Generally speaking, each project will include the following steps: a) business requirements gathering, b) assessing internal and external solutions to meet business needs, and c) approving and selecting the most cost effective solution or vendor that provides the most value to the business and customer. Peoples invest a percentage of the total cost, which is the least cost option compared to Peoples conducting the work alone.	Benefits of this project include assurance that systems are available, continue to supported by vendors and/or the organization, and effective security and controls are in place.	If project is completed, the company would not be able to recover on this investment. If the project is not completed, the company could be limited in its ability to perform analysis on actual versus forecast business planning activities due to inability to integrate with its various financial systems.
Reliability, Resiliency, and Efficiency	Technology Projects (Sha	Payroll Process Enhancements		This project is for necessary enhancements to the company's payroll processing system. Periodic enhancements are necessary to ensure effective operation continues and to align with changing processes.	Projects led by TEC generally follow similar steps to Peoples led projects. Generally speaking, each project will include the following steps: (1) Define the business requirements, (2) receive technology governance, business review and approval, (3) go to market through RFP process to understand vendor solutions and options, (4) identify the optimal solution and vendor proposals, (5) select vendor, MSA review with legal, and SOW creation, (6) develop implementation plan, project timeline, and secure resources, (7) implement and configure solution, (8) test and validate implementation, and (9) complete the project roll-out.	Mar 2024	Dec 2025	TEC is managing the execution of this project utilizing standard steps for technology projects with a projected time to complete of December 2025. PGS does not have the detailed breakdown of timeframe by activity.		Technology project shared between TEC and Peoples. Through split cost of total effort, project is least cost-option through affiliate agreement with TEC. These projects are TEC led and generally follow similar steps to Peoples led projects. Generally speaking, each project will include the following steps: a) business requirements gathering, b) assessing internal and external solutions to meet business needs, and c) approving and selecting the most cost effective solution or vendor that provides the most value to the business and customer. Peoples invest a percentage of the total cost, which is the least cost option compared to Peoples conducting the work alone.	Benefits of this project include assurance that systems are available, continue to supported by vendors and/or the organization, and effective security and controls are in place.	If project is completed, the company would not be able to recover on this investment. If the project is not completed, the company's ability to process payroll to support company growth may be negatively impacted. The company will also have to continue to rely on manual processes and inefficiencies that cause payroll delays and errors.
Reliability, Resiliency, and Efficiency	Technology Projects (Sha	PowerPlan Upgrade 2025		This project is for a necessary upgrade to the company's fixed asset management system. Periodic system upgrades are necessary to ensure the system has security improvements, improvements to user interfaces, and other useful improvements that keep the system running smoothly.	Projects led by TEC generally follow similar steps to Peoples led projects. Generally speaking, each project will include the following steps: (1) Define the business requirements, (2) receive technology governance, business review and approval, (3) go to market through RFP process to understand vendor solutions and options, (4) identify the optimal solution and vendor proposals, (5) select vendor, MSA review with legal, and SOW creation, (6) develop implementation plan, project timeline, and secure resources, (7) implement and configure solution, (8) test and validate implementation, and (9) complete the project roll-out.	Oct 2025	Dec 2025	TEC is managing the execution of this project utilizing standard steps for technology projects with a projected time to complete of December 2025. PGS does not have the detailed breakdown of timeframe by activity.		Technology project shared between TEC and Peoples. Through split cost of total effort, project is least cost-option through affiliate agreement with TEC. These projects are TEC led and generally follow similar steps to Peoples led projects. Generally speaking, each project will include the following steps: a) business requirements gathering, b) assessing internal and external solutions to meet business needs, and c) approving and selecting the most cost effective solution or vendor that provides the most value to the business and customer. Peoples invest a percentage of the total cost, which is the least cost option compared to Peoples conducting the work alone.	The benefits of this upgrade include utilization of a system is that is completely supported by the vendor, continued receipt of system patches to keep security up-to-date, and an updated user interface that offers improvements and greater efficiencies for team members utilizing the system.	If project is completed, the company would not be able to recover on this investment. If the project is not completed, the company would continue to use manual processes and a system that is near its end-of-life and end-of-support, as well as costly to maintain.
Reliability, Resiliency, and Efficiency	Technology Projects (Sha	PowerTax Reimplementation		This project is for necessary improvements to the interfacing of the company's tax solution and its Enterprise Resource Planning system, SAP. The spend in 2025 is the remaining costs associated with this project that started in late 2023.	Projects led by TEC generally follow similar steps to Peoples led projects. Generally speaking, each project will include the following steps: (1) Define the business requirements, (2) receive technology governance, business review and approval, (3) go to market through RFP process to understand vendor solutions and options, (4) identify the optimal solution and vendor proposals, (5) select vendor, MSA review with legal, and SOW creation, (6) develop implementation plan, project timeline, and secure resources, (7) implement and configure solution, (8) test and validate implementation, and (9) complete the project roll-out.	Oct 2023	Jun 2025	TEC is managing the execution of this project utilizing standard steps for technology projects with a projected time to complete of June 2025. PGS does not have the detailed breakdown of timeframe by activity.		This project is part of a shared initiative with TEC finance department to improve processes and automation of controls between SAP and PowerTax interfaces. As part of the affiliate relationship, work was done through TEC IT and Deloitte, who's the AMS technical team for TEC IT ERP department and supports the TEC and Peoples finance businesses. Cost for effort is split between companies and therefore, no alternatives were considered.	A benefit of this project is improved interfacing between the company's tax and financial accounting systems.	This project has been completed, and denial by the Commission would result in the company not being able to recover on this investment.
Reliability, Resiliency, and Efficiency	Technology Projects (Sha	TEC Shared Projects -ACCTG- 2026 PH		This project is for necessary enhancements to the company's accounting systems. Periodic enhancements are necessary to ensure effective operation continues and to align with changing processes.	Scope of work to be identified end of Q3 2025 for 2026 shared projects. Projects led by TEC generally follow similar steps to Peoples led projects. Generally speaking, each project will include the following steps: (1) Define the business requirements, (2) receive technology governance, business review and approval, (3) go to market through RFP process to understand vendor solutions and options, (4) identify the optimal solution and vendor proposals, (5) select vendor, MSA review with legal, and SOW creation, (6) develop implementation plan, project timeline, and secure resources, (7) implement and configure solution, (8) test and validate implementation, and (9) complete the project roll-out. As 2026 shared projects are identified, reviewed and approved, the Peoples investment percentage costs are deducted from this efforts to ensure projects meet capital investment commitment.	Jan 2026	Dec 2026	The timeline by activity is unknown at this time. The scope of work will be defined by the end of Q3 2025 at which time the timeline by activity will be known.		Alternative solutions will be assessed as part of bidding process in 2026.	Benefits of this project include assurance that systems are available, continue to supported by vendors and/or the organization, and effective security and controls are in place.	If project is completed, the company would not be able to recover on this investment. If the project is not completed, Accounting system upgrades and enhancements may be at risk of completion, which could prevent the company from improving business processes and ensuring systems are available and supported by vendors and/or the organization.

This would impact emergency cyber security protections for zero day vulnerabilities, hardware replacements for decommissioned systems, and other unforeseen technology needs.
Reliability, Resiliency, and Efficiency	Technology Projects (Sha Wireless Infrastructure Refresh 25	This project is for necessary replacement of aging wireless equipment that is no longer supported.	Projects led by TEC generally follow similar steps to Peoples led projects. Generally speaking, hardware replacement project will include the following steps: (1) identify the optimal solution and vendor proposals, (2) develop implementation plan, project timeline, and secure resources, (3) implement and configure solution, (4) test and validate implementation, and (5) complete the project roll-out.	Apr 2025	Apr 2025	This project had a relatively short duration and has been completed. Installation of the hardware took 4 weeks.	[redacted]	Technology project shared between TEC and Peoples. Through split cost of total effort, project is least cost option through affiliate agreement with TEC. Wireless router replacement work is usual done directly by TEC or their subcontractor. This is considered routine capital shared technology hardware work. Peoples investment is a percentage of the total cost of equipment replacement, this is the least cost option compared to Peoples conducting the work alone.	The benefits of this project include improvements to work efficiency for team members, a reduction of time spent by team members addressing internet access issues, and improved wireless security.	If project is completed, the company would not be able to recover on this investment. If the project is not completed, team member work efficiency could be impacted and the company's wireless system could be compromised due to out dated security.
Reliability, Resiliency, and Efficiency	Technology Projects (Sha Equifax/POS ID Check Replacement	This project is necessary for the replacement of the company's customer identification system with a modern POS ID credit check system. This project will ensure compliance with the identity Theft Red Flags Rule (the "Rule") under the Fair Credit Reporting Act, 16 C.F.R. Section 681 which requires each company to develop and implement a written Identity Theft Prevention Program ("Program") that (1) identifies "Red Flags" (patterns, practices, or specific activities that indicate identity theft), (2) detects Red Flags, (3) responds appropriately to any Red Flags detected to prevent and mitigate identity theft, and (4) ensures the Program is updated regularly.	Projects led by TEC generally follow similar steps to Peoples led projects. Generally speaking, each project will include the following steps: (1) Define the business requirements, (2) receive technology governance, business review and approval, (3) go to market through RFP process to understand vendor solutions and options, (4) identify the optimal solution and vendor proposals, (5) select vendor, MSA review with legal, and SOW creation, (6) develop implementation plan, project timeline, and secure resources, (7) implement and configure solution, (8) test and validate implementation, and (9) complete the project roll-out.	Jul 2024	Dec 2025	TEC is managing the execution of this project utilizing standard steps for technology projects with a projected time to complete of December 2025. PGS does not have the detailed breakdown of timeframe by activity.	[redacted]	Technology project shared between TEC and Peoples. Through split cost of total effort, project is least cost option through affiliate agreement with TEC. These projects are TEC led and generally follow similar steps to Peoples led projects. Generally speaking, each project will include the following steps: a) business requirements gathering, b) assessing internal and external solutions to meet business needs, and c) approving and selecting the most cost effective solution or vendor that provides the most value to the business and customer. Peoples invest a percentage of the total cost, which is the least cost option compared to Peoples conducting the work alone.	A benefit of this new system is that it gives the company the ability to utilize modern fraud protection measures. These measure could prevent fraud that could potential impact the company and all rate payers.	If project is completed, the company would not be able to recover on this investment. If the project is not completed, the company would not be able to utilize modern fraud protection measures provided by the new system.
Reliability, Resiliency, and Efficiency	Technology Projects (Sha Intrado Replacement	This project is necessary for the replacement of the company's aging IVR system with a modern system that has AI and automation capabilities. The replacement is necessary to ensure continued and improved service to the company's customers.	Projects led by TEC generally follow similar steps to Peoples led projects. Generally speaking, each project will include the following steps: (1) Define the business requirements, (2) receive technology governance, business review and approval, (3) go to market through RFP process to understand vendor solutions and options, (4) identify the optimal solution and vendor proposals, (5) select vendor, MSA review with legal, and SOW creation, (6) develop implementation plan, project timeline, and secure resources, (7) implement and configure solution, (8) test and validate implementation, and (9) complete the project roll-out. PGS does not have the detailed breakdown of timeframe by activity.	[redacted]	Technology project shared between TEC and Peoples. Through split cost of total effort, project is least cost option through affiliate agreement with TEC. These projects are TEC led and generally follow similar steps to Peoples led projects. Generally speaking, each project will include the following steps: a) business requirements gathering, b) assessing internal and external solutions to meet business needs, and c) approving and selecting the most cost effective solution or vendor that provides the most value to the business and customer. Peoples invest a percentage of the total cost, which is the least cost option compared to Peoples conducting the work alone.	Benefits include improved customer service and experience when calling in through the IVR system. These improvements will be achieved with the new system by utilizing AI and automation to resolve customer requests with minimum routing.	If project is completed, the company would not be able to recover on this investment. If the project is not completed, a customer's experience may be negatively impacted by the current IVR system due to the older tone and voice response menu and agent navigation. The new system utilizes AI and automation to resolve customer requests with minimum routing.
Reliability, Resiliency, and Efficiency	Technology Projects (Sha Move In Re-Imagine - PE	This project is necessary to modernize and streamline the company's service initiation and transfer processes through a dual-interface system that supports both customer self-service and call center operations. The necessity is grounded in several key industry-aligned drivers: · Aging Infrastructure & Digital Modernization: Traditional service initiation processes are often manual, error-prone, and inefficient. Modernizing these systems aligns with industry best practices for digital transformation, ensuring we remain competitive and responsive to evolving customer expectations. · Customer Reliability Expectations: Customers increasingly expect seamless, digital-first interactions. The project addresses this by enabling a self-service portal that supports move-in and transfer requests, significantly improving convenience and reducing wait times. · Operational Efficiency: The project targets inefficiencies in current workflows, aiming to reduce total handle time (THT) and average handle time (AHT) in the contact center. · A 7.98% reduction in THT and a 19-second reduction in AHT was realized from 2023 to 2024 demonstrate tangible efficiency gains.	Projects led by TEC generally follow similar steps to Peoples led projects. Generally speaking, each project will include the following steps: (1) Define the business requirements, (2) receive technology governance, business review and approval, (3) go to market through RFP process to understand vendor solutions and options, (4) identify the optimal solution and vendor proposals, (5) select vendor, MSA review with legal, and SOW creation, (6) develop implementation plan, project timeline, and secure resources, (7) implement and configure solution, (8) test and validate implementation, and (9) complete the project roll-out.	Jul 2024	Dec 2025	TEC is managing the execution of this project utilizing standard steps for technology projects with a projected time to complete of December 2025. PGS does not have the detailed breakdown of timeframe by activity.	[redacted]	· Status Quo: Maintaining current systems was deemed unsustainable due to increasing call volumes, inconsistent customer experiences, and lack of transparency in payment arrangements. · Manual Enhancements: Incremental improvements to existing systems were considered but lacked scalability and would not support omni-channel capabilities or risk-based profiling. The selected approach balances cost, risk, and benefit by leveraging existing assets (SAP CRM) while focusing scope on high-impact areas like move-in and transfer services.	The following benefits were realized from 2023 to 2024 following the implementation of the first phase of work: · 7.98% reduction in Total Handle Time (THT) from 2023 to 2024. · 19-second reduction in Average Handle Time (AHT) year-over-year. · 45% of move-ins completed via self-service post-launch (up from 10%). · 6.2%–7.2% reduction in THT due to call deflection from the newly delivered self-service option. · Improved Customer Satisfaction (CSAT) through faster, error-free service. · Enhanced Net Promoter Score, a metric used to gauge customer loyalty and satisfaction, by delivering a modern, user-friendly experience. · Increased Employee Efficiency by reducing repetitive tasks and enabling focus on complex issues. · Regulatory Alignment with expectations for digital accessibility and service transparency. · Trust and Communication improvements through verified communication channels and portal adoption.	If project is completed, the company would not be able to recover on this investment. If the project is not completed, impacts include: · Operational Inefficiencies: Continued reliance on manual processes would sustain higher handle times and labor costs. · Customer Dissatisfaction: Delays in service initiation and lack of digital options could erode trust and satisfaction, as evident in negatively impacted NPS and CSAT metrics. · Non-Compliance Risks: Failure to modernize may result in non-compliance with evolving regulatory expectations for digital service delivery. · Cybersecurity Exposure: Legacy systems may lack modern security features, increasing risk. · Reputational Harm: Falling behind industry peers in digital transformation could damage the stakeholder confidence and trust.

		ces & Preference Center	[redacted]	The Preference Center Platform is a critical investment aligned with industry best practices in customer engagement, operational efficiency, and regulatory compliance. The necessity of this project is driven by the following factors: · Aging and Fragmented Infrastructure: The current lack of a centralized communication preference system results in disjointed customer experiences and inefficient internal processes. This fragmentation is typical of legacy systems that have not kept pace with digital modernization trends in the utility sector. · Customer Reliability and Satisfaction Expectations: Customers increasingly expect personalized, timely, and relevant communications. Without a centralized platform, we risk sending irrelevant or excessive notifications, leading to dissatisfaction, increased opt-out rates, and erosion of trust. · Operational Efficiency: High call volumes related to communication preferences indicate a significant inefficiency. Automating and centralizing these functions will reduce manual interventions, lower operational costs, and free up resources for higher-value activities. · Digital Modernization: This project supports broader digital transformation initiatives by enhancing self-service capabilities and integrating with SAP CRM and notification systems, aligning with industry trends toward customer-centric digital platforms.	Projects led by TEC generally follow similar steps to Peoples led projects. Generally speaking, each project will include the following steps: (1) Define the business requirements, (2) receive technology governance, business review and approval, (3) go to market through RFP process to understand vendor solutions and options, (4) identify the optimal solution and vendor proposals, (5) select vendor, MSA review with legal, and SOW creation, (6) develop implementation plan, project timeline, and secure resources, (7) implement and configure solution, (8) test and validate implementation, and (9) complete the project roll-out.	Jan 2025	Dec 2025	TEC is managing the execution of this project utilizing standard steps for technology projects with a projected time to complete of December 2025. PGS does not have the detailed breakdown of timeframe by activity.	[redacted]	In-House Development · Pros: Full customization and potentially lower long-term costs. · Cons: Requires significant internal resources, longer development timelines, and higher upfront investment. Given current resource constraints and the need for timely implementation, this option may not be viable. Vendor Solution: · Pros: Faster deployment, access to proven technology, and vendor expertise in integration and compliance. · Cons: Higher ongoing costs and potential vendor lock-in. However, these are mitigated through contract negotiations and service-level agreements. Cost Minimization Efforts: · Evaluated phased implementation to spread costs and reduce rate impacts. · Leveraged existing SAP CRM to minimize integration costs. · Engaged cross-functional teams to ensure alignment with ongoing digital initiatives, avoiding duplication of efforts.	· Reduced Call Volume: Automation of preference management is expected to reduce related call center traffic. · Cost Savings: Lower operational costs through reduced manual processing and improved efficiency. · Improved Net Promotor Score ("NPS"): Enhanced customer satisfaction is projected to improve NPS, which is a metric used to gauge customer loyalty and satisfaction. · Lower Opt-Out Rates: More relevant communications are expected to reduce opt-out rates. · Customer Empowerment: Customers gain control over how and when they are contacted, improving trust and engagement. · Employee Satisfaction: Reduced complaint handling and better tools improve job satisfaction and productivity. · Regulatory Alignment: Ensures compliance with evolving data privacy laws, reducing legal exposure. · Strategic Enablement: Supports targeted, consent-based marketing and upsell opportunities, enhancing long-term customer value.	If project is completed, the company would not be able to recover on this investment. If the project is not completed, impacts include: · Continued inefficiencies and high call volumes, leading to increased operational costs. · Greater reliance on manual processes, increasing the risk of errors and service delays. · Rising dissatisfaction due to irrelevant or excessive communications. · Increased opt-out rates and potential customer churn. · Misalignment with digital transformation goals. · Reputational harm from perceived lack of responsiveness to customer needs. · Legacy systems may lack modern security features, increasing vulnerability to data breaches.
Reliability, Resiliency, and Efficiency	Technology Projects (Sha	Payment Arrangement Reimagine - PE	[redacted]	This project is necessary to modernize and enhance the customer service capabilities, aligning with industry best practices in digital transformation, customer experience, and operational efficiency. Key drivers include: · Aging Customer Service Infrastructure: Traditional call centers are increasingly inadequate for meeting modern customer expectations. Transitioning to a digital-first, omni-channel contact center ensures we remain responsive and efficient. · Customer Reliability and Expectations: Customers expect seamless, self-service options for managing their accounts, especially for sensitive matters like payment arrangements. This project addresses those expectations by enabling consistent, transparent, and accessible support. · Operational Efficiency: By reducing call volumes through self-service and first-call resolution, we can optimize staffing and reduce operational costs. · Safety and Employee Satisfaction: Streamlining processes and reducing manual interventions lowers stress and error rates for employees, contributing to a safer and more satisfying work environment. · Regulatory and Equity Considerations: Transparent eligibility criteria and risk-based profiling support equitable access to payment assistance, aligning with regulatory expectations for fairness and non-discrimination.	Projects led by TEC generally follow similar steps to Peoples led projects. Generally speaking, each project will include the following steps: (1) Define the business requirements, (2) receive technology governance, business review and approval, (3) go to market through RFP process to understand vendor solutions and options, (4) identify the optimal solution and vendor proposals, (5) select vendor, MSA review with legal, and SOW creation, (6) develop implementation plan, project timeline, and secure resources, (7) implement and configure solution, (8) test and validate implementation, and (9) complete the project roll-out.	Jul 2024	Dec 2025	TEC is managing the execution of this project utilizing standard steps for technology projects with a projected time to complete of December 2025. 28. Please refer to page 33, lines 9 through 14. Please explain how PGS determines which capital investments to defer when spending needs to be reduced.

a. Please list all Growth and RRE projects that PGS deferred but are included in PGS's base rate increase request. As part of this response, please explain how PGS determined that the project could be deferred, and why each project is still necessary.

ANSWER:

Deferments of capital projects can occur for a variety of reasons, both within and outside the company's control. For Growth and Municipal Improvement projects, the schedules are primarily dictated by the customer's requirements or mandates from agencies, respectively. Other drivers of deferment include permitting issues, risk assessments, operational considerations, and the discovery of different or new projects that impact safety, resiliency, or reliability after the budgeting period. Based on these inputs, project schedules can remain fluid to best support a safe and reliable gas system.

Please see the table below listing the Growth and RRE projects from its 2023 and 2024 capital plan that Peoples deferred and have now included in its 2025 or 2026 capital plan.

29. Please refer to page 34, lines 1 through 9. Please identify the unplanned RNG Pipeline Project and the Large Municipal Relocation Project, and explain why PGS determined it was best to defer other planned projects to complete each of these projects.

ANSWER:

The "Unplanned RNG Pipeline Project" is the Polk County RNG pipeline project, which involves constructing a pipeline that connects an RNG facility to an interstate pipeline for landfill waste RNG at the Polk County Landfill. Other planned projects were deferred to complete this project because the company had to balance the demand from customers for new services and the needs of the existing system. The company was able to meet this customer's needs while staying within its overall capital plan amount by deferring those projects that could be deferred without increasing risk or continuing a high risk to the existing system.

The "Large Municipal Relocation Project" is the US 98 Relocation project, which was a 12-mile roadway project mandated by a Florida Department of Transportation ("FDOT") permit. The pipeline was initially constructed in 1980 within the FDOT right-of-way ("ROW"), and relocation of the pipeline was required to accommodate the widening of US 98 from two lanes to four lanes. Peoples needed to have the pipe relocated and the old pipe removed by the end of March 2025, which was achieved. Other planned projects were deferred to allow for completion of this project within the timeframe set by the government mandate and for the company to stay within its total capital plan amount.

30. Please refer to page 40, lines 13 through 18. Please identify the relevant rate schedules for the CNG and RNG projects.

ANSWER:

The relevant rate schedules for Compressed Natural Gas ("CNG") customers are GS-1, GS-2, GS-3, GS-4, and GS-5. The applicable rate schedule is determined by the CNG customer's annual consumption measured in therms. Since CNG customers are generally larger users, they are often on the GS-4 and GS-5 rate schedules.

Customers seeking infrastructure to interconnect Renewable Natural Gas ("RNG") to a pipeline system are subject to the RNGIS Rate Schedule. This schedule is available to any customer interconnecting with an interstate or intrastate pipeline or delivering RNG into the company's distribution system for transportation and delivery.

INTERROGATORY NO. 31
BATES PAGE(S): 17887-17888
JUNE 4, 2025

31. Please refer to page 41, lines 7 through 13. Please identify each of the planned customer-backed RNG and CNG projects, and indicate if each project has a customer commitment. If not, please detail why PGS believes it is prudent to include costs for each relevant project in its rate increase request.

ANSWER:

Peoples is answering this interrogatory in full by producing records as allowed under Florida Rule of Civil Procedure 1.340(c) and by posting these documents to the confidential section of the discovery SharePoint site for this case subject to a Motion for Protective Order or Request for Confidential Classification filed contemporaneously with this response. A portion of the company's answer reflecting ongoing negotiations with customers, or potential customers, includes proprietary confidential business information and the confidential answer will be posted in the Confidential Section of the Consumer Party SharePoint Site in the folder entitled "CONF_ROG_5_31" or provided via USB.

The capital dollars for the CNG projects listed in the table provided in the folder noted above are based on a combination of advanced customer discussions and historical annual spending on CNG projects. Over the past few years, Peoples has signed three to four gas services agreements each year to serve new CNG stations and believes this estimate to be reasonable. For 2025, the company is currently in advanced discussions with four CNG customers to execute gas services agreements for four new CNG stations. Additionally, all CNG interconnection pipeline projects will be supported by customer commitments.

Each RNG interconnection pipeline project shown in the attached table has or will have customer commitments prior to the start of construction. These commitments include multi-year contract terms with annual fixed price service charges. The service charges are calculated in accordance with the RGSI tariff and are based on the total installed cost of the pipeline facilities, a reasonable rate of return on this total cost, and ongoing O&M costs.

33. Please refer to page 45, line 23, through page 46, line 6. From 2020 to date, please detail all issues PGS has encountered with the cased gas main that it is proposing to replace.

ANSWER:

While Peoples has not identified any leaks historically, the company is proposing to replace the existing Tampa Downtown cased pipeline because of inherent risks associated with this asset. In the event of a leak, the casing can pose significant challenges for both leak detection and emergency response. The annular space between the carrier pipe and the casing can allow gas to migrate to unintended areas, such as manholes or other confined spaces, potentially increasing the risk to public safety and property. Moreover, the casing can hinder the timely detection and precise localization of the leak, as migrating gas may travel undetected before becoming evident, thereby complicating response efforts and elevating the potential for harm.

JUNE 4, 2025

35. Please refer to page 48, lines 1 through 12. Please identify the "eight smaller projects" in 2025, and the relevant relocation requirement for each. As part of this response, please provide the individual project cost for each.

a. Please detail how the $11.4 million estimate based on trending was determined. As part of this response, please explain why this amount should be approved if it is not associated with known projects.

b. Please identify the "one small known project" in 2026.

ANSWER:

Please see the table below identifying the known projects for 2025. In formulating this response, the company determined that a municipal improvements blanket project was included as a "smaller project" in witness Richard's direct testimony, page 48, line 7. There are in fact only seven smaller projects totaling $6.6 million. The costs for this blanket project should be included in the trended costs for municipal improvements totaling $11.7 million. This is a correction to what was stated as $6.9 million for the smaller projects and $11.4 million trended on page 48, line 7 and 8 of witness Richard's direct testimony. The total cost for municipal projects in 2025, including US 98, remains $24.2 million as stated on page 48, line 4 of witness Richard's direct testimony.

