INDEPENDENT AUDITORS' REPORT

Florida Public Utilities Company West Palm Beach, Florida:

We have audited the balance sheet—regulatory basis of Florida Public Utilities Company (the "Company") as of December 31, 1999, and the related statements of income—regulatory basis, retained earnings—regulatory basis and the consolidated statement of cash flows for the year ended December 31, 1999, included on pages 10 through 19h, excluding additional information on page 13 – Electric, Gas and Other Utility Divisions, of the accompanying Annual Report of Natural Gas Utilities to the Florida Public Service Commission. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

These financial statements were prepared in accordance with the accounting requirements of the Florida Public Service Commission, which are substantially equivalent to the accounting requirements of the Federal Energy Regulatory Commission as set forth in its applicable Uniform System of Accounts and published accounting releases, which is a comprehensive basis of accounting other than generally accepted accounting principles. The principal differences from generally accepted accounting principles include accounting for the Company's investment in a wholly owned subsidiary on the equity method rather than consolidating the assets, liabilities, revenues, and expenses of the subsidiary, the inclusion of certain accumulated provisions in other non-current liabilities rather than current liabilities, and the classification of all deferred tax accounts on a gross basis as non-current.

The consolidated statement of cash flows and the accompanying notes to consolidated financial statements are prepared on a consolidated basis as presented with the Company's consolidated financial statements included in its Annual Report to Shareholders. Such consolidated statement of cash flows and notes are not comparable in certain respects with the accompanying balance sheets – regulatory basis and income statements – regulatory basis in which an investment in a wholly owned subsidiary is accounted for on the equity method.

Deloitte Touche Tohmatsu In our opinion, such financial statements present fairly, in all material respects, the assets, liabilities, and proprietary capital of the Company as of December 31, 1999, and the results of its operations and its cash flows for the year ended December 31, 1999, in accordance with the accounting requirements of the Florida Public Service Commission, which are substantially equivalent to the accounting requirements of the Federal Energy Regulatory Commission as set forth in its Uniform System of Accounts and published accounting releases.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The additional information on page 13 is presented for the purpose of additional analysis and is not a required part of the basic financial statements. This additional information is the responsibility of the Company's management. Such information has been subjected to the auditing procedures applied in our audit of the basic financial statements and, in our opinion, is fairly stated in all material respects when considered in relation to the basic financial statements taken as a whole.

This report is intended solely for the information and use of the board of directors and management of the Company and for filing with the Florida Public Service Commission and is not intended to be and should not be used by anyone other than these specified parties.

Deloitte ! Touche LLP

February 18, 2000

INSTRUCTIONS FOR FILING THE ANNUAL REPORT OF NATURAL GAS UTILITIES

GENERAL INSTRUCTIONS

- Prepare this report in conformity with the Uniform System of Accounts (18 CFR 201) (U.S. of A.). Interpret all accounting words and phrases in accordance with the U.S. of A.
- II. Enter in whole numbers (dollars or Mcf) only, except where otherwise noted. (Enter cents for averages and figures per unit where cents are important.) The truncating of cents is allowed except on the four basic financial statements where rounding to dollars is required. The amounts shown on all supporting pages must agree with the amounts entered on the statements that they support. When applying thresholds to determine significance for reporting purposes, use for balance sheet accounts the balances at the end of the current reporting year, and use for statement of income accounts the current year's amounts.
- III. Complete each question fully and accurately, even if it has been answered in a previous annual report. Enter the word "None" where it truly and completely states the fact.
- IV. For any page that is not applicable to the respondent, enter the words "Not Applicable" on the particular page.
- V. Provide a supplemental statement further explaining accounts or pages as necessary. Attach the supplemental statement to the page being supplemented on 8 1/2 by 11 inch pager. Provide the appropriate identification information on the supplemental page, including the title of the page and the page number. Do not change the page numbers.
- VI. Do not make references to reports of previous years or to other reports in lieu of required entries, except as specifically authorized.
- VII. Wherever schedule pages refer to figures from a previous year, the figures reported must be based upon those shown by the annual report of the previous year, or an appropriate explanation given as to why different figures were used.
- VIII. Report all gas volumes on a pressure base of 14.73 psia and a temperature base of 60°F.

DEFINITIONS

- 1. <u>Btu per cubic foot</u> —The total heating value expressed in Btu, produced by the combustion, at constant pressure, of the amount of the gas which would occupy a volume of 1 cubic foot at a temperature of 60° F if saturated with water vapor and under a pressure equivalent to that of 30 inches of mercury at 32° F, and under standard gravitational force (980.665 cm per sec. ²) with air of the same temperature and pressure as the gas, when the products of combustion are cooled to the initial temperature of gas and air when the water formed by combustion is condensed to the liquid state. (Sometimes called gross heating value or total heating value.)
- II. Respondent The person, corporation, licensee, agency, authority, or other legal entity or instrumentality in whose behalf the report is made.

