Authority Pursuant to Section 214 of The Communications Act of 1934, As Amended, To Discontinue the Provision of Service	**File No.**

SECTION 63.71 APPLICATION OF AT&T

AT&T[1] applies for authority under Section 214(a) of the Communications Act, as amended, 47 U.S.C. § 214, and Section 63.71 of the Federal Communications Commission's ("Commission") rules, 47 C.F.R. § 63.71, to discontinue certain Voice-over-IP ("VoIP") services in certain wire centers located in 20 states.

[1] AT&T Services, Inc. files this application on behalf of its affiliates set out in the caption. The FRN associated with this application is 0001857952.

INTRODUCTION

Through this application, AT&T seeks to discontinue certain VoIP services, called AT&T Phone Service and AT&T Phone for Business, where AT&T can only provide the services over copper (the "Affected Services"), in portions of certain wire centers located in 20 states (the "Affected Service Area"). AT&T previously grandfathered the Affected Services in the Affected Service Area[2] and has discontinued the Affected Services in hundreds of other AT&T wire centers.[3] As with AT&T's earlier applications, discontinuing these outdated services will benefit the public and serve as an important step toward meeting both AT&T's and the Commission's goals of advancing next-generation communication technologies.[4]

Upon discontinuance, current customers of the Affected Services ("Affected Customers") will have many cost-effective alternatives to choose from as alternatives for the Affected Services. These options include AT&T's next-generation solutions — AT&T Phone – Advanced and AT&T Phone for Business – Advanced (collectively, "AP-A")[5] — which AT&T

[5] AT&T recently introduced an updated and renamed version of AT&T Phone for Business – Advanced called AT&T Business Voice ("ABV"). ABV uses the same technology and customer equipment as AT&T Phone for Business – Advanced and has all the same features plus additional ones, including improved voicemail, call handling, and call screening

specifically designed as reliable and cost-effective alternatives to legacy voice services, and which AT&T has cited as key alternatives to the Affected Services in its previous grandfathering and discontinuance applications.[6] In addition to AP-A, there are many competitive voice offerings in the Affected Service Area offered over cable, fiber, fixed wireless, mobile wireless, and satellite technologies, which many customers have already selected in lieu of the Affected Services.

APPLICATION

As required by Section 63.71 of the Commission's rules, AT&T provides the following information:

Name and Address of Carrier:

BellSouth Telecommunications, LLC, d/b/a AT&T Alabama, AT&T Florida, AT&T Georgia, AT&T Kentucky, AT&T Louisiana, AT&T Mississippi, AT&T North Carolina, AT&T South Carolina and AT&T Tennessee;

functionality. The technical performance of ABV does not vary from AT&T Phone for Business – Advanced. ABV launched on June 17, 2025, and is in the process of being introduced to different market segments. Currently, depending on the market segment, the service may be sold to customers as ABV or AT&T Phone for Business – Advanced. For simplicity's sake, in this application references to "AP-A" include ABV as well as AT&T Phone – Advanced and AT&T Phone for Business – Advanced.

Date of Planned Service Discontinuance:

Effective on or after September 1, 2027, pending regulatory approval, AT&T's Affected Services will be discontinued.

Points of Geographic Areas of Service Affected:

AT&T plans to discontinue the Affected Services in the Affected Service Area in sections of 20 states: Alabama, Arkansas, Florida, Georgia, Illinois, Indiana, Kansas, Kentucky, Louisiana, Michigan, Missouri, Mississippi, Nevada, North Carolina, Ohio, Oklahoma, South Carolina, Tennessee, Texas, and Wisconsin. Exhibit 1 identifies the list of AT&T wire centers in each state that include any service areas that fall within the Affected Service Area.

Brief Description of Type of Service Affected:

AT&T plans to discontinue AT&T Phone Service and AT&T Phone for Business in the Affected Service Area where AT&T can only provide the service over copper. AT&T will continue to provide, and accept new orders for, AT&T Phone Service and AT&T Phone for Business in areas of these wire centers where AT&T can deliver those services over fiber.