The relocation requirement is the notification received from a state or county agency mandating the relocation of utilities based on authority granted to such agencies under Sections 337.403 and 337.404 of the Florida Statutes.

PEOPLES GAS SYSTEM, INC.
2025 Municipal Relocations - Known Projects Excluding US-98

	2025 Capital Plan
County Road 210 Relocation	25,000
FDOT SR 23 Relocate	463,136
FDOT Withlacoochee Relocate	4,218,466
I-75 and Fruitville Rd, Sarasota	500,000
I-95 - SW 10th St - Deerfield Beach	750,000
Westwood Blvd & Central Pkwy SR 535	347,412
Williamson & Hand Volusia Improv.	310,159
	$ 6,614,173

a. Over the past three years (2022-2024), the company has recorded an average of $12.8 million in capital expenditures related to municipal relocations. Given the expectation of ongoing road expansion projects necessary to accommodate Florida's growth, the company expects this level of activity to continue and believes this projection is reasonable. When preparing the 2025 budget, the company applied the forecasted CPI inflation factor of 2.2 percent to the anticipated municipal relocation expenditures for 2024 to project the 2025 anticipated expenditures of $11.7 million.

b. Please see table below identifying the known project in 2026.

PEOPLES GAS SYSTEM, INC.

STAFF'S FIFTH SET OF INTERROGATORIES
INTERROGATORY NO. 36
BATES PAGE(S): 17894-17906
JUNE 4, 2025

36. Please refer to page 57, line 14, through page 58, line 25 for the following questions.

a. Please provide a table, for 2025 and 2026 and by position title, identifying the total number of unfilled positions that were previously approved by the Commission, and the total number of proposed new positions. As part of this response, please detail why the previously approved positions were not filled, and why these positions are still necessary, if applicable.

b. Please briefly describe each proposed new team member addition and the associated position responsibilities.

c. For the repurposed Contractor Inspector and Gas Design Project Manager positions, please detail how and why these positions were repurposed.

d. PGS indicated that the 2025 team member additions include 15 replacements to fill vacancies as of the end of 2024, but also stated that only 11 of the previous Commission-approved positions were unfilled as of the end of 2024. Please identify the four additional vacancies included in the 15 replacements referenced.

e. Please list all positions that PGS is proposing to insource for both 2025 and 2026. As part of this response, please detail how PGS intends to insource these positions, and identify the estimated cost savings and any other benefits associated with insourcing these positions.

f. Please identify the proposed new ECT team member additions for both 2025 and 2026 that are a result of customer growth.

g. Please provide an approximate timeframe that PGS intends to fill each position.

h. For each proposed new team member addition, please explain how the responsibilities they will be handling are currently being addressed by PGS. As part of this response, please detail why these responsibilities cannot continue to be addressed without these positions.

STAFF'S FIFTH SET OF INTERROGATORIES
INTERROGATORY NO. 36
BATES PAGE(S): 17894-17906
JUNE 4, 2025

i. Please explain how denying PGS's request for each proposed new team member addition would affect the Utility.

ANSWER:

a. The total number of unfilled positions that were previously approved by the Commission is 11. The company is seeking approval of three of those 11 positions in this case, as indicated in the table provided, in its request for a total of 63 proposed new positions.

Peoples is answering this interrogatory in part by producing records as allowed under Florida Rule of Civil Procedure 1.340(c); the Excel record identifies the total number of unfilled positions that were previously approved by the Commission, and the total number of proposed new positions and are provided in the folder entitled "ROG_5_36" and will be posted on the Consumer Party SharePoint Site or provided via USB.

The company did not fill 11 of the previously approved positions due to: the postponement of some of the Work and Capital Management Team positions while the company developed its IRP and capital management processes (five positions), outsourcing while the company continues to evaluate and monitor workload (two positions included in our current request), a hard-to-fill position that the company has not found the right candidate for (one position included in our current request), and repurposed positions based on business needs (three positions).

The following explains why three of these positions are still necessary and are being requested in the current case:

North Distribution Design - Construction Inspector: Following approval, the company elected to defer insourcing this position to complete the foundational work through the Design and Construction Performance Improvement ("DCPI") project to evaluate the ratio of inspectors to crews, and to work towards an optimal number of insourced versus outsourced inspectors. Insourcing these positions will result in cost savings and address

workload needs but needs to be completed within the context of workload and crew to inspector ratios.

South Distribution Design - Construction Coordinator: Following approval, the company elected to defer insourcing this position instead of hiring a new team member to complete the foundational work as part of the DCPI project to evaluate workload, streamline processes and ultimately determine if insourcing was prudent within that context. For 2025, Peoples determined the need for this position based on continued expected workload and to leverage the lower cost of internal team members versus the flexibility of contractors.

Eng & Design - System Modeler Strategic System Planning: This is a hard-to-fill position that the company has not been able to hire since 2023. Peoples is managing a backlog of modelling requests as this position is actively recruiting candidates. The position has been retitled to Engineer II in this case.

b. Peoples is answering this interrogatory in part by producing records as allowed under Florida Rule of Civil Procedure 1.340(c); the Excel record provided in response to subpart (a), also addresses each proposed new team member addition and the associated position responsibilities. It is provided in the folder entitled "ROG_5_36" and will be posted on the Consumer Party SharePoint Site or provided via USB.

c. Rather than filling these positions in Central Distribution Design, the Gas Design Project Manager was filled in Jacksonville and the Contract Inspectors were filled in Ft. Lauderdale and Ft. Myers. These positions were repurposed based on workload and current resources in each area.

d. The 15 replacement positions requested for approval in this case include two of the 11 previously approved unfilled positions- the Engineer II and the Construction Inspector.

The remaining 13 replacement positions include:

- Gas Operations Tech II

- Measurement Technicians (2)
- Measurement Ops Analyst
- Gas Operations Tech
- Instrumentation & Control Technician
- Gas Design Techs (2)
- Construction Project Manager
- Gas Control Analyst
- Gas Control Coordinator
- Coop
- Technology Analyst

e. Peoples is proposing to insource the following positions in 2025 and 2026 through job postings.

1. Systems Analyst II: This position allows Peoples to avoid additional costs needed to support the Infor Customer Relationship Management (CRM) solution from third-party vendors. Insourcing this position will not only simplify Peoples' current and long-term technology support structure but also allows for additional development and support needs for future enhancements without higher contractor costs. By insourcing this position, we anticipate an annual savings of approximately $63,000 compared to utilizing third-party support for an equal number of support hours.

2. Gas Ops Business System Analyst: This position enables Peoples to avoid third-party and contractor costs that support Peoples' business and technology demands. By insourcing this position, Peoples can directly and efficiently support its growing business needs by utilizing skilled local team members instead of relying on remote, out-of-state contractors who typically charge higher rates and incur travel expenses. Currently, services are completely dependent on these third-party, remote resources. Insourcing allows Peoples to maintain essential knowledge and skillsets in-house while providing direct management of workload and prioritization of business operations and requirements. This approach provides greater efficiency and quick delivery of system capabilities to Peoples and its customers.

FPSC EXH NO. 79
ADMITTED

We expect that insourcing this position will result in approximately $95,000 in annual savings compared to using third-party support.

3. Contract Administrators III (2 positions): These positions are part of an effort to build Peoples' internal Supply Chain team, which was previously handled by Tampa Electric. This transition is cost neutral. The formation of Peoples' Supply Chain team will lead to a lower shared services distribution from Tampa Electric in the future. Building its own Supply Chain team removes inefficiencies in meeting the demands of Peoples.

4. SAP S4 Systems Analyst: Insourcing this position allows Peoples to avoid additional costs associated with relying on a third-party vendor for WAM support. Insourcing this position will maintain the current and long-term support structure while also addressing future development and support needs without incurring higher contractor costs. Currently, our system's support relies on third-party development and support. Insourcing allows Peoples to maintain essential knowledge and skillset related to our systems, enabling us to manage workloads and prioritize system enhancements more swiftly. Insourcing contributes to greater efficiency and faster delivery of system capabilities to Peoples and its customers. Moreover, this approach reduces our dependency on third-party vendors for support and strengthens our internal expertise regarding Peoples' WAM systems. By insourcing this position along with the SAP Systems Analyst role, we expect to save an average of $10,000 per year in contractor costs over the next five years.

5. SAP Systems Analyst: This position allows Peoples to avoid additional costs associated with supporting WAM through third-party vendor and Tampa Electric resources. The current structure relies heavily on the technical architecture knowledge and skillsets provided by third-party and Tampa Electric resources. By insourcing this position, we will maintain the current and long-term support structure while meeting future development and support needs without incurring higher contractor costs. Insourcing allows Peoples

FPSC EXH NO. 79
ADMITTED

to maintain the knowledge and skillset of our systems in-house, thus providing rapid and direct management of workloads and prioritization of enhancements and designs of our systems. By insourcing, we will reduce our dependency on third-party vendor support for Peoples' WAM systems and ensure that critical knowledge and skills remain within the organization. Furthermore, as noted above for the SAP S4 Analyst position, the costs associated with insourcing these positions will be offset by an average reduction of $10,000 per year in contractor expenses over the next five years.

6. Gas Design Techs (3 positions): Peoples is proposing to insource these positions, rather than contracting the work with engineering and design firms. The average annual savings per position is estimated to be $45,000, for a total of $135,000. These savings have been accounted for in the DCPI project. By insourcing these positions, Peoples will reduce its reliance on engineering contractors, decrease the time required to complete feasibility studies (internal function), enable in-house design for scattered services, enhance internal capabilities, and provide additional coverage to maintain continuity of design functions amid attrition and retirements.

7. Construction Inspectors (5 positions): Each inspector saves approximately $140,000 annually depending on current contract rates and labor costs. The benefit to Peoples and its customers is primarily in cost savings.

f-g. Peoples is answering this interrogatory in part by producing records as allowed under Florida Rule of Civil Procedure 1.340(c); the Excel record attached identifies the proposed new ECT team member additions for 2025 and 2026 that are a result of customer growth and provides an approximate timeframe that PGS intends to fill each position. It is provided in the folder entitled "ROG_5_36" and will be posted on the Consumer Party SharePoint Site or provided via USB.

PEOPLES GAS SYSTEM, INC.

STAFF'S FIFTH SET OF INTERROGATORIES
INTERROGATORY NO. 36
BATES PAGE(S): 17894-17906
JUNE 4, 2025

h. Please see the list below of how the responsibilities of each position are currently being handled.

The following are positions that have already been filled, and therefore are being handled by the team members in the position:

- Instrumentation and Control Technician
- Gas Operations Tech
- Measurement Ops Analyst
- Gas Ops Tech II
- Gas Control Coordinator
- Measurement Technician
- Technology Analyst
- Gas Control Analyst
- Gas Design Tech
- Construction Project Manager
- Gas Ops Business Systems Analyst
- Capital Manager

The following are replacement positions. Replacement positions occur regularly due to employee turnover in the routine course of business. Their responsibilities are currently being managed by other Peoples team members. However, this arrangement is only sustainable on a temporary basis.

- Gas Design Tech (Replacement)
- Engineer II
- Coop

The responsibilities of the following positions are currently being performed by outside contractors or Tampa Electric:

- Contract Administrators III (2) (currently Tampa Electric)
- Measurement Technician
- Gas Design Techs (3)
- Construction Inspectors (5)
- Systems Analyst II

BATES PAGE(S): 17894-17906
JUNE 4, 2025

- SAP S4 Systems Analyst
- SAP Systems Analyst

The responsibilities for the following positions are currently being performed by other Peoples team members, and in some cases, there is a backlog of work accumulating. Due to the growth and increasing complexity of the Peoples system, it is necessary to add positions to maintain the safety, efficiency, and reliability of the system.

- Fleet Sr. Analyst
- Sr. Buyer
- Contractor Program Coordinator
- Contractor Program Manager
- Measurement Engineer
- Compliance Program Manager
- Instrumentation & Control Technicians (3)
- Measurement Technician/Gas Op Techs (2)
- Compressor & CNG Ops Tech
- Construction Coordinators (2)
- Gas Design Tech II
- Admin Specialist
- Technology Analyst
- Gas Control Analysts (2)
- Estimator
- Record Specialist
- GIS Solution Analyst
- Systems Analyst II
- Gas Management Systems Analyst
- SCADA Systems Analyst
- Sr. Analyst- IRP/Capital
- Sr. Engineering Analyst- IRP
- Sr. Manager Strategic System/Capital Planning
- Manager IT Data Del and Supp
- Data Architect
- Data Engineer

BATES PAGE(S): 17894-17906
JUNE 4, 2025

- Data Engineer II
- Business Intelligence Analyst II
- Scrum Master

i. Please see the explanations below, by department, of the impact to Peoples if its request to add team members is denied. Please refer to Exhibit CR-1, Document No. 9, for exact position titles in each department.

Distribution Design and Construction ("D&C"): The 12 additional positions proposed in 2025, and 25 additional positions proposed in 2026 in this department fall into three primary categories:

1. Vacancies at the time of filing
2. Insourced Positions
3. Management and Coordination

These positions are essential for the safe, reliable, compliant, and cost-effective design and construction of Peoples' distribution system. This includes new growth, resiliency, reliability, and efficiency projects, and the replacement of legacy infrastructure. There are several risks associated with not hiring these individuals. For the insourced positions, it will increase costs associated with capital projects. For management and coordination positions, it will either increase costs (if outsourced) or limit the company's ability to continually improve its management of the contracted workforce and achieve its previously stated goals of quality, safety, cost-effectiveness, and compliance.

Not hiring these positions for Gas Control increases pipeline safety risk. Rightsizing the number of controllers (Gas Analysts) consistent with PHMSA safety guidelines (as detailed in Peoples' response to Interrogatory No. 39 below) will reduce the likelihood or consequence of incidents due to fatigue or other human factors. Additionally, as the system continues to grow in complexity, the risk increases. The Technology Analyst is a key component of this system. This position is responsible for managing the SCADA system interface and will continue to develop the tools used by the Gas Controllers, enabling them to make quick decisions based on

continuous data to safeguard the system. Without this additional position, the company faces a risk of having a single point of failure.

The Meter and Regulator Team has only added two field staff members since 2019 to support an increasingly complex system, which has grown significantly and faces more stringent safety and regulatory requirements. The team is currently operating above capacity, which means Peoples has focused primarily on compliance items and is unable to support additional gate stations, RNG points, new TSA or physical security requirements, RCAs, or industrial meters. These technicians are stewards of safety for the points on the system with the most complexity, highest pressures, and highest gas flow. Therefore, compliance and safety risks will increase if the positions are not approved.

Engineering & Construction ("E&C"): The three proposed 2025 additions and two proposed 2026 additions in this department are critical to ensuring the safe, reliable, compliant, and cost-effective design and construction of Peoples' distribution and transmission systems. They directly support key initiatives related to system growth, resiliency, reliability, and operational efficiency.

Without approval of these roles, engineering estimates will continue to be developed without dedicated support, increasing the risk of inaccuracies that can impact project planning, execution and cost. The Records Specialist position is equally vital. In the absence of this role, project documentation will continue to be handled inconsistently, increasing the risk of missing or incomplete records. This could result in costly rework or additional testing in the future. By assigning a dedicated Records Specialist to verify incoming documentation and maintain a structured filing system, Peoples will significantly reduce these risks and enhance the long-term integrity of project records.

Technology Support ("IT"): Peoples is proposing to add six positions in this department in 2025 and seven in 2026. The company currently relies on third-party vendors and Tampa Electric for a large portion of technology support and development. Gas utility technology systems require industry

FPSC EXH NO. 79
ADMITTED

knowledge and skillsets around gas operations, compliance requirements and business processes. Not approving these positions will continue Peoples' reliance on third-party vendors at premium rates. Since resource time is split between Peoples and Tampa Electric, sharing resources with Tampa Electric affects Peoples' ability to apply system and cybersecurity patches and fixes efficiently, resolve system availability and operational issues, and deliver enhancements to meet compliance requirements. As Peoples' business demand grows, the need for safe, trustworthy, and reliable technology solutions also increases. Not approving these positions would impact Peoples' long-term ability to effectively and efficiently deliver systems that support our customers and provide cybersecurity protection and pose the potential for technology instabilities and outages.

Supply Chain ("SC"): The four additional positions proposed in 2026 in this department fall into three categories:

1. Insourced Positions – Contract Administrators III (2)
2. Fleet Sr. Analyst
3. Sr. Buyer

These positions ensure efficient procurement of materials and services to support Gas Operations, capital execution, lifecycle management of contracts, strategic sourcing, and fleet and facilities management. If the insourced positions are not approved, it limits our ability to build internal capability and lower our Tampa Electric allocation. For the Fleet Sr. Analyst and Sr. Buyer, Peoples would continue to have work performed by the existing Fleet and Facilities Manager and Sr. Buyer. Relying on one individual for each of these activities is inefficient and unsustainable, since we are currently unable to fulfill current business demands. Fleet, facilities, and buying functions will remain reactionary to issues and requests, and it raises the potential for employee turnover.

Work and Capital Management ("WCM"): Peoples is proposing the addition of two positions to this department in 2025 and two in 2026. The complexity and scale of Peoples' capital program has increased significantly over the past five years. Filling these positions is vital to ensure effective capital planning and execution at Peoples, which benefits our customers, and

FPSC EXH NO. 79
ADMITTED

maintains the safety, reliability, and resilience of the system. If these positions are not filled, Peoples will have to rely on outside contractors to handle the responsibilities of the Work and Capital Management Team, leading to increased costs. Intimate knowledge of the system and processes are critical to understanding the drivers of capital spend. Outside contractors typically lack the same level of knowledge about our systems and processes as internal employees, which could hinder the company's efforts to make the most informed and responsible decisions regarding capital investments.

				Part (a)	Part (b)	(f)	(g)
Department	Position Title	Number	Year	New or Previously Approved?	Job Description	Result of Customer Growth (Y/N)?	Approximate Timeframe to Fill
Technology Support	Data Engineer	1	2025	New	The Data Engineer is responsible for the creation, maintenance, and support of the complex computer database systems and data models. They plan, coordinate, and implement schedule updates to the production Business Development data models. The Data Engineer will develop and support data sources, data models, connections, ingestion and utilization. The Data Engineer will work with development teams, affiliates, business owners and other stakeholders to design, develop and deliver database solutions to the business to enable Peoples data migration, governance and management of the organization's data, analytics, predictive modeling and decision-making capabilities.	Y	Anticipated: July 2025
Technology Support	GIS Solution Analyst	1	2025	New	This position specializes in spatial technologies, responsible for designing, developing, and maintaining geospatial and geolocation information systems and applications. They will work closely with cross-functional teams to identify and analyze business requirements and translate them into technical solutions. They will possess a strong understanding of spatial technologies, including Geographic Information Systems (GIS), and will be able to leverage this knowledge to develop and implement effective solutions. This position will work closely with cross-functional teams to identify and analyze business requirements and translate them into technical solutions.	Y	Anticipated: July 2025
Technology Support	Manager IT Data Del. And Supp.	1	2025	New	The Manager IT Data Delivery and Support is responsible for developing and maintaining the technology organization's data architecture, infrastructure, and data processing technology with consideration for emerging technologies, industry trends and business goals. Ensure Peoples' Information Technology (IT) has the capabilities and resources to meet Peoples' ever-changing business data requirements, needs and environment. Ensure Peoples is prepared for changes in technologies and skill sets required to meet our increasing pace of business changes and data analytics capabilities including AI / ML. Bridge the gap between our business objectives and our technological capabilities. Responsible for ensuring that technology investments align with business and customer needs. Lead a team of talented professionals and work closely and report to senior leaders across the company to ensure alignment with the organization's overall business strategy.	Y	Anticipated: December 2025
Technology Support	Systems Analyst II	1	2025	New	This position develops applications for our customer opportunity and management systems. It includes implementations of software packages, integrates applications, and provides 24x7 application support. Collaborates on all phases of the software development life-cycle (SDLC) with a focus on the application design, development, and implementation phases. Utilizes appropriate development tools and technologies in keeping with the IT architecture. This position will work closely with cross-functional teams to identify and analyze business requirements and translate them into technical solutions.	N	Anticpated December 2025
Technology Support	Scrum Master	1	2025	New	This position is responsible for leading teams of information technology professionals, business partners and vendors, providing technical, professional, and personal leadership to assure the successful completion of IT&T projects. Under minimal supervision, is responsible for all aspects of the project life cycle and will act as a single point of contact for those projects. Facilitate alignment with the systems development methodology and associated processes used within the Peoples IT and Tampa Electric IT Departments. Support teams in delivering solutions to the business utilizing Agile Methodology. Partner with business stakeholders, product owners, information technology (IT) teams, governance committees, and other key individuals to define, prioritize, support, and deliver the SCRUM backlog through a series of sprints. Remove roadblocks and impediments, manage SCRUM ceremonies, and provide coaching to stakeholders and team members on agile methodology best practices.	Y	Anticipated: July 2025
Technology Support	PGS Gas Ops Business System Analyst	1	2025	New	The Business Systems Analyst analyzes and understands business needs and strategy to document business requirements and appropriate IT solutions. Facilitates business process modeling sessions and provides support to deliver solutions that meet business needs. Develops strong business relationships and system knowledge relating to functional areas. This position develops applications, implements software packages, integrates applications, and provides 24x7 application support. Collaborates on all phases of the software development life-cycle (SDLC) with a focus on the application design, development, and implementation phases. Utilizes appropriate development tools and technologies in keeping with the IT architecture.	N	Filled: February 2025
Engineering & Construction Services	Capital Manager	1	2025	New	This position works with the business to identify, plan, execute and report on capital investments including budgeting, execution strategies, variance reporting, and meeting regulatory requirements. Serves as a key position for achieving Peoples' near and long-term capital investment strategies. Perform analyses for use in evaluating the efficacy and impact of capital-related activities. Provides leadership and support to the Work and Capital Management team.	Y	Filled: May 2025
Engineering & Construction Services	Sr. Analyst - IRP/Capital	1	2025	New	This position works with the business to support, identify and plan for near and long-term capital requirements including business case development, execution strategies, and optimization of capital in alignment with budgeting requirements. Responsible for the support of planning, budgeting and for ensuring capital investments are efficient and drive customer value.	Y	Anticipated: June 2025 (offer accepted)
Engineering & Construction Services	Gas Operations Tech II (Replacement)	1	2025	New	This position performs maintenance, repair and calibration tasks on equipment at the company's facilities including, but not limited to, gate stations, city gates and power plants. Ensures the safety of employees, customers and contractors through team member / contractor training, oversite and job site inspections. The technician works in a safe manner and is responsible for following all TECO Peoples Gas Safety rules, regulations, policies, procedures and applicable Federal, State and local natural gas codes.	Y	Filled: January 2025
Engineering & Construction Services	Measurement Technicians (Replacements)	2	2025	New	This position maintains and operates all sizes of gas meters, gas chromatographs, analyzers, odorant equipment, regulators, actuators, relief valves, RTU & SCADA equipment, related communication equipment, valves and valve operators, pipeline filters, filter separators, pipeline heaters, pilot heaters and auxiliary equipment such as electrical generators, and AC/DC equipment. maintain and operate all sizes and types of natural gas pipeline valves, pilot heaters, pipeline filters, filter separators, odorant and CNG equipment. Meet operational needs in compliance with partnership and regulatory requirements.	Y	Filled: April 2025 (1) - Anticipated: July 2025 (1)
Engineering & Construction Services	Measurement Ops Analyst (Replacement)	1	2025	New	This position supports measurement functions by ensuring accurate data for internal and external customers. Analyzes gas volumes from various sources and assists in developing natural gas systems. Maintains the department's technology infrastructure, including data collection, communications equipment, and software tools. Manages work and asset management system (WAM) for field and compliance work orders and creating reports. Requires meticulous attention to detail and strong organizational skills to manage the workflow and ensure timely completion of tasks.	Y	Filled: January 2025