SECURITY HOLDERS AND VOTING POWERS

- 1. Give the names and addresses of the 10 security holders of the respondents who, at the date of the latest closing of the stock book or compilation of the list of stockholders of the respondent, prior to the end of the year, had the highest voting powers in the respondent, and state the number of votes which each would have had the right to cast on that date if a meeting were in order. If any such holder held in trust, give in a footnote the known particulars of the trust (whether voting trust, etc.) duration of the trust, and principal holders of beneficiary interests in the trust. If the stock book was not closed or a list of stockholders was not complied within one year prior to the end of the year, or if since the previous compilation of a list of stockholders, some other class of security has become vested with voting rights, then show such 10 security holders as of the close of the year. Arrange the names of the security holders in the order of voting power, commencing with the highest. Show in column (a) the titles of officers and directors included in such list of 10 security holders.
- If any security other than stock carries voting rights, explain in a supplemental statement of circumstances whereby such security became vested with voting rights and

- give other important particulars (details) concerning the voting rights of such security. State whether voting rights are actual or contingent: if contingent, describe the contingency.
- If any class or issue of security has any special privileges in the election of directors, trustees or managers, or in the determination of corporate action by any method, explain briefly in a footnote.
- 4. Furnish particulars (details) concerning any options, warrants, or rights outstanding at the end of the year for others to purchase securities of the respondent or any securities or other assets owned by the respondent, including prices, expiration dates, and other material information relating to exercise of the options, warrants, or rights. Specify the amount of such securities or assets so entitled to be purchased by any officer, director, associated company, or any of the ten largest security holders. This instruction is inapplicable to convertible securities or to any securities substantially all of which are outstanding in the hands of the general public where the options, warrants or rights were issued on a prorata basis.

 Give date of the latest closing of the stock book prior to the end year, and state the purpose of such closing:

Dividend Record Date

December 10, 1999

State the total number of votes cast at the latest general meeting prior to the end of year for the election of directors of the respondents and number of such votes cast by proxy. Give the date and place of such meeting:

11/30/1999

Total: By Proxy: 2,514,025 2,514,025 FPUC Corporate Off West Palm Beach, FL

FERC FORM 2

IMPORTANT CHANGES DURING THE YEAR

Give particulars (details) concerning the matters indicated below. Make the statements explicit and precise, and number them in accordance with the inquires. Each inquiry should be answered. Enter "none" "not applicable," or "NA" where applicable. If information which answers an inquiry is given elsewhere in the report, make a reference to the schedule in which it appears.

- Changes in and important information to franchise rights;
 Describe the actual consideration given therefore and state from whom the franchise rights were acquired. If acquired without the payment of consideration, state that fact.
- Acquisition of ownership in other companies by reorganization, merger, or consolidation with other companies: Give name of companies involved, particulars concerning the transactions, name of the Commission authorizing the transaction, and reference to Commission authorization.
- 3. Purchase or sale of an operating unit or system: Give brief description of the property, and of the transactions relating thereto, and reference to Commission authorization, if any was required. Give date journal entries called for by the Uniform System of Accounts were submitted to the Commission.
- 4. Important leaseholds (other than leaseholds for natural gas lands) that have been acquired or given, assigned or surrendered: Give effective dates, lengths of terms, names of parties, rents, and other conditions. State name of Commission authorizing lease and give reference to such authorization.
- S. Important extension or reduction of transmission or distribution system: State territory added or relinquished and date operations began or ceased give reference to Commission authorization, if any was required. State also the approximate number of customers added or lost and approximate annual revenues of each class of service. Each natural gas company must also state major new continuing sources of gas made available to it from purchases.

- development, purchase contract or otherwise, giving location and approximate total gas volumes available, period of contracts, and other parties to any such arrangements etc.
- 6. Obligations incurred as a result of issuance of securities or assumption of liabilities or guarantees including issuance of short-term debt and commercial paper having a maturity of one year or less. Give reference to FERC of State Commission authorization, as appropriate, and the amount of obligation or guarantee.
- Changes in articles of incorporation or amendments to charter. Explain the nature and purpose of such changes or amendments.
- State the estimated annual effect and nature of any important wage scale changes during the year.
- State briefly the status of any materially important legal proceedings pending at the end of the year, and the results of any such proceedings culminated during the year.
- 10. Describe briefly any materially important transactions of the respondent not disclosed elsewhere in this report in which an officer, director, security holder reported on page 8, voting trustee, associated company or known associate of any of these persons was a party or in which any such person had a material interest.
- 11. Estimate increase or decrease in annual revenue due to important rate changes: State effective rate and approximate amount of increase or decrease from each revenue classification. State the number of customers affected.
- 12. If the important changes during the year relating to the respondent company appearing in the annual report to stockholders are applicable in every respect and furnish the data required by instruction 1 to 11 above, such notes may be attached to this page.

- 1. NONE
- 2. NONE

STATEMENT OF INCOME

- Report amounts for Accounts 412 and 413, Revenue and Expenses from Utility Plant Leased to Others, in another utility column (i,k,m,o) in a similar manner to a utility department.

 Spread the amount (s) over lines 01 through 24 as appropriate. Include these amounts in columns (c) and (d) totals.
- 2. Report amounts in Account 414, Other Utility Operating Income, in the same manner as Accounts 412 and 413 above.
- 3. Report data for lines 7,9,10 for Natural Gas companies using accounts 404.1, 404.2, 404.3, 407.1 and 407.2.
- Use page 19 for important notes regarding the statement of income or any account thereof.

5. Give concise explanations on page 19 concerning

unsettled rate proceedings where a contingency exists such that refunds of a material amount may need to be made to the utility's customers or which may result in a material refund to the utility with respect to power or gas purchases. State for each year affected the gross revenues or costs to which the contingency relates and the tax effects together with an explanation of the major factors which affect the rights of the utility to retain such revenues or recover amounts paid with respect to power and gas purchases.

 Give concise explanations on page 19 concerning significant amounts of any refunds made or received during the year resulting from settlement of any rate proceeding affecting

STATEMENT OF INCOME (Continued)

revenues received or costs incurred for power or gas purchases, and a summary of the adjustments made to balance sheet, income, and expense accounts.

