Report of Independent Certified Public Accountants

To the Board of Directors of Tampa Electric Company:

We have audited the accompanying balance sheets of Peoples Gas System (a wholly-owned subsidiary of Tampa Electric Company) as of December 31, 2010 and 2009, the related statements of income for the years then ended and the statement of retained earnings for the year ended December 31, 2010, included on pages 6 through 10 and 11-A through 11-W of the accompanying annual report of natural gas utilities to the Florida Public Service Commission. These financial statements are the responsibility of Peoples Gas System's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As described in Note 1, these financial statements were prepared in accordance with the accounting requirements of the Federal Energy Regulatory Commission as set forth in its applicable Uniform System of Accounts and published accounting releases, which is a comprehensive basis of accounting other than generally accepted accounting principles in the United States of America.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Peoples Gas System as of December 31, 2010 and 2009 and the results of its operations and its cash flows for the years then ended in accordance with the accounting requirements of the Federal Energy Regulatory Commission as set forth in its applicable Uniform System of Accounts and published accounting releases described in Note 1.

This report is intended solely for the information and use of the board of directors and management of Peoples Gas System and for filing with the Florida Public Service Commission and should not be used for any other purpose.

Price reterhouse Coopers LLP

INSTRUCTIONS FOR FILING THE ANNUAL REPORT OF NATURAL GAS UTILITIES

GENERAL INSTRUCTIONS

- II. Prepare this report in conformity with the Uniform System of Accounts (18 CFR 201) (U.S. of A.). Interpret all accounting words and phrases in accordance with the U.S. of A.
- II. Enter in whole numbers (dollars or Mcf) only, except where otherwise noted. (Enter cents for averages and figures per unit where cents are important.) The truncating of cents is allowed except on the four basic financial statements where rounding to dollars is required. The amounts shown on all supporting pages must agree with the amounts entered on the statements that they support. When applying thresholds to determine significance for reporting purposes, use for balance sheet accounts the balances at the end of the current reporting year, and use for statement of income accounts the current year's amounts.
- III. Complete each question fully and accurately, even if it has been answered in a previous annual report. Enter the word "None" where it truly and completely states the fact.
- IV. For any page that is not applicable to the respondent, enter the words "Not Applicable" on the particular page.
- V. Provide a supplemental statement further explaining accounts or pages as necessary. Attach the supplemental statement to the page being supplemented on 8 1/2 by 11 inch paper. Provide the appropriate identification information on the supplemental page, including the title of the page and the page number. Do not change the page numbers.
- Do not make references to reports of previous years or to other reports in lieu of required entries, except as specifically authorized.
- VII. Wherever schedule pages refer to figures from a previous year, the figures reported must be based upon those shown by the annual report of the previous year, or an appropriate explanation given as to why different figures were used.
- VIII. Report all gas volumes on a pressure base of 14.73 psia and a temperature base of 60° F.

DEFINITIONS

- Btu per cubic foot The total heating value expressed in Btu, produced by the combustion, at constant pressure, of the amount of the gas which would occupy a volume of 1 cubic foot at a temperature of 60° F if saturated with water vapor and under a pressure equivalent to that of 30 inches of mercury at 32° F, and under standard gravitational force (980.665 cm per sec. ²) with air of the same temperature and pressure as the gas, when the products of combustion are cooled to the initial temperature of gas and air when the water formed by combustion is condensed to the liquid state. (Sometimes called gross heating value or total heating value.)
- II. Respondent The person, corporation, licensee, agency, authority, or other legal entity or instrumentality in whose behalf the report is made.

IMPORTANT CHANGES DURING THE YEAR

Give particulars (details) concerning the matters indicated below. Make the 3. Important extension or reduction of transmission or distribution statements explicit and precise, and number them in accordance with the inquires. Each inquiry should be answered. Enter "none" "not applicable." or "NA" where applicable. If information which answers an inquiry is given elsewhere in the report, make a reference to the schedule in which it appears

- 1. Acquisition of ownership in other companies by reorganization, merger, or consolidation with other companies. Give name of companies involved, particulars concerning the transactions.
- 2. Purchase or sale of an operating unit or system: Give brief description of the property, and of the transactions relating thereto, and reference to Commission authorization, if any was required.
- system. State territory added or relinquished and date operations began or ceased also the approximate number of customers added or lost and approximate annual revenues of each class of service.
- 4. State briefly the status of any materially important legal proceedings pending at the end of the year, and the results of any such proceedings culminated during the year
- 5. State briefly the status of any materially important transactions of the respondent not disclosed elsewhere in this report in which an officer, director, security holder, voting trustee, associated company or known associate of any of these persons was a party or in which any such person had a material interest.

- None
- 2 None
- 3 None
- As a result of the unprecedented cold winter weather in 2010, PGS projected it would earn above the top of its allowed ROE cap of 11.75% in 2010. PGS recorded a \$9.2 million total provision related to the 2010 earnings above the top of the range. In December 2010, PGS and the Office of Public Counsel entered into a stipulation and settlement agreement requesting Commission approval that \$3.0 million of the provision be refunded to customers in the form of a credit on customers' bills in 2011, and the remainder be applied to accumulated depreciation reserves. On January 25, 2011 the FPSC approved the stipulation
- None

Peoples Gas System

Dec. 31, 2010

NOTES TO THE FINANCIAL STATEMENTS ON A CONSOLIDATED BASIS

- 1. Use the space below for important notes regarding the Balance Sheet, Statement of Income for the year, Statement of Retained Earnings for the year, and Statement of Changes in Financial Position, or any account thereof. Classify the notes according to each basic statement, providing a subheading for each statement except where a note is applicable to more than one statement.
- 2. Furnish particulars (details) as to any significant contingent assets or liabilities existing at end of year, including a brief explanation of any action initiated by the Internal Revenue Service involving possible assessment of additional income taxes of material amount, or of a claim for refund of income taxes of a material amount initiated by the utility. Give also a brief explanation of any dividends in arrears on cumulative preferred stock.
 3. For Account 116, Utility Plant Adjustments, explain the

origin of such amount, debits and credits during the year, and

- plan of disposition contemplated, giving references to Commission orders or other authorizations respecting classification of amounts as plant adjustments and requirements as to disposition thereof
- 4. Where Accounts 189, Unamortized Loss on Reacquired Debt, and 257, Unamortized Gain on Reacquired Debt, are not used, give an explanation, providing the rate treatment given these items. See General Instruction 17 of the Uniform System of Accounts.
- Give a concise explanation of any retained earnings restrictions and state the amount of retained earnings affected by such restrictions
- 6. If the notes to financial statements relating to the respondent company appearing in the annual report to the stockholders are applicable and furnish the data required by instructions above and on pages 8-10, such notes may be attached hereto.

NOTES TO FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

The significant accounting policies are as follows:

Basis of Accounting

Peoples Gas System (PGS) maintains its accounts in accordance with recognized policies prescribed or permitted by the Florida Public Service Commission (FPSC) and the Federal Energy Regulatory Commission (FERC). These policies conform with generally accepted accounting principles (GAAP) in all material respects. Certain footnotes are not reflective of PGS' Financial Statements contained herein.

The impact of the accounting guidance for the effects of certain types of regulation has been minimal in the company's experience, but when cost recovery is ordered over a period longer than a fiscal year, costs are recognized in the period that the regulatory agency recognizes them in accordance with this guidance.

The company's retail and wholesale businesses are regulated by the FPSC. Prices allowed are generally based on recovery of prudent costs incurred plus a reasonable return on invested capital.

Principles of Consolidation

Tampa Electric Company is a wholly-owned subsidiary of TECO Energy, Inc, and is comprised of the Electric division, generally referred to as Tampa Electric, and the Natural Gas division, generally referred to as Peoples Gas System. All significant intercompany balances and intercompany transactions have been eliminated in consolidation. The use of estimates is inherent in the preparation of financial statements in accordance with GAAP. Actual results could differ from these estimates.

Depreciation

The company computes depreciation expense by applying composite, straight-line rates (approved by the state regulatory agency) to the investment in depreciable property. The provision for total regulated utility plant in service, expressed as a percentage of the original cost of depreciable property, was 4.4% and 4.4%, for 2010 and 2009. Construction work-in progress is not depreciated until the asset is completed or placed in service.

Deferred Income Taxes

The liability method is utilized in the measurement of deferred income taxes. Under the liability method, the temporary differences between the financial statement and tax bases of assets and liabilities are reported as deferred taxes measured at current tax rates. Peoples Gas System is regulated, and the books and records reflect approved regulatory treatment, including certain adjustments to accumulated deferred income taxes and the establishment of a corresponding net regulatory tax liability reflecting the amount payable to customers through future rates.

Revenue Recognition

Peoples Gas System recognizes revenues consistent with accounting standards for revenue recognition. Except as discussed below, PGS recognizes revenues on a gross basis when earned for the physical delivery of products or services and the risks and rewards of ownership have transferred to the buyer.

PGS' retail businesses and the prices charged to customers are regulated by the FPSC. See **Note 3** for a discussion of significant regulatory matters and the applicability of the accounting for the effects of certain types of regulation to the company.

Revenues and Cost Recovery

Revenues include amounts resulting from cost recovery clauses which provide for monthly billing charges to reflect increases or decreases in purchased gas, interstate pipeline capacity and conservation costs for PGS. These adjustment factors are based on costs incurred and projected for a specific recovery period. Any over- or under-recovery of costs plus an interest factor are taken into account in the process of setting adjustment factors for subsequent recovery periods. Over-recoveries of costs are recorded as regulatory liabilities, and under-recoveries of costs are recorded as regulatory assets.

