Form Approved
OMB No. 1902-0021
(Expires 7/31/95)

FERC Form No. 1: ANNUAL REPORT OF MAJOR ELECTRIC UTILITIES, LICENSEES AND OTHERS

This report is mandatory under the Federal Power Act, Sections 3, 4(a), 304 and 309, and 18 CFR141.1. Failure to report may result in criminal fines, civil penalties and other sanctions as provided by law. The Federal Energy Regulatory Commission does not consider this report to be of a confidential nature.

AUDITING &
FINANCIAL ANALYSIS DIV

INDEPENDENT AUDITORS' REPORT

Florida Public Utilities Company:

We have audited the balance sheet of Florida Public Utilities Company (the "Company") as of December 31, 1994, and the related statements of income, retained earnings, and cash flows for the year then ended, included on pages 110 through 122-g of the accompanying Federal Energy Regulatory Commission Form 1. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As required by the Federal Energy Regulatory Commission, the Company accounts for its investment in a wholly-owned subsidiary on the equity method rather than consolidating the assets, liabilities, revenues, and expenses of the subsidiary, as required by generally accepted accounting principles. If generally accepted accounting principles were followed, investments and current assets would be decreased by \$2,119,886 and \$967,884, respectively, and current liabilities and property would be increased by \$250,771 and \$4,639,567, respectively as of December 31, 1994. Furthermore, operating revenues would be increased by \$4,046,390, operating expenses would be increased by \$3,891,921, and equity in earnings of subsidiaries would be decreased by \$56,200 for the year ended December 31, 1994. Accounting for the investment in a wholly-owned subsidiary on the equity method rather than in accordance with generally accepted accounting principles has no effect on net income or retained earnings. The statement of cash flows and the accompanying notes to the financial statements are prepared on a consolidated basis as presented with the Company's consolidated financial statements included in its Annual Report to Shareholders. Such consolidated statement of cash flows and notes are not comparable in certain respects with the accompanying balance sheet and income statement in which an investment in a wholly-owned subsidiary is accounted for on the equity method.

In our opinion, except for the effects of not consolidating its wholly-owned subsidiary as discussed in the preceding paragraph, the financial statements referred to above present fairly, in all material respects, the financial position of Florida Public Utilities Company at December 31, 1994, and the results of its operations and its cash flows for the year then ended in conformity with generally accepted accounting principles. Also, in our opinion, the information presented in the financial statements referred to above is presented fairly, in all material respects, in accordance with the accounting requirements of the Federal

Energy Regulatory Commission as set forth in its applicable Uniform System of Accounts and published accounting releases.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The additional information of utility operating income by utility departments on the statement of income is presented for the purpose of additional analysis and is not a required part of the basic financial statements. This additional information is the responsibility of the Company's management. Such information has been subjected to the auditing procedures applied in our audit of the basic financial statements and, in our opinion, is fairly stated in all material respects when considered in relation to the basic financial statements taken as a whole.

SIGNATURE PAGE

I certify that I am the responsible accounting officer of FLORIDA PUBLIC UTILITIES COMPANY; that I have examined the following report; that to the best of my knowledge, information, and belief, all statements of fact contained in the said report are true and the said report is a correct statement of the business and affairs of the above-named respondent in respect to each and every matter set forth therein during the period from January 1, 1994 to December 31, 1994, inclusive.

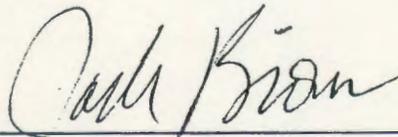

I also certify that all affiliated transfer prices and affiliated cost allocations were determined consistent with the methods reported to this Commission on the appropriate forms included in this report.

I am aware that Section 837.06, Florida Statutes, provides:

Whoever knowingly makes a false statement in writing with the intent to mislead a public servant in the performance of his official duty shall be guilty of a misdemeanor of the second degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084.

**INSTRUCTIONS FOR FILING THE
FERC FORM NO. 1**

GENERAL INFORMATION

I. Purpose

This form is a regulatory support requirement (18 CFR 141.1). It is designed to collect financial and operational information from major electric utilities, licensees and others subject to the jurisdiction of the Federal Energy Regulatory Commission. This report is also secondarily considered to be a non-confidential public use form supporting a statistical publication (Financial Statistics of Selected Electric Utilities), published by the Energy Information Administration.

II. Who Must Submit

Each Major electric utility, licensee, or other, as classified in the Commission's Uniform System of Accounts Prescribed for Public Utilities and Licensees Subject To the Provisions of The Federal Power Act (18 CFR 101), must submit this form.

Note: Major means having, in each of the three previous calendar years, sales or transmission service that exceeds one of the following:

- (1) One million megawatt hours of total annual sales,
- (2) 100 megawatt hours of annual sales for resale,
- (3) 500 megawatt hours of annual power exchanges delivered,
- (4) 500 megawatt hours of annual wheeling for others (deliveries plus losses).

III. What and Where to Submit

- (a) Submit an original and six (6) copies of this form to:

Office of the Secretary
Federal Energy Regulatory Commission
825 North Capitol Street, NE.
Room 3110
Washington, DC 20426

Retain one copy of this report for your files.

- (b) Submit immediately upon publication, four (4) copies of the latest annual report to stockholders and any *annual* financial or statistical report regularly prepared and distributed to bondholders, security analysts, or industry associations. (Do not include monthly and quarterly reports. Indicate by checking the appropriate box on Page 4, List of Schedules, if the reports to stockholders will be submitted or if no annual report to stockholders is prepared.) Mail these reports to:

Chief Accountant
Federal Energy Regulatory Commission
825 N. Capitol St., NE.
Room 946
Washington, DC 20426

- (c) For the CPA certification, submit with the original submission, or within 30 days after the filing date for this form, a letter or report (not applicable to respondents classified as Class C or Class D prior to January 1, 1984):

- (i) Attesting to the conformity, in all material aspects, of the below listed (schedules and) pages with the Commission's applicable Uniform Systems of Accounts (including applicable notes relating thereto and the chief accountant's published accounting releases), and
- (ii) Signed by independent certified public accountants or an independent licensed public accountant, certified or licensed by a regulatory authority of a State or other political subdivision of the U.S. (See 18 CFR 41.10-41.12 for specific qualifications.)

<u>Schedules</u>	<u>Reference Pages</u>
Comparative Balance Sheet	110-113
Statement of Income	114-117
Statement of Retained Earnings	118-119
Statement of Cash Flows	120-121
Notes to Financial Statements	122-123

When accompanying this form, insert the letter or report immediately following the cover sheet. When submitting after the filing date for this form, send the letter or report to the Chief Accountant at the address indicated at III (b).

GENERAL INFORMATION (Continued)

III. What and Where to Submit (Continued)
(c) Continued

Use the following form for the letter or report unless unusual circumstances or conditions, explained in the letter or report, demand that it be varied. Insert parenthetical phrases only when exceptions are reported.

In connection with our regular examination of the financial statement of _____ for the year ended on which we have reported separately under date of _____ we have also reviewed schedules _____ of FERC Form No. 1 for the year filed with the Federal Energy Regulatory Commission, for conformity in all material respects with the requirements of the Federal Energy Regulatory Commission as set forth in its applicable Uniform System of Accounts and published accounting releases. Our review for this purpose included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

Based on our review, in our opinion the accompanying schedules identified in the preceding paragraph (except as noted below) conform in all material respects with the accounting requirements of the Federal Energy Regulatory Commission as set forth in its applicable Uniform System of Accounts and published accounting releases.

State in the letter or report, which, if any, of the pages above do not conform to the Commission's requirements. Describe the discrepancies that exist.

- (d) Federal, State and Local Governments and other authorized users may obtain additional blank copies to meet their requirements free of charge from:

Legal Reference and Records Management Branch
Federal Energy Regulatory Commission
941 North Capitol Street, NE.
Room 3100 ED-12.1
Washington, DC 20426
(202) 208-2474

IV. When to Submit:

Submit this report form on or before April 30th of the year following the year covered by this report.

V. Where to Send Comments on Public Reporting Burden.

The public reporting burden for this collection of information is estimated to average 1,215 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any aspect of this collection of information, including suggestions for reducing this burden, to the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, DC 20426 (Attention: Michael Miller, ED-12.3); and to the Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20503 (Attention: Desk Officer for the Federal Energy Regulatory Commission).

GENERAL INSTRUCTIONS

- I. Prepare this report in conformity with the Uniform System of Accounts (18 CFR 101) (U.S. of A.). Interpret all accounting words and phrases in accordance with the U.S. of A.
- II. Enter in whole numbers (dollars or MWH) only, except where otherwise noted. (Enter cents for averages and figures per unit where cents are important. The truncating of cents is allowed except on the four basic financial statements where rounding is required.) The amounts shown on all supporting pages must agree with the amounts entered on the statements that they support. When applying thresholds to determine significance for reporting purposes, use for balance sheet accounts the balances at the end of the current reporting year, and use for statement of income accounts the current year's amounts.
- III. Complete each question fully and accurately, even if it has been answered in a previous annual report. Enter the word "None" where it truly and completely states the fact.

GENERAL INSTRUCTIONS (Continued)

- IV. For any page(s) that is not applicable to the respondent, either
- (a) Enter the words "Not Applicable" on the particular page(s), or
 - (b) Omit the page(s) and enter "NA," "NONE," or "Not Applicable" in column (d) on the List of Schedules, pages 2, 3, and 4.
- V. Complete this report by means which result in a permanent record. Complete the original copy in permanent black ink or typewriter print, if practical. The copies, however, may be carbon copies or other similar means of reproduction provided the impressions are clear and readable.
- VI. Enter the month, day, and year for all dates. Use customary abbreviations. The "Date of Report" at the top of each page is applicable only to resubmissions (see VIII. below).
- VII. Indicate negative amounts (such as decreases) by enclosing the figures in parentheses. ().
- VIII. When making revisions, resubmit only those pages that have been changed from the original submission. Submit the same number of copies as required for filing the form. Include with the resubmission the Identification and Attestation page, page 1. Mail dated resubmissions to:
- Chief Accountant
Federal Energy Regulatory Commission
825 North Capitol Street, NE.
Room 946
Washington, DC 20426
- IX. Provide a supplemental statement further explaining accounts or pages as necessary. Attach the supplemental statement (8½ by 11 inch size) to the page being supplemented. Provide the appropriate identification information, including the title(s) of the page and the page number supplemented.
- X. Do not make references to reports of previous years or to other reports in lieu of required entries, except as specifically authorized.
- XI. Wherever (schedule) pages refer to figures from a previous year, the figures reported must be based upon those shown by the annual report of the previous year, or an appropriate explanation given as to why the different figures were used.
- XII. Respondents may submit computer printed schedules (reduced to 8½ by 11) instead of the preprinted schedules if they are in substantially the same format.

DEFINITIONS

- I. Commission Authorization (Comm. Auth.)—The authorization of the Federal Energy Regulatory Commission, or any other Commission. Name the commission whose authorization was obtained and give date of the authorization.
- II. Respondent—The person, corporation, licensee, agency, authority, or other legal entity or instrumentality in whose behalf the report is made.

EXCERPTS FROM THE LAW

Federal Power Act, 16 U.S.C. 791a-825r)

"Sec. 3. The words defined in this section shall have the following meanings for purposes of this Act, to wit:
... (3) 'corporation' means any corporation, joint-stock company, partnership, association, business trust, organized group of persons, whether incorporated or not, or a receiver or receivers, trustee or trustees of any of the foregoing. It shall not include 'municipalities' as hereinafter defined;

(4) 'person' means an individual or a corporation;

(5) 'licensee' means any person, State, or municipality licensed under the provisions of section 4 of this Act, and any assignee or successor in interest thereof;

(7) 'municipality' means a city, county, irrigation district, drainage district, or other political subdivision or agency of a State competent under the laws thereof to carry on the business of developing, transmitting, utilizing, or distributing power;"

(11) 'project' means a complete unit of improvement or development, consisting of a power house, all water conduits, all dams and appurtenant works and structures (including navigation structures) which are a part of said unit, and all storage, diverting, or forebay reservoirs directly connected therewith, the primary line or lines transmitting power therefrom to the point of junction with the distribution system or with the interconnected primary transmission system, all miscellaneous structures used and useful in connection with said unit or any part thereof, and all water rights, rights-of-way, ditches, dams, reservoirs, lands, or interest in lands the use and occupancy of which are necessary or appropriate in the maintenance and operation of such unit;

"Sec. 4. The Commission is hereby authorized and empowered—

(a) To make investigations and to collect and record data concerning the utilization of the water resources of any region to be developed, the water-power industry and its relation to other industries and to interstate or foreign commerce, and concerning the location, capacity, development costs, and relation to markets of power sites, . . . to the extent the Commission may deem necessary or useful for the purposes of this Act."

