### ANNUAL REPORT OF E-conormal Regulation

OFFICIAL COPY Disipion of

### **NATURAL GAS UTILITIES**

CITY GAS COMPANY OF FLORIDA A DIVISION OF NUI CORPORATION

(EXACT NAME OF RESPONDENT)

955 E. 25th ST., HIALEAH, FL 33013 - 3498

(ADDRESS OF RESPONDENT)

TO THE

FLORIDA PUBLIC SERVICE COMMISION

FOR THE

YEAR ENDED DECEMBER 31, 2003

Officer or other person to whom correspondence should be addressed concerning this report:

Name: Carolyn Bermudez Title: Accounting Manager

Address: 955 E. 25th Street City: Hialeah State: FL

Telephone No. (305) 691-8710 x 5920 PSC/ECR 020-G (10/03)

### INSTRUCTIONS FOR FILING THE ANNUAL REPORT OF NATURAL GAS UTILITIES

### GENERAL INSTRUCTIONS

- Prepare this report in conformity with the Uniform System of Accounts (18 CFR 201) (U.S. of A.).
   Interpret all accounting words and phrases in accordance with the U.S. of A.
- Enter in whole numbers (dollars or Mcf) only, except where otherwise noted. (Enter cents for averages and figures per unit where cents are important.) The truncating of cents is allowed except on the four basic financial statements where rounding to dollars is required. The amounts shown on all supporting pages must agree with the amounts entered on the statements that they support. When applying thresholds to determine significance for reporting purposes, use for balance sheet accounts the balances at the end of the current reporting year; and use for statement of income accounts the current year's amounts.
- III. Complete each question fully and accurately, even if it has been answered in a previous annual report. Enter the word "None" where it truly and completely states the fact.
- IV. For any page that is not applicable to the respondent, enter the words "Not Applicable" on the particular page.
- V. Provide a supplemental statement further explaining accounts or pages as necessary. Attach the supplemental statement to the page being supplemented on 8 1/2 by 11 inch paper. Provide the appropriate identification information on the supplemental page, including the title of the page and the page number. Do not change the page numbers.
- VI. Do not make references to reports of previous years or to other reports in flew of required entries, except as specifically authorized.
- VII. Wherever schedule pages refer to figures from a previous year, the figures reported must be based upon those shown by the annual report of the previous year, or an appropriate explanation given as to why different figures were used.
- Viii. Report all gas volumes on a pressure base of 14.73 psia and a temperature base of 60° F.

### DEFINITIONS

- I. Btu per cubic foot The total heating value expressed in Btu, produced by the combustion, at constant pressure; of the amount of the gas which would occupy a volume of 1 cubic foot at a temperature of 60° F if saturated with water vapor and under a pressure equivalent to that of 30 inches of mercury at 32° F and under standard gravitational force (980 665 cm per sec. 3) with air of the same temperature and pressure as the gas, when the products of combustion are cooled to the initial temperature of gas and air when the water formed by combustion is condensed to the liquid state. (Sometimes called gross heating value or total heating value.)
- II. Respondent The person, corporation, licensee, agency, authority, or other legal entity or instrumentality in whose behalf the report is made.

### **SECURITY HOLDERS AND VOTING POWERS**

1. Give the names and addresses of the 10 security holders of the respondents who, at the date of the latest closing of the stock book or compilation of the list of stockholders of the respondent, prior to the end of the year, had the highest voting powers in the respondent, and state the number of votes which each would have had the right to cast on that date if a meeting were in order. If any such holder held in trust, give in a footnote the known particulars of the trust (whether voting trust, etc.) duration of the trust, and principal holders of beneficiary interests in the trust. If the stock book was not closed or a list of stockholders was not complied within one year prior to the end of the year, or if since the previous compilation of a list of stockholders, some other class of security has become vested with voting rights, then show such 10 security holders as of the close of the year. Arrange the names of the security holders in the order of voting power, commencing with the highest. Show in column (a) the titles of officers and directors included in such list of 10 security holders.

2. If any security other than stock carries voting rights, explain in a sup-

vested with voting rights and give others important particulars (details) concerning the voting rights of such security. State whether voting rights are actual or contingent if contingent, describe the contingency.

3. If any class or issue of security has any special privileges in the election of directors; trustees or managers, or in the determination of corporate action by any method, explain briefly in a footnote.

4. Furnish particulars (details) concerning any options, warrants, or rights outstanding at the end of the year for others to purchase securities of the respondent or any securities or other assets owned by the respondent, including prices, expiration dates, and other material information relating to exercise of the options, warrants, or rights. Specify the amount of such securities or assets so entitled to be purchased by any officer, director, associated company, or any of the ten largest security holders.

On October 7, 2003, City Gas received approval from the Florida Public Service Commission (FPSC) to increase its base rates by \$2.9 million. The increase represents a portion of the company's request for a total rate increase of \$10.5 million to cover the costs of investments in its customer service and system maintenance and growth, increases in operating expenses, and the impact of the continuing sluggish economy. On January 20, 2004, City Gas received approval from the FPSC to increase its base rates by \$6.7 million, effective February 23, 2004. This includes the interim rate increase of \$2.9 million approved in October. This new rate level provides for an allowed return on equity of 11.25 percent and an overall allowed rate of return of 7.36 percent.

Between October 28, 2002 and December 20, 2002, five substantially similar civil actions were commenced in the United States District Court for the District of New Jersey, in which the plaintiffs allege that the parent company, NUI Corporation and its former president and chief executive officer violated federal securities laws by issuing false statements and failing to disclose information regarding the company's financial condition and current and future financial prospects in its earnings statements, press releases, and in statements to analysts and others. By orders dated December 19, 2002, January 22, 2003, and February 3, 2003, the five actions were consolidated into one action captioned In re NUI Securities Litigation. The five consolidated lawsuits include: (1) an action captioned Jack Klebanow, on behalf of himself and all others similarly situated v. NUI Corporation and John Kean, Jr., filed in the United States District Court for the District of New Jersey on October 28, 2002; (2) an action captioned Gisela Friedman, on behalf of herself and all others similarly situated v. NUI Corporation and John Kean, Jr., filed in the United States District Court for the District of New Jersey on October 31, 2002; (3) an action captioned Thomas Davis, on behalf of himself and all others similarly situated v. NUI Corporation and John Kean, Jr., filed in the United States District Court for the District of New Jersey on November 6, 2002; (4) an action captioned Marvin E. Russell, on behalf of himself and all others similarly situated v. NUI Corporation and John Kean, Jr., filed in the United States District Court for the District of New Jersey on December 10, 2002; and (5) an action captioned Phyllis Waltzer, on behalf of herself and all others similarly situated v. NUI Corporation and John Kean, Jr., filed in the United States District Court for the District of New Jersey on December 20, 2002. By order dated February 3, 2003, a Lead Plaintiff, Lead Counsel and Liaison Counsel were appointed in the consolidated action. By stipulation of the parties, an Amended Consolidated Class Action Complaint was filed on May 7, 2003, and subsequently plaintiffs were granted leave to file a Second Amended Consolidated Complaint, which was filed on July 17, 2003. The Second Amended Complaint, brought on behalf of a putative class of purchasers of NUI's common stock between November 8, 2001 and October 17, 2002, asserts claims under Section 10(b), including Rule 10b-5 promulgated thereunder, and Section 20(a) of the Exchange Act against the company, and two former presidents and chief executive officers. Specifically, the Second Amended Complaint alleges that the defendants (i) failed to disclose material facts that would impair the company's current and future earnings, including (a) the allegedly accurate amount and explanation of the company's bad debts, (b) a purportedly illegal practice by the company in "re-terminating" intrastate calls, (c) alleged accounting improprieties in connection with purportedly unearned revenue, and (d) allegedly inaccurate earnings per share information, and (ii) inflated the company's earnings materially by (a) allegedly making misleading statements concerning, and failing to properly record, bad debt costs, (b) allegedly attributing the company's rising costs to incorrect and immaterial factors, and (c) purportedly pursuing illegal telecommunications billing practices. The Second Amended Complaint seeks unspecified monetary damages on behalf of the class, including costs and attorneys fees. On October 14, 2003, defendants moved to dismiss the Second Amended Complaint under, inter alia, the Private Securities Litigation Reform Act. Opposition papers to the motion to dismiss were secured on December 19, 2003, and reply papers were filed on February 23, 2004. The motion was heard on March 15, 2004. By decision and order dated April 23, 2003, the district court granted in part and denied in part defendants' motion to dismiss. The district court dismissed the Section 10(b) claims against the individual defendants and dismissed all claims against the company concerning the alleged "reterminating" scheme. The district court denied the motion to dismiss with respect to certain allegations that the company made misleading misstatements concerning the accurate level of bad debt and earnings and denied the motion to dismiss the Section 20(a) claims against the individual defendants. Defendants filed an Answer to the Second Amended Complaint on May 10, 2004. No discovery has yet occurred. Although the company intends to vigorously defend these lawsuits, it is not possible at this time to determine a likely outcome.