Certain other costs incurred by the regulated utilities are allowed to be recovered from customers through prices approved in the regulatory process. These costs are recognized as the associated revenues are billed. The company accrues revenues for services rendered but unbilled to provide a closer matching of revenues and expenses (see **Note 3**). As of December 31, 2010 and 2009, unbilled revenues of \$14.8 million and \$13.6 million, respectively, are included in the "Accrued Utility Revenue" line item on the balance sheet.

Accounting for Excise Taxes, Franchise Fees and Gross Receipts

Peoples Gas System is allowed to recover certain costs incurred from customers through prices approved by the FPSC. The amounts included in customers' bills for franchise fees and gross receipt taxes are included as revenues on the Statements of Income. These amounts totaled \$26.3 million and \$23.5 million for the years ended December 31, 2010 and 2009, respectively. Franchise fees and gross receipt taxes payable by the regulated utilities are included as an expense on the Statements of Income in "Taxes, other than income". For the years ended December 31, 2010 and 2009, these totaled \$26.3 million and \$23.5 million, respectively. Excise taxes paid by the regulated utilities are not material and are expensed as incurred.

Restrictions on Dividend Payments and Transfer of Assets

Certain long-term debt at PGS contains restrictions that limit the payment of dividends and distributions on the common stock of Tampa Electric Company. See **Note 9** for additional information on significant financial covenants.

Receivables and Allowance for Uncollectible Accounts

Receivables consist of services billed to residential, commercial, industrial and other customers. An allowance for doubtful accounts is established based on PGS' collection experience. Circumstances that could affect the company's estimates of uncollectible receivables include, but are not limited to, customer credit issues, the level of natural gas prices, customer deposits and general economic conditions. Accounts are written off once they are deemed to be uncollectible.

Basis of Reporting

The financial statements are prepared in accordance with the reporting requirements of the FERC as set forth in the applicable Uniform System of Accounts and published accounting releases. This is a comprehensive basis of accounting consistent with GAAP, except for:

- the balance sheet classification of cost of removal associated with potential asset retirement obligations
- the omission of the statement of retained earnings from the prior year
- the omission of the statement of cash flows for the current and prior year
- the balance sheet classification of ASC 210-20 cash balances
- the balance sheet classification of ASC 740-10-45 deferred income tax credits
- the use of the equity method to account for majority owned subsidiaries
- the balance sheet classification of the current portion of long term debt of \$3.4 million and \$3.7 million at December 31, 2010 and 2009, respectively.

This is a comprehensive basis of accounting consistent with FERC, except for:

- the balance sheet classification of ASC 740-10-25 Accounting for Uncertainty in Income Taxes

Peoples Gas System does not publish an annual report for distribution to any security holders. PGS is a division of Tampa Electric Company whose annual report includes the accounts of PGS in published consolidated financial statements.

2. New Accounting Pronouncements

Disclosures about the Credit Quality of Financing Receivables and the Allowance for Credit Losses

In July 2010, the Financial Accounting Standards Board (FASB) issued guidance requiring improved disclosures about the credit quality of a company's financing receivables and their associated credit reserves. The guidance is effective for interim and annual periods that end after Dec. 15, 2010. This guidance did not have any effect on the company's results of operations, statement of position or cash flows.

Subsequent Events

In February 2010, the FASB issued additional guidance related to subsequent event disclosure. The guidance was effective upon issuance and has no effect on the company's results of operations, statement of position or cash flows.

Fair Value Measures and Disclosures

In January 2010, the FASB issued guidance that requires entities to disclose more information regarding the movements between Levels 1 and 2 of the fair value hierarchy. The guidance was effective for fiscal years that begin after Dec. 15, 2010, and for interim periods within that year. This guidance will not have any effect on the company's results of operations, statement of position or cash flows.

3. Regulatory

Base Rate - PGS

PGS' retail businesses are regulated by the FPSC. The operations of PGS are regulated by the FPSC separately from the regulation of Tampa Electric. The FPSC has jurisdiction over rates, service, issuance of securities, safety, accounting and depreciation practices and other matters. In general, the FPSC sets rates at a level that allows utilities such as PGS to collect total revenues (revenue requirements) equal to their cost of providing service, plus a reasonable return on invested capital.

Stipulation with the Office of Public Counsel - PGS

On Jun. 9, 2010, PGS filed a letter with the FPSC agreeing to cap its earned return on common equity (ROE) for the year ending Dec. 31, 2010 at 11.75%, the maximum of the ROE range established in its last base rate proceeding.

On Dec. 16, 2010, PGS and the Office of Public Counsel filed a joint motion for FPSC approval of a proposed stipulation resolving all issues relating to any 2010 overearnings of PGS.

On Jan. 25, 2011, the FPSC approved the stipulation for PGS to provide a one-time credit to customer bills totaling \$3.0 million for 2010 earnings above 11.75%, excluding the portion of the company's share of

net revenues derived from off-system sales, and credit the remaining balance to its accumulated depreciation reserves.

Regulatory Assets and Liabilities

Peoples Gas System maintains its accounts in accordance with recognized policies of the FPSC. The company applies the accounting standards for regulated operations. Areas of applicability include: deferral of revenues under approved regulatory agreements; revenue recognition resulting from cost recovery clauses that provide for monthly billing charges to reflect increases or decreases in fuel, conservation and environmental costs; and the deferral of costs as regulatory assets to the period that the regulatory agency recognizes them when cost recovery is ordered over a period longer than a fiscal year.

Details of the regulatory assets and liabilities as of December 31, 2010 and 2009 are presented in the following table:

| Regulatory Assets and Liabilities (millions) | ec 31, 2010 | Dec 31, 2009 | | |
|--|----------------|-----------------|-------|--|
| Regulatory assets: | | | | |
| Cost recovery clauses | \$ 18.5 | \$ | 14.4 | |
| Post-retirement benefit asset | 23.4 | | 27.3 | |
| Deferred bond refinancing costs ⁽¹⁾ | 0.8 | | 0.9 | |
| Environmental remediation | 23.6 | | 21.2 | |
| Competitive rate adjustment | 3.3 | | 3.1 | |
| Other | 0.4 | | 0.6 | |
| Total regulatory asets | \$ 70.0 | \$ | 67.5 | |
| Less: Current portion | 25.1 | | 22.1 | |
| Long-term regulatory assets | \$ 44.9 | \$ | 45.4 | |
| Regulatory liabilities | | | | |
| Recovery clause related | \$ 1.4 | S | 0.9 | |
| Environmental remediation | 21.2 | | 19.9 | |
| Storm Reserve | 0.1 | | | |
| Deferred gain on property sales ⁽²⁾ | 0.5 | | 0.9 | |
| Accumulated reserve-cost of removal | 119.1 | | 110.2 | |
| Provision for stipulation and other ⁽³⁾ | 9.8 | | 0.6 | |
| Total regulatory liabilities | \$ 152.1 | \$ | 132.5 | |
| Less: Current portion | 11.2 | | 1.5 | |
| Long-term regulatory liabilities | \$ 140.9 | \$ | 131.0 | |

⁽¹⁾ Amortized over the term of the related debt instrument.

All regulatory assets are being recovered through the regulatory process. The following table further details our regulatory assets and the related recovery periods:

⁽²⁾ Amortized over a 4-year period.

⁽³⁾ Includes a provision to reflect the FPSC approved PGS stipulation regarding PGS' 2010 earnings above 11.75%. A one-time credit to customer bills totaling \$3.0 million will be applied in 2011 and the remaining balance of the 2010 earnings above 11.75% will be credited to its accumulated depreciation reserves.

| Regulatory Assets (millions) | De 2 | Dec 31, 2009 | | |
|--|---------|-----------------|----|------|
| Regulatory assets: | | | | |
| Clause recoverable ⁽¹⁾ | \$ | 21.8 | \$ | 17.5 |
| Components of rate base ⁽²⁾ | | 23.4 | | 27.3 |
| Capital structure and other (3) | | 24.8 | | 22.7 |
| Total | \$ | 70.0 | S | 67.5 |

⁽¹⁾ To be recovered through cost recovery clauses approved by the FPSC on a dollar for dollar basis within the next year.

4. Income Tax Expense

Peoples Gas System is included in the filing of a consolidated Federal income tax return with TECO Energy and its affiliates. The company's income tax expense is based upon a separate return computation. Income tax expense for Consolidated Peoples Gas System consists of the following components:

| Dec 31, 2010 | | Dec 31, 2009 | | |
|-----------------|-------|-------------------------|-------------------------|--|
| | | | | |
| \$ | 7.0 | \$ | 4.0 | |
| | 2.6 | | 1.9 | |
| | | | | |
| \$ | 11.2 | | 7.4 | |
| \$ | 0.4 | | _ | |
| | 21.2 | | 13.3 | |
| | (0.1) | | (0.3) | |
| | 21.1 | | 13.0 | |
| | \$ | \$ 0.4 21.2 (0.1) | \$ 0.4 21.2 (0.1) | |

Deferred taxes result from temporary differences in the recognition of certain liabilities or assets for tax and financial reporting purposes. The principal components of the deferred tax assets and liabilities for Consolidated Peoples Gas System recognized in the balance sheet are as follows:

⁽²⁾ Primarily reflects allowed working capital, which is included in rate base and earns a rate of return as permitted by the FPSC.

