RECEIVED
ECONOMIC REGULATION
OCT 18 2010

RE: Docket No. 080677-EI

Dear Mr. Willis:

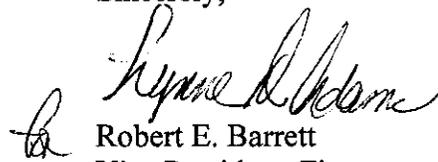

As directed in your letter to Kim Ousdahl dated October 14, 2010, I am enclosing Florida Power & Light Company's ("FPL's") July 2010 monthly earnings surveillance report ("ESR"). The July 2010 ESR shows a return on common equity ("ROE") of 11.68% for the twelve months ending July 2010, on an FPSC-adjusted, actual basis. As with ESRs for March through June 2010 that FPL submitted on September 14, 2010, that ROE is strongly affected by the unexpectedly high sales of electricity due to extreme, abnormal weather conditions that FPL has been experiencing since the latter part of 2009. This is evidenced by the fact that the pro-forma (*i.e.*, weather-normalized) ROE shown on the July 2010 ESR is 10.08%, well within the ROE range of 9% to 11% set by the Commission in Order No. PSC-10-0153-FOF-EI.

As you know, FPL has previously requested and the Commission has granted an extension of time to file the 2010 forecasted ESR until the proposed Stipulation and Settlement in this docket (the "Settlement Agreement") has been approved or, if not approved, the Commission has ruled on outstanding reconsideration motions. Neither of those events has transpired yet. However, in conjunction with review of the Settlement Agreement and the Commission's consideration of a potential earnings review in Docket No. 100410-EI, a question has been raised about FPL's ability to maintain its FPSC-adjusted, actual ROE within the 9% - 11% range set by the Commission, using the mechanism of varying the amortization of depreciation reserve surplus provided in Paragraph 7 of the Settlement Agreement. In order to address that question, FPL has prepared a provisional forecasted ESR for 2010 (the "Provisional FESR"), on the assumption that the settlement agreement is approved and FPL uses Paragraph 7 to maintain the FPSC-adjusted, actual ROE within the established range. Because of disclosure requirements of the Securities Exchange Commission, FPL requests that the results reflected on the Provisional FESR be treated as confidential until the final

forecasted ESR is filed. Accordingly, FPL has filed today with the Commission Clerk a request for confidential classification, to which a highlighted copy of the Provisional FESR is attached. Due to the confidentiality of the forecasted earnings information in the Provisional FESR, I cannot speak to its details in this letter, but you will find that the forecasted results provide a high degree of confidence that Paragraph 7 can and will work as intended by the settling parties to control FPL's FPSC-adjusted, actual ROE within the established range, especially considering that the results are conservative in at least four important respects: (1) actual sales for January through September 2010 are reflected in the forecast, so there are only three additional months of projected sales in the forecast; (2) historically there has been relatively little potential for extreme weather to increase sales in the fourth quarter of the year; (3) October 2010 sales to date are actually running below weather-normalized expectations; and (4) even if sales for the remainder of 2010 proved to be higher than expected, FPL could "throttle back" the amortization of depreciation reserve surplus further.

FPL will file the final forecasted ESR for 2010 once the contingencies have been resolved that led to our extension request. However, the Provisional FESR should provide the Commission with added, quantitative insight into the benefits of approving the Settlement Agreement, as well as the lack of any need for an earnings review to be initiated in Docket No. 100410-EI.

Sincerely,

Robert E. Barrett
Vice President, Finance