AT&T Phone Service is an enhanced voice communication service that converts voice communications into Internet Protocol (IP) packets that are carried over AT&T's IP network — *i.e.*, "voice over IP" or "VoIP." AT&T Phone Service includes direct-dialed calling and certain

calling and call management features, as well as additional or advanced features that may be offered at additional costs.

AT&T Phone for Business provides an enhanced voice communication service that converts voice communications into Internet Protocol (IP) packets that are carried over AT&T's IP network. It may be generically referred to as "voice over IP" or "VoIP." The service includes direct-dialed calling and certain calling and call management features or advanced features associated with the service.

Brief Description of the Dates and Method of Notice to All Affected Customers:

Customer notices were sent via U.S. Mail on August 17, 2026.[7] Copies of this Application are being sent via first class U.S. Mail to the governor, public utility commission, and federally recognized tribes (if any) in the Affected Service Area, and to the Special Assistant for Telecommunications to the Secretary of Defense, as required by 63.71(a) of the Commission's rules.[8]

Regulatory Classification of Carrier:

AT&T offers the Affected Services pursuant to non-dominant carrier regulation.

Questions about this application may be addressed to Meredith Williams, AT&T Services, Inc., AVP – Federal Relations, 601 New Jersey Ave NW, Suite 650, Washington, DC, (202) 227-9725.

Public Convenience and Necessity:

The public convenience and necessity will not be impaired by the discontinuance of

[7] Example notices are attached as Exhibit 2.

[8] Section 63.71(a) directs applicants to submit a copy of the application to the Secretary of Defense, Special Assistant for Telecommunications. However, due to restructuring within the Department of Defense, that position no longer exists. Commission staff has advised that a copy of the application be sent instead to the Department of Defense Chief Information Officer.

these services. The demand for the Affected Services is very low. The small base of existing customers has been steadily eroding, and AT&T has previously grandfathered the Affected Services in the Affected Service Area. As a result, it is economically inefficient for AT&T to continue to provide the Affected Services.

Affected Customers have numerous options to choose from in lieu of the Affected Services, including AT&T's own mobile wireless service and AP-A. Indeed, most consumers in the Affected Service Area have elected to receive voice services from the many cost-effective voice options available to them, including competitive voice offerings offered over cable, fiber, fixed wireless, mobile, and satellite technologies. In addition, customers in the Affected Service Area can purchase VoIP services that run on top of fixed-wireless or satellite broadband connections.

CONCLUSION

For the reasons identified above, the public convenience and necessity will not be adversely affected by the discontinuance of the Affected Services. AT&T respectfully requests the Commission approve its Section 63.71 Application to discontinue services.

Important Update About Your AT&T Phone for Business with AT&T Internet for Business Service

Thank you for using AT&T for your business service needs. We know that businesses today rely on high-speed, reliable connectivity, and only AT&T can bring you the best and largest network to help you connect your business. That's why we're upgrading service to new, enhanced solutions that are more reliable and affordable. Our records show that you have at least one of the services impacted by these updates. You can see the addresses where your service is being upgraded below.[1]

Upgrading your service
Our customers are asking for faster and more reliable service, so we're upgrading our network to give you connectivity you can count on for everyday needs. Our aging legacy network doesn't deliver the same level of service, quality and reliability as newer technology. Now, we have more ways to connect than ever before, with newer, faster, technology that is more reliable, energy efficient, and affordable.

As part of this transition, your AT&T Phone for Business with AT&T Internet for Business Service will be discontinued on or after 9/1/2027.

We know how important it is to stay connected, and we're here to make this transition easy for you. We have enhanced, more reliable options for you to better support your business needs and stay connected: AT&T Phone for Business – Advanced and AT&T Office@Hand.

Here's what you can expect:

- We'll send additional information over the coming months regarding this transition and how you can upgrade your service.
- You will continue to be able to make phone calls using your existing service until on or after **9/1/2027,** when we will stop providing service, pending FCC approval.
- You will need to contact your Account Manager to update your service before **9/1/2027**. We want to help you upgrade your service, so you continue to have access to phone service and 911. Please call 855-235-0900 to understand your options for phone service from AT&T.

We look forward to continuing to serve you and providing a better and more reliable experience for your business needs.

Sincerely,

AT&T Business Services