⁽³⁾ Has a recoverable period longer than a fiscal year and are recognized over the period authorized by the regulatory agency. Also included are unamortized loan costs which are amortized over the life of the related debt instruments. See footnotes 1 and 2 in the prior table for additional information.

| Deferred Income Tax Assets and Liabilities (millions) | Dec 31, 2010 | | Dec 31, 2009 | | |
|---|-----------------|--------|-----------------|--------|--|
| Deferred income tax assets ⁽¹⁾ | | | | | |
| Hedging Activities (FAS 133) | \$ | 4.2 | \$ | 4.3 | |
| Insurance Reserves | | 1.3 | | 1.4 | |
| Pension and Post-retirement benefits (FAS 158) | | 9.1 | | 10.5 | |
| Medical Benefits | | 4.3 | | 4.1 | |
| Capitalized energy conservation assistance costs | | 22.9 | | 23.8 | |
| Other | | 1.4 | | 12.0 | |
| Total deferred income tax assets | | 43.2 | | 44.1 | |
| Deferred income tax liabilities | | | | | |
| Property related | \$ | (71,1) | \$ | (58.5) | |
| Hedging Activities (FAS 133) | | (3.0) | | (3.0) | |
| Pension and Post-retirement benefits (FAS 158) | | (9.1) | | (10.5) | |
| Deferred Fuel | | (4.1) | | (2.7) | |
| Pension | | (2.2) | | (2.2) | |
| Other | | - | | (1.7) | |
| Total deferred income tax liabilities | | (89.5) | | (78.6) | |
| Net deferred income taxes | \$ | (46.3) | \$ | (34.5) | |

⁽¹⁾ Certain property related assets and liabilities have been netted

Deferred income tax assets and liabilities are included in the balance sheet as follows:

| (millions) | Dec 31, 2010 | Dec 31, 2009 |
|--------------------------------------|-----------------|-----------------|
| Current deferred tax assets | \$ - | \$ - |
| Current deferred tax liabilities | 4.0 | (2.4) |
| Non-current deferred tax liabilities | (46.3) | (32.1) |
| Total | \$ (46.3) | \$ (34.5) |

The total income tax provisions differ from amounts computed by applying the federal statutory tax rate to income before income taxes for the following reasons:

| Effective Income Tax Rate (millions) | Dec 31, 2010 | | Dec 31, 2009 | | |
|--|-----------------|-------|-----------------|-------|--|
| Net income | \$ | 34.1 | \$ | 31.9 | |
| Total income tax provision | | 21.2 | | 13.3 | |
| Income before income taxes | _ | 55,3 | | 45.2 | |
| Income taxes on above at federal statutory rate of 35% | | 19.4 | | 15.8 | |
| Increase (decrease) due to | | | | | |
| State income tax, net of federal income tax | | 2.0 | | 1.6 | |
| FAS 109 | | | | (4.0) | |
| Other | | (0.1) | | (0.1) | |
| Total income tax provision | \$ | 21.3 | \$ | 13.3 | |
| Provision for income taxes as a percent of income | | | | | |
| from continuing operations, before income taxes | | 38.4% | | 29.5% | |

The company accounts for uncertain tax positions as required by FASB accounting guidance. This guidance addresses the determination of whether tax benefits claimed or expected to be claimed on a tax return should be recorded in the financial statements. Under the guidance, the company may recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The tax benefits recognized in the financial statements from such a position should be measured based on the largest benefit that has a greater than fifty percent likelihood of being realized upon ultimate settlement. The guidance also provides guidance on derecognition, classification, interest and penalties on income taxes, accounting in interim periods and requires increased disclosures.

The company recognizes interest and penalties associated with uncertain tax positions in "Operation other expense – Other" in the Statement of Income. The company had no amounts accrued for the payment of interest or penalties at Dec. 31, 2010.

The Internal Revenue Service (IRS) concluded its examination of federal income tax returns for the year 2009 during 2010. The U.S. federal statute of limitations remains open for the year 2007 and onward. Year 2010 is currently under examination by the IRS under the Compliance Assurance Program, a program in which TECO Energy is a participant. Florida's statute of limitations is 3 years from the filing of an income tax return. The state impact of any federal changes remains subject to examination by various states for a period of up to one year after formal notification to the states. Years still open to examination by Florida's tax authorities include 2007 and onward. The company does not expect the settlement of audit examinations to significantly change the total amount of unrecognized tax benefits within the next 12 months.

5. Employee Postretirement Plan

PGS recognizes in its statement of financial position the over-funded or under-funded status of its postretirement benefit plans. This status is measured as the difference between the fair value of plan assets and the projected benefit obligation (PBO) in the case of its defined benefit plan, or the accumulated postretirement benefit obligation (APBO) in the case of its other postretirement benefit plan. As a result of the application of the accounting guidance for certain types of regulation, changes in the funded status are reflected, net of estimated tax benefits, in the benefit liabilities and regulatory assets.

Pension Benefits

PGS is a participant in the comprehensive retirement plans of TECO Energy, including a non-contributory defined benefit retirement plan that covers substantially all employees. Benefits are based on employees' age, years of service and final average earnings. Where appropriate and reasonably determinable, the portion of expenses, income, gains or losses allocable to PGS are presented. Otherwise, such amounts presented reflect the amount allocable to all participants of the TECO Energy retirement plans.

The Pension Protection Act of 2006 (PPA), became effective Jan. 1, 2008 and requires companies to, among other things, maintain certain defined minimum funding thresholds (or face plan benefit restrictions), pay higher premiums to the Pension Benefit Guaranty Corporation if they sponsor defined benefit plans, amend plan documents and provide additional plan disclosures in regulatory filings and to plan participants.

The Worker, Retiree, and Employer Recovery Act of 2008 (WRERA) was signed into law on Dec. 23, 2008. WRERA grants plan sponsors relief from certain funding requirements and benefits restrictions, and also provides some technical corrections to the PPA. There are two primary provisions that impact funding results for TECO Energy. First, for plans funded less than 100%, required shortfall contributions will be based on a percentage of the funding target until 2011, rather than the funding target of 100%. These percentages are 94% and 96% in 2009 and 2010, respectively. Second, one of the technical corrections, referred to as asset smoothing, allows the use of asset averaging subject to certain limitations in the

determination of funding requirements. The Jan. 1, 2010 estimate reflects adoption of the asset smoothing methodology under WRERA.

The qualified pension plan's actuarial value of assets, including credit balance, was 90.0% of the PPA funded target as of Jan. 1, 2010 and is estimated at 80% of the PPA funded target as of Jan. 1, 2011.

Amounts disclosed for pension benefits also include the unfunded obligations for the supplemental executive retirement plan (SERP). This is a non-qualified, non-contributory defined benefit retirement plan available to certain members of senior management.

Other Postretirement Benefits

TECO Energy and its subsidiaries currently provide certain postretirement health care and life insurance benefits for substantially all employees retiring after age 50 meeting certain service requirements. Where appropriate and reasonably determinable, the portion of expenses, income, gains or losses allocable to PGS are presented. Otherwise, such amounts presented reflect the amount allocable to all participants of the TECO Energy postretirement health care and life insurance plans. Postretirement benefit levels are substantially unrelated to salary. The company reserves the right to terminate or modify the plans in whole or in part at any time.

The Medicare Prescription Drug, Improvement and Modernization Act of 2003 (MMA) added prescription drug coverage to Medicare, with a 28% tax-free subsidy to encourage employers to retain their prescription drug programs for retirees, along with other key provisions. TECO Energy's current retiree medical program for those eligible for Medicare (generally over age 65) includes coverage for prescription drugs. The company has determined that prescription drug benefits available to certain Medicare-eligible participants under its defined-dollar-benefit postretirement health care plan are at least "actuarially equivalent" to the standard drug benefits that are offered under Medicare Part D.

The FASB issued accounting and disclosure requirements related to the MMA. The guidance requires (a) that the effects of the federal subsidy be considered an actuarial gain and recognized in the same manner as other actuarial gains and losses and (b) certain disclosures for employers that sponsor postretirement health care plans that provide prescription drug benefits.

In March 2010, the Patient Protection and Affordability Care Act and a companion bill, The Health Care and Education Reconciliation Act were signed into law. Among other things, both acts reduce the tax benefits available to an employer that receives the Medicare Part D subsidy, resulting in a write-off of any associated deferred tax asset. As a result, PGS reduced its deferred tax asset by \$0.5 million and recorded a regulatory tax asset of \$0.5 million.

Additionally, the Health Care Reform Acts contain other provisions that may impact PGS's obligation for retiree medical benefits. In particular, the Health Care Reform Acts include a provision that imposes an excise tax on certain high-cost plans beginning in 2018, whereby premiums paid over a prescribed threshold will be taxed at a 40% rate. PGS does not currently believe the excise tax or other provisions of the Health Care Reform Acts will materially increase its postretirement benefit obligation. Accordingly, a re-measurement of PGS's postretirement benefit obligation is not required at this time. However, PGS will continue to monitor and assess the impact of the Health Care Reform Acts, including any clarifying regulations issued to address how the provisions are to be implemented, on its future results of operations, cash flows or financial position.