FPSC EXH NO. 79

ADMITTED

Engineering & Construction Services	Gas Operations Tech (Replacement)	1	2025	New	This position performs maintenance, repair and calibration tasks on equipment at the company's facilities including, but not limited to, gate stations, city gates and power plants. Ensures the safety of employees, customers and contractors through team member / contractor training, oversite and job site inspections. The technician works in a safe manner and is responsible for following all Peoples Safety rules, regulations, policies, procedures and applicable Federal, State and local natural gas codes.	Y	Filled: January 2025
Engineering & Construction Services	Instrumentation & Control Technician (Replacement)	1	2025	New	This position performs installation, maintenance, repair, and calibration tasks on the company's gas measurement equipment including but not limited to large meters, meter indexes/instrumentation and volume correctors, industrial AMR devices, and SCADA equipment. In addition, this role coordinates all gate station instrumentation and control installations within assigned territory.	Y	Filled: January 2025
Engineering & Construction Services	Gas Design Techs (Replacements)	2	2025	New	This position supports Peoples' distribution system construction and maintenance projects. The GDT creates, initiates, and/or processes work requests in PowerPlant and other Work Management systems (WMS), determines customer requirements, prepares piping system designs, cost estimates and feasibility analysis, interacts and coordinates with municipalities, FDOT, and others in maintaining and optimizing system integrity due to road improvements and system expansions, makes use of and updates the GIS, CRM-CIS, and Work Management-Workflow database systems, obtains necessary governmental permits and coordinates activities with all involved PGS departments to ensure the successful scheduling and completion of projects to achieve a high level of customer satisfaction.	Y	Filled: June 2025 (1) Anticipate August 2025 (1)
Engineering & Construction Services	Construction Project Manager (Replacement)	1	2025	New	This position manages Engineering and Construction Projects in Peoples' Corporate Engineering and Construction Department. Leads project teams as the single point of accountability for all aspects of project execution. The project manager is also responsible for all phases of planning and executing projects to meet the goals of the company with respect to schedule, financial, and operating performance. The duties include conflict resolution between the company and the engineering, construction, equipment, and material providers.	Y	Filled: April 2025
Engineering & Construction Services	Contractor Program Coordinator	1	2025	New	This position provides support and metric reporting on key construction practices and procedures across the Florida distribution construction operation. Accountability for maintaining and reporting of Tier 1 contractor metrics by tracking and managing crew scorecard follow up actions, design and construction metrics, contractor safety, and contractor adherence to Constructions Standards and O&M Manual and design specifications.	Y	Anticipated: June 2025
Engineering & Construction Services	Construction Inspector (Replacement)	1	2025	Previously Approved	This position oversees, monitors and inspects pipeline construction activities to ensure the requirements of the design, drawings, specifications, regulations and industry practices are being met in a safe, efficient and environmentally sound manner. Deliver quality assurance of all construction activities providing confidence that requirements are consistently fulfilled. Serves as the principal means of assuring work and material quality during construction project activity. Work with limited supervisory involvement and exercise a considerable amount of independent decision making. Adheres to all safety and environmental guidelines, Peoples Construction Standards and industry practices and promotes a positive safety culture and environmental awareness.	Y	Anticipated: June 2025 (offer accepted)
Engineering & Construction Services	Gas Control Analyst (Replacement)	1	2025	New	This position has responsibility for monitoring, controlling, and coordinating the flow of natural gas throughout the distribution and/or pipeline system in a safe and efficient manner, ensuring the accurate volume and pressure of gas required for consumer demands while working closely with Peoples' Operating Divisions by handling requests and being their single point of contact for system information	Y	Filled: January 2025
Engineering & Construction Services	Gas Control Coordinator (Replacement)	1	2025	New	This position is responsible for the direct oversight and support of the Operational Compliance activities within the Gas Control. Develop and maintain processes and data necessary for compliance with Pipeline and Hazardous Materials Safety Administration (PHMSA) regulations and company procedures. Responsible for developing operational and compliance recommendations based on regulatory requirements. Coordinate departmental changes with key stakeholders using the Management of Change (MOC) process.	Y	Filled: March 2025
Engineering & Construction Services	Engineer II (Replacement)	1	2025	Previously Approved	This position performs routine engineering work requiring application of standard techniques, procedures and criteria in carrying out a sequence of related engineering tasks; receives close supervision on new aspects of non-routine assignments; using prescribed methods, performs specific and limited portions of a broader assignment of an experienced engineer; may have minor responsibility for training and orientation; may schedule/coordinate projects with supervision and review; under the oversight of other engineers, prepare engineering analyses, write specifications and reports as directed. Provides support to the Local/Territory operations staff in all areas of operations and to provide engineering design and project management of major gas main expansion projects.	Y	Anticipated: August 2025
Engineering & Construction Services	Coop (Replacement)	1	2025	New	The Engineering Co-op supports the engineering team in the planning, design, and analysis of natural gas systems. Responsibilities include assisting with system modeling, data collection, field inspections, and technical reporting. The co-op will gain hands-on experience with industry software, regulatory standards, and utility operations, contributing to real-world projects under the guidance of experienced engineers.	Y	Anticipated: September 2025
Engineering & Construction Services	Technology Analyst (Replacement)	1	2025	New	This position works under general supervision for the support, configuration, data administration, and testing of computer systems and applications core to Gas Control. Configures, implements, and maintains systems and supporting technology to facilitate effective Gas Control operations. Works closely with controllers, engineers, and technical staff to deliver solutions that meet the current and future business goals of Gas Control, Engineering, and Operations. Facilitates the optimization of departmental performance by enhancing the alignment between business processes and technology. Serves as a liaison between Gas Control and those who provide technical support for systems, namely IT and software vendors.	Y	Anticipated: September 2025
Supply Chain/Procurement	Contract Administrators III	2	2026	New	These positions are insourced from Tampa Electric to support our increasing contract workload. These positions are responsible for the accurate preparation, negotiation, award, and commercial management of various high dollar, complex and high risk engineering and construction contracts; and engineered equipment contracts for capital and maintenance projects related to natural gas delivery facilities.	N	Anticipated: January 2026
Supply Chain/Procurement	Fleet Sr. Analyst	1	2026	New	This position is required to manage the fleet of over 700 vehicles and 14 facilities. This position is responsible for developing, implementing, and maintaining programs and work processes that support and improve the Fleet Services organization. Monitors results relative to operations and compliance; prepares critical statistics, business plans and analytical reports of all manners to assist and enable educated business decisions by management. Prepares and provides data on fleet mobile equipment for retirement and replacement.	Y	Anticipated: March 2026

Supply Chain/Procurement	Sr. Buyer	1	2026	New	This position is responsible for the procurement of a wide variety of materials, supplies, equipment, and services for the company, many of which are highly technical and require the application of complex procurement standards and procedures, including negotiation.	Y	Anticipated: March 2026
Technology Support	Business Intelligence Analyst II	1	2026	New	This position is a technical expert with knowledge of the full data warehouse lifecycle. They are responsible for providing expertise on BI projects including dimensional data modeling, ETL (data Extraction, Transformation, and Loading data processes), and reporting. Utilizes appropriate development tools and technologies in keeping with the IT architecture. They collaborate on all phases of the software development life-cycle (SDLC) with a focus on the design, development, and implementation phases for BI components of applications. They provide 24x7 application support.	Y	Anticipated: March 2026
Technology Support	Data Engineer II	1	2026	New	The Data Engineer is responsible for the creation, maintenance, and support of the complex computer database systems and data models. Plan, coordinate, and implement schedule updates to the production Business Development data models. The Data Engineer will develop and support data sources, data models, connections, ingestion and utilization. The Data Engineer will work with development teams, affiliates, business owners and other stakeholders to design, develop and deliver database solutions to the business to enable Peoples data migration, governance and management of the organization's data, analytics, predictive modeling and decision-making capabilities.	Y	Anticipated: March 2026
Technology Support	Data Architect	1	2026	New	The Solutions Architect for Data and AI is responsible for leading the design and creation of a data and AI technology architecture framework and providing technical leadership in support of the organization's initiatives in AI services and data management by leveraging cloud services, data infrastructure, data analytics, machine learning, AI modeling and emerging data technologies. This Cloud Solutions Architect ensures public and private information and solutions are architected and designed for optimal cost, functionality, efficiency, accessibility, scalability, reliability and resiliency. Responsibilities include the design, implementation and delivery of the organization's technology, data and AI strategies along with the introduction of emerging technologies, storage, ingestion, processing, management and utilization of cloud, data, and AI services. Architect will work with development teams, affiliates, business owners and other stakeholders to provide architecture leadership and best practices that drive and enable the migration, governance and management of the organization's data, analytics, predictive modeling and decision-making capabilities.	Y	Anticipated: January 2026
Technology Support	Gas Management Systems Analyst	1	2026	New	The Gas Management System Analyst is a strategic role providing development and support expertise for Gas Transport and Management solutions. Support for gas flow and measurement solutions includes Quorum FlowCal and QPTM. The position will combine deep understanding and experience of business gas management functional and technical solutions associated with maximizing the value of the physical assets of the natural gas division. Team member needed for additional gas meter, flow measurements and other non-SCADA systems such as Peoples AMI implementation and customer growth. A Gas Management System Analyst implements software packages, integrates applications, and provides 24x7 application support. Collaborates on all phases of the software development life-cycle (SDLC) with a focus on the application design, development, and implementation phases. Utilizes appropriate development tools and technologies in keeping with the IT architecture.	Y	Anticipated: January 2026
Technology Support	SCADA Systems Analyst	1	2026	New	The SCADA Systems Analyst specializes in operational technologies (OT), responsible for systems administration, support, and implementation for Peoples' gas control and other gas operation environments. This position will work closely with cross-functional teams to identify and analyze business requirements and translate them into technical solutions. They will possess a strong understanding of gas operational technologies, business process, safety procedures including gas control systems (SCADA), and meter operational systems, and will be able to leverage this knowledge to develop and implement effective solutions.	Y	Anticipated: February 2026
Technology Support	SAP S4 Systems Analyst	1	2026	New	The SAP S/4 System Analyst is a strategic role providing SAP S/4 development expertise in the support of Peoples' Work and Asset Management (WAM) solution. The WAM solution includes an on-premise SAP S/4 implementation of Enterprise Asset Management (EAM), SAP's cloud Field Service Management solution, and SAP's mobile Service and Asset Management application. The S/4 System Analyst will combine deep understanding and experience of shaping SAP functional and technical solutions associated with maximizing the value of the physical assets of the natural gas division. This position develops applications; implements software packages, integrates applications, and provides 24x7 application support. Collaborates on all phases of the software development life-cycle (SDLC) with a focus on the application design, development, and implementation phases. Utilizes appropriate development tools and technologies in keeping with the IT architecture.	N	Anticipated: February 2026
Technology Support	SAP Systems Analyst	1	2026	New	The SAP System Analyst is a strategic role providing SAP support of Peoples' Work and Asset Management (WAM) solution. The WAM solution includes an on-premise SAP implementation. Engineering & Construction Services	Sr. Manager Strategic System/Capital Planning	1	2026	New	The Manager of System Planning oversees the development, coordination, and execution of long-term and short-term gas distribution system plans to ensure reliable, efficient, and cost-effective service. This role involves analyzing system capacity, forecasting demand, identifying infrastructure needs, and supporting regulatory filings and capital planning. The manager collaborates with engineering, operations, regulatory, and business development teams to align system planning with company objectives and compliance standards.	Y	Anticipated: January 2026
Engineering & Construction Services	Measurement Engineer	1	2026	New	This position brings specialized technical expertise to ensure accurate and reliable measurement. This position oversees measurement procedures, validates data, implement best practices, and reduce measurement error.	Y	Anticipated: March 2026
Engineering & Construction Services	Compliance Program Manager	1	2026	New	This position ensures compliance of the 120 Gate Stations and Thomas Compressor Station to ensure safe reliable service.	Y	Anticipated: March 2026
Engineering & Construction Services	Instrumentation & Control Technicians	3	2026	New	This position performs installation, maintenance, repair, and calibration tasks on Company's gas measurement equipment including but not limited to large meters, meter indexes/instrumentation and volume correctors, industrial AMR devices, and SCADA equipment. In addition, this role coordinates all gate station instrumentation and control installations within assigned territory.	Y	Anticipated: March 2026 (1), June 2026 (1), September (1)
Engineering & Construction Services	Measurement Technicians/Gas Ops Techs	2	2026	New	This position maintains and operates all sizes of gas meters, gas chromatographs, analyzers, odorant equipment, regulators, actuators, relief valves, RTU & SCADA equipment, related communication equipment, valves and valve operators, pipeline filters, filter separators, pipeline heaters, pilot heaters and auxiliary equipment such as electrical generators, and AC/DC equipment. maintain and operate all sizes and types of natural gas pipeline valves, pilot heaters, pipeline filters, filter separators, odorant and CNG equipment. Meet operational needs in compliance with partnership and regulatory requirements.	Y	Anticipated: March 2026 (1), June 2026 (1)
Engineering & Construction Services	Compressor & CNG Ops Tech	1	2026	New	This position is responsible for all operations and maintenance activities at Thomas Compressor Station.	Y	Anticipated: March 2026
Engineering & Construction Services	Gas Design Techs	3	2026	New	This position supports PGS distribution system construction and maintenance projects. The GDT creates, initiates, and/or processes work requests in PowerPlant and other Work Management systems (WMS), determines customer requirements, prepares piping system designs, cost estimates and feasibility analysis, interacts and coordinates with municipalities, FDOT, and others in maintaining and optimizing system integrity due to road improvements and system expansions, makes use of and updates the GIS, CRM-CIS, and Work Management-Workflow database systems, obtains necessary governmental permits and coordinates activities with all involved PGS departments to ensure the successful scheduling and completion of projects to achieve a high level of customer satisfaction.	N	Anticipated: March 2026 (1), June 2026 (1), September (1)
Engineering & Construction Services	Construction Coordinator	1	2026	Previously Approved	This position supports the new construction service line by participating in the Customer Journey Process, updating WAM system, and reviewing on site conditions to coordinate installation. Provides technical and professional assistance to team members, customers, contractors, municipal inspectors, and plumbers. Participate in assigned role as part of Customer Journey.	Y	Anticipated: March 2026
Engineering & Construction Services	Construction Coordinator	1	2026	New	This position supports the new construction service line by participating in the Customer Journey Process, updating WAM system, and reviewing on site conditions to coordinate installation. Provides technical and professional assistance to team members, customers, contractors, municipal inspectors, and plumbers. Participate in assigned role as part of Customer Journey.	N	Anticipated: March 2026
Engineering & Construction Services	Gas Design Tech II	1	2026	New	This position supports PGS distribution system construction and maintenance projects. The GDT creates, initiates, and/or processes work requests in PowerPlant and other Work Management systems (WMS), determines customer requirements, prepares piping system designs, cost estimates and feasibility analysis, interacts and coordinates with municipalities, FDOT, and others in maintaining and optimizing system integrity due to road improvements and system expansions, makes use of and updates the GIS, CRM-CIS, and Work Management-Workflow database systems, obtains necessary governmental permits and coordinates activities with all involved PGS departments to ensure the successful scheduling and completion of projects to achieve a high level of customer satisfaction.	N	Anticipated: March 2026
Engineering & Construction Services	Admin Specialist	1	2026	New	This position provides administrative support and services for assigned operation (business unit). Perform general clerical duties, handling matters of a routine nature and processing routine items. Supports/Assists with the resolution of issues or may resolve problems of routine to low complexity.	Y	Anticipated: March 2026
Engineering & Construction Services	Contractor Program Manager	1	2026	New	The Contractor Program Manager oversees the performance, compliance, and coordination of blanket contractors involved in construction and maintenance activities on the gas distribution system. This role ensures that all contractor work aligns with safety standards, regulatory requirements, and company policies and procedures. Responsibilities include managing contractor qualifications, monitoring project execution, and resolving issues.	Y	Anticipated: March 2026
Engineering & Construction Services	Construction Inspectors	5	2026	New	This position oversees, monitors and inspects pipeline construction activities to ensure the requirements of the design, drawings, specifications, regulations and industry practices are being met in a safe, efficient and environmentally sound manner. Deliver quality assurance of all construction activities providing confidence that requirements are consistently fulfilled. Serves as the principal means of assuring work and material quality during construction project activity. Work with limited supervisory involvement and exercise a considerable amount of independent decision making. Adheres to all safety and environmental guidelines, PGS Construction Standards and industry practices and promotes a positive safety culture and environmental awareness.	N	Anticipated: March 2026 (2), June 2026 (2), September (1)
Engineering & Construction Services	Technology Analyst	1	2026	New	This position works under general supervision for the support, configuration, data administration, and testing of computer systems and applications core to Gas Control. Configures, implements, and maintains systems and supporting technology to facilitate effective Gas Control operations. Works closely with controllers, engineers, and technical staff to deliver solutions that meet the current and future business goals of Gas Control, Engineering, and Operations. Facilitates the optimization of departmental performance by enhancing the alignment between business processes and technology. Serves as a liaison between Gas Control and those who provide technical support for systems, namely IT and software vendors.	Y	Anticipated: March 2026
Engineering & Construction Services	Gas Control Analyst	2	2026	New	This position has responsibility for monitoring, controlling, and coordinating the flow of natural gas throughout the distribution and/or pipeline system in a safe and efficient manner, ensuring the accurate volume and pressure of gas required for consumer demands while working closely with the PGS Operating Divisions by handling requests and being their single point of contact for system information	Y	Anticipated: March 2026 (1), June 2026 (1)
Engineering & Construction Services	Estimator	1	2026	New	This role involves analyzing blueprints, specifications, and proposals to develop budgets, assess risks, and support project planning and bidding efforts. Estimators collaborate closely with project managers, engineers, suppliers, and clients to ensure competitive and profitable project execution. Strong analytical skills, attention to detail, and industry knowledge are essential for success in this position.	Y	Anticipated: March 2026

JUNE 4, 2025

37. Please refer to page 60, lines 23 through 25. Please detail the inconsistencies in work products amongst team members.

ANSWER:

The inconsistencies in work products among team members, as mentioned on page 60, lines 23 through 25, refer to the preparation of high-level estimates prepared before detailed engineering. High-level estimates require numerous assumptions that depend on each individual's experience and knowledge of the Peoples system. Consequently, estimates prepared by less experienced individuals may have a higher risk of overlooking critical scope items, may take longer to complete, or may require additional oversight.

PEOPLES GAS SYSTEM, INC.

INTERROGATORY NO. 38
BATES PAGE(S): 17908
JUNE 4, 2025

38. Please refer to page 61, lines 2 through 7. Please explain how hiring a dedicated Estimator would reduce external contractor costs, and identify approximately how much these costs would be reduced by.

ANSWER:

Hiring dedicated Estimators will reduce external contract engineer costs, as Estimators typically command lower salaries than engineers. The higher salaries of engineers result from their advanced technical expertise, certifications, and the complexity of their work. The company has not determined the actual cost savings from hiring an Estimator; however, it is presumed that since this position requires less education and credentialing, it would garner significantly less in compensation.

Engaging a dedicated Estimator not only reduces costs but also enhances the accuracy and efficiency of the estimating process. They can identify cost-effective alternatives and value engineering opportunities upfront, thereby optimizing the use of engineering team members and supporting more strategic decision-making. By improving estimate quality and enhancing communication with stakeholders, a dedicated Estimator helps maintain project timelines and budgets, ultimately alleviating pressure on the engineering team. With a dedicated Estimator, Peoples can avoid the higher costs and inefficiencies associated with having engineers manage both technical design and cost estimating responsibilities.

PEOPLES GAS SYSTEM, INC.
DOCKET NO. 20250029-GU
STAFF'S FIFTH SET OF INTERROGATORIES
INTERROGATORY NO. 39
BATES PAGE(S): 17909-17910
JUNE 4, 2025

39. Please refer to page 65, lines 2 through 10. Please detail how the three proposed new team member additions in Gas Control in 2026 will bring the company closer to the PHMSA recommended staffing levels.

ANSWER:

Peoples' Gas Control team has a mandate to ensure control room staffing is sufficient to manage the workload and minimize fatigue risks. According to 49 CFR § 192.631(d)(4), operators must maintain an adequate number of qualified controllers. Additionally, PHMSA recommends the white paper entitled "Staffing of Regular, Cyclic 24/7 Operations" as a supplemental guideline for determining the appropriate number of controllers. This white paper advises that,

> *"Operators are encouraged to avoid single-desk operations during the 2:00 a.m. to 6:00 a.m. period. The ability to mitigate the potential effects of controller fatigue on pipeline operations is sharply limited when only one controller is on duty at night."*

To effectively manage workload during weekday shifts and address fatigue during nighttime shifts, a minimum of two Gas Controllers is required for each. The white paper provides an employment ratio calculation that accommodates holidays ("Hol"), sick leave or paid time off days ("PTO"), and training days ("Tng"):

Ratio = (365 workdays + 11 Hol + 22 PTO + 12 Tng) ÷ 365 days per year

= 410 days ÷ 365 days

= 1.12

Using this ratio, the calculation for the number of Gas Controllers needed is:

2 controllers per crew x 4 crews x 1.12 = 9 controllers

The white paper maintains that "Staff strength must be at a level greater than the minimum staff needed for all crews on any given day." To calculate the appropriate total staffing to support the minimum required staffing on any given day, the

employment ratio must be greater than one. As shown in the calculations above, an employment ratio of 1.12 applied to a minimum crew size of two Gas Controllers and four crews, results in a minimum recommended staffing level of nine Gas Controllers. The white paper further recommends that it is it is best to have an employment ratio of at least 1.25, as "there is a limited capacity for a controller on one desk to cover safety-related issues on another desk." This recommended employment ratio would require the company's Gas Control team to consist of 10 Gas Controllers. Consequently, Peoples plans to add two Gas Controllers in 2026, bringing the total staffing to eight Gas Controllers. Peoples will reevaluate the staffing needs and fatigue studies in 2027 to determine whether to potentially hire one or two additional Gas Controllers.

PEOPLES GAS SYSTEM, INC.
DOCKET NO. 20250029-GU
STAFF'S FIFTH SET OF INTERROGATORIES
INTERROGATORY NO. 40
BATES PAGE(S): 17911-17912
JUNE 4, 2025

40. Please refer to page 75, lines 9 through 12. Please list each of the "smaller projects" required to address South Tampa, and provide the individual project cost for each.

ANSWER:

Please see the table below which shows the "smaller projects required to address South Tampa.

PEOPLES GAS SYSTEM, INC.
South Tampa Improvements Projects
Staff ROG No. 40

	Estimated Costs
Bay to Bay Boulevard Park	$1,315,535
Bayside Drive Park	2,194,990
MacDill Regulator Station and Macdill PP	2,522,463
N Willow Ave	223,422
Palma Ceia Golf and County Club	2,823,897
S Armenia Ave	237,576
Total	**$9,317,882**

Collectively, these projects are to upgrade approximately 197,000 feet (about 37 miles) of lower pressure main pipeline to serve approximately 3,561 customers across eight distinct systems within South Tampa. This infrastructure enhancement is critical for maintaining a sufficient natural gas supply during power outages, particularly as residents increasingly depend on natural gas-powered backup generators.

Peoples previously experienced significant low-pressure events during Hurricane Milton in October 2024 due to considerable generator usage. When these systems were initially designed and constructed in South Tampa, the utilization of gas generators for power generation after storms was rare. However, over the years, the usage profiles have changed dramatically, requiring the company to respond and enhance the resiliency of this system.

INTERROGATORY NO. 41
BATES PAGE(S): 17913-17917
JUNE 4, 2025

41. Please refer to Exhibit No. CR-1, Document No. 4. For each of the Growth and RRE projects, please respond to the following questions.

a. Please detail the necessity for each of the listed projects.

b. Please provide a brief description of the anticipated activities associated with each of the listed projects.

c. Please provide a timeline for each of the listed projects detailing the anticipated activities. As part of this response, please indicate the completion status of each activity, and the anticipated completion date for each activity pending completion.

d. Please provide an itemized breakdown of what is included in the cost estimate for each project, and explain how the cost estimate was developed for each.

e. Please provide the estimated total O&M expense associated with each of the listed projects. As part of this response, please provide an itemized breakdown of what is included in the cost estimate.

f. For each of the listed additions, please identify all alternatives, if any, PGS considered to minimize the rate impact to customers. If no alternatives were considered, please explain why for each.

g. Please identify any quantitative and/or qualitative benefits associated with each project, and explain how these benefits were determined.

h. For each of the listed projects, please explain in detail how denying each project would affect PGS.

ANSWER

Peoples is answering this interrogatory in part by producing records as allowed under Florida Rule of Civil Procedure 1.340(c); the table addressing the requested

FPSC EXH NO. 79
ADMITTED

information in this interrogatory for projects is provided in the folder entitled "CONF_ROG_5_26" and will be posted on the Consumer Party SharePoint Site or provided via USB.

Peoples included only 'specific' growth projects in the table noted above. Excluded from this table are smaller projects, service line installations, and meters and regulators which are included in blanket project funding projects within funding groups included on Exhibit No. CR-1, Document No. 4. Therefore, questions specific to individual projects do not fit within this framework. Blanket line items in the budget are forecasted as described in witness Richard's testimony on pages 23 and 24 and are developed through a comprehensive process that involves several key steps and methodologies. These include the evaluation of historical performance and forecasted demand, market data and project workload, load forecasts, historical average unit rates, and validation against the Integrated Resource Plan ("IRP").

a. Please see the table provided in the folder entitled "ROG_5_26," which includes information responsive to subpart a of this Interrogatory.

b. Construction project activities typically include Project Initiation, Engineering and Design, Permitting, Procurement of Materials, Construction, and Close-Out.

During Project Initiation Peoples formalizes the project and completes initial evaluations of costs, benefits, resources, and schedules are conducted. This includes a feasibility study for growth projects.

Engineering and Design is an iterative process to develop a prudent design that meets the project requirements in a cost-effective and safe way.

Permitting involves submitting engineering drawings to the relevant agencies to obtain a permit necessary to commence work.

Material procurement entails the purchase and delivery of materials needed to complete the work.

FPSC EXH NO. 79
ADMITTED

Construction includes activities performed by construction contractors to execute the work, including pre-construction activities such as calling locates, construction of the pipeline, such as excavation, pipe joining, pressure testing, records collection, and other covered tasks.

Lastly, close-out activities ensure that all proper project records, systems, invoicing, and other tasks are completed. These activities are often fluid and are extended or compressed based on a variety of factors, including material lead times, permitting agencies, changes to the customer's timeline, and managing resources.

Please see the table provided in the folder entitled "ROG_5_26," which includes information responsive to subpart b of this Interrogatory.

c. The company limited the activity breakdown to focus on the major activities of Engineering, Materials, and Construction, which aligns with how the projects are managed and recorded in the Integrated Resource Plan ("IRP"). Engineering encompasses tasks such as permitting, engineering, and design. Peoples considers a project "initiated" once it is entered into the IRP, meaning all projects listed have already completed this step. The close-out phase typically concludes one to two months after construction is complete and includes the finalization of maps and project records/documentation. These activities are often fluid and may be extended or compressed due to a variety of factors, including material lead times, interactions with permitting agencies, changes to the customer's timeline, and resource management.

Please see the table provided in the folder entitled "ROG_5_26," which includes information responsive to subpart c of this Interrogatory.

d. Please see the table provided in the folder entitled "ROG_5_26," which includes information responsive to subpart d of this Interrogatory.

The cost estimate methodology depends on the project type and timeline. For distribution Growth projects, once project details are known, the Feasibility model is used to develop an initial project estimate which may

include materials, construction and permitting costs. These estimates are then refined through the design process.

For the larger Growth projects, system modelers first complete a hydraulic analysis to identify the optimum pipeline solution to meet the customer's needs. Engineers then develop an initial Class 5 estimate (high-level estimate). This preliminary estimate serves as a budgetary benchmark upon project initiation. As the project advances through the design and engineering phases, estimates are progressively refined for greater accuracy.

For RRE projects, estimates may be developed using the same collaborative modeling and engineering approach or through the application of average unit costs to generate an initial estimate, depending on project scope.

e. The company does not budget O&M expense directly for each capital project unless it is a distinct operating unit or system, such as an RNG facility or CNG station, or a significant new asset such as the Corporate Headquarters. Instead, the company primarily forecasts O&M Expense by using trend factors as shown on MFR Schedule G-2, pages 12 through 19. For the Not Trended O&M Expense related to the new Corporate Headquarters, please see MFR Schedule G-2 page 19b Line 44.