- If any notes appearing in the report to stockholders are applicable to this Statement of Income, such notes may be attached at page 19.
- 8. Enter on page 19 a concise explanation of only
 those changes in accounting methods made during the year
 which had an effect on net income, including the basis of
- allocations and apportionments from those used in the preceding year. Also give the approximate dollar effect of such changes.
- 9. Explain in a footnote if the previous year's figures are different from that reported in prior reports.
- 10. If the columns are insufficient for reporting additional utility departments, supply the appropriate account titles, lines 2 to 22, and report the information in the blank space on page 19 or in a supplemental statement.

CONSOLIDATED STATEMENT OF CASH FLOWS

- 1. If the notes to the cash flow statement in the respondent's annual stockholders report are applicable to this statement, such notes should be attached to page 19. Information about noncash investing and financing activities should be provided on page 19. Provide also on page 19 a reconciliation between "Cash and Cash Equivalents at end of Year" with related amoun on the balance sheet.
 - 3. Operating Activities Other: include gains and losses pertaining to operating activities only. Gains and losses pertaining to investing and financing activities should be reported in those activities. Show on page 19 the amounts of interest paid (net of amounts capitalized) and income taxes paid.

NOTES TO THE FINANCIAL STATEMENTS ON A CONSOLIDATED BASIS

- Use the space below for important notes regarding the Balance Sheet, Statement of Income for the year, Statement of Retained Earnings for the year, and Statement of Changes in Financial Position, or any account thereof. Classify the notes according to each basic statement, providing a subheading for each statement except where a note is applicable to more than one statement.
- 2. Furnish particulars (details) as to any significant contingent assets or liabilities existing at end of year, including a brief explanation of any action initiated by the Internal Revenue Service involving possible assessment of additional income taxes of material amount, or of a claim for refund of income taxes of a material amount initiated by the utility. Give also a brief explanation of any dividends in arrears on cumulative preferred stock.

 3. For Account 116, Utility Plant Adjustments, explain the origin of such amount, debits and credits during the year, and
- plan of disposition contemplated, giving references to Commission orders or other authorizations respecting classification of amounts as plant adjustments and requirements as to disposition thereof.
- 4. Where Accounts 189, Unamortized Loss on Reacquired Debt, and 257, Unamortized Gain on Reacquired Debt, are not used, give an explanation, providing the rate treatment given these items. See General Instruction 17 of the Uniform System of Accounts.
- Give a concise explanation of any retained earnings restrictions and state the amount of retained earnings affected by such restrictions.
- 6. If the notes to financial statements relating to the respondent company appearing in the annual report to the stockholders are applicable and furnish the data required by instructions above and on pages 12-18, such notes may be attached hereto.

SEE ATTACHED ANNUAL REPORT SUPPLEMENTS.

Summary of Significant Accounting and Reporting Policies

Business and Regulation Florida Public Utilities Company (the Company) is an operating public utility engaged principally in the purchase, transmission, distribution and sale of electricity and in the purchase, transmission, distribution, sale and transportation of natural gas. The Company is subject to the jurisdiction of the Florida Public Service Commission (FPSC) with respect to its electric, natural gas and water operations. The suppliers of electrical power to the Marianna division and of natural gas to the natural gas divisions are subject to the jurisdiction of the Federal Energy Regulatory Commission (FERC). The Fernandina Beach division is supplied most of its electrical power by a municipality which is exempt from FERC and FPSC regulation. The Company also distributes propane gas through a non-regulated subsidiary. The Company's accounting policies and practices conform to generally accepted accounting principles as applied to regulated public utilities and are in accordance with the accounting requirements and rate making practices of the FPSC.

The Company prepares its financial statements in accordance with the provisions of Statement of Financial Accounting Standards No. 71 - "Accounting for the Effects of Certain Types of Regulation" (SFAS 71). In general, SFAS 71 recognizes that accounting for rate regulated enterprises should reflect the relationship of costs and revenues introduced by rate regulation. As a result, a regulated utility may defer recognition of a cost (a regulatory asset) or recognize an obligation (a regulatory liability) if it is probable that, through the rate making process, there will be a corresponding increase or decrease in revenues.

Accordingly, the Company has recognized certain regulatory assets (included in deferred charges) related to area expansion program costs and unamortized debt reacquisition costs and regulatory liabilities (included in current and other liabilities) related to deferred income taxes, over recovery of fuel costs, and storm and environmental self-insurance reserves. The Company believes that the FPSC will continue to allow the Company to recover such items through its rates.

The Company has agreed with the FPSC staff to limit its earned return on equity for its regulated electric and natural gas operations. The disposition of any excess earnings is left to the discretion of the FPSC, with alternatives including a refund to customers, additional contributions to storm damage reserves, or the reduction of any depreciation reserve deficiency. Excess earnings for 1997 and 1998 at one of the Company's electric divisions were ordered by the FPSC to be added to that division's storm damage reserve. The Company believes it has adequately reserved for 1999 excess earnings.

Following FPSC rules for water utilities, the Company filed for and was granted a price index revenue increase in the Fernandina Beach water division. This increase, approximating \$11,000 on an annual basis, was placed into effect in June 1999. The Company filed for a rate increase in its water rates with the FPSC in 1999. The process was recently completed and final rates are expected to increase revenues \$380,000 annually beginning in March 2000.

Various states, other than Florida, have enacted or are considering enacting legislation or other initiatives that would provide utility customers with the ability to choose their supplier. This year, the FPSC is expected to issue an order that will allow any commercial natural gas customer to choose their supplier. Some of our commercial natural gas customers may elect to choose a different supplier, however, the Company's operating results would not be affected as the Company realizes the same operating margin regardless of whether the customer purchases the gas from us or uses our system to transport the gas.