PGS received subsidy payments under Part D for the 2008 and 2009 plan years, along with payments for the first three quarters of 2010. PGS expects to receive the fourth quarter 2010 plan year payment later this year.

The following charts summarize the income statement and balance sheet impacts for TECO Energy, as well as the benefit obligations, assets, and funded status:

| TECO Energy Consolidated | Pension B | Benefits | Other Benefits | | |
|---|-----------|----------|----------------|-----------|--|
| Obligations and Funded Status (millions) | 2010 | 2009 | 2010 | 2009 | |
| Change in benefit obligation | 2510 | 2007 | 2010 | 2002 | |
| Net benefit obligation at prior measurement date (1) | \$587.7 | \$555.4 | \$207.6 | \$188.9 | |
| Service cost | 16.1 | 15.7 | 3.1 | 2.9 | |
| Interest cost | 33.2 | 33.7 | 10.9 | 11.2 | |
| Plan participants' contributions | 0.0 | 0.0 | 3.6 | 3.5 | |
| Actuarial loss (gain) | 12.4 | 29.6 | 11.8 | 16.6 | |
| Plan amendments | 0.0 | 0.4 | 0.0 | 0.0 | |
| Curtailment | 0.0 | (0.8) | 0.0 | 0.0 | |
| Gross benefits paid | (34.2) | (46.3) | (16.7) | (16.4) | |
| Settlements | (4.9) | 0.0 | 0.0 | 0.0 | |
| Federal subsidy on benefits paid | n/a | n/a | 1.7 | 0.9 | |
| Net benefit obligation at measurement date (1) | \$610.3 | \$587.7 | \$222.0 | \$207.6 | |
| Change in plan anoth | | | | | |
| Change in plan assets | \$388.9 | \$360.7 | \$0.0 | \$0.0 | |

| Actual return on plan assets (2) | | | | | |
| Employer contributions | 87.6 | 8.2 | 11.5 | 12.9 | |
| Plan participants' contributions | 0.0 | 0.0 | 3.6 | 3.5 | |
| Settlements | (4.9) | 0.0 | 0.0 | 0.0 | |
| Gross benefits paid | (34.2) | (46.3) | (15.1) | (16.4) | |
| Fair value of plan assets at measurement date (1) | \$479.7 | \$388.9 | \$0.0 | \$0.0 | |
| Funded status | | | | | |
| Fair value of plan assets (3) | \$479.7 | \$388.9 | \$0.0 | \$0.0 | |
| Benefit obligation (PBO/APBO) | 610.3 | 587.7 | 222.0 | 207.6 | |
| Funded status at measurement date (1) | (130.6) | (198.8) | (222.0) | (207.6) | |
| Unrecognized net actuarial loss | 220.8 | 228.7 | 31.9 | 18.3 | |
| Unrecognized prior (benefit) service cost | (1.7) | (2.1) | 5.7 | 6.5 | |
| Unrecognized net transition obligation | 0.0 | 0.0 | 4.2 | 6.5 | |
| Accrued liability at end of year | \$88.5 | \$27.8 | (\$180.2) | (\$176.3) | |
| Amounts Recognized in Balance Sheet | | | | | |
| Regulatory assets | \$176.3 | \$181.7 | \$61.2 | \$47.4 | |
| Accrued benefit costs and other current liabilities | (4.4) | (7.2) | (13.8) | (13.4) | |
| Deferred credits and other liabilities | (126.2) | (191.6) | (208.2) | (194.2) | |
| Accumulated other comprehensive loss (income) (pretax) | 42.8 | 44.9 | (19.4) | (16.1) | |
| Net amount recognized at end of year | \$88.5 | \$27.8 | (\$180.2) | (\$176.3) | |

⁽¹⁾ The measurement dates were Dec. 31, 2010 and Dec. 31, 2009.

⁽²⁾ The actual return on plan assets differed from expectations due to general market conditions.

⁽³⁾ The Market Related Value (MRV) of plan assets is used as the basis for calculating the expected return on plan assets (EROA) component of periodic pension expense. MRV reflects the fair value of plan assets adjusted for experience gains and losses (i.e. the differences between actual investment returns and expected returns) spread over five years.

| PGS | Pension Benefits | | | | Other Benefits | | | |
|---|------------------|--------|----|--------|----------------|--------|----|--------|
| Amounts recognized in balance sheet (millions) | | 2010 | | 2009 | | 2010 | | 2009 |
| Regulatory assets | \$ | 25.2 | \$ | 27.6 | \$ | (1.7) | \$ | (0.2) |
| Accrued benefit costs and other current liabilities | | (0.8) | | (3.0) | | (0.5) | | (0.6) |
| Deferred credits and other liabilities | | (16.3) | | (24.2) | | (12.3) | | (13.1) |
| Net amount recognized at end of year | \$ | 8.1 | S | 0.4 | S | (14.5) | \$ | (13.9) |

The accumulated benefit obligation for TECO Energy Consolidated defined benefit pension plans was \$558.4 million at Dec. 31, 2010 and \$530.1 million at Dec. 31, 2009.

Assumptions used to determine benefit obligations at Dec. 31, 2010 and 2009:

| | Pension Benefits | | Other 1 | Benefits |
|--|------------------|-------|---------|----------|
| | 2010 | 2009 | 2010 | 2009 |
| Discount rate | 5.30% | 5.75% | 5.25% | 5.60% |
| Rate of compensation increase - weighted | 3.88% | 4.25% | 3.87% | 4.25% |
| Healthcare cost trend rate | | | | |
| Initial rate | n/a | n/a | 8.00% | 8.00% |
| Ultimate rate | n/a | n/a | 4.50% | 5.00% |
| Year rate reaches ultimate | n/a | n/a | 2023 | 2016 |

A one-percentage-point change in assumed health care cost trend rates would have the following effect on PGS's benefit obligation:

| (millions) | | rease | Decrease | | |
|---|----|-------|----------|-------|--|
| Effect on postretirement benefit obligation | \$ | 0.4 | \$ | (0.2) | |

Components of TECO Energy Consolidated net periodic benefit cost

| | Pension Benefits | | | | Other Benefits | | | | |
|--------------------------------|------------------|--------|---------|----------|----------------|----------|----|------|--|
| (millions) | 2010 (1) 20 | | 009 (1) | 2010 (1) | | 2009 (1) | | | |
| Service cost | \$ | 16.2 | \$ | 15.7 | \$ | 3.2 | \$ | 2.9 | |
| Interest cost | | 33.2 | | 33.6 | | 10.9 | | 11.3 | |
| Expected return on plan assets | | (36.3) | | (37.8) | | 0.0 | | 0.0 | |
| Amortization of: | | | | | | | | | |
| Actuarial loss | | 12.4 | | 8.7 | | 0.0 | | 0.0 | |
| Prior service (benefit) cost | | (0.4) | | (0.4) | | 0.8 | | 0.8 | |
| Transition obligation | | 0.0 | | 0.0 | | 2.3 | | 2.3 | |
| Curtailment loss (benefit) | | 0.0 | | 0.2 | | 0.0 | | 0.0 | |
| Settlement loss | | 1.6 | | 0.0 | | 0.0 | | 0.0 | |
| Net periodic benefit cost | \$ | 26.7 | \$ | 20.0 | \$ | 17.2 | \$ | 17.3 | |

⁽¹⁾ Benefit Cost was measured for the twelve months ended Dec. 31, 2010 and 2009.

PGS' portion of the net periodic benefit costs for pension benefits was \$2.9 million and \$2.7 million for 2010 and 2009, respectively. PGS's portion of the net periodic benefit costs for other benefits was \$1.5 million and \$1.4 million for 2010 and 2009, respectively.

The estimated net loss and prior service benefit for the defined benefit pension plans that will be amortized by PGS from regulatory assets into net periodic benefit cost over the next fiscal year are \$1.4 million and \$0.1 million, respectively. The estimated transition obligation and prior service cost for the other postretirement benefit plan that will be amortized by PGS from regulatory assets into net periodic benefit cost over the next fiscal year total \$0.2 million and \$0.1 million.

Assumptions used to determine net periodic benefit cost for years ended Dec. 31,

| | Pension Benefits | | Other I | Benefits | |
|--|------------------|-------|---------|----------|--|
| | 2010 | 2009 | 2010 | 2009 | |
| Discount rate | 5.75% | 6.05% | 5.60% | 6.05% | |
| Expected long-term return on plan assets | 8.25% | 8.25% | n/a | n/a | |
| Rate of compensation increase | 4.25% | 4.25% | 4.25% | 4.25% | |
| Healthcare cost trend rate | | | | | |
| Initial rate | n/a | n/a | 8.00% | 8.50% | |
| Ultimate rate | n/a | n/a | 5.00% | 5.00% | |
| Year rate reaches ultimate | n/a | n/a | 2017 | 2016 | |

The discount rate assumption was based on a cash flow matching technique developed by our outside actuaries and a review of current economic conditions. This technique matches the yields from high-quality (Aa-graded, non-callable) corporate bonds to the company's projected cash flows for the benefit plans to develop a present value that is converted to a discount rate.

The expected return on assets assumption was based on historical returns, fixed income spreads and equity premiums consistent with our portfolio and asset allocation. A change in asset allocations could have a significant impact on the expected return on assets. Additionally, expectations of long-term inflation, real growth in the economy and a provision for active management and expenses paid were incorporated in the assumption. For the year ended Dec. 31, 2010, TECO Energy's pension plan experienced actual asset returns of approximately 11%.