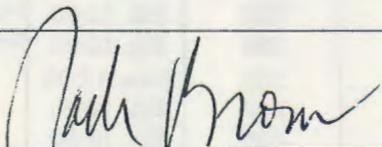

"Sec. 304. (a) Every licensee and every public utility shall file with the Commission such annual and other periodic or special reports as the Commission may by rules and regulations or otherwise prescribe as necessary or appropriate to assist the Commission in the proper administration of this Act. The Commission may prescribe the manner and form in which such reports shall be made, and require from such persons specific answers to all questions upon which the Commission may need information. The Commission may require that such reports shall include, among other things, full information as to assets and liabilities, capitalization, net investment, and reduction thereof, gross receipts, interest due and paid, depreciation, and other reserves, cost of project and other facilities, cost of maintenance and operation of the project and other facilities, cost of renewals and replacement of the project works and other facilities, depreciation, generation, transmission, distribution, delivery, use, and sale of electric energy. The Commission may require any such person to make adequate provision for currently determining such costs and other facts. Such reports shall be made under oath unless the Commission otherwise specifies."

"Sec. 309. The Commission shall have power to perform any and all acts, and to prescribe, issue, make, amend, and rescind such orders, rules and regulations as it may find necessary or appropriate to carry out the provisions of this Act. Among other things, such rules and regulations may define accounting, technical, and trade terms used in this Act; and may prescribe the form or forms of all statements, declarations, applications, and reports to be filed with the Commission, the information which they shall contain, and the time within which they shall be filed. . . ."

GENERAL PENALTIES

"Sec. 315. (a) Any licensee or public utility which willfully fails, within the time prescribed by the Commission, to comply with any order of the Commission, to file any report required under this Act or any rule or regulation of the Commission thereunder, to submit any information or document required by the Commission in the course of an investigation conducted under this Act, . . . shall forfeit to the United States an amount not exceeding \$1,000 to be fixed by the Commission after notice and opportunity for hearing. . . ."

GENERAL INFORMATION

1. Provide name and title of officer having custody of the general corporate books of account and address of office where the general corporate books are kept, and address of office where any other corporate books of account are kept, if different from that where the general corporate books are kept.

Jack Brown, Treasurer
 401 South Dixie Highway, P.O. Box 3395
 West Palm Beach, Florida 33402-3395

2. Provide the name of the State under the laws of which respondent is incorporated, and date of incorporation. If incorporated under a special law, give reference to such law. If not incorporated, state that fact and give the type of organization and the date organized.

State of Florida
 March 6, 1924; Reincorporated April 25, 1929

3. If at any time during the year the property of respondent was held by a receiver or trustee, give (a) name of receiver or trustee, (b) date such receiver or trustee took possession, (c) the authority by which the receivership or trusteeship was created, and (d) date when possession by receiver or trustee ceased.

N/A

4. State the classes of utility and other services furnished by respondent during the year in each State in which the respondent operated.

Distribution of electricity, gas and water in the State of Florida.

5. Have you engaged as the principal accountant to audit your financial statements an accountant who is not the principal accountant for your previous year's certified financial statements?

(1) YES ...Enter the date when such independent accountant was initially engaged: _____

(2) X NO

CORPORATIONS CONTROLLED BY RESPONDENT

1. Report below the names of all corporations, business trusts, and similar organizations, controlled directly or indirectly by respondent at any time during the year. If control ceased prior to end of year, give particulars (details) in a footnote.
 2. If control was by other means than a direct holding of voting rights, state in a footnote the manner in which control was held, naming any intermediaries involved.

3. If control was held jointly with one or more other interests, state the fact in a footnote and name the other interests.
 4. If the above required information is available from the SEC 10-K Report Form filing, a specific reference to the report form (i.e. year and company title) may be listed in column (a) provided the fiscal years for both the 10-K report and this report are compatible.

DEFINITIONS

1. See the Uniform System of Accounts for a definition of control.
 2. Direct control is that which is exercised without interposition of an intermediary.
 3. Indirect control is that which is exercised by the interposition of an intermediary which exercises direct control.
 4. Joint control is that in which neither interest can effectively

control or direct action without the consent of the other, as where the voting control is equally divided between two holders, or each party holds a veto power over the other. Joint control may exist by mutual agreement or understanding between two or more parties who together have control within the meaning of the definition of control in the Uniform System of Accounts, regardless of the relative voting rights of each party.

Name of Company Controlled (a)	Kind of Business (b)	Percent Voting Stock Owned (c)	Footnote Ref. (d)
Flo - Gas Corporation	Propane Gas	100%	

OFFICERS

1. Report below the name, title and salary for each executive officer whose salary is \$50,000 or more. An "executive officer" of a respondent includes its president, secretary, treasurer, and vice president in charge of a principal business unit, division or function (such as sales, administration or finance), and any other person who performs similar policymaking functions.
 2. If a change was made during the year in the incumbent of

any position, show name and total remuneration of the previous incumbent, and date the change in incumbency was made.
 3. Utilities which are required to file the same data with the Securities and Exchange Commission, may substitute a copy of item 4 of Regulation S-K (identified as this page). The substituted page(s) should be the same size as this page.

Line No.	Title (a)	Name of Officer (b)	Salary for Year (c)

DIRECTORS

1. Report below the information called for concerning each director of the respondent who held office at any time during the year. Include in column (a) abbreviated titles of the directors who are officers of the respondent.

2. Designate members of the Executive Committee by an asterisk and the Chairman of the Executive Committee by a double asterisk.

Name (and Title) of Director (a)	Principal Business Address (b)	# OF DIRECTOR MEETINGS ATTENDED DURING YEAR	FEES DURING YEAR
R.L. Terry** Chairman of the Executive Committee	401 South Dixie Highway West Palm Beach, Florida	4	-
F.C. Cressman* President & Chief Executive Officer	401 South Dixie Highway West Palm Beach, Florida	4	-
D. Downey*	400 Royal Palm Way Palm Beach, Florida	4	1,700
G.O. Jerauld	700 Osprey Way No. Palm Beach, Florida	4	1,600
C.A. Benoit, Jr.	Box 1023 Palm Beach, Florida	4	1,700
E. James Carr, Jr.	217 Tom O'Shanter Drive Palm Springs, Florida	4	1,700

SECURITY HOLDERS AND VOTING POWERS

1. Give the names and addresses of the 10 security holders of the respondents who, at the date of the latest closing of the stock book or compilation of the list of stockholders of the respondent, prior to the end of the year, had the highest voting powers in the respondent, and state the number of votes which each would have had the right to cast on that date if a meeting were in order. If any such holder held in trust, give in a footnote the known particulars of the trust (whether voting trust, etc.) duration of the trust, and principal holders of beneficiary interests in the trust. If the stock book was not closed or a list of stockholders was not compiled within one year prior to the end of the year, or if since the previous compilation of a list of stockholders, some other class of security has become vested with voting rights, then show such 10 security holders as of the close of the year. Arrange the names of the security holders in the order of voting power, commencing with the highest. Show in column (a) the titles of officers and directors included in such list of 10 security holders.

2. If any security other than stock carries voting rights, explain in a supplemental statement of circumstances whereby such security became vested with voting rights and

give other important particulars (details) concerning the voting rights of such security. State whether voting rights are actual or contingent: if contingent, describe the contingency.

3. If any class or issue of security has any special privileges in the election of directors, trustees or managers, or in the determination of corporate action by any method, explain briefly in a footnote.

4. Furnish particulars (details) concerning any options, warrants, or rights outstanding at the end of the year for other to purchase securities of the respondent or any securities or other assets owned by the respondent, including prices, expiration dates, and other material information relating to exercise of the options, warrants, or rights. Specify the amount of such securities or assets so entitled to be purchased by any officer, director, associated company, or any of the ten largest security holders. This instruction is inapplicable to convertible securities or to any securities substantially all of which are outstanding in the hands of the general public where the options, warrants or rights were issued on a prorata basis.

1. Give date of the latest closing of the stock book prior to the end year, and state the purpose of such closing:

December 6, 1994
Dividend Record Date

2. State the total number of votes cast at the latest general meeting prior to the end of year for the election of directors of the respondents and number of such votes cast by proxy.

Total: 1,220,833
By Proxy: 1,220,833

3. Give the date and place of such meeting:

04/19/94
401 S. Dixie Hwy.
West Palm Beach, FL

IMPORTANT CHANGES DURING THE YEAR

Give particulars (details) concerning the matters indicated below. Make the statements explicit and precise, and number them in accordance with the inquires. Each inquiry should be answered. Enter "none" "not applicable," or "NA" where applicable. If information which answers an inquiry is given elsewhere in the report, make a reference to the schedule in which it appears.

- 1. Changes in and important information to franchise rights: Describe the actual consideration given therefore and state from whom the franchise rights were acquired. If acquired without the payment of consideration, state the fact.
- 2. Acquisition of ownership in other companies by reorganization, merger, or consolidation with other companies: Give name of companies involved, particulars concerning the transactions, name of the Commission authorizing the transaction, and reference to Commission authorization.
- 3. Purchase or sale of an operating unit or system: Give brief description of the property, and of the transactions relating thereto, and reference to Commission authorization, if any was required. Give date journal entries called for by the Uniform System of Accounts were submitted to the Commission.
- 4. Important leaseholds (other than leaseholds for natural gas lands) that have been acquired or given, assigned or surrendered: Give effective dates, lengths of terms, names of parties, rents, and other conditions. State name of Commission authorizing lease and give reference to such authorization.
- 5. Important extension or reduction of transmission or distribution system: State territory added or relinquished and date operations began or ceased give reference to Commission authorization, if any was required. State also the approximate number of customers added or lost and approximate annual revenues of each class of service. Each natural gas company must also state major new continuing sources of gas made available to it from purchases,

- development, purchase contract or otherwise, giving location and approximate total gas volumes available, period of contracts, and other parties to any such arrangements etc.
- 6. Obligations incurred as a result of issuance of securities or assumption of liabilities or guarantees including issuance of short-term debt and commercial paper having a maturity of one year or less. Give reference to FERC or State commission authorization, as appropriate, and the amount of obligation or guarantee.
- 7. Changes in articles of incorporation or amendments to charter: Explain the nature and purpose of such changes or amendments.
- 8. State the estimated annual effect and nature of any important wage scale changes during the year.
- 9. State briefly the status of any materially important transactions of the respondent not disclosed elsewhere in this report in which an officer, director, security holder reported on page 106, voting trustee, associated company or known associate of any of these persons was a party or in which any such person had a material interest.
- 11. Estimate increase or decrease in annual revenues due to important rate changes: State effective rate and approximate amount of increase or decrease from each revenue classification. State the number of customers affected.
- 12. If the important changes during the year relating to the respondent company appearing in the annual report to stockholders are applicable in every respect and furnish the data required by instruction 1 to 11 above, such notes may be attached to this page.

STATEMENT OF INCOME FOR THE YEAR

1. Report amounts for Accounts 412 and 413, Revenue and Expenses from Utility Plant Leased to Others, in another utility column (i,k,m,o) in a similar manner to a utility department. Spread the amount (s) over lines 01 through 20 as appropriate. Include these amounts in columns (c) and (d) totals.
2. Report amounts in Account 414, Other Utility Operating Income, in the same manner as Accounts 412 and 413 above.
3. Report data for lines 7,9,10 for Natural Gas companies using accounts 404.1, 404.2, 404.3, 407.1 and 407.2.
4. Use page 122 for important notes regarding the statement of income or any account thereof.
5. Give concise explanations concerning unsettled rate

- proceedings where a contingency exists such that refunds of a material amount may need to be made to the utility's customers or which may result in a material refund to the utility with respect to power or gas purchases. State for each year affected the gross revenues or costs to which the contingency relates and the tax effects together with an explanation of the major factors which affect the rights of the utility to retain such revenues or recover amounts paid with respect to power and gas purchases.
6. Give concise explanations concerning significant amounts of any refunds made or received during the year

STATEMENT OF INCOME FOR THE YEAR (Continued)

resulting from settlement of any rate proceeding affecting revenues received or costs incurred for power or gas purchases, and a summary of the adjustments made to balance sheet, income, and expense accounts.

7. If any notes appearing in the report to stockholders are applicable to this Statement of Income, such notes may be attached at page 122.

8. Enter on page 122 a concise explanation of only those changes in accounting methods made during the year which had an effect on net income, including the basis of

allocations and apportionments from those used in the preceding year. Also give the approximate dollar effect of such changes.

