I do not know where to post this. I am formally objecting to the attempt by Sunshine Water Services to buy Placid Lakes Water Utilities. The company has a bad reputation with the other community's that have been literally bullied into selling out. They do not repair, they do not improve, and then they raise the cost of the service. In addition, we have individuals in this community who have lived and worked in the Placid Lakes Community for decades. Corporate businesses such as Sunshine Water Services often fire all current staff and replace them with 'company staff.' I can't attach complaint records on this PCS website, but there are a number of found complaints online. I do not think that Placid Lakes Water Utilities has any problems, especially that need an outside company to address. Thank you, Sandy Koi, PhD, Earth Systems Science

Good Afternoon.

We have received your previous correspondence form April 12th, however it is placed in docket 20260032 not 20260031. If you would like to have the correspondence moved to 20260031 as well please let me know.

Thank you!

Tristan Davis

I wrote this forwarded email on April 12, 2026, but do not see the correspondence on the Docket # 20260031-WS presumably because the docket number changed. Please post this in regard to the attempted take-over of Placid Lakes Utilities, Inc. by Sunshine Water Services Company. I am formally objecting to the attempt by Sunshine Water Services to buy Placid Lakes Water Utilities. The company has a bad reputation with the other community's that have been literally bullied into selling out and apparently Sunshine Water Services Company is attempting to do this again in Placid Lakes.

Reports online indicate that Sunshine Water Services Company does not repair, they do not improve, and they raise the cost of the service. In addition, we have individuals in this community who have lived and worked in the Placid Lakes Community for decades. Corporate businesses such as Sunshine Water Services often fire all current staff and replace them with 'company staff.' I do not think that Placid Lakes Water Utilities has any problems, especially anything that needs an outside company to address.

Placid Lakes is a small community with only 2350 customers, who know each other and have worked together for decades. I am very opposed to any kind of large corporate company being involved in this community.

There doesn't seem to be a place to add my comment to this new docket number.

Thank you,

Sandy Koi, PhD