Revenues The Company records utility revenues as service is provided and bills its customers monthly on a cycle billing basis. Accordingly, at the end of each month, the Company accrues for estimated unbilled revenues.

The rates of the Company include base revenues, fuel adjustment charges and the pass-through of certain governmental imposed taxes based on revenues. revenues are determined by the FPSC and remain constant until a request for an increase in such rates is filed and approved by the FPSC. From the FPSC perspective, the Company operates four distinct "entities", i.e., Marianna electric, Fernandina Beach electric, Fernandina Beach water, and natural gas, consisting of Palm Beach County, Sanford and DeLand. Thus, for the Company to recover through rate relief the effects of inflation for all such "entities", a request for an increase in base revenues would require the filing of four separate rate cases. The FPSC allows for an annual automatic rate increase for water operations through the use of a price index. Fuel adjustment charges are estimated for customer billing purposes and any under/over-recovery difference between the incurred cost of fuel and estimated amounts billed to customers is deferred for future recovery or refund and either charged or credited to customers. Interest accrues on such under/overrecoveries and is included in the subsequent adjustment.

Consolidation The consolidated financial statements include the accounts of the Company and its wholly-owned subsidiary, Flo-Gas Corporation. All significant intercompany balances and transactions have been eliminated.

Certain reclassifications have been made to the prior years' financial statements and other financial information contained herein to conform with the 1999 presentation.

Utility Plant and Depreciation Utility plant is stated at original cost. The costs of additions to utility plant include contracted services, direct labor and materials. The costs of units of property retired are removed from utility plant, and such costs plus removal costs, less salvage, are charged to accumulated depreciation. Maintenance and repairs of property and replacement and renewal of items determined to be less than units of property are charged to operating expenses. Substantially all of the utility plant and the shares of Flo-Gas Corporation collateralize the Company's First Mortgage Bonds.

Depreciation is computed using the composite straight-line method at rates prescribed by the FPSC for financial accounting purposes. Such rates are based on estimated service lives of the various classes of property. Depreciation provisions on average depreciable property approximate 3.6% per year.

Income Taxes Deferred income taxes are provided on all significant temporary differences between the financial statement and tax basis of assets and liabilities at currently enacted tax rates. Investment tax credits have been deferred and are amortized based upon the average useful life of the related property in accordance with the rate treatment.

Use of Estimates Inherent in the accounting process is the use of estimates when preparing financial statements in accordance with generally accepted accounting principles. Actual results could differ from these estimates. The Company has used estimates in the preparation of its financial statements including the accrual for uninsured liability claims. The Company is self-insured for the first \$250,000 of each liability claim and therefore accrues for estimated losses occurring from both asserted and unasserted claims. The estimate for unasserted claims arising from unreported incidents is based on an analysis of historical claims data. The Company's portion of liability claims incurred for the ten year period ended in 1999 averaged approximately \$45,000 per year and the accrual for such claims was approximately \$800,000 at December 31, 1999. The Company believes that its accrual for potential liability claims is adequate.

Notes Payable

The Company has a line of credit agreement with its primary bank providing for a \$15,000,000 loan with interest at LIBOR plus fifty basis points. \$14,000,000 of such loan is available for general corporate purposes with the remaining \$1,000,000 reserved as a contingency for major storm repairs in the Marianna electric division. The interest rates at December 31, 1999 and 1998 were approximately 6.3% and 5.6%, respectively.

Capitalization

Common Stock Split In July 1998, the Company effected a two-for-one stock split in the form of a stock dividend and, accordingly, transferred from paid-in capital to common stock, an amount equal to the aggregate par value of the additional shares. All per share data included herein have been retroactively restated to reflect the stock split.

Common Shares Reserved The Company has reserved 13,499 common shares for issuance under the Dividend Reinvestment Plan and 33,984 common shares for issuance under the Employee Stock Purchase Plan.

Dividend Restriction The Indenture of Mortgage and Deed of Trust and supplements thereto provide for restriction of the payment of cash dividends. At December 31, 1999 approximately \$3,900,000 of retained earnings were free of such restriction.

Maturities of Long-Term Debt. Sinking fund payments are scheduled to begin in 2008.

Segment Information

The Company operates distribution systems providing natural and propane gas service in three locations in central and southern Florida, electric service in two locations in northern Florida and water service in one location in northern Florida. There are no material intersegment sales or transfers.

Operating profit consists of revenues less operating expenses and does not include other income, interest income, interest expense and income taxes.

Identifiable assets are those assets used in the Company's operations in each business segment. Common assets are principally cash and overnight investments, deferred tax assets and common plant.

Business segment information for 1999, 1998, and 1997 is summarized as follows (in thousands):

_		R	egulated		Non- <u>Regulated</u>

Net deferred income taxes	<u>\$6,900</u>	<u>\$6,110</u>

^{*}Includes income tax of \$51,000 and \$315,000 on gain from the sale of non-utility property, 1999 and 1997, respectively.