James Greiff and TIC Enterprises, Inc. v. TIC Enterprises, LLC, NUI Capital Corp., NUI Sales and NUI Corporation, originally filed in the Northern District of Georgia, was recently transferred on Defendants' motion to the District of Delaware. The plaintiffs, James Greiff and TIC sued the company and three other company related entities, NUI Sales Management, Inc., NUI Capital Corp. and TIC, for breach of contract and fraud. The plaintiffs allege they are entitled to \$3 million arising from the defendants' alleged breach of contract, an amount to be proven at trial arising from the defendants' alleged breach of a 2001 Purchase Agreement, \$22 million and punitive damages for the defendants' alleged fraudulent transfers. The plaintiffs have also alleged a tortious interference claim for \$3 million, which the court previously dismissed. The company and the remaining defendants are vigorously defending the lawsuit and deny any liability to the plaintiffs. NUI Sales and defendant TIC have a four-count counterclaim against both plaintiffs for more than \$3 million. They are for: (1) breach of 2001 Purchase Agreement; (2) breach of 1997 Amended and Restated Limited Liability Company Agreement; (3) fraud in the inducement; and (4) unjust enrichment.

The parties are in the midst of discovery, and have exchanged written responses and objections to discovery requests along with numerous documents. The parties have also begun taking depositions of the parties and fact witnesses. On May 2, 2004, NUI proposed a settlement to the plaintiffs in which the company agreed to pay the plaintiffs \$1.4 million to completely satisfy NUI's obligation under the note, as well as to resolve all other claims that the company and the plaintiffs had brought against each other. On May 5, 2004, NUI received the plaintiffs' written acceptance of the company's settlement proposal, and the plaintiffs requested that NUI prepare the appropriate settlement documents for review. As a result, the company reduced the amount payable under the note from \$3.0 million to \$1.4 million on the September 30, 2003 Consolidated Balance Sheet, and recorded a gain of \$1.6 million in other income on the consolidated Statement of Income for fiscal 2003.

The company is also involved in various other claims and litigation incidental to its business. In the opinion of management, none of these other claims and litigation will have a material adverse effect on the company's results of operations or its financial condition.

### New Jersey Board of Public Utilities (NJBPU) Orders and Focused Audit

As a result of NUI and NUI Utilities' credit downgrades during 2003, negative credit rating comments and concerns raised during a competitive services audit of Elizabethtown Gas conducted by the NJBPU, in March 2003 the NJBPU ordered a focused audit of NUI, NUI Utilities and Elizabethtown Gas in six key areas: (1) strategic planning; (2) affiliate transactions; (3) financial structure and interaction; (4) accounting and property records; (5) corporate governance; and (6) executive compensation. The NJBPU retained The Liberty Consulting Group (Liberty) as the auditors for the focused audit. On March 2004, Liberty filed its final report with the NJBPU, which, among other things, cited weaknesses in each of the foregoing six areas. The contents of the final report filed by Liberty are discussed in more detail below under Focused Audit Report.

In addition, the NJBPU also issued a series of Orders to NUI, NUI Utilities, and Elizabethtown Gas during calendar 2003 and 2004, concerning, among other things, a number of the issues that were subject to the focused audit. These Orders are discussed in more detail below under Orders.

### Focused Audit Report

On December 17, 2003, Liberty published an interim audit report that presented the auditors' description of key events and activities, as well as their findings and conclusions through that date. The final audit report was accepted and released by the NJBPU on March 17, 2004. At that time, the NJBPU directed NUI to file comments regarding the final audit report on March 26, 2004. NUI filed responsive comments as directed.

In each area, the audit report cites alleged weaknesses and areas of concern. In particular, the report alleges that NUI failed to comply with key provisions of the holding company order and that NUI has demonstrated a lack of understanding of what such order entailed

The Company filed its response to the final audit report on March 26, 2004. As indicated in its response, although NUI did not agree with many of the allegations in the report, since the commencement of the focused audit, NUI has implemented a number of important changes in areas examined by the audit report including:

- engaging in a comprehensive process to re-engineer its cash management operations,
- implementing cash segregation policies and practices as of September 1, 2003 so that the cash of NUI Utilities is no longer pooled with that of NUI's non-utility subsidiaries,
- conducting monthly reconciliation and payment of intercompany balances, which included the repayment by NUI, in full, on November 24, 2003 of the \$85 million intercompany receivable owed to NUI Utilities,
- strengthening internal controls for accounts payable and receivable,
- creating a cash management policy with formal policies and procedures in the accounting function, and
- entering into new credit facilities that eliminated certain provisions limiting NUI Utilities' operating flexibility.

NUI has also committed to obtaining NJBPU approval of its formalized cash management agreement. Additionally, NUI has engaged Deloitte & Touche to conduct an audit of its continuing-property records, which will be commenced during calendar 2004.

In addition, NUI Utilities has expanded its Board with a majority of independent directors who possess significant utility industry experience and extensive knowledge of NUI Utilities and its operations. NUI has also formalized its nominating procedures and policies and focused significant attention on improving the formal recordkeeping activities of its Board.

On April 14, 2004, the company announced that it reached a settlement agreement with the NJBPU that resolved all issues related to the focused audit. In connection with the settlement, and without acknowledging or admitting the correctness of any specific finding in the final audit report, the company agreed to implement the recommendations contained in the final audit report, with some modifications. As noted above, at the time the settlement was reached, the company had already implemented or was in the process of implementing many of the recommended actions.

### Orders

Pending its review of the interim focused audit report, on December 11, 2003, the NJBPU issued an Order in which NUI Utilities and Elizabethtown Gas were directed to cease purchasing gas from NUI Energy Brokers upon approval of a new gas supply procurement and energy asset management plan, which was to be submitted to the NJBPU by January 2, 2004 for the NJBPU to approve by January 9, 2004. Further, per the Order, NUI Utilities is prohibited from issuing special dividend payments; and Elizabethtown Gas shall not pay any allocated costs of any agreements, retainers or arrangements for professional services and other expenditures incurred in connection with, or as a result of, the focused audit and/or financial difficulties of NUI unless approved by the NJBPU.

In its Order dated January 14, 2004, the NJBPU accepted the plan submitted by NUI Utilities and Elizabethtown Gas which transferred the management of NUI Utilities' and Elizabethtown Gas' gas supply assets to New Jersey Resources Energy Services (NJRES) through March 31, 2005. The NJBPU further directed NUI Utilities to file a procedure with the NJBPU for the competitive procurement of gas supply

management services for the period commencing April 1, 2004 through March 31, 2005. In the event NJRES was not selected to continue to provide services to NUI Utilities as a result of the bid process, the NJBPU directed NUI Utilities to pay an early termination fee.