Please see the table provided in the folder entitled "ROG_5_26," which includes information responsive to subpart e of this Interrogatory.

f. Peoples considers alternatives when designing and developing construction projects. During project design, a Designer/Engineer (either an outsourced design firm or an internal resource) evaluates the requirements and selects materials, pipeline diameter, pipeline pathway, pressure specifications, tie-in points, and other relevant factors. The objective is to identify the lowest cost solution to the identified problem. This design is then reviewed by the operations team, a supervisor, and/or D&C manager, and ultimately involves the construction contractor. During these reviews and approvals, various alternative routes or designs are considered,

considering factors such as water and rail crossings, right-of-way ("ROW") considerations, developer requirements, pipeline safety, conflicting utilities, permitting, or other relevant issues.

Please see the table provided in the folder entitled "ROG_5_26," which includes information responsive to subpart f of this Interrogatory.

g. Please see the table provided in the folder entitled "ROG_5_26," which includes information responsive to subpart g of this Interrogatory.

When Growth projects are initiated, Peoples conducts financial modeling to validate the project will have a net benefit to customers. For RRE projects, when initiated, the project will have estimated qualitative benefits assigned through the IRP tool. This includes safety, compliance, reliability, environmental, and strategic considerations. These benefits are an input into the development of the capital project lists and projects are prioritized accordingly.

h. Please see the table provided in the folder entitled "ROG_5_26," which includes information responsive to subpart h of this Interrogatory.

PEOPLES GAS SYSTEM, INC.
DOCKET NO. 20250029-GU
STAFF'S FIFTH SET OF INTERROGATORIES
INTERROGATORY NO. 42
BATES PAGE(S): 17918
JUNE 4, 2025

Please refer to the direct testimony of witness O'Connor for the following questions.

42. Please refer to page 34, lines 7 through 13. Please identify the capital projects that were prioritized over the AMI Pilot project, and for each project listed, explain how PGS determined the project should take priority.

ANSWER:

Other capital projects were not prioritized over the AMI project. The original plan for the project, outlined in Witness O'Connor's direct testimony in Docket No. 20230023-GU, was to implement the AMI pilot in 2024. However, in 2024, Peoples learned Tampa Electric would be upgrading their AMI Network to Itron's GenX platform.

To minimize duplicative costs, Peoples chose to delay the pilot launch until the third quarter of 2025, aligning it with Tampa Electric's completion of the GenX platform upgrades. Although the pilot could have started in 2024, the delay in timing eliminates the need for Peoples to retrofit metering endpoints first to the legacy AMI network and then again to the GenX system. This approach prevents redundant costs and improves the pilot's efficacy.

PEOPLES GAS SYSTEM, INC.
DOCKET NO. 20250029-GU
STAFF'S FIFTH SET OF INTERROGATORIES
INTERROGATORY NO. 43
BATES PAGE(S): 17919-17920
JUNE 4, 2025

43. Please refer to page 34, line 15, through page 35, line 20. Please outline all AMI Pilot project changes (number of meters to be installed, estimated project cost, project term, etc.), if any, made following Commission approval of the project.

ANSWER:

The commission approved AMI project included key details such as the duration of the project, its' key phases, and project costs (see Order No. PSC-2023-0388-FOF-GU p. 30 – 31). Since the project's approval, the assumptions and scope have evolved in the following ways:

1. PROJECT TERM: Peoples originally proposed a four-year timeline with two parts – an initial one-year period for installing 5,000 meters, followed by a three-year operational evaluation period. While the project remains divided into two parts, as set out in the cited testimony, the overall duration of the project has changed and the performance of the two parts of the project will now overlap instead of being sequential phases. Specifically, the project is now expected to take approximately three and a half years to complete instead of four. The installation period will now occur over a three-year period with the operational evaluation period running concurrently and concluding just 6 months after the end of installation.

   The evaluation objectives—focused on meter durability, autonomous safety features, and other smart features—remain unchanged.

2. PROJECT COSTS: As the implementation plan matured, the company understood that this project would go beyond our initial projections. In 2025, the company will spend the previously approved $2.2 million for the first wave of installations. In 2026, the company will invest an additional $4.0 million alongside its second wave of installations. The planning for the final wave of installations in 2027 is ongoing and currently based on the assumptions developed for 2026.

3. O&M COSTS:

STAFF'S FIFTH SET OF INTERROGATORIES
INTERROGATORY NO. 43
BATES PAGE(S): 17919-17920
JUNE 4, 2025

While the company previously estimated a total annual O&M expense of $100,000 associated with the pilot, these costs were *not* included as non-trended estimate in company's MFR schedule G2 pages 12-19 for the 2024 Projected Test Year and therefore was not approved by the Commission as part of Peoples' revenue requirement request.

Peoples' methodology for calculating non-trended O&M expenses generally does not include amounts associated with capital investment unless it involves a distinct new operating unit or significant new asset. AMI does not qualify as a new operating unit as AMI tasks will be performed as part of our standard operations in Hillsborough County. Accordingly, Peoples has not included a specific non-trended O&M impact related to its investment in the AMI Pilot in preparation of its 2026 Projected Test Year O&M as seen on MFR schedule G-2 pages 12 through 19. If Peoples implementation of AMI should ever be widespread across our system and the incremental operating and maintenance cost is substantial, Peoples will include a non-trended impact to request revenue requirement relief as part of a future rate base request.

JUNE 4, 2025

44. Please refer to page 36, lines 5 through 12. Please identify PGS's emergency response rate percentage, and detail any plans the Utility has to attempt to achieve the specified target. If none, please explain why.

ANSWER:

Peoples aims to respond to 98.5 percent of emergency leak calls within 60 minutes. In 2024, as stated in Witness O'Connor's direct testimony in Docket 20230023-GU (Exhibit TO-1, Document 4), Peoples achieved a response rate of 97.7 percent.

Several factors impact Peoples' ability to meet this target. The geography of the company's service areas and heavy traffic congestion in many of the urban areas served impacts Peoples' ability to respond to emergency calls within its targeted time frame. After-hours and weekend call-outs pose further challenges, especially given the extensive footprint of Peoples system compared to where its team members reside. For example, the Southwest Florida service area spans over 3,900 square miles, and it can take over 1.5 hours to travel from the northernmost to the southernmost point. Compounding this issue, most technicians live over an hour from the southern end of the system near Naples, making timely responses in that region especially challenging.

To address these challenges, Peoples continuously monitors its staffing levels and performance and actively pursues improvements. The company evaluates team member operator qualifications to respond to emergencies, to ensure qualified, trained technicians are available as needed. The company also adjusts team member scheduling and system coverage to align with peak periods for emergency leak calls, modifies dispatch strategies to reflect changes in traffic patterns and service area growth, and revises personnel requirements as needed in support of achieving its targeted response rate.

STAFF'S FIFTH SET OF INTERROGATORIES
INTERROGATORY NO. 45
BATES PAGE(S): 17922-17929
JUNE 4, 2025

45. Please refer to page 46, line 18, through page 47, line 8 for the following questions.

a. Please provide a table, for 2025 and 2026 and by position title, identifying the total number of unfilled positions that were previously approved by the Commission, and the total number of proposed new positions. As part of this response, please detail why the previously approved positions were not filled, and why these positions are still necessary, if applicable.

b. Please briefly describe each proposed new team member addition and the associated position responsibilities.

c. Please list all positions that PGS is proposing to insource in both 2025 and 2026. As part of this response, please detail how PGS intends to insource these positions, and identify the estimated cost savings and any other benefits associated with insourcing these positions.

d. Please provide an approximate timeframe that PGS intends to fill each position.

e. For each proposed new team member addition, please explain how the responsibilities they will be handling are currently being addressed by PGS. As part of this response, please detail why these responsibilities cannot continued to be addressed without these positions.

f. Please explain how denying PGS's request for each proposed new team member addition would affect the Utility.

ANSWER:

a. The total number of unfilled positions previously approved by the Commission is 23. However, 13 of these positions were filled under different job titles to meet workload requirements in the field. Of the remaining 10 unfilled positions, the company is seeking approval of six of those positions in this proceeding, as indicated in the provided table.

FPSC EXH NO. 79
ADMITTED

PEOPLES GAS SYSTEM, INC.
DOCKET NO. 20250029-GU
STAFF'S FIFTH SET OF INTERROGATORIES
INTERROGATORY NO. 45
BATES PAGE(S): 17922-17929
JUNE 4, 2025

Peoples is answering this interrogatory in part by producing records as allowed under Florida Rule of Civil Procedure 1.340(c); the Excel record identifies the total number of unfilled positions that were previously approved by the Commission, and the total number of proposed new positions. It is being provided in the folder entitled "ROG_5_45" and will be posted on the Consumer Party SharePoint Site or provided via USB.

The Commission approved 78 positions in the 2023 Rate Case. Of these positions, Peoples filled 55 directly as they were listed by position title. Peoples filled 13 positions under different job titles to address workload requirement in its service areas. Due to labor market conditions and changing work requirements, Peoples adjusted these 13 positions to meet updated needs.

The company did not fill 10 out of the 78 positions approved by the Commission in the 2023 Rate Case. As stated in Witness O'Connor's Direct Testimony on pages 42-43, Gas Operations managed the timing of team member hiring while pursuing cost savings to address overall business changes due to lower budgeted revenues and higher costs (six positions) or the positions were no longer needed (four positions). The following explains why six of these positions are still necessary and are being requested in the current case:

Ops Processes- Support Specialist: This position was postponed due to the prioritization of business needs. Continued customer growth is driving the need for additional specialists to develop and maintain business processes and controls throughout the meter-to-cash life cycle, as well as support for field operations. The position has been retitled Business Ops Support Specialist.

Sarasota- Pipeline Locator: In evaluating the need for this position to be in-house versus outsourced to a contractor, the company delayed hiring until 2026. Projected growth in 2026 will necessitate the filling of this position.

ENG Tech Training- Tech Trainer: This position was postponed due to the prioritization of business needs. This position is needed to expand Peoples'

FPSC EXH NO. 79
ADMITTED

training program. With the increased number of field personnel, the requirement to ensure all team members are properly trained has increased. All field personnel are required to maintain appropriate operator qualifications to meet compliance requirements.

ENG Tech Training- Admin: This position was postponed due to the prioritization of business needs. This position is needed to support the expansion of Peoples' training program. With the increased number of field personnel to be trained to meet compliance requirements, there is a corresponding administrative need for class scheduling and logistics, reporting and record keeping, and coordination with service areas that this position will address.

Sarasota- Field Damage Prevention Leader: This position was postponed to evaluate the need in this service area. It is being repurposed as a Division Supervisor in Sarasota to cover multiple areas within Gas Operations. Sarasota remains one of the fastest growing areas of Florida, and the Sarasota Operations team requires this position to ensure appropriate leadership and supervision of the growing team.

Emergency Management- Security Coordinator: Peoples did not fill this position as it continued under the shared service model with Tampa Electric to complete base load work. However, as Peoples' footprint grows throughout Florida, physical security needs to expand. This position will enable the advancement of technology and other strategies to reduce risks related to the physical security of our team members and our pipeline. This physical security expert will also mature programs to demonstrate conformance with voluntary federal pipeline security standards, which are widely considered industry best practices. This position was retitled Security Professional.

b. Peoples is answering this interrogatory in part by producing records as allowed under Florida Rule of Civil Procedure 1.340(c); the Excel record provided in response to subpart (a), also addresses each proposed new team member addition and the associated position responsibilities and is

provided in the folder entitled "ROG_5_45" and will be posted on the Consumer Party SharePoint Site or provided via USB.

c. Overall, Peoples is proposing to insource 11 positions through job postings. Peoples is proposing to insource nine Meter Technicians in 2025, in Orlando, Ocala, Jacksonville, St. Petersburg, and Tampa. As previously discussed in Witness O'Connor's Direct Testimony, Peoples anticipates a $734,444 non-trended reduction to contractor costs in FERC Account 902, which offsets the corresponding non-trended labor addition of $284,848 in the 2026 projected test year because of this insourcing. These Meter Technicians will replace our current meter reading contractor. In addition to cost savings, they will also hold additional operator qualifications, enabling them to perform a broader range of tasks and provide greater flexibility for resource sharing across divisions as needed.

Peoples is proposing to hire two RNG/CNG Coordinators to insource plant operations for Alliance Dairy in 2026. These positions do not impact O&M as the associated labor addition and contractor cost reduction will be 100 percent below the line.

d. Peoples is answering this interrogatory in part by producing records as allowed under Florida Rule of Civil Procedure 1.340(c); the attached Excel record identifies the approximate timeframe that PGS intends to fill each position. It is provided in the folder entitled "ROG_5_45" and will be posted on the Consumer Party SharePoint Site or provided via USB.

e. Please see below for explanations on how Peoples is currently handling the responsibilities of its new positions and why these responsibilities cannot continue to be addressed without new positions.

The following are positions that have already been filled, and therefore are being handled by the team members in the position:

- Two Damage Prevention Coordinators
- Administrative Specialist – Orlando
- Two Apprentices – Ocala
- Three Pipeline Locators - Jacksonville

- Two Utility Technicians - Jacksonville
- Administrative Specialist - Jacksonville
- Apprentice – Eustis
- Utility Technician – Panama City
- Apprentice – Sarasota
- Pipeline Locator – Sarasota
- Supervisor Damage Prevention – Sarasota
- Six Apprentices – Dade
- Pipeline Locator – St. Pete
- Apprentice – St. Pete
- Scheduler Coordinator I – Tampa
- Supervisor Centralized Scheduling – BOSS
- Administrative Specialist – Technical training

The following are replacement positions. Replacement positions occur regularly due to employee turnover in the routine course of business. Their responsibilities are currently being managed by other Peoples team members. However, this is only sustainable on a temporary basis.

- Director of Safety (Offer Accepted; anticipated start in June 2025)
- One Apprentice – Dade

The responsibilities of the following positions are currently being performed by outside contractors or Tampa Electric. Insourcing these positions lessens Peoples' reliance on outside contractors or Tampa Electric, and as a result may reduce Outside Services expenses or Peoples' allocation to Tampa Electric.

- Nine Meter Technicians
- Two RNG/CNG Coordinators – Sustainable Ops
- Security Professional (currently Tampa Electric)
- Four Dispatch Analysts (currently Tampa Electric)
- Supervisor Dispatch Shift – BOSS (currently Tampa Electric)

The responsibilities of the following positions are currently being performed by other Peoples team members. However, due to the growth of Peoples'

system, additional positions are required to maintain the safety, efficiency, and reliability of the system.

- Business Ops Support Specialist – BOSS
- Technical Trainer
- Three Damage Prevention Coordinators
- Two Damage Claims and Billing Support Coordinators
- Two Apprentices – Jacksonville
- Administrative Specialist – Jacksonville
- Apprentice – Panama City
- Administrative Specialist - Lakeland
- Apprentice – Orlando
- Two Utility Technicians – Ocala
- Administrative Specialist – Ocala
- Two Apprentices – Tampa
- Pipeline Locator – Tampa
- Apprentice – Jupiter
- Two Apprentices – SWFL
- Pipeline Locator – SWFL
- Storekeeper – SWFL
- Leak Survey Technician – SWFL
- Pipeline Locator – Sarasota
- Apprentice – Sarasota
- Administrative Specialist – Sarasota
- Storekeeper - Sarasota
- Two Dispatch Analysts

f. Please see the explanations below, by department, of the impact to Peoples if its request to add team members is denied. Please refer to the table provided in response to Part a of this interrogatory for exact position titles in each department.

Gas Operations: Peoples proposes to add 41 team members to this department in 2025 and 31 in 2026. Of the 41 team members added in 2025, 23 are replacements for open positions from 2024 and nine are insourced from outside contractors. The remaining nine positions in 2025

PEOPLES GAS SYSTEM, INC.
DOCKET NO. 20250029-GU
STAFF'S FIFTH SET OF INTERROGATORIES
INTERROGATORY NO. 45
BATES PAGE(S): 17922-17929
JUNE 4, 2025

are new and, with the 31 new team members in 2026, are needed to maintain our service levels and improve Peoples' ability to serve our customers as our system grows. The risk if these positions are not approved is Peoples' current team members will be challenged to meet the demands of a growing system and to safely and effectively serve our growing customer base. Not approving these positions will impact Peoples' ability to effectively respond to gas emergencies, perform necessary compliance and maintenance activities on our system, and deliver safe and reliable service to customers.

Pipeline Safety: The company is proposing the addition of three team members to this department in 2025 and eight team members in 2026. Of the three team members added in 2025, one is a replacement for an open position from 2024. The remaining two positions in 2025 and the eight new positions in 2026 are needed to maintain our safety and compliance performance levels. Denying Peoples' request for the 11 Pipeline Safety positions would limit the company's ability to enhance the safety and security of its system. These team member additions will expand damage prevention efforts across our growing system and will enhance timeliness of third-party claims billing and recovery, which have direct safety and financial benefits. Without a dedicated Fleet Safety Professional, Peoples would be challenged to implement vehicle and driver safety technology and related management systems that can reduce accidents and drive efficiencies. Other team member additions (Security Professional and Business Continuity Coordinator) remain critical for Peoples to implement recommendations from physical security risk analyses and to advance emergency and business interruption scenario planning and preparations.

Gas Operations	Dispatcher Analyst - BOSS	2	2025	New	This position is responsible for analyzing and dispatching daily workload for field technicians and contractors, ensuring route accuracy and appropriate dissemination of work for PGS (Peoples Gas System) Operations. The verification of all schedules and resources will be achieved to ensure timely and reliable service to customers in accordance with the corporate business plans. Uses independent judgment to dispatch field technicians and contractors efficiently, effectively, and safely to respond to emergencies, urgent and non-emergency work orders as appropriate. Prioritizes work suitable to its urgency, ensures all work orders are completed, and customer appointments are kept on time. Responsible for maintaining accurate information within the Work and Asset Management (WAM) Business System. Supports Operations personnel and other resources to include and not limited to: Customer Experience, Meter Services, and Billing & Collections Departments.	Anticipated: July 2025
Gas Operations	Supervisor Dispatch Shift - BOSS	1	2025	New	This position provides leadership to dispatch staff who perform a variety of job functions that support gas operations service work related to meter set installations, turn-on/turn-offs, high bill investigations, increasing pressure, adding load, etc. Department responsibilities include back-office, administrative and procedural aspects to performing the work including work coordination and dispatching of service personnel, work order management, new construction account management, operations planning, and incident support. Oversee successful completion of assigned job activities by planning, organizing and monitoring operational systems, procedures, and processes. In conjunction with the Manager, ensuring that department goals are in alignment with the Company's business plan.	Anticipated: August 2025
Gas Operations	Business Ops Support Specialist - BOSS	1	2025	Previously Approved	This position is responsible for the Gas Operations business activity support of SAP, CRB and related Business Operations Support Services technologies with respect to device management and field activities. Works closely with gas division operations team members to support multiple system related functions of work management, meter reading, and new construction. Serves as liaison between Gas Operations, Billing and Customer Service departments and those who develop systems and provide technical support for systems. Facilitates the optimization of operational performance by enhancing the alignment between business processes, customers, and technology. Works under a mentor and with regular guidance on assignments of moderate complexity and variety; supporting gas operation solutions. Coordinates in a team effort amongst peers. May be granted moderate decision-making responsibility requiring independent judgement within multiple assigned business operation controls, developing skills and independence over time.	Anticipated: July 2025
Gas Operations	Supervisor Centralized Scheduling - BOSS	1	2025	New	This position oversees the optimization and efficient utilization of all work scheduling and coordinating the demand for work and the availability of PGS (Peoples Gas System) Operations personnel along with verification of equipment and materials availability. Oversees and directs all planned and unplanned Operations work including but not limited to service, compliance, locates, distribution and resources in operations. Responsible for processing, analyzing, and reporting all key metrics for Scheduler-Coordinator business goals. This position provides direct supervision of the Scheduler-Coordinators and integrity of the Work and Asset Management (WAM) Business System.	Filled: January 2025
Gas Operations	Manager of Sustainable Operations - Sustainable Ops.	1	2025	New	This position will lead the RNG and CNG operations team members aligning with the company's vision, mission, and goals. Key responsibilities include budgeting and overseeing daily operations of the RNG processing plant, CNG fill stations, and natural gas compressor stations. Ensures regulatory compliance and manages owner/operator relations. Oversees consistency and production across all CNG and RNG operations. The O&M for this position is split. 50% will go to PGS for the operational support of CNG and RNG projects. The remaining 50% will be charged to the Alliance RNG Plant to insource its operations. This manager will oversee an equal number of team members working on CNG and RNG.	Anticipated: August 2025

STAFF'S FIFTH SET OF INTERROGATORIES
INTERROGATORY NO. 46
BATES PAGE(S): 17930
JUNE 4, 2025

46. Please refer to page 60, lines 21 through 25. For the delayed periodic meter change-outs, please explain why there was a slower than expected program start.

ANSWER:

Commercial grade meters must be replaced on a 10-year cycle. Peoples' replacement schedule was initially constrained by supply chain issues associated with the pandemic, resulting in a multi-year backlog. This situation was further compounded by the nature of commercial meter change-outs, which cause service disruptions to customers, may require upgrades such as the installation of a bypass, and necessitate the use of qualified personnel to complete.

In 2020 and 2021, Peoples had significant challenges in providing customer-facing services and managing its commercial meter supply chain. The shortage was so extreme that in 2022 and 2023, Peoples had to prioritize meters in order to provide service to new customers, which caused the existing backlog to continue growing into 2024.

With supply chain issues being alleviated in 2024, Peoples began working through its backlog by increasing its engagement with contractor resources and has worked to ensure appropriate processes are in place to mitigate potential customer impacts related to service restoration following meter replacements. However, the program did not reach the targeted levels due to delays in procuring the necessary contractor services for the work.

Going into 2025 and 2026, Peoples has identified and secured contractor services for the completion of the changeouts and is actively working to engage additional contractor resources to pursue its targeted levels of program activity.

INTERROGATORY NO. 47
BATES PAGE(S): 17931-17934
JUNE 4, 2025

47. Please refer to page 62, lines 8 through 16 for the following questions.

a. Please explain how PGS allocates transportation vehicles.

b. Please identify the types of transportation vehicles PGS intends to acquire, and provide the associated cost for each type.

c. For both 2025 and 2026 and by vehicle type and team member position title, if applicable, please identify the number of new transportation vehicles associated with new team members, and identify the number of new transportation vehicles associated with vehicle retirements.

d. For the new transportation vehicles associated with vehicle retirements, please detail the criteria PGS uses to determine the need for vehicle retirements.

ANSWER:

a. Peoples allocates vehicles based on job roles and the tasks associated with these roles. Utility Technicians, Apprentices, Corrosion Technicians, Measurement Technicians, and I&C Technicians are typically issued a heavy-duty work truck, such as the Chevy Silverado 3500, which can haul the weight of the equipment, tools, and materials required for their work. Distribution teams and M&R Gas Operations Technicians, who need to transport larger or heavier equipment, such as generators, excavators, and other specialty types of equipment, are issued heavier-duty trucks such as the Chevy Silverado 5500. Other team members performing supervisory work, inspection work, damage prevention, meter reading, and various pipeline compliance work in the field are issued lighter duty vehicles, including the Chevy Colorado, Silverado 1500, and Chevy Traverse.

b. Please see the table below, which shows the five vehicles the company intends to acquire for new team members and the replacement of vehicles that are retired.

BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION

In re: Petition for Rate Increase by Peoples Gas System, Inc.	DOCKET NO. 20250029-GU FILED: June 17, 2025

PEOPLES GAS SYSTEM, INC.'S ANSWERS TO STAFF'S SIXTH SET OF INTERROGATORIES (NOS. 48-65)

Pursuant to Rule 106.206, Florida Administrative Code, and Florida Rule of Civil Procedure 1.350, Peoples Gas System, Inc. ("Peoples" or the "company"), hereby answers The Staff of the Florida Public Service Commission's ("Staff") Sixth Set of Interrogatories (Nos. 48-65), served May 28, 2025 ("Staff's Sixth Interrogatory").

General Objections

1. Peoples objects to each interrogatory in Staff's Sixth Interrogatory ("Set") to the extent that it seeks information that is duplicative, not relevant to the subject matter of this docket, and is not reasonably calculated to lead to the discovery of admissible evidence.

2. Peoples objects to each Set to the extent it is vague, ambiguous, overly broad, imprecise, or utilizes terms that are subject to multiple interpretations but are not properly defined or explained for purposes of such Set. Peoples will seek clarification from Staff if a Set is not clear, but Peoples will produce documents subject to, and without waiving, this objection.

3. Peoples objects to each Set to the extent it requires Peoples to produce information that is already in the public record before the Florida Public Service Commission ("FPSC" or the "Commission") or other public agency and available to Staff through normal procedures or is readily accessible through legal search engines.

4. Peoples objects to each Set to the extent that it calls for data or information protected by the attorney-client privilege, the work product doctrine, the accountant-client

FPSC EXH NO. 80
ADMITTED

privilege, the trade secret privilege, or any other applicable privilege or protection afforded by law. Peoples will describe the nature of the privileged material, if any, in a privilege log that will accompany its responses.

5. Peoples objects to producing paper copies on the grounds that doing so would be unduly burdensome.

6. Peoples objects to each Set to the extent it requires the company to provide information that it believes is "proprietary confidential business information" as described in Section 366.093, Florida Statutes.

7. Peoples objects to each Set, instruction, or definition in that purports to expand Peoples' obligations under applicable law.

8. Peoples objects to each Set to the extent it requests Peoples to prepare information in a particular format or create data or information that it otherwise does not possess as unduly burdensome and as purporting to expand Peoples' obligations under applicable law.

9. Subject to Section 366.093(1), Florida Statutes, Peoples objects to any definition or Set that requests documents from persons or entities who are not parties to this proceeding, that seek information from affiliates unrelated to transactions or cost allocations involving Peoples, or that are not otherwise subject to discovery under applicable rules.

10. Peoples objects to any Set requiring the company to provide additional information beyond that obtained through a reasonable and diligent search.

General Response

Subject to and without waiving its general objections, which are incorporated by reference in each of its specific answers, Peoples will serve its answers to the Commission staff by hand delivering a USB containing its answers to the Commission Clerk's office, and for Staff's

FPSC EXH NO. 80
ADMITTED

purposes, the term "USB" should be substituted for "SharePoint" in the specific answers shown below.

The company's specific answers will identify interrogatories that call for answers that contain (a) information for which the company asserts a legal privilege and/or (b) "proprietary confidential business information" as defined in Section 366.093, Florida Statutes.