The compensation increase assumption was based on the same underlying expectation of long-term inflation together with assumptions regarding real growth in wages and company-specific merit and promotion increases.

A one-percentage-point change in assumed health care cost trend rates would have no effect on PGS's expense.

Pension Assets

Pension plan assets (plan assets) are invested in a mix of equity and fixed income securities. TECO Energy's investment objective is to obtain above-average returns while minimizing volatility of expected returns and funding requirements over the long term. TECO Energy's strategy is to hire proven managers and allocate assets to reflect a mix of investment styles, emphasize preservation of principal to minimize the impact of declining markets, and stay fully invested except for cash to meet benefit payment obligations and plan expenses.

| | Target | Actual Allocation | n, End of Year |
|-------------------------|------------|-------------------|----------------|
| Asset Category | Allocation | 2010 | 2009 |
| Equity securities | 55% | 56% | 66% |
| Fixed income securities | 45% | 44% | 34% |
| Total | 100% | 100% | 100% |

TECO Energy reviews the plan's asset allocation periodically and re-balances the investment mix to maximize asset returns, optimize the matching of investment yields with the plan's expected benefit obligations, and minimize pension cost and funding. TECO Energy expects to take additional steps to more closely match plan assets with plan liabilities.

The plan's investments are held by a trust fund administered by JP Morgan Chase Bank, N.A. (JP Morgan). JP Morgan measures fair value using the procedures set forth below for all investments. When available, JP Morgan uses quoted market prices on investments traded on an exchange to determine fair value and classifies such items as Level 1. In some cases where a market exchange price is available, but the

investments are traded in a secondary market, JP Morgan makes use of acceptable practical expedients to calculate fair value, and the company classifies these items as Level 2.

If observable transactions and other market data are not available, fair value is based upon third party developed models that use, when available, current market-based or independently-sourced market parameters such as interest rates, currency rates or option volatilities. Items valued using third party generated models are classified according to the lowest level input or value driver that is most significant to the valuation. Thus, an item may be classified in Level 3 even though there may be significant inputs that are readily observable.

The following table sets forth by level within the fair value hierarchy the plan's investments as of December 31, 2010 and December 31, 2009. As required by the fair value accounting standards, the investments are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The plan's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels. For cash equivalents, the cost approach was used in determining fair value. For bonds and U.S. government agencies, the income approach was used. For other investments, the market approach was used.

| (millions) | At | Fair Value as o | f Dec. 31, 2010 | |

- Cash equivalents, excluding the STIF, are valued using cost due to their short term nature. Additionally, cash
 equivalents are backed by 102% collateral.
- The STIF is a money market mutual fund and is valued using the net asset value (NAV), as determined by the fund's
 trustee in accordance with U.S. GAAP, at year end. Shares may be sold any day the fund is accepting purchase orders,
 at the next NAV calculated after the order is accepted. The NAV is validated with purchases and sales at NAV,
 making this a Level 1 asset.
- The primary pricing inputs in determining the fair value of the Level 1 assets, excluding the mutual fund, are quoted prices in active markets.
- The primary pricing inputs in determining the fair value of Level 2 preferred stock and ADR are prices of similar securities and benchmark quotes.
- The commingled fund invests primarily in international equity securities, normally excluding securities issued in the U.S., with large- and mid-market capitalizations. The fund may invest in "value" or "growth" securities and is not limited to a particular investment style. The fund is valued using the NAV, as determined by the fund's trustee in accordance with U.S. GAAP, at year end. For redemption, written notice of the amount to be withdrawn must be given no later than 4:00 p.m. eastern standard time.
- The primary pricing input in determining the Level 1 mutual fund is the mutual fund's NAV. The Level 1 mutual fund
 is an open-ended mutual fund and the NAV is validated with purchases and sales at NAV, making this a Level 1 asset.
- The primary pricing inputs in determining the fair value Level 2 municipal bonds are benchmark yields, historical spreads, sector curves, rating updates, and prepayment schedules. The primary pricing inputs in determining the fair value of government bonds are the U.S. treasury curve, CPI, and broker quotes, if available. The primary pricing inputs in determining the fair value of corporate bonds are the U.S. treasury curve, base spreads, YTM, and benchmark quotes. Asset backed securities (ABS) and collateralized mortgage obligations (CMO) are priced using TBA prices, treasury curves, swap curves, cash flow information, and bids and offers as inputs. Mortgage backed securities (MBS) are priced using TBA prices, treasury curves, average lives, spreads, and cash flow information.
- The primary pricing input in determining the fair value of the Level 2 mutual fund is its NAV at year end. Shares may be purchased at the NAV without sales charges or other fees. Since this mutual fund is a private fund, it is a Level 2 asset. The fund invests primarily in emerging market fixed income securities. For redemption, written notice of the amount to be withdrawn must be given no later than 4:00 p.m. eastern standard time. Redemption proceeds will normally be received within three business days.

 The level 2 options are valued using the bid-ask spread and the last price. Swaps are valued using benchmark yields, swap curves, and cash flow analyses.

Other Postretirement Benefit Plan Assets

There are no assets associated with TECO Energy's other postretirement benefits plan.

Contributions

TECO Energy's policy is to fund the qualified pension plan at or above amounts determined by its actuaries to meet ERISA guidelines for minimum annual contributions and minimize PBGC premiums paid by the plan. TECO Energy contributed \$81.3 million to this plan in 2010 and \$6.7 million in 2009, which met the minimum funding requirements for both 2010 and 2009. PGS's portion of the contribution in 2010 and 2009 was \$7.4 million and \$0.4 million, respectively. TECO Energy does not plan on making a contribution in 2011 since the contributions made in 2010 satisfy the funding requirements for 2011. TECO Energy estimates annual contributions to range from \$35 - \$50 million per year in 2012 to 2015 based on current assumptions. PGS's portion of the contributions range from \$4 -\$5 million per year in 2012 to 2015.

The SERP is funded annually to meet the benefit obligations. TECO Energy made contributions of \$6.3 million and \$1.5 million to this plan in 2010 and 2009, respectively. PGS's portion of the contributions in 2010 and 2009 were \$3.1 million and \$1.0 million, respectively. In 2011, TECO Energy expects to make a contribution of about \$4.4 million to this plan. PGS's portion of the expected contribution is \$0.8 million.

The other postretirement benefits are funded annually to meet benefit obligations. TECO Energy's contribution toward health care coverage for most employees who retired after the age of 55 between Jan. 1, 1990 and Jun. 30, 2001 is limited to a defined dollar benefit based on service. TECO Energy contribution toward pre-65 and post-65 health care coverage for most employees retiring on or after Jul. 1, 2001 is limited to a defined dollar benefit based on an age and service schedule. In 2011, TECO Energy expects to make a contribution of about \$13.8 million. PGS's portion of the expected contribution is \$0.5 million.

Benefit Payments

The following benefit payments, which reflect expected future service, as appropriate, are expected to be paid:

| Expected Benefit Payments - TECO Energy Consolidated (including projected service and net of employee contributions) | | ension enefits | Other Postretirement Benef | | 3enefits | |
|--|----|-------------------|----------------------------|-------|----------|----------------------|
| Expected benefit payments (millions): | | | | Gross | | ed Federal ibsidy |
| 2011 | 8 | 41.7 | 8 | 15.1 | \$ | 1.3 |
| 2012 | S | 44.7 | 5 | 15.9 | \$ | 1.4 |
| 2013 | \$ | 45.0 | \$ | 16.7 | \$ | 1.6 |
| 2014 | \$ | 46.7 | S | 17.5 | S | 1.8 |
| 2015 | \$ | 47.5 | \$ | 18.0 | \$ | 1.9 |
| 2016-2020 | S | 273.5 | \$ | 96.4 | \$ | 11.7 |

Defined Contribution Plan

TECO Energy has a defined contribution savings plan covering substantially all employees of TECO Energy and its subsidiaries (the Employers) that enables participants to save a portion of their compensation up to the limits allowed by IRS guidelines. TECO Energy and its subsidiaries match up to 6% of the participant's payroll savings deductions. Effective April 2010, employer matching contributions were 60% of eligible participant contributions with additional incentive match of up to 40% of eligible participant contributions based on the achievement of certain operating company financial goals. Prior to this, the employer matching contributions were 50% of eligible participant contributions, with an additional incentive match of up to 50%. For the years ended Dec. 31, 2010, 2009 and 2008, TECO Energy and its subsidiaries recognized expense totaling \$12.6 million, \$8.1 million and \$7.1 million, respectively, related to the

matching contributions made to this plan. PGS's portion of expense totaled \$1.0 million and \$1.2 million for 2010 and 2009, respectively.

6. Short-Term Debt

The weighted average interest rate on outstanding notes payable at both December 31, 2010 and 2009 was 0.64%, respectively. Credit facilities of \$475.0 million exist of which \$12.0 million was drawn at December 31, 2010 with an allocated amount of \$12.0 million to Peoples Gas System.

7. Long-Term Debt

Tampa Electric Company Exchange Offer and Issuance of 5.40% Notes due 2021

On Dec. 14, 2010, Tampa Electric Company completed an exchange offer (the Exchange Offer) which resulted in the exchange of approximately \$278.5 million principal amount of Tampa Electric Company notes for approximately \$278.5 million principal amount of Tampa Electric Company 5.40% Notes due 2021.