NUI Utilities filed a procedure for competitive procurement of gas supply management services, which was approved by the NJBPU on February 11, 2004. NUI Utilities instituted a process for receiving bids for gas supply and capacity management services to the Company's New Jersey, Florida and Maryland utility divisions. The Company requested bidders to provide bids in one of three ways: (1) on the basis of a fixed payment to the company reflecting the value of the company's energy assets, (2) on the basis of sharing credits and/or margins derived from capacity release and off-system sales activities, or (3) on the basis of a fee tied to the volume of capacity in excess of the Company's requirements multiplied by a measure of the market value tied to available published indices. The company received multiple bids from nine third-party suppliers. As a result of this process, NUI Utilities selected Cinergy Marketing & Trading LP, a subsidiary of Cinergy Corp. (Cinergy) to provide a full requirements gas supply contract with least cost dispatch rights. The contract covers the period from April 1, 2004 through March 31, 2005 and provides a fixed payment to NUI Utilities. The NJBPU approved the selection of Cinergy as the Company's gas and capacity management services provider on April 14, 2004.

### Investigations of NUI Energy Brokers

Through January 2004, NUI Energy Brokers served as NUI Utilities' agent for purchasing gas and managing their utilization of their pipeline, storage and peaking contracts and assets. NUI Energy Brokers and NUI Utilities were also parties to a contract in which NUI Utilities purchased certain firm gas supplies from NUI Energy Brokers during the 2003-2004 winter period. NUI Energy Brokers also arranged financial transactions on behalf of Elizabethtown Gas relating to its gas procurement needs. In early November 2003, as a result of the focused audit conducted by Liberty, the Board of Directors of the company became aware of allegations of inappropriate conduct by employees of NUI Energy Brokers. Employees of NUI Energy Brokers allegedly had engaged in activities that improperly benefited NUI Energy Brokers at the expense of Elizabethtown Gas. The Audit Committee of the Board retained Independent Counsel, to assist it in conducting an investigation into the allegations and report the findings and conclusions to it.

As a result of its investigation the Independent Counsel concluded that while NUI had established NUI Energy Brokers with internal controls designed to protect the utility's assets, NUI Energy Brokers traders often ignored or circumvented these controls. The NUI Energy Brokers bonus/commission plan created an incentive for NUI Energy Brokers traders and other NUI employees who participated in the bonus/commission plan to engage in conduct that favored NUI Energy Brokers over the utility or to remain silent if they observed conduct that allowed NUI Energy Brokers to benefit at the utility's expense. The Independent Counsel concluded that the maximum amount of lost margin to Elizabethtown Gas as a result of NUI Energy Brokers' failure to obtain for Elizabethtown Gas, NUI Energy Brokers' best or weighted average price of the day for comparable transactions was approximately \$6.5 million. The Independent Counsel also concluded that NUI Energy Brokers recorded as income a discount of \$1.3 million that a counterparty gave for an early settlement of a deferred payment transaction. In addition, the Independent Counsel concluded that the maximum amount of lost margin to City Gas as a result of NUI Energy Brokers' failure to obtain for City Gas NUI Energy Brokers best or weighted average price of the day for comparable transactions was approximately \$2.6 million. The Independent Counsel also reached conclusions with respect to the conduct of various employees. Based upon these conclusions, the Audit Committee recommended that the Board of Directors of NUI take certain personnel actions, which recommendation the NUI Board of Directors effected.

In connection with the investigation of NUI Energy Brokers, NUI received subpoenas issued by the New Jersey State Attorney General's Office in connection with the questionable transactions at NUI Energy Brokers. NUI is cooperating fully with the New Jersey Attorney General's Office.

In November 2003, the U.S. Securities and Exchange Commission (the "SEC") advised the company that it is conducting an informal inquiry with respect to the investigation of NUI Energy Brokers by the New Jersey Attorney General's Office. On March 1, 2004, the SEC requested the company to produce voluntarily certain documents in furtherance of its informal inquiry. In particular, the SEC is requesting information regarding allegations of inappropriate conduct by employees of NUI Energy Brokers. NUI is fully cooperating with the SEC. At this point, the company cannot predict whether or not the SEC will initiate a formal investigation into this matter.

The Audit Committee of the Board of Directors of NUI had previously retained independent counsel to conduct an internal investigation into these transactions at NUI Energy Brokers.

### NOTES TO THE FINANCIAL STATEMENTS ON A CONSOLIDATED BASIS

- 1. Use the space below for important notes regarding the Balance Sheet, Statement of Income for the year, Statement of Retained Earnings for the year, and Statement of Changes in Financial Position, or any account thereof. Classify the notes according to each basic statement, providing a subheading for each statement except where a note is applicable to more than one statement.
- 2. Furnish particulars (details) as to any significant contingent assets or liabilities existing at end of year, including a brief explanation of any action initiated by the Internal Revenue Service involving possible assessment of additional income taxes of material amount, or of a claim for refund of income taxes of a material amount initiated by the utility. Give also a brief explanation of any dividends in arrears on cumulative preferred stock.
- For Account 116, Utility Plant Adjustments, explain the origin of such amount, debits and credits during the year, and

- plan of disposition contemplated, giving references to Commission orders or other authorizations respecting classification of amounts as plant adjustments and requirements as to disposition thereof.
- 4. Where Accounts 189, Unamortized Loss on Reacquired Debt, and 257, Unamortized Gain on Reacquired Debt, are not used, give an explanation, providing the rate treatment given these items. See General Instruction 17 of the Uniform System of Accounts.
- 5. Give a concise explanation of any retained earnings restrictions and state the amount of retained earnings affected by such restrictions.
- 6. If the notes to financial statements relating to the respondent company appearing in the annual report to the stockholders are applicable and furnish the data required by instructions above and on pages 8-10, such notes may be attached hereto.

See Attached

### CITY GAS COMPANY OF FLORIDA -A DIVISION OF NUI UTILITIES, INC. NOTES TO FINANCIAL STATEMENTS (Unaudited)

City Gas Company of Florida ("City Gas" or the "Company") is an operating division of NUI Utilities, Inc., a wholly-owned subsidiary of NUI Corporation ("NUI"), and follows the Uniform System of Accounts of the Federal Energy Regulatory Commission ("FERC"), as adopted by the Florida Public Service Commission ("FPSC"), which is a comprehensive basis of accounting other than generally accepted accounting principles. NUI also has utility operating divisions in three other states: Elizabethtown Gas Company (New Jersey), Elkton Gas (Maryland), and Virginia Gas ("VGC"). During 2002, NUI sold its North Carolina Gas ("NC") utility operation in September, and its Valley Cities Gas (Pennsylvania) and Waverly Gas (New York) (considered together, "VCWV") utility operations in November.

In addition, as of December 31, 2003, NUI was engaged in several non-regulated businesses including NUI Energy Brokers, Inc. ("NUI Energy Brokers"), a wholesale energy portfolio and risk management subsidiary; Utility Business Services, Inc., ("UBS"), a billing and customer information systems and services subsidiary; and NUI Saltville Storage, Inc. ("NUISS"), a fifty-percent member of Saltville Gas Storage Company, LLC ("SSLLC"). SSLLC is a joint venture with a unit of Duke Energy that is developing a natural gas storage facility in Saltville, Virginia.

NUI's strategy to become a diversified energy company did not achieve the results that NUI had anticipated, particularly in the telecommunications arena. As a result, NUI experienced increasing significant losses and write-offs in its non-utility businesses during recent years. In late calendar 2001, a series of technical defaults under the then-existing credit facilities of NUI and NUI Utilities resulted in the refinancing of such debt and NUI began exploring the sale of its non-core businesses as a means of raising capital and cutting costs.