Florida Public Utilities Company sponsors a qualified pension plan and post-retirement medical and life benefit plans for its employees. The life plan obligations are insignificant and are not reflected in the following disclosures. In 1998, the Company changed the benefit formula to provide for improved pension benefits. The following tables provide a reconciliation of the changes in the plans' benefit obligations and fair value of assets for the years ending December 31, 1999 and 1998, and a statement of the funded status at December 31, 1999 and 1998 (in thousands):

-	<u>Pension Benefits</u>	Medical Benefits
Reconciliation of Benefit Obligation	<u>1999</u> <u>1998</u>	<u>1999</u> 1998
Prior year obligation at December 31 Service cost Interest cost Participant contributions	\$ 19,279 \$ 14,803 771 764 1,369 1,245	72 73 109 96

Employer contributions Participant contributions	0 0	69 99 11 14
Benefit payments Current year fair value of plan assets at December 31	(974) (836) \$ 36,385 \$ 32,531	(80)(113) \$ 0 \$ 0
Funded Status		
Funded status at December 31 Unrecognized transition (asset) obligation Unrecognized prior service cost Unrecognized (gain) loss Net amount recognized	\$ 15,258 \$ 13,252 (183) (367) 4,238 4,401 (17,750) (15,990) \$ 1,563 \$ 1,296	\$(1,708) \$(1,475) 558 600 0 0 170 50 \$ (980) \$ (825)

The following table provides the components of net periodic benefit cost for the Plans for 1999, 1998 and 1997 (in thousands):

_		Pension Benefits				Medical Benefits					
		1999	199	<u>1997</u>	1	999		<u>1998</u>		1997	
_	Service cost	\$ 771	\$ 764	1 \$ 549	s	72	s	73	s	65	
	Interest cost	1,369	1,245	963	•	109	•	96	•	83	
	Expected return on plan assets Amortization of transition	(2,171)	(1,94)	3) (1,546)		0		0		0	
_	(asset) obligation	(183)	(183	(183)		43		43		4.3	
	Amortization of prior service cost		401	, , , , , , ,		0		0		0	
	Amortization of net (gain)loss	(474)	(424) (255)		0		0		0	
_	Net periodic benefit cost	<u>\$ (266</u>)	\$ (140) <u>\$ (321</u>)	\$ 2	224	<u>\$</u>	212	<u>\$</u>	<u> 191</u>	

The prior service costs are amortized on a straight-line basis over the average remaining service period of active participants. Gains and losses in excess of 10% of the greater

of the benefit obligation and the market-related value of assets are amortized over the average remaining service period of active participants.

The pension plan is non-contributory; the postretirement medical plan is contributory with participants' contributions subject to adjustment annually. The accounting for the health care plan anticipates future cost-sharing changes to the written plan such that retiree contributions will increase at the same rate as the total plan cost.

The assumptions used in the measurement of the Company's benefit obligation are shown in the following table:

Weighted-average assumptions	Pens	sion Benef	<u>fits</u>	<u>Medical</u>	<u>Benefits</u>
as of December 31 Discount rate-benefit obligation Expected return on plan assets	1999 7.0% 8.5%	1998 7.0% 8.5%	1997 7.0% 8.0%	1999 7.0% N/A	<u>1998</u> 7.0% N/A
Rate of compensation increase	5.5%	5.5%	5.5%	N/A	N/A

For measurement purposes, the annual rate of increase in the per capita cost of covered health care benefits during 1999 was 8.0% for retirees under 65 and 7.1% for retirees over 65. These rates were assumed to decrease gradually each year to a rate of 5.5% for 2007 and remain at that level thereafter.

Assumed health care cost trend rates have a significant effect on the amounts reported for the health care plans. A 1% change in assumed health care cost trend rates would have the following effects:

Effect on total of service and interest	1% Increase	<u>l% Decrease</u>
<pre>cost components of net periodic post- retirement health care benefit cost</pre>	\$ 27,475	\$ (23,847)
Effect on the health care component of the accumulated postretirement benefit		
obligation	\$ 222,537	\$(198,858)

Health Plan The Company is principally self-insured for its employee and retiree medical insurance plan. The Company's health care liability under the plan is limited to \$60,000 per individual per year, with a maximum total liability of \$865,000.

A reserve for future benefit payments for active employees is maintained at a level sufficient to provide for estimated outstanding claims under the plan net of amounts contributed by employees. Net health care benefits paid by the Company for active employees were approximately \$516,000, \$455,000 and \$457,000 for 1999, 1998 and 1997, respectively.

Employee Stock Purchase Plan The Company's Employee Stock Purchase Plan offers common stock at a discount to qualified employees. During 1999, 1998 and 1997, 8,193, 7,230 and 5,665 shares, respectively, were issued under the Plan for aggregate consideration of \$116,000, \$100,000 and \$103,000, respectively.

Dividend Reinvestment Plan During 1999, 1998 and 1997, 11,341, 9,006 and 8,874 shares, respectively, were issued under the Company's Dividend Reinvestment Plan for aggregate consideration of \$193,000, \$169,000 and \$185,000, respectively.

Financial Instruments

The carrying amounts reported in the balance sheet for investments held in escrow for environmental costs, notes payable, taxes accrued and other accrued liabilities approximate fair value. The Company does not enjoy a debt rating and therefore the Company has no reasonable way of estimating the current rate at which similar first mortgage bonds would be made to borrowers with similar debt ratings and maturities. However, the current bonds outstanding were issued in 1988 and 1992 and since that time interest rates have declined, and thus it is reasonable to assume that the fair value of existing first mortgage bonds would be more than their carrying value.

The Company is subject to federal and state legislation with respect to soil, groundwater and employee health and safety matters and to environmental regulations issued by the Florida Department of Environmental Protection (FDEP), the United States Environmental Protection Agency (EPA) and other federal and state agencies. Except as discussed below, the Company does not expect to incur material future expenditures for compliance with existing environmental laws and regulations.