The Exchange Offer resulted in the exchange and retirement of approximately:

- •\$131.5 million principal amount of Tampa Electric Company 6.875% Notes due 2012
- •\$147.0 million principal amount of Tampa Electric Company 6.375% Notes due 2012

for approximately \$278.5 million principal amount of newly issued Tampa Electric Company 5.40% Notes due 2021. \$46.7 million of the \$278.5 million principal is included under the Long-Term debt portion of the PGS Balance Sheet.

The 5.40% Notes bear interest at a rate of 5.40% per year, payable on May 15 and November 15 each year, beginning May 15, 2011 and mature May 15, 2021. Tampa Electric Company may redeem some or all of the 5.40% Notes at a price equal to the greater of (i) 100% of the principal amount of the applicable Tampa Electric Company Notes to be redeemed, plus accrued and unpaid interest, or (ii) the net present value of the remaining payments of principal and interest on the Tampa Electric 5.40% Notes, discounted at the applicable treasury rate (as defined in the applicable supplemental indenture), plus 25 basis points. Such redemption price would include accrued and unpaid interest to the redemption date.

After the Exchange Offer, approximately \$118.6 million principal amount of Tampa Electric Company 6.875% Notes due 2012 and \$253.0 million principal amount of Tampa Electric Company 6.375% Notes due 2012 remain outstanding. Of the remaining outstanding, \$19.0 million of the principle amount of the 6.875% Notes due 2012 and \$44.3 of the principle amount of the 6.375% Notes due 2012 remain on the Balance Sheet for PGS. In accordance with allowed regulatory treatment, the unamortized costs are being amortized over the life of the original notes.

8. Commitments and Contingencies

Legal Contingencies

Merco Group at Adventura Landings v. Peoples Gas System

In October 2004, Merco Group at Adventura Landings I, II and III (together, "Merco"), filed suit against Peoples Gas System in Dade County Circuit Court, and in its second amended complaint under that action, Merco alleges that coal tar from a certain former Peoples Gas manufactured gas plant site had been deposited in the early 1960s onto property now owned by Merco. Merco alleges that it incurred approximately \$2.5 million in costs associated with the removal of such coal tar, and recently provided expert testimony claiming \$110 million plus interest in damages from lost profits due to the delay in its condominium development project allegedly caused by the presence of the coal tar. Peoples Gas maintains that the coal tar did not

originate from its manufactured gas plant site and has filed a third-party complaint against Continental Holdings, Inc., which Merco also added as a defendant in its suit, as the owner at the relevant time of the site that Peoples Gas believes was the source of the coal tar on Merco's property. Additionally, Peoples Gas has filed a counterclaim against Merco for contribution for its portion of the damages, in the event Peoples Gas is found liable any damages associated with the coal tar, alleging Merco is a responsible party based in part on its purchasing the property with knowledge of the presence of the coal tar. In February 2011, the trial judge granted partial summary judgment to Merco and shifted the burden of proof to Peoples Gas and Continental Holdings to prove the coal tar did not come from their respective manufactured gas plant sites. Trial is scheduled for April 2011. As of the filing of this report, the ultimate resolution of this proceeding is uncertain and no potential loss has been accrued.

Former Manufactured Gas Plant Sites

Peoples Gas System is a potentially responsible party (PRP) for certain former manufactured gas plant sites. While the joint and several liability associated with these sites presents the potential for significant response costs, as of December 31, 2010, PGS has estimated its ultimate financial liability to be approximately \$21.2 million, primarily at PGS. This amount has been accrued an is primarily reflected in "Regulatory Liabilities" on the balance sheet. The environmental remediation costs associated with these sites, which are expected to be paid over many years, are not expected to have a significant impact on customer prices.

The estimated amounts represent only the estimated portion of the cleanup costs attributable to PGS. The estimates to perform the work are based on actual estimates obtained from contractors, or PGS' experience with similar work adjusted for site specific conditions and agreements with the respective governmental agencies. The estimates are made in current dollars, are not discounted and do not assume any insurance recoveries.

Allocation of the responsibility for remediation costs among Peoples Gas System and other PRPs is based on each party's relative ownership interest in or usage of a site. Accordingly, PGS' share of remediation costs varies with each site. In virtually all instances where other PRPs are involved, those PRPs are considered creditworthy.

Factors that could impact these estimates include the ability of other PRPs to pay their pro-rata portion of the cleanup costs, additional testing and investigation which could expand the scope of the cleanup activities, additional liability that might arise from the cleanup activities themselves or changes in laws or regulations that could require additional remediation. These costs are recoverable through customer rates established in subsequent base rate proceedings.

9. Related Party Transactions

Net transactions with affiliates are as follows:

| (millions) | 2010 | 2009 |
|---------------------------------|-------|-------|
| Administrative and general, net | \$3.9 | \$4.4 |

Amounts due from or to affiliates of the company at year-end are as follows:

| (millions) | 2010 | 2009 |
|---------------------|--------|-------|
| Accounts receivable | \$1.0 | \$2.9 |
| Accounts payable | \$16.6 | \$8.1 |

PGS had certain transactions, in the ordinary course of business, with entities in which directors of the company had interests. The company paid legal fees of \$32 thousand for the year ended December 31,

10. Asset Retirement Obligations

Peoples Gas System accounts for asset retirement obligations under applicable accounting standards. An asset retirement obligation (ARO) for a long-lived asset is recognized at fair value at inception of the obligation if there is a legal obligation under an existing or enacted law or statute, a written or oral contract, or by legal construction under the doctrine of promissory estoppel. Retirement obligations are recognized only if the legal obligation exists in connection with or as a result of the permanent retirement, abandonment or sale of a long-lived asset.

When the liability is initially recorded, the carrying amount of the related long-lived asset is correspondingly increased. Over time, the liability is accreted to its estimated future value. The corresponding amount capitalized at inception is depreciated over the remaining useful life of the asset. The liability must be revalued each period based on current market prices.

As a regulated utility, PGS must file depreciation studies periodically and receive approval from the FPSC before implementing new depreciation rates. Included in approved depreciation rates is either an implicit net salvage factor or a cost of removal factor, expressed as a percentage. The net salvage factor is principally comprised of two components – a salvage factor and a cost of removal factor. The company uses current cost of removal factors as part of the estimation method to approximate the amount of cost of removal in accumulated depreciation.

11. Accounting for Derivatives and Hedging

From time to time, PGS enters into swaps and option contracts for the following purposes:

- to limit the exposure to price fluctuations for physical purchases and sales of natural gas in the course of normal operations and
- to limit the exposure to interest rate fluctuations on debt securities.

The company uses derivatives only to reduce normal operating and market risks, not for speculative purposes. The company's primary objective in using derivative instruments for regulated operations is to reduce the impact of market price volatility on ratepayers.

The risk management policies adopted by the company provide a framework through which management monitors various risk exposures. Daily and periodic reporting of positions and other relevant metrics are performed by a centralized risk management group which is independent of all operating companies.

The company applies the accounting standards for derivatives and hedging. These standards require companies to recognize derivatives as either assets or liabilities in the financial statements, to measure those instruments at fair value, and to reflect the changes in the fair value of those instruments as either components of other comprehensive income (OCI) or in net income, depending on the designation of those instruments (See Note 13). The changes in fair value that are recorded in OCI are not immediately recognized in current net income. As the underlying hedged transaction matures or the physical commodity is delivered, the deferred gain or loss on the related hedging instrument must be reclassified from OCI to earnings based on its value at the time of the instrument's settlement. For effective hedge transactions, the amount reclassified from OCI to earnings is offset in net income by the market change of the amount paid or received on the underlying physical transaction.

The company applies accounting standards for regulated operations to financial instruments used to hedge the purchase of natural gas for the regulated companies. These standards, in accordance with the FPSC, permit the changes in fair value of natural gas derivatives to be recorded as regulatory assets or

liabilities to reflect the impact of hedging activities on the fuel recovery clause. As a result, these changes are not recorded in OCI (see Note 3).

A company's physical contracts qualify for the normal purchase/normal sale (NPNS) exception to derivative accounting rules, provided they meet certain criteria. Generally, NPNS applies if the company deems the counterparty creditworthy, if the counterparty owns or controls resources within the proximity to allow for physical delivery of the commodity, if the company intends to receive physical delivery and if the transaction is reasonable in relation to the company's business needs. As of December 31, 2010, all of the company's physical contracts qualify for the NPNS exception.

The following tables presents the derivative hedges of natural gas contracts at December 31, 2010 and December 31, 2009 to limit the exposure to changes in the market price for natural gas used to produce energy and natural gas purchased for resale to customers:

| Natural Gas Derivatives (millions) | Dec 31 2010 | Dec 31, 2009 |
|------------------------------------|----------------|-----------------|
| Current assets | \$ | \$ - |
| Long-term assets | \$ - | \$ - |
| Total assets | \$ - | \$ - |
| Current liabilities(1) | \$ 7. | I \$ 6. |
| Long-term labilities | \$ 0. | 8 \$ 0. |
| Total liabilities | \$ 7. | 9 \$ 7. |
| | | |

⁽¹⁾ Amounts presented above are on a gross basis, with asset and liability positions netted by counterparty in accordance with accounting standards for derivtives and hedging.