In October 2001 and March 2002, NUI sold certain subsidiaries of VGC for an aggregate sales price of approximately \$4.6 million. On September 30, 2002, NUI sold NC for approximately \$24 million, and on November 7, 2002, the sale of VCW was completed for approximately \$15 million. NUI Environmental Group was sold on September 3, 2002 for \$1. During July 2003, NUI announced it was seeking buyers for NUI Telecom. In July 2002, NUI had discontinued two of the four product lines of TIC Enterprises, LLC ("TIC"), a sales outsourcing subsidiary, and announced in July 2003 that the remaining operations of TIC would be wound down. On December 15, 2003, NUI completed the sale of NUI Telecom for approximately \$2 million. In addition, in May 2003, NUI announced it was exiting the retail energy business, and subsequently sold the majority of NUI Energy's contracts to HESCO Gathering Company, LLC and Amerada Hess Corporation.

Significant liquidity problems continued to plague NUI during fiscal 2003 despite attempts to reduce costs and raise funds from the sales of non-core businesses (see Note 2). In February 2003, NUI and NUI Utilities entered into new revolving credit agreements. However, problems at the non-utility entities and problems arising from the three year re-audit of NUI's financial statements caused technical defaults under NUI's credit agreement and, as a result, both the NUI and NUI Utilities credit agreements were amended, resulting in significantly higher costs of borrowing. NUI considered several alternate financing plans aimed at restoring the credit worthiness of NUI and NUI Utilities, but none of these plans were deemed viable. Finally, on September 26, 2003, NUI's Board of Directors announced it was pursuing the sale of NUI and all of its subsidiaries. NUI has engaged two investment banks to serve as financial advisors while it seeks a buyer.

### 1. Summary of Significant Accounting Policies

Certain reclassifications of prior year amounts were made in order to properly reflect amounts in the correct FERC account. Such reclassifications are not material.

The significant accounting policies are summarized below.

### A. Regulation

As an operating utility, the Company is subject to regulation by the FPSC with respect to, among other things, the rates it charges utility customers, service, accounting and the issuance of securities.

### B. Use of Estimates

The preparation of financial statements in accordance with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

### C. Operating Revenues and Purchased Gas and Fuel Costs

Utility gas customers are metered and billed monthly or bi-monthly on a cycle basis. Revenues include unbilled amounts related to the estimated gas usage that occurred from the most recent meter reading to the end of the relevant accounting period.

Costs of purchased gas and fuel are recognized as expenses in accordance with the gas cost adjustment clause. Such clause provides for the periodic reconciliation of actual recoverable gas costs and the estimated amounts that have been billed to customers. Under or over recoveries are deferred when they arise and are recovered from or refunded to customers in subsequent periods.

### D. Utility Plant and Related Depreciation and Amortization

Utility plant is stated at its original cost less any aid to construction. Depreciation is provided on a straight-line basis over the remaining estimated lives of depreciable property by applying composite average annual rates as approved by the FPSC. The composite average depreciation rate was approximately 3.5 percent in 2003 and 3.5 percent in 2002. At the time utility plant is retired, the original cost plus the cost of retirement, less salvage, is charged to accumulated depreciation. Repairs, replacements and renewals of minor items of property are charged to maintenance expense as incurred.

Included in utility plant as of December 31, 2003 and 2002, is \$15,704,127 and \$16,750,238, respectively, of unamortized plant acquisition adjustment that represents the remaining portion of the excess of the purchase price over the book value of net assets acquired. The excess is being amortized on a straight-line basis over thirty years from the date of acquisition. The company does not have specific recovery of the plant acquisition adjustment in its rates.

During August 2002, the Company completed a sale/leaseback transaction for a capital lease that is collateralized by approximately \$9 million of meters.

### E. Supplemental Statement of Cash Flow Information

"Cash at the End of Year" on the Statement of Cash Flows consists of:

<u>A/C</u>	<u>Description</u>	<u>Amount</u>
131	Cash	\$138,998
135	Working Funds	2,425
		<u>\$141,423</u>

The amount of income tax and interest paid during 2003 and 2002 were as follows:

	<u>2003</u>	<u>2002</u>
Income taxes paid (refunded)	\$(3,110,560)	\$2,921,297
Interest paid	\$ 5,481,348	\$5,914,971

Income taxes are paid to NUI (see Note 1.G. below).

### F. Regulatory Assets and Liabilities

ź.

The Company follows the accounting for regulated enterprises prescribed by Statement of Financial Accounting Standards No. 71, "Accounting for the Effects of Certain Types of Regulation" ("SFAS 71"). In general, SFAS 71 requires deferral of certain costs and obligations, based upon orders received from regulators, to be recovered from or refunded to customers in future periods. The following represents the Company's regulatory assets and liabilities deferred in the accompanying balance sheet as of December 31, 2003 and 2002:

	<u>2003</u>	2002
Regulatory Assets		
Deferred piping allowances	\$ 631,492	\$ 682,702
Deferred conversion costs	464,267	519,819
Deferred rate case expenses	407,534	185,960
Deferred ECP program costs	(574,242)	(279,001)
	<u>\$ 929,051</u>	<u>\$1,109,480</u>
Regulatory Liabilities		
Over-collection of income taxes	\$ 331,046	\$ 568,846
Asset retirement obligations	280,760	225,743
	<u>\$ 611,806</u>	<u>\$ 794,589</u>

Substantially all of these regulatory assets and liabilities have been authorized by state regulators to be recovered in rates. In the event that the provisions of SFAS 71 were no longer applicable, the Company would recognize a write-off of net regulatory assets (regulatory assets less regulatory liabilities) that would result in a charge to net income, which would be classified as an extraordinary item. In addition, although the gas distribution industry is becoming increasingly competitive, the Company continues to recover its costs through cost-based rates established by the FPSC. As a result, the Company believes that the accounting prescribed under SFAS 71 remains appropriate.

### G. Income Taxes

The Company accounts for income taxes in accordance with Statement of Financial Accounting Standards ("SFAS") No. 109, "Accounting for Income Taxes", which requires the liability method to be used to account for deferred income taxes. Under this method, deferred income taxes related to tax and accounting basis differences are recognized at the statutory income tax rates in effect when the tax is expected to be paid.

Investment tax credits are being amortized over the estimated service lives of the properties that gave rise to the credits.

The Company has deferred Federal tax liabilities, which arise principally from the timing of depreciation and other utility plant differences, plant acquisition adjustments, over- and under-recovered gas costs, and pension and other employee benefits.

The Company participates with NUI in filing a consolidated Federal income tax return. The provisions for income taxes shown in the accompanying financial statements have been computed on a separate company/division basis. Amounts reflected as Federal income taxes payable are payable to NUI.

### 2. Liquidity Issues

As a result of various factors, NUI and NUI Utilities have experienced and expect to continue experiencing significant liquidity problems. Liquidity needs for NUI Utilities generally are driven by factors that include prepayment for its natural gas requirements; natural gas commodity prices; the impact of weather on customer bills; lags in fully collecting gas costs from customers under the purchased gas adjustment clauses; both discretionary and required repayments of short- and long-term debt; capital spending; and working capital requirements, such as administrative expenses and taxes. Liquidity needs at NUI's non-utility operations generally are driven by required repayments of short-term debt and working capital requirements.

