## **GENERAL WATER SYSTEM INFORMATION**

	Furnish information below for each system. A separate page should be supplied where necessary.
1.	Present ERC's * the system can efficiently serve 129
2.	Maximum number of ERCs * which can be served 129
3.	Present system connection capacity (in ERCs *) using existing lines 129
4.	Future connection capacity (in ERCs *) upon service area buildout 129
5.	Estimated annual increase in ERCs *None
6.	Is the utility required to have fire flow capacity? No If so, how much capacity is required?
7.	Attach a description of the fire fighting facilities.
8.	Describe any plans and estimated completion dates for any enlargements or improvements of this system.
a	When did the company last file a capacity analysis report with the DEP?
10.	If the present system does not meet the requirements of DEP rules, submit the following:
	a. Attach a description of the plant upgrade necessary to meet the DEP rules.
	b. Have these plans been approved by DEP?
	c. When will construction begin?
	d. Attach plans for funding the required upgrading.
	e. Is this system under any Consent Order with DEP? No
11.	Department of Environmental Protection ID #
12.	Water Management District Consumptive Use Permit #
	a. Is the system in compliance with the requirements of the CUP?Yes
	b. If not, what are the utility's plans to gain compliance?
	* An ERC is determined based on one of the following methods:  (a) If actual flow data are available from the proceding 12 months:  Divide the total annual single family residence (SFR) gallons sold by the average number of single family residents (SFR) gallons sold by the average number of single family residence customers for the same period and divide the result by 365 days.  (b) If no historical flow data are available use:  ERC = (Total SFR gallons sold (omit 000/365 days/350 gallons per day).

## **GENERAL WASTEWATER SYSTEM INFORMATION**

		Furnish information below for each system. A separate page should be supplied where necessary.
	1.	Present number of ERCs* now being served 44
	2.	Maximum number of ERCs* which can be served. 44
	3.	Present system connection capacity (in ERCs*) using existing lines44
	4.	Future connection capacity (in ERCs*) upon service area buildout44
	5.	Estimated annual increase in ERCs* None
6. [	escr —	ibe any plans and estimated completion dates for any enlargements or improvements of this system
	7.	If the utility uses reuse as a means of effluent disposal, provide a list of the reuse end users and the amount of reuse provided to each, if known.
	8.	If the utility does not engage in reuse, has a reuse feasibility study been completed?
		If so, when?
	9.	Has the utility been required by the DEP or water management district to implement reuse? No
		If so, what are the utility's plans to comply with this requirement?
	10	. When did the company last file a capacity analysis report with the DEP?1999
	11	. If the present system does not meet the requirements of DEP rules, submit the following:
		a. Attach a description of the plant upgrade necessary to meet the DEP rules.     b. Have these plans been approved by DEP?
		c. When will construction begin?
		e. Is this system under any Consent Order with DEP? No
	12	. Department of Environmental Protection ID # _ DO-53-252380
	*	An ERC is determined based on one of the following methods:  (a) If actual flow data are available from the proceding 12 months:  Divide the total annual single family residence (SFR) gallons sold by the average number of single family residents (SFR) gallons sold by the average number of single family residence customers for the same period and divide the result by 365 days.
		(b) If no historical flow data are available use:  ERC = (Total SFR gallons sold (omit 000/365 days/280 gallons per day).

## **CERTIFICATION OF ANNUAL REPORT**

I HEREBY CERTIFY, to the best of my knowledge and belief:

\* Each of the four items must be certified YES or NO. Each item need not be certified by both officers. The items being certified by the officer should be indicated in the appropriate area to the left of the signature.

Notice: Section 837.06, Florida Statutes, provides that any person who knowingly makes a false statement in writing with the intent to mislead a public servant in the performance of his duty shall be guilty of a misdemeanor of the second degree.