9. Explain in a footnote if the previous year's figures are different from that reported in prior reports.

10. If the columns are insufficient for reporting additional utility departments, supply the appropriate account titles, lines 1 to 19, and report the information in the blank space on page 122 or in a supplemental statement.

STATEMENT OF RETAINED EARNINGS FOR THE YEAR

1. Report all changes in appropriate retained earnings, unappropriated retained earnings, and unappropriated undistributed subsidiary earnings for the year.

2. Each credit and debit during the year should be identified as to the retained earnings account in which recorded (Accounts 433, 436-439 inclusive). Show the contra primary account affected in column (b).

3. State the purpose and amount for each reservation or appropriation of retained earnings.

4. List first Account 439, Adjustments to Retained Earnings, reflecting adjustments to the opening balance of retained earnings. follows by credit, then debit items, in that order.

5. Show dividends for each class and series of capital stock.

6. Show separately the state and federal income tax effect.

7. Explain in a footnote the basis for determining the amount reserved or appropriated. If such reservations or appropriations to be recurrent, state the number and annual amounts to be reserved or appropriated as well as the totals eventually to be accumulated.

8. If any notes appearing in the report to stockholders are applicable to this statement attach them at page 122.

STATEMENT OF CASH FLOWS

1. If the notes to the cash flow statement in the respondent's annual stockholders report are applicable to this statement, such notes should be attached to page 122. Information about noncash investing and financing activities should be provided on page 122. Provide also on page 122 a reconciliation between "Cash and Cash Equivalents at end of Year" with related amounts on the balance sheet.

3. Operating Activities - Other: include gains and losses pertaining to operating activities only. Gains and losses pertaining to investing and financing activities should be reported in those activities. Show on page 122 the amounts of interest paid (net of amounts capitalized) and income taxes paid.

2. Under "Other" specify significant amounts and group others.

NOTES TO THE FINANCIAL STATEMENTS ON A CONSOLIDATED BASIS

1. Use the space below for important notes regarding the Balance Sheet, Statement of Income for the year, Statement of Retained Earnings for the year, and Statement of Changes in Financial Position, or any account thereof. Classify the notes according to each basic statement, providing a subheading for each statement except where a note is applicable to more than one statement.

2. Furnish particulars (details) as to any significant contingent assets or liabilities existing at end of year, including a brief explanation of any action initiated by the Internal Revenue Service involving possible assessment of additional income taxes of material amount, or of a claim for refund of income taxes of a material amount initiated by the utility. Give also a brief explanation of any dividends in arrears on cumulative preferred stock.

3. For Account 116, Utility Plant Adjustments, explain the origin of such , debits and credits during the year, and

plan of disposition contemplated, giving references to Commission orders or other authorizations respecting classification of amounts as plant adjustments and requirements as to disposition thereof.

4. Where Accounts 189, Unamortized Loss on Reacquired Debt, and 257, Unamortized Gain on Reacquired Debt, are not used, give an explanation, providing the rate treatment given these items. See General Instruction 17 of the Uniform System of Accounts.

5. Give a concise explanation of any retained earnings restrictions and state the amount of retained earnings affected by such restrictions.

6. If the notes to financial statements relating to the respondent company appearing in the annual report to the stockholders are applicable and furnish the data required by instructions above and on pages 114-121, such notes may be attached hereto.

SEE ATTACHED ANNUAL REPORT SUPPLEMENTS

NOTES TO FINANCIAL STATEMENTS

Summary of Significant Accounting and Reporting Policies

Business and Regulation Florida Public Utilities Company (the Company) is an operating public utility engaged principally in the purchase, transmission, distribution and sale of electricity and the purchase, transmission, distribution, sale and transportation of natural gas. The Company is subject to the jurisdiction of the Florida Public Service Commission (FPSC) with respect to its electric, natural gas and water operations. The suppliers of electrical power to the Marianna Division and of natural gas to the natural gas divisions are subject to the jurisdiction of the Federal Energy Regulatory Commission (FERC). The Fernandina Beach Division is supplied most of its electrical power by a municipality which is exempt from FERC and FPSC regulation. The Company also distributes propane gas through a non-regulated subsidiary. The Company's accounting policies and practices conform to generally accepted accounting principles as applied to regulated public utilities and are in accordance with the accounting requirements and rate making practices of the FPSC.

The Company prepares its financial statements in accordance with the provisions of Statement of Financial Accounting Standards No. 71 - "Accounting for the Effects of Certain Types of Regulation" (SFAS 71). In general, SFAS 71 recognizes that accounting for rate regulated enterprises should reflect the relationship of costs and revenues introduced by rate regulation. As a result, a regulated utility may defer recognition of a cost (a regulatory asset) or recognize an obligation (a regulatory liability) if it is probable that, through the rate making process, there will be a corresponding increase or decrease in revenue.

Accordingly, the Company has deferred certain costs, some of which are material and some of which are not, which are being amortized over various periods. Such costs relate to deferred income taxes, employees' postretirement benefits other than pensions, unamortized debt issuance and redemption expense, and unamortized rate case expense. The Company believes that the FPSC will continue to allow the Company to recover its regulatory assets.

Revenues The Company records utility revenues as service is provided and bills its customers monthly on a cycle billing basis. Accordingly, at the end of each month, the Company accrues for estimated unbilled revenues.

The rates of the Company include base revenues, fuel adjustment charges and the pass through of certain governmental imposed taxes based on revenues. The base revenues are determined by the FPSC and remain constant until a request for an increase in such rates is filed and approved by the FPSC. From the FPSC perspective, the Company operates four distinct "entities", i.e., Marianna electric, Fernandina Beach electric, Fernandina Beach water, and natural gas, consisting of Palm Beach County, Sanford and DeLand. Thus, for the Company to recover through rate relief the effects of inflation for all such "entities", a request for an increase in base revenues would require the filing of four separate rate cases. At the present time, the Company does not have the resources to file more than one rate case per year. However, the FPSC allows for an annual automatic rate increase for water operations through the use of a price index. Fuel adjustment charges are estimated for customer billing purposes and any under/over-recovery difference between the incurred cost of fuel and estimated amounts billed to customers is deferred for future recovery or refund and either charged or credited to customers. Interest accrues on such under/over-recoveries and is included in the subsequent adjustment.

Consolidation The consolidation financial statements include the accounts of the Company and its wholly-owned subsidiary, Flo-Gas Corporation. All significant intercompany balances and transactions have been eliminated.

Certain reclassifications have been made to the prior years' financial statements and other financial information contained herein to conform with the 1994 presentation.

Utility Plant and Depreciation Utility plant is stated at original cost. The costs of additions to utility plant include contracted services, direct labor, materials and allowances for borrowed and equity funds used during construction. The costs of units of prop-

erty retired are removed from utility plant, and such costs plus removal costs, less salvage, are charged to accumulated depreciation. Maintenance and repairs of property and replacement and renewal of items determined to be less than units of property are charged to operating expenses. Substantially all of the utility plant and the shares of Flo-Gas Corporation collateralize the Company's First Mortgage Bonds.

Depreciation is computed using the composite straight-line method at rates prescribed by the FPSC for financial accounting purposes. Such rates are based on estimated service lives of the various classes of property. Depreciation provisions on average depreciable property approximates 4.0% per year.

Income Taxes As of January 1, 1993, the Company adopted Statement of Financial Accounting Standards (SFAS) No. 109, "Accounting for Income Taxes", which requires a change from the deferred method to the liability method of accounting for income taxes. Under the liability method, the tax effect of temporary differences between the financial statement and tax basis of assets and liabilities is reported as deferred taxes measured at currently enacted rates. In accordance with SFAS No. 109, an increase in the net accumulated deferred income tax liability and a corresponding regulatory asset was recognized on the accompanying consolidated balance sheets to give effect to temporary differences for which deferred taxes were not previously required to be provided under APB No. 11. Adoption of this standard had no effect on results of operations. In fiscal 1992, deferred income taxes result from timing differences in the recognition of revenues and expenses for financial statement and income tax reporting purposes, in accordance with Accounting Principles Board Opinion (APB) No. 11, "Accounting for Income Taxes".

The Company provides deferred income taxes on substantially all temporary differences that give rise to the deferred tax assets and liabilities. Investment tax credits have been deferred and are amortized based upon the average useful life of the related property.

Deferred Charges Deferred charges consist principally of unamortized debt issuance expense and early extinguishment premium. Such expenses are being amortized over the lives of the issues to which they pertain.

Notes Payable

The Company has a line of credit agreement with its primary bank providing for a \$15,000,000 loan with interest at LIBOR plus 1/2%. At December 31, 1994 there was a balance outstanding of \$4,000,000. The weighted-average interest rates at December 31, 1994 and 1993 were 6.6% and 4.0%, respectively.

Capitalization

Common Shares Reserved The Company has reserved 45,731 common shares for issuance under the Dividend Reinvestment Plan and 16,992 common shares for issuance under the Employee Stock Purchase Plan.

Financing Transactions During 1992, the Company completed two financing transactions. In June, the Company completed an \$8,000,000 private placement of First Mortgage Bonds, 9.08% series due 2022. The proceeds were used to repay \$8,000,000 of the \$10,300,000 short-term debt outstanding. In July, the Company completed the sale of its common stock offering of 287,500 shares at \$20.875 per share. The net proceeds, before deduction of expenses of approximately \$69,000, were \$5,642,000. The proceeds were used to repay the remaining \$2,300,000 short-term debt outstanding and the balance was used for utility plant construction.

Dividend Restriction The Indenture of Mortgage and Deed of Trust and supplements thereto provide for restriction of payment of cash dividends. At December 31, 1994 approximately \$2,800,000 of retained earnings were free of such restriction.

Maturities of Long-Term Debt Sinking fund payments are scheduled to begin in 2008.

Rate Matters

On September 23, 1994, the Company filed a request with the FPSC for an increase in annual nat-

ural gas revenues of \$2,079,000 and requested that the interim rates be put into effect pending final action on the permanent increase. In December 1994, the FPSC granted an interim rate increase of \$387,000. The final order granting a permanent increase is expected in June 1995. The principal reasons for the requested increase in base rates results from increased operating and plant replacement costs, a deteriorated return on the Company's investment and an aggressive marketing plan to attract new customers.

On September 1, 1993, the Company filed a request with the FPSC for an increase of \$858,000 in annual electric revenues in the Marianna Division and requested that the interim rates be put into effect pending final action on the permanent increase. In November 1993, the FPSC granted an interim rate

increase of \$137,000 that was effective November 18, 1993. On January 18, 1994, the FPSC authorized a permanent increase of \$515,000 that became effective February 17, 1994. The principal reason for the final increase being lower than the Company's request was that the FPSC authorized the use of a lower return on common equity capital and approved smaller increases in storm reserve and tree trimming expenses than the Company had requested.

Following FPSC rules for water utilities, the Company in mid-1994 filed for and was granted a price index revenue increase in the Fernandina Beach water division. This increase, approximating \$18,000 on an annual basis, was placed into effect on June 4, 1994. A similar price index filing is planned for 1995.

Segment Information

The Company operates distribution systems providing natural and propane gas service in three locations in central and southern Florida, electric service in two locations in northern Florida and water service in one location in northern Florida. There are no material intersegment sales or transfers.

Operating profit consists of revenues less operating

expenses and does not include other income, interest income, interest expense and income taxes.

Identifiable assets are those assets used in the Company's operations in each business segment. Corporate assets are principally cash and overnight investments, deferred tax assets and common plant.

Business segment information for 1994, 1993 and 1992 is summarized as follows (in thousands):

	Gas	Electric	Water	Common	Consolidated
1994					
Revenues	\$ 24,814	\$ 36,070	\$ 1,516	\$	\$ 62,400
Operating profit	1,966	2,946	378		5,290

FLORIDA PUBLIC UTILITIES

Income Taxes

The provision (credit) for income taxes consists of the following (in thousands):

	1994	1993	1992
Current			
Federal	\$ 1,471	\$ 523	\$ 895
State	192	73	163
	<u>1,663</u>	<u>596</u>	<u>1,058</u>
Deferred			
Federal	(574)	307	71
State	(37)	71	16
	<u>(611)</u>	<u>378</u>	<u>87</u>
Investment tax credits	(109)	(107)	(108)
Total	<u>\$ 943</u>	<u>\$ 867</u>	<u>\$ 1,037</u>

The difference between the effective income tax rate and the statutory federal income tax rate applied to pretax income is accounted for as follows (in thousands):

	1994	1993	1992
Federal income tax at statutory rate	\$ 912	\$ 881	\$ 976
Effect of state income taxes	155	144	179
Investment tax credit	(109)	(107)	(108)
Other	(15)	(51)	(10)
Provision for income taxes	<u>\$ 943</u>	<u>\$ 867</u>	<u>\$ 1,037</u>

The tax effects of temporary differences producing accumulated deferred income tax assets and liabilities in accordance with SFAS No. 109 as reflected in the accompanying consolidated balance sheets are as follows (in thousands):

	1994	1993
Deferred tax assets		
Regulatory asset	\$ 3,546	\$ 4,260
Alternative minimum tax credit	656	320
Other	1,498	294
Total deferred tax assets	<u>\$ 5,700</u>	<u>\$ 4,874</u>
Deferred tax liabilities		
Utility plant related ¹	\$ 12,778	\$ 12,552
Other	476	488
Total deferred tax liabilities	<u>\$ 13,254</u>	<u>\$ 13,040</u>

¹Includes the regulatory liabilities of \$3,012 and \$2,964, respectively.