Based upon the factors noted above and current anticipated cash flows, both NUI and NUI Utilities believe that they have sufficient liquidity to meet their financial obligations through the remainder of the fiscal year ending September 30, 2004. However, subsequent to September 30, 2004, NUI and NUI Utilities believe they may not have sufficient liquidity to meet their continuing obligations based upon the following:

- NUI and NUI Utilities each have separate revolving credit facilities aggregating \$405 million, which expire on November 22, 2004, and each may only be extended for a successive 364-day increment if certain conditions are met. If these facilities are not extended or satisfactorily refinanced, the companies would need to seek alternative solutions to satisfy their liquidity requirements.
- Upon renewal of NUI's revolving credit facility, NUI would be required to prepay, on or about November 22, 2004, an interest reserve account for the benefit of the lenders under NUI's credit agreement in the amount of approximately \$20 million.
- Under the terms of NUI Utilities' natural gas asset management contract with Cinergy
  Marketing & Trading LP ("Cinergy"), NUI Utilities is required to pay in advance, in
  varying amounts, for its gas requirements on a monthly basis over the contract period. As a
  result of the prepayment obligations, in addition to the renewal of its credit facility, NUI
  Utilities may require additional funds in early fiscal 2005 in order to meet its continuing
  obligations. Further, in order for NUI Utilities to obtain such additional funds, it is

required to obtain the approval of its lenders and the New Jersey Board of Public Utilities ("NJBPU").

On September 26, 2003, the Board of Directors of NUI announced its intention to put NUI
up for sale. If a buyer for NUI is not found, or if a sale is not completed in a timely
manner, this could materially adversely affect NUI's and NUI Utilities' financial condition,
results of operations and liquidity.

As noted above, based upon current anticipated cash flows, NUI and NUI Utilities believe they will have sufficient liquidity to meet their financial obligations through the end of fiscal year ending September 30, 2004 and NUI and NUI Utilities also believe they will remain in compliance with all covenants under their various debt agreements for the remainder of the year ending September 30, 2004 (see Note 7 for further discussion on debt covenants). NUI plans to address its liquidity concerns by: successfully completing the sale of NUI; extending its existing credit facilities beyond the current termination date of November 22, 2004; and obtaining additional financing to ensure NUI Utilities' ability to, among other things, meet its gas purchase prepayment requirements under its natural gas asset management contract with Cinergy. If NUI is unsuccessful in its efforts to effectively resolve its liquidity concerns, it may need to reorganize its operations and restructure its credit and debt financing.

### 3. Capitalization

The Company has \$20 million of 6.4% Brevard County Industrial Development Revenue Bonds that mature October 1, 2024. The Company deposited in trust the unexpended portion of the net proceeds from these bonds until drawn upon for eligible expenditures. As of December 31, 2003 and 2002, the total unexpended portion was \$2.1 million and \$3.9 million, respectively, and is classified on the Company's balance sheet as a reduction of long-term debt.

### 4. Notes Payable to Associated Companies

At December 31, 2003 and 2002, the Company's outstanding notes payable to associated companies was \$28,455,109 and \$28,251,044, respectively, which amounts are net of intercompany receivable balances. The combined weighted average interest rate of outstanding notes payable at December 31, 2003 was 7.11 percent, The net intercompany liabilities primarily result from cash loaned from NUI Utilities (or NUI, as was the case prior to November 2003) to City Gas for its annual capital expenditure program for new business expansion and maintenance of existing plant. In addition, as quarterly cash dividends are paid by NUI to its shareholders, these dividends are allocated to certain NUI subsidiaries, including the Company.

The company is supposed to repay \$30 million of NUI Utilities' 8.35% medium-term notes that mature on February 1, 2005. However, included in NUI Utilities' current credit facility is a \$50 million delayed draw term loan that can be drawn at the option of NUI Utilities and used, subject to satisfaction of the terms and conditions contained therein, to repay these medium-term notes (see Note 7).

### 5. Leases

Property, plant and equipment held under capital leases amounted to \$11.1 million at December 31, 2003, and \$11.5 million at December 31, 2002, with related accumulated amortization of \$2.3 million and \$2.1 million, respectively. During August 2002, the Company completed a sale/leaseback transaction related to gas meters (and related equipment) for approximately \$8.6 million. The transaction, which is recorded as a capital lease, bears interest at 4.98 percent and

will be repaid over 10 years from inception of the lease; consistent with ratemaking treatment, the Company is depreciating the cost of these meters on a straight-line basis over their remaining estimated lives, which on average is longer than the term of the lease. Other capital lease properties consist of leasehold improvements, office furniture and fixtures, and vehicles. A summary of future minimum payments for properties held under capital leases follows (in thousands):

2004	\$1,345
2005	1,209
2006	1,160
2007	1,136
2008	1,075
Thereafter	3,384
Total future minimum payments	<u>9,309</u>
Amount representing interest	(2,039)
Current portion of capital lease obligations	(1,345)
Capital lease obligations	<u>\$ 5,925</u>

Rents charged to operations expense were \$0.6 million in 2003 and \$0.5 million in 2002.

### 6. Pension Benefits

į.

City Gas participates in the non-contributory defined benefit retirement plans of NUI Corporation, which cover all of its employees other than the Company's union employees who participate in a union-sponsored multi-employer plan. NUI Corporation funds its plans in accordance with the requirements of the Employee Retirement Income Security Act of 1974 and makes contributions to the union-sponsored plan in accordance with its contractual obligations. Benefits paid under the plans are based on years of service and levels of compensation and the actuarial calculation of pension expense is based on the projected unit cost method.

The changes in the pension benefit obligation for NUI's plans for the fiscal years ended September 30, 2003 and 2002, were as follows (in thousands):

· ·	<u> 2003</u>	<u>2002</u>
Benefit obligation at beginning of year	\$100,504	\$94,610
Service cost	3,438	2,797
Interest cost	6,815	6,813
Plan amendments		64
Actuarial loss	21,300	5,296
Benefits paid	(8,744)	(9,076)
Benefit obligation at end of fiscal year	<u>\$123,313</u>	\$100,504

The change in plan assets were as follows (in thousands):

	<u>2003</u>	<u>2002</u>
Fair value of plan assets at beginning of year	\$92,366	\$111,578
Actual return on plan assets	14,649	(10,136)
Employer contributions	3,300	
Benefits paid	<u>(8,744</u> )	<u>(9,076</u> )
Fair value of plan assets at end of fiscal year	<u>\$101,571</u>	<u>\$ 92,366</u>

The reconciliation of the funded status of NUI's funded plans as of September 30, 2003 and 2002 was as follows (in thousands):

	<u>2003</u>	<u>2002</u>
Funded status	\$(21,742)	\$(8,138)
Unrecognized net loss	47,920	34,643
Unrecognized prior service cost	<u>1,676</u>	2,126
Pension prepayment at end of fiscal year	<u>\$27,854</u>	<u>\$28,631</u>

City Gas' accrued pension liability at December 31, 2003 was approximately \$533,000.

The projected benefit obligation was calculated using a discount rate of 6.00 percent in fiscal 2003 and 6.75 percent in fiscal 2002, and an assumed annual increase in compensation levels of 4 percent in fiscal 2003 and 2002. The expected long-term rate of return on assets was calculated at 9.25 percent in fiscal 2003 and 9.75 percent in fiscal 2002, and has been reduced to approximately 8.50 percent beginning in fiscal 2004. NUI's pension fund assets are invested approximately 70 percent in publicly traded equity securities and approximately 30 percent in publicly traded debt securities.

The components of pension expense for NUI's pension plans were as follows (in thousands):

	<u>2003</u>	<u>2002</u>	<u>2001</u>
Service cost	\$3,438	\$2,797	\$2,229
Interest cost	6,815	6,813	6,614
Return on plan assets	(8,270)	(10,592)	(12,504)
Net amortization and deferral	_2,093	<u>468</u>	<u>(684</u> )
Pension expense (income) for fiscal year	<u>\$4,076</u>	<u>\$ (514)</u>	<u>\$(4,345</u> )

Pension expense of approximately \$755,000 was allocated to City Gas for the calendar year ended December 31, 2003.