An answer that contains information for which the company asserts a legal privilege will be identified in the privilege log attached as Exhibit A.

An answer that contains information the company asserts to be "proprietary confidential business information" will be provided in the Confidential portion of the SharePoint subject to a request for confidential classification, motion for temporary protective order and/or a non-disclosure agreement.

Please refer to the direct testimony of witness Taylor for questions 48 and 49:

48. Please discuss the reasons for the "ongoing consumption trends" (declining usage) referred to on pages 46 and 47.

ANSWER:

Residential customers have been using less energy on average. While the Company has not conducted a comprehensive review of what is causing this reduction, the reduction is likely attributed to, the implementation and customer adoption of efficiency and conservation standards, such as successive federal appliance standards, tighter building-energy codes, and voluntary conservation initiatives, warmer weather, adjustments in response to climatic conditions, and the development of smaller or sporadically occupied residences.

JUNE 17, 2025

49. Please explain the differences between gas interruption and curtailment.

ANSWER:

Witness Buzard's testimony uses the terms "interruption" and "curtailment" in reference to tariff changes. These are used interchangeably within Peoples' tariff and curtailment plan and refer to the reduction in the delivery of gas when there is: (1) limited gas supply, (2) reduced delivery capacity, (3) gas system emergencies (such as energy/fuel emergences or natural emergencies) or (4) other gas system conditions that necessitate the reduction.

Additionally, the term "interruptible" is used to denote an interruptible rate schedule under the company's tariff. For example, as used in the gas transportation agreement (Doc. No. 11 of Exhibit LB-1, Bates No. 191 to 195) and the minimum volume agreement (Doc. No. 11 of Exhibit LB-1, Bates No. 173 – 174) refers to a contractual term that applies only to customers who have chosen to take service under an interruptible rate schedule. These customers pay a discounted rate for their gas service because they agree to have their service shut off or interrupted, often with just a few hours' notice, whenever system demand approaches the firm capacity limit or when other issues, as described above, arise.

Please refer to the direct testimony of witness Buzard for questions 50 through 55:

50. On page 49, lines 21-22 states that the proposed consolidation will "improve rate transparency for customers." Please provide details regarding how consolidation will improve rate transparency.

ANSWER:

The proposed consolidation will "improve rate transparency for customers" as there will be one active residential class, which will reduce customer confusion during the company's annual rate reclassification process. Under the current structure, many residential customers are periodically reclassified based on prior-year usage, often without understanding the reason or implications. This can lead to unexpected bill changes and frustration, especially when customers compare their current bill to a previous month or a neighbor's bill.

PEOPLES GAS SYSTEM, INC.
DOCKET NO. 20250029-GU
STAFF'S SIXTH SET OF INTERROGATORIES
INTERROGATORY NO. 51
BATES PAGE(S): 17973
JUNE 17, 2025

51. On page 50, lines 9-10 state that "the goal is to gradually move to a single residential billing class." Please discuss how the Company would treat new residential customers who will automatically be classified as RS-2 customers but use less than 100 therms per month and explain how the higher billing factors be justified for very low use customers.

ANSWER:

First, the company notes that the 100-therm breakpoint is an *annual* – not monthly – usage threshold.

The *current "*billing factors" for RS-2 include a: (1) fixed "Monthly Rate" of $24.41 per month, and (2) a monthly Distribution Charge of $0.35165 per Therm. The Distribution Charge is the same for RS-1, RS-2, and RS-3.

If the company's proposed rate schedule modifications are approved, all new residential customers classified as RS-2 customers will be subject to a Monthly Rate of $35.50 *and* a Distribution Charge of $0.46319 per Therm. New customers using less than 100 therms will be billed on the actual therms consumed and not on any minimum amount of therms. For customers using less than 100 therms, the higher billing factors reflect an appropriate means of allocating the cost of providing gas service to residential customers. The primary cost of providing service to residential customers involves fixed infrastructure such as pipelines, meters, and maintenance. These costs are incurred whether a customer uses a little or a lot of gas. Similarly, the delivery of gas to each residential property involves similar activities regardless of consumption: meter reading, billing, customer service, and emergency response. These operational costs do not scale directly with usage volume but are more uniform across all customers. as described in witness Taylor's testimony, the consolidation promotes fairness in cost distribution among customers, as different rates based on consumption do not necessarily reflect the true cost of service and provides more equitable rate designs, ensuring rates reflect actual service delivery costs.

JUNE 17, 2025

52. Please discuss the reasons for "declining use per customer trend" referred to on page 50, lines 2-3.

ANSWER:

As also explained in Peoples' response to Staff's Sixth Set of Interrogatories, Number 48 above, the "declining use per customer trend" refers to residential customers use of less energy on average. While the Company has not conducted a comprehensive review of what is causing this reduction, this declining usage is likely caused by: (1) the implementation of efficiency and conservation standards, (2) the customer adoption of efficiency and conservation standards, (3) federal appliance standards, (4) warmer weather, (4) tighter building-energy codes, (5) voluntary conservation initiatives, and (6) the development of smaller or sporadically occupied residences.

JUNE 17, 2025

54. Referring to Sixth Revised Sheet No. 5.201, Section A, please explain the reasons why the customer should be responsible for the installation of carbon monoxide and methane detectors within the customer's premises. Also, please include in the explanation whether the Company is aware if other Florida gas utilities have similar policies.

ANSWER:

Section 553.885, Florida Statutes, mandates that "[e]very separate building or addition to an existing building […] constructed on or after July 1, 2008, and having a fossil-fuel-burning heater or appliance, a fireplace, an attached garage, or other feature, fixture, or element that emits carbon monoxide as a byproduct of combustion **shall** have **an approved operational carbon monoxide alarm installed** within 10 feet of each room used for sleeping purposes in the new building or addition, or at such other locations as required by the Florida Building Code" (emphasis added).

Peoples takes the safety of its customers very seriously. Florida along with several states and local jurisdictions now require the installation of carbon monoxide (CO) alarms in residences. The company's proposed tariff modification supports this requirement and clarifies that the company is not responsible for the installation of carbon monoxide monitoring and methane detectors within the customer's premises. Peoples is not aware whether other Florida gas utilities have similar language in their tariffs. However, the company understands Florida gas utilities have pages on their company website dedicated to carbon monoxide safety and recommend the installation of alarms.

55. With reference to the Sixth Revised Sheet No. 5.801, paragraph A, please explain why the Company will not be responsible for any damage on the customer's side of the Point of Delivery, due to contributory or concurrent negligence of the Company.

ANSWER:

Periodically, Peoples is forced to defend baseless claims against the company involving no company equipment and on the Customer's side of the Point of Delivery. The company's tariff is clear about where responsibility ends. The proposed change merely seeks to clarify that a customer who is contributing to or concurrently negligent through its own "acts or omissions" would indemnify, hold harmless, and defend the Company. The purpose of the revision would be to minimize the number of frivolous lawsuits the company is forced to defend.

Several utilities nationwide have similar provisions located within their tariffs (see, e.g., Duke, PECO, Peoples Gas (PA), and Nicor). Florida's recent tort reform changes imply that the legislature and the executive are sympathetic to the curtailment of needless litigation.

58. Refer to page 26, line 22. Please explain what is meant by "System Segmentation Personas."

ANSWER:

"System Segmentation Personas" refers to a component of our data-focused initiatives aimed at enhancing the customer experience through advanced data analytics and AI. System Segmentation is an AI-powered platform that supports both predictive and generative capabilities, enabling us to better understand and respond to customer needs. This component allows us to create detailed customer personas- data-informed profiles that reflect behavioral patterns, preferences, and service needs. By using the personas, we can more effectively align customers with relevant programs and improve service delivery. For example, this component will allow us to proactively route inquiries through the communication channels customers are most likely to prefer (e.g., chat, email, phone) ensuring each customer receives a more personalized, efficient, and supportive experience.

59. Refer to page 24, lines 8, through page 30, line 21, regarding PGS' requested Customer Experience Projects.

a. Please explain how PGS determined the Customer Experience Projects were needed. As part of your response, please indicate whether customers requested the services associated with these projects.

b. Please explain how these projects enable PGS to provide safe and reliable service to its customers.

ANSWER:

a. The company identified the need for Customer Experience Projects through a combination of direct customer feedback, internal data analysis, and technology assessments. Surveys are conducted immediately following top key customer interactions—whether in the field, over the phone, or online—to capture real-time insights which are used to prioritize features and enhancements that align with customer expectations and support long-term strategic goals. While not directly requested by customers, these projects are the result of customer feedback gathered through survey data.

Several projects were also initiated to address aging technology platforms that were nearing end-of-life or no longer met the operational needs required to deliver essential services. By modernizing these systems, Peoples ensures that the infrastructure supporting customer interactions remains secure, stable, and capable of meeting evolving demands.

b. These projects span four key areas—Data, Communications, Digital and Artificial Intelligence (Smart Technology), and Process Enablement—each playing a vital role in ensuring the safety, reliability, and responsiveness of the services Peoples provides.

- **Data**: Enhancements in data capabilities, such as customer segmentation, allow Peoples to better understand and identify groups of customers based on their specific needs and risk profiles. This enables more targeted safety measures and service strategies, ensuring that

high-risk or vulnerable segments receive the attention and resources necessary to maintain safe and reliable service.

- **Communications**: Upgraded communication systems support more proactive and precise notifications to customers. By tailoring messages to specific customer segments, Peoples can deliver timely alerts and updates—especially during service interruptions or emergencies—helping customers stay informed and safe.

- **Digital and Artificial Intelligence** (Smart Technology): Migrating critical systems to cloud solutions such as AWS enhances system uptime and responsiveness. This ensures that during high-impact events like storms or gas emergencies, customers can quickly and reliably reach Peoples.

- **Process Enablement**: Projects like replacing Equifax ensures that Peoples protects customer information and remains compliant with Federal regulatory requirements, reinforcing the integrity and reliability of customer interactions and data handling. This project benefits customers by keeping their personal information safe.

INTERROGATORY NO. 61
BATES PAGE(S): 17984 - 17985
JUNE 17, 2025

61. Please explain the key difference(s) between the Customer Experience Projects presented in the instant docket and the Customer Experience Projects presented in Tampa Electric's 2024 Rate Case (Issue 16).

ANSWER:

The key differences between the Customer Experience ("CE") projects in Peoples' current request and the CE projects requested in Tampa Electric's 2024 Rate Case relate to company focus and functional focus of the projects requested.

Company Focus: Approximately 39 percent of the 2025 expense for CE projects included in Tampa Electric's 2024 Rate Case was for projects specific to Tampa Electric. In the instant docket, 100 percent of the projects requested are *shared* by Tampa Electric and Peoples.

Functional Focus: In Tampa Electric's 2024 Rate Case, the functional focus of the requested CE projects was on customer digitalization, operational efficiency, and optional customer programs. In the instant docket, the functional focus of the CE projects is on (1) Communications, (2) Data, (3) Digital and Artificial Intelligence (Smart Technology), and (4) Process Enablement.

Examples of projects in the instant docket with a different functional focus than those included in Tampa Electric's 2024 Rate Case include the "AWS" and "Move In Reimagine" projects. AWS will replace the outdated legacy system with a modern, cloud-based, AI-enabled platform to better and more quickly serve customers and will address cybersecurity vulnerabilities. The Move In Reimagine project is a technology-focused project and will permit customers to start service by either calling or applying online. This technology investment automates the move-in request process, eliminating the need for back-office team members to manually handle these requests.

While there are not distinctions or differences, it is important to note that there are two projects, as discussed in the company's answer to Staff's Interrogatory No. 60 above included in the instant docket that were included in Tampa Electric's 2024 Rate Case: the "System Segmentation Personas" ("System Segmentation") and

64. Please refer to the direct testimony of witness O'Connor, Exhibit TO-1, Document 7. Identify each project included in the Cathodic Protection category, and provide the actual or budgeted annual costs (capital & O&M separately) associated with each project for the years 2023 through 2026. As part of your response, provide a description of each project, and explain why it is needed.

ANSWER:

The "Cathodic Protection" category on Exhibit TO-1, Document No. 7, encompasses sustainability and reliability capital investments tied to divisional blanket projects which are not tracked as individual activities because these "projects" do not have a scope of work or asset that is over $250,000. These capital investments are driven by historical trends, with adjustments as needed for any specific issues identified during routine maintenance and inspection activities at the division level.

Please see the following table showing the amounts invested and trended by division for the Cathodic Protection blanket projects.

Cathodic Protection Capital Project Category

Funding Project Name	2023 Actual Capital	2024 Actual Capital	2025 Budget Capital	2026 Budget Capital
Miami Blanket Cathodic Protection	$1,200,530	$1,311,444	$1,537,702	$1,549,600
Tampa Blanket Cathodic Protection	110,890	142,197	103,202	150,000
St. Pete Blanket Cathodic Protection	83,195	191,418	103,202	104,000
Orlando Blanket Cathodic Protection	1,761,381	625,550	169,250	245,000

The "Cathodic Protection" blanket projects can be described as projects that protect the company's gas system against corrosion using cathodic protection as detailed in PHMSA 49 C.F.R. § 192.463. These blanket projects are necessary because Peoples, as a regulated utility, has a duty to protect its system against corrosion. Using cathodic protection prevents corrosion of the system, reduces the risk of leaks, and significantly extends the lifespan of steel pipelines to the benefit of Peoples and its customers.

65. Please refer to Exhibit No. CR-1, document no. 5 of witness Richard's direct testimony. Explain the key difference(s) between the technology projects requested in the instant docket and the Information Technology Capital Projects approved by Order No. PSC-2025-0038-FOF-EI.

ANSWER:

Peoples' technology projects included in the test year are either specific to Peoples or represent the allocated costs for shared enterprise-wide technology projects led by Tampa Electric. The technology projects included in Peoples' current request are divided into two categories: (1) those that specifically benefit Peoples' systems, business, and customers, and (2) shared technology projects that benefit both Peoples and Tampa Electric. The projects shared with Tampa Electric are enterprise-wide and split between Peoples and Tampa Electric. Tampa Electric typically leads the implementation of these projects. Peoples is responsible for its allocated share of the costs.

Peoples is answering this interrogatory by producing records as allowed under Florida Rule of Civil Procedure 1.340(c); the Excel record reflecting the key differences between the specific technology projects requested by Peoples and those approved by Order No. PSC-2025-0038-FOF-EI are provided in the folder entitled "ROG_6_65" and will be posted on the Consumer Party SharePoint Site or provided via USB.

Additional information on these projects is provided in Staff's Fifth Set of Interrogatories, No. 26.

BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION

In re: Petition for Rate Increase by Peoples Gas System, Inc.	DOCKET NO. 20250029-GU FILED: June 30, 2025

PEOPLES GAS SYSTEM, INC.'S ANSWERS TO STAFF'S EIGHTH SET OF INTERROGATORIES (NOS. 77-85)

Pursuant to Rule 106.206, Florida Administrative Code, and Florida Rule of Civil Procedure 1.350, Peoples Gas System, Inc. ("Peoples" or the "company"), hereby answers The Staff of the Florida Public Service Commission's ("Staff") Eighth Set of Interrogatories (Nos. 77-85), served June 10, 2025 ("Staff's Eighth Interrogatory").

General Objections

1. Peoples objects to each interrogatory in Staff's Eighth Interrogatory ("Set") to the extent that it seeks information that is duplicative, not relevant to the subject matter of this docket, and is not reasonably calculated to lead to the discovery of admissible evidence.

2. Peoples objects to each Set to the extent it is vague, ambiguous, overly broad, imprecise, or utilizes terms that are subject to multiple interpretations but are not properly defined or explained for purposes of such Set. Peoples will seek clarification from Staff if a Set is not clear, but Peoples will produce documents subject to, and without waiving, this objection.

3. Peoples objects to each Set to the extent it requires Peoples to produce information that is already in the public record before the Florida Public Service Commission ("FPSC" or the "Commission") or other public agency and available to Staff through normal procedures or is readily accessible through legal search engines.

4. Peoples objects to each Set to the extent that it calls for data or information protected by the attorney-client privilege, the work product doctrine, the accountant-client

FPSC EXH NO. 81
ADMITTED

privilege, the trade secret privilege, or any other applicable privilege or protection afforded by law. Peoples will describe the nature of the privileged material, if any, in a privilege log that will accompany its responses.

5. Peoples objects to producing paper copies on the grounds that doing so would be unduly burdensome.

6. Peoples objects to each Set to the extent it requires the company to provide information that it believes is "proprietary confidential business information" as described in Section 366.093, Florida Statutes.

7. Peoples objects to each Set, instruction, or definition in that purports to expand Peoples' obligations under applicable law.

8. Peoples objects to each Set to the extent it requests Peoples to prepare information in a particular format or create data or information that it otherwise does not possess as unduly burdensome and as purporting to expand Peoples' obligations under applicable law.

9. Subject to Section 366.093(1), Florida Statutes, Peoples objects to any definition or Set that requests documents from persons or entities who are not parties to this proceeding, that seek information from affiliates unrelated to transactions or cost allocations involving Peoples, or that are not otherwise subject to discovery under applicable rules.

10. Peoples objects to any Set requiring the company to provide additional information beyond that obtained through a reasonable and diligent search.

General Response

Subject to and without waiving its general objections, which are incorporated by reference in each of its specific answers, Peoples will serve its answers to the Commission staff by hand delivering a USB containing its answers to the Commission Clerk's office, and for Staff's

FPSC EXH NO. 81
ADMITTED

purposes, the term "USB" should be substituted for "SharePoint" in the specific answers shown below.

The company's specific answers will identify interrogatories that call for answers that contain (a) information for which the company asserts a legal privilege and/or (b) "proprietary confidential business information" as defined in Section 366.093, Florida Statutes.

An answer that contains information for which the company asserts a legal privilege will be identified in the privilege log attached as Exhibit A.

An answer that contains information the company asserts to be "proprietary confidential business information" will be provided in the Confidential portion of the SharePoint subject to a request for confidential classification, motion for temporary protective order and/or a non-disclosure agreement.

Specific Answers

PEOPLES GAS SYSTEM, INC.
DOCKET NO. 20250029-GU
STAFF'S EIGHTH SET OF INTERROGATORIES
INTERROGATORY NO. 77
BATES PAGE(S): 18041
JUNE 30, 2025

77. Please refer to witness Nichols' direct testimony, page 61, lines 8 through 10. Explain how Peoples originally determined the current annual storm reserve accrual of $380,000 and the current storm reserve target of $3.8 million.

ANSWER:

Peoples originally determined the current annual storm reserve accrual of $380,000 and the current storm reserve target of $3.8 million in Docket No. 20200051-GU, which was included in the 2020 Stipulation and Settlement Agreement that resolved that rate case. In that filing, the annual accrual amount was based on a ten-year history of actual storm costs incurred from 2010 through 2019 using the Incremental Cost and Capitalization Approach ("ICCA") methodology guidance under Rule 25-6.0143, F.A.C., and the storm reserve target was based on a reasonable multiple of ten times the annual accrual amount.

Subsequently on June 28, 2021, the Commission adopted Rule 25-7.0143, F.A.C., that required the company to file a Storm Damage Self-Insurance Reserve Study ("Study") with the Commission Clerk by January 15, 2022. The company filed its Study on January 14, 2022 ("2022 Study") and it produced an expected annual cost of $364,000 with a one percent Aggregate Cost Exceedance Value of $4.4 million (see Exhibit AN-1 to witness Nichols direct testimony, Document No. 12, page 6 of 23). In Docket No. 20230023-GU, Order No. PSC-2023-0388-FOF-GU, the company and intervenors agreed to a Type 1 stipulation that maintained the existing $380,000 annual accrual and $3.8 million storm reserve target as those figures were reasonably supported by the Commission required 2022 Study.

The company has not completed another study as it is not seeking a change to either the target accumulated balance or the annual accrual amount for FERC Account 228.1 as the company believes the current $380,000 annual accrual and $3.8 million storm reserve target approved by the Commission in Order No. PSC-2023-0388-FOF-GU is still reasonable considering the company's ICCA storm cost experience over the past 10 years.

JUNE 30, 2025

79. At the current rate of annual storm damage accrual, provide an estimate of the time necessary to reach the company's current storm reserve target.

ANSWER:

At the current rate of $380,000 annual storm damage accrual, absent future storms costs, and the company petitioning the Commission for the recovery of a debit balance in FERC Account 182.3, the time necessary to reach the company's current storm reserve target would be approximately 14 years, or year 2038.

In re: Petition for Rate Increase by Peoples Gas System, Inc.	DOCKET NO. 20250029-GU FILED: July 7, 2025

PEOPLES GAS SYSTEM, INC.'S ANSWERS TO STAFF'S NINTH SET OF INTERROGATORIES (NOS. 86-103)

Pursuant to Rule 106.206, Florida Administrative Code, and Florida Rule of Civil Procedure 1.350, Peoples Gas System, Inc. ("Peoples" or the "company"), hereby answers The Staff of the Florida Public Service Commission's ("Staff") Ninth Set of Interrogatories (Nos. 86-103), served June 17, 2025 ("Staff's Ninth Interrogatory").

General Objections

1. Peoples objects to each interrogatory in Staff's Ninth Interrogatory ("Set") to the extent that it seeks information that is duplicative, not relevant to the subject matter of this docket, and is not reasonably calculated to lead to the discovery of admissible evidence.

2. Peoples objects to each Set to the extent it is vague, ambiguous, overly broad, imprecise, or utilizes terms that are subject to multiple interpretations but are not properly defined or explained for purposes of such Set. Peoples will seek clarification from Staff if a Set is not clear, but Peoples will produce documents subject to, and without waiving, this objection.

3. Peoples objects to each Set to the extent it requires Peoples to produce information that is already in the public record before the Florida Public Service Commission ("FPSC" or the "Commission") or other public agency and available to Staff through normal procedures or is readily accessible through legal search engines.

4. Peoples objects to each Set to the extent that it calls for data or information protected by the attorney-client privilege, the work product doctrine, the accountant-client

FPSC EXH NO. 82

privilege, the trade secret privilege, or any other applicable privilege or protection afforded by law. Peoples will describe the nature of the privileged material, if any, in a privilege log that will accompany its responses.

5. Peoples objects to producing paper copies on the grounds that doing so would be unduly burdensome.

6. Peoples objects to each Set to the extent it requires the company to provide information that it believes is "proprietary confidential business information" as described in Section 366.093, Florida Statutes.

7. Peoples objects to each Set, instruction, or definition in that purports to expand Peoples' obligations under applicable law.

8. Peoples objects to each Set to the extent it requests Peoples to prepare information in a particular format or create data or information that it otherwise does not possess as unduly burdensome and as purporting to expand Peoples' obligations under applicable law.

9. Subject to Section 366.093(1), Florida Statutes, Peoples objects to any definition or Set that requests documents from persons or entities who are not parties to this proceeding, that seek information from affiliates unrelated to transactions or cost allocations involving Peoples, or that are not otherwise subject to discovery under applicable rules.

10. Peoples objects to any Set requiring the company to provide additional information beyond that obtained through a reasonable and diligent search.

General Response

Subject to and without waiving its general objections, which are incorporated by reference in each of its specific answers, Peoples will serve its answers to the Commission staff by hand delivering a USB containing its answers to the Commission Clerk's office, and for Staff's

FPSC EXH NO. 82
ADMITTED

purposes, the term "USB" should be substituted for "SharePoint" in the specific answers shown below.

The company's specific answers will identify interrogatories that call for answers that contain (a) information for which the company asserts a legal privilege and/or (b) "proprietary confidential business information" as defined in Section 366.093, Florida Statutes.

An answer that contains information for which the company asserts a legal privilege will be identified in the privilege log attached as Exhibit A.

An answer that contains information the company asserts to be "proprietary confidential business information" will be provided in the Confidential portion of the SharePoint subject to a request for confidential classification, motion for temporary protective order and/or a non-disclosure agreement.

Specific Answers

FPSC EXH NO. 82
ADMITTED

PEOPLES GAS SYSTEM, INC.
DOCKET NO. 20250029-GU
STAFF'S NINTH SET OF INTERROGATORIES
INTERROGATORY NO. 86
BATES PAGE(S): 18055 - 18056
JULY 7, 2025

86. Refer to PGS's response to Staff's Third Set of Interrogatories, No. 16(a) (Bates 17812), which states that the budgeted OSS revenues for 2026 were based on forecasted sales quantity multiplied by the forecasted FGT Zone 3 / Market Area delivery locational basis. Please provide the detailed calculation showing how the $2.6 million OSS net margin forecast for 2026 was derived, assuming a $0.84/therm basis and a 25 percent margin share.

ANSWER:

Peoples is answering this interrogatory in full by producing a document as allowed under Florida Rule of Civil Procedure 1.340(c); the document reflecting the detailed calculation showing how the $2.6 million OSS net margin forecast for 2026 was derived is provided in the folder entitled "ROG_9_86" and will be posted on the Consumer Party SharePoint Site or provided via USB.

The $0.84/therm basis assumed in the question seems to be taken from the company's answer to Staff's Third Set of Interrogatories No. 16(b) which sought the natural gas price spreads for 2019 through 2024, and the *projections of such spreads* for 2025 and 2026. The company, in calculating the $2.6 million OSS net margin forecast, did not use the *projected* FGT Zone 3 minus Henry Hub amount of $0.84/therm basis. Rather, the company assumed *no basis spread* or that the purchase and sale gas transactions occurred *only* at FGT Zone 3. Accordingly, the calculation provided in answering this interrogatory shows how the company derived the $2.6 million net margin forecast for 2026, assuming *no spread* and a 25 percent margin share.

STAFF'S NINTH SET OF INTERROGATORIES
INTERROGATORY NO. 87
BATES PAGE(S): 18057
JULY 7, 2025

87. Refer to PGS's response to Staff's Third Set of Interrogatories, No. 16(e) (Bates 17814), which compares OSS net margins for January–April 2024 and January–April 2025, and states that "the moderation assumed in the 2025 budget has not yet occurred." Given that OSS net margins for January–April 2025 ($2,885,604) significantly exceed the budget 2025 OSS margin of $2,607,000 appearing in witness Nichols direct testimony, Document No. 9, please explain whether the budget amounts for either or both 2025 and 2026 in that document should be revised, and if not, why not.