The provision (credit) for 1992 deferred income taxes, under APB No. 11, consists of the following (in thousands):

Accelerated depreciation	\$ 437
Contributions in aid of construction	(234)
Purchased energy	(142)
Alternative minimum tax	69
Other	(43)
Total	<u>\$ 87</u>

Employee Benefit Plans

Pension Plan The Company has a noncontributory defined benefit pension plan covering substantially all its employees. The benefits are based on the employee's credited service and average compensation, generally during the last five years before retirement. The Company's policy is to fund pension costs in accordance with contribution guidelines established by The Employee Retirement Income Security Act of 1974.

The components of net pension income are as follows (in thousands):

	1994	1993	1992
Service cost	\$ 473	\$ 445	\$ 401
Interest cost	791	728	686
Actual return on assets	(230)	(2,791)	(1,888)
Net amortization and deferral	(1,184)	1,519	758
Net periodic pension income	<u>\$ (150)</u>	<u>\$ (99)</u>	<u>\$ (43)</u>
Actuarial assumptions:			
Discount rate	7%	7%	7%
Rate of increase in future compensation levels	5½%	5½%	5½%
Expected long-term rate of return on assets	8%	8%	8%

The Plan's funded status of the plan at December 31, 1994 and 1993, is as follows (in thousands):

	1994	1993
Actuarial present value of benefit obligations:		
Vested benefit obligation	\$ (9,098)	\$ (8,534)
Accumulated benefit obligation	<u>\$ (9,602)</u>	<u>\$ (9,158)</u>
Projected benefit obligation	<u>\$ (12,206)</u>	<u>\$ (11,495)</u>
Plan assets at fair value	18,060	19,052
Plan assets in excess of projected benefit obligation	5,854	7,557
Unrecognized net gain	(4,836)	(6,581)
Unrecognized prior service cost	699	774
Unrecognized net asset at January 1, 1986 being recognized over 15 years	(1,100)	(1,283)
Prepaid pension cost	<u>\$ 617</u>	<u>\$ 467</u>

Health Plan The Company is principally self-insured for its employee and retiree medical insurance plan. The Company's health care liability under the plan is limited to \$60,000 per individual per year, with a maximum total liability currently approximating \$1,000,000.

A reserve for future benefit payments for active employees is maintained at a level sufficient to provide for estimated outstanding claims under the plan net of amounts contributed by employees. Net health care benefits paid by the Company for active employees were approximately \$622,000, \$548,000 and \$294,000 for 1994, 1993 and 1992, respectively.

Other Postretirement Benefits As of January 1, 1993, the Company adopted SFAS No. 106, "Employers Accounting for Postretirement Benefits Other Than Pensions". The Statement requires accrual of postretirement benefits during the years an employee provides services. The Company provides postretirement health care benefits for certain retired employees and their eligible dependents and reduced postretirement life insurance benefits for retired employees. The accumulated health care postretirement benefit obligation (transition obligation) under SFAS No. 106 is being amortized over 20 years beginning 1993. The Company estimates that it recovered approximately 53% from its customers through rates in 1994 and expects to recover about 89% in 1995. The Company is not accruing for reduced postretirement life insurance benefits as the cost to the Company is offset by employee contributions.

The components of postretirement benefit costs are as follows (in thousands):

	<u>1994</u>	<u>1993</u>
Service cost	\$ 65	\$ 46
Interest cost	80	58
Amortization of transition obligation	43	43
Return on plan assets	0	0
Net amortization and deferral	<u>6</u>	<u>—</u>
Periodic postretirement benefit cost	<u>\$ 194</u>	<u>\$ 147</u>

The Plan's funded status at December 31, 1994 and 1993, is as follows (in thousands):

	<u>1994</u>	<u>1993</u>
Accumulated postretirement benefit obligation (APBO):		
Retirees	\$ (448)	\$ (331)
Fully eligible active plan participants	(48)	(42)
Other active plan participants	(761)	(523)
Total APBO	<u>(1,257)</u>	<u>(896)</u>
Plan assets	<u>0</u>	<u>0</u>
APBO less than plan assets	(1,257)	(896)
Unamortized transition obligation	772	815
Unrecognized (gain) loss	236	(39)
Unrecognized prior service cost	<u>0</u>	<u>0</u>
Accrued post benefit obligation	<u>\$ (249)</u>	<u>\$ (120)</u>

The measurement of the APBO assumes a 7% discount rate in 1994 and 1993 and a health care cost trend rate of 10.4% in 1995 decreasing to 5.5% by the year 2007 and beyond. A one-percentage point increase in the assumed health care cost trend rate would increase the APBO by approximately 15% and the periodic cost by about 13%.

Employee Stock Purchase Plan The Company's Employee Stock Purchase Plan offers common stock at a discount to qualified employees. During 1994, 1993 and 1992, 5,062, 5,099 and 5,215 shares, respectively, were issued under the Plan for aggregate consideration of \$81,000, \$93,000 and \$94,000, respectively.

Contingencies

The Company is subject to federal and state legislation with respect to soil, groundwater and employee health and safety matters and to environmental regulations issued by the Florida Department of Environmental Protection (FDEP), the United States Environmental Protection Agency and other federal and state agencies. Except as discussed below, the Company does not expect to incur material future expenditures for compliance with existing environmental laws and regulations.

West Palm Beach Site The Company is currently conducting a contamination assessment investigation of a parcel of property owned by it in West Palm Beach, Florida. After a preliminary contamination assessment investigation indicated soil and groundwater impacts,

the Company entered into a consent order with the FDEP. The consent order requires the Company to delineate the extent of soil and groundwater impacts associated with the prior operation of a gasification plant on the property and requires the Company to remediate any soil and groundwater impacts, if necessary. In June 1992, the FDEP approved the Company's proposed contamination assessment plan and the Company commenced the contamination assessment investigation. Following FDEP approval of a revised scope of work, additional contamination assessment activities were initiated in January 1995. Since the contamination assessment investigation has not yet been completed, it is not possible to determine the complete extent or cost of remedial action, if any, which may be required. However, preliminary estimates from the Company's environmental consultant suggest that total contamination assessment and remedial costs for this site may reach approximately \$3,250,000. Until the contamination assessment investigation is completed, it is not possible at this time to determine when and how much of such costs the Company will have to pay. A portion of the on-site impacts on the site have been determined to be eligible for reimbursement from a state fund and the FDEP has determined that a portion of the work conducted off-site is eligible for reimbursement under state law. Due to the rate relief granted to the Company for environmental costs and insurance settlement proceeds for environmental costs received by the Company which are being held in escrow, as well as the potential for reimbursement from the state for a portion of the assessment and remediation, the Company believes that it will not incur material future expenditures to achieve compliance for this site with existing environmental laws and regulations.

Sanford Site The Company owns a parcel of property located in Sanford, Florida. Prior to the Company's acquisition of this property, it had been the site of a gasification plant. The FDEP issued a Warning Notice to the Company which required the Company to conduct a contamination assessment investigation of the property. A preliminary investigation revealed that soil was impacted throughout the center of the property.

In 1992, the Company brought suit in federal court in Orlando against former owners and operators of the gasification plant to seek recovery of the Company's compliance costs at this property. The Company has entered into a cost sharing agreement with four former

owners/operators of the gasification plant. Under this agreement, the parties agreed to share equally in the cost of the contamination assessment investigation of the property. The Company dismissed the cost recovery action in February 1995.

The initial contamination assessment investigation was completed and a Contamination Assessment Report (CAR) was delivered to FDEP on February 4, 1994. Until completion of FDEP's review of the CAR, it is not possible to determine the complete extent or cost of remedial action, if any, which may be required. However, preliminary estimates from the Company's environmental consultant suggest that total contamination assessment and remedial costs for the site may reach approximately \$2,750,000. Pending completion of the FDEP's review of the report, it is not possible to determine when and how much of such costs the Company will have to pay. Due to the rate relief granted to the Company for environmental costs and insurance settlement proceeds for environmental costs received by the Company which are being held in escrow, as well as the potential for recovery of a portion of the assessment and remediation costs from several former owners/operators of the gasification plant, the Company believes that it will not incur material future expenditures to achieve compliance for this site with existing environmental laws and regulations.

Pensacola Site The FDEP notified the Company and other alleged responsible parties to conduct additional soil and groundwater sampling to determine the extent of soil and groundwater impacts at a property previously the site of a gasification plant in Pensacola, Florida. The Company was a former owner/operator of the gasification plant for several years. The Company and other alleged responsible parties have agreed to share equally the costs of such an investigation.

A contamination assessment report (CAR) describing the results of the contamination assessment investigations was delivered to FDEP in January 1994. With the exception of security fencing, the CAR recommended no further action at this site. After its review of the CAR in November 1994, the FDEP notified the Company and other alleged responsible parties that additional soil and groundwater sampling was necessary at this site. Until completion of such additional investigation, it is not possible to determine the complete extent of remedial action, if any, which may be

required. However, preliminary estimates from the Company's environmental consultant suggest that total contamination assessment and remedial costs for this site may reach approximately \$1,400,000. Until the contamination assessment investigation is completed, it is not possible to determine when and how much of such costs the Company will have to pay. Due to the rate relief granted to the Company for environmental costs and insurance settlement proceeds for environmental costs received by the Company which are being held in escrow, as well as the potential for recovery of a portion of the assessment and remediation costs from several current and former owners/operators of the site, the Company believes that it will not incur material future expenditures to achieve compliance for this site with existing environmental laws and regulations.

Georgia Transformer Site In October 1994, the Environmental Protection Agency (EPA) issued a Notice of Potential Liability to the Company in which the EPA identified the Company as a potentially responsible party (PRP) in connection with a site in Georgia where the Company was alleged to have sent transformers for repair. In the notice, the EPA demanded that PRPs for the site reimburse the EPA for response costs that it had incurred through August 1994 in connection with soil remediation efforts.

The Company, along with the PRPs, has entered into settlement negotiations with the EPA. Until negotiations with the EPA are completed, it is not possible to determine the Company's share of the response costs incurred by the EPA through August 1994. Since the EPA and the State of Georgia are currently evaluating whether additional contamination assessment and remedial action may be required at this site, it is not possible to determine the nature and extent of soil or groundwater impacts on the site, nor is it possible to determine the extent or cost of additional remedial action which may be required. Based on the Company's volumetric share of materials sent to the site, the Company believes that it will not incur significant future expenditures to satisfy its obligations at this site.

Insurance Claims and Rate Relief The Company notified its insurance carriers of environmental impacts detected at each of the former manufactured gas plant (MGP) sites discussed above.

As a result of negotiations with the Company's major insurance carriers that concluded in November 1994, such carriers agreed to pay settlement proceeds totaling approximately \$4,000,000 for certain environmental costs, to be paid to the Company over a period of time ending in December 1995. In addition, the Florida Public Service Commission has allowed the Company to recover through rate relief environmental expenses of approximately \$2,400,000 over a ten-year period at the rate of approximately \$240,000 per year.

Due to the rate relief granted the Company for environmental costs and insurance settlement proceeds for environmental costs received by the Company which are being held in escrow, the Company believes that any future contamination assessment and remedial costs arising from any of these sites will not be material to the Company's operating results or liquidity.

Quarterly Financial Data (Unaudited)

The quarterly financial data presented below reflects the influence of, among other things, seasonal weather conditions, the timing of rate increases and the migration of winter residents and tourists to central and southern Florida during the winter season. (In thousands, except per share amounts).