### 7. Commitments and Contingencies

Capital Spending. Construction expenditures for the fiscal year ending September 30, 2004 are estimated at \$12.6 million.

Gas Procurement Contracts. Certain of the Company's long-term contracts for the supply, storage and delivery of natural gas include fixed charges that amount to approximately \$7.9 million annually. The Company currently recovers, and expects to continue to recover, such fixed charges through its PGA clause.

New Jersey Board of Public Utilities Focused Audit. As a result of NUI's and NUI Utilities' credit downgrades during 2003, as well as concerns raised during a routine competitive services audit of Elizabethtown Gas by the NJBPU in March 2003, the NJBPU ordered a focused audit of NUI, NUI Utilities and Elizabethtown Gas. The focused audit covered six key areas: (1) strategic planning; (2) affiliate transactions; (3) financial structure and interaction; (4) accounting and property records; (5) corporate governance; and (6) executive compensation, and the NJBPU appointed The Liberty Consulting Group ("Liberty") as the auditors.

On December 17, 2003, Liberty published an interim audit report, which presented the auditors' description of key events and activities, as well as their findings and conclusions through that date. The final audit report was accepted and released by the NJBPU on March 17, 2004. At that time, the NJBPU directed NUI to file comments regarding the final audit report on March 26, 2004. In each of the six key areas covered by the audit, the audit report cites alleged weaknesses and areas of concern. In particular, the report alleges that NUI failed to comply with key provisions of the

employees who participated in the bonus/commission plan to engage in conduct that favored NUI Energy Brokers over NUI Utilities or to remain silent if they observed conduct that allowed NUI Energy Brokers to benefit at NUI Utilities' expense. The independent counsel concluded that the maximum amount of lost margin to Elizabethtown Gas as a result of NUI Energy Brokers' failure to obtain for Elizabethtown Gas, NUI Energy Brokers' best or weighted average price of the day for comparable transactions was approximately \$6.5 million. The independent counsel also concluded that NUI Energy Brokers recorded as income a discount of \$1.3 million that a counterparty gave for an early settlement of a deferred payment transaction. In addition, the independent counsel concluded that the maximum amount of lost margin to City Gas as a result of NUI Energy Brokers' failure to obtain for City Gas NUI Energy Brokers' best or weighted average price of the day for comparable transactions was approximately \$2.6 million. The independent counsel also reached conclusions with respect to the conduct of various employees. Based upon these conclusions, the Audit Committee recommended that the Board of Directors of NUI take certain personnel actions, which recommendation the NUI Board of Directors effected.

As a result of a separate NJBPU Order dated December 11, 2003, NUI Utilities dissolved its relationship with NUI Energy Brokers and on January 9, 2004, the NJBPU approved a plan to transfer to New Jersey Resources, Inc. ("NJRES") the management of gas supply assets of NUI Utilities. The plan allowed NJRES to serve as NUI Utilities' agent for purchasing gas and managing its gas supply assets through March 31, 2005. Subsequently, however, the NJBPU published an order on January 14, 2004, requiring NUI Utilities to submit its procurement and gas supply management services to a competitive bidding process. As a result of this undertaking as directed by the NJBPU, NUI Utilities terminated its contract with NJRES on March 31, 2004, and contracted with Cinergy to procure the gas supply requirements necessary to fulfill NUI Utilities' obligations for the period commencing April 1, 2004 through March 31, 2005. The gas supply contract with Cinergy requires NUI Utilities to pre-pay, in varying amounts, for its gas requirements on a monthly basis over the contract period.

The Attorney General of the State of New Jersey also is conducting a criminal investigation relating to NUI Energy Brokers. In connection with this investigation, NUI received subpoenas issued by the New Jersey State Attorney General's Office. NUI is cooperating fully with the New Jersey Attorney General's Office.

In November 2003, the Securities and Exchange Commission ("SEC") advised NUI that it is conducting an informal inquiry relating to NUI Energy Brokers. On March 1, 2004, the SEC requested NUI to produce voluntarily certain documents in furtherance of its informal inquiry. NUI is fully cooperating with the SEC. At this point, the company cannot predict whether or not the SEC will initiate a formal investigation into this matter.

City Gas of Florida is unable to predict with any certainty if these matters will have any impact on its operations; however, the Company has booked a reserve as of September 30, 2003 of \$2.6 million related to these matters. At the time of publication, City Gas was in discussions with FPSC staff regarding these audit findings and the ultimate disposition of any liability to the ratepayers.

NUI and NUI Utilities Credit Facilities. In February 2003, NUI and NUI Utilities entered into new revolving credit agreements, which replaced their previous revolving credit agreements. However, problems at NUI's non-utility entities and problems arising from the three year re-audit of NUI's financial statements caused technical defaults under NUI's credit agreement and, as a result, both the NUI and NUI Utilities credit agreements were amended, resulting in significantly higher costs of borrowing, a portion of which costs are allocated to the Company and disallowed in rates.

On November 24, 2003, NUI and NUI Utilities each entered into new separate revolving credit facilities aggregating \$405 million. Both NUI's and NUI Utilities' current credit agreements expire on November 22, 2004, and each may be extended for one 364-day term, subject to certain conditions. NUI's facility may be extended if (i) NUI Utilities' facility is simultaneously extended, (ii) the

NJBPU's March 2001 holding company order and that NUI demonstrated a lack of understanding of what such order entailed.

As directed by the NJBPU, NUI filed its response to the final audit report on March 26, 2004. As indicated in its response, although NUI did not agree with many of the allegations in the report, since the commencement of the focused audit, NUI has implemented a number of important changes in areas examined by the audit report including:

- engaging in a comprehensive process to re-engineer its cash management operations,
- implementing cash segregation policies and practices as of September 1, 2003 so that the cash of NUI Utilities is no longer pooled with that of NUI's non-utility subsidiaries,
- conducting monthly reconciliation and payment of intercompany balances, which included the repayment by NUI, in full, on November 24, 2003 of the \$85 million intercompany receivable owed to NUI Utilities,
- strengthening internal controls for accounts payable and receivable,
- creating a cash management policy with formal policies and procedures in the accounting function, and
- entering into new credit facilities which eliminated certain provisions limiting NUI Utilities' operating flexibility.

NUI has also committed to obtaining NJBPU approval of its formalized cash management agreement. Additionally, NUI has engaged Deloitte & Touche to conduct an internal audit of its continuing-property records, which will be commenced during calendar 2004.

In addition, NUI Utilities has expanded its Board of Directors with a majority of independent directors who possess significant utility industry experience and extensive knowledge of NUI Utilities and its operations. NUI has also formalized its nominating procedures and policies and focused significant attention on improving the formal recordkeeping activities of its Board.

On April 14, 2004, NUI announced that it reached a settlement agreement with the NJBPU which resolved all issues related to the focused audit. On April 26, 2004, the NJBPU issued a Final Order accepting and adopting the settlement agreement. In connection with the settlement, and without acknowledging or admitting the correctness of any specific finding in the final audit report, NUI and NUI Utilities agreed to implement the recommendations contained in the final audit report, with some modifications. As noted above, at the time the settlement was reached, NUI had already implemented or was in the process of implementing many of the recommended actions. In addition, pursuant to the settlement agreement, NUI Utilities agreed to refund \$28 million plus interest to Elizabethtown Gas ratepayers and to pay a \$2 million penalty to the State of New Jersey over five years.

NUI Energy Brokers Investigation. As a result of preliminary findings resulting from the focused audit, the Audit Committee of the NUI Board of Directors ordered an investigation of NUI Energy Brokers and retained independent outside counsel to conduct an investigation of alleged inappropriate transactions at NUI Energy Brokers. A report of the independent counsel's investigation was provided to NUI's Audit Committee on April 13, 2004.