West Palm Beach Site The Company is currently conducting a contamination assessment investigation of a parcel of property owned by it in West Palm Beach, Florida. After a preliminary contamination assessment investigation indicated soil and groundwater impacts, the Company entered into a consent order with the FDEP. The consent order requires the Company to delineate the extent of soil and groundwater impacts associated with the prior operation of a gasification plant on the property and requires the Company to remediate any soil and groundwater impacts, if necessary. In June 1992 the Company commenced the contamination assessment investigation. The original contamination assessment report ("CAR") was submitted to FDEP in December 1995. A CAR addendum is scheduled to be submitted to FDEP in early 2000, in response to FDEP comments to the CAR. completion of this work, and review of same by FDEP, it is not possible to determine to an acceptable degree of certainty the complete extent or cost of remedial action, if any, which may be required. However, a preliminary estimate from the Company's environmental consultant suggested that additional contamination assessment and remediation costs for this site may reach approximately \$1,400,000. Until the FDEP concludes that the contamination assessment investigation is complete, it is not possible to determine whether remediation is necessary and, if so, when and how much of such costs the Company will have to pay. A portion of the on-site impacts had been determined to be eligible for reimbursement from a state fund and the FDEP has determined that a portion of the work conducted off-site is eligible for reimbursement under state law.

Sanford Site The Company owns a parcel of property located in Sanford, Florida. Prior to the Company's acquisition of this property, it had been the site of a gasification plant. The FDEP issued a Warning Notice to the Company which required the Company to conduct a contamination assessment investigation of the property. A preliminary investigation revealed that soil was impacted throughout the center of the property.

Thereafter, in cooperation with four former owners and operators of the gasification plant, the Company participated in the funding of an initial contamination assessment investigation, the results of which are set forth in a Contamination Assessment Report delivered to FDEP on February 4, 1994. On July 11, 1997, the EPA notified the Company of its potential liability under applicable federal laws for assessment and remediation of the site. Similar notices were sent by the EPA to the four former owners and operators On or about March 25, 1998, the Company and the four former owners and operators (collectively, the Group) and the EPA executed an Administrative Order on Consent (AOC) that obligates the Group to implement a Remedial Investigation/Feasibility Study (RI/FS) task. The Group also entered into a Participation Agreement and an Escrow Agreement on or about April 13, 1998. These agreements govern the manner and means by which all parties will satisfy their respective obligations under the AOC. On or about April 13, 1998, the Group also entered into services agreements (collectively, the RI/FS Agreement) with two environmental consulting entities, to undertake the RI/FS and associated risk assessment activities called for under the terms of the AOC. combined budget for the consultants' services is presently approximately \$637,850. The Company has agreed to pay approximately 13.7% of the cost for the RI/FS. Field work for the RI/FS was initiated in 1998. A final RI report was submitted to the EPA in July 1999. Also submitted to EPA in July 1999, were a draft FS report and a draft Baseline Risk Assessment (BRA). In response to EPA comments to the BRA, a second draft BRA was submitted in October 1999 and a third draft BRA was submitted in January 2000. issued comments to the draft FS report, responses to which were due to FDEP by the end of January 2000. Prior to the completion of the RI/FS field activities and approval by the EPA of the complete RI/FS Report and BRA, the Company is unable to determine the appropriate remedy for the site or, what the Company's share of the cost of that remedy However, a preliminary estimate from the Group's environmental consultant suggested that remedial costs for removal of the visible extent of impacted soils at the site and adjacent thereto may cost up to \$5,800,000. Recent allocation negotiations between members of the Group have resulted in a tentative allocation to the Company of approximately 10.5% of the soil removal costs.

It is not known at this time whether groundwater remediation will be required at the property. The Group's environmental consultant has proposed to complete a FS for groundwater for approximately \$35,000. The Company's share of this cost is 13.7%.

Insurance Claims and Rate Relief The Company notified its insurance carriers of environmental impacts detected at the former manufactured gas plant (MGP) sites discussed above. As a result of negotiations with the Company's major insurance carriers that concluded in 1997, such carriers agreed to pay settlement proceeds totaling approximately \$4,300,000 for certain environmental costs. Most recently, in September 1999, certain British based insurers agreed to settle claims in the approximate total amount of \$7,600. Since 1991, the FPSC has also allowed the Company to recover through rate relief environmental expenses of \$2,116,000 at the rate of approximately \$240,000 per year; such recovery will end in February 2001.

The Company believes that all future contamination assessment and remedial costs, legal fees and other related costs will not be in excess of the rate relief granted the Company and insurance settlement proceeds received.

Commitments

To ensure a reliable supply of power and natural gas at competitive prices, the Company has entered into long-term purchase and transportation contracts with various suppliers and producers which expire at various dates through 2015. Purchase prices under these contracts are determined by formulas either based on market prices or at fixed prices. At December 31, 1999, the Company has firm purchase and transportation commitments adequate to supply its expected future sales requirements. The Company is committed to pay demand or similar fixed charges of approximately \$5,700,000 during 2000 related to these agreements. Substantially all costs incurred under these agreements are recoverable from customers through fuel adjustment clause mechanisms.

Recent Accounting Pronouncements

The Financial Accounting Standards Board (FASB) has issued Statement of Financial Accounting Standards (FAS) 133, "Accounting for Derivative Instruments and Hedging Activities". FAS 133 requires derivatives, as defined in the statement, to be measured at their fair value. The FASB deferred the effective date of FAS 133 until the first quarter of 2001 at which time certain issues will be clarified and the scope narrowed. Subject to that final determination, the Company does not believe that it will be subject to the revised FAS in a material fashion, if at all.