ANSWER:

Peoples recognizes the complexity of the natural gas commodity and interstate transportation market. This complexity poses challenges in predicting future opportunities for Off-System Sales (OSS). Although Peoples is currently experiencing positive outcomes from OSS, which benefits both customers and Peoples, it is very difficult to forecast future results. Peoples agrees that the 2026 budget for OSS should be adjusted in the rate case based on the Public Service Commission's decision regarding the Transportation Allocation Mechanism petition in Docket No. 20250026-GU, which pertains to the OSS sharing percentage. Any further adjustments to the budget would be challenging to determine without consistent market performance over an extended period.

Customer Bills

88. Referring to witness Buzard's direct testimony on page 51, lines 18-20, states that the typical monthly bill for a commercial (GS-1 to GS-5) customer will increase between 1 percent to 11 percent in 2026. Please provide two types of customers for each commercial class of GS-1 through GS-5.

ANSWER:

The table below provides two examples of customer business types that exist on Peoples' system for each commercial rate schedule or class from GS-1 through GS-5.

It is important to note that classification into a specific rate class does not depend on a customer's business type. Rather, it is determined by their annual usage, which can vary significantly even among customers within the same business category. Annual usage is influenced by several factors, including geographic location, foot traffic volume, hours of operation, the types and efficiencies of installed appliances, and business-specific end-uses.

As a result, the example business types listed below are illustrative and may not represent every customer within each category.

Rate Class	Example Business Type 1	Example Business Type 2
GS-1	Supermarkets	Grade Schools
GS-2	Crematoriums	Skilled Nursing Facilities
GS-3	Laundromats	Recreation Centers
GS-4	Hotels	Correctional Institutions
GS-5	Hospitals	Waste Management Facilities

JULY 7, 2025

89. On page 51, lines 21-23, witness Buzard also states that the commercial monthly bill increases are moderated due to the proposed cost of service methodology. Please discuss if there is a similar bill moderating effect on the residential class also.

ANSWER:

The cited testimony explains that the "moderating effect" on the commercial billing classes is "influenced by changes in the cost of service methodology proposed." For the Residential class, a moderating effect is also applied. Although the cost of service study indicates a 38.8% increase would be required to fully align revenues with costs, the company proposes to limit the increase to 32.3%, consistent with a cap of 1.5 times the system average revenue increase. This approach reflects a deliberate effort to moderate bill impacts for residential customers, similar to the treatment of commercial classes.

The direct testimony of witness John Taylor on pages 35 and 36, presents the cost of service results under both the methodology used in the company's prior rate case and the company's proposed methodology in this case. The overall results remain broadly consistent between the two approaches despite the proposed changes in the classification and allocation of distribution mains. Notably, the same customer classes continue to exhibit revenue deficiencies or surpluses, indicating persistent imbalances in cost recovery. For instance, nearly all customer classes show similar patterns of over or under-recovery under both methodologies, with the exception of the General Service 1 class, which displays a reversal in its cost recovery position.

As shown in Tables 2 and 3 of John Taylor's direct testimony, although the proposed cost of service reduces the deficiency for commercial classes, the Company does not propose moving these classes fully to their cost of service. As explained in Section V of Mr. Taylor's testimony, the revenue apportionment balances multiple considerations.

Delivery of Customer Bill

90. On pages 57-58, lines 24-25 and 1-4, witness Buzard states that to modernize the tariff as to how the monthly bills are rendered, the company will mail or provide the bills by other means chosen by the customer. However, the Fifth Revised Sheet No. 5.401, Section A and Second Revised Sheet No. 5.401-4 indicate that the 'other' delivery method will be a method used by the company and not a method chosen by the customer. Please explain if the customer will be able to select an alternate/other bill delivery method.

ANSWER:

Yes. Customers may elect an alternate (non-mail) bill delivery method from among the delivery channels offered by the company. As explained by witness Buzard, the intent is to modernize bill delivery by enabling customers to receive their bills through various channels of their choice. The customer may opt in to one of these channels at any time; if no election is made, the default remains a paper bill sent by U.S. Mail.

The proposed change is not intended to give the company discretion to substitute a delivery channel without the customer's consent. Peoples is open to the Staff's suggestions on how to clarify this for our customers.

Budget Billing Plan (Optional)

91. Please refer to proposed Fourth Revised Sheet No. 5.401-3 for the following questions.

a. Please explain why PGS proposes to allow the CS-GHP, GS-1, GS-2, and GS-3 customer classes to participate in the budget billing program.

b. Did PGS consider including the GS-4 and GS-5 customer classes in the budget billing program? Please explain why these classes would not be offered budget billing.

c. The proposed language of Fourth Revised Sheet No. 5.401-3 states that, "… whether the Customer has a history of late payment or return payments for insufficient funds, or other similar factors." Please describe what other factors may be used that are not otherwise listed on the proposed tariff sheet.

d. The proposed language of Fourth Revised Sheet No. 5.401-3 states that, "The Company will perform periodic reviews." Please describe what circumstances would cause the company to perform a periodic review of budget billing.

e. Referring to Fourth Revised Sheet No. 5.401-3, paragraph two states that the "Company will perform periodic reviews." Please explain if the periodic reviews are limited to annual consumption or budgeted monthly payment or a combination of both.

ANSWER:

a. The Small Commercial Rate Schedules CS-GHP, GS-1, GS-2 and GS-3 are currently eligible to participate in the Budget Billing Program. The proposed changes to the Fourth Revised Sheet No. 5.401-Budget Billing Plan, are intended to clarify the eligibility of these *Small Commercial Customers.*

FPSC EXH NO. 82
ADMITTED

Currently, the Budget Billing Plan provides, in pertinent part, that:

> Residential Customers (RS) and *Small Commercial Customers (SGS)* may elect to make budgeted payments of amounts due the Company to help stabilize their monthly payments.

See Third Revised Sheet No. 5.401-3 (emphasis added). The company believes the use of "Small Commercial Customers (SGS)" is ambiguous because "SGS" is used to define "Small *General* Service" on Tariff Sheet 7.301. The company classifies Small *Commercial* Customers as those served under the Rate Schedules SGS, CS-GHP, GS-1, GS-2, and GS-3, as these schedules represent small-volume commercial accounts. Accordingly, as stated above, the change merely clarifies that these Small Commercial Rate Schedules may elect to participate in the Budget Billing Plan.

b. No. Peoples did not consider extending participation in the Budget Billing Plan to GS-4 and GS-5 customers, as they are typically more sophisticated customers who usually take transportation service at large volumes (GS-4 applicability: 250,000 to 499,999 therms/year and GS-5 applicability: ≥ 500,000 therms/yr). Additionally, these customers usually do not purchase natural gas through the purchased gas adjustment clause.

c. The "other similar factors" that may be used that are not otherwise listed on the proposed tariff Sheet 5.401-3 include an unresolved bankruptcy or receivership filing, evidence of gas theft or meter tampering, repeated broken payment arrangements, or failure to supply a required deposited guarantee. These additional factors may be employed to ensure participants can meet the deferred-balance obligations embedded in the plan.

d. Circumstances that would cause the company to perform a "periodic review" of budget billing after enrollment include consumption pattern changes or significant shifts in the price of natural gas that would affect the monthly bill.

e. The periodic reviews are intended to review the consumption and the resulting budgeted monthly payment.

Measurement

92. Please refer to proposed Fifth Revised Sheet No. 5.501 which states, "If changes in condition on Customer's premises adversely affect the convenience, accessibility, or safety of the Meter location, the Customer shall be responsible for the cost of relocation the Meter, its appurtenances, and relate piping." Please explain if this proposed provision is new or an already established requirement of PGS.

ANSWER:

This is a new requirement. However, it is substantially similar to an already established requirement set out in tariff Sheet No. 5.201-1, Access To Premises, which provides that:

> Customer shall give Company's employees and representatives access to Customer's property so that Company may operate, inspect and maintain its facilities on Customer's premises. Installation of the Company's facilities may require that the Company be granted an easement.

The purpose of this proposed change is to clarify that if the customer makes alterations to their premises after the meter is installed, such as installing a fence or an additional structure that obstructs the company's ability to access the meter or creates a safety hazard, the company may require the customer to relocate the meter, its appurtenances, and any related piping at their cost.

Individual Transportation Service Administration Fee

93. Witness Buzard on page 54, lines 23-25, and page 55, lines 1-6 of his direct testimony states that the increase is due to managing the ITS program and operating and maintaining telemetry equipment and associated costs for the data collection system service agreement. Please explain/discuss if the above listed tasks are done by PGS personnel or by contractors. Also, please describe the data collection system service agreement.

ANSWER:

The tasks identified at the cited testimony include: (1) the management of the ITS program, and (2) operating and maintaining the telemetry equipment for the ITS meters. These tasks are primarily performed by Peoples' employees; however, the second task may occasionally require the use of outside contractors. The data-collection system service agreement is a recurring license, not a professional services agreement. This license enables hourly meter reads to flow into the company's Supervisory Control and Data Acquisition (SCADA) system. The stored data is needed to ensure validated flow; and that hourly pressure and energy data is available from every ITS meter for balancing, billing, and operational analytics.

Contract Interruptible Service

95. Referring to testimony on page 59, lines 16-17, Sixth Revised Sheet No. 7.607 and Sixth Revised Sheet No. 7.607-2, please discuss why the Company is proposing to add economic development as a qualifying condition to participate in Rate Schedule CIS.

ANSWER:

The company proposes to add economic development as a qualifying condition to participate in Rate Schedule CIS because supporting economic development is in the long-term interest of the company, our customers, and the communities we serve by enhancing community well-being and attracting and retaining businesses on its system.

Large industrial customers often evaluate gas service pricing across various states to determine the best location for new facilities. Establishing new facilities in Florida, not only creates jobs but also stimulates economic activity. The CIS rate enables Peoples to offer competitive rates in these high-stakes situations by offering a rate structure that encourages large industrial customers to choose Florida over other jurisdictions.

Off System Service

96. Referring to direct testimony on page 60, lines 5-7, (and Sixth Revised Sheet No. 7.702) please discuss how the distribution charge will be determined by competitive conditions and expand upon the potential flow back of dollars to customers.

ANSWER:

The company will determine the distribution charge based on competitive conditions by examining and considering the daily delivered spot market price.

As explained in the cited testimony, the removal of the existing tariff ceiling, which limits the distribution charge to 90 percent of the comparable firm distribution rate could potentially increase the amount of dollars that flow back to customers as a reduction to the Purchased Gas Adjustment Clause. There are occasions when the daily delivered spot market price surpasses the distribution charge, especially on high-demand days or during spikes in natural gas prices. The company is uncertain how the 90 percent cap benefits or protects any on-system customer. By eliminating this cap, the distribution charge can be aligned with competitive market conditions, preventing it from falling below what the market is willing to pay for off-system sales service. This adjustment would enable the company to recover the full margin that the market can sustain. Any increased margin accrued from Off-System Sales would result in a higher amount flowing back to customers via the Purchased Gas Adjustment Clause.

Minimum Volume Commitment Agreement

97. Please refer to proposed First Revised Sheet No. 8.126-4. Please describe why PGS proposes to remove language agreeing to provide notice to Shippers regarding the Purchased Gas Adjustment clause and any other changes to PGS' rates.

ANSWER:

Peoples proposes to remove language agreeing to provide notice to Shippers regarding changes to Peoples' rates from its Minimum Volume Commitment, Gas Transportation Agreement (MVCGTA)(Sheet No. 8.126-4) because some MVCGTA customers are exempt from the Energy Conservation Cost Recovery Clause (ECCR). Peoples satisfies the notice requirements of Rule 25-22.0405, F.A.C, by posting its current tariff available on the company's website and by issuing Commission approved customer notices whenever base rates change. Maintaining separate notices for charges that may not apply to Shippers creates unnecessary administrative burden and potential compliance risk without providing any benefit. Eliminating the sentence also aligns Peoples' tariffs with those of Florida Public Utilities Company and Florida City Gas, neither of which contains a similar provision.

PEOPLES GAS SYSTEM, INC.
DOCKET NO. 20250029-GU
STAFF'S NINTH SET OF INTERROGATORIES
INTERROGATORY NO. 98
BATES PAGE(S): 18070
JULY 7, 2025

98. With reference to direct testimony on page 62, lines 16-23 and First Revised Sheet No. 8.126-9, regarding Appendix D, please explain why the Company is proposing that Appendix D be applicable to interruptible customers and not to customers subject to curtailment.

ANSWER:

"Appendix D" is currently applicable to interruptible customers as shown on Sheet No. 8.114-1 and Sheet No. 8.126-1, which provide that:

> [i]f Shipper's service is *interruptible,* Shipper may select one or more of the options described in Appendix D, which enable Shipper to continue to receiving deliver of Gas during periods of curtailment or interruption. (emphasis added)

The modification proposed in the First Revised Sheet No. 8.126 Appendix D to the Minimum Volume Commitment Agreement (MVCGTA) and the Fourth Revised Sheet No. 8.114-7 Appendix D of the Gas Transportation Agreement (GTA) is to reduce confusion and clarify applicability of Appendix D to *interruptible* customers who choose to pay an *interruptible rate.* As explained in more detail in the company's answer to Staff's Sixth Interrogatories, No. 49, the terms "interruptible" and "curtailment" are used by the company interchangeably to refer to a reduction in the delivery of gas. However, the term "interruptible" is also used to denote a specific *rate schedule* subject to interruptible rates. All customers are "subject to curtailment" and the term "curtailment" does not denote a particular rate schedule. Thus, the company is seeking to continue to apply Appendix D to interruptible customers.

Counties and Communities Served

99. Referring to Fifth Revised Sheet Nos. 6.101, 6.101-1, Sixth Revised Sheet No. 6.101-4, and First Revised Sheet No. 6.101-7 (bates stamp numbers 137 to 140), the following counties and communities are being added to the PGS service territory: Sea Ranch Lakes, unincorporated Desoto County, Miami Gardens, and unincorporated Union County. Witness Buzard in his direct testimony, (page 63, lines 17-21) states that PGS extended its service in response to customer demand. Please explain if there were other natural gas companies which wanted to serve these same areas and if so, how was PGS selected to serve these areas?

ANSWER:

Sea Ranch Lakes – Peoples is not aware of any other natural gas utilities that had interest in serving this area. The company serves this area due to its existing customers and existing mains that completely surround the community.

Unincorporated Desoto County – Peoples is not aware of any other natural gas utilities that had interest in serving this area. Peoples serves this area because the customer reached out to the company for gas service.

Miami Gardens – Both Peoples and Florida City Gas (FCG) currently have existing infrastructure serving customers within the area, with FCG generally serving the western portion of the municipality and Peoples' serving the eastern portion. Peoples and FCG coordinated and determined Peoples was better situated to serve this area.

Unincorporated Union County – The company is not aware of any other gas provider interested in serving the area. Peoples responded to a customer's request for service.

100. Please state the approximate number of new customers added to PGS's total number of customers served from above listed new service areas.

ANSWER:

Peoples added approximately 34 new customers by serving the new service areas of Sea Ranch Lakes, unincorporated Desoto County, Miami Gardens, and Unincorporated Union County as follows:

- Sea Ranch Lakes: 5
- Unincorporated Desoto County: 1*
- Miami Gardens: 27
- Unincorporated Union County: 1* (RNG)

(*) Customer outside city limits

JULY 7, 2025

Please refer to the testimony of witness Taylor for the following questions:

101. On page 51 it is stated that "Some classes received a monthly customer charge increase that was set at either the system-wide increase percentage or the class-specific percentage increase." Please explain the difference in these percentages and why they were applied to different rate classes.

ANSWER:

Please refer to the table below, which outlines the principles used to determine customer charge increases for each rate schedule. Depending on the unique characteristics and revenue requirements of each customer class, the Company based the customer charge increases on one of the following: the results of the cost of service study, the system-wide percentage increase, or the class-specific percentage increase.

This approach provides a consistent and equitable framework for recovering an appropriate level of fixed revenue under the proposed overall revenue increase. By applying different methodologies as appropriate, the Company balances cost recovery objectives with customer impact considerations, ensuring alignment with cost of service principles while minimizing abrupt bill changes across customer classes.

Line No.	Customer Classes	Current Basic Facilities Charge	Proposed Basic Facilities Charge	Customer Related Unit Cost	Proposed % Change	Proposed Base Revenue % Change	Principle
1	Residential - 1	$ 19.10	$ 26.50		38.7%	33.5%	Unit Cost

103. On page 26 it states: "For purposes of determining the customer component of distribution mains to be used in Peoples' COSS, the zero-intercept method was utilized." Please explain why this method was used instead of the most commonly installed, minimum-sized unit approach or another approach.

ANSWER:

The company utilized the zero-intercept method, which uses regression analysis to estimate the cost of a hypothetical zero-diameter pipe. This approach allows for a more accurate derivation of the customer-related portion of distribution mains by isolating the cost component that is independent of pipe size. The company also used this method because the minimum-sized unit method, which assumes that the cost of the smallest commonly installed pipe represents the customer component, can inadvertently include some demand-related costs, as even the smallest pipe has capacity.

Additionally, the zero-intercept method is widely accepted in the industry and is endorsed by authoritative sources such as the NARUC Gas Distribution Rate Design Manual.

In re: Petition for Rate Increase by Peoples Gas System, Inc.	DOCKET NO. 20250029-GU FILED: July 21, 2025

PEOPLES GAS SYSTEM, INC.'S ANSWERS TO STAFF'S ELEVENTH SET OF INTERROGATORIES (NOS. 105-118)

Pursuant to Rule 106.206, Florida Administrative Code, and Florida Rule of Civil Procedure 1.350, Peoples Gas System, Inc. ("Peoples" or the "company"), hereby answers The Staff of the Florida Public Service Commission's ("Staff") Eleventh Set of Interrogatories (Nos. 105-118), served July 1, 2025 ("Staff's Eleventh Interrogatory").

General Objections

1. Peoples objects to each interrogatory in Staff's Eleventh Interrogatory ("Set") to the extent that it seeks information that is duplicative, not relevant to the subject matter of this docket, and is not reasonably calculated to lead to the discovery of admissible evidence.

2. Peoples objects to each Set to the extent it is vague, ambiguous, overly broad, imprecise, or utilizes terms that are subject to multiple interpretations but are not properly defined or explained for purposes of such Set. Peoples will seek clarification from Staff if a Set is not clear, but Peoples will produce documents subject to, and without waiving, this objection.

3. Peoples objects to each Set to the extent it requires Peoples to produce information that is already in the public record before the Florida Public Service Commission ("FPSC" or the "Commission") or other public agency and available to Staff through normal procedures or is readily accessible through legal search engines.

4. Peoples objects to each Set to the extent that it calls for data or information protected by the attorney-client privilege, the work product doctrine, the accountant-client

FPSC EXH NO. 83
ADMITTED

privilege, the trade secret privilege, or any other applicable privilege or protection afforded by law. Peoples will describe the nature of the privileged material, if any, in a privilege log that will accompany its responses.

5. Peoples objects to producing paper copies on the grounds that doing so would be unduly burdensome.

6. Peoples objects to each Set to the extent it requires the company to provide information that it believes is "proprietary confidential business information" as described in Section 366.093, Florida Statutes.

7. Peoples objects to each Set, instruction, or definition in that purports to expand Peoples' obligations under applicable law.

8. Peoples objects to each Set to the extent it requests Peoples to prepare information in a particular format or create data or information that it otherwise does not possess as unduly burdensome and as purporting to expand Peoples' obligations under applicable law.

9. Subject to Section 366.093(1), Florida Statutes, Peoples objects to any definition or Set that requests documents from persons or entities who are not parties to this proceeding, that seek information from affiliates unrelated to transactions or cost allocations involving Peoples, or that are not otherwise subject to discovery under applicable rules.

10. Peoples objects to any Set requiring the company to provide additional information beyond that obtained through a reasonable and diligent search.

General Response

Subject to and without waiving its general objections, which are incorporated by reference in each of its specific answers, Peoples will serve its answers to the Commission staff by hand delivering a USB containing its answers to the Commission Clerk's office, and for Staff's

FPSC EXH NO. 83
ADMITTED

purposes, the term "USB" should be substituted for "SharePoint" in the specific answers shown below.

The company's specific answers will identify interrogatories that call for answers that contain (a) information for which the company asserts a legal privilege and/or (b) "proprietary confidential business information" as defined in Section 366.093, Florida Statutes.

An answer that contains information for which the company asserts a legal privilege will be identified in the privilege log attached as Exhibit A.

An answer that contains information the company asserts to be "proprietary confidential business information" will be provided in the Confidential portion of the SharePoint subject to a request for confidential classification, motion for temporary protective order and/or a non-disclosure agreement.

105. Referring to page 42 of testimony, line 17 lists Temporary Meter Turn-Off Charge as being one of the miscellaneous charges being modified. Exhibit No. LB-1, bates page 124 does not indicate any modification to the charge. Please clarify.

ANSWER:

On page 42, line 17 of witness Luke Buzard's direct testimony, Temporary Meter Turn-Off Charge is erroneously listed as being one of the miscellaneous charges proposed for modification. The company is proposing to keep the Temporary Meter Turn-Off Charge at the current amount of $33.00 per meter. Line 17 should state, "Accounting Opening Charge," which is discussed further on page 45, lines 5 through 10 of Mr. Buzard's direct testimony, and correctly indicated on Exhibit No. LB-1, Document No. 9, pages 1, 2, and 4 and Document No. 11, page 3.

106. Referring to page 43 of testimony, lines 10-17, please discuss with details, the referenced Time Study performed by PGS and how the Study results were utilized and incorporated to perform the cost study to modify miscellaneous service charges.

ANSWER:

The company conducted a time study relevant to each miscellaneous charge using 2024 service order data extracted from the company's Work Management System ("WAM"). Each service order record in this dataset includes various data points such as the service order type, the date and time the order was started by the Utility Technician, the arrival date and time of the Utility Technician, the order completion date and time, and the Utility Technician's identification number—which may be an internal technician or a contractor. The time stamps for the order start and arrival of the Utility Technician are used to calculate the average travel time for each service order type. Also, the Utility Technician's arrival and completion time stamps are used to calculate and average task performance time for each service order type.

To incorporate this time study into the cost study to modify miscellaneous service charges, the average travel and task performance times for the service order type relevant to each miscellaneous service charge are multiplied by the average Utility Technician labor rate to determine the cost for the Utility Technician's performance of each service.

JULY 21, 2025

107. Referring to page 44 of testimony, lines 22-25 and page 45, lines 1-3, regarding reducing the Residential Meter Reconnect charge, please elaborate upon the elimination of certain materials and use of prefabricated parts. Also, state the lifespan of the prefabricated parts being used.

ANSWER:

The company began utilizing prefabricated outlet valves as shown below in the picture of a meter set in the last four years. The prefabricate outlet valve is capitalized with the meter over the current Commission-approved 19-year average service life for meters. The company expects these valves to be useful for the duration that a meter is in use. The current Commission-approved Residential Meter Reconnect Charge is based on material costs that were determined before the company had standardized the use of the prefabricated valves across its system. Previously, technicians built the inlet and outlet loops, requiring miscellaneous materials that were expensed such as nuts, swivels, Test-Ts, flares, and flare caps. These miscellaneous materials—totaling $3.70 in the cost calculation for the current charge—have been removed from the cost calculation for the proposed Residential Meter Reconnect charge.

PEOPLES GAS SYSTEM, INC.
DOCKET NO. 20250029-GU
STAFF'S ELEVENTH SET OF INTERROGATORIES
INTERROGATORY NO. 108
BATES PAGE(S): 18559 - 18560
JULY 21, 2025

108. On page 44, lines 16-20, witness Buzard states that the proposed miscellaneous service charges demonstrate an increase due to extended travel times in congested areas, elevated labor costs, higher transportation expenses, and additional costs for contractors supplementing the workforce. On page 45 lines 5-10, witness Buzard states that the Account Opening Charge (which is a miscellaneous charge) is being reduced primarily due to a decrease in the average time required to complete orders and a reduction in the allocation of administrative labor, because of lower average labor costs. Please explain the discrepancies in the two statements.

ANSWER:

The cited answer statement on page 44, lines 16 – 20 of witness Buzard's direct testimony refers to the costs associated with four specific miscellaneous services charges "Residential and Commercial Meter Turn-ons, Commercial Meter Reconnects, and Failed Trips." This is made clear when reading the corresponding question on lines 12 to 14 which asks "[w]hy are the miscellaneous service charges for *Residential and Commercial Meter Turn-On, Commercial Meter Reconnect, and Failed Trip* increasing?" emphasis added. The answer statement on page 45, lines 5 – 10, explicitly addresses the Account Opening Charge and the reasons that the charge is decreasing.

To determine the appropriate amount for each miscellaneous charge, the company considers variable costs specific to the service associated with each charge. The results of the cost analysis for each service can vary. Please see the details below regarding the variables that further demonstrate there is no discrepancy between the statements referred to in this question.

Travel Time: The company analyzed 2024 service orders to determine average travel time by service order type. For Residential and Commercial Meter Turn-on, Commercial Meter Reconnect, and Fail Trip service orders, the average travel times increased compared to the analysis the company performed of 2022 service order data for the 2023 Rate Case. To the contrary, the average travel time for Accounting Opening orders decreased.

PEOPLES GAS SYSTEM, INC.
DOCKET NO. 20250029-GU
STAFF'S ELEVENTH SET OF INTERROGATORIES
INTERROGATORY NO. 108
BATES PAGE(S): 18559 - 18560
JULY 21, 2025

Transportation Expense: Transportation costs are allocated to each service order type by applying a cost rate to the average travel time for each service order type. The transportation allocation rate increased from $6.53 in 2023 to $7.24 in 2025, due to rising vehicle maintenance costs. The increased average travel time for Residential and Commercial Meter Turn-ons, Commercial Meter Reconnects, and Failed Trip service orders, along with the increased allocation rate, resulted in transportation cost increases of $1.23 to $2.84 for these service orders. Since the average travel time for Account Opening service orders declined, the transportation costs for these service orders increased by only $0.02.

Contractor Costs: The company only utilizes contractors for certain service order types. Contractors are used for Residential and Commercial Meter Turn-ons and Commercial Meter Reconnects; however, contractors are not utilized for Account Opening service orders.

Administrative Labor: The company determines an average hourly labor rate for administrative team members and supervisors that are assisting and overseeing the completion of service orders by Utility Technicians in the field. The count of each service order type is then compared to the total number of service orders in the dataset to determine a weighted average hourly labor rate for each service order type. These rates are then applied to the average time to complete each order type. The changes in administrative costs for Residential and Commercial Meter Turn-ons, Commercial Meter Reconnects, and Failed Trips ranged from an increase of $0.03 to $0.72; however, the transportation costs for the Account Opening service orders decreased by $0.78. The weighted average labor rate decreased for Account Openings due to a decrease in the number of these orders compared to the total orders in the dataset. This lower weighted average labor rate was coupled with a decrease of almost two and a half minutes in average completion time for Account Opening service orders.