The following table presents the effects of energy related derivatives on the fuel recovery clause mechanism in the balance sheet as of December 31, 2010:

Energy Related Derivatives

| | Asset Derivatives | | | Liability Derivatives | | | | |
|------------------------------------|-------------------------------|------------|-----|---------------------------------------|----|-----|------|-------|
| (millions) at December 31, 2010 | Balance Sheet Location (1) | Fair Value | | Balance Sheet Fair Value Location (1) | | | Fair | Value |
| Natural gas derivatives: | | | | | | | | |
| Current | Regulatory Liabilities | \$ | - | Regulatory assets | \$ | 7.1 | | |
| Long-term | Regulatory Liabilities | | | Regulatory assets | | 0.8 | | |
| Total | | \$ | 9.2 | | \$ | 7.9 | | |

⁽¹⁾ Natural gas derivatives are deferred in accordance with accounting standards for regulated operations and all increases and decreases in the cost of natural gas supply are passed on to customers with the fuel recovery clause mechanism. As gains and losses are realized in future periods, they will be recorded as fuel costs in the Statement of Income.

Based on the fair value of the instruments at December 31, 2010, net pretax losses of \$7.1 million are expected to be reclassified from regulatory assets to the Statements of Income within the next twelve months.

The following table presents the effect of hedging instrument on OCI and income for the years ended December 31:

| | Amount of Gain/(Loss) on Derivatives | | Location of Gain/(Loss) Reclassified from AOCI into Income | | | |
|--------------------------|---|----|--|----|-------|--|
| (millions) | Recognized in OCI Dec 31, 2010 | | Dec 31, 2009 | | | |
| Derivatives in Cash Flow | | | · · · · · · · · · · · · · · · · · · · | | | |
| Hedging Relationships | Effective Portion(1) | | | | | |
| Interest rate contracts | Interest Expense | \$ | (0.2) | \$ | (0.2) | |
| Total | | \$ | (0.2) | \$ | (0.2) | |

⁽¹⁾ Changes in OCI and AOCI are reported in after-tax dollars.

For derivative instruments that meet cash flow hedge criteria, the effective portion of the gain or loss on the derivative is reported as a component of OCI and reclassified into earnings in the same period or period during which the hedged transaction affects earnings. Gains and losses on the derivatives representing either hedge ineffectiveness or hedge components excluded from the assessment of effectiveness are recognized in current earnings. For the years ended December 31, 2010 and 2009, all hedges were effective.

The maximum length of time over which the company is hedging its exposure to the variability in future cash flows extends to December 31, 2012 for the financial natural gas contracts. The following table presents the commodity type of the company's derivative volumes that as of December 31, 2010, are expected to settle during the 2011 and 2012 fiscal years:

| (millions) | Natural Gas Contracts (MMBTUs) | | | |
|------------|--|-----------|--|--|
| Year | Physical | Financial | | |
| 2011 | | 6.7 | | |
| 2012 | a de la companya de l | 1.7 | | |
| Total | | 8.4 | | |

PGS is exposed to credit risk primarily through entering into derivative instruments with counterparties to limit its exposure to the commodity price fluctuations associated with natural gas. Credit risk is the potential loss resulting from a counterparty's nonperformance under an agreement. The company manages credit risk with policies and procedures for, among other things, counterparty analysis, exposure measurement, and exposure monitoring and mitigation.

It is possible that volatility in commodity prices could cause PGS to have material credit risk exposures with one or more counterparties. If such counterparties fail to perform their obligations under one or more agreements, the company could suffer a material financial loss. However, as of December 31, 2010, substantially all of the counterparties with transaction amounts outstanding in the company's energy portfolio are rated investment grade by the major rating agencies. The company assesses credit risk internally for counterparties that are not rated.

PGS has implemented procedures to monitor the creditworthiness of our counterparties and to consider nonperformance in valuing counterparty positions. The company monitors counterparties' credit standing, including those that are experiencing financial problems, have significant swings in credit default swap rates, have credit rating changes by external rating agencies, or have changes in ownership. Net liability positions are generally not adjusted as the company uses derivative transactions as hedges and has the ability and intent to perform under each of these contracts. In the instance of net asset positions, PGS considers general market conditions and the observable financial health and outlook of specific counterparties, forward looking data such as credit default swaps, when available, and historical default probabilities from credit rating agencies in evaluating the potential impact of nonperformance risk to

derivative positions. As of December 31, 2010, substantially all positions with counterparties are net liabilities.

Certain of PGS' derivative instruments contain provisions that require the company debt to maintain an investment grade credit rating from any or all of the major credit rating agencies. If debt ratings were to fall below investment grade, it could trigger these provisions, and the counterparties to the derivative instruments could request immediate payment or demand immediate and ongoing full overnight collateralization on derivative instruments in net liability positions. PGS has no other contingent risk features associated with any derivative instruments.

The table below presents the fair value of the overall contractual contingent liability positions for PGS' derivative activity at December 31, 2010:

Contingent Features

| (millions) | Fair | Value | Derivativ | e Exposure | Po | sted |
|------------------|---------|------------|-----------|------------|-----|---------|
| At Dec. 31, 2010 | Asset/(| Liability) | Asset/(| Liability) | Col | lateral |
| Credit Rating | \$ | (7.9) | \$ | (7.9) | S | |
| Total | \$ | (7.9) | \$ | (7.9) | \$ | 104 |

12. Fair Value

Determination of Fair Value

The company measures fair value using the procedures set forth below for all assets and liabilities measured at fair value that were previously carried at fair value pursuant to other accounting guidelines.

When available, the company uses quoted market prices on assets and liabilities traded on an exchange to determine fair value and classifies such items as Level 1. In some cases where a market exchange price is available, but the assets and liabilities are traded in a secondary market, the company makes use of acceptable practical expedients to calculate fair value, and classifies such items as Level 2.

If observable transactions and other market data are not available, fair value is based upon internally developed models that use, when available, current market-based or independently-sourced market parameters such as interest rates, currency rates or option volatilities. Items valued using internally generated models are classified according to the lowest level input or value driver that is most significant to the valuation. Thus, an item may be classified in Level 3 even though there may be significant inputs that are readily observable.

Items Measured at Fair Value on a Recurring Basis

The following table sets forth by level within the fair value hierarchy the company's financial assets and liabilities that were accounted for at fair value on a recurring basis as of December 31, 2010. As required by accounting standards for fair value measurements, financial assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The company's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels. For all assets and liabilities presented below, the market approach was used in determining fair value.

| Recurring Derivative Fair Value Measures | At Fair Value as of Dec. 31, 2010 | | | | | |
|--|-----------------------------------|------------------|----------------|--------|--|--|
| (millions) | Level 1 | Level 2 | Level 3 | Total | | |
| Assets | | | | | | |
| Natural gas swaps | \$ - | \$ - | \$ - | \$ - | | |
| Total | \$ = | \$ - | \$ - | \$ - | | |
| <u>Liabilities</u> | | | | | | |
| Natural gas swaps | \$ - | \$ 7.9 | \$ - | \$ 7.9 | | |
| Total | \$ - | \$ 7.9 | \$ - | \$ 7.9 | | |
| | | At Fair Value as | of Dec. 31, 20 | 09 | | |
| (millions) | Level 1 | Level 2 | Level 3 | Total | | |
| Assets | | | | | | |
| Natural gas swaps | \$ - | \$ - | \$ - | \$ - | | |
| Total | \$ - | <u>s</u> - | \$ - | \$ - | | |
| Liabilities | | | | | | |
| Natural gas swaps | \$ - | \$ 7.7 | S - | \$ 7.7 | | |
| Total | \$ - | \$ 7.7 | \$ - | \$ 7.7 | | |

Natural gas swaps are over-the-counter swap instruments. The primary pricing inputs in determining the fair value of natural gas swaps are the New York Mercantile Exchange (NYMEX) quoted closing prices of exchange-traded instruments. These prices are applied to the notional amounts of active positions to determine the reported fair value (see **Note 12**).

The company considered the impact of nonperformance risk in determining the fair value of derivatives. The company considered the net position with each counterparty, past performance of both parties and the intent of the parties, indication of credit deterioration, and whether the markets in which we transact have experienced dislocation. At December 31, 2010 the fair value of derivatives was not materially affected by nonperformance risk. The company's net positions with substantially all counterparties were liability positions.

13. Other Comprehensive Income

Peoples Gas System reported the following other comprehensive income (loss) for the years ended December 31, 2010 and 2009 related to changes in the fair value of cash flow hedges and amortization of unrecognized benefit costs associated with the company's pension plans:

| | A Christian Charles and the second control of the control of | | |

⁽¹⁾ Net of tax benefit of \$1.1 million and \$1.3 million as of Dec 31, 2010 and 2009 respectively

14. Restructuring Charges

On July 30, 2009, TECO Energy, Inc. announced organizational changes and a new senior executive team structure as part of its response to industry changes, economic uncertainties and its commitment to maintain a lean and efficient organization. As a second step in response to these factors, on August 31, 2009, the company decided on a total reduction in force which included approximately 39 jobs at PGS. The reduction in force was substantially completed by December 31, 2009. In connection with this reduction in force, PGS incurred \$4.6 million related to severance and benefits. The total cash payments related to these actions were \$3.7 million including the settlement of pension obligations paid during 2009 and early 2010.