Quarterly Financial Data (Unaudited)

The quarterly financial data presented below reflects the influence of, among other things, seasonal weather conditions, the timing of rate increases and the migration of winter residents and tourists to central and southern Florida during the winter season (in thousands, except per share amounts):

	FIRST	SECOND	THIRD	FOURTH
	<u>OUARTER</u>	QUARTER	OUARTER	OUARTER

CONSTRUCTION OVERHEADS-GAS

- List in column (a) the kinds of overheads according to the titles used by the respondent. Charges for outside professional services for engineering fees and management or supervision fees capitalized should be shown as separate items.
- 2. On page 30 furnish information concerning construction overheads.
- 3. A respondent should not report "none" to this page if no overhead apportionments are made, but rather should explain on page 30 the accounting procedures employed.
- and the amounts of engineering, supervision, and administrative costs, etc. which are directly charged to construction.
- 4. Enter on this page engineering, supervision, administrative,, and allowance for funds used during construction, etc. which are first assigned to a blanket work order and then prorated to construction jobs.

ACCUMULATED PROVISION FOR DEPRECIATION OF GAS UTILITY PLANT (Account 108)

- 1. Explain in a footnote any important adjustments during year.
- 2. Explain in a footnote any difference between the amount for book cost of plant retired, line 11, column (c) and that reported for gas plant in service, pages 22 - 27, column (d), excluding retirements of non-depreciable property.
- 3. The provisions of Account 108 in the Uniform System of Accounts require that retirements of depreciable plant be recorded when such plant is removed from service. If

the respondent has a significant amount of plant retired at year end which has not been recorded and/or classified to the various reserve functional classifications, make preliminary closing entries to tentatively functionalize the book cost of the plant retired. In addition, include all costs included in retirement work in progress at year end in the appropriate functional classifications.

4. Show separately interest credits under a sinking fund or similar method of depreciation accounting.

For the Year Ended

December 31, 1999

SECURITIES ISSUED OR ASSUMED AND SECURITIES REFUNDED OR RETIRED DURING THE YEAR

- Furnish a supplemental statement giving a brief description of security financing and refinancing transactions during the year and the accounting for the securities, discounts, premiums, expenses, and related gains or losses. Identify as to Commission authorization numbers and dates.
- 2. Furnish particulars (details) showing fully the accounting for the total principal amount, par value, or stated value of each class and series of security issued, assumed, retired, or refunded and the accounting for premiums, discounts, expenses, and gains or losses relating to the securities. Set forth the facts of the accounting clearly with regard to redemption premiums, unamortized discounts, expenses, and gains or losses relating to securities retired or refunded, including the accounting for such amounts carried in the respondent's accounts at the date of the refunding or refinancing transactions with respect to securities previously refunded or retired.
- Included in the identification of each class and series of security, as appropriate, the interest or dividend rate,

- nominal date of issuance, maturity date, aggregate principal amount, par value or stated value, and number of shares. Give also the issuance of redemption price and name of the of the principal underwriting firm through which the security transactions were consummated.
- 4. Where the accounting for amounts relating to securities refunded or retired is other than that specified in General Instruction 17 of the Uniform System of Accounts, give references to the Commission authorization for the different accounting and state the accounting method.
- 5. For securities assumed, give the name of the company for which the liability on the securities was assumed as well as particulars (details) of the transactions whereby the respondent undertook to pay obligations of another company If any unamortized discount, premiums, expenses, and gains or losses were taken over onto the respondent's books, furnish details of these amounts with amounts relating to refunded securities clearly earmarked.

None

LONG-TERM DEBT (Accounts 221, 222, 223, and 224)

- 1. Report by balance sheet Account the particulars (details) concerning long-term debt included in Accounts 221, Bonds, 222, Reacquired Bonds, 223, Advances from Associated Companies, and 224, Other Long-Term Debt. If information to meet the stock exchange reporting requirement outlined in column (a) is available from the SEC 10-K Report Form Filing, a specific reference to the report form (i.e. year and company title) may be reported in column (a) provided the fiscal years for both the 10-K report and this report are compatible.
- For bonds assumed by the respondent, include in column (a) the name of the issuing company as well as a description of the bonds.
- For advances from Associated Companies, report separately advances on notes and advances on open accounts. Designate demand notes as such. Include in column (a) names of associated companies from which advances were received.
- For receiver's certificates, show in column (a) the name of the court and date of court order under which such certificates were issued.
- 5. In a supplemental statement, give explanatory particulars (details) for Accounts 223 and 224 of net changes

- during the year. With respect to long-term advances, show for each company: (a) principal advanced during year, (b) interest added to principal amount, and (c) principal repaid during year. Give Commission authorization numbers and dates.
- 6. If the respondent has pledged any of its long-term debt securities, give particulars (details) in a footnote, including name of the pledgee and purpose of the pledge.
- 7. If the respondent has any long-term securities which have been nominally issued and are nominally outstanding at end of year, describe such securities in a footnote.
- 8. If interest expense was incurred during the year on any obligations retired or reacquired before end of year, include such interest in column (f). Explain in a footnote any difference between the total of column (f) and the total of Account 427, Interest on Long-Term Debt and Account 430, Interest on Debt to Associated Companies.
- Give particulars (details) concerning any long-term debt authorized by a regulatory Commission but not yet issued.

RECONCILIATION OF REPORTED NET INCOME WITH TAXABLE INCOME FOR FEDERAL INCOME TAXES

- 1. Report the reconciliation of reported net income for the year with taxable income used in computing Federal income tax accruals and show computation of such tax accruals. Include in the reconciliation, as far as practicable, the same detail as furnished on Schedule M-1 of the tax return for the year. Submit a reconciliation even though there is no taxable income for the year. Indicate clearly the nature of each reconciling amount.
- 2. If the utility is a member of a group which files a consolidated Federal tax return, reconcile reported net income with taxable net income as if a separate return were to be filed, indicating, however, intercompany amounts to be eliminated in such a consolidated return. State names of group members, tax assigned to each group member, and basis of allocation, assignment, or sharing of the consolidated tax among the group members.