109. On page 45, lines 14-16, witness Buzard states that the Trip Charge is being reduced primarily due to the discontinuation of using contractors for those orders and the removal of related costs from the charge calculation. Please explain the "related costs" that are removed from Trip Charge calculations.

ANSWER:

The term "related costs" refers to the costs associated with a contractor completing the trip to a customer's premises to terminate gas service or provide final notice of termination for nonpayment of bills. The company used contractors in 2022 for this service. Our time study and cost analysis performed for the 2023 Rate Case used 2022 service order data and incorporated the contractor costs as "related costs". Specifically, to capture the costs of contractors performing this work, the company calculated an average hourly rate for its contractors, subtracted the costs for a Peoples' Utility Technician to perform the same work, and multiplied this by the percentage of these orders that were completed by contractors in the 2022 dataset. Because the company ceased using contractors to perform this type of service work in 2024, there are no "related costs" to include in the Trip Charge calculation.

JULY 21, 2025

110. Does the Company anticipate petitioning the PSC to eliminate the RS-1 rate schedule and move all RS-1 customers to RS-2 rate schedule as the Company's stated goal is to have a single residential rate schedule in the future (Page 50, lines 5-14)?

ANSWER:

Yes. At some point in the future, the company plans to petition the Florida Public Service Commission (FPSC) to eliminate the RS-1 rate schedule and move all RS-1 customers to RS-2 rate schedule. The company's proposal in this case is the first step toward aligning costs by reducing intra-class subsidies. As stated on page 49 of Witness Buzard's direct testimony, this consolidation of residential billing classes will reduce intra-class subsidization, simplify billing for customers, remove administrative burden associated with the annual volume review and ensure revenue stability. Furthermore, as discussed in Witness Buzard's and Witness Taylor's direct testimony, this change is supported by the fact that varying consumption levels of residential customers have little to no effect on the cost to serve that customer.

PEOPLES GAS SYSTEM, INC.
DOCKET NO. 20250029-GU
STAFF'S ELEVENTH SET OF INTERROGATORIES
INTERROGATORY NO. 111
BATES PAGE(S): 18563
JULY 21, 2025

111. On pages 54 (lines 3-7), witness Buzard mentions that the annual volume review will assess RS-1 customers' consumption to determine if they qualify for reclassification into RS-2. The company foresees this RS-1 Billing Class review occurring annually at the end of June. How many years does the company expect to continue this annual review?

ANSWER:

If the Florida Public Service Commission (FPSC) permits the company to consolidate the RS-2 and RS-3 billing classes in the instant case, the company plans to maintain the annual volume review process to assess RS-1 customers' consumption until it petitions the FPSC to create a single residential billing class. While the timeline for this petition is not known, the volume review process as outlined in the company's tariff (Sheet No. 7.201-1), along with any modifications to this process, will require approval by the FPSC.

PEOPLES GAS SYSTEM, INC.
DOCKET NO. 20250029-GU
STAFF'S ELEVENTH SET OF INTERROGATORIES
INTERROGATORY NO. 112
BATES PAGE(S): 18564
JULY 21, 2025

112. If the annual volume review is discontinued after a certain time period set by the Company, what would be the outcome to the customers still remaining in the RS-1 rate schedule?

ANSWER:

Any discontinuation of the annual volume review process would require a modification to the company's tariff, Sheet No. 7.201-1 and approval by the Florida Public Service Commission (FPSC). The outcome for the customers still remaining in the RS-1 rate schedule depends on whether the company petitions the FPSC to consolidate all residential billing classes into a single class. If this consolidation occurs, RS-1 customers would be transitioned to the new single residential billing class, and the annual volume review process would no longer apply.

JULY 21, 2025

113. Referring to page 60, lines 5-7, please expand upon the statement "As a result, the charge will be determined by competitive conditions." Please include the referenced competitive conditions in your response.

ANSWER:

The distribution charge for Off-System Service (Sixth Revised Sheet No. 7.702) will be determined based on competitive conditions by examining and considering the daily delivered spot market price.

As explained in the cited testimony, and Staff's Ninth Set of Interrogatories, Number 96, the removal of the existing tariff ceiling, which limits the distribution charge to 90 percent of the comparable firm distribution rate could potentially increase the amount of dollars that flow back to customers as a reduction to the Purchased Gas Adjustment Clause. There are occasions when the daily delivered spot market price may surpass the distribution charge, especially on high-demand days or during spikes in natural gas prices. By eliminating this cap, the distribution charge can be aligned with competitive market conditions, preventing it from falling below what the market is willing to pay for off-system sales service.

PEOPLES GAS SYSTEM, INC.
DOCKET NO. 20250029-GU
STAFF'S ELEVENTH SET OF INTERROGATORIES
INTERROGATORY NO. 114
BATES PAGE(S): 18566
JULY 21, 2025

114. Referring to page 60, lines 8-10, states that by removing the limitation (no greater than 90 percent of the currently applicable firm rate per approved Fifth Revised Sheet No. 7.702) could potentially result in an increased dollar flow back to customers as a reduction to the Purchased Gas Adjustment Clause. Approved Revised sixth Revised Sheet No. 7.702-1 states that the "Company's Purchased Gas Adjustment Clause, energy Conservation Cost Recovery Clause and Competitive Rate Adjustment Clause shall not apply to purchases of Gas made by Customer pursuant to this rate schedule." Please explain.

ANSWER:

As explained in Staff's Ninth Set of Interrogatories Number 96, the increased margin accrued from Off-System Sales is what flows back to the PGA customers via the Purchased Gas Adjustment Clause. The language in the Sixth Revised Sheet No. 7.702-1 tariff makes reference to the purchase of gas made by an Off-system customer who is not connected to the company's distribution system; and therefore, is not a customer and is not subject to the applicability of the company's Purchased Gas Adjustment Clause, Energy Cost Recovery Clause, and Competitive Rate Adjustment Clause.

ROGs to Witness Taylor

115. PGS proposes to increase the Individual Transportation Administration Fee from $216 to $313.80 as shown in Sixth Revised Sheet No. 7.805 and supporting schedules E-1, bates page 96 and H-1, bates page 450. Please explain why the Individual Transportation Administration fee is increasing.

ANSWER:

The company has not adjusted the Individual Transportation Administration ("ITS") Fee since it was last adjusted in 2020. While Peoples proposed an increase to this fee in the 2023 rate case, the parties ultimately stipulated not to adjust the fee. Therefore, Peoples proposes to increase the ITS Fee from $216 to $313.80 to realign the charge with the increased cost of administering transportation service to non-residential customers.

The primary driver of the increase is the addition of an annual software management fee for cloud hosting services and a secure gateway. These added services became necessary with the upgrade of the company's PGAS gas measurement system to new Flowcal system in 2024. Additionally, labor rates have increased for team members supporting ITS customers.

116. Please refer PGS's Response to Staff's Sixth Set of Interrogatories, No. 59.

a. Regarding the "direct customer feedback" referenced in this response, please complete the table below as it relates to each of PGS's Customer Experience Enhancements. If there is a "0" or "N/A" response to any portions of the table, please explain why.

Customer Experience Enhancement	Number of Customers Surveyed	Number of Customers indicating a desire for this type of Enhancement	Number of Customers Indicating a willingness to pay for this Enhancement
Notification and Preference Center			
System Segmentation Personas			
AWS Proof of Concept			
Move In Re-Imagine			
Equifax/POS ID & CCR Replacement			
Payment Arrangement Reimagine			

b. Please specify which projects were "initiated to address aging technology platforms."

ANSWER:

a. Please find the completed table below.

PEOPLES GAS SYSTEM, INC.
DOCKET NO. 20250029-GU
STAFF'S ELEVENTH SET OF INTERROGATORIES
INTERROGATORY NO. 116
BATES PAGE(S): 18568 - 18570
JULY 21, 2025

Customer Experience Enhancement	Number of Customers Surveyed	Number of Customers indicating a desire for this type of Enhancement	Number of Customers Indicating a willingness to pay for this Enhancement
Notification and Preference Center	N/A	N/A	N/A
System Segmentation Personas	N/A	N/A	N/A
AWS Proof of Concept	N/A	N/A	N/A
Move In Re-Imagine	N/A	N/A	N/A
Equifax/POS ID & CCR Replacement	N/A	N/A	N/A
Payment Arrangement Reimagine	N/A	N/A	N/A

First, the company notes that the Equifax/POS ID & CCR Replacement project is not in response to "direct customer feedback" but, as explained in Witness Washington's Direct Testimony, is to ensure compliance with the Identity Theft Red Flags Rule under the Fair Credit Reporting Act, 16 C.F.R. 25 Section 681.

Peoples responded "N/A" to the table because the company does not survey customers regarding potential specific projects. Instead, the surveys conducted by Peoples focus on "direct customer feedback" related to their experience with Peoples. For example, their experience with specific business transactions, such as the initiation of gas service, online chats, and field visits. The current response rate for these surveys is 5 percent. These responses help with the prioritization of key areas for enhancement and innovation, in addition to other data points (internal data analysis and technology assessments) that evaluate value, effort, and risk associated with potential initiatives.

FPSC EXH NO. 83
ADMITTED

Through surveys, customers consistently express a need for:

1. **An easy and convenient digital experience**, particularly through intuitive online platforms, and efficient self-service options.
2. **Timely and proactive communication**, including real-time updates and clear expectations during service requests.
3. **Transparent and accurate information**, especially around billing, service status, and account changes.
4. **Fairness and empathy in service**, including personalized support and policies that reflect customers' diverse needs and circumstances.

This feedback has directly influenced the prioritization of several key initiatives, including the Notification and Preference Center, System Segmentation Personas, AWS Proof of Concept, Move-In Reimagine, and Payment Arrangement Reimagine.

b. The AWS Proof of Concept and Equifax/POS ID Replacement projects were initiated to address aging technology platforms.

117. Please refer to PGS's Response to Staff's Sixth Set of Interrogatories, No. 61.

a. Describe the "outdated legacy system" referenced in this response. As part of your answer, include the original in-service date for the legacy system.

b. Was the "legacy system" shared with Tampa Electric?

ANSWER:

a. The "outdated legacy system" referenced in Staff's Sixth Set of Interrogatories, No. 61, is the Interactive Voice Response ("IVR") system. This system originally went in-service in December 2021.

b. Yes. The legacy system, or IVR system, serves both Peoples and Tampa Electric customers. This system and its subsequent upgrades have been a split capital investment between Tampa Electric and Peoples.

118. Has PGS identified any O&M savings that would result from the implementation of any of its Customer Experience projects? If so, please identify how these savings were reflected in PGS's rate case filing.

ANSWER:

Yes. O&M savings resulting from the implementation of Customer Experience Projects are demonstrated in the Customer Experience team member count reduction from 2024 to 2025 and are further demonstrated by avoided incremental team member hires in 2026 despite projected customer growth and demand. Furthermore, the reductions in the Contact Center team, achieved through increased efficiencies, are being repurposed to support other Customer Experience needs to meet evolving customer expectations in the digital space.

BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION

In re: Petition for Rate Increase by Peoples Gas System, Inc.	DOCKET NO. 20250029-GU FILED: August 28, 2025

PEOPLES GAS SYSTEM, INC.'S ANSWERS TO STAFF'S SIXTEENTH SET OF INTERROGATORIES (NOS. 183-211)

Pursuant to Rule 106.206, Florida Administrative Code, and Florida Rule of Civil Procedure 1.350, Peoples Gas System, Inc. ("Peoples" or the "company"), hereby answers The Staff of the Florida Public Service Commission's ("Staff") Sixteenth Set of Interrogatories (Nos. 183-211), served August 22, 2025 ("Staff's Sixteenth Interrogatory").

General Objections

1. Peoples objects to each interrogatory in Staff's Sixteenth Interrogatory ("Set") to the extent that it seeks information that is duplicative, not relevant to the subject matter of this docket, and is not reasonably calculated to lead to the discovery of admissible evidence.

2. Peoples objects to each Set to the extent it is vague, ambiguous, overly broad, imprecise, or utilizes terms that are subject to multiple interpretations but are not properly defined or explained for purposes of such Set. Peoples will seek clarification from Staff if a Set is not clear, but Peoples will produce documents subject to, and without waiving, this objection.

3. Peoples objects to each Set to the extent it requires Peoples to produce information that is already in the public record before the Florida Public Service Commission ("FPSC" or the "Commission") or other public agency and available to Staff through normal procedures or is readily accessible through legal search engines.

4. Peoples objects to each Set to the extent that it calls for data or information protected by the attorney-client privilege, the work product doctrine, the accountant-client

FPSC EXH NO. 84
ADMITTED

privilege, the trade secret privilege, or any other applicable privilege or protection afforded by law. Peoples will describe the nature of the privileged material, if any, in a privilege log that will accompany its responses.

5. Peoples objects to producing paper copies on the grounds that doing so would be unduly burdensome.

6. Peoples objects to each Set to the extent it requires the company to provide information that it believes is "proprietary confidential business information" as described in Section 366.093, Florida Statutes.

7. Peoples objects to each Set, instruction, or definition in that purports to expand Peoples' obligations under applicable law.

8. Peoples objects to each Set to the extent it requests Peoples to prepare information in a particular format or create data or information that it otherwise does not possess as unduly burdensome and as purporting to expand Peoples' obligations under applicable law.

9. Subject to Section 366.093(1), Florida Statutes, Peoples objects to any definition or Set that requests documents from persons or entities who are not parties to this proceeding, that seek information from affiliates unrelated to transactions or cost allocations involving Peoples, or that are not otherwise subject to discovery under applicable rules.

10. Peoples objects to any Set requiring the company to provide additional information beyond that obtained through a reasonable and diligent search.

General Response

Subject to and without waiving its general objections, which are incorporated by reference in each of its specific answers, Peoples will serve its answers to the Commission staff by hand delivering a USB containing its answers to the Commission Clerk's office, and for Staff's

FPSC EXH NO. 84
ADMITTED

purposes, the term "USB" should be substituted for "SharePoint" in the specific answers shown below.

The company's specific answers will identify interrogatories that call for answers that contain (a) information for which the company asserts a legal privilege and/or (b) "proprietary confidential business information" as defined in Section 366.093, Florida Statutes.

An answer that contains information for which the company asserts a legal privilege will be identified in the privilege log attached as Exhibit A.

An answer that contains information the company asserts to be "proprietary confidential business information" will be provided in the Confidential portion of the SharePoint subject to a request for confidential classification, motion for temporary protective order and/or a non-disclosure agreement.

INTERROGATORY NO. 183
BATES PAGE(S): 18578
AUGUST 28, 2025

183. Referring to the Motion to approve Settlement, page 6, paragraph 6f, please explain what cost of service methodology was used for the settlement. Specifically, state how small, medium, and large diameter mains were allocated (e.g., as proposed by PGS, as proposed by FIPUG, or some other method).

ANSWER:

The revenue allocations shown on Exhibit B and used to develop the customer rates in the tariffs were the result of negotiation. The parties did not adopt a specific cost of service methodology and did not specify how different-sized mains would be allocated.

AUGUST 28, 2025

184. Please explain to what extent the cost recovery allocation provided in revised Exhibit B to the Settlement implements the proposal by FIPUG witness Pollock to classify a portion of all distribution mains as a customer-related cost.

ANSWER:

The revenue allocations presented in Exhibit B, which were used to determine the customer rates in the tariffs, resulted from negotiations that reflected a compromise from Peoples' position stated in our testimony. The parties did not agree on a specific cost of service methodology, nor did they outline how the allocation would differ for various sizes of mains.

PEOPLES GAS SYSTEM, INC.

BATES PAGE(S): 18580
AUGUST 28, 2025

185. Referring to revised Exhibit B to the Settlement, please explain how the parties determined the revenue apportionment between the rate classes.

ANSWER:

The revenue allocations shown on Exhibit B and used to develop the customer rates in the tariffs were the result of negotiation. The parties did not adopt a specific cost of service methodology. The Parties did not address the kind of detailed questions presented in Staff's 16th Set of Interrogatories, Nos. 195-211 in the 2025 Agreement or in the development of Exhibit B; the company is nevertheless answering those interrogatories.

186. Please confirm that there are no additional non-rate related tariff modifications in the Settlement tariffs, other than those suggested by OPC and provided in PGS witness Buzard's rebuttal testimony. If there are additional modifications, please state which tariff sheets were modified in the proposed Settlement.

ANSWER:

The only changes made are clarifications to the as-filed tariff changes to the Rules and Regulations on Sixth Revised Tariff Sheet No. 5.101-2, as well as the addition of a new paragraph 8 related to the addition of economic development in the as-filed changes to the Contract Interruptible Service Tariff on Sixth Revised Sheet No. 7.607-2. This additional language was developed through settlement negotiation that took into consideration the perspectives of all parties in how the CIS tariff is applied.

AUGUST 28, 2025

Please refer to the 2025 Stipulation and Settlement Agreement for the following questions.

187. Please refer to paragraph 3(a) for the following questions.

a. Please identify the total amount of the 2026 Increase that is associated with PGS's Growth and RRE projects. If the specific amounts are unknown at this time, please explain the methodology PGS intends to use to identify projects to retain, postpone, or cancel.

b. Please list each of the previously identified Growth and RRE projects PGS continues to plan to complete during the settlement term. As part of this response, please also list each project that is being postponed or cancelled, if any, and explain how PGS determined each project could be postponed or cancelled.

ANSWER:

a. The 2026 Increase is a negotiated amount that reflects, for example, the Commission's approval of the company's proposal to adjust the OSS sharing percentage to 50-50 and the company's proposal to remove natural gas facility relocation costs from base rates and is the result of give and take among the parties based on their thoughtful consideration of the positions they took in the case. The specific amounts for Growth and RRE are unknown at this time. The company will adjust its plans during the term of the agreement based on the operating needs of the company and to earn within the range of returns on equity established in the 2025 Agreement.

b. Please see the company's response to Staff's 16th Set of Interrogatories, No. 187 Part a, above.

AUGUST 28, 2025

188. Referring to paragraph 4(b) of the settlement, please clarify the last sentence of that paragraph. Is PGS waiving the 60-day file and suspend provision of section 366.06, F.S., for the 2027 tariffs to be filed no later than July 31, 2026?

ANSWER:

The amount of the 2027 Increase is specified in the 2025 Agreement, will be the subject of an evidentiary hearing on the settlement agreement and will be addressed in a final order; therefore, the parties do not believe that the filing of the tariffs to implement the 2027 Increase restarts the 8 and 12 month clocks in Section 366.06, Florida Statutes; however, the Parties will not object if the Commission suspends the tariffs within 60 days of filing in 2026 as part of the process of approving the tariffs reflecting the 2027 Increase in time for them to become effective with the first billing cycle in January 2027.

AUGUST 28, 2025

189. Please further describe the Tampa Downtown project, as mentioned in paragraph 5(b) of the proposed settlement. In your response, please provide any maps and documentation that describes the size and scope of the Tampa Downtown project.

ANSWER:

The Downtown Tampa Main Replacement Project ("Tampa Downtown") involves the replacement of 12 miles of "cased" gas main and accompanying service lines in downtown Tampa. A cased pipe is a pipeline that is surrounded by a protective casing pipe. The project will facilitate leak detection, provide easier pipeline location, allow operation at higher pressures, and provide better service for increased load in the downtown area.

Peoples is answering this interrogatory in part by producing a document as allowed under Florida Rule of Civil Procedure 1.340(c); the document reflecting the maps of the Tampa Downtown Project is provided in the folder entitled "CONF_ROG_16_189" and will be posted on the Consumer Party SharePoint Site or provided via USB.

190. Please refer to paragraph 5(b). Please indicate if PGS originally contemplated recovering any PPP costs associated with its Tampa Downtown project under its Rider CI/BSR. As part of this response, please describe the impact of this term on the 2026 test year revenue requirement.

ANSWER:

Yes. Peoples initially intended to recover PPP-related costs associated with the Tampa Downtown project under Rider CI/BSR. Upon review, it was identified that these costs were not separately delineated within the Tampa Downtown project estimate itself. As a result, the costs were inadvertently budgeted twice: once in rate base (increasing the base revenue requirement) and again in the budget for Rider CI/BSR. Per the 2025 Rate Case Settlement Agreement, the company has agreed not to seek recovery through the Rider CI/BSR of costs associated with the Tampa Downtown Project to ensure there will be no double recovery.

191. Please refer to paragraph 10(b) for the following questions.

a. Please indicate if PGS intends to install a specific number of meters annually and if so, please identify the annual amount to be installed.

b. Please detail the need for the additional $4 million the Utility is requesting for the AMI Pilot project.

c. Please provide an itemized cost breakdown for the AMI Pilot project.

d. Please explain why PGS is expanding the AMI Pilot project to evaluate an additional 12 meters at its GasWorX training and testing facility. As part of this response, please identify the total projected cost associated with this portion of the AMI Pilot project.

ANSWER:

a. Peoples plans to install 1,400 meters in the first twelve months of the pilot, which is slated to begin in the latter half of 2025. Over the subsequent 24 months, the company intends to install approximately 3,500 additional meters.

b. The additional $4 million Peoples plans to invest in the AMI project is to support the multi-year plan for installation of up to 5,000 meters including materials and outside services support.

c. Please see the updated breakdown of cost allocations for the AMI project below:

Category	Allocation
Estimated Materials Cost	$ 2.9 million
Estimated Outside Services	$ 2.9 million
Estimated Direct Labor Cost	$ 0.4 million
Total	$ 6.2 million

193. Referring to the Residential Bill Comparisons provided in Attachment Two to the Settlement, please clarify how the "illustrative" 2027 bills were calculated. Do they include the Settlement 2027 base rate charges? In your response, state the estimated 2027 RS-1 customer and distribution charge and what 2027 billing determinants were used in the bill comparisons.

ANSWER:

Yes. The illustrative 2027 bills reflect the 2027 Increase and were calculated using the same billing determinants that were used to calculate the company's 2026 rates. The illustrative 2027 RS-1 customer charge is $24.42, and the distribution charge is $0.44032. The company will develop the rates to implement the 2027 Increase using the same billing determinants for 2027 that the company will use to develop its cost recovery clause and rider factors for 2027.

Please refer to the direct testimony of PGS witness John Taylor for the following questions:

195. Are any medium diameter mains installed for residential customers? Please explain.

ANSWER:

Large and medium diameter mains are integral components of a utility's gas distribution system, serving all customer classes, including residential, commercial, and industrial users. They are designed to serve multiple users simultaneously, providing capacity for a wide range of customer needs. These mains are not installed to serve individual customers but rather to provide capacity to large service areas. Their primary purpose is to deliver gas from higher-level transmission sources or gate stations to various sections of the distribution network, where smaller mains and service lines then extend to individual premises.

197. Please reference the specific MFR schedule and page that contains the numbers displayed in the cost to serve column of Table 2 on page 33.

ANSWER:

Table 2 "Summary Results Proposed COSS" presented in Mr. Taylor's testimony depicts total COSS and revenue deficiency filed by the company.

Current Revenues correspond with total revenues under present rates on MFR Schedule H-1 (Rate of Return by Customer Class Schedule C, Page 1 of 2: Present Rates). Revised PDF version of MFR Schedule H-1, page 5 of 13, line 4 (Bates Page 442).

The company's total cost of service, as presented in the table, is calculated as the difference between Line 30 and Line 23 of Schedule H-2 (Allocation of Cost of Service to Customer Classes, Schedule E-2 of 2), on Page 8 of 11 (Bates Page 458-459). This amount represents the total cost of service prior to applying the revenue credit the company expects to collect from other sources of revenue.

Class Revenue (Deficiency)/Excess is the difference between current revenues and the cost of service per class, as reflected in the revised PDF MFR Schedule H-1 (Schedule D Revenue Deficiency) Page 3 of 13, Line 10 (Bates Page 440-441).

The Percentage Change to Cost of Service is the quotient of Class Revenue (Deficiency)/Excess divided by Current Revenues. It measures the revenue adjustment needed to align each class with its respective cost of service.

Current Rate of Return is reflected on revised PDF MFR Schedule H-1 (Schedule C, Rate of Return) Page 5 of 13, Line 17 (Bates Page 442-443).

198. On page 15, lines 3-8 it states that direct assignments of plant were made in the COSS for SIS, IS, and SP classes. Please describe the direct assignments made for these rate classes.

ANSWER:

Direct assignments of plant were made in the Cost of Service Study (COSS). Specifically, a special study was performed to directly assign a portion of distribution plant that was installed to serve specific customers within the Small Interruptible Service (SIS), Interruptible Service (IS), and Special Contract (SP) classes. The costs related to these facilities from the various plant accounts were directly assigned to these classes as shown on MFR Schedule H-3 and supported by the workpaper provided in the Office of Public Counsel's 1st Request for Production of Documents, No. 7, as "(BS 1909) PGS_Direct Assignments. xlsx".

On page 15, lines 14-16 it states that "The meter-regulators and services studies are used to calculate the 'weighted customer allocator' that is being used to allocate some customer-related costs in the COSS". Was the weighted customer allocator used in both COSS (peak & average and customer/demand)? Please explain.

ANSWER:

Yes. The "weighted customer allocator" was used in both the peak & average study and the customer/demand study for the COSS analysis. As per Witness Taylor's direct testimony on page 20, lines 25 and page 21, lines 1-3, clarifies: "the only difference between the studies is the application of the distribution mains allocation factors and their impact on the calculation of the related allocation factors."

200. On page 16, lines 5-7 it states that historical cost information was not available, so the study utilized the estimated replacement cost of each meter type. How were replacement costs determined? Please explain.

ANSWER:

The replacement cost of meters and regulators was based on the most recent purchase prices and vendor cost data for each meter type and its associated regulator in the system. Average installation costs were also estimated using available cost information. These estimated replacement costs were then matched to the meter records dataset, which provides a complete inventory of meter types by rate schedule. The study was provided as a supporting workpaper in the Office of Public Counsel's 1st Request for Production of Documents, No. 5, as "(BS 388) PGS_Meter and Reg Study.xlsx".

202. Please refer to Schedule H-3 page 1 of 5 of the attached Exhibit No. JT-1 of the testimony of PGS witness John Taylor for the following question: Why does the classifier on line 7 state 18% customer, 82% capacity when the total is allocated to 100% capacity? Please explain.