	First Quarter	Second Quarter	Third Quarter	Fourth Quarter
1994				
Revenues	\$ 17,900	\$ 15,085	\$ 15,571	\$ 13,844
Operating margin	6,471	5,496	5,244	5,952
Operating profit	2,074	1,047	789	1,380
Net income	937	258	103	419
Earnings per share ¹	.65	.18	.07	.29
1993				
Revenues	\$ 17,085	\$ 16,439	\$ 16,923	\$ 16,137
Operating margin	6,147	5,447	5,156	5,861
Operating profit	1,873	1,086	989	1,399
Net income	771	241	247	492
Earnings per share	.54	.17	.17	.34

¹The sum of the quarterly earnings per share amounts does not equal the annual earnings per share amount reflected in the consolidated statement of income due to the effect of changes in average common shares outstanding during the fiscal year.

ELECTRIC PLANT IN SERVICE (Accounts 101, 102, 103, 106)

1. Report below the original cost of electric plant in service according to the prescribed accounts.
 2. In addition to Account 101, Electric Plant in Service (Classified) this page and the nest include Account 102, Electric Plant Purchased or Sold; Account 103, Experimental Gas Plant Unclassified; and Account 106, Completed Construction Not Classified - Electric
 3. Include in column (c) or (d), as appropriate, corrections of additions and retirements for the current or preceding year.
 4. Enclose in parentheses credit adjustments of plant accounts to indicate the negative effect of such accounts.
 5. Classify Account 106 according to prescribed accounts, on an estimated basis if necessary, and include the entries in column (c). Also to be included in column (c) are entries for

reversals of tentative distributions of prior year reported in column (b). Likewise, if the respondent has a significant amount of plant retirements the end of the year, included in column (d) a tentative distribution of such retirements, on an estimated basis, with appropriate contra entry to the account for accumulated depreciation provision. Include also in column (d) reversals of tentative distributions of prior years of unclassified retirements. Attach supplemental statement showing the account distributions of these tentative classifications in columns (c) and (d), including the reversals of the prior years tentative account distributions of these amounts. Careful observance of the above instructions and the texts of accounts 101 and 106 will avoid serious omissions of the reported amount of respondent's plant actually in service at end of year.

ELECTRIC PLANT IN SERVICE (Accounts 101, 102, 103, and 106) (Continued)

6. Show in column (f) reclassifications or transfers within utility plant accounts. Include also in column (f) the additions or reductions of primary account classifications arising from distribution of amounts initially recorded in Account 102. In showing the clearance of Account 102, include in column (e) the amounts with respect to accumulated provision for depreciation, acquisition adjustments, etc., and show in column (f) only the offset to the debits or credits distributed in column (f) to primary account classifications.

7. For Account 399, state the nature and use of plant included in this account and if substantial in amount submit a supplementary statement

showing subaccount classifications of such plant conforming to the requirements of these pages.

8. For each amount comprising the reported balance and changes in Account 102, state the property purchased or sold, name of vendor or purchaser, and the date of transaction. If proposed journal entries have been filed with the Commission as required by the Uniform System of Accounts, give also date of such filing.

CONSTRUCTION WORK IN PROGRESS-ELECTRIC (Account 107)

1. Report below descriptions and balances at end of year of projects in process of construction (107).
 2. Show items relating to "research, development, and demonstration" projects last, under a caption Research, Development, and Demonstration (see Account 107 of the Uniform System of Accounts).
 3. Minor projects (5% of the Balance End of the Year for Account 107 or \$100,000, whichever is less) may be grouped.

Description of Project	Construction Work in Progress-Electric (Account 107)
1 Overhead Line Extension-Richard Carrel-Lawrenceville Road- Cottdale	\$27
2 Kelson Avenue System Upgrade-Milton Avenue to College Street	38,375
3 Overhead to Underground Conversion For Russell, Inc.	4,700
4 Line Relocation and Extension-Cottdale Elementary School	218
5 Purchase Two DR-87 Demand Recorders-Two Demand Meters and Meterbases-Blountstown Substation	2,703
6 Extension to Serve Mobile Home For Steve Mayo	114
7 Underground Line Extension-Spring Chase Subdivision	2,019
9 Replace 69KV With 64KV Arresters at J.L. Terry Substation	12,640
10 Sea Chase-Phase 1-URD-Off Amelia Island Parkway	6,451
11 Purchase AutoCad System For Fernandina Beach Engineering	31,457
12 Reconductor Clinch Drive Feeder	28,917
13 Replace Underground Duct Bank at AIP Substation	1,318
14 Provide Underground Service To City Recreation Complex-South Eleventh And Beech Streets	1,047
15 Purchase One 10MVA Transformer For Jesse L. Terry Substation	67,344
16 Replace 138KV Transmission Poles and Wire	102,068
17 Provide Underground Electric Service to Egans Landing	1,128

1. List in column (a) the kinds of overheads according to titles used by the respondent. Charges for outside professional services for engineering fees and management or supervision fees capitalized should be shown as separate items.
2. On page 218 furnish information concerning construction overheads.
3. A respondent should not report "none" to this page if no overhead apportionments are made, but rather should explain on page 218 the accounting procedures employed

- and the amounts of engineering, supervision and administrative costs, etc., which are directly charged to construction.
4. Enter on this page engineering, supervision, and allowance for funds used during construction, etc., which are first assigned to a blanket work order and then prorated to construction jobs.

	Description of Overhead	Total Amount Charged for the Year

GENERAL DESCRIPTION OF CONSTRUCTION OVERHEAD PROCEDURE

1. For each construction overhead explain: (a) the nature and extent of work, etc., the overhead charges are intended to cover, (b) the general procedure for determining the amount capitalized, (c) the method of distribution to construction jobs, (d) whether different rates are applied to different types of construction, (e) basis of differentiation in rates for different types of construction, and (f) whether the overhead is directly or indirectly assigned.

2. Show below the computation of allowance for funds used during construction rates, in accordance with the provisions of Electric Plant instructions 3 (17) of the U.S. of A.
3. Where a net-of-tax rate for borrowed funds is used, show the appropriate tax effect adjustment to the computations below in a manner that clearly indicates the amount of reduction in the gross rate for tax effects.

Administrative and general overheads are intended to cover that portion of administrative and general expenses determined as applicable to construction. Overheads are distributed to construction jobs on the basis of direct labor costs incurred. Engineering and superintendence treated as overheads include only such portion as are not directly chargeable to specific construction jobs. All supervision costs which are directly applicable are charged to construction.

Allowance for Funds Used During Construction is applied at the rate of 8.67% per annum, except in the Marianna division which is 8.20% per annum. In electric and gas it includes projects that involve gross additions in excess of \$25,000 and are expected to be completed in excess of one year after commencement of construction. Water includes projects that involve gross additions to plant in excess of \$5,000 and are expected to be completed in excess of 60 days after commencement. (See attached schedule for methods used to determine Allowance for Funds Used During construction.)

Payroll taxes, pensions, group insurance and workmen's compensation insurance are all directly applied to all company labor charged to construction. The rates are revised monthly, based upon cost. Only the workmen's compensation insurance rate varies with the type of construction -- electric, gas or water -- with the basis being the cost of insurance as determined by utility experience rates.

COMPUTATION OF ALLOWANCE FOR FUNDS USED DURING CONSTRUCTION RATES

For line 1(5), column (d) below, enter the rate granted in the last rate proceeding. If such is not available, use the average rate earned during the preceding three years.

1. Components of Formula (Derived from actual book balances and actual cost rates):

Line No.	Title (a)	Amount (b)	Capitalization Ratio (Percent) (c)	Cost Rate Percentage (d)
(1)	Average Short-Term Debt	S		
(2)	Short-Term Interest			s
(3)	Long-Term Debt	D		d
(4)	Preferred Stock	P		p
(5)	Common Equity	C		c
(6)	Total Capitalization			
(7)	Average Construction Work in Progress Balance	W	100%	

2. Gross Rate for Borrowed Fund

$$\frac{S}{W} + \frac{D}{D+P+C} (1 - \frac{s}{W})$$

NOTE: Average short-term debt exceeds average construction work in progress.

3. Rate for Other Funds

$$\frac{P}{W} + \frac{C}{D+P+C} [1 - \frac{p}{W} + \frac{c}{D+P+C}]$$

4. Weighted Average Rate Actually Used for the Year:
 a. Rate for Borrowed Funds - SEE ATTACHED SCHEDULE
 b. Rate for Other Funds -

**FLORIDA PUBLIC UTILITIES COMPANY
ALLOWANCE FOR FUNDS USED DURING CONSTRUCTION
FOR YEAR ENDING DECEMBER 31, 1994**

In order to be in compliance with the Florida Public Service Commission procedure on Allowan for Funds Used During Construction, Order No. 6640 dated April 28, 1975, the following metho of allocation was used:

Source of Capital	12/31/77 **		Cost	Rate (%)
	Amount	Ratio		
Common Equity	\$7,265,711	0.3440	14.50	4.988%
Preferred Equity	1,123,700	0.0532	4.81	0.256%
Long-Term Debt	9,108,000	0.4312	7.26	3.131%
Customer Deposits	1,045,484	0.0495	6.00	0.297%
Unclaimed Deposits	40,679	0.0019		
Deferred Income Tax	2,409,158	0.1141		
Investment Tax Credit	128,611	0.0061		
Total	\$21,121,343	1.0000		8.672%
Rounded				8.67%
Equity Portion	(Account 419.1)			5.24
Debt Portion	(Account 432)			3.43

Effective October 1, 1978, in the Marianna Division only, the following was used:

Source of Capital	Amount	Ratio	Cost	Rate (%)
Common Equity	\$6,584,987	0.3402	13.25	4.51%
Preferred Equity	1,123,700	0.0581	4.84	0.28%
Long-Term Debt	9,108,000	0.4706	7.24	3.41%
Deferred Income Tax	2,409,158	0.1245		
Investment Tax Credit	128,611	0.0066		
Total	\$19,354,456	1.0000		8.20%

***The difference between the 12/31/77 and the 12/31/94 Sources of Capital were not material enough to merit a change in the AFUDC rates between 1978 and 1994.

USR -- 4 (f) --

ACCUMULATED PROVISION FOR DEPRECIATION OF ELECTRIC UTILITY PLANT (Account 108)

1. Explain in a footnote any important adjustments during year. the respondent has a significant amount of plant retired at year end which has not been recorded and/or classified
2. Explain in a footnote any difference between the amount for book cost of plant retired, line 11, column (c), and that reported for electric plant in service, pages 204-207, column (d), excluding retirements of non-depreciable property. to the various reserve functional classifications, make preliminary closing entries to tentatively functionalize the book cost of the plant retired. In addition, include all costs included in retirement work in progress at year end in the appropriate functional classifications.
3. The provisions of Account 108 in the Uniform System of Accounts require that retirements of depreciable plant be recorded when such plant is removed from service. If
4. Show separately interest credits under a sinking fund or similar method of depreciation accounting.

INVESTMENTS IN SUBSIDIARY COMPANIES (Account 123.1) (Continued)

4. For any securities, notes, or accounts that were pledged, designate such securities, notes, or accounts in a footnote, and state the name of pledgee and purpose of the pledge.
 5. If commission approval was required for any advance made or security acquired, designate such fact in a footnote and give name of Commission, date of authorization, and case or docket number.
 6. Report column (f) interest and dividend revenues from investments, including such revenues from securities disposed of during the year.

7. In column (h) report for each investment disposed of during the year, the gain or loss represented by the difference between the cost of the investment (or the other amount at which carried in the books of account if different from cost) and the selling price thereof, not including interest adjustment includable in column (f).
 8. Report on Line 23, column (a) the total cost of Account 123.1.

Equity in Subsidiary Earnings for Year (e)	Revenues for Year (f)	Amount of Investment at End of Year (g)	Gain or Loss from Investment Disposed of (h)

MATERIALS AND SUPPLIES

1. For Account 154, report the amount of plant materials and operating supplies under the primary functional classifications as indicated in column (a); estimates of amounts by function are acceptable. In column (d), designate the department or departments which use the class of material.
 2. Give an explanation of important inventory adjustments during year (on a supplemental page) showing general classes of material and supplies and the various accounts (operating expense, clearing accounts, plant, etc.) affected - debited or credited. Show separately debits or credits to stores expense-clearing, if applicable.

Line No.	Account (a)	Balance Beginning of Year (b)	Balance End of Year (c)	Department or Departments Which Use Material (d)

RECONCILIATION OF REPORTED NET INCOME WITH TAXABLE INCOME
FOR FEDERAL INCOME TAXES

1. Report the reconciliation of reported net income for the year with taxable income used in computing Federal income tax accruals and show computation of such tax accruals. Include in the reconciliation, as far as practicable, the same detail as furnished on Schedule M-1 of the tax return for the year. Submit a reconciliation even though there is no taxable income for the year. Indicate clearly the nature of each reconciling amount.