As a result of its investigation, the independent counsel concluded that while NUI had established NUI Energy Brokers with internal controls designed to protect NUI Utilities' assets, NUI Energy Brokers traders often ignored or circumvented these controls. The NUI Energy Brokers bonus/commission plan created an incentive for NUI Energy Brokers traders and other NUI

maturity of NUI Utilities' 8.35 percent medium-term notes, due February 1, 2005, have been extended to a date no earlier than June 30, 2006 or have been repaid with the proceeds of the delayed draw term loan, (iii) NUI deposits cash into escrow with the administrative agent to cover interest that would accrue on outstanding amounts under the credit facility until the extended maturity date, in an amount of approximately \$20 million, and (iv) no default exists under such facility at the time of such extension.

NUI Utilities' facility may be extended if (i) all applicable regulatory approvals required for such extensions have been obtained, (ii) the maturity of NUI Utilities' 8.35 percent medium-term notes, due February 1, 2005, have been extended to a date no earlier than June 30, 2006 or have been repaid with the proceeds of the delayed draw term loan and (iii) no default exists under such facility at the time of such extension.

NUI's new credit agreement provides for a \$255 million term loan facility. NUI Utilities' current credit agreement provides for (i) a \$50 million revolving credit facility, (ii) a \$50 million term loan facility and (iii) a \$50 million delayed draw term loan facility. The proceeds from the delayed draw term loan facility, which can be drawn at the option of the company, can be used solely for the purpose of repaying NUI Utilities' 8.35 percent medium-term notes, which are due on February 1, 2005. The new credit facilities place significant restrictions on NUI and NUI Utilities, as discussed below.

Both credit agreements contain various covenants that (i) restrict NUI and NUI Utilities from taking various actions and (ii) require NUI and NUI Utilities, respectively, to each achieve and maintain certain financial covenants. Under the terms of NUI's credit agreement, amended as of May 10, 2004, NUI is required to maintain a maximum leverage ratio of no more than 0.80x and a minimum interest coverage ratio of at least 1.50x (for the four consecutive fiscal quarters ending on December 31, 2003 and March 31, 2004) and 1.25x (thereafter). Under the terms of the NUI Utilities credit agreement, NUI Utilities is required to maintain a maximum leverage ratio of no more than 0.70x and a minimum interest coverage ratio of at least 2.25x. Additionally, both credit agreements contain limitations on capital expenditures, indebtedness, payment of dividends, guarantees, liens, mergers, acquisitions, dispositions of assets, transactions with affiliates, loans and investments, prepayment of indebtedness, sale-leaseback transactions, change in business activities and corporate activities.

NUI's delay in delivering audited financial statements for fiscal 2003 resulted in events of default under NUI's and NUI Utilities' respective credit agreements. On January 26, 2004, NUI and NUI Utilities obtained waivers of such defaults from the lenders under their respective credit agreements, and received an extension of the delivery date for NUI's audited financial statements for fiscal 2003 and its 2004 first fiscal quarter unaudited financial statements through March 1, 2004, and amended the credit agreements to clarify certain technical provisions. Further delays in the delivery of these financial statements beyond the date to which NUI and NUI Utilities had received waivers resulted in another event of default. On March 12, 2004, NUI and NUI Utilities received a further waiver of such defaults from the lenders and such lenders otherwise deferred their rights to exercise remedies in respect thereof. NUI and NUI Utilities subsequently entered into amendments dated May 10, 2004, to their respective credit agreements which:

- (i) extended the delivery date for the aforementioned financial statements (as well as for the financial statements for the fiscal quarter ended March 31, 2004) until June 15, 2004,
- (ii) consented to the NJBPU settlement ("NJBPU Settlement"),
- (iii) modified financial covenants contained in the credit agreements to take into account the NJBPU Settlement and the recent and expected future performance of the company,
- (iv) permitted the acquisition by NUI Utilities of approximately \$350,000 worth of gas pipeline,

- (v) regarding the payment of dividends by NUI Utilities to NUI, provided for a \$35 million limit on dividend payments and eliminated a provision limiting such dividend payments to the aggregate maximum of NUI Utilities' retained earnings,
- (vi) added a condition which requires NUI to maintain a maximum leverage ratio of no more than 0.60x in order to pay dividends, and
- (vii) increased the interest rate on NUI Utilities' delayed draw term loan (if drawn) by one percent until a purchase agreement is executed to sell NUI or NUI Utilities to an unaffiliated third party.

NUI and NUI Utilities Long-term Debt. The delay in delivering certain officers' certificates, SEC filings and quarterly financial information throughout the fiscal year 2003, as well as audited fiscal 2003 financial statements and related documents ("Required Documents"), resulted in breaches under certain loan agreements, trust indentures, and related documents underlying NUI Utilities' gas revenue bond facilities, as well as under NUI Utilities' 8.35 percent medium-term notes.

Many of these breaches were cured on May 10, 2004 with delivery of many of the Required Documents. The remaining breaches were cured by virtue of NUI Utilities' delivery of NUI's annual report, related officers' certificates and other financial information.

Defaults may occur in the near future under NUI Utilities' 5.70 percent New Jersey Economic Development Authority ("NJEDA") bonds if NUI Utilities does not provide audited financial statements for NUI Utilities for the fiscal year ended September 30, 2003 and unaudited financial statements for NUI Utilities for the fiscal quarters ended December 31, 2003 and March 31, 2004. To date, NUI has obtained all necessary waivers and extended the respective deadlines for delivery of all information required pursuant to such bond facility to June 30, 2004. NUI and NUI Utilities are working diligently to deliver the required documentation within this timeframe.

NUI Utilities Dividend Restrictions Under Debt Agreements. The payment of cash dividends by NUI Utilities to NUI is restricted pursuant to a long-term Standby Bond Purchase Agreement (the "SBPA", as amended several times), entered in connection with NUI Utilities' \$39 million variable bonds to an amount based, in part, on the earned surplus of NUI Utilities, which had been reduced by the NJBPU Settlement recorded in September 2003. On May 19, 2004, NUI Utilities and The Bank of New York further amended the SBPA. The amendment eliminates the effect of the NJBPU Settlement, as well as the estimated refunds to customers in Florida and certain other related costs, on the earned surplus of NUI Utilities, thereby allowing for the payment of dividends by NUI Utilities to NUI at this time. In addition, under the amendment to NUI Utilities' credit facility dated as of May 10, 2004, NUI Utilities is prohibited from paying dividends exceeding \$35 million in the aggregate while the credit facility is outstanding.

Other. The Company is involved in other various claims and litigation incidental to its business. In the opinion of management, none of these other claims and litigation will have a material adverse effect on the Company's results of operations or its financial condition.

### 8. New Accounting Standards

In August 2001, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards No. 143, Accounting for Asset Retirement Obligations ("SFAS 143"). This statement establishes accounting standards for recognition and measurement of liabilities for asset retirement obligations and the associated asset retirement costs. The Company adopted this statement on October 1, 2002, which adjustment was immaterial to the results of operations and financial condition.

In June 2002, the FASB issued Statement of Financial Accounting Standards No. 146, "Accounting for Costs Associated with Exit or Disposal Activities" ("SFAS 146"). This statement is effective for exit or disposal activities initiated after December 31, 2002. The Company now applies SFAS 146 for exit and disposal activities.

In November 2002, the FASB issued FASB Interpretation No. 45, "Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others" ("FIN 45"). FIN 45 elaborates on the disclosures to be made by a guarantor in its interim and annual financial statements about its obligations under certain guarantees that it has issued. It also requires a guarantor to recognize, at the inception of a guarantee, a liability for the fair value of the obligation undertaken in issuing the guarantee. The initial recognition and measurement provisions of FIN 45 apply to guarantees issued or modified after December 31, 2002. As of December 31, 2003, the Company doesn't have any guarantee obligations.