ANSWER:

The classifier shown in Exhibit No. JT-1 was inadvertently labeled as "18% customer, 82% capacity," when it should have indicated a 100% capacity classification to align with the COSS methodology used in the prior case. Although the label references a customer/demand split, the actual calculation correctly reflects a 100% capacity classification. As a result, there is no impact on the method used or results of the study.

203. What is included in "Other Equipment" on Line 16 of Schedule H-3 page 1 of 5? Please explain.

ANSWER:

The line item "Other Equipment" on line 16 of Schedule H-3 page 1 of 5 corresponds to FERC account 387 – Other Equipment, which includes miscellaneous distribution plant not otherwise classified, such as specialized field equipment, shop gear, and tools directly supporting distribution operations. These facilities are required to provide safe and reliable service to all customers, and consistent with the Company's cost of service study, are classified as customer-related.

PEOPLES GAS SYSTEM, INC.

BATES PAGE(S): 18607
AUGUST 28, 2025

204. Why are the customer and capacity amounts different for "Other Equipment" (Schedule H-1, page 1 of 5, line 16) between the two cost of service studies? Please explain.

ANSWER:

The referenced Schedule H-1 does not include balances related to Other Equipment. If, however, the inquiry pertains to Schedule H-3, as suggested by the context of the preceding question, it should be noted that the total balances do reconcile between the two models.

Despite this reconciliation at the aggregate level, there are differences in the classification of balances between the "customer" and "capacity" categories. These differences are attributable to the methodology used to classify Other Equipment, which is driven by the resulting classification of the broader set of accounts—specifically Accounts 374 through 386.

Accordingly, while the total amounts are consistent, the allocation across functional classifications may vary due to the treatment of Other Equipment within the underlying account groupings.

205. The rates as shown on Schedule H-1, pages 11-13, between the two cost of service studies (peak and average and customer/demand) seem to be the same despite allocations being different across both cost of service studies schedules H-2 and H-3. If rate base and cost of service allocations are different, why aren't rates different as well? Please explain.

ANSWER:

The proposed rates are the same under both cost allocation methods because the company is not proposing different revenue apportionment and rate designs based on alternative methodologies. The Cost of Service Study (COSS) provides insight into the relative cost to serve each customer class, informing the company's judgment on how to allocate revenue increases in a manner that moves each class closer to its cost of service. As stated at pages 41-42 in the direct testimony of Witness Taylor, the company used a principled approach in apportioning proposed revenue increases, ensuring alignment with cost causation objectives.

For the Customer/Demand version of the cost of service, please refer to Peoples' revised PDF of MFR Schedule H-1, pages 1 through 11 (Bates pages 438–447), filed on June 3, 2025.

206. The following questions refer to page 22, lines 14-17, of the direct testimony of witness Taylor:

a. Do you agree that PGS has a Commission-approved Main Extension Program (MEP) in its tariff (tariff sheet Nos. 7.101-7)?

b. If customers in an area served by the extended main are levied an MEP charge, please discuss why it would be appropriate to additionally allocate a portion of the small diameter distributions mains to those customers based on the customer/demand allocation as proposed?

c. Rule 25-7.054, F.A.C., Extension of Facilities, governs line extensions. Hypothetically, if a residential customer pays a CIAC for the requested line extension, please explain why that customer should pay the CIAC and be allocated a higher revenue requirement under the proposed customer/demand allocation (when compared to the previously approved Peak and Average methodology).

ANSWER:

a. Yes.

b. Please see the company's response to Staff's 16th Set of Interrogatories, No. 206 Part c, below.

c. A CIAC is calculated when a customer requests service and involves comparing the actual cost of extending service against anticipated revenues. This is done using existing approved rates and projected customer usage. If the Commission approves the rates resulting from this settlement agreement, any new customer requesting service will be evaluated based on those rates in relation to the actual cost of the extension.

This process ensures that the CIAC calculation for a customer aligns with current rates and costs, while also considering the impact of system

FPSC EXH NO. 84
ADMITTED

extensions on all customers. Rule 25-7.054, F.A.C., only contains provisions to refund customers at the end of the first year by comparing actual gas revenues to the actual allowable construction costs. There are no provisions to refund or surcharge customers for past CIAC's based on changes in approved rates or changes in revenues that may occur outside the first year. Further, it would be administratively burdensome and raise intergenerational equity concerns if such a policy were in place, where CIAC's were applied in a prudent manner using current rates in place at the time, but in the future were reevaluated to ascertain if a different CIAC should apply as new rates, usage, and associated revenues may fluctuate.

207. Referring to page 22, of the direct testimony of witness Taylor, provide a detailed discussion how PGS plans for its distribution investment.

ANSWER:

Peoples develops its distribution investment plan through a collaborative planning process that forecasts anticipated demand from existing and new customers, evaluates system integrity, and prioritizes safety and compliance. The planning framework balances multiple considerations, including peak demand requirements, reliability and resiliency, customer growth and expansion, and adherence to regulatory requirements. By integrating these factors, Peoples selects projects that address safety and system needs while also striking an appropriate balance between cost, reliability, and customer needs.

210. Does Table 1 on page 29 of the direct testimony of witness Taylor, the distribution main investment, include any CIAC amounts received? Please explain.

ANSWER:

Yes. Table 1 is derived from the Annual Report of Natural Gas Utilities, specifically from the Annual Status Report analysis of Plant in Service Accounts 37600 (Mains – Steel) and 37602 (Mains – Plastic). When CIAC is received, it is recorded as a reduction to gross utility plant, thereby decreasing the portion of utility plant eligible for rate recovery. The native format of the table was provided as supporting workpaper in the Office of Public Counsel's 1st Request for Production Documents, No. 7, as "(BS 2733) Growth Analysis vs Mains with FERC Form 2 Data.xlsx".

211. Referring to page 42, lines 6-7, of the direct testimony of witness Taylor, please confirm that "1.5 times the system-wide percentage increase" includes other regulated revenues such as fuel revenues and other clause revenues.

ANSWER:

The 1.5 times system-wide percentage increase applies solely to the base rate revenue increase, prior to accounting for anticipated revenue offsets from other sources. Applying the 1.5 multiplier to total other regulated revenues would have resulted in a higher base rate increase for the affected classes. For detailed calculations, please refer to Exhibit JT-1, Document No. 3, Bates Pages 91–96. Additionally, it is important to note that gas cost expenses were not included in the COSS. The total bill impact—including all charges such as fuel costs—is presented in MFR Schedule E-5, which provides a comprehensive depiction of overall bill impacts.

BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION

In re: Petition for Rate Increase by Peoples Gas System, Inc.	DOCKET NO. 20250029-GU FILED: September 12, 2025

PEOPLES GAS SYSTEM, INC.'S ANSWERS TO STAFF'S SEVENTEENTH SET OF INTERROGATORIES (NOS. 212-215)

Pursuant to Rule 106.206, Florida Administrative Code, and Florida Rule of Civil Procedure 1.350, Peoples Gas System, Inc. ("Peoples" or the "company"), hereby answers The Staff of the Florida Public Service Commission's ("Staff") Seventeenth Set of Interrogatories (Nos. 212-215), served September 5, 2025 ("Staff's Seventeenth Interrogatory").

General Objections

1. Peoples objects to each interrogatory in Staff's Seventeenth Interrogatory ("Set") to the extent that it seeks information that is duplicative, not relevant to the subject matter of this docket, and is not reasonably calculated to lead to the discovery of admissible evidence.

2. Peoples objects to each Set to the extent it is vague, ambiguous, overly broad, imprecise, or utilizes terms that are subject to multiple interpretations but are not properly defined or explained for purposes of such Set. Peoples will seek clarification from Staff if a Set is not clear, but Peoples will produce documents subject to, and without waiving, this objection.

3. Peoples objects to each Set to the extent it requires Peoples to produce information that is already in the public record before the Florida Public Service Commission ("FPSC" or the "Commission") or other public agency and available to Staff through normal procedures or is readily accessible through legal search engines.

4. Peoples objects to each Set to the extent that it calls for data or information protected by the attorney-client privilege, the work product doctrine, the accountant-client

FPSC EXH NO. 85
ADMITTED

privilege, the trade secret privilege, or any other applicable privilege or protection afforded by law. Peoples will describe the nature of the privileged material, if any, in a privilege log that will accompany its responses.

5. Peoples objects to producing paper copies on the grounds that doing so would be unduly burdensome.

6. Peoples objects to each Set to the extent it requires the company to provide information that it believes is "proprietary confidential business information" as described in Section 366.093, Florida Statutes.

7. Peoples objects to each Set, instruction, or definition in that purports to expand Peoples' obligations under applicable law.

8. Peoples objects to each Set to the extent it requests Peoples to prepare information in a particular format or create data or information that it otherwise does not possess as unduly burdensome and as purporting to expand Peoples' obligations under applicable law.

9. Subject to Section 366.093(1), Florida Statutes, Peoples objects to any definition or Set that requests documents from persons or entities who are not parties to this proceeding, that seek information from affiliates unrelated to transactions or cost allocations involving Peoples, or that are not otherwise subject to discovery under applicable rules.

10. Peoples objects to any Set requiring the company to provide additional information beyond that obtained through a reasonable and diligent search.

General Response

Subject to and without waiving its general objections, which are incorporated by reference in each of its specific answers, Peoples will serve its answers to the Commission staff by hand delivering a USB containing its answers to the Commission Clerk's office, and for Staff's

FPSC EXH NO. 85
ADMITTED

purposes, the term "USB" should be substituted for "SharePoint" in the specific answers shown below.

The company's specific answers will identify interrogatories that call for answers that contain (a) information for which the company asserts a legal privilege and/or (b) "proprietary confidential business information" as defined in Section 366.093, Florida Statutes.

An answer that contains information for which the company asserts a legal privilege will be identified in the privilege log attached as Exhibit A.

An answer that contains information the company asserts to be "proprietary confidential business information" will be provided in the Confidential portion of the SharePoint subject to a request for confidential classification, motion for temporary protective order and/or a non-disclosure agreement.

Specific Answers

PEOPLES GAS SYSTEM, INC.
DOCKET NO. 20250029-GU
STAFF'S SEVENTEENTH SET OF INTERROGATORIES
INTERROGATORY NO. 212
BATES PAGE(S): 18667 - 18668
SEPTEMBER 12, 2025

212. Rule 25-7.045(4)(a), Florida Administrative Code (F.A.C.), specifies:

> Each company shall file a study for each category of depreciable property for Commission review at least once every five years from the submission date of the previous study or pursuant to Commission order and within the time specified in the order.

PGS's latest depreciation study was filed on December 28, 2022, in Docket 20220219-GU, which was consolidated with Docket No. 20230023-GU, PGS's Petition for rate increase, filed on April 4, 2023. Given these prior filings, the next depreciation study would be due no later than December 28, 2027.

Paragraph 7(a) of PGS's 2025 Stipulation and Settlement Agreement (2025 SA) indicates that the Parties agree and intend that, notwithstanding any requirements of Rule 25-7.045, F.A.C., the company shall not be required during the Term of the 2025 SA (three years ending December 31, 2028) to file any depreciation study. Paragraph 7(b) of the 2025 SA also indicates that notwithstanding the provisions of subparagraph 7(a) above, the company shall file a depreciation study no more than one year, nor less than 60 days, before the filing of its next general base rate proceeding.

In accordance with Rule 25-7.045(4)(a), F.A.C. and assuming Commission approval of the 2025 Settlement Agreement, thus recognizing Paragraph 7(a) and (b) of PGS's 2025 SA, please specify the latest date that PGS may file its next depreciation study. Also, please explain how this date was determined.

ANSWER:

The latest date Peoples may file its next depreciation study cannot be determined with certainty because the filing date of its next depreciation study will depend on the filing date of its next general base rate change proceeding which is not specified in the 2025 Agreement. However, paragraph 5(a) of the 2025 Agreement prohibits the company from seeking general base rate relief for new rates with an effective date before January 1, 2029 except as expressly provided in the 2025 Agreement. Although the company may be able to extend the life of the base rates

FPSC EXH NO. 85
ADMITTED

provided in the 2025 Agreement beyond January 1, 2029, the most likely scenario would be for Peoples to file its next general base rate change proceeding around the end of the first quarter of 2028 (potentially March 31, 2028) to seek new base rate and charges effective with the first billing cycle of January 2029. In this scenario, the company would file a depreciation study no later than January 31, 2028.

E321

FPSC EXH NO. 85
ADMITTED

STAFF'S SEVENTEENTH SET OF INTERROGATORIES
INTERROGATORY NO. 213
BATES PAGE(S): 18669
SEPTEMBER 12, 2025

213. Noting that:

a. Paragraph 7(a) states that the Company shall not be required during the Term of the 2025 SA to file any depreciation study, in order to be in compliance with Rule 25-7.045(4)(a), F.A.C., and

b. Paragraph 7(b) states only that the Company will file "a depreciation study" (rather than "next depreciation study") based on the timing of its next base rate proceeding…

Do the parties believe that Commission approval of the 2025 SA shifts the latest rule compliance date for filing the Company's next depreciation study to the day after the Term, or January 1, 2029? Why or why not?

ANSWER:

No. The Parties believe that the agreement shifts the compliance date of the company's next depreciation study to no more than one year, nor less than 60 days, before the filing of its next general base rate proceeding. As noted in Peoples' answer to Staff's 17th Set of Interrogatories, No. 212, the most likely scenario would be for Peoples to file a depreciation study on or before January 31, 2028, which is about one month after the December 27, 2027, date calculated under the rule.

PEOPLES GAS SYSTEM, INC.
DOCKET NO. 20250029-GU
STAFF'S SEVENTEENTH SET OF INTERROGATORIES
INTERROGATORY NO. 214
BATES PAGE(S): 18670
SEPTEMBER 12, 2025

214. Assuming the Parties interpret the 2025 Settlement Agreement to extend the due date for the filing of next depreciation study based on the timing of the Company's next base rate proceeding, did the parties consider the impact to the precision of the Company's depreciation rates in determining appropriate depreciation accruals, accumulated depreciation, and earnings in the event the Company does not file a rate case for a lengthy period after the Term of the 2025 SA, thereby extending depreciation rate review well beyond the five year cycle required under the rule? Please explain.

ANSWER:

No. Although the company may be able to extend the life of the base rates provided in the 2025 Agreement beyond January 1, 2029, the most likely scenario would be for Peoples to file its next general base rate change proceeding around the end of the first quarter of 2028 (potentially March 31, 2028) to seek new base rate and charges effective with the first billing cycle of January 2029. In this scenario, the company would file a depreciation study and test year notification letter on or before January 31, 2028. The Parties do not foresee a scenario in which the depreciation rate review extends well beyond the five year cycle required under the rule.

SEPTEMBER 12, 2025

215. Please refer to paragraph 5(b) of the 2025 Agreement and Peoples' response to Staff's Sixteenth Set of Interrogatories, No. 190.

a. Verify that, if the 2025 Agreement is approved as filed, Peoples will not seek recovery of costs for the Tampa Downtown project specifically associated with problematic plastic pipe (PPP) replacement costs through the Rider CI/BSR for the term of the 2025 Agreement. As part of this response, please identify the dollar amount associated with the Tampa Downtown project PPP replacements that would not be excluded from cost recovery due to this contract term.

b. Verify that, if the 2025 Agreement is approved as filed, Peoples will not seek recovery of costs for other PPP costs included for recovery in its Initial Rate Case Filing through the Rider CI/BSR for the term of the 2025 Agreement. As part of this response, identify the dollar amount associated with all other PPP replacements that would not be excluded from cost recovery due to this contract term.

c. Verify that, if the 2025 Agreement is approved as filed, Peoples will not seek to add new categories of cost recovery into the Rider CI/BSR, outside of what is already authorized within Orders No. PSC-2012-0476-TRF-GU and PSC-2017-0066-AS-GU, for the 2025 Settlement term.

d. Verify that, if the 2025 Agreement is approved as filed, Peoples will still seek recovery of costs for cast iron and bare steel pipe replacements through the Rider CI/BSR, and state if these costs are included the Company's Initial Rate Case Filing. As part of this response, please identify the projects and dollar amounts associated with these replacement projects that would not be excluded from cost recovery due to this contract term.

ANSWER:

a. Yes, if the 2025 Agreement is approved as filed, Peoples will not seek recovery of costs for the Tampa Downtown project specifically associated

with problematic plastic pipe (PPP) replacement costs through the Rider CI/BSR for the term of the 2025 Agreement. The replacement costs associated with the Tampa Downtown Project are estimated to be $1,708,718 for approximately 1.1 miles of PPP. These costs have been excluded for recovery in the company's recent Rider CI/BSR filing under Docket No. 20250106-GU.

b. Yes, if the 2025 Agreement is approved as filed, Peoples will not seek recovery of costs for other PPP costs included for recovery in its Initial Rate Case Filing through the Rider CI/BSR for the term of the 2025 Agreement. In addition to the Tampa Downtown Project, the South Tampa I1 to I3 Pressure Upgrade and the Harbor Light Project in St. Petersburg, were included for recovery in its Initial Rate Case Filing with portions consisting of PPP. The PPP replacement costs associated with the South Tampa I1 to I3 Pressure Upgrade and the Harbor Light Projects are estimated to be $442,704 for 0.88 miles of PPP and $60,368 for 0.12 miles of PPP, respectively. These costs have been excluded for recovery in the company's recent Rider CI/BSR filing under Docket No. 20250106-GU.

c. Yes, if the 2025 Agreement is approved as filed, Peoples will not seek to add new categories of cost recovery into the Rider CI/BSR, outside of what is already authorized within Orders No. PSC-2012-0476-TRF-GU and PSC-2017-0066-AS-GU, for the 2025 Settlement term.

d. Yes, Peoples will still seek recovery of costs for cast iron and bare steel ("CI/BS") pipe replacements through the Rider CI/BSR ("the Rider"). These costs were not included for recovery through base rates in the Company's Initial Rate Case Filing. The company notes that the Rider includes pipe replacements for cast iron bare steel and problematic plastic pipe. Please find in the table below the estimated replacement costs, replacement miles, and projects associated with the replacement of CI/BS pipe. Additionally, information regarding the company's replacement of PPP eligible for recovery through the Rider, including mileage and estimated replacement costs, has been provided. Extending the period for CI/BS and PPP replacement costs beyond 2028 may allow the customer costs to be

distributed over a longer timeframe, thereby supporting program execution management.

BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION

In re: Petition for Rate Increase by Peoples Gas System, Inc.	DOCKET NO. 20250029-GU FILED: September 30, 2025

PEOPLES GAS SYSTEM, INC.'S ANSWERS TO STAFF'S EIGHTEENTH SET OF INTERROGATORIES (NOS. 216-223)

Pursuant to Rule 106.206, Florida Administrative Code, and Florida Rule of Civil Procedure 1.350, Peoples Gas System, Inc. ("Peoples" or the "company"), hereby answers The Staff of the Florida Public Service Commission's ("Staff") Eighteenth Set of Interrogatories (Nos. 216-223), served September 30, 2025 ("Staff's Eighteenth Interrogatory").

General Objections

1. Peoples objects to each interrogatory in Staff's Eighteenth Interrogatory ("Set") to the extent that it seeks information that is duplicative, not relevant to the subject matter of this docket, and is not reasonably calculated to lead to the discovery of admissible evidence.

2. Peoples objects to each Set to the extent it is vague, ambiguous, overly broad, imprecise, or utilizes terms that are subject to multiple interpretations but are not properly defined or explained for purposes of such Set. Peoples will seek clarification from Staff if a Set is not clear, but Peoples will produce documents subject to, and without waiving, this objection.

3. Peoples objects to each Set to the extent it requires Peoples to produce information that is already in the public record before the Florida Public Service

Commission ("FPSC" or the "Commission") or other public agency and available to Staff through normal procedures or is readily accessible through legal search engines.

4. Peoples objects to each Set to the extent that it calls for data or information protected by the attorney-client privilege, the work product doctrine, the accountant-client privilege, the trade secret privilege, or any other applicable privilege or protection afforded by law. Peoples will describe the nature of the privileged material, if any, in a privilege log that will accompany its responses.

5. Peoples objects to producing paper copies on the grounds that doing so would be unduly burdensome.

6. Peoples objects to each Set to the extent it requires the company to provide information that it believes is "proprietary confidential business information" as described in Section 366.093, Florida Statutes.

7. Peoples objects to each Set, instruction, or definition in that purports to expand Peoples' obligations under applicable law.

8. Peoples objects to each Set to the extent it requests Peoples to prepare information in a particular format or create data or information that it otherwise does not possess as unduly burdensome and as purporting to expand Peoples' obligations under applicable law.

9. Subject to Section 366.093(1), Florida Statutes, Peoples objects to any definition or Set that requests documents from persons or entities who are not parties to this proceeding, that seek information from affiliates unrelated to transactions or cost allocations involving Peoples, or that are not otherwise subject to discovery under applicable rules.

10. Peoples objects to any Set requiring the company to provide additional information beyond that obtained through a reasonable and diligent search.

General Answer

Subject to and without waiving its general objections, which are incorporated by reference in each of its specific answers, Peoples will serve its answers to the Commission staff by hand delivering a USB containing its answers to the Commission Clerk's office, and for Staff's purposes, the term "USB" should be substituted for "SharePoint" in the specific answers shown below.

The company's specific answers will identify interrogatories that call for answers that contain (a) information for which the company asserts a legal privilege and/or (b) "proprietary confidential business information" as defined in Section 366.093, Florida Statutes.

An answer that contains information for which the company asserts a legal privilege will be identified in the privilege log attached as Exhibit A.

An answer that contains information the company asserts to be "proprietary confidential business information" will be provided in the Confidential portion of the SharePoint subject to a request for confidential classification, motion for temporary protective order and/or a non-disclosure agreement.

Specific Answers

PEOPLES GAS SYSTEM, INC.
DOCKET NO. 20250029-GU
STAFF'S EIGHTEENTH SET OF INTERROGATORIES
INTERROGATORY NO. 216
BATES PAGE(S): 18677 - 18678
SEPTEMBER 30, 2025

216. Please refer to PGS's Response to Staff's Seventh Set of Interrogatories, Question No. 69.c.

a. Is PGS's recent history (2018-2024) of under-forecasting residential customers fully explained by the lack of exogenous adjustments?

b. Has PGS studied whether incorporating (positive) exogenous adjustments in the past would have served to reduce the historical under-forecasts? If so, please describe the findings of such study. If not, why not?

c. If the Company has a consistent history of under-forecasting residential customers (by an average of 3.2 percent over the 2021-2024 time period – See table provided in PGS's Revised Response to Staff's 2nd Set of Interrogatories, Question No. 5), please explain the Company's rationale for including a (negative) exogenous adjustment that reduces PGS's customer forecast for 2025 and 2026.

ANSWER:

a. Yes. In PGS's recent history, customer growth has surpassed economic predictions. In these years, a positive exogenous adjustment was needed to account for the delta between projected economic forecasts and actual construction activity and market conditions.

b. Yes, our lessons learned from comparing actual results to model projections motivated us to incorporate exogenous adjustments. By incorporating an exogenous adjustment in historical forecasts, the variance between projected and actual would have reduced.

c. Between 2020 and 2023, customer growth far surpassed economic projections. The impact of COVID increased housing builds in Florida beyond anticipated levels. However, in 2024, the company experienced a decline in customer growth despite economic forecasts. This decline was attributed to the completion of large projects and slowing market conditions. In 2025, the number of Residential additions will likely be lower than

FPSC EXH NO. 86
ADMITTED

projected by year end. If the company relies solely on economic projections without considering an exogenous adjustment to account for actual residential development trends, the forecast will likely deviate from actual customer growth.

PEOPLES GAS SYSTEM, INC.
DOCKET NO. 20250029-GU
STAFF'S EIGHTEENTH SET OF INTERROGATORIES
INTERROGATORY NO. 217
BATES PAGE(S): 18679
SEPTEMBER 30, 2025

217. Please refer to PGS's response to Staff's Seventh Set of Interrogatories, No. 72.a. It appears from this response that for the Company's residential and commercial rate classes, PGS has under-forecasted total therm sales for each month from January 2025 – May 2025.

a. Has PGS analyzed the reasons why its models have under-forecasted residential and commercial therm sales for each month from January – May of this year? Please explain.

b. Please explain if the aforementioned under-forecasting of residential and commercial therm sales is expected to continue into the 2026 test period. If not, please explain why not.

ANSWER:

a. Yes. The main factors contributing to the models' under-forecasting of residential and commercial therm sales from January through May were weather conditions and most likely an increase in tourism. Peoples' 14 service areas experienced colder temperatures and most likely higher levels of tourism relative to the ten-year historical average, which was used as the basis for projecting therm sales. Furthermore, weather normalized analysis shows the projection was very accurate.

b. Due to the inherent uncertainty in predicting future weather conditions and tourism volumes, the company cannot determine whether the recent trend of under-forecasting will persist in the 2026 test period. Similar to all utilities, Peoples must use prior weather trends and overall usage to predict future usage. Over time, Peoples approach, similar to all other utilities, has proven to be the most accurate means to forecast customer usage. Furthermore, PGS' use of ten-year weather patterns should improve future accuracy.

PEOPLES GAS SYSTEM, INC.
DOCKET NO. 20250029-GU
STAFF'S EIGHTEENTH SET OF INTERROGATORIES
INTERROGATORY NO. 218
BATES PAGE(S): 18680 - 18681
SEPTEMBER 30, 2025

218. Refer to PGS's response to Staff's Seventh Set of Interrogatories, Nos. 72.a and 72.b. Please provide PGS's monthly projections for total customer count and total therm sales, along with the actual monthly customer count and non-weather-normalized therm sales (aggregated across all divisions) for June and July 2025. Additionally, please include explanations for any variances exceeding 10 percent for therm sales and 2 percent for customers.

ANSWER:

Peoples is answering this interrogatory in part by producing a document as allowed under Florida Rule of Civil Procedure 1.340(c); the document reflecting the actual versus projected sales for months January through July 2025 is provided in the folder entitled "ROG_18_218" and will be posted on the Consumer Party SharePoint Site or provided via USB.

In June, neither total customer count nor total therm sales deviated from budget per the above-mentioned threshold. In July, Large Commercial & Industrial therm sales were 13.89% higher than forecast due to increased usage of multiple GS-4 & GS-5 customers.