2. If the utility is a member of a group which files a consolidated Federal tax return, reconcile reported net income with taxable net income as if a separate return were to be filed, indicating, however, intercompany amounts to be eliminated in such a consolidated return. State names of group members, tax assigned to each group member, and basis of allocation, assignment, or sharing of the consolidated tax among the group members.

3. A substitute page, designed to meet a particular need of a company, may be used as long as the data is consistent and meets the requirements of the above instructions.

TAXES ACCRUED, PREPAID AND CHARGED DURING YEAR

1. Give particulars (details) of the combined prepaid and accrued tax accounts and show the total taxes charged to operations and other accounts during the year. Do not include gasoline and other sales taxes which have been charged. If the actual or estimated amounts of such taxes are known, show the amounts in a footnote and designate whether estimated or actual amounts.

2. Include on this page, taxes paid during the year and charged direct to final accounts, (not charged to prepaid

accrued taxes). Enter the amounts in both columns (d) and (e). The balancing of this page is not affected by inclusion of these taxes.

3. Include in column (d) taxes charged during the year, taxes charged to operations and other accounts through (a) accruals credited to taxes accrued, (b) amounts credited to proportions of prepaid taxes chargeable to current year, and (c) taxes paid and charged direct to operations or accounts other than accrued and prepaid tax accounts.

4. List the aggregate of each kind of tax in such manner

TAXES ACCRUED, PREPAID AND CHARGED DURING YEAR (Continued)

that the total tax for each State and subdivision can readily be ascertained.

5. If any tax (exclude Federal and State income taxes) covers more than one year, show the required information separately for each tax year, identifying the year in column (a).

6. Enter all adjustments of the accrued and prepaid tax accounts in column (f) and explain each adjustment in a footnote. Designate debit adjustments by parentheses.

7. Do not include on this page entries with respect to deferred income taxes or taxes collected through payroll

deductions or otherwise pending transmittal of such taxes to the taxing authority.

8. Show in columns (i) through (p) how taxed accounts were distributed. Show both the utility department and number of account charged. For taxes charged to utility plant, show the number of the appropriate balance sheet plant account or subaccount.

9. For any apportioned to more than one utility department or account, state in a footnote the basis (necessity) of apportioning such tax.

ELECTRIC OPERATING REVENUES (Account 400)

1. Report below operating revenues for each prescribed account, and manufactured gas revenues in total.
 2. Report number of customers, columns (f) and (g), on the basis of meters, in addition to the number of flat rate accounts; except that where separate meter readings are added for billing purposes, one customer

counted for each group of meters added. The average number of customers means the average of twelve figures at the close of each month.
 at the close of each month.
 derived from previously reported figures, explain any inconsistencies in a footnote.

Line No.	Title of Account (a)	OPERATING REVENUES	
		Amount for Year (b)	Amount for Previous Year (c)
1	Sales of Electricity		
2	(440) Residential Sales	\$16,983,554	\$17,503,909
3	(442) Commercial and Industrial Sales

27	TOTAL Electric Operating Revenues	\$36,070,325	\$38,307,286

ELECTRIC OPERATING REVENUES (Account 400) (Continued)

4. Commercial and Industrial Sales, Account 442, may be classified according to the basis of classification (Small or Commercial, and Large or Industrial) regularly used by the respondent if such basis of classification is not generally greater than 1000 kw of demand. (See Account 442 of the Uniform System of Accounts. Explain basis of classification in a footnote.)

5. See page 108, Important Changes During Year, for important new territory added and important rate increases or decreases.
 6. For lines 2, 4, 5, and 6, see page 304 for amounts relating to unbilled revenues by accounts.
 7. Include unmetered sales. Provide details of such sales in a footnote.

MEGAWATT HOURS SOLD		AVERAGE NUMBER OF CUSTOMERS PER MONTH			Line No.

SALES OF ELECTRICITY BY RATE SCHEDULES

1. Report below for each rate schedule in effect during the year the KWH of electricity sold, revenue, average number of customers, average KWH per customer, and average revenue per KWH, excluding data for Sales for Resale which is reported on pages 310-311.
2. Provide a subheading and total for each prescribed operating revenue account in the sequence followed in "Electric Operating Revenues," page 301. If the sales under any rate schedule are classified in more than one revenue account, list the rate schedule and sales data under each applicable revenue account subheading.
3. Where the same customers are served under more than one

- rate schedule in the same revenues account classification (such as a general residential schedule and an off peak water heating schedule), the entries in column (d) for the special schedule should denote the duplication in number of reported customers.
4. The average number of customers should be the number of bills rendered during the year divided by the number of billing periods during the (12 if all billings are made monthly).
5. For any rate schedule having a fuel adjustment clause state in a footnote the estimated additional revenue billed pursuant thereto.
6. Report amount of unbilled revenue as of end of year for each applicable revenue account subheading.

168	TOTAL Electric Operation and Maintenance Expenses	30,495,519	32,624,262

NUMBER OF ELECTRIC DEPARTMENT EMPLOYEES

1. The data on number of employees should be reported for the payroll period ending nearest to October 31, or any payroll period ending 60 days before or after October 31.
2. If the respondent's payroll for the reporting period includes any special construction personnel, include such employees on line 3, and show the number of such special construction employees in a footnote.
3. The number of employees assignable to the electric department from joint functions of combination utilities may be determined by estimate, on the basis of employee equivalents. Show the estimated number of equivalent employees attributed to the electric department from joint functions.

1	Payroll Period Ended (Date)	10/31/94
2	Total Regular Full-Time Employees (Equivalent Employees from joint functions -7)	68
3	Total Part-Time and Temporary Employees	0
4	Total Employees	68

PURCHASED POWER (Account 555) (Continued)
(Including power exchanges)

OS-for other service. Use this category only for those services which cannot be placed in the above-defined categories, such as all nonfirm service regardless of the length of the contract and service from designated units of less than one year. Describe the nature of the service in a footnote.

AD-for out-of-period adjustment. Use this code for any accounting adjustments or "true-ups" for service provided in prior reporting years. Provide an explanation in a footnote for each adjustment.

- 4. In column(c), identify the FERC Rate Schedule Number or Tariff, or, for non-FERC jurisdictional sellers, include an appropriate designation for the contract. On separate lines, list all FERC rate schedules, tariffs or contract designations under which service, as identified in column(b), is provided.
- 5. For requirements RQ purchases and any type of service involving demand charges imposed on a monthly (or longer) basis, enter the monthly average billing demand in column(d), the average monthly non-coincident peak(NCP) demand in column(e), and the average monthly coincident peak(CP) demand in column(f). For all other types of service, enter NA in columns(d),(e) and (f). Monthly NCP demand is the maximum metered hourly (60-minute integration) demand in a month. Monthly CP Demand is the metered demand during the hour (60-minute integration) in which the supplier's system reaches its monthly peak. Demand reported in columns

- (e) and (f) must be in megawatts. Footnote any demand not stated on a megawatt basis and explain.
- 6. Report in column(g) the megawatt hours shown on bills rendered to the respondent. Report in columns(h) and (i) the megawatt hours of power exchanges received and delivered, used as the basis for settlement. Do not report net exchange.
- 7. Report demand charges in column(j), energy charges in column(k), and the total of any other types of charges including out-of-period adjustments, in column(l). Explain in a footnote all components of the amount shown in column(l). Report in column(m) the total charge shown on bills received as settlement by the respondent. For power exchanges, report in column(m) the settlement amount for the net receipt of energy. If more energy was delivered than received, enter a negative amount. If the settlement amount(1) includes credits or charges other than incremental generation expenses, or (2) excludes certain credits or charges covered by the agreement, provide an explanatory footnote.
- 8. The data in columns(g) through (m) must be totaled on the last line of the schedule. The total amount in column(g) must be reported as Purchases on page 401, line 10. The total amount in column(h) must be reported as Exchange Received on page 401, line 12. The total amount in column(i) must be reported as Exchange Delivered on page 401, line 13.
- 9. Footnote entries as required and provide explanations following all required data.

DEPRECIATION AND AMORTIZATION OF ELECTRIC PLANT (Accounts 403, 404, 405)
(Except amortization of acquisition adjustments)

1. Report in Section A for the year the amounts for:
(a) Depreciation Expense (Account 403); (b) Amortization of Limited-Term Electric Plant (Account 404); and (c) Amortization of Other Electric Plant (Account 405).
2. Report in section B the rates used to compute amortization charges for electric plant (Accounts 404 and 405). State the basis used to compute the charges and whether any changes have been made in the basis or rates used from the preceding report year.
3. Report all available information called for in section C every fifth year beginning with report year 1971, reporting annually only changes to columns (c) through (g) from the complete report of the preceding year.

Unless composite depreciation accounting for total depreciable plant is followed, list numerically in column (a) each plant subaccount, account or functional classification, as appropriate, to which a rate is applied. Identify at the bottom of section C the type of plant included in any subaccounts used.

In column (b) report all depreciable plant balances to which rates are applied showing subtotals by functional

classifications and showing a composite total. Indicate at the bottom of section C the manner in which column (b) balances are obtained. If average balances, state the method of averaging used.

For columns (c), (d), and (e) report available information for each plant subaccount, account or functional classification listed in column (a). If plant mortality studies are prepared to assist in estimating average service lives, show in column (f) the type mortality curve selected as most appropriate for the account and in column (g), if available, the weighted average remaining life of surviving plant.

If composite depreciation accounting is used, report available information called for in columns (b) through (g) on this basis.

4. If provisions for depreciation were made during the year in addition to depreciation provided by application of reported rates, state at the bottom of section C the amounts and nature of the provisions and the plant items to which related.

A. Summary of Depreciation and Amortization Charges

PARTICULARS CONCERNING CERTAIN INCOME DEDUCTIONS AND INTEREST CHARGES ACCOUNTS

Report the information specified below, in the order given for the respective income deduction and interest charges accounts. Provide a subheading for each account and total for the account. Additional columns may be added if deemed appropriate with respect to any account.

- (a) Miscellaneous Amortization (Account 425) - Describe the nature of items included in this account, the contra account charged, the total of amortization charged for the year, and the period of amortization.
- (b) Miscellaneous Income Deductions - Report the nature, payee, and amount of other income deductions for the year as required by Accounts 426.1, Donations; 426.2 Life Insurance; 426.3 Penalties; 426.4, Expenditures for Certain Civic, Political and Related Activities; and 426.5, Other Deductions, of the Uniform System of Accounts. Amounts of less than 5% of each account total for the year (or \$1,000, whichever is greater) may be grouped by classes within the above accounts.
- (c) Interest on Debt to Associated Companies (Account 430) - For each associated company to which interest on debt was incurred during the year, indicate the amount and interest rate respectively for (a) advances on notes, (b) advances on open account, (c) notes payable, (d) accounts payable, and (e) other debt, and total interest. Explain the nature of other debt on which interest was incurred during the year.
- (d) Other Interest Expense (Account 431) - Report particulars (Details) including the amount and interest rate for each other interest charges incurred during the year.

REGULATORY COMMISSION EXPENSES

1. Report particulars (details) of regulatory commission expenses incurred during the current year (or incurred in previous years, if being amortized) relating to formal cases before a regulatory body, or cases in which such a body was a party.

2. In columns (b) and (c), indicate whether the expenses were assessed by a regulatory body or were otherwise incurred by the utility.

Line No.	Description (Furnish name of regulatory commission or body, the docket or case number, and a description of the case.) (a)	Assessed by Regulatory Commission (b)	Expenses of Utility (c)	Total Expenses to Date (d)	Deferred in Account 186 at Beginning of Year (e)

DISTRIBUTION OF SALARIES AND WAGES

Report below the distribution of total salaries and wages for the year. Segregate amounts originally charged to clearing accounts to Utility Departments, Construction, Plant Removals, and Other Accounts, and enter such amounts in the appropriate lines and columns provided. In determining this segregation of salaries and wages originally charged to clearing accounts, a method of approximation giving substantially correct results may be used.

COMMON UTILITY PLANT AND EXPENSES

1. Describe the property carried in the utility's accounts as common utility plant and show the book cost of such plant at end of year classified by account as provided by Plant Instruction 13, Common Utility Plant, of the Uniform System of Accounts. Also show the allocation of such plant costs to the respective departments using the common utility plant and explain the basis of allocation used, giving the allocation factors.

2. Furnish the accumulated provisions for depreciation and amortization at end of year, showing the amounts and classifications of such accumulated provisions, and amounts allocated to utility departments using the common utility plant to which such accumulated provisions relate, including explanation of basis of

allocation and factors used.