In January 2003, the FASB issued FASB Interpretation No. 46, "Consolidation of Variable Interest Entities" ("FIN 46"). A variable interest entity is a corporation, partnership, trust or any other legal structure used for business purposes that either (a) does not have equity investors with voting rights, or (b) has equity investors that do not provide sufficient financial resources for the entity to support its activities. Historically, entities generally were not consolidated unless the entity was controlled through voting interests. FIN 46 changes that, by requiring a variable interest entity to be consolidated by a company if that company is subject to a majority of the risk of loss from the variable interest entity's activities or entitled to receive a majority of the entity's residual returns or both. A company that consolidates a variable interest entity is called the "primary beneficiary" of that entity, FIN 46 also requires disclosures about variable interest entities that a company is not required to consolidate but in which it has a significant variable interest. The consolidation requirements of FIN 46 apply immediately to variable interest entities created after January 31, 2003. The consolidation requirements of FIN 46 apply to existing entities in the first fiscal year or interim period beginning after June 15, 2003. Also, certain disclosure requirements apply to all financial statements issued after January 31, 2003, regardless of when the variable interest entity was established. The Company has determined that it does not have any variable interest entities.

In April 2003, the FASB issued Statement of Financial Accounting Standards No. 149, "Amendment of Statement 133 on Derivative Instruments and Hedging Activities" ("SFAS 149"). This statement amends and clarifies financial accounting and reporting for derivative instruments, including certain derivative instruments embedded in other contracts and hedging activities under SFAS 133. This statement is effective for contracts entered into or modified after June 30, 2003. The adoption of this statement had no impact on the Company's net income or financial position.

In May 2003, the FASB issued Statement of Financial Accounting Standards No. 150, "Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity" ("SFAS 150"). This statement establishes standards for how an issuer classifies and measures certain financial instruments with characteristics of both liabilities and equity. The standard requires that an issuer classify a financial instrument that is within its scope as a liability (or an asset in some circumstances). Many of these instruments were previously classified as equity. The standard also revises the definition of liabilities to encompass certain obligations that an entity can or must settle by issuing its own shares, depending on the nature of the relationship established between the holder and the entity. This statement is effective for financial instruments entered into or modified after May 31, 2003 and otherwise is effective at the beginning of the first interim period beginning after June 15, 2003. The adoption of this statement had no impact on the Company's net income or financial position.

# SECURITIES ISSUED AND SECURITIES REFUNDED OR RETIRED DURING THE YEAR

- Furnish a supplemental statement giving a brief description of security financing and refinancing transactions during the year and the accounting for the securities, discounts, premiums, expenses, and related gains or losses.
- 2. Furnish particulars (details) showing fully the accounting for the total principal amount, par value, or stated value of each class and series of security issued, retired, or refunded and the accounting for premiums, discounts, expenses, and gains or losses relating to the securities. Set forth the facts of the accounting clearly with regard to redemption premiums, unamortized discounts, expenses, and gains or losses relating to securities retired or refunded.
- and gains or losses relating to securities retired of refunded.

  3. Included in the identification of each class and series of security, as appropriate, the interest or dividend rate, nominal date of issuance, maturity date, aggregate principal amount, par value or stated value, and number of shares.
- 4. Where the accounting for amounts relating to securities refunded or retired is other than that specified in General Instruction 17 of the Uniform System of Accounts, give references to the Commission authorization for the different accounting and state the accounting method.

No new bond issuances were made during the year, nor were there any securities retired.

# **UNAMORTIZED LOSS AND GAIN ON REACQUIRED DEBT (Accounts 189, 257)**

- 1. Report under separate subheadings for Unamortized Loss and Unamortized Gain on Reacquired Debt, particulars (details) of gain and loss, including maturity date, on reacquisition applicable to each class and series of long-term debt. If gain or loss resulted from a refunding transaction, include also the maturity date of the new issue.
- 2. In column (c) show the principal amount of bonds or other long-term debt reacquired.
- 3. In column (d) show the net gain or net loss realized on each debt reacquisition as computed in accordance with

- General Instruction 17 of the Uniform Systems of Accounts
- 4. Show loss amounts by enclosing the figures in parentheses.
- 5. Explain in a footnote any debits and credits other than amortization debited to Account 428.1, Amortization of Loss on Reacquired Debt, or credited to Account 429.1, Amortization of Gain on Reacquired Debit-Credit.

For the Year Ended

Dec. 31, 2003

LONG-TERM DEBT (Accounts 221, 222, 223, and 224)

1. Report by balance sheet Account the particulars (details) concerning long-term debt included in Accounts 221, Bonds, 222, Reacquired Bonds, 223, Advances from Associated Companies, and 224, Other Long-Term Debt. If information to meet the stock exchange reporting requirement outlined in column (a) is available from the SEC 10-K Report Form Filing, a specific reference to the report form (i.e., year and company title) may be reported in column (a) provided the fiscal years for both the 10-K report and this report are compatible.

2. For advances from Associated Companies, report separately advances on notes and advances on open accounts. Designate

companies from which advances were received. 3. If the respondent has any long-term securities which have been nominally issued and are nominally outstanding at end of year, describe such securities in a footnote.

4. If interest expense was incurred during the year on any obligations retired or reacquired before end of year, include such interest in column (f). Explain in a footnote any difference between the total of column (f) and the total of Account 427, Interest on Long-Term Debt and Account 430, Interest on Debt to Associated Companies.

# RECONCILIATION OF REPORTED NET INCOME WITH TAXABLE INCOME FOR FEDERAL INCOME TAXES

1. Report the reconciliation of reported net income for the year with taxable income used in computing Federal income tax accruals and show computation of such tax accruals. Include in the reconciliation, as far as practicable, the same detail as furnished on Schedule M-1 of the tax return for the year. Submit a reconciliation even though there is no taxable income for the year. Indicate clearly the nature of each reconciling amount.

2. If the utility is a member of a group which files a consolidated Federal tax return, reconcile reported net income with taxable net income as if a separate return were to be filed, indicating, however, intercompany amounts to be eliminated in such a consolidated return. State names of group members, tax assigned to each group member, and basis of allocation,

allocation, assignment, or sharing of the consolidated tax among the group members. Particulars (Details) Amount Line (b) (a) No. See Page 25-A 1 Net Income for the Year (Page 9) Reconciling Items for the Year Taxable Income Not Reported on Books Deductions Recorded on Books Not Deducted for Return 18 Income Recorded on Books Not Included in Return 26 Deductions on Return Not Charged Against Book Income Federal Tax Net Income Show Computation of Tax:

### **GAS OPERATING REVENUES (Account 400)**

- 1. Report below natural gas operating revenues for each prescribed account in total.
- 2. Report number of customers, columns (f) and (g), on the basis of meters, except that where separate meter readings are added for billing purposes, one customer should be counted for each group of meters added. The average number of customers means the average of twelve figures at the close of each month.
- 3. Report quantities of natural gas sold in therms (14.73 psia at 60 F).
- 4. Report gas service revenues and therms sold by rate schedule.
- 5. If increases or decreases from previous year (columns (c),(e), and (g)), are not derived from previously reported figures, explain any inconsistencies in a footnote.

### **DISTRIBUTION OF SALARIES AND WAGES**

Report below the distribution of total salaries and wages for the year. Segregate amounts originally charged to clearing accounts to Utility Departments, Construction, Plant Removals, and Other Accounts, and enter such amounts in the appropriate lines and columns provided. In determining this segregation of salaries and wages originally charged to clearing accounts, a method of approximation giving substantially correct results may be used.