OTHER REGULATORY LIABILITIES (Account 254)

- Reporting below the particulars (details) called for concerning other regulatory liabilities which are created through the ratemaking actions of regulatory agencies (and not includable in other amounts).
- For regulatory liabilities being amortized, show period of amortization in column (a).
- 3. Minor items (5% of the Balance at End of Year for Account 254 or amounts less than \$50,000, whichever is less) may be grouped by classes.

40 41	TOTAL					

- 1. Report below natural gas operating revenues for each prescribed account in tototal.
- 2. Natural gas means either natural gas unmixed or any mixture of natural and manufactured gas.
- 3. Report number of customers, columns (f) and (g), on the basis of meters, except that where separate meter readings are added for billing purposes, one customer should be counted for each group of meters added. The average number of customers means the average of twelve figures at the close of each month.
- 4. Report quantities of natural gas sold in therms (14.73 psia at 60 F).
- Report gas service revenues and therms sold by rate schedule.

PARTICULARS CONCERNING CERTAIN INCOME DEDUCTIONS AND INTEREST CHARGES ACCOUNTS

Report the information specified below, in the order given for the respective income deduction and interest charges accounts. Provide a subheading for each account and total for the account. Additional columns may be added if deemed appropriate with respect to any account.

- (a) Miscellaneous Amortization (Account 425) Describe the nature of items included in this account, the contra account charged, the total of amortization charged for the year, and the period of amortization.
- (b) Miscellaneous income Deductions Report the nature, payee, and amount of other income deductions for the year as required by Accounts 426.1, Donations; 426.2 Life Insurance; 426.3 Penalties; 426.4, Expenditures for Certain Civic, Political and Related Activities: and 426.5, Other Deductions, of the Uniform System of Accounts. Amounts of less than \$25,000 may be grouped by classes within the above accounts.
- (c) Interest on Debt to Associated Companies (Account 430) For each associated company to which interest on debt was incurred during the year, indicate the amount and interest rate respectively for (a) advances on notes, (b) advances on open account,
- (c) notes payable, (d) accounts payable, and (e) other debt, and total interest. Explain the nature of other debt on which interest was incurred during the year.
- (d) Other Interest Expense (Account 431) Report particulars (Details) including the amount and interest rate for each other interest charges incurred during the year.

DISTRIBUTION OF SALARIES AND WAGES

Report below the distribution of total salaries and wages for the year. Segregate amounts originally charged to clearing accounts to Utility Departments, Construction, Plant Removals, and Other Accounts, and enter such amounts in the appropriate lines and columns provided. In determining this segregation of salaries and wages originally charged to clearing accounts, a method of approximation giving substantially correct results may be used.

INDIVIDUAL AFFILIATED TRANSACTIONS IN EXCESS OF \$25,000

Company: FLORIDA PUBLIC UTILITIES COMPANY
For the Year Ended December 31, 1999

Provide information regarding individual affiliated transactions in excess of \$25,000. Recurring monthly affiliated transactions which exceed \$25,000 per month should be reported annually in the aggregate. However, each land or property sales transaction even though similar sales recur, should be reported as a "non-recurring" item for the period in which it occurs.

Name of Affiliate (a)	Description of Transaction (b)	Dollar Amount (c)
Flo-Gas Corporation	Accounts Payable general expenses. Can not readily determine if it is recurring or non-recurring	- 2,307,373
Flo-Gas Corporation	Payroll Payment by Florida Public Utilities Company for Flo-Gas Corporation. Recurring.	1,418,686
Flo-Gas Corporation	Cash Receipts - Recurring.	(4,280,530)

SUMMARY OF AFFILIATED TRANSFERS AND COST ALLOCATIONS

Company: FLORIDA PUBLIC UTILITIES COMPANY
For the Year Ended December 31, 1999

Grouped by affiliate, list each contract, agreement, or other business transaction exceeding a cumulative amount of \$300 in any one year, entered into between the Respondent and an affiliated business or financial organization, firm, or partnership identifying parties, amounts, dates, and product, asset, or service involved.

- (a) Enter name of affiliate.
- (b) Give description of type of service, or name the product involved.
- (c) Enter contract or agreement effective dates.
- (d) Enter the letter "p" if the service or product is a purchased by the Respondent: "s" if the service or product is sold by the Respondent.
- (e) Enter utility account number in which charges are recorded.
- (f) Enter total amount paid, received, or accrued during the year for each type of service or product listed in column (c). Do not net amounts when services are both received and provided.

				Total Charge	for Year
Name of Affiliate (a)	Type of Service and/or Name of Product (b)	Relevant Contract or Agreement and Effective Date (c)	"p" or "s" (d)	Account Number (e)	Dollar Amount (f)
	SEE ATTACHED SCHEDÜLES	(c)	(d)	(e)	

ANALYSIS OF DIVERSIFICATION ACTIVITY REPORT

Flo-Gas Corporation is a wholly-owned subsidiary of Florida Public Utilities Company and transactions that exceed \$300 annually are numerous. Therefore, the enclosed summaries of Flo-Gas' Income Statement and Balance Sheet should be sufficient to meet the requirements of the report.

- Items relating specifically to Flo-Gas are charged directly.
- Corporate general expenses relating to both companies are allocated using factors previously reviewed by the Florida Public Service Commission during our last rate proceeding.
- Items that typically create intercompany transactions include payroll, cash Payments and receipts, and propane purchases.
- Flo-Gas does not have employees or cash.

Detailed transactions are available at our corporate office. If you require additional information, please let us know.

NOTE: Flo-Gas' Income Statement and Balance Sheet (Supplement pages 1 through 3).