3. Give for the year the expenses of operation, maintenance rents, depreciation, and amortization for common utility plant classified by accounts as provided by the Uniform System of Accounts. Show the allocation of such expenses to the departments using the common utility plant to which such expenses are related. Explain the basis of allocation used and give the factors of allocation.

4. Give date of approval by the Commission for use of the common utility plant classification and reference to order of the Commission or other authorization.

MONTHLY PEAKS AND OUTPUT

- Report below the information called for pertaining to simultaneous peaks established monthly (in megawatts) and the monthly output (in megawatt-hours) for the combined sources of electric energy of respondent
- Report in column (b) the respondent's maximum MW load as measured by the sum of its coincidental net generation and purchases plus or minus net interchange, minus temporary deliveries (not interchange) of emergency power to another system. Show monthly peak including such emergency deliveries in a footnote and briefly explain the nature of the emergency. There may be cases of commingling of purchases and exchanges and "wheeling," also of direct deliveries by the supplier to customers of the reporting utility wherein segregation of MW demand for determination of peaks as specified by this report may be unavailable. In these cases, report peaks which include the intermingled transactions. Furnish an explanatory note which indicates, among other things, the relative significance of the deviation from basis otherwise applicable. If the individual MW amounts of such totals are needed for billing under separate rate schedules and are estimated, give the amount and basis of estimate.
- State type of monthly peak reading (instantaneous 15, 30, or 60 minutes integrated).
- Monthly output is the sum of respondent's net generation for load and purchases plus or minus net interchange and plus or minus net transmission or wheeling. Total for the year must agree with line 19 above.
- If the respondent has two or more power systems not physically connected, furnish the information called for below for each system.

TRANSMISSION LINE STATISTICS

1. Report information concerning transmission lines, cost of lines, and expenses for year. List each transmission line having nominal voltage of 132 kilovolts or greater. Report transmission lines below voltages in group totals only for each voltage.
 2. Transmission lines include all lines covered by the definition of transmission system plant as given in the Uniform System of Accounts. Do not report substation costs and expenses on this page.
 3. Report data by individual lines for all voltages if so required by a State commission.
 4. Exclude from this page any transmission lines for which plant costs are included in Account 121, Nonutility Property.
 5. Indicate whether the type of supporting structure reported in column (e) is: (1) single pole, wood, or steel; (2) H-frame wood, or steel poles; (3) tower; or (4) underground construction.

If a transmission line has more than one type of supporting structure, indicate the mileage of each type of construction by the use of brackets and extra lines. Minor portions of a transmission line of a different type of construction need not be distinguished from the remainder of the line.
 6. Report in columns (f) and (g) the total pole miles of transmission line. Show in column (f) the pole miles of line on structures the cost of which is reported for the line designated; conversely, show in column (g) the pole miles of line on structures the cost of which is reported for another line. Report pole miles of line on leased or partly owned structures in column (g). In a footnote, explain the basis of such occupancy and state whether expenses with respect to such structures are included in the expenses reported for the line designated.

Line No.	DESIGNATION		VOLTAGE		Type of Supporting Structure (e)	LENGTH		Number of Circuits (h)

TRANSMISSION LINE STATISTICS (Continued)

7. Do not report the same transmission line structure twice. Report lower voltage lines and higher voltage lines as one line. Designate in a footnote if you do not include lower voltage lines with higher voltage lines. If two or more transmission line structures support lines of the same voltage, report the pole miles of the primary structure in column (f) and pole miles of the other line(s) in column (g).
 8. Designate any transmission line or portion thereof for which the respondent is not the sole owner. If such property is leased from another company, give name of lessor, date and terms of lease, and amount of rent for year. For any transmission line other than a leased line, or portion thereof, for which the respondent is not the sole owner but which the respondent operates or

share in the operation of, furnish a succinct statement explaining the arrangement and giving particulars (details) of such matters as percent ownership by respondent in the line, name of co-owner, basis of sharing expenses of the line, and how the expenses borne by the respondent are accounted for, and accounts affected. Specify whether lessor, co-owner, or other party is an associated company.
 9. Designate any transmission line leased to another company and give name of lessee, date and terms of lease, annual rent for year, and how determined. Specify whether lessee is an associated company.
 10. Base the plant cost figures called for in columns (j) to (l) on the book cost at end of year.

SUBSTATIONS

- 1. Report below the information called for concerning substations for the respondent as of the end of the year.
- 2. Substations which serve only one industrial or street railway customer should not be listed below.
- 3. Substations with capacities for less than 10,000 Kva except those serving customers with energy for resale,

- may be grouped according to functional character, but the number of such substations must be shown.
- 4. Indicate in column (b) the functional character of each substation, designating whether transmission or distribution and whether attended or unattended. At end of the page, summarize according to function the capacities reported for the individual stations in column (f).

SUBSTATIONS (Continued)

5. Show in columns (i), (j) and (k) special equipment such as rotary converters, rectifiers, condensers, etc. and auxiliary equipment for increasing capacity.

6. Designate substations or major items of equipment leased from others, jointly owned with others, or operated otherwise than by reason of sole ownership by the respondent. For any substation or equipment operated under lease, give name

of lessor, date and period of lease, and annual rent. For any substation or equipment operated other than reason of sole ownership or lease, give name of co-owner or other party, explain basis of sharing expenses or other accounting between the parties, and state amounts and accounts affected in respondent's books of account. Specify in each case whether lessor, co-owner or other party is an associated company.

ELECTRIC DISTRIBUTION METERS AND LINE TRANSFORMERS

1. Report below the information called for concerning distribution watt-hour meters and line transformers.

2. Include watt-hour demand distribution meters, but not external demand meters.

3. Show in a footnote the number of distribution watt-hour meters or line transformers held by the respondent under lease from others, jointly owned with others, or held otherwise than by reason of sole ownership by the respondent. If 500 or more meters or line transformers are held under a lease, give name of lessor, date and period of lease, and annual rent. If 500 or more meters or line transformers are held other than by reason of sole ownership or lease, give name of co-owner or other party, explain basis of accounting for expenses between the parties, and state amounts and accounts affected in respondent's books of account. Specify in each case whether lessor, co-owner, or other party is an associated company.

Line No.	Item (a)	Number of Watt Hour Meters (b)	Line Transformers

Affiliation of Officers and Directors

COMPANY: Florida Public Utilities Company

For the Year Ended December 31, 1994

For each of the officials named in Part 1 of the Executive Summary, list the principal occupation or business affiliation if other than listed in Part 1 of the Executive Summary and all affiliations or connections with any other business or financial organizations, firms, or partnerships. For purposes of this part, the official will be considered to have an affiliation with any business or financial organization, firm or partnership in which he is an officer, director trustee, partner, or a person exercising similar functions.

Analysis of Diversification Activity
Summary of Affiliated Transfers and Cost Allocations

Company: FLORIDA PUBLIC UTILITIES COMPANY

For the Year Ended December 31, 1994

Grouped by affiliate, list each contract, agreement, or other business transaction exceeding a cumulative amount of \$300 in any one year, entered into between the Respondent and an affiliated business or financial organization, firm, or partnership identifying parties, amounts, dates, and product, asset, or service involved.

- (a) Enter name of affiliate.
- (b) Give description of type of service, or name the product involved.
- (c) Enter contract or agreement effective dates.
- (d) Enter the letter "p" if the service or product is purchased by the Respondent; "s" if the service or product is sold by the Respondent.
- (e) Enter utility account number in which charges are recorded.
- (f) Enter total amount paid, received, or accrued during the year for each type of service or product listed in column (c). Do not net amounts when services are both received and provided.

Name of Affiliate (a)	Type of Service and/or Name of Product (b)	Relevant Contract or Agreement and Effective Date (c)	Total Charge for Year		
			"p" or "s" (d)	Account Number (e)	Dollar Amount (f)
SEE ATTACHED SCHEDULES					

ANALYSIS OF DIVERSIFICATION ACTIVITY REPORT

Currently, we have been providing details of material intercompany transactions on a quarterly basis. Flo-Gas Corporation is a wholly-owned subsidiary of Florida Public Utilities Company and transactions that exceed \$300 annually are numerous. Therefore, the enclosed summaries of Flo-Gas' Income Statement and Balance Sheet should be sufficient to meet the requirements of this report.

- Items relating specifically to Flo-Gas are charged directly.
- Corporate general expenses relating to both companies are allocated using factors previously reviewed by the Florida Public Service Commission during our last rate proceeding in 1990.
- Items that typically create intercompany transactions include payroll, cash payments and receipts, and propane purchases.
- Flo-Gas does not have employees or cash.

Detailed transactions are available at our corporate office. If you require additional information, please let us know.

NOTE: Flo-Gas' Income Statement and Balance Sheet (Supplement Pages 1 thru 3)

STATEMENT OF INCOME FOR THE YEAR

1. Report amounts for Accounts 412 and 413, Revenue and Expenses from Utility Plant Leased to Others, in another utility column (i,k,m,o) in a similar manner to a utility department. Spread the amount(s) over lines 01 thru 20 as appropriate. In clude these amounts in columns (c) and (d) totals.
2. Report amounts in Account 414, Other Utility Operating Income, in the same manner as Accounts 412 and 413 above.
3. Report data for lines 7,9,10 for Natural Gas companies using accounts 404.1, 404.2, 404.3, 407.1 and 407.2
4. Use page 122 for important notes regarding the state-ment of income or any account thereof.
5. Give concise explanations concerning unsettled rate pro-

- ceeding where a contingency exists such that refunds of a material amount may need to be made to the utility's customers or which may result in a material refund to the util-ity with respect to power or gas purchases. State for each year affected the gross revenues or costs to which the contingency relates and the tax effects together with an explanation of the major factors which affect the rights of the utility to retain such revenues or recover amounts paid with respect to power and gas purchases.
6. Give concise explanations concerning significant amounts of any refunds made or received during the year

ELECTRIC PLANT IN SERVICE (Accounts 101, 102, 103, 106)

1. Report below the original cost of electric plant in service according to the prescribed accounts.
2. In addition to Account 101, Electric Plant in Service (Classified) this page and the next include Account 102, Electric Plant Purchased or Sold; Account 103, Experimental Gas Plant Unclassified; and Account 106, Completed Construction Not Classified - Electric
3. Include in column (c) or (d), as appropriate, corrections of additions and retirements for the current or preceding year.
4. Enclose in parentheses credit adjustments of plant accounts to indicate the negative effect of such accounts.
5. Classify Account 106 according to prescribed accounts, on an estimated basis if necessary, and include the entries in column (c). Also to be included in column (c) are entries for

reversals of tentative distributions of prior year reported in column (b). Likewise, if the respondent has a significant amount of plant retirements the end of the year, included in column (d) a tentative distribution of such retirements, on an estimated basis, with appropriate contra entry to the account for accumulated depreciation provision. Include also in column (d) reversals of tentative distributions of prior years of unclassified retirements. Attach supplemental statement showing the account distributions of these tentative classifications in columns (c) and (d), including the reversals of the prior years tentative account distributions of these amounts. Careful observance of the above instructions and the texts of accounts 101 and 106 will avoid serious omissions of the reported amount of respondent's plant actually in service at end of year.

ELECTRIC PLANT IN SERVICE (Accounts 101, 102, 103, and 106) (Continued)

6. Show in column (f) reclassifications or transfers within utility plant accounts. Include also in column (f) the additions or reductions of primary account classifications arising from distribution of amounts initially recorded in Account 102. In showing the clearance of Account 102, include in column (e) the amounts with respect to accumulated provision for depreciation, acquisition adjustments, etc., and show in column (f) only the offset to the debits or credits distributed in column (f) to primary account classifications.

7. For Account 399, state the nature and use of plant included in this account and if substantial in amount submit a supplementary statement

showing subaccount classifications of such plant conforming to the requirements of these pages. 8. For each amount comprising the reported balance and changes in Account 102, state the property purchased or sold, name of vendor or purchaser, and the date of transaction. If proposed journal entries have been filed with the Commission as required by the Uniform System of Accounts, give also date of such filing.

ACCUMULATED PROVISION FOR DEPRECIATION OF ELECTRIC UTILITY PLANT (Account 108)

1. Explain in a footnote any important adjustments during year. the respondent has a significant amount of plant retired at year end which has not been recorded and/or classified
2. Explain in a footnote any difference between the amount for book cost of plant retired, line 11, column (c), and that reported for electric plant in service, pages 204-207, column (d), excluding retirements of non-depreciable property. to the various reserve functional classifications, make preliminary closing entries to tentatively functionalize the book cost of the plant retired. In addition, include all costs included in retirement work in progress at year end in the appropriate functional classifications.
3. The provisions of Account 108 in the Uniform System of Accounts require that retirements of depreciable plant be recorded when such plant is removed from service. If
4. Show separately interest credits under a sinking fund or similar method of depreciation accounting.