Restructuring Charges to be Incurred

| millions) | Termination of Benefits | Other Costs | Total | |

15. Subsequent Events

On February 18, 2011 Tampa Electric Company and TEC Receivables Corp (TRC), a wholly-owned subsidiary of Tampa Electric Company, amended their \$150 million accounts receivable collateralized borrowing facility, entering into Amendment No. 9 to the Loan and Servicing Agreement with certain lenders named therein and Citicorp North America, Inc. as Program Agent. The amendment (i) extends the maturity date to February 17, 2012, (ii) provides that TRC will pay program and liquidity fees, which will total 70 basis points, (iii) provides that the interest rates on the borrowing will be based on prevailing asset-backed commercial paper rates, unless such rates are not available from conduit lenders, in which case the rates will be at an interest rate equal to, at Tampa Electric Company's option, either Citibank's prime rate (or the federal funds rate plus 50 basis points, if higher) or a rate based on the London interbank offer rate (if available) plus a margin and (iv) makes other technical changes.

SECURITIES ISSUED AND SECURITIES REFUNDED OR RETIRED DURING THE YEAR

- Furnish a supplemental statement giving a brief description of security financing and refinancing transactions during the year and the accounting for the securities, discounts, premiums, expenses, and related gains or losses.
- 2. Furnish particulars (details) showing fully the accounting for the total principal amount, par value, or stated value of each class and series of security issued, retired, or refunded and the accounting for premiums, discounts, expenses, and gains or losses relating to the securities. Set forth the facts of the accounting clearly with regard to redemption premiums, unamortized discounts, expenses, and gains or losses relating to securities retired or refunded.
- and gains or losses relating to securities retired or refunded.

 3. Included in the identification of each class and series of security, as appropriate, the interest or dividend rate, nominal date of issuance, maturity date, aggregate principal amount, par value or stated value, and number of shares.
- 4. Where the accounting for amounts relating to securities refunded or retired is other than that specified in General Instruction 17 of the Uniform System of Accounts, give references to the Commission authorization for the different accounting and state the accounting method.

LONG-TERM DEBT (Accounts 221, 222, 223, and 224)

1. Report by balance sheet Account the particulars (details) concerning long-term debt included in Accounts 221, Bonds, 222, Reacquired Bonds, 223, Advances from Associated Companies, and 224, Other Long-Term Debt. If information to meet the stock exchange reporting requirement outlined in column (a) is available from the SEC 10-K Report Form Filing, a specific reference to the report form (i.e., year and company title) may be reported in column (a) provided the fiscal years for both the 10-K report and this report are compatible.

 For advances from Associated Companies, report separately advances on notes and advances on open accounts. Designate demand notes as such. Include in column (a) names of associated companies from which advances were received.

3. If the respondent has any long-term securities which have been nominally issued and are nominally outstanding at end of year, describe such securities in a footnote.

4. If interest expense was incurred during the year on any obligations retired or reacquired before end of year, include such interest in column (f). Explain in a footnote any difference between the total of column (f) and the total of Account 427, Interest on Long-Term Debt and Account 430, Interest on Debt to Associated Companies.

UNAMORTIZED DEBT EXPENSE, PREMIUM AND DISCOUNT ON LONG-TERM DEBT (Accounts 181, 225, 226)

- Report under separate subheadings for Unamortized Debt Expense, Unamortized Premium on Long-Term Debt and Unamortized Discount on Long-Term Debt, particulars (details) of expense, premium or discount applicable to each class and series of long-term debt.
- 2. Show premium amounts by enclosing the figures in parentheses.
- In column (b) show the principal amount of bonds or other long-term debt originally issued.
- In column (c) show the expense, premium or discount with respect
 to the amount of bonds or other long-term debt originally issued.
- Furnish in a footnote particulars (details) regarding the treatment of unamortized debt expense, premium or discount associated with issues redeemed during the year.
- Identify separately indisposed amounts applicable to issues which were redeemed in prior years.
- 7. Explain any debits and credits other than amortization debited to Account 428, Amortization of Debt Discount and Expense, or credited to Account 429, Amortization of

Peoples Gas System

LONG-TERM DEBT (Accounts 221, 222, 223, and 224)

- 1. Report by balance sheet Account the particulars (details) concerning long-term debt included in Accounts 221, Bonds, 222, Reacquired Bonds, 223. Advances from Associated Companies, and 224. Other Long-Term Debt. If information to meet the stock exchange reporting requirement outlined in column (a) is available from the SEC 10-K Report Form Filing, a specific reference to the report form (i.e., year and company title) may be reported in column (a) provided the fiscal years for both the 10-K report and this report are compatible
- 2. For advances from Associated Companies, report separately advances on notes and advances on open accounts. Designate demand notes as such. Include in column (a) names of associated

companies from which advances were received 3 If the respondent has any long-term securities which have been nominally issued and are nominally outstanding at end of year, describe such securities in a footnote. 4. If interest expense was incurred during the year on any obligations retired or reacquired before end of year. include such interest in column (f). Explain in a footnote any difference between the total of column (f) and the total of Account 427, Interest on Long-Term Debt and Account 430, Interest on Debt to Associated Companies.

UNAMORTIZED DEBT EXPENSE, PREMIUM AND DISCOUNT ON LONG-TERM DEBT (Accounts 181, 225, 226)

- 1. Report under separate subheadings for Unamortized Debt Expense. Unamortized Premium on Long-Term Debt and Unamortized Discount on Long-Term Debt, particulars (details) of expense, premium or discount applicable to each class and series of long-term debt.
- 2 Show premium amounts by enclosing the figures in parentheses.
- 3. In column (b) show the principal amount of bonds or other long-term debt originally issued.
- 4. In column (c) show the expense, premium or discount with respect to the amount of bonds or other
- 5. Furnish in a footnote particulars (details) regarding the treatment of unamortized debt expense, premium or discount associated with issues redeemed during the year.
- 6. Identify separately indisposed amounts applicable to issues which were redeemed in prior years.
- 7. Explain any debits and credits other than amortization debited to Account 428, Amortization of Debt Discount and Expense, or credited to Account 429, Amortization of

Peoples Gas System Dec. 31, 2010

RECONCILIATION OF REPORTED NET INCOME WITH TAXABLE INCOME FOR FEDERAL INCOME TAXES

1. Report the reconciliation of reported net income for the year with taxable income used in computing Federal income tax accruals and show computation of such tax accruals. Include in the reconciliation, as far as practicable, the same detail as furnished on Schedule M-1 of the tax return for the year. Submit a reconciliation even though there is no taxable income for the year. Indicate clearly the nature of each reconciling amount.

2. If the utility is a member of a group which files a consolidated Federal tax return, reconcile reported net income with taxable net income as if a separate return were to be filed, indicating, however, intercompany amounts to be eliminated in such a consolidated return. State names of group members, tax assigned to each group member, and basis of allocation,

allocation, assignment, or sharing of the consolidated tax among the group members. YEAR OF REPORT: December 31, 2010

RECONCILIATION OF REPORTED NET INCOME WITH TAXABLE INCOME. FOR FEDERAL INCOME TAXES

Additional information in response to Question 2, Page 25a:

The consolidated federal income tax liability is currently being apportioned in accordance with Internal Revenue Service Regulations Section 1.1552-1(a)(2) and Section 1.1502-33(d)(2)(ii). These regulations provide for allocation of the consolidated tax liability on the basis of the percentage of the total tax to the tax which each member would bear if the tax were computed on a separate return basis. The tax liability allocated to each company cannot exceed the tax liability computed as if each had filed a separate return.

Peoples Gas System participates in the filing of a consolidated federal income tax return.

Affiliates included in the consolidated return are:

Bear Branch Coal Company
Clintwood Elkhorn Mining Company
Gatliff Coal Company
Peoples Gas System (Florida), Inc.
Perry County Coal Corporation
Pike-Letcher Land Company
Power Engineering & Construction, Inc.
Premier Elkhorn Coal Company
Raven Rock Development Corporation

GAS OPERATING REVENUES (Account 400)

- 1. Report below natural gas operating revenues for each prescribed account in total.
- 2. Report number of customers, columns (f) and (g), on the basis of meters, except that where separate meter readings are added for billing purposes, one customer should be counted for each group of meters added. The average number of customers means the average of twelve figures at the close of each month.
- 3 Report quantities of natural gas sold in therms (14.73 psia at 60 F).
- 4. Report gas service revenues and therms sold by rate schedule.
 5. If increases or decreases from previous year (columns (c),(e), and (g)), are not derived from previously reported figures, explain

| | | Operating f | Revenues | Therms of Nati | ural Gas Sold | Customer | Natural Gas s Per Mo. |

| | | NUMBER OF GAS DEPARTMENT EMPLOYEES | |
|----|----|---|------------|
| | 2. | The data on number of employees should be reported for payroll period ending nearest to October 31, or any payroll period ending 60 days before or after October 31. If the respondent's payroll for the reporting period includes any special construction personnel, include such employees on line 3, and show the number of such special construction employees in a footnote. The number of employees assignable to the gas department from joint functions of combination utilities may be determined by estimate, on the basis of employee equivalents. Show the estimated number of equivalent employees attributed to the gas department from joint functions. | |

DISTRIBUTION OF SALARIES AND WAGES

Report below the distribution of total salaries and wages for the year. Segregate amounts originally charged to clearing accounts to Utility Departments, Construction, Plant Removals, and Other Accounts, and enter such amounts in the appropriate lines and columns provided. In determining this segregation of salaries and wages originally charged to clearing accounts, a method of approximation giving substantially correct results may be used.
