RE: Docket No. 20250052 – Application for increase in water and wastewater rates in Brevard, Citrus, Duval, Highlands, Marion, and Volusia Counties by CSWR-Florida Utility Operating Company.

Dear Mr. Crabb:

The intent of this letter is to confirm with CSWR-Florida Utility Operating Company (“CSWR” or “Utility”) of the Office of Public Counsel’s (“OPC”) understanding that the three acquisition adjustments requested in the above-referenced docket (Aquarina, Noth Peninsula and Sunshine) are being effectively removed from consideration in the current proceeding.¹

As characterized by CSWR’s representative, the Utility will not request consolidation of the Rolling Oaks and Neighborhood acquisition adjustments into the rate case. Instead, all five of the acquisition adjustments will be submitted by CSWR for consideration on a Proposed Agency Action (“PAA”) track. The outcome of that proceeding will be considered and will be implemented, as appropriate, in a separate proceeding distinct from, and subsequent to this current rate case.

Accordingly, it is OPC’s understanding that the costs, including any rate case expense costs, associated with the acquisition adjustments will not be reflected in the revenue requirement or other outcomes determined in this docket (20250052-WS). Consideration of those acquisition adjustments will be considered in their entirety to a separate proceeding, subject to the Commission’s review and approval.

¹ Docket Nos. 20250038-WS, 20250043-WS, and 20250047-WS, previously litigated in Docket Nos. 20210093-WS, 20210095-WU, and 20210133-SU.