ELECTRIC OPERATING REVENUES (Account 400) (Continued)

4. Commercial and Industrial Sales, Account 442, may be classified according to the basis of classification (Small or Commercial, and Large or Industrial) regularly used by the respondent if such basis of classification is not generally greater than 1000 kw of demand. (See Account 442 of the Uniform System of Accounts. Explain basis of classification in a footnote.)

5. See page 108, Important Changes During Year, for important new territory added and important rate increases or decreases.

6. For lines 2,4,5, and 6, see page 304 for amounts relating to unbilled revenues by accounts.

7. Include unmetered sales. Provide details of such sales in a footnote.

NUMBER OF ELECTRIC DEPARTMENT EMPLOYEES

1. The data on number of employees should be reported for the payroll period ending nearest to October 31, or any payroll period ending 60 days before or after October 31.
2. If the respondent's payroll for the reporting period includes any special construction personnel, include such employees on line 3, and show the number of such special construction employees in a footnote.
3. The number of employees assignable to the electric department from joint functions of combination utilities may be determined by estimate, on the basis of employee equivalents. Show the estimated number of equivalent employees attributed to the electric department from joint functions.

1	Payroll Period Ended (Date)	10/31/94
2	Total Regular Full-Time Employees	34
3	Total Part-Time and Temporary Employees	0
4	Total Employees	34

DEPRECIATION AND AMORTIZATION OF ELECTRIC PLANT (Accounts 403, 404, 405)
 (Except amortization of acquisition adjustments)

1. Report in Section A for the year the amounts for:
 (a) Depreciation Expense (Account 403); (b) Amortization of Limited-Term Electric Plant (Account 404); and (c) Amortization of Other Electric Plant (Account 405).
 2. Report in section B the rates used to compute amortization charges for electric plant (Accounts 404 and 405). State the basis used to compute the charges and whether any changes have been made in the basis or rates used from the preceding report year.
 3. Report all available information called for in section C every fifth year beginning with report year 1971, reporting annually only changes to columns (c) through (g) from the complete report of the preceding year.
 Unless composite depreciation accounting for total depreciable plant is followed, list numerically in column (a) each plant subaccount, account or functional classification, as appropriate, to which a rate is applied. Identify at the bottom of section C the type of plant included in any subaccounts used.
 In column (b) report all depreciable plant balances to which rates are applied showing subtotals by functional

classifications and showing a composite total. Indicate at the bottom of section C the manner in which column (b) balances are obtained. If average balances, state the method of averaging used.

For columns (c), (d), and (e) report available information for each plant subaccount, account or functional classification listed in column (a). If plant mortality studies are prepared to assist in estimating average service lives, show in column (f) the type mortality curve selected as most appropriate for the account and in column (g), if available, the weighted average remaining life of surviving plant.

If composite depreciation accounting is used, report available information called for in columns (b) through (g) on this basis.

4. If provisions for depreciation were made during the year in addition to depreciation provided by application of reported rates, state at the bottom of section C the amounts and nature of the provisions and the plant items to which related.

STATEMENT OF INCOME FOR THE YEAR

1. Report amounts for Accounts 412 and 413, Revenue and Expenses from Utility Plant Leased to Others, in another utility column (i,k,m,o) in a similar manner to a utility department. Spread the amount(s) over lines 01 thru 20 as appropriate. Include these amounts in columns (c) and (d) totals.
2. Report amounts in Account 414, Other Utility Operating Income, in the same manner as Accounts 412 and 413 above.
3. Report data for lines 7,9,10 for Natural Gas companies using accounts 404.1, 404.2, 404.3, 407.1 and 407.2
4. Use page 122 for important notes regarding the statement of income or any account thereof.
5. Give concise explanations concerning unsettled rate pro-

- ceeding where a contingency exists such that refunds of a material amount may need to be made to the utility's customers or which may result in a material refund to the utility with respect to power or gas purchases. State for each year affected the gross revenues or costs to which the contingency relates and the tax effects together with an explanation of the major factors which affect the rights of the utility to retain such revenues or recover amounts paid with respect to power and gas purchases.
6. Give concise explanations concerning significant amounts of any refunds made or received during the year

ELECTRIC PLANT IN SERVICE (Accounts 101, 102, 103, 106)

1. Report below the original cost of electric plant in service according to the prescribed accounts.
 2. In addition to Account 101, Electric Plant in Service (Classified) this page and the nest include Account 102, Electric Plant Purchased or Sold; Account 103, Experimental Gas Plant Unclassified; and Account 106, Completed Construction Not Classified - Electric
 3. Include in column (c) or (d), as appropriate, corrections of additions and retirements for the current or preceding year.
 4. Enclose in parentheses credit adjustments of plant accounts to indicate the negative effect of such accounts.
 5. Classify Account 106 according to prescribed accounts, on an estimated basis if necessary, and include the entries in column (c). Also to be included in column (c) are entries for

reversals of tentative distributions of prior year reported in column (b). Likewise, if the respondent has a significant amount of plant retirements the end of the year, included in column (d) a tentative distribution of such retirements, on an estimated basis, with appropriate contra entry to the account for accumulated depreciation provision. Include also in column (d) reversals of tentative distributions of prior years of unclassified retirements. Attach supplemental statement showing the account distributions of these tentative classifications in columns (c) and (d), including the reversals of the prior years tentative account distributions of these amounts. Careful observation of the above instructions and the texts of accounts 101 and 106 will avoid serious omissions of the reported amount of respondent's plant actually in service at end of year.

ELECTRIC PLANT IN SERVICE (Accounts 101, 102, 103, and 106) (Continued)

6. Show in column (f) reclassifications or transfers within utility plant accounts. Include also in column (f) the additions or reductions of primary account classifications arising from distribution of amounts initially recorded in Account 102. In showing the clearance of Account 102, include in column (e) the amounts with respect to accumulated provision for depreciation, acquisition adjustments, etc., and show in column (f) only the offset to the debits or credits distributed in column (f) to primary account classifications.

7. For Account 399, state the nature and use of plant included in this account and if substantial in amount submit a supplementary statement

showing subaccount classifications of such plant conforming to the requirements of these pages.

8. For each amount comprising the reported balance and changes in Account 102, state the property purchased or sold, name of vendor or purchaser, and the date of transaction. If proposed journal entries have been filed with the Commission as required by the Uniform System of Accounts, give also date of such filing.

ACCUMULATED PROVISION FOR DEPRECIATION OF ELECTRIC UTILITY PLANT (Account 108)

1. Explain in a footnote any important adjustments during year. the respondent has a significant amount of plant retired at year end which has not been recorded and/or classified
2. Explain in a footnote any difference between the amount for book cost of plant retired, line 11, column (c), and that reported for electric plant in service, pages 204-207, column (d), excluding retirements of non-depreciable property. to the various reserve functional classifications, make preliminary closing entries to tentatively functionalize the book cost of the plant retired. In addition, include all costs included in retirement work in progress at year end in the appropriate functional classifications.
3. The provisions of Account 108 in the Uniform System of Accounts require that retirements of depreciable plant be recorded when such plant is removed from service. If
4. Show separately interest credits under a sinking fund or similar method of depreciation accounting.

Section A. Balances and Changes During Year

Line No.	Item (a)	Total (c+d+e) (b)	Electric Plant in Service (c)	Electric Plant Held for Future Use (d)	Electric Plant Leased to Others (e)
1.	Balance Beginning of Year	6,570,198	6,570,198		
2.	Depreciation Provisions for Year, Charged to				
3.	(403) Depreciation Expense	779,019	779,019		
4.	(413) Exp. of Elec. Plt. Leas. to Others				
5.	Transportation Expenses-Clearing	59,391	59,391		
6.	Other Clearing Accounts

ELECTRIC OPERATING REVENUES (Account 400)

1. Report below operating revenues for each prescribed account, and manufactured gas revenues in total.
 2. Report number of customers, columns (f) and (g), on the basis of meters, in addition to the number of flat rate accounts; except that where separate meter readings are added for billing purposes, one customer

counted for each group of meters added. The average number of customers means the average of twelve figures at the close of each month.
 at the close of each month.
 derived from previously reported figures, explain any inconsistencies in a footnote.

OPERATING REVENUES

Line No.	Title of Account (a)	Amount for Year (b)	Amount for Previous Year (c)

ELECTRIC OPERATING REVENUES (Account 400) (Continued)

4. Commercial and Industrial Sales, Account 442, may be classified according to the basis of classification (Small or Commercial, and Large or Industrial) regularly used by the respondent if such basis of classification is not generally greater than 1000 kw of demand. (See Account 442 of the Uniform System of Accounts. Explain basis of classification in a footnote.)

5. See page 108, Important Changes During Year, for important new territory added and important rate increases or decreases.

6. For lines 2,4,5, and 6, see page 304 for amounts relating to unbilled revenues by accounts.

7. Include unmetered sales. Provide details of such sales in a footnote.

168 TOTAL Electric Operation and Maintenance Expenses	17,108,290	19,090,824

NUMBER OF ELECTRIC DEPARTMENT EMPLOYEES

- The data on number of employees should be reported for the payroll period ending nearest to October 31, or any payroll period ending 60 days before or after October 31.
- If the respondent's payroll for the reporting period includes any special construction personnel, include such employees on line 3, and show the number of such special construction employees in a footnote.
- The number of employees assignable to the electric department from joint functions of combination utilities may be determined by estimate, on the basis of employee equivalents. Show the estimated number of equivalent employees attributed to the electric department from joint functions.

1	Payroll Period Ended (Date)	10/31/94
2	Total Regular Full-Time Employees (Equivalent Employees from joint functions -7)	34
3	Total Part-Time and Temporary Employees	0
4	Total Employees	34

DEPRECIATION AND AMORTIZATION OF ELECTRIC PLANT (Accounts 403, 404, 405)
 (Except amortization of acquisition adjustments)

1. Report in Section A for the year the amounts for:
 (a) Depreciation Expense (Account 403); (b) Amortization of Limited-Term Electric Plant (Account 404); and (c) Amortization of Other Electric Plant (Account 405).

2. Report in section B the rates used to compute amortization charges for electric plant (Accounts 404 and 405). State the basis used to compute the charges and whether any changes have been made in the basis or rates used from the preceding report year.

3. Report all available information called for in section C every fifth year beginning with report year 1971, reporting annually only changes to columns (c) through (g) from the complete report of the preceding year.

Unless composite depreciation accounting for total depreciable plant is followed, list numerically in column (a) each plant subaccount, account or functional classification, as appropriate, to which a rate is applied. Identify at the bottom of section C the type of plant included in any subaccounts used.

In column (b) report all depreciable plant balances to which rates are applied showing subtotals by functional

classifications and showing a composite total. Indicate at the bottom of section C the manner in which column (b) balances are obtained. If average balances, state the method of averaging used.

For columns (c), (d), and (e) report available information for each plant subaccount, account or functional classification listed in column (a). If plant mortality studies are prepared to assist in estimating average service lives, show in column (f) the type mortality curve selected as most appropriate for the account and in column (g), if available, the weighted average remaining life of surviving plant.

If composite depreciation accounting is used, report available information called for in columns (b) through (g) on this basis.

4. If provisions for depreciation were made during the year in addition to depreciation provided by application of reported rates, state at the bottom of section C the amounts and nature of the provisions and the plant items to which related.

A. Summary of Depreciation and Amortization Charges

Line No.	Functional Classification (a)	Depreciation Expense (Account 403) (b)	Amortization of Limited-Term Electric Plant (Acct. 404) (c)	Amortization of Other Electric Plant (Acct. 405) (d)	Total (e)
1	Intangible Plant				
2	Steam Production Plant				
3	Nuclear Production Plant				
4	Hydraulic Production Plant-Conventional				0
5	Hydraulic Production Plant-Pumped Storage				
6	Other Production Plant				
7	Transmission Plant	109,565			109,565
8	Distribution Plant	625,520			625,520
9	General Plant	43,935			43,935
10	Common Plant-Electric *	22,771			22,771
11	TOTAL	\$801,791	\$0	\$0	\$801,791

B. Basis for Amortization Charges

* Not allocated on pages 114 and 115.
 Not included on page 219, Line 3.

C. Factors Used in Estimating Depreciation Charges

Line No.	Account No. (a)	Depreciable Plant Base (In thousands) (b)	Estimated Avg. Service Life (c)	Net Salvage (Percent) (d)	Applied Depr. Rate(s) (Percent) (e)	Monthly Curve Type (f)	Average Remaining Life (g)
